August 14, 2009

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10 - Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2009

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 0-21743

NeoMedia Technologies, Inc.
(Exact Name of Issuer as Specified In Its Charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

36-3680347
(I.R.S. Employer
Identification No.)

Two Concourse Parkway, Suite 500, Atlanta, GA 30328
(Address, including zip code, of principal executive offices)

678-638-0460
(Registrants' telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller Reporting Company

Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The number of outstanding shares of the registrant's Common Stock on August 11, 2009 was 2,048,912,609.

FORWARD-LOOKING STATEMENTS

This Form 10-Q contains “forward-looking statements” relating to NeoMedia Technologies, Inc., a Delaware corporation, which represent our current expectations or beliefs including, but not limited to, statements concerning our operations, performance, financial condition and growth. For this purpose, any statements contained in this Form 10-Q that are not statements of historical fact are forward-looking statements. Without limiting the generality of the foregoing, words such as “may”, “anticipate”, “intend”, “could”, “estimate”, or “continue” or the negative or other comparative terminology are intended to identify forward-looking statements. These statements, by their nature, involve substantial risks and uncertainties, such as credit losses, dependence on management and key personnel, variability of quarterly results, the ability to continue our growth strategy and competition, certain of which are beyond our control. Should one or more of these risks or uncertainties materialize or should the underlying assumptions prove incorrect, actual outcomes and results could differ materially from those indicated in the forward-looking statements.

Any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time and it is not possible for us to predict all of such factors, nor can we assess the impact of each such factor on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

NeoMedia Technologies, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Note 1 - General

Business – NeoMedia utilizes the mobile phone by leveraging barcodes (printed symbols) as a seamless mechanism to link brands, advertisers, carriers, retailers and consumers using the power of the mobile internet.

With our barcode ecosystem technology, NeoMedia transforms mobile phones with cameras into barcode scanners which provide instant access to mobile web content whenever a barcode is scanned. A barcode makes any medium immediately interactive – the code links consumers to the multimedia capability of the mobile Web. Combining this technology with analytics and reporting capabilities improves the way advertisers market to mobile consumers.

NeoMedia provides the infrastructure to facilitate mobile barcode scanning and its associated commerce worldwide. Our mobile barcode ecosystem software reads and transmits data from 1D and 2D barcodes to its intended destination. Our code management and clearinghouse platforms create, connect, record, and transmit the transactions embedded in the barcodes, like web-URLs, text messages (SMS), and telephone calls, ubiquitously and reliably.

In order to provide complete mobile marketing solutions, NeoMedia also offers barcode scanning hardware that reads barcodes displayed on mobile phone screens. NeoMedia provides infrastructure solutions to enable mobile ticketing and couponing programs – including scanner hardware and system support software for seamless implementation.

This technology is supported by our patents. In addition, NeoMedia has an open standards philosophy designed to make integration and use of the technology easy for handset manufacturers, mobile operators and advertisers; and the consumer's experience safe, reliable and interoperable.

Going Concern – We have historically incurred net losses and losses from operations and we expect that we will continue to have negative cash flows as we implement our business plan. There can be no assurance that our continuing efforts to execute our business plan will be successful and that we will be able to continue as a going concern. The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("US GAAP"), which contemplate our continuation as a going concern. Net loss from continuing operations for the six months ended June 30, 2009 and 2008 was \$28.6 million and \$5.3 million, respectively. Net cash used for operations during the same periods was \$2.7 million and \$3.2 million, respectively. We also have an accumulated deficit of \$241.2 million and a working capital deficit of \$91.3 million as of June 30, 2009, much of which is related to the derivative value of our financing instruments including \$67.7 million related to the fair value of hybrid and derivative financial instruments, and \$11.6 million related to the carrying value of debentures carried at amortized cost.

The items discussed above raise substantial doubt about our ability to continue as a going concern.

We currently do not have sufficient cash to sustain us for the next twelve months. We will require additional financing in order to execute our operating plan and continue as a going concern. Our management's plan is to attempt to secure adequate funding to bridge the commercialization of our barcode ecosystem business. We cannot predict whether this additional financing will be in the form of equity, debt, or another form and we may not be able to obtain the necessary additional capital on a timely basis, on acceptable terms, or at all. We believe that we can obtain additional financing, but in the event that these financing sources do not materialize, or that we are unsuccessful in increasing our revenues and profits, we may be unable to implement our current plans for expansion, repay our debt obligations as they become due or continue as a going concern, any of which circumstances would have a material

adverse effect on our business, prospects, financial condition and results of operations.

Including funding received subsequent to June 30, 2009, we have received \$2.6 million in financing from YA Global Investments, L.P (“YA Global”) in 2009. While Y.A. Global has informally told us that they intend to continue to fund our operations on a month-to-month basis, should YA Global choose not to provide us with additional capital financing, as they have in the past, or if Y.A. Global does not object and we seek funding from alternative sources but are unsuccessful, or if we are unable to generate significant product revenues, we only have sufficient funds to sustain our current operations through approximately September 15, 2009.

The financial statements do not include any adjustments relating to the recoverability and reclassification of recorded asset amounts or the amounts and classification of liabilities that might be necessary, should we be unable to continue as a going concern.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation – The accompanying condensed balance sheet as of December 31, 2008, which was derived from audited consolidated financial statements, and the unaudited condensed consolidated financial statements as of and for the periods ended June 30, 2009 and 2008, have been prepared in accordance with US GAAP for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. In our opinion, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Our operations consist of one reportable segment. For further information, refer to the consolidated financial statements and footnotes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2008. The net effect of discontinued operations is reported separately from the results of our continuing operations. Operating results for the six month periods ended June 30, 2009 and 2008 are not necessarily indicative of the results that may be expected for the full fiscal year.

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect amounts reported therein, including those related to revenue recognition, valuation of accounts receivable, property, plant and equipment, long-lived assets, intangible assets, derivative liabilities and contingencies. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods may differ from those estimates.

Basic and Diluted Income (Loss) Per Share – Basic net income (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. During the six months ended June 30, 2009 and 2008 and the three months ended June 30, 2008, we reported a net loss per share, and as such basic and diluted loss per share were equivalent. We excluded all outstanding stock options, warrants, convertible debt and convertible preferred stock from the calculation of diluted net loss per share because these securities are anti-dilutive. During the three months ended June 30, 2009, we reported net income per share and included all dilutive instruments in the fully diluted net income per share calculation. The following is a reconciliation of the numerator and denominator of the basic and diluted earnings per share calculation for this period:

	Three months ended June 30, 2009 (in thousands, except per share data)	
Numerator:		
Net income	\$	78,065
Preferred dividends		(368)
Numerator for basic earnings per share, income available to common shareholders		77,697
Effect of dilutive securities:		
Adjustment for change in fair value of embedded conversion feature		(37,978)
Adjustment for debentures recorded at fair value		(23,344)
Adjustment for preferred stock dividends		368
		(60,954)
Numerator for diluted earnings per share, income available for common stockholders after conversion	\$	16,743
Denominator:		
Weighted average shares used to compute basic EPS		1,588,282
Effect of diluted securities:		
Employee stock options		37,041
Derivative warrants		702,575
Convertible debentures		2,482,917
Convertible preferred stock		1,982,059
Dilutive potential common shares		5,204,592
Denominator for diluted earnings per share, adjusted weighted average shares and assumed conversion		6,792,874
Basic earnings per share	\$	0.05
Diluted earnings per share	\$	-

The above table includes only dilutive instruments and their effects on earnings per common share.

