EAGLE BANCORP AND SUBSIDIARY  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

**NOTE 1. BASIS OF PRESENTATION**

The accompanying unaudited consolidated financial statements have been prepared in accordance with instructions for Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. However, such information reflects all adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of results for the unaudited interim periods.

The results of operations for the three month and nine month periods ended March 31, 2005 are not necessarily indicative of the results to be expected for the fiscal year ending June 30, 2005 or any other period. The unaudited consolidated financial statements and notes presented herein should be read in conjunction with the audited consolidated financial statements and related notes thereto included in Eagle's Form 10-KSB dated June 30, 2004.

Money market	28,166,795	30,332,871
Time certificates of deposit	76,380,695	75,235,470
Total	\$ 170,796,064	\$ 170,068,880

**NOTE 5. EARNINGS PER SHARE**

Basic earnings per share for the three months ended March 31, 2005 is computed using 1,106,049 weighted average shares outstanding. Earnings per share for the nine months ended March 31, 2005 is computed using 1,141,231 weighted average shares outstanding. Basic earnings per share for the three months ended March 31, 2004 is computed using 1,186,202 weighted average shares outstanding. Earnings per share for the nine months ended March 31, 2004 is computed using 1,182,624 weighted average shares outstanding. Diluted earnings per share is computed using the treasury stock method by adjusting the number of shares outstanding by the shares purchased. The weighted average shares outstanding for the diluted earnings per share calculations are 1,200,962 for the three months ended March 31, 2005 and 1,199,811 for the nine months ended March 31, 2005. Diluted earnings per share for the three months and nine months ended March 31, 2004 is computed using 1,196,362 and 1,195,210 weighted average shares outstanding, respectively.

**NOTE 6. DIVIDENDS AND STOCK REPURCHASE PROGRAM**

This fiscal year Eagle has paid three dividends of \$0.18 per share, on August 27, 2004, November 19, 2004 and February 11, 2005. A dividend of \$0.18 per share was declared on April 21, 2005, payable May 20, 2005 to stockholders of record on May 6, 2005. Eagle Financial MHC, Eagle's mutual holding company, has waived the receipt of dividends on its 648,493 shares.

At their regular meeting of January 20, 2005, the Company's Board of Directors approved a stock repurchase program for up to 57,500 shares. This represented approximately 11% of the outstanding common stock held by the public. The repurchased shares will be held as treasury stock and will be held for general corporate purposes and/or issuance pursuant to Eagle's benefit plans. All shares were purchased under this program on February 10, 2005.

EAGLE BANCORP AND SUBSIDIARY  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

**NOTE 7. MORTGAGE SERVICING RIGHTS**

The Bank allocates its total cost in mortgage loans between mortgage servicing rights and loans, based upon their relative fair values, when loans are subsequently sold or securitized, with the servicing rights retained. Fair values are generally obtained from an independent third party. Impairment of mortgage servicing rights is measured based upon the characteristics of the individual loans, including note rate, term, underlying collateral, current market conditions, and estimates of net servicing income. If the carrying value of the mortgage servicing rights exceeds the estimated fair market value, a valuation allowance is established for any decline, which is viewed to be temporary. Charges to the valuation allowance are charged against or credited to mortgage servicing income. Periodic independent valuations of the mortgage servicing rights are performed. As a result of the most recent valuation, no temporary decline in the fair value was determined to have occurred, and no valuation allowance has been established. The following schedules show the activity in the mortgage servicing rights and the valuation allowance.

	Nine months ended March 31, 2005 (Unaudited)	Twelve months ended June 30, 2004 (Audited)

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

**Note Regarding Forward-Looking Statements**

This report contains certain “forward-looking statements.” Eagle Bancorp (“Eagle” or the “Company”) desires to take advantage of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995 and is including this statement for the express purpose of availing itself of the protections of the safe harbor with respect to all such forward-looking statements. These forward-looking statements, which are included in Management’s Discussion and Analysis, describe future plans or strategies and include Eagle’s expectations of future financial results. The words “believe,” “expect,” “anticipate,” “estimate,” “project,” and similar expressions identify forward-looking statements. Eagle’s ability to predict results or the effect of future plans or strategies or qualitative or quantitative changes based on market risk is inherently uncertain. Factors which could affect actual results but are not limited to include (i) change in general market interest rates, (ii) general economic conditions, (iii) local economic conditions, (iv) legislative/regulatory changes, (v) monetary and fiscal policies of the U.S. Treasury and Federal Reserve, (vi) changes in the quality or composition of Eagle’s loan and investment portfolios, (vii) demand for loan products, (viii) deposit flows, (ix) competition, and (x) demand for financial services in Eagle’s markets. These factors should be considered in evaluating the forward-looking statements. You are cautioned not to place undue reliance on these forward-looking statements which speak only as of their dates.

