KongZhong Corporation Reports Unaudited Third Quarter 2011 Financial Results

Beijing, China, November 30th, 2011 – KongZhong Corporation (NASDAQ: KONG), a leading provider of digital entertainment services for consumers in the PRC, today announced its unaudited financial results for the third quarter ended September 30, 2011.

Third Quarter 2011 Financial Highlights:

1 Revenues inline with guidance – Total revenues for the third quarter of 2011 increased 3% from the third quarter of 2010 to US\$ 38.98 million, inline with the Company's 3Q11 revenue guidance range of US\$ 38.5mn to US\$ 39.5mn.

1 Gross profit under guidance – Total gross profit was US\$ 14.01mn for 3Q11, slightly under the Company's 3Q11 guidance range of US\$ 14.5mn to US\$ 15.5mn. Gross profit was under the guidance range due to lower than expected gross profits in our WVAS business.

1 Net income (excluding non-cash items) inline with guidance – Net loss in 3Q11 was US\$17.26mn which includes a \$20.26 million non-cash impairment loss on goodwill and intangible assets. Excluding this impairment loss, net income in 3Q11 was US\$ 3.00mn, inline with the Company's guidance range of US\$ 2.5mn to US\$ 3.5mn, a 157% increase compared to net income of US\$ 1.17mn in 3Q10. Basic net loss per American Depositary Shares ("ADS") was US\$ 0.42.

1 Non-GAAP net income inline with guidance – Non-GAAP net income was US\$ 4.72mn, inline with the Company's guidance range of US\$ 4.0mn to US\$ 5.0mn, while Non-GAAP diluted net income per ADS was US\$ 0.11 (Non-GAAP Financial Measures are described and reconciled to the corresponding GAAP measures in the section titled "Non-GAAP Financial Measures.")

1 Cash and cash equivalents – As of September 30, 2011, the Company had US\$ 143.1mn in cash and cash equivalents or US\$ 3.5 per ADS in cash and cash equivalents, compared to US\$ 134.2mn at the end of 2Q11. Cash and cash equivalents exclude US\$ 21.99mn loans to a third party.

Commenting on the results, the Company's Chairman and Chief Executive Officer, Leilei Wang said, "The Company continued to generate positive cashflow and I believe we are poised for strong growth in our Internet games business in 2012 and beyond.

"We continued to grow the World of Tanks community ("WoT") in China and look forward to launching version v.7.0 and Clan Wars to Chinese users by the end of this year. More importantly, we continue to work in close partnership with Wargaming.net to further localize the game to Chinese user tastes and believe we will see strong growth of WoT in 2012.

"In addition, we've begun closed beta testing of Kung Fu Hero ("Hero") our self-developed martial arts 3D MMORPG in October in mainland China. While we don't expect to conduct our open beta test until after Chinese New Year, initial feedback from Hero has been strong and we continue to believe that Hero has the potential to become KONG's flagship online game for 2012 and 2013.

"On November 17th, we launched Paperman, an anime-based first person shooter ("FPS") in partnership with Gamepot from Japan and are working closely with Gamepot to develop new content to differentiate Paperman from other FPS games in the market.

"More importantly, we continue to build out our Internet game pipeline for 2012 and 2013, for both self-developed games and overseas games. Expect updates from us in the future as we make progress on this.

"Lastly, we are actively seeking to leverage our existing mobile game development resources to develop games for the IOS and Android smartphone mobile game platforms and expect to derive a growing percentage of our mobile game business on these platforms in 2012."

* During the 3rd quarter 2010, we consolidated the majority of our Wireless Internet Services (WIS) business line into our WVAS. The financial information for each business line has been adjusted retrospectively to reflect this change in business lines.

Revenues

WVAS Revenues

WVAS revenues in 3Q11 were US\$ 20.16mn, a 1% decrease from 2Q11 and a 3% decrease from the same period of 2010. WVAS revenues were relatively stable compared to prior periods although the WVAS operating environment remains difficult.

In 3Q11, 2G revenues represented 79% of total WVAS revenues, while 2.5G services made up 21% of total WVAS revenues. 2.5G services include mobile e-book revenues from our cooperation with China Mobile.

