KONGZHONG CORPORATION REPORTS FIRST QUARTER 2006 UNAUDITED FINANCIAL RESULTS
-- NET INCOME UP 46% YEAR-OVER-YEAR AND 37% SEQUENTIALLY

Beijing, China, May 18, 2006 -- KongZhong Corporation (NASDAQ: KONG), a leading provider of wireless value-added services and the operator of a leading wireless internet portal in China, today announced its unaudited first quarter 2006 financial results.

Edgar Filing: KONGZHONG CORP - Form 6-K

FIRST QUARTER 2006 FINANCIAL HIGHLIGHTS:

- * Total revenues in the first quarter of 2006 grew 64% year-over-year and 26% sequentially to a new record of \$27.91 million, exceeding the high end of the Company's first quarter revenue guidance of \$24 to \$25 million. Since inception, the Company has grown its revenues every quarter for 15 consecutive quarters.

- (ENVELOPE SYMBOL) 2.5G wireless value added services (WVAS) revenue increased 31% year-over-year and grew 21% sequentially to \$17.88 million.

- (ENVELOPE SYMBOL) 2G revenue grew 208% year-over-year and 36% sequentially to approximately \$10.0 million.

- (ENVELOPE SYMBOL) US GAAP net income grew 46% year-over-year and 37% sequentially to a new record of \$8.61 million. Diluted earnings per ADS in the first quarter were \$0.24, exceeding the high end of the Company's first quarter guidance of \$0.21 to \$0.22 which did not include the share-based compensation cost.

- (ENVELOPE SYMBOL) Non-GAAP income was \$7.88 million in the first quarter of 2006, a 31% increase from same period last year and a 24% increase from the fourth quarter of 2005. Non-GAAP diluted earnings per ADS were \$0.22. Non-GAAP Financial Measures are described and reconciled to the corresponding GAAP measures in the section titled "Non-GAAP Financial Measures".

Commenting on the results, Yunfan Zhou, Chairman and Chief Executive Officer, said, "We are very pleased with our record-breaking first quarter 2006 financial results. Our revenue growth momentum continued and we were able to increase our earnings substantially in the first quarter. We believe we have surpassed some of our industry peers to become the clear No. 2 player in terms of revenue in the Chinese WVAS industry. In addition to having sustained our leadership position in the 2.5G space, with our acquisition of Sharp Edge, we have gained significant market share in the overall WVAS market and have become a top WVAS provider at China Telecom and China Netcom. For the remainder of 2006, we will continue to invest in our wireless internet portal business and the KongZhong brand to create long-term competitive advantages."

JP Gan, KongZhong's Chief Financial Officer, added, "Our strong first quarter performance is a result of the increasing popularity of WVAS among consumers, our strong execution capability, and effective diversified growth strategy. We are particularly pleased that our net profit was up 37% sequentially this quarter to reach a new record while we continue to invest in product development, sales and marketing infrastructure as well as new business initiatives for the future. We are very encouraged by our improved market position and strengthening business, and are excited about China's wireless internet opportunity in the long run."

BUSINESS HIGHLIGHTS:

Edgar Filing: KONGZHONG CORP - Form 6-K

- o The Company believes it continues to be the leader in China in terms of revenue from 2.5G services, including wireless application protocol (WAP), multi-media messaging service (MMS), and Java platforms, based on the public disclosure of industry peers and our market analysis.
- o The acquisition of Sharp Edge Group Limited ("Sharp Edge") was completed on January 28, 2006. After this acquisition, the Company believes that it has become one of the leading WVAS providers at China Telecom and China Netcom in terms of revenue based on our market analysis.
- o The Company has re-organized its businesses into two major lines -- wireless value added services (WVAS) and wireless internet portal (WIP).
- o Agreements have been signed with Nokia to exclusively provide flash content to Nokia's customers in Mainland China and to embed KongZhong's in-house developed game "Reincarnation" that utilizes the Symbian operating system in some of Nokia's handset models.
- o The Company changed its main wireless internet portal URL to "Kong.net".

FINANCIAL RESULTS:

(Note: Unless otherwise stated, all financial statement amounts used in this press release are based on US GAAP and denominated in US dollars.)