The following outstanding stock options, warrants, convertible debt and convertible preferred securities for the three and six months ended June 30, 2009 and 2008, are anti-dilutive and therefore have been excluded from diluted earnings per share. The following shares were excluded from the calculation of net income (loss) per share because they were anti-dilutive, and are detailed in the table below:

	Three months ended June 30,		Six months ended June 30,	
	2009	2008	2009	2008
Outstanding stock options	73,707,111	117,504,426	90,455,396	117,504,426
Outstanding warrants	6,758,334	566,970,834	1,006,370,834	566,970,834
Convertible debt	-	11,886,202,000	2,482,917,000	11,886,202,000
Convertible preferred stock	-	11,171,184,000	1,982,059,000	11,171,184,000
	80,465,445	23,741,861,260	5,561,802,230	23,741,861,260

As discussed in Note 4, we issued \$535,000 of convertible notes on July 15, 2009. The notes are convertible at the then effective conversion price, which varies relative to the our trading stock price, as follows: \$0.02 per share, or 95% of the lowest weighted average price of the Company's common stock during the ten days preceding the conversion date.

On July 21, 2009, July 23, 2009, July 29, 2009 and August 4, 2009, 250 shares, 169 shares, 1,000 shares, and 941 shares respectively, of our Series C preferred stock were converted into 22.1 million, 15.0 million, 90.0 million, and 85.5 million shares, respectively, of common stock.

In addition to net income (loss) per share, we have also reported per share amounts on the separate income statement components required by APB 30, "Reporting the Results of Operations – Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions," as the disposal activities of our discontinued operations were initiated prior to our adoption of FAS 144.

Inventories - Inventories, consisting of material, material overhead, labor and processing costs, are stated at the lower of cost (first-in, first-out) or market.

Note 3 – Discontinued Operations

MicroPaint Repair, 12Snap & Telecom Services – During 2006, we acquired and in 2007 we subsequently disposed of our Micro Paint Repair (MPR), 12Snap, Mobot and Sponge business units. During the three and six months ended June 30, 2008, we incurred wind-down expenses related to these discontinued businesses.

Note 4 – Financing

On February 17, 2006, the Company issued Series C convertible preferred stock to YA Global, an accredited investor, and between August 24, 2006 and June 5, 2009, has entered into thirteen secured convertible debentures with YA Global. In addition, in connection with these debentures and preferred stock, the Company also issued common stock warrants to YA Global. The significant terms of the Series C convertible preferred stock, the convertible debentures and the warrants are set out in Note 5 to our December 31, 2008 consolidated financial statements, included in our Annual Report on Form 10-K for the year ended December 31, 2008, and are summarized below.

Series C Convertible Preferred Stock - On February 17, 2006, we issued 22,000 shares of \$1,000 Series C 8% convertible preferred stock, with a face value of \$22,000,000, to YA Global. The Series C convertible preferred stock is convertible into our common stock at the lower of \$0.02 per share, or 97% of the lowest closing bid price of the common stock for the 30 trading days immediately preceding the conversion date.

As of June 30, 2009, YA Global has converted 3,576.1 shares of the original 22,000 shares of Series C preferred stock, leaving 18,423.9 shares, with a face value of \$18,423,900, outstanding, as follows:

Conversion Date	Series C Shares		Common Shares Issued (in thousands)
	Converted		
Prior Years	2,856.1		448,228
1/13/2009	33.0		30,000
2/5/2009	22.0		20,000
2/11/2009	22.0		20,000
2/19/2009	156.0		120,000
3/4/2009	91.0		70,000
3/25/2009	84.0		64,615
4/1/2009	150.0		38,461
4/22/2009	162.0		36,818
	3,576.1		848,122

Secured Convertible Debentures - The underlying agreements for each of the debentures issued to YA Global are essentially the same, except in regard to the interest rate, varying conversion prices per share, and the number of warrants that were issued in conjunction with each of the debentures. The debentures are convertible into our common stock at the lower of a fixed conversion price per share or a percentage of the lowest volume-weighted average price (“VWAP”) for a specified number of trading days prior to conversion. All of the convertible debentures are secured according to the terms of a Security Pledge Agreement dated August 23, 2006, which was entered into in connection with the first convertible debenture with YA Global and which provides YA Global with a security interest in substantially all of our assets.

The table below summarizes the significant terms of each of the debentures:

Debenture Issue Date	Face Amount	Maturity	Interest Rate	Conversion Price – Lower of Fixed Price or Percentage of VWAP for Preceding Period		
				Fixed Price	%	Preceding Period
August 24, 2006	\$ 5,000,000	7/29/2010	10%	\$ 0.01	90%	30 Days
December 29, 2006	2,500,000	7/29/2010	10%	\$ 0.01	90%	30 Days

June 5, 2009	715,000	7/29/2010	14%	\$ 0.02	95%	10 Days

The debentures issued prior to May 29, 2008 were originally issued with higher fixed exercise prices but because those debentures include full-ratchet anti-dilution provisions, their fixed conversion price was reduced to \$0.01 as of May 29, 2008.

Effective September 24, 2008, the maturity dates of the August 24, 2006 and December 29, 2006 debentures, which originally matured after two years, were extended to July 29, 2010. On April 6, 2009 (effective March 27, 2009) the maturity date of the March 27, 2007 debenture was extended to July 29, 2010. On August 14, 2009, the maturity date of the August 24, 2007 debenture was extended to July 29, 2010.

On July 29, 2008, we entered into a Securities Purchase Agreement (the “July 29 SPA”) with YA Global in the principal amount of \$8,650,000. The July 29 SPA provided for the amount to be drawn through three separate secured convertible debentures in the amounts of \$2,325,000, \$2,325,000, and \$4,000,000 respectively. The first and second debentures were issued on July 29, 2008 and October 28, 2008. Upon the achievement of certain milestones, the remaining debenture was scheduled to be issued no earlier than January 1, 2009. On April 6, 2009, we entered into an Amendment Agreement to the July 29 SPA, whereby the third scheduled debenture was reduced from \$4,000,000 to \$1,100,000, and was divided into two separate closings of \$550,000 each, on April 6, 2009 and May 1, 2009. In connection with these two debentures, YA Global retained fees for each debenture of \$50,000, resulting in net proceeds to us of \$500,000 for each debenture. Further, on June 5, 2009, we entered into a secured convertible debenture with Y.A. Global in the amount of \$715,000. Y.A. Global retained fees of \$50,000, and structuring fees of \$5,000, resulting in net proceeds to us of \$660,000.

Default Events and Waiver - As of August 23, 2008, we were in default on our August 23, 2006 Convertible Debenture due to non-payment of principal and interest in accordance with the terms of the agreement. On September 24, 2008, we entered into a Letter Agreement with YA Global which extended the maturity dates of the August 24, 2006 and the December 29, 2006 debentures to July 29, 2010. The extension was considered a one-time extension for the specific period indicated but was not considered a waiver of existing events of default. However, a waiver was subsequently obtained from YA Global, effective as of December 31, 2008, which waiver is discussed further below.

All the debentures with YA Global contain provisions for acceleration of principal and interest upon default. Certain of the debentures also contain default interest rates and conversion prices, as follows:

10

Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form 10-Q

May 16, 2008 May 29, 2008 July 10, 2008 July 29, 2008 October 28, 2008 April 6, 2009 May 1, 2009 June 5, 2009

for days preceding conversion	30 days	10 days	10 days	10 days	10 days	10 days	10 days	10 days	10 days

We obtained a waiver from YA Global, effective as of December 31, 2008 in which all prior events of default and the related cross default provisions of other financing instruments with YA Global were waived. YA Global waived the right to collect any liquidated damages, penalties or fines which had not previously been paid by us and also acknowledged that as of December 31, 2008, we were not under any obligation to file a registration statement under any of the financing arrangements. YA Global does, however, still have demand rights under certain agreements which would require us to file registration statements in accordance with the terms of the agreements.

