

HURCO COMPANIES INC
Form 10-Q
June 08, 2012

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

Quarterly report pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934 for the quarterly period ended April 30, 2012 or
 Transition report pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934 for the transition period from _____ to _____.

Commission File No. 0-9143

HURCO COMPANIES, INC.

(Exact name of registrant as specified in its charter)

Indiana 35-1150732
(State or other jurisdiction of (I.R.S. Employer Identification Number)
incorporation or organization)

One Technology Way
Indianapolis, Indiana 46268
(Address of principal executive offices) (Zip code)

Registrant's telephone number, including area code (317) 293-5309

Edgar Filing: HURCO COMPANIES INC - Form 10-Q

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Sections 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to the filing requirements for the past 90 days:

Yes No

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a small reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The number of shares of the Registrant's common stock outstanding as of June 1, 2012 was 6,447,210.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. GENERAL

The unaudited Condensed Consolidated Financial Statements include the accounts of Hurco Companies, Inc. and its consolidated subsidiaries. As used in this report, and unless the context indicates otherwise, the terms “we”, “us”, “our” and similar language refer to Hurco Companies, Inc. and its consolidated subsidiaries. We design and produce computerized machine tools, interactive computer control systems and software for sale through our distribution network to the worldwide metal cutting market. We also provide software options, computer control upgrades, accessories and replacement parts for our products, as well as customer service and training support.

The condensed financial information as of April 30, 2012 and for the three and six months ended April 30, 2012 and April 30, 2011 is unaudited; however, in our opinion, the interim data includes all adjustments, consisting only of normal recurring adjustments, necessary to present fairly our consolidated financial position, results of operations, changes in shareholders' equity and cash flows at the end of the interim periods. We suggest that you read these condensed consolidated financial statements in conjunction with the financial statements and the notes thereto included in our Annual Report on Form 10-K for the year ended October 31, 2011.

2. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

We are exposed to certain market risks relating to our ongoing business operations, including foreign currency risk, interest rate risk and credit risk. We manage our exposure to these and other market risks through regular operating and financing activities. Currently, the only risk that we manage through the use of derivative instruments is foreign currency risk.

We operate on a global basis and are exposed to the risk that our financial condition, results of operations and cash flows could be adversely affected by changes in foreign currency exchange rates. To reduce the potential effects of foreign exchange rate movements on our net equity investment in the gross profit and net earnings of one of our foreign subsidiaries, we enter into derivative financial instruments in the form of foreign exchange forward contracts with a major financial institution. We are primarily exposed to foreign currency exchange rate risk with respect to transactions and net assets denominated in Euros, Pounds Sterling, Canadian Dollars, South African Rand, Singapore Dollars, Indian Rupee, Chinese Yuan and New Taiwan Dollars.

We record all derivative instruments as assets or liabilities at fair value.

Derivatives Designated as Hedging Instruments

We enter into foreign currency forward exchange contracts periodically to hedge certain forecasted inter-company sales and purchases denominated in foreign currencies (the Pound Sterling, Euro and New Taiwan Dollar). The purpose of these instruments is to mitigate the risk that the U.S. Dollar net cash inflows and outflows resulting from sales and purchases denominated in foreign currencies will be adversely affected by changes in exchange rates. These forward contracts have been designated as cash flow hedge instruments, and are recorded in the Condensed Consolidated Balance Sheets at fair value in Derivative assets and Derivative liabilities. The effective portion of the gains and losses resulting from the changes in the fair value of these hedge contracts are deferred in Accumulated other comprehensive loss and recognized as an adjustment to Cost of sales and service in the period that the corresponding inventory sold that is the subject of the related hedge contract is recognized, thereby providing an offsetting economic impact against the corresponding change in the U.S. Dollar value of the inter-company sale or purchase being hedged. The ineffective portion of gains and losses resulting from the changes in the fair value of these hedge contracts is reported in Other (income) expense, net immediately. We perform quarterly assessments of hedge effectiveness by verifying and documenting the critical terms of the hedge instrument and determining that forecasted transactions have not changed significantly. We also assess on a quarterly basis whether there have been adverse developments regarding the risk of a counterparty default.

We had forward contracts outstanding as of April 30, 2012, denominated in Euros, Pounds Sterling and New Taiwan Dollars with set maturity dates ranging from May 2012 through April 2013. The contract amounts, expressed at forward rates in U.S. Dollars at April 30, 2012, were \$37.7 million for Euros, \$9.6 million for Pounds Sterling and \$28.4 million for New Taiwanese Dollars. At April 30, 2012, we had approximately \$1.0 million of gains, net of tax, related to cash flow hedges deferred in Accumulated other comprehensive loss. Of this amount, \$685,000 represents unrealized gains, net of tax, related to cash flow hedge instruments that remain subject to currency fluctuation risk. The majority of these deferred gains will be recorded as an adjustment to Cost of sales and service in periods through April 2013, when the corresponding inventory that is the subject of the related hedge contract is sold, as described above.

We are also exposed to foreign currency exchange risk related to our investment in net assets in foreign countries. To manage this risk, we have maintained a forward contract with a notional amount of €3.0 million. We designated this forward contract as a hedge of our net investment in Euro denominated assets. We selected the forward method under Financial Accounting Standards Board, or FASB, guidance related to the accounting for derivatives instruments and hedging activities. The forward method requires all changes in the fair value of the contract to be reported as a cumulative translation adjustment in Accumulated other comprehensive loss, net of tax, in the same manner as the underlying hedged net assets. This forward contract matures in November 2012. At April 30, 2012, we had \$227,000 of realized gains and \$49,000 of unrealized gains, net of tax, recorded as cumulative translation adjustments in Accumulated other comprehensive loss related to this forward contract.