**Overview**

The Company’s primary activity is its ownership of its wholly owned subsidiary, American Federal Savings Bank (the “Bank”). The Bank is a federally chartered savings bank, engaging in typical banking activities: acquiring deposits from local markets and investing in loans and investment securities. The Bank’s primary component of earnings is its net interest margin (also called spread or margin), the difference between interest income and interest expense. The net interest margin is managed by management (through the pricing of its products and by the types of products offered and kept in portfolio), and is affected by moves in interest rates. Noninterest income in the form of fee income and gain on sale of loans adds to the Bank’s income.

The Bank has a strong mortgage lending focus, with the majority of its loans in single-family residential mortgages. This has led to successfully marketing home equity loans to its customers, as well as a wide range of shorter term consumer loans for various personal needs (automobiles, recreational vehicles, etc.). In recent years the Bank has focused on adding commercial loans to its portfolio, both real estate and non-real estate. The purpose of this diversification is to mitigate the Bank’s dependence on the mortgage market, as well as to improve its ability to manage its spread. The Bank’s management recognizes the need for sources of fee income to complement its margin, and the Bank now maintains a significant loan servicing portfolio, which provides a steady source of fee income. Gains on sale of loans also provide significant fee income in periods of high mortgage loan origination volumes. Fee income is also supplemented with fees generated from the Bank’s deposit accounts. The Bank has a high percentage of non-maturity deposits, such as checking accounts and savings accounts, which allows management flexibility in managing its spread. Non-maturity deposits do not automatically reprice as interest rates rise, as do certificates of deposit.

EAGLE BANCORP AND SUBSIDIARY  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

**Overview (continued)**

For the past year, management's focus has been on improving the Bank's core earnings. Core earnings can be described as income before taxes, with the exclusion of gain on sale of loans and adjustments to the market value of the Bank's loan serviced portfolio. In the previous two fiscal years, the Bank experienced very strong mortgage loan origination volume due to low interest rates and large refinancing activity. If, as expected, interest rates rise, mortgage volume will likely decrease (as has already been the case in the current fiscal year), reducing this component of income. Management believes that the Bank will need to focus on increasing net interest margin, other areas of fee income, and controlling operating expenses to achieve earnings growth going forward. Management's strategy of growing the bank's loan portfolio, reducing the investment portfolio and growing the deposit base is expected to help achieve these goals: loans typically earn higher rates of return than investments; a larger deposit base will yield higher fee income; increasing the asset base will reduce the relative impact of fixed operating costs.

The level and movement of interest rates impacts the Bank's earnings as well. In the past year, the yield curve has flattened dramatically, i.e. short-term interest rates have risen much more than long-term interest rates, with some long-term rates actually declining in the past year. This can have a negative impact on the Bank's net interest margin as its deposits are typically priced relative to short-term rates, while the majority of its loan products are priced relative to long-term rates. The Bank has been able to partially offset this effect by reinvesting investment proceeds in the loan portfolio, because as noted earlier, loans typically earn higher rates of return than investments.

Another factor which has impacted recent earnings has been the volatility in the value of the Bank's mortgage servicing rights. The value declined significantly in fiscal year 2003, only to recover almost the entire amount in fiscal year 2004. As short-term interest rates have risen over the last year, accompanied by the expectation of increases in long-term interest rates, the value of the servicing rights has risen to the point where no valuation allowance is required at the present time. Comparisons of fiscal year 2005 to fiscal year 2004 will still be affected by the large recovery of the valuation allowance that occurred in 2004.

**Financial Condition**

Comparisons in this section are between the nine months ended March 31, 2005 and June 30, 2004.