Fair Value Considerations - In accordance with FAS 133 we determined that the conversion features of the Series C convertible preferred stock, and the August 2006, December 2006, July 2008, October 2008, April 2009, May 2009 and June 2009 Debentures met the criteria of embedded derivatives and that the conversion features of these instruments needed to be bifurcated and accounted for as derivative instrument liabilities. Changes in the fair value of the derivative liability for the embedded conversion option are charged or credited to income. As permitted by FAS 155, we have elected not to bifurcate the embedded derivatives in the March 2007, August 2007, April 2008 or May 2008 Debentures and accordingly these convertible instruments are being carried in their entirety at their fair values, with the changes in the fair value of the Debentures charged or credited to income each period.

Derivative financial instruments arising from the issuance of fair value convertible financial instruments are initially recorded, and continuously carried, at fair value. Upon conversion of any derivative financial instrument, the carrying amount of the debt, including any unamortized premium or discount is credited to the capital accounts upon conversion to reflect the stock issued and no gain or loss is recognized.

Embedded Derivative Instruments – Series C Preferred Stock and August 2006, December 2006, July 2008, October 2008, April 2009, May 2009, and June 2009 Convertible Debentures - Embedded derivative financial instruments arising from the convertible instruments consist of multiple individual features that were embedded in each instrument. For each convertible instrument, we evaluated all significant features and, as required under current accounting standards, aggregated the components into one compound derivative financial instrument for financial reporting purposes. For financings recorded in accordance with FAS 133, the compound embedded derivative instruments are valued using the Flexible Monte Carlo methodology because that model embodies certain relevant assumptions (including, but not limited to, interest rate risk, credit risk, and conversion/redemption privileges) that are necessary to value these complex derivatives.

Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form 10-Q

Assumptions used as of June 30, 2009 included exercise estimates/behaviors and the following other significant estimates:

	Series C Convertible Preferred Stock	August 24, 2006 Debenture	December 29, 2006 Debenture	July 10, 2008 Debenture	July 29, 2008 Debenture
Conversion prices	\$ 0.012	\$ 0.010	\$ 0.010	\$ 0.010	\$ 0.012
Remaining terms (years)	1.08	1.08	1.08	1.03	1.08
Equivalent volatility	233%	233%	233%	236%	233%
Equivalent interest-risk adjusted rate	9.45%	12.56%	12.56%	13.67%	10.92%
Equivalent credit-risk adjusted yield rate	15.56%	15.56%	15.56%	15.56%	15.56%

	October 28, 2008 Debenture	April 6, 2009 Debenture	May 1, 2009 Debenture	June 5, 2009 Debenture
Conversion prices	\$ 0.012	\$ 0.012	\$ 0.012	\$ 0.012
Remaining terms (years)	1.08	1.08	1.08	1.08
Equivalent volatility	233%	233%	233%	233%
Equivalent interest-risk adjusted rate	10.92%	10.92%	10.92%	10.92%
Equivalent credit-risk adjusted yield rate	15.56%	15.56%	15.56%	15.56%

Equivalent amounts reflect the net results of multiple modeling simulations that the Flexible Monte Carlo Simulation methodology applies to underlying assumptions. The assumptions included in the calculation are highly subjective and subject to interpretation.

Due to the variable component of the conversion price, rapid fluctuations in the trading market price may result in significant variations to the calculated conversion price. For each debenture, we analyze the ratio of the conversion price (as calculated based on the percentage of VWAP for the 30 day or 10 day prior period) to the trading market price for a period of time equal to the term of the debenture to determine the average ratio for the term of the note. Each quarter, the ratio in effect on the date of the valuation is compared with the average ratio over the term of the debenture to determine if the calculated conversion price is representative of past trends or if it is considered unrepresentative due to a large fluctuation in the stock price over a short period of time. If the calculated conversion price results in a ratio which deviates significantly from the average ratio over the term of the agreement, the average ratio of the conversion price to the trading market price is then multiplied by the current trading market price to determine the variable portion of the conversion price for use in the fair value calculations. This variable conversion price is then compared with the fixed conversion price and, as required by the terms of the debentures, the lower of the two amounts is used as the conversion price in the Monte Carlo model used for valuation purposes. On June 30, 2009, the fixed conversion price for each of the debentures was equal to or higher than the calculated variable conversion price. Accordingly, the variable conversion price was used in the Monte Carlo valuation model. This analysis is performed each quarter to determine if the calculated conversion price is reasonable for purposes of determining the fair value of the embedded conversion features (for instruments recorded under FAS133) or the fair value of the hybrid instrument (for instruments recorded under FAS155).

Hybrid Financial Instruments Carried at Fair Value – 2007 and 2008 Convertible Debentures - The March 2007, August 2007, April 11, 2008, May 16, 2008 and May 29, 2008 convertible debentures are recorded in accordance with SFAS 155 and the entire hybrid instrument was initially recorded at fair value, with subsequent changes in fair value recognized in earnings. These financial instruments are valued using the common stock equivalent approach. The common stock equivalent is calculated using the shares indexed to the debentures valued at the market price of our stock and the present value of the coupon.

Current Period Valuations - For the Series C Convertible Preferred Stock and the August 2006 and December 2006 debentures, due to our previous default position with respect to these instruments, the carrying value of each instrument in effect as of December 31, 2006 was written up to its full face value during the fourth quarter of 2006. For these instruments and the July 2008, October 2008, April 2009, May 2009 and June 2009 Debentures, the embedded derivative instrument, primarily the conversion feature, has been separated and accounted for as a derivative instrument liability, as discussed above. This derivative instrument liability is marked to market each reporting period.

The March 2007, August 2007, April 2008 and May 2008 debentures were each initially recorded at their full fair value pursuant to FAS 155. That fair value is marked-to-market each reporting period, with any changes in the fair value charged or credited to income.

The face value and the carrying value or fair value, as appropriate, of each instrument as of June 30, 2009 and December 31, 2008 was:

12

December 29, 2006	333,356	3,267	3,703,957	3,556
March 27, 2007	745,865	-	8,287,390	-
August 24, 2007	177,500	-	1,972,222	-
April 11, 2008	39,000	-	433,333	-
May 16, 2008	50,000	-	555,556	-
May 29, 2008	79,000	-	877,778	-
July 10, 2008	13,775	141	153,056	158
July 29, 2008	195,789	1,966	2,325,000	2,327
October 28, 2008	195,789	1,938	2,325,000	2,227
April 6, 2009	46,316	452	-	-
May 1, 2009	46,316	452	-	-
June 5, 2009	60,211	587	-	-
Total	4,464,976	\$ 34,471	47,645,498	\$ 26,256

The carrying value of the embedded conversion feature related to the April 6, 2009, May 1, 2009 and June 5, 2009 financings at inception was approximately \$531,000, \$419,000 and \$679,000, respectively.

The terms of the embedded conversion features in the convertible instruments presented above provide for variable conversion rates that are indexed to our trading common stock price. As a result, the number of indexed shares is subject to continuous fluctuation. For presentation purposes, the number of shares of common stock into which the embedded conversion feature of the Series C convertible stock was convertible as of June 30, 2009 was calculated as face value plus assumed dividends (if declared), divided by the lesser of the fixed rate (\$.02) or the market price multiplied by the average ratio of market price to conversion price over the term of the note. The number of shares of common stock into which the embedded conversion feature in the convertible debentures was convertible as of June 30, 2009 was calculated as the face value of each instrument divided by the conversion price as of June 30, 2009.

The March 2007, August 2007, April 2008 and May 2008 debentures are carried in their entirety at fair value in accordance with FAS 155 and the value of the embedded conversion feature is effectively embodied in those fair values.

