INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders

Taiwan Semiconductor Manufacturing Company Limited

We have audited the accompanying balance sheets of Taiwan Semiconductor Manufacturing Company Limited as of December 31, 2007 and 2006, and the related statements of income, changes in shareholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Taiwan Semiconductor Manufacturing Company Limited as of December 31, 2007 and 2006, and the results of its operations and its cash flows for the years then ended in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting with respect to financial accounting standards, and accounting principles generally accepted in the Republic of China.

Table of Contents

We have also audited, in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China, the consolidated financial statements of Taiwan Semiconductor Manufacturing Company Limited and subsidiaries as of and for the years ended December 31, 2007 and 2006, and have expressed an unqualified opinion on the consolidated financial statements. January 10, 2008

Notice to Readers

The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdiction. The standards, procedures and practices to audit such financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

Taiwan Semiconductor Manufacturing Company Limited

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2007 AND 2006

(Amounts in Thousands of New Taiwan Dollars, Unless Specified Otherwise)

1. GENERAL

Taiwan Semiconductor Manufacturing Company Limited (the Company or TSMC), a Republic of China (R.O.C.) corporation, was incorporated as a venture among the Government of the R.O.C., acting through the Development Fund of the Executive Yuan; Philips Electronics N.V. and certain of its affiliates (Philips); and certain other private investors. On September 5, 1994, its shares were listed on the Taiwan Stock Exchange (TSE). On October 8, 1997, TSMC listed some of its shares of stock on the New York Stock Exchange (NYSE) in the form of American Depositary Shares (ADSs).

The Company is engaged mainly in the manufacturing, selling, packaging, testing and computer-aided designing of integrated circuits and other semiconductor devices and the manufacturing of masks.

As of December 31, 2007 and 2006, the Company had 20,555 and 20,202 employees, respectively.

2. SIGNIFICANT ACCOUNTING POLICIES

The financial statements are presented in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, Business Accounting Law, Guidelines Governing Business Accounting, and accounting principles generally accepted in the R.O.C.

For the convenience of readers, the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the R.O.C. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language financial statements shall prevail.

Significant accounting policies are summarized as follows:

Use of Estimates

The preparation of financial statements in conformity with the aforementioned guidelines, law and principles requires management to make reasonable assumptions and estimates of matters that are inherently uncertain. The actual results may differ from management's estimates.

Classification of Current and Noncurrent Assets and Liabilities

Current assets are assets held for trading purposes and assets expected to be converted to cash, sold or consumed within one year from the balance sheet date. Current liabilities are obligations incurred for trading purposes and obligations expected to be settled within one year from the balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

Cash Equivalents

Repurchase agreements collateralized by government bonds, asset-backed commercial papers and corporate notes acquired with maturities of less than three months from the date of purchase are classified as cash equivalents. The carrying amount approximates fair value.

Table of Contents

Financial Assets/Liabilities at Fair Value Through Profit or Loss

Derivatives that do not meet the criteria for hedge accounting are initially recognized at fair value, with transaction costs expensed as incurred. The derivatives are remeasured at fair value subsequently with changes in fair value recognized in earnings. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

Fair value is estimated using valuation techniques incorporating estimates and assumptions that are consistent with prevailing market conditions. When the fair value is positive, the derivative is recognized as a financial asset; when the fair value is negative, the derivative is recognized as a financial liability.

Available-for-Sale Financial Assets

Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of shareholders' equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

The fair value of structured time deposits is estimated using valuation techniques. Fair value of open-end mutual funds is determined using the net assets value at the end of the year. For debt securities, fair value is determined using the average of bid and asked prices at the end of the year.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases, for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

Held-to-maturity Financial Assets

Financial instruments for which the Company has a positive intention and ability to hold to maturity are categorized as held-to-maturity financial assets and are carried at amortized cost under the effective interest method except for structured time deposits which are carried at acquisition cost. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains or losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

Allowance for Doubtful Receivables

An allowance for doubtful receivables is provided based on a review of the collectibility of notes and accounts receivable. The Company determines the amount of the allowance for doubtful receivables by examining the aging analysis of outstanding notes and accounts receivable and current trends in the credit quality of its customers as well as its internal credit policies.

Table of Contents

Revenue Recognition and Allowance for Sales Returns and Others

The Company recognizes revenue when evidence of an arrangement exists, the rewards of ownership and significant risk of the goods has been transferred to the buyer, price is fixed or determinable, and collectibility is reasonably assured. Provisions for estimated sales returns and others are generally recorded in the period the related revenue is recognized, based on historical experience, management's judgment, and any known factors that would significantly affect the allowance.

Sales prices are determined using fair value taking into account related sales discounts agreed to by the Company and its customers. Sales agreements typically provide that payment is due 30 days from invoice date for a majority of the customers and 30 to 45 days after the end of the month in which sales occur for some customers. Since the receivables from sales are collectible within one year and such transactions are frequent, fair value of the receivables is equivalent to the nominal amount of the cash to be received.

Inventories

Inventories are stated at the lower of cost or market value. Inventories are recorded at standard cost and adjusted to the approximate weighted-average cost at the balance sheet date. Market value represents replacement cost for raw materials, supplies and spare parts and net realizable value for work in process and finished goods. The Company assesses the impact of changing technology on its inventories on hand and writes off inventories that are considered obsolete. Year-end inventories are evaluated for estimated excess quantities and obsolescence based on a demand forecast within a specific time horizon, which is generally 180 days or less. Estimated losses on scrap and slow-moving items are recognized and included in the allowance for losses.

Investments Accounted for Using Equity Method

Investments in companies wherein the Company exercises significant influence over the operating and financial policy decisions are accounted for using the equity method. The Company's share of the net income or net loss of an investee is recognized in the equity in earnings/losses of equity method investees, net account. Prior to January 1, 2006, the difference, if any, between the cost of investment and the Company's proportionate share of the investee's equity was amortized by the straight-line method over five years, with the amortization recorded in the equity in earnings/losses of equity method investees, net account. Effective January 1, 2006, pursuant to the revised Statement of Financial Accounting Standards No. 5, Long-term Investments Accounted for Using the Equity Method (SFAS No. 5), the cost of an investment shall be analyzed and the cost of investment in excess of the fair value of identifiable net assets acquired, representing goodwill, shall not be amortized and instead shall be tested for impairment annually. If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be proportionately allocated as reductions to fair values of non-current assets (except for financial assets other than investments accounted for using the equity method and deferred income tax assets). The accounting treatment for the investment premiums paid before January 1, 2006 is the same as that for goodwill which is no longer being amortized; while investment discounts continue to be amortized over the remaining periods. When an indication of impairment is identified, the carrying amount of the investment is reduced, with the related impairment loss recognized in earnings.

When the Company subscribes for additional investee's shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company's share of the investee's equity. The Company records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to capital surplus.