Derivatives Not Designated as Hedging Instruments

We also enter into foreign currency forward exchange contracts to protect against the effects of foreign currency fluctuations on receivables and payables denominated in foreign currencies. These derivative instruments are not designated as hedges under the FASB guidance and, as a result, changes in their fair value are reported currently as Other (income) expense, net, in the Condensed Consolidated Statements of Operations consistent with the transaction gain or loss on the related receivables and payables denominated in foreign currencies.

We had forward contracts outstanding as of April 30, 2012, in Euros, Pounds Sterling, Canadian Dollars, the South African Rand, and New Taiwan Dollars with set maturity dates ranging from May 2012 through September 2012. The aggregate amount of these contracts at forward rates in U.S. Dollars at April 30, 2012 totaled \$40.0 million.

Fair Value of Derivative Instruments

We recognize the fair value of derivative instruments as assets and liabilities on a gross basis on our Condensed Consolidated Balance Sheets. As of April 30, 2012 and October 31, 2011, all derivative instruments were recorded at fair value on the balance sheets as follows (in thousands):

Derivatives	April 30, 2012		October 31, 2011	
	Balance sheet Location	Fair value	Balance sheet location	Fair value
Designated as hedging instruments:				
Foreign exchange forward contracts	Derivative assets	\$1,631	Derivative assets	\$634
Foreign exchange forward contracts	Derivative liabilities	\$475	Derivative liabilities	\$1,492
Not designated as hedging instruments:				
Foreign exchange forward contracts	Derivative assets	\$103	Derivative assets	\$563
Foreign exchange forward contracts	Derivative liabilities	\$100	Derivative liabilities	\$117

Effect of Derivative Instruments on the Condensed Consolidated Balance Sheets and Condensed Consolidated Statements of Changes in Shareholders' Equity and Income

Derivative instruments had the following effects on our Condensed Consolidated Balance Sheets and Condensed Consolidated Statements of Changes in Shareholders' Equity and Income during the six months ended April 30, 2012 and 2011 (in thousands):

Derivatives	Amount of gain (loss) recognized in Other comprehensive loss		Location of gain (loss) reclassified from Other comprehensive loss	Amount of gain (loss) reclassified from Other comprehensive loss	
	Six months ended April 30, 2012	2011		Six months ended April 30, 2012	2011
Designated as hedging instruments: (Effective portion)					
Foreign exchange forward contracts – Intercompany sales/purchases	\$ 2,391	\$ (1,413)	Cost of sales and service	\$ (715)	\$ 497
Foreign exchange forward contract					

– Net investment \$ 203 \$ (279)

We recognized a gain of \$267,000 for the six months ended April 30, 2012, and a loss of \$25,000 for the six months ended April 30, 2011 as a result of contracts closed early that were deemed ineffective for financial reporting purposes and did not qualify as cash flow hedges.

3. EQUITY INCENTIVE PLAN

In March 2008, we adopted the Hurco Companies, Inc. 2008 Equity Incentive Plan (the “2008 Plan”), which allows us to grant awards of stock options, Stock Appreciation Rights settled in stock (SARs), restricted shares, performance shares and performance units. The 2008 Plan replaced the 1997 Stock Option and Incentive Plan, which expired in March 2007. The Compensation Committee of the Board of Directors has authority to determine the officers, directors and key employees who will be granted awards; designate the number of shares subject to each award; determine the terms and conditions upon which awards will be granted; and prescribe the form and terms of award agreements. We have granted stock options under both plans which are currently outstanding and restricted shares under the 2008 Plan. No stock option may be exercised more than ten years after the date of grant or such shorter period as the Compensation Committee may determine at the date of grant. The total number of shares of our common stock that may be issued as awards under the 2008 Plan is 750,000. The market value of a share of our common stock, for purposes of the 2008 Plan, is the closing sale price as reported by the Nasdaq Global Select Market on the date in question or, if not a trading day, on the last preceding trading date.

A summary of stock option activity for the six-month period ended April 30, 2012, is as follows:

	Stock Options	Weighted Average Exercise Price
Outstanding at October 31, 2011	115,369	\$ 20.66
Options granted	45,236	21.45
Options exercised	(500)	2.15
Options cancelled	—	—
Outstanding at April 30, 2012	160,105	\$ 20.94

Summarized information about outstanding stock options as of April 30, 2012, that have already vested and those that are expected to vest, as well as stock options that are currently exercisable, are as follows:

	Options already vested and expected to vest	Options currently exercisable
Number of outstanding options	160,105	84,536
Weighted average remaining contractual life (years)	7.41	4.73

Edgar Filing: HURCO COMPANIES INC - Form 10-Q

Weighted average exercise price per share	\$ 20.94	\$ 22.33
Intrinsic value of outstanding options	\$ 971,000	\$ 445,000

The intrinsic value of an outstanding stock option is calculated as the difference between the stock price as of April 30, 2012 and the exercise price of the option.

On December 14, 2011, the Compensation Committee granted a total of 45,236 stock options under the 2008 Plan to our executive officers. The fair value of the options was estimated on the date of grant using a Black-Scholes valuation model with assumptions for expected volatility based on the historical volatility of our common stock of 64%, expected term of the options of five years, dividend yield rate of 0% and a risk-free interest rate of .86% based upon the five-year U.S. Treasury yield as of the date of grant. The options vest over a three-year period beginning one year from the date of grant. Based upon the foregoing factors, the grant date fair value of the stock options was determined to be \$11.50 per share.