Changes in the fair value of convertible instruments that are carried at fair value (the March 2007 Debenture, August 2007 Debenture, April 2008 Debenture and May 2008 Debentures) are reported as "Gain (loss) from change in fair value of hybrid financial instruments" in the accompanying consolidated statement of operations. The following represents a reconciliation of the changes in fair value of financial instruments measured at fair value under FAS 155:

Debt Issue Date	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
	(in thousands)		(in thousands)	
March 27, 2007 debenture	\$ 15,915	\$ 3,135	\$ (110)	\$ 2,056
August 24, 2007 debenture	3,797	715	156	450
April 11, 2008 debenture	844	19	49	19
May 16, 2008 debenture	1,081	29	84	29
May 29, 2008 debenture	1,706	154	133	154
Total	\$ 23,343	\$ 4,052	\$ 312	\$ 2,708

Changes in the fair value of derivative instrument liabilities related to the bifurcated embedded derivative features of convertible instruments not carried at fair value are reported as "Gain (loss) from change in fair value of debentures" in the accompanying consolidated statement of operations. The following represents a reconciliation of the changes in fair value of these derivative financial instruments recorded under FAS 133:

Series C Convertible Preferred Stock	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008

Warrants - YA Global holds warrants to purchase shares of our common stock that were issued in connection with the convertible debentures and the Series C convertible preferred stock. The warrants are exercisable at the lower of a fixed exercise price or a specified percentage of the current market price. From time to time, the fixed exercise prices of the warrants held by YA Global have been reduced as an inducement for YA Global to enter into subsequent financing arrangements. In addition to the warrants issued to YA Global, certain other warrants have been issued to consultants and other service providers.

The warrants issued to YA Global and others do not meet all of the established criteria for equity classification in EITF Issue 00-19 and, accordingly, are recorded as derivative liabilities at fair value. Changes in the fair value of the warrants are charged or credited to income or expense each period.

A summary of the warrants outstanding (in thousands) follows:

	Exercise Price	Expiration Date	June 30, 2009		December 31, 2008	
			Common Stock Warrants	Fair Value (in thousands)	Common Stock Warrants	Fair Value
Series C Convertible						
Preferred Stock	\$ 0.0100	2/17/2011	75,000	\$ 930	75,000	\$ 23
August 24, 2006 debenture	0.0100	8/24/2011	175,000	2,293	175,000	193
December 29, 2006 debenture	0.0100	12/29/2011	42,000	554	42,000	50
March 27, 2007 debenture	0.0100	3/27/2012	125,000	1,650	125,000	150
August 24, 2007 debenture	0.0100	8/24/2012	75,000	997	75,000	90
May 16, 2008 debenture	0.0100	5/16/2015	7,500	106	7,500	10
May 29, 2008 debenture	0.0100	5/29/2015	50,000	705	50,000	70
July 29, 2008 debenture	0.0184	7/29/2015	450,000	6,300	450,000	602
Other warrants	0.011-.48	Various	6,696	56	8,471	1
Total			1,006,196	\$ 13,591	1,007,971	\$ 1,189

The warrants are valued using the Black-Scholes-Merton valuation methodology because that model embodies all of the relevant assumptions that address the features underlying these instruments. Significant assumptions used in this model as of June 30, 2009 included an expected life equal to the remaining term of the warrants, an expected dividend yield of zero, estimated volatility of 173% to 234%, and risk-free rates of return of 0.56% to 3.19%.

Fair Value Considerations – We adopted the provisions of FAS 157 as of January 1, 2008, with respect to financial instruments. As required by FAS 157, assets and liabilities measured at fair value are classified in their entirety based on the lowest level of input that is significant to their fair value measurement. Our derivative financial instruments which are required to be measured at fair value on a recurring basis under FAS 155 or FAS 133 and as of June 30, 2009 and December 31, 2008 are all measured at fair value using Level 3 inputs. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following represents a reconciliation of the changes in fair value of financial instruments measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the six months ended June 30, 2009, in thousands:

Beginning balance: Derivative financial instruments	\$ 27,445
Total gains (losses)	9,988
Transfers in/out of Level 3	10,629
Ending balance	\$ 48,062

Subsequent Events

Secured Convertible Debenture - On July 15, 2009 and August 14, 2009, we entered into additional Secured Convertible Debentures with YA Global for principal amounts of \$535,000 and \$475,000, respectively. The debentures accrue interest at 14% per annum and are payable on the maturity date (July 29, 2010) in cash, or provided that certain equity conditions are satisfied, in shares of common stock. At any time from the closing date until the maturity date, YA Global has the right to convert the convertible debentures into our common stock at the then effective conversion price, which varies relative to the our trading stock price, at the lesser of, \$0.02 per share, or 95% of the lowest weighted average price of the Company's common stock during the ten days preceding the conversion

date, and adjusts to 50% of the lowest weighted average price of the Company's common stock during the ten days preceding the conversion date in the event of a default. The conversion is limited such that the holder cannot exceed 4.99% ownership, unless the holders waive their right to such limitation. We have the right to redeem a portion or the entire outstanding note at a 10% premium plus accrued interest. The debentures are secured by certain Pledged Property, as such term is defined in the Security Agreement, dated July 29, 2008, and certain Patent Collateral, as defined in a security agreement (patent), entered into on July 29, 2008.

Note 5 – Stock-Based Compensation

A total of 22,173,540 stock options were issued to employees and directors during the six months ended June 30, 2009. A total of 32,126,763 stock options were issued to employees during the six months ended June 30, 2008. The grant date fair values of these options were \$157,000 and \$170,000, respectively, which amounts are being recognized over the vesting period of the options. For the three and six months ended June 30, 2009 and 2008, respectively, total stock-based compensation expense recorded in the statement of operations was \$98,000 and \$631,000 for the three months ended June 30, 2009 and 2008, and \$177,000 and \$987,000 for the six months ended June 30, 2009 and 2008, respectively.

We used the following assumptions to value the stock options granted during the six months ended June 30, 2009 and 2008:

	Six months ended June 30,	
	2009	2008
Volatility	138% - 282%	88% - 120%
Expected dividends	-	-
Expected term (in years)	5.6	3
Risk-free rate	0.50%	4.35%

During the six months ended June 30, 2009 options to purchase 11,600,000 shares of our common stock were exercised. The exercise price of these options was \$0.01 per share, providing us with proceeds of \$116,000. There were no stock option exercises during the six months ended June 30, 2008.

On April 29, 2009 the Stock Option Committee of the Board of Directors approved a resolution granting 6,548,540 stock options to 14 of our employees and directors to partially compensate them for reductions in salaries and fees related to our cost control measures. The exercise price of these options was \$0.02 per share. In addition, the resolution included a change in control provision, under which all options held by these employees and directors would vest upon such change in control of the company.

Note 6 – Accrued Liabilities

Accrued liabilities consist of the following as of June 30, 2009 and December 31, 2008:

	June 30, 2009	December 31, 2008
	(in thousands)	
Accruals for disputed services	\$ 2,280	\$ 2,224
Accrued operating expenses	1,475	1,791
Accrued payroll related expenses	117	-
Accrued interest	3,334	1,772
Total	\$ 7,206	\$ 5,787

Note 7 – Contingencies

We are involved in various legal actions arising in the normal course of business, both as claimant and defendant. Although it is not possible to determine with certainty the outcome of these matters, it is the opinion of management that the eventual resolution of the following legal actions will not have a material adverse effect on our financial

position or operating results. We expense professional fees associated with our legal proceedings as they are incurred according to the terms negotiated between us and the respective professional who represents our interests. We have not accrued a loss contingency in relation to any of our pending litigation.

