**Consolidated Financial Results
April 1, 2003 June 30, 2003**

July 30, 2003

In preparing its consolidated financial information, ORIX Corporation and its subsidiaries have complied with accounting principles generally accepted in the United States of America, except as modified to account for stock splits in accordance with the usual practice in Japan.

U.S. Dollar amounts have been calculated at Yen 119.80 to \$1.00, the approximate exchange rate prevailing at June 30, 2003.

These documents may contain forward-looking statements about expected future events and financial results that involve risks and uncertainties. Such statements are based on our current expectations and are subject to uncertainties and risks that could cause actual results to differ materially from those described in the forward-looking statements. Factors that could cause such a difference include, but are not limited to, those described under Risk Factors in the Company's annual report on Form 20-F filed with the United States Securities and Exchange Commission.

The Company expects that it will be a passive foreign investment company under the U.S. Internal Revenue Code. A U.S. holder of the shares of the Company is therefore subject to special rules of taxation in respect of certain dividend, gain or other income on such shares. Investors should consult their tax advisors with respect to such rules, which are summarized in the Company's annual report.

ROA (annualized)	0.95% (June 30, 2002: 1.09%)

Revenues: 170,917 million yen (Up 6% year on year)

Revenues from operating leases and residential condominium sales both grew strongly. Although there was a decrease in revenues from direct financing leases and interest on loans and investment securities as a result of the lower balance of assets compared with the first quarter of the previous fiscal year, overall revenues were up 6% year on year to 170,917 million yen.

Expenses: 148,381 million yen (Up 9% year on year)

On the expense side, costs of residential condominium sales increased in line with the growth in revenues from condominium sales, while interest expense was down 14% year on year due to a decrease in debt and lower interest rates overseas. Overall expenses were up 9% year on year to 148,381 million yen.

Net Income: 14,098 million yen (Down 17% year on year)

Operating income fell 9% year on year to 22,536 million yen, while income before income taxes was down only 2% to 25,920 million yen due to contributions from equity in net income of affiliates. Net income was down 17% year on year to 14,098 million yen compared to 16,885 million yen in the first quarter of last fiscal year. The results for the first quarter of last fiscal year included the recording of 1,937 million yen due to a cumulative effect of a change in accounting principle, whereas no such effect was recorded in the first quarter of this fiscal year.

Operating Assets: 5,201,976 million yen (Up 1% on March 31, 2003)

Operating assets remained almost flat, rising 1% to 5,201,976 million yen compared with March 31, 2003 as a result of a careful selection of new assets.

Segment Information

Operations in Japan

Corporate Finance: While the automobile leasing operations continued to perform relatively strongly, the cautious selection of new assets and the resulting lower level of assets compared with the first quarter of the previous fiscal year in other operations led to a decrease in segment profits to 9,345 million yen in the first quarter of this fiscal year from 10,411 million yen recorded in the same period of the previous fiscal year.

Equipment Operating Leases: The improvement of the precision measuring equipment rental business contributed to an increase in segment profits to 1,520 million yen compared to 1,271 million yen in the first quarter of the previous fiscal year.

Real Estate-Related Finance: Although corporate non-recourse loans, housing loans and loan servicing operations continued to do well, segment profits were 3,018 million yen compared to 6,106 million yen because there was a gain of 3,174 million yen realized from the sale of shares of an affiliated J-REIT to the public in the first quarter of the previous fiscal year, whereas no such item was recorded in the first quarter of this fiscal year.

Real Estate: The condominium development business made a large contribution to segment earnings due to a large number of condominium sales year on year in the first quarter. In addition, gains from the sale of office buildings and other real estate, and revenues from real estate rental properties and building maintenance operations contributed to the jump in segment profits to 8,160 million yen in the first quarter of this fiscal year from 2,735 million yen in the same period of the previous fiscal year.

Life Insurance: This segment experienced a loss of 392 million yen compared to a segment profit of 1,282 million yen in the first quarter of the previous fiscal year due to the decrease in gains on the sale of investment securities.

Other: Although the consumer card loan operations performed well, segment profits decreased to 1,177 million yen in the first quarter of this fiscal year from 2,554 million yen in the first quarter of the previous fiscal year due mainly to fewer gains from the sale of securities in our venture capital operations and losses of The Fuji Fire and Marine Insurance Company, Ltd., an equity method affiliate.

Overseas Operations

The Americas: Segment profits improved to 2,131 million yen in the first quarter of this fiscal year compared to 1,229 million yen in the same quarter of the previous fiscal year in part due to lower costs associated with the restructuring of a subsidiary.

Table of Contents

Asia and Oceania: Strong performance of the corporate lending and automobile leasing operations of each company in the region and the contribution from Korea Life Insurance Co., Ltd., an equity method affiliate, resulted in a growth of segment profits to 4,204 million yen in the first quarter of this fiscal year compared to 1,673 million yen in the same period of the previous fiscal year.

Europe: Segment profits experienced a loss of 258 million yen due to the decrease in segment assets.

2. Outlook and forecasts for the Fiscal Year Ending March 31, 2004

For the fiscal year ending March 31, 2004, we forecast revenues of 730,000 million yen (up 7% compared with the fiscal year ended March 31, 2003), income before income taxes of 87,000 million yen (up 88%), and net income of 48,000 million yen (up 59%). These forecasts are unchanged from those announced on April 25, 2003 at the time of the earnings announcement for the fiscal year ended March 31, 2003.

3. Additional Information

Korea Life Insurance Co., Ltd. (KLI), an equity method affiliate, expects to recognize an additional deferred tax asset due to a change of tax rules in Korea enacted in May 2003. KLI is in the process of finalizing its estimate of the effect of the change of the tax rules. The Company's share of the effect of the change is presently estimated to approximate 6,000 million yen. In accordance with the Company's policy of recording its equity in the income of KLI on a one-quarter lag basis, the Company will record equity income related to the tax change in the second quarter ending September 30, 2003.