On December 14, 2011, the Compensation Committee granted a total of 24,243 shares of restricted stock to our executive officers. The restricted stock vests in full three years from the date of grant provided the recipient remains employed by us through that date. The grant date fair value of the restricted stock is based on the closing sales price of our common stock on the grant date which was \$21.45 per share.

On March 15, 2012, the Compensation Committee granted a total of 6,475 shares of restricted stock to our non-employee directors. The restricted stock vests in full one year from the date of grant provided the recipient remains on the board of directors through that date. The grant date fair value of the restricted stock is based on the closing sales price of our common stock on the grant date which was \$27.00 per share.

A reconciliation of the Company's restricted stock activity and related information is as follows:

	Number of Shares	Weighted Average Grant Date Fair Value
Unvested at October 31, 2011	30,859	\$ 24.38
Shares granted	30,718	22.62
Shares vested	(5,859)	(29.86)
Shares cancelled	—	—
Unvested at April 30, 2012	55,718	\$ 22.84

During the first six months of fiscal 2012 and 2011, we recorded \$422,000 and \$194,000, respectively, as stock-based compensation expense attributable to grants of stock options and shares of restricted stock. As of April 30, 2012, there was \$1.5 million of total unrecognized stock-based compensation expense that we expect to recognize by the end of the first quarter of fiscal 2015.

4. EARNINGS PER SHARE

Per share results have been computed based on the average number of common shares outstanding. The computation of basic and diluted net income per share is determined using net income applicable to common shareholders as the numerator and the number of shares outstanding as the denominator as follows (in thousands, except per share amounts):

Three months ended		Six months ended	
April 30,		April 30,	
2012	2011	2012	2011

Edgar Filing: HURCO COMPANIES INC - Form 10-Q

	Basic	Diluted	Basic	Diluted	Basic	Diluted	Basic	Diluted

12

5. ACCOUNTS RECEIVABLE

Accounts receivable are net of allowances for doubtful accounts of \$561,000 as of April 30, 2012 and \$608,000 as of October 31, 2011.

6. INVENTORIES

Inventories, priced at the lower of cost (first-in, first-out method) or market, are summarized below (in thousands):

	April 30, 2012	October 31, 2011
Purchased parts and sub-assemblies	\$ 21,828	\$ 20,925
Work-in-process	16,834	15,440
Finished goods	54,227	44,762
	\$ 92,889	\$ 81,127

7. SEGMENT INFORMATION

We operate in a single segment: industrial automation systems. We design and produce interactive computer control systems and software and computerized machine tools for sale through our own distribution network to the worldwide metal-working market. We also provide software options, control upgrades, accessories and replacement parts for our products, as well as customer service and training support.

8. GUARANTEES AND WARRANTIES

We follow FASB guidance for accounting for contingencies relating to the guarantor's accounting for, and disclosures of, the issuance of certain types of guarantees.

From time to time, our subsidiaries guarantee third party payment obligations in connection with the sale of machines to customers that use financing. As of April 30, 2012, we had 20 outstanding third party payment guarantees totaling approximately \$1.2 million. The terms of these guarantees are consistent with the underlying customer financing terms. Upon shipment of a machine, the customer has the risk of ownership. The customer does not obtain title, however, until it has paid for the machine. A retention of title clause allows us to recover the machine if the customer defaults on the financing. We accrue for potential liabilities under these guarantees when we believe a loss is probable and can be estimated.

We provide warranties on our products with respect to defects in material and workmanship. The terms of these warranties are generally one year for machines and shorter periods for service parts. We recognize a reserve with respect to this obligation at the time of product sale, with subsequent warranty claims recorded against the reserve. The amount of the warranty reserve is determined based on historical trend experience and any known warranty issues that could cause future warranty costs to differ from historical experience. A reconciliation of the changes in our warranty reserve is as follows (in thousands):

	Six months ended	
	April	April 30, 2011
	30,	
	2012	
Balance, beginning of period	\$1,725	\$ 1,591
Provision for warranties during the period	1,586	1,250
Charges to the reserve	(1,617)	(1,101)
Impact of foreign currency translation	(1)	38
Balance, end of period	\$1,693	\$ 1,778

The increased provision for warranties in the six months ended April 30, 2012 compared to the six months ended April 30, 2011 reflects the increased volume of sales and anticipated claims related to machines under warranty and the sale of a greater number of our higher performance machines which have a higher cost per claim.

9. COMPREHENSIVE INCOME

A reconciliation of our net income to comprehensive income is as follows (in thousands):

	Three months ended	
	April 30, 2012	April 30, 2011
Net income	\$ 2,962	\$ 2,349
Translation of foreign currency financial statements	924	2,206
Realized (gains) losses on derivative instruments reclassified into operations, net of tax	25	(93)
Unrealized gains (losses) on derivative instruments, net of tax	(198)	(1,879)
Comprehensive income	\$ 3,713	\$ 2,583

10. DEBT AGREEMENTS

We are party to a domestic credit agreement that provides us with a \$15.0 million revolving credit facility and maximum outstanding letters of credit of \$3.0 million. Borrowings under this agreement may be used for general corporate purposes and bear interest at a floating rate, based either on LIBOR or the prime rate, plus an applicable margin. The agreement contains financial covenants, including restrictions on incurring additional debt, making acquisitions, or paying dividends if we report a cumulative net loss for four consecutive quarters. We also have an uncommitted credit facility in Taiwan in the amount of 100.0 million New Taiwan Dollars (approximately \$3.4 million), a £1.0 million revolving credit facility in the United Kingdom and a €1.5 million revolving credit facility in Germany. The domestic and United Kingdom facilities mature on December 7, 2012. The credit facility in Germany does not have an expiration date.