WVAS made up 51.7% of total revenues in 3Q11.

Mobile Games Revenues

Total mobile game revenues in 3Q11 were US\$ 10mn, a 9% decrease from 2Q11 and a 28% decrease from the same period of 2010.

Revenues from downloadable mobile games were US\$ 9.70mn representing an 8% decrease from 2Q11 and a 26% decrease from the same period last year. In 3Q11, mobile games continued to underperform our expectations as China Mobile implemented more strict operating policies and continued to adjust its mobile game marketing strategies. We see these difficulties continuing in 4Q11. In 3Q11, average monthly mobile game subscribers were roughly 1.7mn compared to 1.7mn to 2.0mn in 2Q11. However, the Company continues to invest in the development of new mobile game platforms, including iOS and Android platforms, and expect to accelerate our development of these platforms in the coming quarters as the market demand develops.

Revenues from mobile multi-player online games ("MMO" or "online mobile games") were US\$ 0.31mn, a 22% decrease from 2Q11. In July 2011, we launched "Tian Jie 2" a new mobile online game, whose revenues accounted for about 38% of the Company's online mobile game revenues in 3Q11. Revenues from "Tian Jie Online" accounted for another 43% of the Company's online mobile game revenues while revenues from "Feng Shen" accounted for the remaining 18%, compared to 51% in 2Q11.

Revenues from downloadable mobile games made up 97% of total mobile game revenues compared to 96% in 2Q11.

Mobile game revenues made up 25.7% of total revenues in 3Q11.

Internet Games Revenues

Internet Game ("Net Game") revenues were US\$ 8.81mn in 3Q11, a 15% decrease from 2Q11 but a 198% increase compared to 3Q10. Net Game revenues were driven by the continued strong performance of World of Tanks ("WoT") which was launched commercially on March 15th 2011.

Domestic Net game revenues were US\$ 7.78mn, a 6% decrease from 2Q11 but a 219% increase from 3Q10 due to the continued growth of WoT community, offset by a gradual decline in our older, self-developed 3D MMORPGs. Overseas Net game revenues were US\$ 1.04mn, a 50% decrease from 2Q11 but a 98% increase from 3Q10. Total overseas revenues as a percentage of total Net game revenues in 3Q11 were 12% compared to 20% in 2Q11.

For the 3Q11 3-month period, domestic mainland China online game operations achieved average concurrent users ("ACUs") of 157k and aggregate paying accounts ("APAs") of 450k with quarterly average revenue per user ("ARPU") of RMB 111.

	For the Three Months Ended September 30, 2010	For the Three Months Ended June 30, 2011	For the Three Months Ended September 30, 2011
ACU	69k	157k	157k
APA	69k	445k	450k
ARPU(RMB/Q)	240	121	111

Net game revenues made up 22.6% of total revenues in 3Q11.

Gross Profit

Total gross profit was US\$14.01mn in 3Q11, an 18% decrease compared to 2Q11 and a 10% decrease compared to the same period of 2010. Total gross margin was 36% in 3Q11 and a decrease compared to 41% in 2Q11.

WVAS Gross Profit

WVAS gross profit in 3Q11 was US\$ 6.13mn, a 15% decrease from 2Q11 and a 27% decrease compared to the same period of 2010. 3Q11 WVAS gross margin was 30% compared to 36% in 2Q11 as ongoing policy measures led us to

rely more on higher cost distribution channels as a percentage of WVAS revenues compared to previous periods.

Mobile Game Gross Profit

Mobile games gross profit in 3Q11 was US\$ 3.62mn, a 12% decrease from 2Q11 and a 28% decrease compared to the same period last year as policies from China Mobile in our mobile game monthly subscription business continued to lead to higher churn and lower profitability. 3Q11 mobile games gross margin was 36% compared to with 37% in 2Q11.

Internet Game Gross Profit

Internet game gross profit in 3Q11 was US\$ 4.26mn, a 25% decrease from 2Q11 but a 99% increase from the same period last year. 3Q11 Internet game gross margin was 48% compared to 55% in 2Q11 due to the higher revenue contribution from WoT, which includes revenue share to Wargaming, our 3rd party game development partner for WoT.