Gains or losses on sales from the Company to equity method investees are deferred in proportion to the Company's ownership percentages in the investees until such gains or losses are realized through transactions with third parties. The entire amount of the gains or losses on sales to investees over which the Company has a controlling interest is deferred until such gains or losses are realized through subsequent sales of the related

products to third parties. Gains or losses on sales from equity method investees to the Company are deferred in proportion to the Company's ownership percentages in the investees until they are

- 12 -

Table of Contents

realized through transactions with third parties. Gains or losses on sales between equity method investees over each of which the Company has control are deferred in proportion to the Company's weighted-average ownership percentage in the investee which records gains or losses. In transactions between equity method investees over either or both of which the Company has no control, gains or losses on sales are deferred in proportion to the multiplication of the Company's weighted-average ownership percentages in the investees. Such gains or losses are recorded until they are realized through transactions with third parties.

If an investee's functional currency is a foreign currency, differences will result from the translation of the investee's financial statements into the reporting currency of the Company. Such differences are charged or credited to cumulative translation adjustments, a separate component of shareholders' equity.

Financial Assets Carried at Cost

Investments for which the Company does not exercise significant influence and that do not have a quoted market price in an active market and whose fair value cannot be reliably measured, such as non-publicly traded stocks and mutual funds, are carried at their original cost. The costs of non-publicly traded stocks and mutual funds are determined using the weighted-average method. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

Cash dividends are recognized as investment income upon resolution of shareholders of an investee but are accounted for as a reduction to the original cost of investment if such dividends are declared on the earnings of the investee attributable to the period prior to the purchase of the investment. Stock dividends are recorded as an increase in the number of shares held and do not affect investment income. The cost per share is recalculated based on the new total number of shares. Any difference between the initial carrying amount of a debt security and the amount due at maturity is amortized using the effective interest method, with the amortization recognized in earnings.

Property, Plant and Equipment, Assets Leased to Others and Idle Assets

Property, plant and equipment and assets leased to others are stated at cost less accumulated depreciation. When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized. Significant additions, renewals and betterments incurred during the construction period are capitalized. Maintenance and repairs are expensed as incurred.

Depreciation is computed using the straight-line method over the following estimated service lives: buildings 10 to 20 years; machinery and equipment 5 years; and office equipment 3 to 5 years.

Upon sale or disposal of property, plant and equipment and assets leased to others, the related cost and accumulated depreciation are deducted from the corresponding accounts, with any gain or loss recorded as non-operating gains or losses in the period of sale or disposal.

When property, plant and equipment are determined to be idle or useless, they are transferred to idle assets at the lower of the net realizable value or carrying amount. Depreciation on the idle assets is provided continuously, and the idle assets are tested for impairment on a periodical basis.

Intangible Assets

Goodwill represents the excess of the consideration paid for acquisition over the fair value of identifiable net assets acquired. Prior to January 1, 2006, goodwill was amortized using the straight-line method over the

estimated life of 10 years. Effective January 1, 2006, pursuant to the newly revised Statement of Financial Accounting Standards No. 25, Business Combinations Accounting Treatment under Purchase Method (SFAS No. 25), goodwill is no longer amortized and instead is tested for impairment annually. If

- 13 -

Table of Contents

an event occurs or circumstances change which indicated that the fair value of goodwill is more likely than not below its carrying amount, an impairment loss is recognized. A subsequent reversal of such impairment loss is not allowed.

Deferred charges consist of technology license fees, software and system design costs and other charges. The amounts are amortized over the following periods: Technology license fees – the shorter of the estimated life of the technology or the term of the technology transfer contract; software and system design costs and other charges – 3 years. When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the previously recognized impairment loss would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of amortization, as if no impairment loss had been recognized.

Effective January 1, 2007, the Company adopted the newly released Statement of Financial Accounting Standards No. 37, Accounting for Intangible Assets. The Company had reassessed the useful lives and the amortization method of its recognized intangible assets at the effective date. Expenditures related to research activities and those related to development activities that do not meet the criteria for capitalization are charged to expenses when incurred.

Pension Costs

For employees who participate in defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees' individual pension accounts during their service periods. For employees who participate in defined benefit pension plans, pension costs are recorded based on actuarial calculations.

Income Tax

The Company applies intra-period and inter-period allocations for its income tax whereby (1) a portion of current year's income tax expense is allocated to the cumulative effect of changes in accounting principles; and (2) deferred income tax assets and liabilities are recognized for the tax effects of temporary differences and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery, equipment and technology, research and development expenditures, personnel training expenditures, and investments in important technology-based enterprises are recognized using the flow-through method.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

Income tax on unappropriated earnings at a rate of 10% is expensed in the year of shareholder approval which is the year subsequent to the year the earnings are generated.

The R.O.C. government enacted the Alternative Minimum Tax Act (the AMT Act), which became effective on January 1, 2006. The alternative minimum tax (AMT) imposed under the AMT Act is a supplemental tax levied at a rate of 10% which is payable if the income tax payable determined pursuant to the Income Tax Law is below the minimum amount prescribed under the AMT Act. The taxable income for calculating the AMT includes most of the tax-exempt income under various laws and statutes. The Company has considered the impact of the AMT Act in the determination of its tax liabilities.

Table of Contents

Stock-based Compensation

Employee stock option plans that are amended or have options granted on or after January 1, 2004 are accounted for by the interpretations issued by the Accounting Research and Development Foundation of the Republic of China. The Company adopted the intrinsic value method and any compensation cost determined using this method is recognized in earnings over the employee vesting period.

Treasury Stock

Treasury stock is stated at cost and shown as a deduction in shareholders' equity. When the Company retires treasury stock, the treasury stock account is reduced and the common stock as well as the capital surplus additional paid-in capital are reversed on a pro rata basis. When the book value of the treasury stock exceeds the sum of the par value and additional paid-in capital, the difference is charged to capital surplus treasury stock transactions and to retained earnings for any remaining amount. The Company's stock held by its subsidiaries is treated as treasury stock and reclassified from investments accounted for using equity method to treasury stock. The gains resulted from disposal of the treasury stock held by subsidiaries and cash dividends received by subsidiaries from the Company are recorded under capital surplus treasury stock transactions.

Foreign-currency Transactions

Foreign-currency transactions are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings.

At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

Recent Accounting Pronouncements

In March 2007, the Accounting Research and Development Foundation of the R.O.C. issued an interpretation that requires companies to record the bonus paid to directors, supervisors and employees as an expense rather than an appropriation of earnings. This interpretation should be applied to financial statements for fiscal years beginning on or after January 1, 2008.

The Accounting Research and Development Foundation of the R.O.C. issued Statement of Financial Accounting Standards No. 39, Accounting for Share-based Payment (SFAS No. 39) in August 2007, which requires companies to record share-based payment transactions in the financial statements at fair value. SFAS No.39 should be applied to financial statements for fiscal years beginning on or after January 1, 2008.

The Accounting Research and Development Foundation of the R.O.C. revised Statement of Financial Accounting Standards No. 10, Accounting for Inventories (SFAS No. 10) in November 2007, which requires inventories to be stated at the lower of cost or net realizable value item by item. Inventories are recorded by the specific identification method, first-in, first-out method or weighted average method. The last-in, first-out method is no longer permitted. The revised SFAS No. 10 should be applied to financial statements for the fiscal years beginning on or after January 1, 2009. Early adoption is permitted.

3. ACCOUNTING CHANGES

On January 1, 2006, the Company adopted the newly released Statements of Financial Accounting Standards No. 34, Financial Instruments: Recognition and Measurement (SFAS No. 34) and No. 36, Financial Instruments: Disclosure and Presentation.

