PROPOSAL 1

AMENDMENT TO OUR ARTICLES OF

INCORPORATION TO EFFECTUATE A 1-FOR-UP TO 500 REVERSE STOCK SPLIT

Introduction

On November 21, 2006, our board of directors unanimously adopted a resolution declaring it advisable to amend our articles of incorporation to effectuate a 1-for-up to 500 reverse stock split. Our board of directors further directed that this amendment to our articles of incorporation be submitted for consideration by our stockholders. On November 21, 2006, the holders of our voting stock approved the 1-for-up to 500 reverse stock split. A copy of the amendment to our articles of incorporation is attached to this information statements as Appendix A.

Effective Time of the Reverse Split

We intend to file, as soon as practicable on or after the twentieth (20th) day after this information statement is sent to our shareholders, an amendment to our articles of incorporation effectuating the reverse stock split with the Secretary of State of Florida. This amendment to our articles of incorporation will become effective at the close of business on the date the amendment to the articles of incorporation is accepted for filing by the Secretary of State of Florida. It is presently contemplated that such filing will be made on or after January 3, 2006. A copy of the amendment to our articles of incorporation is attached to this information statement as Appendix A.

Reasons for the Reverse Stock Split

Our board of directors seeks to adopt the one for up to five hundred reverse stock split in order to improve our capitalization. The number of total shares outstanding on November 21, 2006 was 183,658,574. Our board of directors believes that this number of outstanding shares, along with the low per share market price of our common stock, impairs its marketability to and acceptance by institutional investors and other members of the investing public and creates a negative impression of our company.

Theoretically, decreasing the number of shares of common stock outstanding should not, by itself, affect the marketability of the shares, the type of investor who would be interested in acquiring them, or our reputation in the financial community. In practice, however, many investors and market makers consider low-priced stocks as unduly speculative in nature and, as a matter of policy, avoid investment and trading in such stocks. The presence of these negative perceptions may be adversely affecting, and may continue to adversely affect, not only the pricing of our common stock but also its trading liquidity. In addition, these perceptions may affect our commercial business and our ability to raise additional capital through the sale of stock or the cost of debt we may incur.

We hope that the decrease in the number of shares of our outstanding common stock resulting from the reverse split, and the anticipated increase in the price per share, will encourage greater interest in our common stock among members of the financial community and the investing public and possibly create a more liquid market for our stockholders with respect to those shares presently held by them. However, the possibility exists that stockholder liquidity may be adversely affected by the reduced number of shares which would be outstanding if the reverse split is effected, particularly if the price per share of our common stock begins a declining trend after the reverse split is effected. Companies which effectuate reverse stock splits often experience such a declining trend.

Edgar Filing: JACKSON RIVERS CO - Form DEF 14C

It is possible that the reverse split will not achieve any of the desired results. There also can be no assurance that the price per share of our common stock immediately after the reverse split will increase proportionately with the reverse split, or that any increase will be sustained for any period of time.

We are not aware of any present efforts by anyone to accumulate our common stock, and the proposed reverse split is not intended to be an anti-takeover device.

3

Possible Disadvantages

The liquidity of our common stock may be adversely affected by the reduced number of freely-tradeable shares outstanding after the reverse stock-split. The reverse stock-split will cause the number of "odd-lot" holders to go up and cause the number of "round-lot" holders of the common stock to go down. An odd-lot is fewer than 100 shares. The number of round-lot holders is a common measure of a stock's distribution, and a lower number may reflect more negatively on our shares. In addition, the new odd-lot holders may become reluctant to trade their shares because of any stigma or higher commissions associated with odd-lot trading. Stockholders who hold odd-lots may experience an increase in the cost of selling their shares and may have greater difficulty in making sales. This may negatively impact the average trading volume and thereby diminish interest in the common stock by some investors and advisors.

Notwithstanding these potential disadvantages, the board of directors believes that the reverse stock-split is in our best interest for the reasons set forth above.

Effects of Reverse Stock-Split

The reverse stock-split will increase our authorized but unissued common stock, which may be used by our board of directors in order to thwart anti-takeover efforts by outsiders. The board nominees are not aware of any such current takeover efforts, and the reverse split is not being proposed as an anti-takeover measure.

Following the reverse split, our capital structure will be as follows:

- (i) 367,317 shares of common stock outstanding;
- (ii) 990,000,000 shares of common stock authorized, with 989,632,683 shares reserved for issuance

While management is currently seeking attractive equity or debt financing arrangements, there are currently no proposals or arrangements, written or otherwise, to issue additional shares of our common stock at this time. However, should we issue additional shares of stock in the future, this could have the effect of diluting the earnings per share and book value per share of existing shares of common stock.