On March 7, 2011 we entered into an uncommitted credit facility in China in the amount of 20.0 million Chinese Yuan (approximately \$3.2 million) and amended our domestic credit agreement to accommodate the new facility. As of February 24, 2012 this facility was extended for another twelve months.

All of our credit facilities are unsecured.

At April 30, 2012, we had \$2.0 million of borrowings outstanding under our credit facility in China but no other borrowings under any of our other credit facilities. April 30, 2012, we were in compliance with the covenants contained in all of our credit facilities and had an aggregate of \$23.2 million available for borrowings under those facilities.

11.

INCOME TAXES

Our effective tax rate for the first six months of fiscal 2012 was 31% in comparison to 33% for the same period in fiscal 2011. We recorded an income tax provision during the first six months of fiscal 2012 of approximately \$3.4 million compared to \$1.9 million for the same period in fiscal 2011, as a result of the increase in pre-tax income period-over-period.

Our unrecognized tax benefits were \$304,000 as of April 30, 2012 compared to \$275,000 October 31, 2011 and in each case included accrued interest.

We recognize accrued interest and penalties related to unrecognized tax benefits as components of our income tax provision. We believe our unrecognized tax positions meet the minimum statutory threshold to avoid payment of penalties and, therefore, no tax penalties have been estimated. As of April 30, 2012, the gross amount of interest accrued, reported in Accrued expenses and other, was approximately \$36,000, which did not include the federal tax benefit of interest deductions.

We file U.S. federal and state income tax returns, as well as tax returns in several foreign jurisdictions. The statutes of limitations with respect to unrecognized tax benefits will expire between July 2014 and July 2015.

The Internal Revenue Service (IRS) is currently examining our federal income tax returns for the years 2006-2010. At this time, we do not expect to have any significant examination adjustments that would result in a material change in our financial position or results of operations.

12. FINANCIAL INSTRUMENTS

The carrying amounts for our trade receivables and payables approximate their fair values. We also have financial instruments in the form of foreign currency forward exchange contracts as described in Note 2. The U.S. Dollar equivalent notional amounts of these contracts were \$120.1 million and \$126.4 million at April 30, 2012 and October 31, 2011, respectively. The fair value of Derivative assets recorded on our Condensed Consolidated Balance Sheets was \$1.7 million at April 30, 2012 and \$1.2 million at October 31, 2011. The fair value of Derivative liabilities recorded on our Condensed Consolidated Balance Sheets was \$575,000 at April 30, 2012 and \$1.6 million at October 31, 2011.

The future value of our foreign currency forward exchange contracts and the related currency positions are subject to offsetting market risk resulting from foreign currency exchange rate volatility. The counterparties to these contracts are substantial and creditworthy financial institutions. We do not consider either the risk of counterparty non-performance or the economic consequences of counterparty non-performance as material risks.

FASB fair value guidance establishes a three-tier fair value hierarchy, which categorizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exist, therefore requiring an entity to develop its own assumptions.

In accordance with this guidance, the following table represents the fair value hierarchy for our financial assets and liabilities measured at fair value as of April 30, 2012 and October 2011 (in thousands):

Assets		Liabilities	
April 30, 2012	October 31, 2011	April 30, 2012	October 31, 2011

Level 1

Deferred Compensation	\$848	\$ 741	\$-	\$ -
-----------------------	-------	--------	-----	------

Level 2

Derivatives	\$1,734	\$ 1,197	\$575	\$ 1,609
-------------	---------	----------	-------	----------

Included in Level 1 assets are mutual fund investments under a nonqualified deferred compensation plan. We estimate the fair value of these investments on a recurring basis using market prices which are readily available. Included as Level 2 fair value measurements are derivative assets and liabilities related to hedged and unhedged gains and losses on foreign currency forward exchange contracts entered into with a third party. We estimate the fair value of these derivatives on a recurring basis using foreign currency exchange rates obtained from active markets.

During the first six months of fiscal 2012, we did not have any significant non-recurring measurements of non-financial assets and non-financial liabilities.

13.EMPLOYEE BENEFITS

We have defined contribution plans that include a majority of our employees, under which our matching contributions are primarily discretionary. The purpose of these plans is generally to provide additional financial security during retirement by providing employees with an incentive to save throughout their employment. Our matching contributions to the plans are based on employee contributions or compensation. From April 1, 2009 to December 31, 2010, we suspended our discretionary contributions to the U.S. plan as a cost reduction measure; however, effective January 1, 2011 we reinstated our matching contributions to that plan in an amount equal to 25% of the first 6% of a participant's annual earnings contributed, up to the maximum permitted by law. Effective January 1, 2012, we increased our matching contributions to 50% of the first 6% of a participant's annual earnings contributed, up the maximum permitted by law. Our total contributions to all plans were approximately \$231,000 and \$130,000, for the six months ended April 30, 2012 and 2011, respectively.

14.NEW ACCOUNTING PRONOUNCEMENTS

In June 2011, the FASB amended Accounting Standards Update (ASU) 2011-05, *Comprehensive Income, Presentation of Comprehensive Income*, which will require companies to present the components of net income and other comprehensive income either as one continuous statement or as two consecutive statements. It eliminates the option to present components of other comprehensive income as part of the statement of changes in shareholders' equity. The guidance in ASU 2011-05 does not change the items which must be reported in other comprehensive income, how such items are measured, or when they must be reclassified to net income. The guidance in ASU 2011-05 is effective for fiscal years and interim periods within those years beginning after December 15, 2011, and should be applied retrospectively. Since the provisions of ASU 2011-05 are presentation related only, we do not expect the adoption of ASU 2011-05 to have a material effect on our consolidated financial statements.