Operating Expenses

	For the Three Months Ended September 30, 2010 (US\$ in thousands)	For the Three Months Ended June 30, 2011 (US\$ in thousands)	For the Three Months Ended September 30, 2011 (US\$ in thousands)
Product development	\$ 6,209	\$ 3,952	\$ 3,960

Impairment loss on intangible assets	-	-	4
Impairment loss on goodwill	-	-	20,255
Total Operating Expenses	\$ 14,370	\$ 12,264	\$ 32,236

Total operating expenses included a US\$ 20.26mn impairment loss on goodwill and intangible assets. Excluding this impairment loss, total operating expenses decreased 2% to US\$ 11.98mn in 3Q11 compared to US\$ 12.26mn in 2Q11.

Product development expenses in 3Q11 were US\$ 3.96mn compared to US\$ 3.95mn in 2Q11 or a 0.2% increase.

Sales and marketing expenses in 3Q11 were US\$ 5.07mn compared to US\$ 5.35mn in 2Q11 and US\$ 5.30mn in the same period last year. Sales and marketing remained stable compared to prior periods as we did not have any significant new game launches in 3Q11. However, we expect to increase marketing expenses for the new versions of WoT and Kung Fu Hero in the coming quarters.

General and administrative (“G&A”) expenses in 3Q11 were US\$ 2.94mn compared to US\$ 2.96mn in 2Q11 and US\$ 2.86mn in the same period last year. We expect G&A to be maintained at 3Q11 levels in the coming periods.

The Company’s total headcount remained stable in 3Q11 at 1,011 compared to 1,048 at the end of 2Q11.

Operating Profit/(Loss)

Operating loss for 3Q11 was US\$ 18.22mn compared to operating profit US\$ 4.77mn in 2Q11, mainly due to the US\$ 20.26mn impairment loss on goodwill and intangible assets. If excluding the impairment loss on goodwill and intangible assets in 3Q11, operating profit would have been US\$ 2.04 mn.

Earnings

Net loss and Non-GAAP net income in 3Q11 were US\$ 17.26mn and US\$ 4.72mn, respectively. Diluted loss per ADS and diluted Non-GAAP earnings per ADS were US\$ 0.42 and US\$ 0.11 in 3Q11, respectively.

Total ADS on a diluted basis outstanding during 3Q11 were 41.18mn, compared to 42.54mn outstanding during 2Q11.

	Number during three months ended June 30, 2011	Number during three months ended September 30, 2011
For the purpose of earnings per share calculation		
ADS (in mns)	40.87	41.18
Add: Dilution impact from options and nonvested shares	1.06	-
Warrant to Nokia Growth Partners ("NGP")	0.61	-
ADS on diluted basis	42.54	41.18

Note 1: The option, warrant, non-vested shares and convertible senior note outstanding were excluded from the computation of diluted net loss per share for three months ended September 30, 2011 because their effect would be anti-dilutive.

Impairment of goodwill and intangible

According to the authoritative accounting literature and accounting policies, we should perform the annual goodwill impairment test on December 31, 2011. An interim test for goodwill impairment may be necessary under certain circumstances. As of September 30, 2011, because the market capitalization dropped below the Company's book value, we performed an impairment test on goodwill. Based on the results of the impairment test, the goodwill of the WVAS segment was determined to be impaired of \$ 20.26mn, while no impairment was deemed necessary for the mobile game and Internet game business segments.

In addition, the intangible assets were determined to be impaired of US\$4k in 3Q11.

Balance Sheet

As of September 30, 2011, the Company had \$143.1mn in cash and cash equivalents or US\$ 3.5per basic ADS in cash and cash equivalents compared to US\$ 134.2mn at the end of 2Q11. Cash and cash equivalents exclude US\$ 21.99mn loans to a third party.

Stock Repurchase Program:

The Company began to repurchase its ADSs in the open market on September 30, 2011. As of November 28, 2011, 407k ADSs, representing 16,28mn ordinary shares of the Company, were repurchased at an average price of \$4.4533 per ADS.

Business Outlook (For the 3-month period ending December 31, 2011):

The Company expects total revenues for 4Q11 to be within the range of US\$ 39mn to US\$ 40mn, with business unit revenues at the mid-point expected to roughly consist of WVAS revenues of US\$ 19mn, mobile game revenues of US\$ 7mn and Online Game revenues of US\$ 13.5mn.