Table of Contents

The Company had categorized its financial assets and liabilities upon initial adoption of the newly released SFASs. The adjustments made to the carrying amounts of the financial instruments categorized as financial assets or liabilities at fair value through profit or loss were included in the cumulative effect of changes in accounting principles; the adjustments made to the carrying amounts of those categorized as available-for-sale financial assets were recognized as adjustments to shareholders' equity.

The effect of adopting the newly released SFASs is summarized as follows:

	Recognized as Cumulative Effect of Changes in Accounting Principles (Net of Tax)	Recognized as a Separate Component of Shareholders Equity
Financial assets or liabilities at fair value through profit or loss	\$ (246,186)	\$
Available-for-sale financial assets		
	\$ (246,186)	\$

The adoption of the newly released SFASs resulted in an increase in net income before cumulative effect of changes in accounting principles of NT\$280,036 thousand, an increase in net income of NT\$33,850 thousand, and an increase in basic earnings per share (after income tax) of NT\$0.001, for the year ended December 31, 2006.

Effective January 1, 2006, the Company adopted the newly revised SFAS No. 5 and SFAS No. 25, which prescribe that investment premiums, representing goodwill, be assessed for impairment at least on an annual basis instead of being amortized. Such a change in accounting principle did not have a material effect on the Company's financial statements as of and for the year ended December 31, 2006.

4. CASH AND CASH EQUIVALENTS

	December 31	
	2007	2006
Cash and deposits in banks	\$ 61,832,143	\$ 68,898,115
Repurchase agreements collateralized by government bonds	10,067,843	31,241,594
Asset-backed commercial papers	522,116	
	\$ 72,422,102	\$ 100,139,709

Table of Contents**5. FINANCIAL ASSETS AND LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS**

	December 31	
	2007	2006
Derivatives financial assets		
Forward exchange contracts	\$ 6,516	\$
Cross currency swap contracts	35,567	44,601
	\$ 42,083	\$ 44,601
Derivatives financial liabilities		
Forward exchange contracts	\$ 183,916	\$
Cross currency swap contracts	63,730	10,751
	\$ 247,646	\$ 10,751

The Company entered into derivative contracts during the years ended December 31, 2007 and 2006 to manage exposures due to fluctuations of foreign exchange rates. The derivative contracts entered into by the Company did not meet the criteria for hedge accounting prescribed by SFAS No. 34. Therefore, the Company did not apply hedge accounting treatment for its derivative contracts.

Outstanding forward exchange contracts as of December 31, 2007:

	Maturity Date	Contract Amount (in Thousands)
December 31, 2007		
Sell US\$/buy NT\$	January 2008	US\$100,000
Sell EUR/buy NT\$	February 2008 to July 2008	EUR 48,000
Outstanding cross currency swap contracts as of December 31, 2007 and 2006:		

For the years ended December 31, 2007 and 2006, net losses arising from derivative financial instruments were NT\$924,316 thousand (including realized settlement losses of NT\$684,903 thousand and valuation losses of NT\$239,413 thousand) and NT\$1,615,796 thousand (including realized settlement losses of NT\$1,649,646 thousand and valuation gains of NT\$33,850 thousand), respectively.

Table of Contents**6. AVAILABLE-FOR-SALE FINANCIAL ASSETS**

	December 31	
	2007	2006
Open-end mutual funds	\$ 14,966,675	\$ 25,967,061
Government bonds	4,146,082	1,998,067
Corporate bonds	4,052,242	4,150,202
Structured time deposits	499,410	499,242
	23,664,409	32,614,572
Current portion	(22,267,223)	(25,967,061)
	\$ 1,397,186	\$ 6,647,511

In 2004, the Company entered into investment management agreements with three well-known financial institutions (fund managers) to manage its investment portfolios. In accordance with the investment guidelines and terms specified in these agreements, the securities invested by the fund managers cannot be below a pre-defined credit rating. In the second half year of 2006, the Company transferred investment portfolios managed by the fund managers of US\$1,277,789 thousand to TSMC Global Ltd. (TSMC-Global), a subsidiary of TSMC. The transferred investment portfolios held by TSMC Global are still being managed by the same fund managers in accordance with the aforementioned investment guidelines and terms.

Structured time deposits categorized as available-for-sale financial assets consisted of the following:

	Principal Amount	Carrying Amount	Interest Rate	Maturity Date
December 31, 2007				
Step-up callable deposits				
Domestic deposits	\$ 500,000	\$ 499,410	1.76%	March 2008
December 31, 2006				
Step-up callable deposits				
Domestic deposits	\$ 500,000	\$ 499,242	1.76%	March 2008

The interest rate of the step-up callable deposits was pre-determined by the Company and the banks.

7. HELD-TO-MATURITY FINANCIAL ASSETS

	December 31	
	2007	2006
Corporate bonds	\$ 10,900,247	\$ 13,742,541
Government bonds	7,824,425	12,070,657
Structured time deposits	1,500,000	11,671,120

Current portion	20,224,672 (11,526,946)	37,484,318 (8,510,823)
	\$ 8,697,726	\$ 28,973,495

- 18 -

Table of Contents

As of December 31, 2007 and 2006, structured time deposits categorized as held-to-maturity financial assets consisted of the following:

	Principal Amount	Interest Receivable	Range of Interest Rates	Maturity Date
December 31, 2007				
Step-up callable deposits				
Domestic deposits	\$ 1,500,000	\$ 5,585	1.77%-1.83%	April 2008 to October 2008
December 31, 2006				
Step-up callable deposits				
Domestic deposits	\$ 4,500,000	\$ 13,928	1.40%-1.83%	June 2007 to October 2008
Callable range accrual deposits				
Domestic deposits	3,911,520	4,808	(See below)	September 2009 to December 2009
Foreign deposits	3,259,600	4,998	(See below)	October 2009 to January 2010
	\$ 11,671,120	\$ 23,734		

The amount of interest earned from the callable range accrual deposits is based on a pre-defined range as determined by the 3-month or 6-month LIBOR plus an agreed upon rate ranging between 2.10% and 3.45%. Based on the terms of the contracts, if the 3-month or 6-month LIBOR moves outside of the pre-defined range, the interest paid to the Company is at a fixed rate between zero and 1.5%. Under the terms of the contracts, the bank has the right to cancel the contracts prior to the maturity date.

As of December 31, 2007, no structured time deposit was resided in banks located in foreign countries. As of December 31, 2006, the principal of the deposits that resided in banks located in Hong Kong and Singapore amounted to US\$80,000 thousand and US\$20,000 thousand, respectively.

8. ALLOWANCES FOR DOUBTFUL RECEIVABLES, SALES RETURNS AND OTHERS

Movements of the allowance for doubtful receivables were as follows:

	Years Ended December 31	
	2007	2006
Balance, beginning of year	\$ 690,931	\$ 976,344
Write-off	(1,959)	(285,413)
Balance, end of year	\$ 688,972	\$ 690,931

Movements of the allowance for sales returns and others were as follows:

Years Ended December 31

	2007	2006
Balance, beginning of year	\$ 2,751,065	\$ 4,269,969
Provision	5,519,655	5,328,513
Write-off	(4,414,035)	(6,847,417)
Balance, end of year	\$ 3,856,685	\$ 2,751,065

- 19 -

In November 2006, the Company acquired 81 thousand shares in SSMC for SGD115,227 thousand from EDB Investments Pte Ltd. under a Shareholders Agreement. After the acquisition, the number of SSMC shares owned by the Company increased to 463 thousand and the Company's percentage of ownership increased from 32% to 39%.