In December 2011, The FASB issued Accounting Standards Update 2011-12 (ASU 2011-12), *Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-05*. ASU 2011-12 defers the requirement that companies present reclassification adjustments for each component of AOCI in both net income and OCI on the face of the financial statements. The effective dates for ASU 2011-12 are consistent with the effective dates for ASU 2011-05 and, similar to our expectations for the adoption of ASU 2011-05, we do not expect that the adoption of this guidance will have a material effect on our consolidated financial statements.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

EXECUTIVE OVERVIEW

Hurco Companies, Inc. is an industrial technology company operating in a single segment. We design and produce computerized machine tools, featuring our proprietary computer control systems and software, for sale through our own distribution network to the worldwide metal cutting market. We also provide software options, control upgrades, accessories and replacement parts for our products, as well as customer service and training support.

We sell our products through more than 100 independent agents and distributors in countries throughout North America, Europe and Asia. We also have our own direct sales and service organizations in Canada, China, France, Germany, India, Italy, Poland, Singapore, South Africa, the United Kingdom and certain parts of the United States. The vast majority of our machine tools are manufactured to our specifications primarily by our wholly owned subsidiary in Taiwan, Hurco Manufacturing Limited (HML). Machine castings and components to support HML's production are manufactured at our facility in Ningbo, China. We also manufacture certain machine tools for the Chinese market at the Ningbo plant.

The following overview is intended to provide a brief explanation of the principal factors that have contributed to our recent financial performance. This overview is intended to be read in conjunction with the more detailed information included in our financial statements that appear elsewhere in this report.

From fiscal 2004 through fiscal 2008, we experienced a period of sustained growth due to strong worldwide demand for machine tools, the expansion of our product line to include higher-performance machines, increased customer acceptance of our products, and the strength of our selling and manufacturing operations outside the United States. In fiscal 2009 we began experiencing the effects of the world-wide recession. In fiscal 2009 and 2010 we took steps to reduce production and operating costs. In fiscal 2011, worldwide demand for machine tools increased as global manufacturing rebounded from the recession and we were able to ramp up production and return to profitability.

The market for machine tools is international in scope. We have both significant foreign sales and foreign manufacturing operations. During the past three fiscal years, approximately 63% of our sales were attributable to customers located in Europe and 10% of our sales were attributable to customers located in Asia. During the first six months of fiscal 2012, 58% of our sales were attributable to customers in Europe and 14% of our sales were attributable to customers in Asia. The decrease in European sales reflects the economic uncertainty surrounding the continued debt crisis and the increase in Asian sales reflects increased market penetration.

Our sales to foreign customers are denominated, and payments by those customers are made, in the prevailing currencies—primarily the Euro, Pound Sterling and Chinese Yuan—in the countries in which those customers are located. Our product costs are incurred and paid primarily in the New Taiwan Dollar and the U.S. Dollar. Changes in currency exchange rates may have a material effect on our operating results and consolidated balance sheets as reported under U.S. Generally Accepted Accounting Principles. For example, when the U.S. Dollar weakens in value relative to a foreign currency, sales made, and expenses incurred, in that currency when translated to U.S. Dollars for reporting in our financial statements, are higher than would be the case when the U.S. Dollar is stronger. In the comparison of our period-to-period results, we discuss the effect of currency translation on those results including the increases or decreases in those results as reported in our financial statements (which reflect translation to U.S. Dollars at exchange rates prevailing during the period covered by those financial statements) and also the effect that changes in exchange rates had on those results.

Our high levels of foreign manufacturing and sales also subject us to cash flow risks due to fluctuating currency exchange rates. We seek to mitigate those risks through the use of various derivative instruments – principally foreign currency forward exchange contracts.

In the first six months of fiscal 2012, our business continued to benefit from increased global demand for machine tools. Sales for that period in fiscal 2012 were 19% higher than in the corresponding six months of fiscal 2011. Sales for the second quarter of fiscal 2012 totaled \$46.0 million, an increase of \$4.4 million, or 11%, compared to the second quarter of fiscal 2011. The increase in sales during the second quarter of fiscal 2012 compared to the fiscal 2011 period was driven primarily by strong demand in North America and the Asia Pacific region. However, during the second quarter of fiscal 2012, sales in Europe were down slightly compared to the prior year due to the economic uncertainty surrounding the European debt crisis and the adverse effect of a weaker Euro. Our gross profit for the first six months of fiscal 2012 was \$29.9 million, or 31% of sales, compared to \$24.3 million or 30% of sales, for the prior year period.

RESULTS OF OPERATIONS

Three Months Ended April 30, 2012 Compared to Three Months Ended April 30, 2011

Sales and Service Fees. Sales and service fees for the second quarter of fiscal 2012 totaled \$46.0 million, an increase of \$4.4 million, or 11%, compared to the second quarter of fiscal 2011. The year-over-year increase in sales includes the adverse effect of a weaker Euro in 2012 when translating foreign sales to U.S. Dollars for financial reporting purposes of approximately \$1.4 million, or 3%.

The following two tables set forth net sales (in thousands) by geographic region and product category, respectively, for the second quarter of fiscal 2012 and 2011:

Sales and Service Fees by Geographic Region

	Three months ended April 30,		Change		
	2012	2011	Amount	%	
North America	\$11,996	26 % \$9,137	22 %	\$2,859	31 %
Europe	26,646	58 % 27,297	66 %	(651)	(2)%
Asia Pacific	7,323	16 % 5,142	12 %	2,181	42 %
Total	\$45,965	100 % \$41,576	100 %	\$4,389	11 %

The increase in sales during the second quarter of fiscal 2012 compared to fiscal 2011 period was driven primarily by strong demand in North America and the Asia Pacific region. Sales in Europe were down slightly compared to prior year period due to the adverse effect of a weaker Euro and the growing economic uncertainty surrounding the European debt crisis. During the second quarter of fiscal 2012, unit shipments increased from the corresponding

quarter in fiscal 2011 by 16% in North America and 45% in the Asia Pacific sales region, but decreased by 7% in Europe.