Total assets decreased by \$4.82 million, or 2.37%, to \$198.19 million at March 31, 2005, from \$203.01 million at June 30, 2004. Total liabilities decreased by \$2.32 million to \$176.67 million at March 31, 2005, from \$178.99 million at June 30, 2004. Total equity decreased \$2.50 million to \$21.52 million at March 31, 2005 from \$24.02 million at June 30, 2004.

EAGLE BANCORP AND SUBSIDIARY  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

**Financial Condition (continued)**

Investment securities available-for-sale (AFS) decreased \$11.09 million, or 12.52%, to \$77.46 million at March 31, 2005 from \$88.55 million at June 30, 2004. The investment category with the largest decrease was collateralized mortgage obligations, which decreased \$4.88 million. Loans receivable increased \$6.95 million, or 7.52%, to \$99.41 million at March 31, 2005 from \$92.46 million at June 30, 2004. Most loan categories showed an increase. Construction loans declined \$3.42 million since June 30, 2004 due to completion of a large commercial construction project, while single family mortgages increased \$5.99 million in the same time period. Total loan originations were \$62.08 million for the nine months ended March 31, 2005, with single family mortgages (including \$3.23 million of construction loans) accounting for \$41.73 million of the total. Home equity and consumer loan originations totaled \$7.46 million and \$4.97 million, respectively, for the same period. Commercial real estate and land loan originations totaled \$5.56 million. Loans held for sale decreased to \$1.07 million at March 31, 2005 from \$1.44 million at June 30, 2004.

Advances from the Federal Home Loan Bank of Seattle (FHLB) decreased \$3.17 million, to \$4.28 million from \$7.45 million, while deposits were up slightly. Noninterest checking accounts and certificates of deposit showed the largest increases in deposit accounts.

Total equity declined as a result of \$3.90 million in treasury stock purchased during the period, earnings for the nine months of \$1.37 million, a decrease in other comprehensive loss of \$139,000 (due to a reduction in net unrealized loss on securities available-for-sale) and the payment of three quarterly \$0.18 per share regular cash dividends.

**Results of Operations for the Three Months Ended March 31, 2005 and 2004**

*Net Income.* Eagle's net income was \$445,000 and \$396,000 for the three months ended March 31, 2005, and 2004, respectively. The increase of \$49,000, or 12.37%, was primarily due to an increase in noninterest income of \$51,000, a decrease in noninterest expense of \$4,000, and an increase in net interest income of \$3,000. Eagle's tax provision was \$9,000 higher in the current quarter. Basic earnings per share were \$0.40 for the current period, compared to \$0.33 for the previous year's period.

*Net Interest Income.* Net interest income increased \$3,000 for the current quarter. Total interest and dividend income decreased \$122,000, which was offset by the decrease in interest expense of \$125,000.

*Interest and Dividend Income.* Total interest and dividend income was \$2.261 million for the quarter ended March 31, 2005, compared to \$2.383 million for the quarter ended March 31, 2004, representing a decrease of \$122,000, or 5.12%. Interest and fees on loans decreased to \$1.526 million for the three months ended March 31, 2005 from \$1.535 million for the same period ended March 31, 2004. This decrease of only \$9,000, or 0.59%, was due to the decline in the average

EAGLE BANCORP AND SUBSIDIARY  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

**Results of Operations for the Three Months Ended March 31, 2005 and 2004 (continued)**

interest rate earned on loans, partially offset by higher average balances. The average interest rate earned on loans receivable decreased by 29 basis points, from 6.51% at March 31, 2004 to 6.22% at March 31, 2005. Average balances for loans receivable, net, increased for the quarter ended March 31, 2005 to \$98.13 million, compared to \$94.34 million for the previous year. This represents an increase of \$3.79 million, or 4.02%. The categories with the largest increases since last year are commercial real estate and residential mortgage loans.

Interest and dividends on investment securities available-for-sale (AFS) decreased to \$708,000 for the quarter ended March 31, 2005 from \$802,000 for the same quarter last year. Average balances on investments decreased to \$81.46 million for the quarter ended March 31, 2005, compared to \$91.38 million for the quarter ended March 31, 2004. The average interest rate earned on investments dropped to 3.56% from 3.61%. Interest on securities held-to-maturity (HTM) decreased from \$22,000 to \$16,000, as new purchases are placed in the AFS portfolio. Dividends on FHLB stock decreased to \$6,000 for the quarter ended March 31, 2005 from \$17,000 for the quarter ended March 31, 2004, due to the FHLB lowering their dividend rate.