Scanbuy, Inc. - On January 23, 2004, we filed suit against Scanbuy, Inc. ("Scanbuy") in the Northern District of Illinois, claiming that Scanbuy has manufactured, or has had manufactured for it, and has used, or actively induced others to use, technology which allows customers to use a built-in UPC bar code scanner to scan individual items and access information, thereby infringing our patents. The complaint stated that on information and belief, Scanbuy had actual and constructive notice of the existence of the patents-in-suit, and, despite such notice, failed to cease and desist their acts of infringement and continue to engage in acts of infringement of the patents-in-suit. On April 15, 2004, the court dismissed the suits against Scanbuy for lack of personal jurisdiction.

On April 20, 2004, we re-filed our suit against Scanbuy in the Southern District of New York alleging patent infringement. Scanbuy filed their answer on June 2, 2004. We filed our answer on July 23, 2004. On February 13, 2006, Scanbuy filed an amended answer to the complaint. We filed our reply to Scanbuy's amended answer on March 6, 2006. On January 20, 2007, the court dismissed Scanbuy's request for a summary judgment. On February 17, 2009, the USPTO sent NeoMedia a Notice of Intent to Issue Ex Parte Reexamination Certificate, and on June 9, 2009 NeoMedia received a Reexamination Certificate for the '048 patent. NeoMedia requested that the stay be lifted and a joint summary status of the case was provided to the court. On April 17, 2009 both parties met with the court to discuss the status of the case. On August 3, 2009 the Court issued an order lifting the stay and granting our request to proceed with discovery, which is now in progress.

Ephrian Saguy, iPoint – media, plc. and iPoint – media, Ltd. – On or around March 5, 2008 we received a summons and notice that the plaintiffs had commenced a third party action in the Magistrate Court in Tel-Aviv-Jaffa, Israel seeking damages from us and YA Global for breach of contract and unjust enrichment related to services provided by iPoint and investment by us and YA Global. We have entered into an assignment agreement with YA Global and have retained legal counsel in Israel to represent us. At this time we are unable to determine a probable outcome in this matter.

Rothschild Trust Holdings, LLC – On September 19, 2008, we were served a complaint by Rothschild Trust Holding, LLC alleging we owed royalty payments for the use of certain patents. On February 25, 2009 we filed an answer to the complaint. On July 20, 2009 we entered into non-binding mediation and an interim agreement which requires us to provide documentation for review by Rothschild Trust Holding, LLC. This process is on-going, and we believe the complaint is without merit and we intend to vigorously defend against it.

Scanbuy and Marshall Feature Recognition, LLC – On or around December 19, 2008, we received a complaint filed in the Eastern District of Texas by Scanbuy and Marshall Feature Recognition, LLC ("MFR") alleging infringement of certain patents. On January 8, 2009, we filed an answer denying infringement and asserting that the patents of Scanbuy and MFR are invalid. On or about May 8, 2009 the parties agreed and the case was transferred to the Southern District of New York due to lack of personal jurisdiction in the Eastern District of Texas. On August 3, 2009 the New York Court assigned the case to the same judge responsible for our suit against Scanbuy, described above. However, because of significant differences between the cases each will be tried separately. The Court's order also established a timetable for discovery in this case. We believe the complaint is without merit and we intend to vigorously defend against it.

The Hudson Consulting Group, Inc. – On June 30, 2009 we received from the Superior Court of Fulton County, in the State of Georgia a Notice of Filing of Foreign Judgment related to the judgment granted against us but the Superior Court, Judicial District of Middlesex, in the State of Connecticut, granted on August 22, 2008. The Notice of Filing seeks to collect on the Judgment which was granted in Connecticut. We are seeking to settle this matter.

Dennis G. Priddy – On July 30, 2009, we and our Chief Executive Officer were served with a Writ of Summons filed in the Northern District Superior Court of Hillsborough County, New Hampshire. The allegations in the Writ included several employment related matters. We believe the complaint is without merit and we intend to vigorously defend

against it.

Note 8 – Geographic Reporting

We are structured and evaluated by our Board of Directors and management as one business unit.

18

Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form 10-Q

Consolidated net sales and net loss from continuing operations for the three and six month ended June 30, 2009 and 2008, and the identifiable assets as of June 30, 2009 and December 31, 2008 by geographic area were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
	(in thousands)		(in thousands)	
Net Sales:				
United States	\$ 88	\$ 91	\$ 155	\$ 207
Germany	48	116	471	264
Total	\$ 136	\$ 207	\$ 626	\$ 471
Net income (loss) from continuing operations:

Total			\$ 9,993	\$ 11,488

Note 9 - Subsequent Events

Asset Purchase and Sale Agreement – On July 17, 2009, the Company entered into an Asset Purchase and Sale Agreement to dispose of certain assets in connection with our legacy Maxicode, PDF 417 and WISP software product lines. Neither the assets sold, nor the revenue to be acquired in connection with the asset sale, are material to the Company.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Special Note About Forward-Looking Statements

Certain statements in Management's Discussion and Analysis, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives, and expected operating results, and the assumptions upon which those statements are based, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act"), as amended. These forward-looking statements generally are identified by the words "believe," "project," "expect," "anticipate," "estimate," "intend," "strategy," "plan," "may," "should," "will be," "will continue," "will likely result," and similar expressions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties, which may cause actual results to differ materially from the forward-looking statements. For a detailed discussion of risks and uncertainties that could cause actual results and events to differ materially from such forward looking statements, please refer to the section titled "Risk Factors" in the Company's 2008 Form 10-K filed on April 14, 2009 with the SEC. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events, or otherwise.

Overview

NeoMedia provides the infrastructure to make mobile barcode scanning and its associated commerce easy, universal, and reliable – worldwide. Our barcode ecosystem products including mobile barcode reading software, NeoReader, read and transmit data from 1D and 2D barcodes to its intended destination. Our Code Management (NeoSphere) and Code Clearinghouse (NeoRouter) platforms create, connect, record, and transmit the transactions embedded in the barcodes, like web-URLs, text messages (SMS), and telephone calls, ubiquitously and reliably.

In order to provide complete mobile marketing solutions, NeoMedia also offers barcode scanning hardware that reads barcodes displayed on mobile phone screens. NeoMedia provides infrastructure solutions to enable mobile ticketing and couponing programs – including scanner hardware and system support software for seamless implementation.

This technology is supported by our patents. In addition, NeoMedia has an open standards philosophy designed to make integration and use of the technology easy for handset manufacturers, mobile operators and advertisers; and the user experience safe, reliable and interoperable for consumers.

In 2006, we began divesting our non-core businesses in order to focus our efforts on the area that we believe will deliver the most value - our code-reading business and the related intellectual property. In the fourth quarter of 2006, we disposed of two subsidiaries, Mobot and Sponge. During April 2007, we sold the 12Snap business unit and in October 2007, we completed the sale of our Telecom Services business. In November 2007, we sold our Micro Paint Repair business unit. As a consequence of these divestitures, we evaluate our continuing business as one consolidated business. These divestitures were integral to our turnaround plan and the proceeds received from the sale of our non-core business units have been used to continue the development of our code-reading business. A major goal of ours is to provide the industrial and carrier-grade infrastructure to enable reliable, scalable and billable commerce that is customer-focused and drives revenue growth.

During 2008 and early 2009 we have made significant changes to strengthen our management team. In June 2008, Mr. Iain A. McCready became our Chief Executive Officer and Chairman of our Board of Directors; in September 2008, Mr. Michael W. Zima became our Chief Financial Officer and Secretary; in January 2009, Ms. Laura Marriott became a Member of our Board of Directors; and in March 2009, Mr. Dean Wood became our Vice President - Business Development.

On July 28, 2009, we entered into a non-exclusive patent licensing agreement with Mobile Tag, Inc., for machine readable mobile codes under our patent portfolio. This is the first contract to be announced under our recently launched licensing program. Under the terms of the agreement, we will receive a percentage of revenue generated by Mobile Tag, Inc., through the use and licensing of our patent portfolio.