Sales and Service Fees by Product Category

	Three months ended April 30,		Change		
	2012	2011	Amount	%	
Computerized Machine Tools	\$40,088	87 % \$35,834	86 %	\$4,254	12 %
Service Fees, Parts and Other	5,877	13 % 5,742	14 %	135	2 %
Total	\$45,965	100 % \$41,576	100 %	\$4,389	11 %

Orders. Orders for the second quarter of fiscal 2012 were \$51.1 million, a decrease of \$21.5 million, or 30%, from the corresponding period in fiscal 2011. Unit orders for the second quarter of fiscal 2012 decreased by 20% in North America, 42% in Europe and 14% in the Asia Pacific region compared to the prior year period. Orders in the second quarter of fiscal 2011 were unusually high due to a surge of customer orders that were placed during the quarter in advance of an announced price increase that went into effect at the end of that quarter. This impact was seen across all regions, but, was most notable in Europe where orders of \$50.6 million represented 42% of total European orders for the entire fiscal year. When compared to the first quarter of fiscal 2012, orders for the second quarter increased by \$2.2 million, or 4%. The impact of currency translation on orders was consistent with the impact on sales.

Gross Profit. Gross profit for the second quarter of fiscal 2012 was \$13.4 million, or 29% of sales, compared to \$12.7 million, or 30% of sales, for the prior year period, due primarily to the impact of increased sales in North America and Asia. Gross profit as a percentage of sales decreased in the 2012 quarter as a result of a lower percentage of our global sales coming from Europe, which is the primary market for our larger, higher performance machines.

Operating Expenses. Selling, general and administrative expenses in the second quarter of fiscal 2012 were \$9.3 million and remained relatively unchanged from the fiscal 2011 period. Selling, general and administrative expenses were 20% of sales and service fees during the second quarter of fiscal 2012 compared to 22% for the second quarter of fiscal 2011 because of the effects of leveraging our fixed costs over increased sales.

Operating Income. Operating income for the second quarter of fiscal 2012 was \$4.1 million compared to \$3.4 million for the prior year period. The improvement in operating income period-over-period was primarily due to the increase in sales and the resulting effects of leveraging fixed costs over those increased sales.

Other (Income) Expense, Net. Other expense in the second quarter of fiscal 2012 was \$17,000 and remained relatively unchanged from the fiscal 2011 period. Other expense consists primarily of net realized and unrealized losses from foreign currency fluctuations on payables and receivables, net of foreign currency forward exchange contracts.

Income Taxes. Our effective tax rate for the second quarter of fiscal 2012 was 27% in comparison to 31% for the same period in fiscal 2011. The decrease in the effective income tax rate was primarily due to an increase in allowable tax credits.

Six Months Ended April 30, 2012 Compared to Six Months Ended April 30, 2011

Sales and Service Fees. Sales and service fees for the first six months ended April 30, 2012 totaled \$97.1 million, an increase of \$15.8 million, or 19%, from the corresponding period in 2011 reflecting the continued improvement in demand we have experienced since the beginning of fiscal 2011. The unfavorable impact of currency translation on the year-over-year six-month comparison was \$1.8 million, or 2%.

The following tables set forth net sales (in thousands) by geographic region and product category for the first six months of fiscal 2012 and 2011, respectively:

Net Sales and Service Fees by Geographic Region

	Six months ended April 30,				Change	
	2012		2011		Amount	%
North America	\$27,322	28 %	\$22,599	28 %	\$4,723	21 %
Europe	56,565	58 %	48,576	60 %	7,989	16 %
Asia Pacific	13,204	14 %	10,081	12 %	3,123	31 %
Total	\$97,091	100 %	\$81,256	100 %	\$15,835	19 %

The increase in sales was primarily driven by higher customer demand in all sales regions. Unit shipments in the first six months of fiscal 2012 increased over the prior period by 9% in North America, 7% in Europe, and 36% in the Asia Pacific sales region.

Net Sales and Service Fees by Product Category

	Six months ended April 30,		Change	
	2012	2011	Amount	%
Computerized Machine Tools	\$85,397	88 % \$69,829	86 % \$15,568	22 %
Service Fees, Parts and Other	11,694	12 % 11,427	14 % 267	2 %
Total	\$97,091	100 % \$81,256	100 % \$15,835	19 %

Unit shipments of computerized machine tools during the first six months of fiscal 2012 increased by 13% from the corresponding period in fiscal 2011.

Orders. Orders for the first six months of fiscal 2012 were \$100.0 million, a decrease of \$16.9 million, or 14%, from the corresponding period in fiscal 2011. Orders in the first six months of fiscal 2011 were unusually high due to a surge of customer orders that were placed during the second quarter in advance of an announced price increase that went into effect at the end of that quarter. This impact was seen across all regions, however, was most notable in Europe where orders of \$50.6 million for the second quarter of fiscal 2011 represented 42% of total European orders for the entire fiscal year. The impact of currency translation on orders was consistent with the impact on sales. Unit orders for the first six months of fiscal 2012 decreased by 9% in North America, 28% in Europe and 14% in the Asia Pacific region compared to the prior year period.

Gross Profit. Gross profit for the first six months of fiscal 2012 was \$29.9 million or 31% of sales, compared to \$24.3 million or 30% of sales for the same period in 2011 due primarily to the result of increased sales and the effects of leveraging our fixed costs over those increased sales.