*Interest Expense.* Total interest expense decreased to \$629,000 for the quarter ended March 31, 2005, from \$754,000 for the quarter ended March 31, 2004, a decrease of \$125,000, or 16.58%, primarily due to a decrease in interest paid on FHLB advances. A decrease in the average balance of borrowings from the FHLB, as well as a decrease in the average rate paid, resulted in a decrease in interest paid on borrowings to \$31,000 in the current quarter compared to \$143,000 in the previous year's quarter. The Bank has paid off higher rate borrowings since March 2004. Interest on deposits decreased to \$598,000 for the quarter ended March 31, 2005. This decrease of \$13,000, or 2.13%, was the result of slight decreases in average rates paid and average balances. Average balances in interest-bearing deposit accounts decreased to \$160.03 million for the quarter ended March 31, 2005, compared to \$160.91 million for the same quarter in the previous year. The average rate paid on liabilities declined 24 basis points from the quarter ended March 31, 2004 to the quarter ended March 31, 2005.

*Provision for Loan Losses.* Provisions for loan losses are charged to earnings to maintain the total allowance for loan losses at a level considered adequate by the Bank, to provide for probable loan losses based on prior loss experience, volume and type of lending conducted by the Bank, available peer group information, and past due loans in portfolio. The Bank's policies require the review of assets on a quarterly basis. The Bank classifies loans as well as other assets if warranted. While the Bank believes it uses the best information available to make a determination with respect to the allowance for loan losses, it recognizes that future adjustments may be necessary. No provision was made for loan losses for either the quarter ended March 31, 2005 or the quarter ended March 31, 2004. This is a reflection of the continued strong asset quality of the Bank's loan portfolio. Total classified assets decreased slightly from \$924,000 at June 30, 2004 to \$875,000 at March 31, 2005. The Bank currently has no foreclosed real estate.

EAGLE BANCORP AND SUBSIDIARY  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

**Results of Operations for the Three Months Ended March 31, 2005 and 2004 (continued)**

*Noninterest Income.* Total noninterest income increased to \$548,000 for the quarter ended March 31, 2005, from \$497,000 for the quarter ended March 31, 2004, an increase of \$51,000 or 10.26%. This was primarily due to increases in mortgage loan servicing fees and "other" noninterest income, which more than offset a decline in net gain on sale of loans. Mortgage loan origination volume is lower due principally to a decline in mortgage loan refinancing activity. Mortgage loan servicing fees increased by \$111,000 due primarily to a decrease in the value of the Bank's mortgage servicing rights in last year's quarter of \$89,000. "Other" noninterest income increased \$50,000 from the previous year's quarter due to increased income on Bank Owned Life Insurance (BOLI) (additional BOLI was purchased in the quarter ended December 31, 2004) and higher fee income on credit cards and ATM related fees. Demand deposit service charges decreased \$23,000 for the quarter ended March 31, 2005 to \$126,000 from \$149,000 for the quarter ended March 31, 2004. This was due to decreased income on overdraft fees.

*Noninterest Expense.* Noninterest expense decreased by \$4,000, or 0.26%, to \$1.559 million for the quarter ended March 31, 2005, from \$1.563 million for the quarter ended March 31, 2004. This decrease was primarily due to decreases in "other" noninterest expense of \$47,000 and amortization of mortgage servicing fees of \$32,000, partially offset by increases in salaries and benefits (merit raises and higher benefit costs) of \$44,000 and furniture and equipment depreciation (new computer equipment) of \$18,000. The decrease in "other" noninterest expense was due to decreases in several categories. The decrease in the amortization of mortgage servicing fees was related to decreased prepayment activity on mortgage loans. Other expense categories showed minor changes.

*Income Tax Expense.* Eagle's income tax expense was \$176,000 for the quarter ended March 31, 2005, compared to \$167,000 for the quarter ended March 31, 2004. The effective tax rate for the quarter ended March 31, 2005 was 28.41% and was 29.66% for the quarter ended March 31, 2004. Management expects Eagle's effective tax rate to be approximately 31%.