In January 2007, the Company acquired 90,526 thousand shares in Xintec, representing 43% of its total common shares, for NT\$1,357,890 thousand.

- 20 -

Table of Contents

In August 2007, the Company acquired additional 169,600 thousand shares in VIS for NT\$4,927,865 thousand; after the acquisition, the Company's percentage of ownership in VIS increased from 27% to 36%.

For the years ended December 31, 2007 and 2006, net equity in earnings of equity method investees of NT\$5,468,230 thousand and NT\$5,526,727 thousand were recognized, respectively. The related equity in earnings of equity method investees were determined based on the audited financial statements of the investees for the same periods as the Company.

As of December 31, 2007 and 2006, fair values of publicly traded stocks in investments accounted for using equity method were NT\$24,319,275 thousand and NT\$17,044,040 thousand, respectively.

Movements of the difference between the cost of investments and the Company's share in investees' net assets allocated to depreciable assets for the years ended December 31, 2007 and 2006 were as follows:

	Year Ended December 31	
	2007	2006
Balance, beginning of year	\$ 943,277	\$ (17,764)
Addition	2,081,282	1,010,846
Reduction	(347,171)	(49,805)
Balance, end of year	\$ 2,677,388	\$ 943,277

Movements of the aforementioned difference allocated to goodwill for the years ended December 31, 2007 and 2006 were as follows:

	Year Ended December 31	
	2007	2006

	\$ 1,501,462

Table of Contents**16. PENSION PLANS**

The Labor Pension Act (the Act) became effective on July 1, 2005. The employees who were subject to the Labor Standards Law prior to July 1, 2005 were allowed to choose to be subject to the pension mechanism under the Act with their seniority as of July 1, 2005 retained or continue to be subject to the pension mechanism under the Labor Standards Law. Employees who joined the Company after July 1, 2005 can only be subject to the pension mechanism under the Act.

The pension mechanism under the Act is deemed a defined contribution plan. Pursuant to the Act, the Company has made monthly contributions equal to 6% of each employee's monthly salary to employees' pension accounts starting from July 1, 2005, and recognized pension costs of NT\$616,548 thousand and NT\$618,975 thousand for the years ended December 31, 2007 and 2006, respectively.

The Company has a defined benefit plan under the Labor Standards Law that provides benefits based on an employee's length of service and average monthly salary for the six-month period prior to retirement. The Company contributes an amount equal to 2% of salaries paid each month to a pension fund (the Fund), which is administered by the pension fund monitoring committee (the Committee) and deposited in the Committee's name in the Bank of Taiwan (originally the Central Trust of China, which was merged into the Bank of Taiwan on July 1, 2007).

Pension information on the defined benefit plan is summarized as follows:

a. Components of net periodic pension cost for the year

	2007	2006
Service cost	\$ 184,232	\$ 178,432
Interest cost	155,297	163,740
Projected return on plan assets	(50,326)	(49,115)
Amortization	35,596	12,339
Net periodic pension cost	\$ 324,799	\$ 305,396

b. Reconciliation of funded status of the plan and accrued pension cost at December 31, 2007 and 2006

	2007	2006
Benefit obligation

19. SHAREHOLDERS EQUITY

As of December 31, 2007, 1,132,867 thousand ADSs of the Company were traded on the NYSE. The number of common shares represented by the ADSs is 5,664,337 thousand (one ADS represents five common shares).

Capital surplus can only be used to offset a deficit under the Company Law. However, the capital surplus generated from donations and the excess of the issuance price over the par value of capital stock (including the stock issued for new capital, mergers, convertible bonds and the surplus from treasury stock transactions) may be appropriated as stock dividends, which are limited to a certain percentage of the Company's paid-in capital.

Capital surplus consisted of the following:

	December 31	
	2007	2006
From merger	\$ 24,003,546	\$ 24,003,546
Additional paid-in capital	19,526,492	19,974,431
From convertible bonds	9,360,424	9,360,424
From treasury stock transactions	490,950	389,188
From long-term investments	351,215	379,854
Donations	55	55
	\$ 53,732,682	\$ 54,107,498

The Company's Articles of Incorporation provide that, when allocating the net profits for each fiscal year, the Company shall first offset its losses in previous years and then set aside the following items accordingly:

- a. Legal capital reserve at 10% of the profits left over, until the accumulated legal capital reserve has equaled the Company's paid-in capital;
- b. Special capital reserve in accordance with relevant laws or regulations or as requested by the authorities in charge;

- 28 -

Table of Contents

c. Bonus to directors and bonus to employees of the Company of not more than 0.3% and not less than 1% of the remainder, respectively. Directors who also serve as executive officers of the Company are not entitled to receive the bonus to directors. The Company may issue stock bonuses to employees of an affiliated company meeting the conditions set by the Board of Directors or, by the person duly authorized by the Board of Directors;

d. Any balance left over shall be allocated according to the resolution of the shareholders' meeting. The Company's Articles of Incorporation also provide that profits of the Company may be distributed by way of cash dividend and/or stock dividend. However, distribution of profits shall be made preferably by way of cash dividend. Distribution of profits may also be made by way of stock dividend; provided that the ratio for stock dividend shall not exceed 50% of the total distribution.

Any appropriations of the profits are recorded in the year of shareholder approval and given effect to in the financial statements of that year.

The Company no longer has supervisors since January 1, 2007. The required duties of supervisors are being fulfilled by the Audit Committee.

The appropriation for legal capital reserve shall be made until the reserve equals the Company's paid-in capital. The reserve may be used to offset a deficit, or be distributed as dividends and bonuses for the portion in excess of 50% of the paid-in capital if the Company has no unappropriated earnings and the reserve balance has exceeded 50% of the Company's paid-in capital. The Company Law also prescribes that, when the reserve has reached 50% of the Company's paid-in capital, up to 50% of the reserve may be transferred to capital.

A special capital reserve equivalent to the net debit balance of the other components of shareholders' equity (for example, cumulative translation adjustments and unrealized loss on financial assets, but excluding treasury stock) shall be made from unappropriated earnings pursuant to existing regulations promulgated by the Securities and Futures Bureau (SFB). Any special reserve appropriated may be reversed to the extent that the net debit balance reverses.