Operating Expenses. Selling, general and administrative expenses were \$19.0 million for the first six months of fiscal 2012 compared to \$18.1 million for the first six months of fiscal 2011 and reflected global sales and marketing initiatives implemented to promote growth in all regions. Despite the dollar increase, selling, general and administrative expenses were 20% of sales and service fees during the first six months of fiscal 2012 compared to 22% for the first six months of fiscal 2011 because of the effects of leveraging our fixed costs over increased sales.

Operating Income (Loss). Operating income for the first six months of fiscal 2012 was \$10.9 million compared to operating income of \$6.3 million for the prior year period. The substantial improvement in operating income year-over-year was primarily due to the significant increase in sales and the resulting effects of leveraging our fixed costs over those increased sales.

Other (Income) Expense, Net. The increase in other income of \$600,000 for the first six months of fiscal 2012 compared to the same period in fiscal 2011 was primarily due to a reduction in net realized and unrealized losses from foreign currency fluctuations on payables and receivables, net of foreign currency forward exchange contracts and an increase in income from our investment in a Taiwan contract manufacturer in which we have a minority interest accounted for under the equity method.

Income Taxes. Our effective tax rate for the first six months of fiscal 2012 was 31% in comparison to 33% for the same period in fiscal 2011. The decrease in the effective income tax rate was primarily due to an increase in allowable tax credits.

LIQUIDITY AND CAPITAL RESOURCES

At April 30, 2012, we had cash of \$40.1 million, compared to \$45.0 million at October 31, 2011. During the first six months of fiscal 2012 inventory levels were increased to support the growth in customer demand and we funded the increase in production primarily with cash on hand and \$2.0 million of borrowings from our China credit facility. Approximately 65% of the \$40.1 million of cash is denominated in U.S. Dollars. The balance is held outside the U.S. in the local currencies of our various foreign entities and is subject to fluctuations in currency exchange rates.

Working capital, excluding cash, was \$77.5 million at April 30, 2012, compared to \$61.9 million at October 31, 2011. The increase in working capital, excluding cash, was primarily due to an increase in inventory of \$11.6 million to meet anticipated improvements in demand.

Capital expenditures of \$1.3 million during the first six months of fiscal 2012 were primarily for the purchase of equipment for a new production facility in Taiwan, capital improvements in existing facilities, implementation of operating systems, and software development costs. We funded these expenditures with cash on hand.

At April 30, 2012, we had \$2.0 million of borrowings outstanding under our credit facility in China but no borrowings under any of our other credit facilities. The increase in the borrowings on the credit facility in China from October 31, 2011 to April 30, 2012 was to meet working capital needs as production levels increased to meet improved demand. At April 30, 2012, we were in compliance with the covenants contained in all of our credit facilities and had an aggregate of \$23.2 million available for borrowings under those facilities.

We believe our cash position and borrowing capacity under our credit facilities provide adequate liquidity to fund our operations and keep us committed to our strategic plan of product innovation and targeted penetration of developing markets.

Although we have not made any significant acquisitions in the recent past, we continue to receive and review information on businesses and assets, including intellectual property assets, which are available for purchase.

CRITICAL ACCOUNTING POLICIES

Our accounting policies, which are described in our Annual Report on Form 10-K for the fiscal year ended October 31, 2011, require management to make significant estimates and assumptions using information available at the time the estimates are made. These estimates and assumptions significantly affect various reported amounts of assets, liabilities, revenues, and expenses. If our future experience differs materially from these estimates and assumptions, our results of operations and financial condition would be affected. There were no material changes to our critical accounting policies during the first six months of fiscal 2012.

CONTRACTUAL OBLIGATIONS AND COMMITMENTS

There have been no material changes related to contractual obligations and commitments from the information provided in our Annual Report on Form 10-K for the fiscal year ended October 31, 2011.

OFF BALANCE SHEET ARRANGEMENTS

From time to time, our subsidiaries guarantee third party payment obligations in connection with the sale of machines to customers that use financing. We follow Financial Accounting Standards Board, or FASB, guidance for accounting for contingencies with respect to these guarantees. As of April 30, 2012, we had 20 outstanding third party payment guarantees totaling approximately \$1.2 million. The terms of these guarantees are consistent with the underlying customer financing terms. Upon shipment of a machine, the customer has the risk of ownership. The customer does not obtain title, however, until it has paid for the machine. A retention of title clause allows us to recover the machine if the customer defaults on the financing. We accrue for potential liabilities under these guarantees when we believe a loss is probable and can be estimated.

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

Certain statements made in this report constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from those expressed or implied by the statements. These risks, uncertainties and other factors include:

- The cyclical nature of the machine tool industry;
- Uncertain economic conditions may adversely affect overall demand, particularly in Europe;
- The risks of our international operations;
- The limited number of our manufacturing sources;
- The effects of changes in currency exchange rates;
- Our dependence on new product development;
- Possible obsolescence of our technology and the need to make technological advances;
- Competition with larger companies that have greater financial resources;
- Increases in the prices of raw materials, especially steel and iron products;
- Acquisitions that could disrupt our operations and affect operating results;
- Impairment of our assets;
- Negative or unforeseen tax consequences;
- The need to protect our intellectual property assets;
- The effect of the loss of members of senior management and key personnel; and
- Governmental actions and initiatives, including import and export restrictions and tariffs.

We discuss these and other important risks and uncertainties that may affect our future operation in Part I, Item 1A – Risk Factors in our most recent Annual Report on Form 10-K and may update that discussion in Part II, Item 1A – Risk Factors in this report or a Quarterly Report on Form 10-Q we file hereafter.