**Results of Operations for the Nine Months Ended March 31, 2005 and 2004**

*Net Income.* Eagle's net income was \$1.373 million and \$1.746 million for the nine months ended March 31, 2005 and 2004, respectively. The decrease of \$373,000, or 21.36%, was primarily due to a decrease in noninterest income of \$1.042 million, offset by an increase in net interest income of \$280,000, and a decrease in noninterest expense of \$72,000. Eagle's tax provision was \$317,000 lower in the current nine month period. Basic earnings per share were \$1.20, compared to \$1.48 per share for the period ended March 31, 2004.

*Net Interest Income.* Net interest income increased to \$4.853 million for the nine months ended March 31, 2005 from \$4.573 million for the nine months ended March 31, 2004. This increase of \$280,000 was the result of a decrease in interest expense of \$598,000, partially offset by a decrease in interest and dividend income of \$318,000.

EAGLE BANCORP AND SUBSIDIARY  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

**Results of Operations for the Nine Months Ended March 31, 2005 and 2004 (continued)**

*Interest and Dividend Income.* Total interest and dividend income was \$6.741 million for the nine months ended March 31, 2005, compared to \$7.059 million for the same period ended March 31, 2004, representing a decrease of \$318,000, or 4.50%. Interest and fees on loans decreased to \$4.498 million for 2005 from \$4.821 million for 2004. This decrease of \$323,000, or 6.70%, was due to a decline in the average interest rate earned on loans. Average balances for loans receivable, net, declined less than 1%, to \$95.81 million, compared to \$96.00 million for the previous year. The average interest rate earned on loans receivable decreased by 44 basis points, to 6.26% from 6.70%. Interest and dividends on securities available-for-sale (AFS) increased to \$2.137 million for the nine months ended March 31, 2005 from \$2.069 million for the nine months ended March 31, 2004. Average balances on investment securities actually decreased to \$85.13 million for the nine months ended March 31, 2005 compared to \$89.20 million for the same period ended March 31, 2004. The average interest rate earned on investments increased 23 basis points, to 3.43% from 3.20%. As mentioned in the Overview section above, management is reinvesting proceeds from investment principal payments into the loan portfolio, which has caused the investment balances to decline. A slowdown in prepayment activity on mortgage-backed securities and collateralized mortgage obligations has slowed amortization of premiums, which has contributed to the higher average yield on investments. Dividends on FHLB stock decreased to \$27,000 for the nine months ended March 31, 2005 from \$61,000 for the nine months ended March 31, 2004 due to the lower dividend rate.

*Interest Expense.* Total interest expense decreased to \$1.888 million for the nine months ended March 31, 2005 from \$2.486 million for the nine months ended March 31, 2004, a decrease of \$598,000, or 24.05%. Interest on deposits decreased to \$1.764 million for the nine months ended March 31, 2005 from \$2.053 million for the nine months ended March 31, 2004. This decrease of \$289,000, or 14.08%, was the result of a decrease in average rates paid on deposit accounts and a decline in average balances in deposit accounts. Average rates paid on all interest-bearing deposits declined from 2004 to 2005 with the average rate paid on all liabilities dropping by 41 basis points from the nine month period ended March 31, 2004 to the nine month period ended March 31, 2005. Average balances in interest-bearing deposits decreased to \$160.87 million for the nine month period ended March 31, 2005 compared to \$162.69 million for the same period in the previous year. Interest paid on borrowings decreased to \$124,000 for the nine months ended March 31, 2005 from \$433,000 for the same period ended March 31, 2004. The decrease in borrowing costs was due to decreases in both the average rate paid and the average balance of Federal Home Loan Bank advances.

*Provision for Loan Losses.* Provisions for loan losses are charged to earnings to maintain the total allowance for loan losses at a level considered adequate by the Bank, to provide for probable loan losses based on prior loss experience, volume and type of lending conducted by the Bank, available peer group information, and past due loans in portfolio. The Bank's policies require the review of assets on a quarterly basis. The Bank classifies loans as well as other assets if warranted. While the Bank believes it uses the best information available to make a determination with respect to the allowance for loan losses, it recognizes that future adjustments may be necessary. No provision was made for loan losses for either of the nine month periods ended March 31, 2005 or March 31, 2004.