The appropriations of earnings for 2006 and 2005 had been approved in the shareholders' meetings held on May 7, 2007 and May 16, 2006, respectively. The appropriations and dividends per share were as follows:

	Appropriation of Earnings		Dividends Per Share	
			(NT\$)	
	For Fiscal Year 2006	For Fiscal Year 2005	For Fiscal Year 2006	For Fiscal Year 2005
Legal capital reserve	\$ 12,700,973	\$ 9,357,503		
Special capital reserve	(11,192)	(1,585,685)		
Bonus to employees in cash	4,572,798	3,432,129		
Bonus to employees in stock	4,572,798	3,432,129		
Cash dividends to shareholders	77,489,064	61,825,061	\$ 3.00	\$ 2.50
Stock dividends to shareholders	516,594	3,709,504	0.02	0.15
Bonus to directors and supervisors	285,800	257,410		

\$ 100,126,835 \$ 80,428,051

The shareholders meeting held on May 7, 2007 also resolved to distribute stock dividends out of capital surplus in the amount of NT\$774,891 thousand.

- 29 -

Table of Contents

The amounts of the appropriations of earnings for 2006 and 2005 were consistent with the resolutions of the meetings of the Board of Directors held on February 6, 2007 and February 14, 2006, respectively. If the above bonus to employees, directors and supervisors had been paid entirely in cash and charged to earnings of 2006 and 2005, the basic earnings per share (after income tax) for the years ended December 31, 2006 and 2005 shown in the respective financial statements would have decreased from NT\$4.93 to NT\$4.56 and NT\$3.79 to NT\$3.50, respectively. The shares distributed as a bonus to employees represented 1.77 % and 1.39% of the Company's total outstanding common shares as of December 31, 2006 and 2005, respectively.

As of January 10, 2008, the Board of Directors had not resolved the appropriation for earnings of 2007.

The information about the appropriations of bonus to employees, directors and supervisors is available at the Market Observation Post System website.

Under the Integrated Income Tax System that became effective on January 1, 1998, R.O.C. resident shareholders are allowed a tax credit for their proportionate share of the income tax paid by the Company on earnings generated since January 1, 1998.

20. STOCK-BASED COMPENSATION PLANS

The Company's Employee Stock Option Plans under the 2004 Plan, 2003 Plan and 2002 Plan were approved by the SFB on January 6, 2005, October 29, 2003 and June 25, 2002, respectively. The maximum number of options authorized to be granted under the 2004 Plan, 2003 Plan and 2002 Plan was 11,000 thousand, 120,000 thousand and 100,000 thousand, respectively, with each option eligible to subscribe for one common share when exercisable. The options may be granted to qualified employees of the Company or any of its domestic or foreign subsidiaries, in which the Company's shareholding with voting rights, directly or indirectly, is more than fifty percent (50%). The options of all the plans are valid for ten years and exercisable at certain percentages subsequent to the second anniversary of the grant date. Under the terms of the plans, the options are granted at an exercise price equal to the closing price of the Company's common shares listed on the TSE on the grant date.

Options of the plans that had never been granted or had been granted but were subsequently cancelled had expired as of December 31, 2007.

Information about outstanding options for the years ended December 31, 2007 and 2006 was as follows:

	Number of Options (in Thousands)	Weighted- Average Exercise Price (NT\$)
Year ended December 31, 2007		
Balance, beginning of year	52,814	\$37.9
Options granted	1,094	37.9
Options exercised	(10,988)	39.8
Options cancelled	(1,045)	45.9
Balance, end of year	41,875	37.4

Table of Contents

	Number of Options (in Thousands)	Weighted- Average Exercise Price (NT\$)
Year ended December 31, 2006		
Balance, beginning of year	67,758	\$39.4
Options granted	2,758	40.1
Options exercised	(14,550)	40.1
Options cancelled	(3,152)	43.7
Balance, end of year	52,814	39.6

The numbers of outstanding options and exercise prices have been adjusted to reflect the appropriations of earnings in accordance with the plans. The options granted were the result of the aforementioned adjustment.

As of December 31, 2007, information about outstanding and exercisable options was as follows:

Range of Exercise Price (NT\$)	Options Outstanding			Options Exercisable	
	Number of Options (in Thousands)	Weighted- average Remaining Contractual Life (Years)	Weighted- average Exercise Price (NT\$)	Number of Options (in Thousands)	Weighted- average Exercise Price (NT\$)
\$25.9-\$36.4	28,527	5.16	\$33.1	28,528	\$33.1
\$38.9-\$51.3	13,348	6.89	46.6	6,838	46.4
	41,875		37.4	35,366	35.6

No compensation cost was recognized under the intrinsic value method for the years ended December 31, 2007 and 2006. Had the Company used the fair value based method to evaluate the options granted after January 1, 2004, using the Black-Scholes model, the assumptions and pro forma results of the Company would have been as follows:

	Years Ended December 31 2007	2006
Assumptions:		
Expected dividend yield	1.00%-3.44%	1.00%-3.44%
Expected volatility	43.77%-46.15%	43.77%-46.15%
Risk free interest rate	3.07%-3.85%	3.07%-3.85%
Expected life	5 years	5 years
Net income:		

Edgar Filing: TAIWAN SEMICONDUCTOR MANUFACTURING CO LTD - Form 6-K

Net income as reported	\$109,177,093	\$127,009,731
Pro forma net income	109,095,663	126,889,209
Earnings per share (EPS) after income tax (NT\$):		
Basic EPS as reported	\$4.14	\$ 4.82

Table of Contents**21. TREASURY STOCK**

(Shares in Thousands)

	Beginning Shares	Addition	Stock Dividends	Ending Shares
Year ended December 31, 2007				
Parent company stock held by subsidiaries	33,926		170	34,096
Repurchase under share buyback plan		800,000		800,000
	33,926	800,000	170	834,096
Year ended December 31, 2006				
Parent company stock held by subsidiaries	32,938		988	33,926

As of December 31, 2007 and 2006, the book value of the treasury stock was NT\$49,385,032 thousand and NT\$918,075 thousand; the market value was NT\$51,713,947 thousand and NT\$2,290,026 thousand, respectively. The Company's common shares held by subsidiaries were treated as treasury stock and the holders are entitled to the rights of shareholders, with the exception of voting rights.

The Company held a meeting of the Board of Directors and approved a share buyback plan to repurchase the Company's common shares up to 800,000 shares listed on the TSE during the period from November 14, 2007 to January 13, 2008 for the buyback price in the range from NT\$43.2 to NT\$94.2. As of December 31, 2007, the Company had repurchased 800,000 thousand common shares for a total cost of NT\$48,466,957 thousand. All the treasury stock repurchased will be retired in 2008.

Diluted EPS					
Income available to common shareholders (including effect of dilutive potential common stock)	\$ 134,478,251	\$ 127,009,731	26,398,858	\$ 5.09	\$ 4.81

23. DISCLOSURES FOR FINANCIAL INSTRUMENTS

a. Fair values of financial instruments were as follows:

	December 31			
	2007		2006	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Assets				
Financial assets at fair value through profit or loss	\$ 42,083	\$ 42,083	\$ 44,601	\$ 44,601

Edgar Filing: TAIWAN SEMICONDUCTOR MANUFACTURING CO LTD - Form 6-K

Available-for-sale financial assets	23,664,409	23,664,409	32,614,572	32,614,572
Held-to-maturity financial assets	20,224,672	20,192,188	37,484,318	37,375,517

Liabilities

Financial liabilities at fair value through profit or loss	\$ 247,646	\$ 247,646	\$ 10,751	\$ 10,751
Bonds payable (including current portion)	12,500,000	12,669,987	19,500,000	19,817,149
Other long-term payables (including current portion)	5,174,644	5,174,644	2,981,754	2,981,754

b. Methods and assumptions used in the estimation of fair values of financial instruments

- 1) The aforementioned financial instruments do not include cash and cash equivalents, receivables, other financial assets, payables, and payables to contractors and equipment suppliers. The carrying amounts of these financial instruments approximate their fair values due to their short maturities.
- 2) Fair values of financial assets/liabilities at fair value through profit or loss were estimated using valuation techniques incorporating estimates and assumptions that were consistent with prevailing market conditions.