Revenues

Total revenue for the quarter increased 26% from the fourth quarter of 2005 and 64% from the same quarter of 2005 to reach a new record of \$27.91 million. Revenue from 2.5G WVAS accounted for 64% of total revenues and revenue from 2G service represented the remaining 36%.

Revenue from 2.5G services, which include services delivered using WAP, MMS, and Java technologies, grew 31% from the same period in 2005 and 21% from the fourth quarter of 2005 to \$17.88 million. WAP revenue in the first quarter of 2006 was \$8.84 million, a decrease of 14% from the first quarter of 2005, but an increase of 2% from the fourth quarter of 2005. The year-over-year decline in WAP revenue was mainly caused by a new policy that was introduced by China Mobile in April 2005 pursuant to which WAP subscriptions that have not been active for eight months are automatically cancelled. The 2% increase in WAP revenue is a result of higher customer demand during the Chinese New Year and increased promotion through handset manufacturers and traditional media during the quarter. The Company's WAP, however, is facing more intensive competition on multiple fronts.

MMS revenue in the first quarter of 2006 was \$7.90 million, an increase of 156% from the same period of 2005, and an increase of 60% from the fourth quarter of 2005. The sequential growth in MMS resulted from higher customer demand during the Chinese New Year and increased

5

promotion through handset manufacturers and traditional media. Java revenue in the first quarter was \$1.14 million, a 218% increase from

Edgar Filing: KONGZHONG CORP - Form 6-K

the first quarter of 2005 but a 2% decrease sequentially.

Revenue from 2G services, including short messaging service (SMS), interactive voice response (IVR), and color ring back tone (CRBT), grew 208% year-over-year and 36% quarter-over-quarter to \$10.0 million in the first quarter of 2006. Growth in 2G revenue is driven by SMS and the acquisition of Sharp Edge. SMS revenue in the first quarter of 2006 was \$8.16 million, which was 301% higher than the same period of 2005 and 46% higher than the previous quarter. The strong growth in SMS revenue is because of higher customer demand during the Chinese New Year, increased promotion through handset manufacturers and traditional media, and the acquisition of Sharp Edge.

IVR revenue in the first quarter 2006 was \$1.18 million, a 4% increase year-over-year, but a 10% decline sequentially. CRBT revenue grew by 783% year-over-year, and 50% sequentially to \$0.66 million in the first quarter of 2006. The table below sets fourth the revenue breakdown by technology platforms.

6

	1Q05	2Q05	3Q05	Q405	Q106
2.5G:	80%	74%	71%	67%	64%
WAP	60%	53%	47%	40%	32%
MMS	18%	18%	19%	22%	28%
Java	2%	3%	5%	5%	4%
2G:	20%	26%	29%	33%	36%
SMS	12%	17%	20%	25%	29%
IVR	7%	7%	7%	6%	4%
CRBT and others	1%	2%	2%	2%	3%
Total	100%	100%	100%	100%	100%

The Company continues to make progress in diversifying operator relationships. Total revenues from the customers of China Unicom, China Telecom, and China Netcom accounted for approximately 9% of the total first quarter revenues, compared to 7% in the fourth quarter of 2005.

Expenses

Edgar Filing: KONGZHONG CORP - Form 6-K

The cost of revenue in the first quarter of 2006 totaled \$11.75 million, an increase of 88% from the first quarter of 2005 and 15% from the fourth quarter of 2005, and represented 42% of total revenues. The sequential increase in cost of revenues was lower than the growth in revenue resulting in improved gross margin of 58%, compared to 54% in the previous quarter. The improved gross margin is primarily attributed to lower transmission fees paid to the telecommunication operators.

7

Total operating expenses in the first quarter of 2006 were \$9.23 million, an increase of 73% year-over-year and 48% quarter-over-quarter. The increase in operating expenses is primarily due to higher compensation expense and WVAS related marketing expense. To stay competitive in the labor market and reward its staff for its excellent performance, the Company increased the overall salary level and accrued higher incentive bonuses to non-executive staff during the quarter.