Comparison of the Three and Six Months Ended June 30, 2009 and 2008

Results of Continuing Operations

Beginning in late 2008 and continuing in 2009 we have taken aggressive steps to control our costs. These efforts have resulted in reduced operating losses in the three months ended June 30, 2009 compared to the three months ended June 30, 2008, respectively, of \$1.5 million compared to \$2.8 million, and reduced operating losses in the six months ended June 30, 2009, compared to the six months ended June 30, 2008, respectively, of \$3.1 million compared to \$5.2 million. However, our loss from continuing operations was \$28.5 million during the six months ended June 30, 2009 compared to \$5.3 million during the six months ended June 30, 2008. The overall loss incurred in the six months ended June 30, 2009, was primarily the result of non-cash losses and gains from the change in fair value of our hybrid financial instruments, warrants and debentures, totaling \$22 million. For the three months ended March 31, 2009, the non-cash loss totaled \$104 million, and non-cash gain for the three months ended June 30, 2009 totaled \$82 million. We incurred these non-cash losses and gains principally as a result of the recent fluctuations in the market value of our common stock during the three and six months ended June 30, 2009. During the six months ended June 30, 2008 we reported non-cash gains on our hybrid financial instruments, warrants and debentures, totaling \$1.5 million. These non-cash gains were principally the result of declines in the market value of our common stock.

A summary of our net sales for the three and six months ended June 30, 2009 and 2008 is presented below:

	Three Months Ended June 30,		\$	Increase (decrease)	
	2009	2008			%
	(in thousands)				
Hardware sales	36	\$ 82		(46)	-56%
Lavasphere revenue	8	15		(7)	-47%
Neo-Reader revenue	2	-		2	-
Legacy product revenue	88	91		(3)	-3%
Other revenue	2	19		(17)	-89%
Net Sales	\$ 136	\$ 207		(71)	-34%

	Six Months Ended June 30,		\$	Increase (decrease)	
	2009	2008			%
	(in thousands)				
Hardware sales	429	\$ 149		280	188%
Lavasphere revenue	30	39		(9)	-23%
Neo-Reader revenue	6	-		6	-
Legacy product revenue	145	168		(23)	-14%
Patent licensing	10	39		(29)	-75%
Other revenue	6	76		(70)	-92%
Net Sales	\$ 626	\$ 471		155	33%

Net Sales - Total revenues decreased \$71,000, or 34%, to \$136,000 for the three months ended June 30, 2009 from \$207,000 for the three months ended June 30, 2008. Total revenues increased \$155,000, or 33%, to \$626,000 for the six months ended June 30, 2009 from \$471,000 for the six months ended June 30, 2008. This increase was the result of increased sales of our hardware products. Sales of hardware products decreased to \$36,000 from \$82,000 for the three months ended June 30, 2009 and 2008, respectively, and increased to \$429,000 from \$149,000 for the six months ended June 30, 2009 and 2008, respectively, as a result of the introduction of our newest model barcode scanners as well as the sale of remaining quantities of our older models. During the six months ended June 30, 2009, we recorded \$6,000 of sales revenue for our barcode ecosystem products. In succeeding quarters we expect these

revenues and related licensing revenues to increase as we shift the focus to our new business strategy of developing products and services to support the emerging barcode ecosystem that is being defined by bodies such as the OMA, GSMA and CTIA. We believe this focus will deliver the most value in the future.

Cost of Sales - Cost of sales was \$281,000 for the three months ended June 30, 2009 compared with \$292,000 for the three months ended June 30, 2008, a decrease of \$11,000, or 4%. Cost of sales was \$808,000 for the six months ended June 30, 2009 compared with \$605,000 for the six months ended June 30, 2008, an increase of \$203,000, or 34%. Cost of sales for NeoMedia Europe, related to our hardware products, was \$45,000 and \$49,000 for the three months ended June 30, 2009 and 2008, respectively, and was \$334,000 and \$115,000 for the six months ended June 30, 2009 and 2008, respectively. Amortization costs related to our patents, and the proprietary software of NeoMedia Europe was \$236,000 and \$244,000 for the three months ended June 30, 2009 and 2008, respectively, and was \$474,000 and \$490,000 for the six months ended June 30, 2009 and 2008, respectively.

Sales and Marketing - Sales and marketing expenses were \$178,000 and \$655,000 for the three months ended June 30, 2009 and 2008, respectively, a decrease of \$477,000 or 73%, and \$464,000 and \$1,283,000 for the six months ended June 30, 2009 and 2008, respectively, a decrease of \$819,000 or 64%. The decrease in sales and marketing expenses was the result of strict cost controls implemented in mid-late 2008 and further reductions in 2009 compared with 2008.

General and Administrative - General and administrative expenses were \$863,000 and \$1,367,000 for the three months ended June 30, 2009 and 2008, respectively, a decrease of \$504,000, or 37%, and \$1,787,000 and \$2,573,000 for the six months ended June 30, 2009 and 2008, respectively, a decrease of \$786,000, or 31%. The decrease in general and administrative expenses was the result of reductions in compensation and travel costs, as well as reductions in professional fees implemented in mid-late 2008 and further reductions in 2009 compared with 2008.

Research and Development - Research and development expenses were \$350,000 and \$655,000 for the three months ended June 30, 2009 and 2008, respectively, a decrease of \$305,000, or 47%, and \$673,000 and \$1,217,000 for the six months ended June 30, 2009 and 2008, respectively, a decrease of \$544,000, or 45%. The decrease in research and development expenses was the result of reductions in compensation and costs associated with the development of our hardware products, which were completed and launched in late 2008. We have also implemented further cost controls in 2009 compared with 2008.

Gain (Loss) from Change in Fair Value of Hybrid Financial Instruments - We carry certain of our convertible debentures at fair value, in accordance with FAS 155 and do not separately account for the embedded conversion feature. The change in the fair value of these liabilities includes changes in the value of the interest due under these instruments, as well as changes in the fair value of the common stock underlying the instruments. Liability related to these hybrid instruments decreased in the three months ended June 30, 2009 and 2008, respectively, resulting in a gain of \$23.3 million, and \$4.1 million, respectively. Liability related to these hybrid instruments decreased in the six months ended June 30, 2009 and 2008, respectively, resulting in a gain of \$0.3 million, and \$2.7 million, respectively. These fair value changes were primarily as a result of the fluctuations in the value of our common stock during the period. Because our stock price has been volatile and because many of our hybrid financial instruments include relatively low fixed conversion prices, it is possible that further increases in the market price of our stock could cause the fair value of our hybrid financial instruments to increase significantly in future periods.

Gain (Loss) from Change in Fair Value of Derivative Liabilities - Warrants - We account for our outstanding common stock warrants that were issued in connection with the preferred stock and our debentures, at fair value. Liability related to warrants decreased in the three months ended June 30, 2009 and 2008, respectively, resulting in a gain of \$20.9 million, and \$1.5 million, respectively. Liability related to warrants increased in the six months ended June 30, 2009, and decreased in the six months ended June 30, 2008, resulting in a loss of \$12.4 million, and a gain of \$3.5 million, respectively. These fair value changes were primarily as a result of the fluctuations in the value of our common stock during the period. Because our stock price has been volatile and because many of our warrants include relatively low fixed exercise prices it is possible that further increases in the market price of our stock could cause the fair value of our warrants to increase significantly in future periods.