- 33 -

Table of Contents

- 3) Fair values of available-for-sale and held-to-maturity financial assets were based on their quoted market prices; except for structured time deposits of which the fair values were estimated using valuation techniques.
- 4) Fair value of bonds payable was based on their quoted market price.
- 5) Fair value of other long-term payables was based on the present value of expected cash flows, which approximates their carrying amount.
- c. The changes in fair value during the years ended December 31, 2007 and 2006 of derivatives estimated using valuation techniques were recognized as losses of NT\$239,413 thousand and gains of NT\$33,850 thousand, respectively.
- d. As of December 31, 2007 and 2006, financial assets exposed to fair value interest rate risk were NT\$43,931,164 thousand and NT\$70,143,491 thousand, respectively; financial liabilities exposed to fair value interest rate risk were NT\$247,646 thousand and NT\$10,751 thousand, respectively, and financial assets exposed to cash flow interest rate risk were nil and NT\$7,171,120 thousand, respectively.
- e. Movements of the unrealized gain on financial instruments for the years ended December 31, 2007 and 2006 were as follows:

	Year Ended December 31, 2007		
	Valuation Gain on Available- for-sale Financial Assets	Equity in Valuation Gain on Available-for- sale Financial Assets Held by Investees	Total
Balance, beginning of year	\$ 242,248	\$ 319,367	\$ 561,615
Recognized directly in shareholders' equity	295,419	95,057	390,476
Removed from shareholders' equity and recognized in earnings	(271,094)		(271,094)
Balance, end of year	\$ 266,573	\$ 414,424	\$ 680,997

	Year Ended December 31, 2006		
	Valuation Gain on Available- for-sale Financial Assets	Equity in Valuation Gain on Available-for- sale Financial Assets Held by Investees	Total

Balance, beginning of year	\$	\$	\$
Recognized directly in shareholders' equity	241,763	319,367	561,130
Removed from shareholders' equity and recognized in losses	485		485
Balance, end of year	\$ 242,248	\$ 319,367	\$ 561,615

- 34 -

Table of Contents

f. Information about financial risks

- 1) Market risk. The derivative financial instruments categorized as financial assets/liabilities at fair value through profit or loss are mainly used to hedge the exchange rate fluctuations of foreign-currency assets and liabilities; therefore, the market risk of derivatives will be offset by the foreign exchange risk of these hedged items. Available-for-sale financial assets held by the Company are mainly fixed-interest-rate debt securities; therefore, the fluctuations in market interest rates will result in changes in fair values of these debt securities.
- 2) Credit risk. Credit risk represents the potential loss that would be incurred by the Company if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties to the foregoing financial instruments are reputable financial institutions, business organizations, and government agencies. Management believes that the Company's exposure to default by those parties is low.
- 3) Liquidity risk. The Company has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments and bonds payable. Therefore, the liquidity risk is low.
- 4) Cash flow interest rate risk. The Company mainly invests in fixed-interest-rate debt securities. Therefore, cash flows are not expected to fluctuate significantly due to changes in market interest rates.

24. RELATED PARTY TRANSACTIONS

The Company engages in business transactions with the following related parties:

- a. Philips, one of the major shareholders of the Company, which has become a non-related party since March 2007.
- b. Subsidiaries
 - TSMC-North America
 - TSMC-Europe
 - TSMC-Japan
 - TSMC-Shanghai
 - TSMC-Korea
- c. Investees
 - GUC (with a controlling interest)
 - VIS (accounted for using equity method)
 - SSMC (accounted for using equity method)

Table of Contents

f. Others

Related parties over which the Company has control or exercises significant influence but with which the Company had no material transactions.

Transactions with the aforementioned parties, other than those disclosed in other notes, are summarized as follows:

VisEra	62,175	6	124,350	11
	\$ 572,739	58	\$ 848,011	72

The terms of sales to related parties were not significantly different from those of sales to third parties. For other related party transactions, prices were determined in accordance with mutual agreements.

The Company deferred the gains (classified under the deferred credits) derived from sales of property, plant and equipment to TSMC-Shanghai and VisEra, and then recognized such gains (classified under the non-operating income and gains) over the depreciable lives of the disposed assets.

The Company leased part of its office space from GUC and also leased certain buildings and facilities to VisEra. The related rental expense and rental income were classified under non-operating expenses and income, respectively. The lease terms and prices were determined in accordance with mutual agreements.

25. SIGNIFICANT LONG-TERM LEASES

The Company leases several parcels of land from the Science Park Administration. These operating leases expire on various dates from March 2008 to December 2027 and can be renewed upon expiration.

As of December 31, 2007, future lease payments were as follows:

Year	Amount
2008	\$ 325,608
2009	304,578
2010	255,380
2011	253,798
2012	253,798
2013 and thereafter	1,741,955
	\$ 3,135,117

26. SIGNIFICANT COMMITMENTS AND CONTINGENCIES

The significant commitments and contingencies of the Company as of December 31, 2007, except those disclosed in other notes, were as follows:

- a. On June 20, 2004, the Company and Philips (Philips parted with its semiconductor company which was renamed as NXP B.V. in September 2006) amended the Technical Cooperation Agreement, which was originally signed on May 12, 1997. The amended Technical Cooperation Agreement is for five years beginning from January 1, 2004. Upon expiration, this amended Technical Cooperation Agreement will be terminated and will not be automatically renewed; however, the patent cross license arrangement between the Company and Philips (now NXP B.V.) will survive the expiration of the amended Technical Cooperation Agreement. Under this amended Technical Cooperation Agreement, the Company will pay Philips (now

NXP B.V.) royalties based on a fixed amount mutually agreed-on, rather than under a certain percentage of the Company's annual net sales. The Company and Philips (now NXP B.V.) agreed to cross license the patents owned by each party. The Company also obtained through Philips (now NXP B.V.) a number of cross patent licenses.