EAGLE BANCORP AND SUBSIDIARY  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

**Results of Operations for the Nine Months Ended March 31, 2005 and 2004 (continued)**

This is a reflection of the continued strong asset quality of the Bank's loan portfolio. Total classified assets decreased to \$875,000 at March 31, 2005 from \$924,000 at June 30, 2004. The Bank currently has no foreclosed property.

*Noninterest Income.* Total noninterest income decreased to \$1.602 million for the nine months ended March 31, 2005, from \$2.644 million for the nine months ended March 31, 2004, a decrease of \$1.042 million, or 39.41%. This was primarily due to the significant decline in net gain on sale of loans and to larger increases in the value of the Bank's mortgage servicing rights in the previous year's period. Net gain on sale of loans declined to \$344,000 for the nine months ended March 31, 2005, compared to \$1.002 million for the same period ended March 31, 2004. This decrease was due to a decline in mortgage originations, caused by a slowdown in mortgage refinance activity. Mortgage loan servicing fees declined to \$493,000 in 2005 from \$880,000 in 2004. In the nine month period ended March 31, 2004, the value of the Bank's mortgage servicing rights increased by \$478,000. In the current nine month period, the value of the mortgage servicing rights increased by \$60,000. Demand deposit service charges decreased to \$411,000 for the nine month period ended March 31, 2005 from \$476,000 for the same period ended March 31, 2004. This was due to decreased income on overdraft charges. "Other" noninterest income increased to \$345,000 for the nine month period ended March 31, 2005 from \$274,000 for the same period a year ago, primarily due to increased income on Bank Owned Life Insurance and credit card and ATM related fees.

*Noninterest Expense.* Noninterest expense decreased by \$72,000, or 1.54%, to \$4.616 million for the nine months ended March 31, 2005, from \$4.688 million for the nine months ended March 31, 2004. This decrease was primarily due to decreases in the amortization of mortgage servicing fees of \$230,000 and "other" noninterest expense of \$79,000. The decrease in amortization of mortgage servicing fees was related to decreased prepayment activity on mortgage loans for the nine month period. The decrease in "other" noninterest expense was due to decreases in several categories. Salaries and benefit expenses increased \$124,000 due to merit increases and to a reduction in the amount of salaries capitalized for SFAS 91 (as loan originations decline, the amount of capitalized salary expense declines, thereby increasing salary expense). Furniture and equipment depreciation expense increased \$54,000 due to the purchase of new computer equipment for check imaging. Other categories of noninterest expense showed modest changes.

*Income Tax Expense.* Eagle's income tax expense was \$467,000 for the nine months ended March 31, 2005, compared to \$784,000 for the nine months ended March 31, 2004. The effective tax rate for the nine months ended March 31, 2005 was 25.36% and was 30.98% for the nine months ended March 31, 2004.

EAGLE BANCORP AND SUBSIDIARY  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

**Liquidity, Interest Rate Sensitivity and Capital Resources**

The Company's subsidiary, American Federal Savings Bank (the Bank), is required to maintain minimum levels of liquid assets as defined by the Office of Thrift Supervision (OTS) regulations. The OTS has eliminated the statutory requirement based upon a percentage of deposits and short-term borrowings. The OTS states that the liquidity requirement is retained for safety and soundness purposes, and that appropriate levels of liquidity will depend upon the types of activities in which the company engages. For internal reporting purposes, the Bank uses the previous regulatory definitions of liquidity. The Bank's average liquidity ratio was 15.21% and 24.07% for the one month periods ended March 31, 2005 and March 31, 2004, respectively. Liquidity decreased due to decreased investment balances and the pledging of certain securities as collateral for FHLB borrowings.

The Bank's primary sources of funds are deposits, repayment of loans and mortgage-backed securities, maturities of investments, funds provided from operations, and advances from the Federal Home Loan Bank of Seattle. Scheduled repayments of loans and mortgage-backed securities and maturities of investment securities are generally predictable. However, other sources of funds, such as deposit flows and loan prepayments, can be greatly influenced by the general level of interest rates, economic conditions and competition. The Bank uses liquidity resources principally to fund existing and future loan commitments. It also uses them to fund maturing certificates of deposit, demand deposit withdrawals and to invest in other loans and investments, maintain liquidity, and meet operating expenses.