Gain (Loss) from Change in Fair Value of Derivative Liabilities - Debentures - For our Series C convertible preferred stock, and certain of our convertible debentures, we account for the embedded conversion feature separately as a derivative financial instrument. We carry these derivative financial instruments at fair value. Liability related to the derivative instruments embedded in these debentures decreased in the three months ended June 30, 2009, and increased in the three months ended June 30, 2008, respectively, resulting in a gain of \$38.0 million, and a loss of \$8.0 million, respectively. Liability related to these derivative instruments and debentures increased in the six months ended June 30, 2009, and 2008, respectively, resulting in a loss of \$9.7 million, and \$4.6 million, respectively. These fair value changes were primarily as a result of the fluctuations in the value of our common stock during the period. Because our stock price has been volatile and because many of our derivative financial instruments include relatively low fixed conversion prices, it is possible that further increases in the market price of our stock could cause the fair value of our derivative financial instruments to increase significantly in future periods.

Other Interest Expense, net - Other interest expense was \$2.6 million and \$4.1 million for the three months ended June 30, 2009 and 2008, respectively, a decrease of \$1.5 million or 37%, and \$3.7 million and \$1.7 million for the six months ended June 30, 2009 and 2008, respectively, an increase of \$2.0 million or 118% that results from increased financing activities from the second half of 2008 through June 30, 2009. Other interest expense consists of interest charges related to convertible debentures that are not carried at fair value under FAS 155, interest accrued for creditors as part of financed purchases, past due balances and notes payable, net of interest earned on cash equivalent investments.

Results of Discontinued Operations - In 2007, we discontinued the operations of our Mobot, Sponge, 12Snap, Telecom Services and Micro Paint Repair businesses. During the six months ended June 30, 2008, we recognized a loss of \$291,000, primarily attributable to wind-down expenses associated with Micro Paint Repair, 12Snap, and Telecom Services.

Liquidity and Capital Resources

As of June 30, 2009, we had \$0.3 million in cash and cash equivalents; a decrease of \$1.0 million, or 77%, compared with a total of \$1.3 million as of December 31, 2008.

Cash used in operating activities decreased to \$2.7 million for the six months ended June 30, 2009 compared with \$3.2 million for the period ended June 30, 2008. The decrease in cash used in operations is primarily due to the cost control measures implemented in late 2008 and early 2009.

Cash used in investing activities was \$24,000 for the six months ended June 30, 2009, representing the purchase of equipment. Net cash provided by investing activities was \$0.4 million for the six months ended June 30, 2008. This was primarily due to the sale of our remaining ownership of 12Snap, wind-down expenses from discontinued operations, a partial settlement of intercompany loans and cash retained by us from the shut-down of Micro Paint Repair-US which resulted in net proceeds to us of \$0.8 million.

Cash provided by financing activities was \$1.8 million for the six months ended June 30, 2009, which resulted from \$1.7 million in convertible debt instruments net of fees from Y.A. Global, and proceeds received upon exercise of stock options by two former employees totaling \$0.1 million. Cash provided by and used in financing activities during the six months ended June 30, 2008 was \$1.4 million, and was the result of additional borrowing activities through convertible debt instruments, and the repayment of portions of our notes payable.

As of June 30, 2009, we had a working capital deficiency of \$91.3 million, of which \$67.7 million relates to the fair value of hybrid and derivative financial instruments, and \$11.6 million relates to the carrying value of debentures carried at amortized cost. These values are significantly greater than the face amount of our debt that would be

otherwise due in cash if the conversion feature of these instruments and the warrants did not exist

Significant Liquidity Events

Going Concern - We have historically incurred net losses and losses from operations and we expect that we will continue to have negative cash flows as we implement our business plan. There can be no assurance that our continuing efforts to execute our business plan will be successful and that we will be able to continue as a going concern. The accompanying consolidated financial statements have been prepared in conformity with US GAAP, which contemplate our continuation as a going concern. Net loss for the six months ended June 30, 2009 was \$28.6 million while net cash used by operations was \$2.7 million. We also have an accumulated deficit of \$241.2 million and a working capital deficit of \$91.3 million as of June 30, 2009, much of which is related to the derivative value of our financing instruments. We also have a continuing obligation as of June 30, 2009 of \$4.6 million relating to a purchase price guarantee associated with our prior acquisition of 12Snap (which we subsequently sold).

The items discussed above raise substantial doubts about our ability to continue as a going concern.

We currently do not have sufficient cash to sustain us for the next twelve months. We will require additional financing in order to execute our operating plan and continue as a going concern. Our management's plan is to attempt to secure adequate funding to bridge the commercialization of our barcode ecosystem business. We cannot predict whether this additional financing will be in the form of equity, debt, or another form and we may not be able to obtain the necessary additional capital on a timely basis, on acceptable terms, or at all. We believe that we can obtain additional financing, but in the event that these financing sources do not materialize, or that we are unsuccessful in increasing our revenues and profits, we may be unable to implement our current plans for expansion, repay our debt obligations as they become due or continue as a going concern, any of which circumstances would have a material adverse effect on our business, prospects, financial condition and results of operations.

Including funding received subsequent to June 30, 2009, we have received \$2.6 million in financing from YA Global Investments, L.P. ("YA Global") in 2009. While Y.A. Global has informally told us that they intend to continue to fund our operations on a month-to-month basis, should YA Global choose not to provide us with additional capital financing, as they have in the past, or if Y.A. Global does not object and we seek funding from alternative sources but are also unsuccessful, or if we are unable to generate significant product revenues, we only have sufficient funds to sustain our current operations through approximately September 15, 2009.

The financial statements in this Form 10-Q do not include any adjustments relating to the recoverability and reclassification of recorded asset amounts or the amounts and classification of liabilities that might be necessary, should we be unable to continue as a going concern.

Sources of Cash and Projected Cash Requirements - As of June 30, 2009, our cash balance was \$0.3 million. NeoMedia's reliance on YA Global as our primary financing source has certain ramifications that could affect future liquidity and business operations. For example, pursuant to the terms of the convertible debenture agreements between us and YA Global, without YA Global's consent we cannot (i) issue or sell any shares of our common stock or our preferred stock without consideration or for consideration per share less than the closing bid price immediately prior to its issuance, (ii) issue or sell any preferred stock, warrant, option, right, contract, call, or other security or instrument granting the holder thereof the right to acquire our common stock for consideration per share less than the closing bid price immediately prior to its issuance, (iii) enter into any security instrument granting the holder a security interest in any of our assets or (iv) file any registration statements on Form S-8. In addition, pursuant to security agreements between us and YA Global, YA Global has a security interest in all of our assets. Such covenants could severely harm our ability to raise additional funds from sources other than YA Global, and would likely result in a higher cost of capital in the event we secured funding.

Additionally, pursuant to the terms of the Investment Agreement between us and YA Global in connection with our Series C convertible preferred stock sale, we cannot (i) enter into any debt arrangements in which we are the borrower, (ii) grant any security interest in any of our assets or (iii) grant any security below market price.

Subsequent Events

Secured Convertible Debenture - On July 15, 2009 and August 14, 2009, we entered into additional Secured Convertible Debentures with YA Global for principal amounts of \$535,000 and \$475,000, respectively. The debentures accrue interest at 14% per annum and are payable on the maturity date (July 29, 2010) in cash, or provided that certain equity conditions are satisfied, in shares of common stock. At any time from the closing date until the maturity date, YA Global has the right to convert the convertible debentures into our common stock at the then effective conversion price, which varies relative to the our trading stock price, at the lesser of, \$0.02 per share, or 95% of the lowest weighted average price of the Company's common stock during the ten days preceding the conversion

date, and adjusts to 50% of the lowest weighted average price of the Company's common stock during the ten days preceding the conversion date in the event of a default. The conversion is limited such that the holder cannot exceed 4.99% ownership, unless the holders waive their right to such limitation. We have the right to redeem a portion or the entire outstanding note at a 10% premium plus accrued interest. The debentures are secured by certain Pledged Property, as such term is defined in the Security Agreement, dated July 29, 2008, and certain Patent Collateral, as defined in a security agreement (patent), entered into on July 29, 2008.