- 38 -

Table of Contents

- b. Under a technical cooperation agreement with ITRI, the R.O.C. Government or its designee approved by the Company can use up to 35% of the Company's capacity if the Company's outstanding commitments to its customers are not prejudiced. The term of this agreement is for five years beginning from January 1, 1987 and is automatically renewed for successive periods of five years unless otherwise terminated by either party with one year prior notice. The agreement was automatically renewed in 1992, 1997, 2002, and on January 1, 2007.
- c. Under several foundry agreements, the Company shall reserve a portion of its production capacity for certain major customers that have guarantee deposits with the Company. As of December 31, 2007, the Company had a total of US\$68,391 thousand of guarantee deposits.
- d. Under a Shareholders Agreement entered into with Philips and EDB Investments Pte Ltd. on March 30, 1999, the parties formed a joint venture company, SSMC, which is an integrated circuit foundry in Singapore. The Company's equity interest in SSMC was 32%. Nevertheless, Philips parted with its semiconductor company which was renamed as NXP B.V. in September 2006. The Company and NXP B.V. purchased all the SSMC shares owned by EDB Investments Pte Ltd. pro rata according to the Shareholders Agreement on November 15, 2006. After the purchase, the Company and NXP B.V. currently own approximately 39% and 61% of the SSMC shares, respectively. The Company and Philips (now NXP B.V.) committed to buy specific percentages of the production capacity of SSMC. The Company and Philips (now NXP B.V.) are required, in the aggregate, to purchase up to 70% of SSMC's capacity, but the Company alone is not required to purchase more than 28% of the capacity. If any party defaults on the commitment and the capacity utilization of SSMC falls below a specific percentage of its capacity, the defaulting party is required to compensate SSMC for all related unavoidable costs.
- e. The Company provides technical services to SSMC under a Technical Cooperation Agreement (the Agreement) entered into on May 12, 1999. The Company receives compensation for such services computed at a specific percentage of net selling price of all products sold by SSMC. The Agreement shall remain in force for ten years and may be automatically renewed for successive periods of five years each unless pre-terminated by either party under certain conditions.
- f. Under a Technology Transfer Agreement (TTA) with National Semiconductor Corporation (National) entered into on June 27, 2000, the Company shall receive payments for the licensing of certain technology to National. The agreement was to remain in force for ten years and could be automatically renewed for successive periods of two years thereafter unless either party gives written notice for early termination under certain conditions. In January 2003, the Company and National entered into a Termination Agreement whereby the TTA was terminated. Under the Termination Agreement, the Company will be relieved of any further obligation to transfer any additional technology. In addition, the Company granted National an option to request prior to January 2008 the transfer of certain technologies under the same terms and conditions as the terminated TTA. National did not make such request by the deadline, therefore the option has expired in January 2008.
- g. In December 2003, the Company entered into a Technology Development and License Agreement with Freescale Semiconductor, Inc. to jointly develop 65-nm SOI (silicon on insulator) technology. The Company will also license related 90-nm SOI technology from Freescale Semiconductor, Inc. Any intellectual properties arising out of the co-development project shall be jointly owned by the parties. In accordance with the agreement, the Company will pay royalties to Freescale Semiconductor, Inc. and will share a portion of the costs associated with the joint development project.
- h. The Company provides a technology transfer to VIS under a Manufacturing License and Technology Transfer Agreement entered into on April 1, 2004. The Company receives compensation for such technology

transfer in the form of royalty payments from VIS computed at specific percentages of net selling price of certain products sold by VIS. VIS agreed to reserve its certain capacity to manufacture for the Company certain products at prices as agreed by the parties.

Table of Contents

- i. TSMC, TSMC-North America and WaferTech filed a series of lawsuits in late 2003 and 2004 against Semiconductor Manufacturing International Corporation, SMIC (Shanghai) and SMIC Americas (aggregately referring to as SMIC). The lawsuits alleged that SMIC infringed multiple TSMC, TSMC-North America and WaferTech patents and misappropriated TSMC, TSMC-North America and WaferTech s trade secrets. These suits were settled out of court on January 30, 2005. As part of the settlement, Semiconductor Manufacturing International Corporation shall pay US\$175 million over six years to resolve TSMC, TSMC-North America and WaferTech s claims. As of December 31, 2007, SMIC had paid US\$ 90 million in accordance with the terms of this settlement agreement. In August 2006, TSMC, TSMC-North America and WaferTech filed a lawsuit against SMIC in Alameda County Superior Court in California for breach of aforementioned settlement agreement, breach of promissory notes and trade secret misappropriation, seeking injunctive relief and monetary damages. In September 2006, SMIC filed a cross-complaint against TSMC, TSMC-North America and WaferTech in the same court, alleging TSMC, TSMC-North America and WaferTech of breach of the settlement agreement and implied covenant of good faith and fair dealing, in response to TSMC, TSMC-North America and WaferTech s August complaint. In November 2006, SMIC filed a complaint with Beijing People s High Court against TSMC, TSMC-North America and WaferTech alleging defamation and breach of good faith. The California State Superior Court of Alameda County issued an Order on TSMC, TSMC-North America and WaferTech s pre-trial motion for a preliminary injunction against SMIC on September 7, 2007. In the Order, the Court found TSMC has demonstrated a significant likelihood that it will ultimately prevail on the merits of its claim for breach of certain paragraphs of the (2005) Settlement Agreement with SMIC. The Court also found TSMC has demonstrated a significant probability of establishing that SMIC retains and is using TSMC Information in SMIC s 0.13um and smaller technologies, and there is significant threat of serious irreparable harm to TSMC if SMIC were to disclose or transfer that information before final resolution of the case. Therefore, the Court ordered that, effective immediately, SMIC must provide advance notice and an opportunity for TSMC, TSMC-North America and WaferTech to object before disclosing items enumerated in the Court Order to SMIC s third party partners. The Court, however, did not grant a preliminary injunction as requested by TSMC, TSMC-North America and WaferTech. The result of the above-mentioned litigation cannot be determined at this time.
- j. In April 2004, UniRAM Technology, Inc. filed an action with the US District Court in the Northern District of California against TSMC and TSMC North America, alleging patent infringement and trade secret misappropriation and seeking injunctive relief and damages. A jury in the District Court made a verdict in September 2007, awarding US\$30.5 million to the plaintiff. TSMC intends to pursue remedies against this verdict.

27. ADDITIONAL DISCLOSURES

Following are the additional disclosures required by the SFB for the Company and its investees:

- a. Financing provided: None;
- b. Endorsement/guarantee provided: None;
- c. Marketable securities held: Please see Table 1 attached;
- d. Marketable securities acquired or disposed of at costs or prices of at least NT\$100 million or 20% of the paid-in capital: Please see Table 2 attached;
- e. Acquisition of individual real estate properties at costs of at least NT\$100 million or 20% of the paid-in capital: Please see Table 3 attached;
- f. Disposal of individual real estate properties at prices of at least NT\$100 million or 20% of the paid-in capital: None;

Table of Contents

- g. Total purchases from or sales to related parties of at least NT\$100 million or 20% of the paid-in capital: Please see Table 4 attached;
- h. Receivable from related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Please see Table 5 attached;
- i. Names, locations, and related information of investees on which the Company exercises significant influence: Please see Table 6 attached;
- j. Information about derivatives of investees over which the Company has a controlling interest:

TSMC-Shanghai entered into forward exchange contracts during the year ended December 31, 2007 to manage exposures due to foreign exchange rate fluctuations. As of December 31, 2007, no forward exchange contract was outstanding.

For the year ended December 31, 2007, net gains arising from forward exchange contracts of TSMC-Shanghai were NT\$2,181 thousand (including realized settlement gains of NT\$2,064 thousand and valuation losses of NT\$117 thousand).