Liquidity may be adversely affected by unexpected deposit outflows, higher interest rates paid by competitors, and similar matters. Management monitors projected liquidity needs and determines the level desirable, based in part on commitments to make loans and management's assessment of the bank's ability to generate funds.

At December 31, 2004 (the most recent report available), the Bank's measure of sensitivity to interest rate movements, as measured by the OTS, improved slightly from the previous quarter. The Bank's capital ratio as measured by the OTS increased during the same period. The Bank is well within the guidelines set forth by the Board of Directors for interest rate risk sensitivity.

As of March 31, 2005, the Bank's regulatory capital was in excess of all applicable regulatory requirements. At March 31, 2005, the Bank's tangible, core, and risk-based capital ratios amounted to 12.06%, 12.06%, and 18.40%, respectively, compared to regulatory requirements of 1.5%, 3.0%, and 8.0%, respectively. See the following table (amounts in thousands):

Excess	\$ 21,294	10.56%
<b>Core capital:</b>		
Capital level	\$ 24,319	12.06%
Requirement	6,050	3.00
Excess	\$ 18,269	9.06%
<b>Risk-based capital:</b>		
Capital level	\$ 24,879	18.40%
Requirement	10,817	8.00
Excess	\$ 14,062	10.45%

**Impact of Inflation and Changing Prices**

Our financial statements and the accompanying notes have been prepared in accordance with generally accepted accounting principles, which require the measurement of financial position and operating results in terms of historical dollars without considering the change in the relative purchasing power of money over time and due to inflation. The impact of inflation is reflected in the increased cost of our operations. Interest rates have a greater impact on our performance than do the general levels of inflation. Interest rates do not necessarily move in the same direction or to the same extent as the prices of goods and services.

**Application of Critical Accounting Policies**

There are a number of accounting estimates performed by the Company in preparing its financial statements. Some of the estimates are developed internally, while others are obtained from independent third parties. Examples of estimates using external sources are the fair market value of investment securities, fair value of mortgage servicing rights, deferred compensation, and appraised value of foreclosed properties. It is management's assertion that the external sources have access to resources, methodologies, and markets that provide adequate assurances that no material impact would occur due to changes in assumptions. The following accounting estimates are performed internally:

**Application of Critical Accounting Policies (continued)**

*Allowance for Loan and Lease Losses (ALLL)* – Management applies its knowledge of current local economic and real estate market conditions, historical experience, loan portfolio composition, and the assessment of delinquent borrowers' situations, to determine the adequacy of its ALLL reserve. These factors are reviewed by the Bank's federal banking regulator and the Company's external auditors on a regular basis. The current level of the ALLL reserve is deemed to be more than adequate given the above factors, with no material impact expected due to a difference in the assumptions.

*Deferred Loan Fees* – Management applies time study and statistical analysis to determine loan origination costs to be capitalized under FAS 91. The analysis is reviewed by the Company's external auditors for reasonableness. No material impact is expected if different assumptions are used, as many of our loans have a short duration.

*Deferred Tax Assets* – Management expects to realize the deferred tax assets due to the continue profitability of the Company.

*Fair Value of Other Financial Instruments* – Management uses an internal model to determine fair value for its loan portfolio and certificates of deposit. The assumptions entail spreads over the Treasury yield curve at appropriate maturity benchmarks. Assumptions incorporating different spreads would naturally deliver varying results, however due to short-term nature of the loan portfolio and certificates of deposit, changes in the results would be mitigated. Currently, the fair value is only presented as footnote information, and changes due to new assumptions would not, in management's opinion, affect the reader's opinion of the Company's financial condition.

*Economic Life of Fixed Assets* – Management determines the useful life of its buildings, furniture, and equipment for depreciation purposes. These estimates are reviewed by the Company's external auditors for reasonableness. No material impact is expected if different assumptions were to be used.

CONTROLS AND PROCEDURES

Based on their evaluation, the company's Chief Executive Officer, Larry A. Dreyer, and Chief Financial Officer, Peter J. Johnson, have concluded the company's disclosure controls and procedures are effective as of March 31, 2004 to ensure that information required to be disclosed in the reports that the company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. During the last fiscal quarter, there have been no significant changes in the company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the company's internal control over financial reporting.