Readers are cautioned not to place undue reliance on these forward-looking statements. While we believe the assumptions on which the forward-looking statements are based are reasonable, there can be no assurance that these forward-looking statements will prove to be accurate. This cautionary statement is applicable to all forward-looking statements contained in this report.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

Interest on borrowings on our credit agreements are tied to prevailing domestic and foreign interest rates. At April 30, 2012, we had \$2.0 million of borrowings outstanding under our credit facility in China, but had no other debt or borrowings under any of our other credit agreements.

Foreign Currency Exchange Risk

In fiscal 2011, we derived more than 70% of our revenues from foreign markets. All of our computerized machine tools and computer control systems, as well as certain proprietary service parts, are sourced by our U.S.-based engineering and manufacturing division and re-invoiced to our foreign sales and service subsidiaries, primarily in their functional currencies.

Our products are sourced from foreign suppliers or built to our specifications by either our wholly owned subsidiaries in Taiwan and China or an affiliated contract manufacturer in Taiwan. Our purchases are predominantly in foreign currencies and in some cases our arrangements with these suppliers include foreign currency risk sharing agreements, which reduce (but do not eliminate) the effects of currency fluctuations on product costs. The predominant portion of the exchange rate risk associated with our product purchases relates to the New Taiwan Dollar.

We enter into foreign currency forward exchange contracts from time to time to hedge the cash flow risk related to forecasted inter-company sales and purchases denominated in, or based on, foreign currencies (primarily the Euro, Pound Sterling, and New Taiwan Dollar). We also enter into foreign currency forward exchange contracts to protect against the effects of foreign currency fluctuations on receivables and payables denominated in foreign currencies. We do not speculate in the financial markets and, therefore, do not enter into these contracts for trading purposes.

Forward contracts for the sale or purchase of foreign currencies as April 30, 2012, which are designated as cash flow hedges under FASB guidance related to accounting for derivative instruments and hedging activities were as follows:

Notional	Weighted	Contract Amount at Forward Rates in
----------	----------	--

Edgar Filing: HURCO COMPANIES INC - Form 10-Q

Forward Contracts	Amount in Foreign Currency	Avg. Forward Rate	U.S. Dollars Contract Date	April 30, 2012	Maturity Dates
Sale Contracts:					
Euro	28,450,000	1.3614	38,731,490	37,710,287	May 2012 – April 2013
Pound Sterling	5,925,000	1.5836	9,382,763	9,607,393	May 2012 – April 2013
Purchase Contracts:					
New Taiwan Dollar	822,000,000	29.227 *	28,124,808	28,406,693	May 2012 – April 2013

*NT Dollars per U.S. Dollar

Forward contracts for the sale or purchase of foreign currencies as of April 30, 2012, which were entered into to protect against the effects of foreign currency fluctuations on receivables and payables and are not designated as hedges under this guidance denominated in foreign currencies, were as follows:

Forward Contracts	Notional Amount in Foreign Currency	Weighted Avg. Forward Rate	Contract Date	Contract Amount at Forward Rates in U.S. Dollars	April 30, 2012	Maturity Dates
Sale Contracts:						
Euro	15,753,677	1.3216	20,819,793	20,863,604		May 2012 – September 2012
Pound Sterling	1,278,077	1.6188	2,069,011	2,074,260		May 2012
Canadian Dollar	614,005	1.0098	620,019	620,514		July 2012
South African Rand	5,604,784	0.1263	707,693	711,224		July 2012
Purchase Contracts:						
New Taiwan Dollar	456,339,301	29.276 *	15,587,539	15,683,193		May 2012 – June 2012

* NT Dollars per U.S. Dollar

We are also exposed to foreign currency exchange risk related to our investment in net assets in foreign countries. To manage this risk, we have maintained a forward contract with a notional amount of €3.0 million. We designated this forward contract as a hedge of our net investment in Euro denominated assets. We selected the forward method under FASB guidance related to the accounting for derivatives instruments and hedging activities. The forward method requires all changes in the fair value of the contract to be reported as a cumulative translation adjustment in Accumulated other comprehensive loss, net of tax, in the same manner as the underlying hedged net assets. This forward contract matures in November 2012. At April 30, 2012, we had \$227,000 of realized gains and \$49,000 of unrealized gains, net of tax, recorded as cumulative translation adjustments in Accumulated other comprehensive loss related to this forward contract. Forward contracts for the sale or purchase of foreign currencies as of April 30, 2012, which are designated as net investment hedges under this guidance were as follows:

Forward Contracts	Notional Amount in Foreign Currency	Weighted Avg. Forward Rate	Contract Date	Contract Amount at Forward Rates in U.S. Dollars	April 30, 2012	Maturity Date
Sale Contracts:						
Euro	3,000,000	1.3520	4,056,000	3,978,450		November 2012

Item 4. CONTROLS AND PROCEDURES

We carried out an evaluation under the supervision and with participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of April 30, 2012, pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended. Based upon that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of the evaluation date.

There were no changes in our internal controls over financial reporting during the quarter ended April 30, 2012 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

We are involved in various claims and lawsuits arising in the normal course of our business. We believe it is remote that any of these claims will have a material adverse effect on our consolidated financial position or results of operations.

Item 1A. RISK FACTORS

There have been no material changes from the risk factors disclosed in Part I, Item 1A – Risk Factors in our Annual Report on Form 10-K for the year ended October 31, 2011.

Item 5. OTHER INFORMATION

During the period covered by this report, the Audit Committee of our Board of Directors engaged our independent registered public accounting firm to perform non-audit, tax planning services. This disclosure is made pursuant to Section 10A9(i)(2) of the Securities Exchange Act of 1934, as added by Section 202 of the Sarbanes-Oxley Act of 2002.

Item 6. EXHIBITS