Asset Purchase and Sale Agreement – On July 17, 2009, the Company entered into an Asset Purchase and Sale Agreement to dispose of certain assets in connection with our legacy Maxicode, PDF 417, and WISP software product lines. Neither the assets sold, nor the revenue to be acquired in connection with the asset sale, are material to the Company.

Critical Accounting Policies and Estimates

There have been no material changes to our critical accounting policies and estimates from the information provided in Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

We are a “smaller reporting company” as defined by Rule 12b-2 of the Exchange Act and are not required to provide information under this item.

ITEM 4T. Controls and Procedures

Disclosure Controls and Procedures - Our management, with the participation of our CEO and CFO have evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report.

These controls are designed to ensure that information required to be disclosed in the reports we file or submit pursuant to the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that such information is accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Based on this evaluation, our CEO and CFO concluded that our disclosure controls and procedures were not effective as of June 30, 2009 at a reasonable assurance level, because of the material weaknesses described in Item 9A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2008, which we are still in the process of remediating. Please see “Management’s Report on Internal Control over Financial Reporting” in Item 9A of the 2008 Form 10-K for a full description of these weaknesses.

Notwithstanding the material weaknesses described in Item 9A of the Form 10-K for the fiscal year ended December 31, 2008, we believe that our consolidated financial statements presented in this Quarterly Report on Form 10-Q fairly present, in all material respects, our financial position, results of operations, and cash flows for all periods presented herein.

Inherent Limitations - Our management, including our Chief Executive Officer and Chief Financial Officer, do not expect that our disclosure controls and procedures will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. The design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdown can occur because of simple error or mistake. In particular, many of our current processes rely upon manual reviews and processes to ensure that neither human error nor system

weakness has resulted in erroneous reporting of financial data.

25

Changes in Internal Control over Financial Reporting - There were no changes in the Company's internal control over financial reporting during the period ended June 30, 2009, which were identified in conjunction with management's evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. Legal Proceedings

There have been no material developments relating to certain pending legal proceedings. For a description of pending legal proceedings, see Note 7 – Contingencies, to the Consolidated Financial Statements set forth in this Form 10-Q.

ITEM 1A. Risk Factors

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required under this item to provide information.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

On July 29, 2008 (the “Closing Date”), NeoMedia Technologies, Inc., a Delaware corporation (the “Company”) entered into a Securities Purchase Agreement (the “SPA”) to issue and sell secured convertible debentures (the “Debentures” and each, a “Debenture”) to YA Global Investments, L.P. (the “Investor”) in the principal amount of up to Eight Million Six Hundred Fifty Thousand Dollars (\$8,650,000) pursuant to the terms of the SPA, by and between the Company and the Investor, of which the first secured convertible Debenture in the amount of \$2,325,000 was funded on the Closing Date, the second secured convertible debenture in the amount of \$2,325,000 was funded on October 28, 2008 and a third debenture in the amount of \$4,000,000 was to be funded on or after January 1, 2009 subject to certain conditions set forth in the SPA.

On April 6, 2009, the Company and the Investor entered into an Amendment Agreement (the “Amendment Agreement”) whereby the SPA was amended in order to reduce the amount of the third secured convertible Debenture (as discussed above) from \$4,000,000 to \$1,100,000, and whereby such Third Closing (as defined in the Amendment Agreement) was broken down into two (2) separate closings, the first to occur on April 6, 2009, pursuant to which the Investor purchased a secured convertible debenture in the principal amount of \$550,000 and the second to occur on or after May 1, 2009, pursuant to which the Investor exercised its option and purchased a secured convertible debenture in the principal amount of \$550,000.

On June 5, 2009, the Investor and the Company entered into an agreement to issue an additional debenture (the “Additional Agreement”), and the Company issued to the Investor a secured convertible debenture in the principal amount of \$715,000. Such transaction was described in the Company’s Current Report on Form 8-K filed with the U.S. Securities and Exchange Commission (the “SEC”) on June 5, 2009.

On July 15, 2009, the Investor and the Company entered into an Agreement to issue an additional debenture (the “Second Additional Agreement”), and the Company issued to the Investor a secured convertible debenture in the principal amount of \$535,000. Such transaction was described in the Company’s Current Report on Form 8-K filed with the SEC on July 21, 2009.

On August 14, 2009, the Investor and the Company entered into an Agreement to issue an additional debenture (the “Third Additional Agreement”), a copy of which is attached hereto as Exhibit 10.124, whereby the Company issued to the Investor a secured convertible debenture in the principal amount of \$475,000, a copy of which is attached hereto as Exhibit 10.125 (the “Fifth Additional Debenture”). Such debenture shall mature on July 29, 2010 (the “Maturity Date”). The Fifth Additional Debenture shall accrue interest at a rate equal to fourteen percent (14%) per annum and such interest shall be paid on the Maturity Date (or sooner as provided in the Fifth Additional Debenture) in cash or, provided that certain Equity Conditions are satisfied (as such term is defined in the Fifth Additional Debenture), in shares of the Company’s common stock (“Common Stock”) at the applicable Conversion Price (as defined in the Fifth

Additional Debenture). At any time after August 14, 2009, the Investor shall be entitled to convert any portion of the outstanding and unpaid principal and accrued interest thereon into fully paid and non-assessable shares of the Common Stock at a price equal to the lesser of \$0.02 and ninety-five percent (95%) of the lowest volume weighted average price of the Common Stock during the ten (10) trading days immediately preceding each conversion date.

The Company shall not affect any conversion, and the Investor shall not have the right to convert any portion of the Fifth Additional Debenture to the extent that after giving effect to such conversion, the Investor (together with the Investor's affiliates) would beneficially own in excess of 4.99% of the number of shares of Common Stock outstanding immediately after giving effect to such conversion, except for not less than sixty-five (65) days prior written notice from the Investor.

The Company shall have the right to redeem a portion or all amounts outstanding (subject to certain conditions in the Fifth Additional Debenture) by paying the amount equal to the principal amount being redeemed plus a redemption premium equal to ten percent (10%) of the principal amount being redeemed, and accrued interest.

In connection with the closing of the Third Additional Agreement, the Company placed a \$25,000 monitoring fee into escrow, directly from the proceeds of the Fifth Additional Debenture closing on August 14, 2009 (as deposited into escrow, the "Escrow Funds") which shall be used to compensate Yorkville Advisors LLC ("Investment Manager") for monitoring and managing the purchase and investment made by the Investor, pursuant to the Investment Manager's existing advisory obligations to the Investor. The Company, Investment Manager and the Investor entered into an Escrow Agreement, dated July 29, 2008 (the "Escrow Agreement") appointing David Gonzalez, Esq. as escrow agent (the "Escrow Agent") to hold the Escrow Funds and to periodically disburse portions of such Escrow Funds to the Investment Manager from escrow in accordance with the terms of the Escrow Agreement, a copy of which is referenced hereto as Exhibit 10.107 (and the amended Exhibit A thereto is attached as Exhibit 10.111 hereto).

All of the Debentures are secured by (a) certain Pledged Property, as such term is defined in that certain Security Agreement, of even date with the SPA, by and among the Company, each of the Company's subsidiaries made a party thereto and the Investor and (b) certain Patent Collateral, as such term is defined in that certain Patent Security Agreement, of even date with the SPA, by and among the Company, each of the Company's subsidiaries made a party thereto and the Investor. Copies of the Security Agreement and the Patent Security Agreement are referenced hereto as Exhibits 10.101 and 10.102, respectively.

In connection with the SPA, the Company also entered into those certain Irrevocable Transfer Agent Instructions with the Investor, the Escrow Agent and WorldWide Stock Transfer, LLC, the Company's transfer agent, a copy of which is attached as Exhibit 10.108 hereto.