Starting in the first quarter of 2006, the Company adopted the Statement of Financial Accounting Standard 123R (SFAS 123R), "Share-Based Payment", to account for share based compensation. Higher headcount including employees of Sharp Edge and the adoption of SFAS 123R contributed to higher operating expenses. Share based compensation expense was \$0.35 million in the first quarter of 2006. In accordance with Securities and Exchange Commission Staff Accounting Bulletin No. 107, the Company no longer report share-based compensation cost as a separate line item starting in the first quarter of 2006. In the current quarter, 25% of the share based compensation cost was recorded in product development expense, 23% in sales and marketing, and 52% in general and administrative.

Product development expense increased by 25% quarter-over-quarter and represented 12% of revenue. Sales and marketing expense increased by 82% quarter-over-quarter and represented 12% of revenue. The Company increased its marketing and promotional efforts related to the WVAS business during the quarter.

The wireless internet portal business had over 130 employees as of March 31, 2006. Total cost associated to the Company's wireless internet portal business was approximately \$1.0 million during the first quarter of 2006, mostly in product development. The Company did not launch any major marketing campaign for its wireless internet portal or corporate brand and incurred limited marketing expense related to the wireless internet portal business.

General and administrative expenses increased by 47% from the fourth quarter of 2005 and represented 9% of revenue. The increase in general and administrative expenses was due to the increased share-based compensation and business taxes.

The Company's headcount increased by 13% from 855 at the end of the fourth quarter of 2005 to 963 as of March 31, 2006, including Sharp Edge's 138 employees.

Edgar Filing: KONGZHONG CORP - Form 6-K

Earnings

US GAAP net income totaled \$8.61 million in the first quarter of 2006, an increase of 46% from the same period of last year and an increase of 37% from the fourth quarter of 2005. An investment gain of \$1.24 million from the sale of the Company's shares in eFriendsNet Entertainment Corp.'s was recorded during the quarter.

Diluted US GAAP earnings per ADS were \$0.24 for the first quarter, up from \$0.17 in the previous quarter.

8

Non-GAAP income in the first quarter 2006 was \$7.88 million, a 31% increase from the same period in 2005 and a 24% increase from the previous quarter. Diluted Non-GAAP income per ADS was \$0.22, up from \$0.18 in the fourth quarter of 2005.

Balance Sheet and Cash Flow

At the end of the quarter, the Company had \$117.04 million in cash and cash equivalents. Cash flow from operating activities totaled \$4.18 million in the first quarter of 2006.

BUSINESS OUTLOOK:

Based on information available on May 18, 2006, the Company expects total revenues for the second quarter of 2006 to be between \$29.5 and \$30.5 million. Absent any significant changes in the policies and regulations of the telecommunication operators and the Ministry of Information Industry in China, the Company revises upward its fiscal year 2006 revenue estimate to be between \$110 and \$115 million.

Based on information available on May 18, 2006, the Company estimates its second quarter 2006 diluted US GAAP earnings per ADS to be \$0.21 to \$0.22. Non-GAAP net income per ADS is projected to be between \$0.23 and to 0.24 in the second quarter of 2006.

In the second quarter of 2006, the Company estimates expense related to employee share options to be \$0.5 to \$0.6 million and also plans to spend approximately \$1.5 million on a nationwide marketing campaign for its wireless internet portal, Kong.net.

NON-GAAP FINANCIAL MEASURES

To supplement the unaudited condensed statements of income presented in accordance with United States Generally Accepted Accounting Principles ("GAAP"), the Company uses non-GAAP financial measures ("Non-GAAP Financial Measures") of net income and net income per diluted ADS, which are adjusted from results based on GAAP to exclude certain infrequent or unusual or non-cash based expenses, gains and losses. The Non-GAAP Financial Measures are provided as additional information to help both management and investors compare business trends among different reporting periods on a consistent and more meaningful basis and enhance investors' overall understanding of the Company's current financial performance and prospects for the future.

The Non-GAAP Financial Measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results. In addition, our calculation of the Non-GAAP

Edgar Filing: KONGZHONG CORP - Form 6-K

Financial Measures may be different from the calculation used by other companies, and therefore comparability may be limited.

For the periods presented, the Company's non-GAAP net income and non-GAAP net income per diluted ADS exclude, as applicable, the amortization or write-off of intangibles, gain and loss on investment, and non-cash stock-based compensation expense.

Reconciliation of the Company's Non-GAAP Financial Measures to the GAAP financial measures is set forth below.