The Company expects total gross profit to be within the range of US\$ 15mn to US\$ 16mn, total operating profit to be US\$ 3mn to US\$ 4mn, net profit to be US\$ 3mn to US\$ 4mn, and Non-GAAP net profit is expected to be US\$ 5mn to US\$ 6mn.

Conference Call:

The Company's management team will conduct a conference call at 8:30 am Beijing time on November 30th 2011 (19:30 pm Eastern time and 16:30 pm Pacific time on November 29th, 2011). A webcast of this conference call will be accessible on the Company's web site at <http://ir.kongzhong.com>.

Non-GAAP Financial Measures

To supplement the unaudited condensed statements of income presented in accordance with US GAAP, the Company uses non-GAAP financial measures (Non-GAAP Financial Measures) of net income and net income per diluted ADS, which are adjusted from results based on GAAP to exclude certain infrequent or unusual or non-cash based expenses, gains and losses. The Non-GAAP Financial Measures are provided as additional information to help both management and investors compare business trends among different reporting periods on a consistent and more meaningful basis and enhance investors' overall understanding of the Company's current financial performance and prospects for the future.

The Non-GAAP Financial Measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results. In addition, the Company's calculation of the Non-GAAP Financial Measures may be different from the calculation used by other companies, and therefore comparability may be limited.

For the periods presented, the Company's non-GAAP net income and non-GAAP net income per diluted ADS exclude, as applicable, the amortization of intangibles, share-based compensation expense, interest expense on convertible note and provision for impairment of goodwill and intangible assets, as well as is adjusted for the dilution impact on ADS numbers of the options, nonvested shares and convertible note.

Reconciliation of the Company's Non-GAAP financial measures to the GAAP financial measures is set forth below.

About KongZhong:

We are one of the leading providers of digital entertainment services for consumers in the PRC. We operate three main business units, namely WVAS, mobile games and Internet games. We are one of the leading providers of WVAS to mobile phone users. We began providing WVAS on the networks of China Mobile in 2002. Since 2004, we have provided WVAS on the networks of China Unicom, China Telecom, China Netcom and the other major telecommunications operators in the PRC. Since 2004, we have also offered news, entertainment, community and mobile advertising services through our wireless Internet sites, including Kong.net, ko.cn and ct.cn. In 2008, we began reporting our mobile games business as a stand-alone operating segment, while it was previously reported as part of our WVAS business. We began our Internet games business in 2010, through our acquisition of Dacheng Networks, a developer and operator of online games.

Safe Harbor Statements

This press release contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements include, without limitation, statements regarding trends in the wireless value-added services, wireless media, mobile games and online games industries and our future results of operations, financial condition and business prospects. Although such statements are based on our own information and information from other sources we believe to be reliable, you should not place undue reliance on them. These statements involve risks and uncertainties, and actual market trends and our results may differ materially from those expressed or implied in these forward looking statements for a variety of reasons. Potential risks and uncertainties include, but are not limited to, continued competitive pressure in China’s wireless value-added services, wireless media, mobile games and online games industries and the effect of such pressure on revenues; our ability to develop new products that are commercially successful; unpredictable changes in technology, consumer demand and usage preferences in the markets we operate; our ability to protect our intellectual property rights; the short operating history of certain of our business segments, in particular the online games segment; the state of and any change in our relationship with China’s telecommunications operators; our dependence on the billing systems of telecommunications operators for our performance; the outcome of our investment of operating income generated from the WVAS segment into the development of our wireless Internet, mobile games and online games segments; changes in the regulations or policies of the Ministry of Industry and Information Technology and other government authorities relevant to our businesses; and changes in political, economic, legal and social conditions in China, including the Chinese government’s policies with respect to economic growth, foreign exchange, foreign investment and entry by foreign companies into China’s telecommunications and online games markets. For additional discussion of these risks and uncertainties and other factors, please see the documents we file from time to time with the Securities and Exchange Commission. We assume no obligation to update any forward-looking statements, which apply only as of the date of this press release.