Our charter currently provides that preferred stock may be issued in one or more series. Our board of directors is authorized to fix the number of shares of any series of preferred stock, to determine the designation of any such series and to determine the rights, preferences, privileges, qualifications and limitations of such preferred stock. Depending upon the nature and terms of any such designated and issued preferred stock, such issuance could make a takeover of our company more difficult and therefore, less likely. An issuance of any shares of preferred stock could have the effect of diluting the earnings per

Edgar Filing: JACKSON RIVERS CO - Form DEF 14C

share and book value per share of existing shares of common stock. The board of directors has no present plans, understandings, or agreements to issue any additional shares of preferred stock. Other than our preferred stock as discussed above, there are no provisions of our articles, bylaws, employment agreements or credit agreements that have material antitakeover consequences.

Stock Certificates and Fractional Shares

Stockholders will be required to exchange their stock certificates for new certificates representing the shares of common stock after giving effect to the reverse stock-split with our transfer agent. Stockholders will not be required to pay a transfer or other fee in connection with the exchange of certificates.

We will not issue any certificates representing fractional shares of our common stock in the transaction, while retaining the current par value of \$0.00001. We will not be paying any cash to stockholders for any fractional shares resulting from the reverse split; rather, any resulting fractional shares shall be rounded up to the nearest whole number.

4

Our transfer agent is Transfer Online, Inc., 367 S.W. Alder St., 2nd floor, Portland, OR 97204.

Procedure for Implementing the Reverse Stock-Split

In connection with the reverse stock-split, up to five hundred (500) shares of our pre-split outstanding common stock will be exchanged for one share of common stock. Post-split shares of our common stock may be obtained by surrendering certificates representing shares of pre-split common stock to our transfer agent. To determine the number of shares of our common stock issuable to any record holder, the total number of shares represented by all of the certificates issued in the name of that record holder held in each account as set forth on the records of the transfer agent on the date upon which the split becomes effective will be divided by 500 or less.

We will not issue any certificates representing fractional shares of our common stock in the transaction, while retaining the current par value of \$0.00001. Any resulting fractional shares shall be rounded up to the nearest whole number. Upon surrender to the transfer agent of the share certificate(s) representing shares of pre-split common stock, the holder will receive a share certificate representing the appropriate number of shares of our common stock.

Federal Income Tax Consequences

The following discussion generally describes certain federal income tax consequences of the reverse stock-split to our stockholders. The following does not address any foreign, state, local tax or alternative minimum income, or other federal tax consequences of the proposed reverse stock-split. The actual consequences for each stockholder will be governed by the specific facts and circumstances pertaining to such stockholder's acquisition and ownership of the common stock. Each stockholder should consult his or her accountants for more information in this regard.

We believe that the reverse stock-split will qualify as a "recapitalization" under Section 368(a)(1)(E) of the Code or as a stock-for-stock exchange under Section 1036(a) of the Code. As a result, no gain or loss should be recognized by us or our stockholders in connection with the reverse stock-split. A stockholder's aggregate tax basis in his or her shares of post-reverse stock-split common stock received from us will be the same as his

Edgar Filing: JACKSON RIVERS CO - Form DEF 14C

or her aggregate tax basis in the pre- reverse stock-split common stock exchanged therefor. The holding period of the post- reverse stock-split common stock surrendered in exchange therefor will include the period for which the shares of pre-reverse stock-split common stock were held, provided all such common stock was held as a capital asset on the date of the exchange.

This summary is provided for general information only and does not purport to address all aspects of the possible federal income tax consequences of the reverse stock-split and is not intended as tax advice to any person. In particular, and without limiting the foregoing, this summary does not consider the federal income tax consequences to our stockholders in light of their individual investment circumstances or to holders subject to special treatment under the federal income tax laws (such as life insurance companies, regulated investment companies and foreign taxpayers).

No ruling from the Internal Revenue Service or opinion of counsel has been or will be obtained regarding the federal income tax consequences to our stockholders as a result of the reverse stock-split. Accordingly, each stockholder is encouraged to consult his or her tax advisor regarding the specific tax consequences of the proposed transaction to such stockholder, including the application and effect of state, local and foreign income and other tax laws.

No Appraisal Rights

Under Florida law, the company's shareholders are not entitled to appraisal rights with respect to the reverse stock split and the company will not independently provide shareholders with any such right.

PROPOSAL 2 AMENDMENT TO OUR ARTICLES OF INCORPORATION TO CHANGE OUR NAME TO INTERACT HOLDINGS GROUP, INC.

Introduction

On November 21, 2006, our board of directors unanimously adopted a resolution declaring it advisable to amend our articles of incorporation to change our name to "Interact Holdings Group, Inc." or whichever substantially similar name is available. Our board of directors further directed that this amendment to our articles of incorporation be submitted for consideration by our stockholders. On November 21, 2006, the holders of our voting stock approved the amendment of our articles of incorporation to change our name to "Interact Holdings Group, Inc." or whichever substantially similar name is available. A copy of the amendment to our articles of incorporation is attached to this information statement as Appendix A.

Effective Time of the Name Change

We intend to file, as soon as practicable on or after the twentieth (20th) day after this information statement is sent to our shareholders, an amendment to our articles of incorporation effectuating the name change with the Secretary of State of Florida. This amendment to our articles of incorporation will become effective at the close of business on the date the amendment to the articles of incorporation is accepted for filing by the Secretary of State of Florida. It is presently contemplated that such filing will be made on or after January 3, 2006.

Edgar Filing: JACKSON RIVERS CO - Form DEF 14C

Reasons for the Name Change

Our board of directors feels that this name change is in our best interest. In light of our December 2005 acquisition of Diverse Networks, Inc. and our May 2006 acquisition of UTSI International Corporation, the name "The Jackson Rivers Company" no longer accurately reflects the company's operations and interests.

You are not required to exchange your certificate(s) of The Jackson Rivers Company for new stock certificates reflecting our new name of Interact Holdings Group, Inc., or whichever substantially similar name is available, although you may do so if you wish.

6

PROPOSAL 3 AMENDMENT TO OUR CERTIFICATE OF INCORPORATION TO INCREASE OUR AUTHORIZED COMMON STOCK TO 5,000,000,000 SHARES

Introduction

On November 21, 2006, our board of directors unanimously adopted a resolution declaring it advisable to amend our articles of incorporation to increase our authorized common stock from 990,000,000 shares to 5,000,000,000 shares. Our board of directors further directed that this amendment to our articles of incorporation be submitted for consideration by our stockholders. On November 21, 2006, the holders of our voting stock approved the increase of our authorized common stock to 5,000,000,000 shares.

Effective Time of the Charter Amendment Increasing our Authorized Common Stock

We intend to file, as soon as practicable on or after the twentieth (20th) day after this information statement is sent to our shareholders, an amendment to our articles of incorporation effectuating the increase of our authorized common stock with the Secretary of State of Florida. This amendment to our articles of incorporation will become effective at the close of business on the date the amendment to the articles of incorporation is accepted for filing by the Secretary of State of Florida. It is presently contemplated that such filing will be made on or after January 3, 2006. A copy of the amendment to our articles of incorporation is attached to this information statement as Appendix A.

Principal Reasons for Increase in Authorized Common Stock

Currently, our articles of incorporation, as amended, authorize 990,000,000 shares of common stock. Authorizing an additional 4,010,000,000 shares of common stock would give our board of directors the express authority without further action of the stockholders to issue common stock from time to time as the board deems necessary. The board of directors believes it is necessary to have the ability to issue such additional shares of common stock for general corporate purposes. Potential uses of the additional authorized shares may include equity financings, issuance of options, acquisition transactions, stock dividends or distributions, without further action of the stockholders, unless such action were specifically required by applicable state law or by rules of any stock exchange or similar system on which our securities may then be listed. The board of directors chose such a large number of shares of authorized common stock because it wants maximum flexibility to issue common stock in the future without having to seek stockholder approval in the future.

Edgar Filing: JACKSON RIVERS CO - Form DEF 14C

Within the limits imposed by applicable law, described below, shares of common stock could be issued in one or more transactions. Depending upon the nature and terms thereof, such a transaction or transactions could make a takeover of Jackson Rivers more difficult and, therefore, less likely. An issuance of additional shares of common stock could have the effect of diluting the earnings per share and book value per share of existing shares of common stock and diluting the stock ownership of persons seeking to obtain control of Jackson Rivers. The board of directors has no present plans, understandings, or agreements to issue the additional shares to be authorized.

Our charter currently provides that preferred stock may be issued in one or more series. Our board of directors is authorized to fix the number of shares of any series of preferred stock, to determine the designation of any such series and to determine the rights, preferences, privileges, qualifications and limitations of such preferred stock. Depending upon the nature and terms of any such designated and issued preferred stock, such issuance could make a takeover of our company more difficult and therefore, less likely. An issuance of any shares of preferred stock could have the effect of diluting the earnings per share and book value per share of existing shares of common stock. The board of directors has no present plans, understandings, or agreements to issue any additional shares of preferred stock. Other than our preferred stock as discussed above, there are no provisions of our articles, bylaws, employment agreements or credit agreements that have material antitakeover consequences.

7

The board of directors does not currently intend to propose any amendments to Jackson Rivers' articles of incorporation which might be deemed to have the effect of discouraging takeover attempts, although such amendments or other programs may be considered by the board in the future if it believes the interests of the stockholders would be protected thereby. Management might be able to use the additional shares to resist or frustrate a third-party transaction providing an above-market premium that is favored by a majority of the independent shareholders. However, it should be noted that management currently controls over 90% of voting rights with respect to the outstanding common stock and considers a hostile takeover attempt very unlikely.

All shares of common stock which are not issued and outstanding, including the additional shares of common stock that will be authorized when the Charter Amendment becomes effective, would be issuable at any time or from time to time by action of the board of directors without further authorization from stockholders, except to the extent that such further authorization is required by the terms of any agreements into which Jackson Rivers may hereafter enter, by the terms of any securities that Jackson Rivers may hereafter issue, or applicable law.

The additional shares of common stock which would be authorized would have the same rights and privileges as and otherwise be identical to the shares of common stock currently authorized and outstanding.