Xintec entered into forward exchange contracts during the year ended December 31, 2007 to manage exposures due to foreign exchange rate fluctuations. Outstanding forward exchange contracts as of December 31, 2007:

	Maturity Date	Contract Amount (in Thousands)
Sell US\$/buy NT\$	January 2008	US\$11,000

For the year ended December 31, 2007, net losses arising from forward exchange contracts of Xintec were NT\$2,834 thousand (including realized settlement losses of NT\$1,283 thousand and valuation losses of NT\$1,551 thousand).

- k. Information on investment in Mainland China
 - 1) The name of the investee in mainland China, the main businesses and products, its issued capital, method of investment, information on inflow or outflow of capital, percentage of ownership, equity in the net gain or net loss, ending balance, amount received as dividends from the investee, and the limitation on investee: Please see Table 7 attached.
 - 2) Significant direct or indirect transactions with the investee, its prices and terms of payment, unrealized gain or loss, and other related information which is helpful to understand the impact of investment in mainland China on financial reports: Please see Note 24.

28. SEGMENT FINANCIAL INFORMATION

- a. Industry financial information

The Company operates in one industry. Therefore, the disclosure of industry financial information is not applicable to the Company.

Table of Contents

b. Geographic information

The Company has no significant foreign operations. Therefore, the disclosure of geographic information is not applicable to the Company.

c. Export sales

Area	Years Ended December 31	
	2007	2006
Americas	\$ 159,721,699	\$ 153,974,683
Asia	77,616,258	102,121,046
Europe and others	40,287,628	29,109,649
	\$ 277,625,585	\$ 285,205,378

The export sales information is based on the amounts billed to customers within the areas.

d. Major customers representing at least 10% of gross sales

	Years Ended December 31			
	2007		2006	
	Amount	%	Amount	%
Customer A	\$37,350,210	12	\$33,610,918	11

Sales to Customer A above were made through TSMC-North America.

REPRESENTATION LETTER

The entities that are required to be included in the combined financial statements of Taiwan Semiconductor Manufacturing Company Limited as of and for the year ended December 31, 2007, under the Criteria Governing the Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises are the same as those included in the consolidated financial statements prepared in conformity with the revised Statement of Financial Accounting Standards No. 7, Consolidated Financial Statements . In addition, the information required to be disclosed in the combined financial statements is included in the consolidated financial statements. Consequently, Taiwan Semiconductor Manufacturing Company Limited and Subsidiaries do not prepare a separate set of combined financial statements.

Very truly yours,

TAIWAN SEMICONDUCTOR MANUFACTURING COMPANY LIMITED

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders

Taiwan Semiconductor Manufacturing Company Limited

We have audited the accompanying consolidated balance sheets of Taiwan Semiconductor Manufacturing Company Limited and subsidiaries as of December 31, 2007 and 2006, and the related consolidated statements of income, changes in shareholders' equity and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Taiwan Semiconductor Manufacturing Company Limited and subsidiaries as of December 31, 2007 and 2006, and the results of their consolidated operations and their consolidated cash flows for the years then ended in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting with respect to financial accounting standards, and accounting principles generally accepted in the Republic of China.

January 10, 2008

Notice to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdiction. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

Taiwan Semiconductor Manufacturing Company Limited and Subsidiaries

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2007 AND 2006

(Amounts in Thousands of New Taiwan Dollars, Unless Specified Otherwise)

1. GENERAL

Taiwan Semiconductor Manufacturing Company Limited (TSMC), a Republic of China (R.O.C.) corporation, was incorporated as a venture among the Government of the R.O.C., acting through the Development Fund of the Executive Yuan; Philips Electronics N.V. and certain of its affiliates (Philips); and certain other private investors. On September 5, 1994, its shares were listed on the Taiwan Stock Exchange (TSE). On October 8, 1997, TSMC listed some of its shares of stock on the New York Stock Exchange (NYSE) in the form of American Depositary Shares (ADSs).

TSMC is engaged mainly in the manufacturing, selling, packaging, testing and computer-aided designing of integrated circuits and other semiconductor devices and the manufacturing of masks.

As of December 31, 2007 and 2006, TSMC and its subsidiaries had 25,258 and 22,969 employees, respectively.

2. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements are presented in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, Business Accounting Law, Guidelines Governing Business Accounting, and accounting principles generally accepted in the R.O.C.

For the convenience of readers, the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the R.O.C. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language consolidated financial statements shall prevail.

Significant accounting policies are summarized as follows:

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of all directly and indirectly majority owned subsidiaries of TSMC, and the accounts of investees in which TSMC's ownership percentage is less than 50% but over which TSMC has a controlling interest. All significant intercompany balances and transactions are eliminated upon consolidation.

Table of Contents

The consolidated entities were as follows:

Name of Investor	Name of Investee	Percentage of Ownership		Remark

(Concluded)

The following diagram presents information regarding the relationship and ownership percentages between TSMC and its subsidiaries as of December 31, 2007:

TSMC-NA is engaged in selling and marketing of integrated circuits and semiconductor devices. TSMC-Japan, TSMC-Korea and TSMC-Europe are engaged mainly in marketing activities. TSMC International is engaged in investment in companies involved in the design, manufacture, and other related business in the semiconductor industry. TSMC Global, TSMC Partners, TSMC Development, Chi Cherng and Hsin Ruey are engaged in investing activities. TSMC-Shanghai is engaged in the manufacturing and selling of integrated circuits pursuant to the orders from and product design specifications provided by customers. Emerging Alliance, VTAF II, VTAF III, VTA Holdings, ISDF, and ISDF II are engaged in investing in new start-up technology companies. TSMC Canada and TSMC Technology are engaged mainly in engineering support activities. WaferTech is engaged in the manufacturing, selling, testing and computer-aided designing of integrated circuits and other semiconductor devices. GUC is engaged in researching, developing, manufacturing, testing and marketing of integrated circuits. GUC-NA and GUC-Japan are engaged in providing products consulting in North America and Japan, respectively. Xintec is engaged in the provision of wafer packaging service. Mutual-Pak is engaged in the manufacturing and selling of electronic parts, and researching, developing and testing of RFID.

TSMC together with its subsidiaries are hereinafter referred to collectively as the Company .

Minority interests in the aforementioned subsidiaries are presented as a separate component of shareholders equity.

Table of Contents

Use of Estimates

The preparation of consolidated financial statements in conformity with the aforementioned guidelines, law and principles requires management to make reasonable assumptions and estimates of matters that are inherently uncertain. The actual results may differ from management's estimates.

Classification of Current and Noncurrent Assets and Liabilities

Current assets are assets held for trading purposes and assets expected to be converted to cash, sold or consumed within one year from the balance sheet date. Current liabilities are obligations incurred for trading purposes and obligations expected to be settled within one year from the balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

Cash Equivalents

Repurchase agreements collateralized by government bonds, asset-backed commercial papers, corporate notes, and treasury bills acquired with maturities of less than three months from the date of purchase are classified as cash equivalents. The carrying amount approximates fair value.

Financial Assets/Liabilities at Fair Value Through Profit or Loss

Derivatives that do not meet the criteria for hedge accounting and financial assets acquired principally for the purpose of selling them in the near term are initially recognized at fair value, with transaction costs expensed as incurred. The derivatives and financial assets are remeasured at fair value subsequently with changes in fair value recognized in earnings. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

Fair value is determined as follows: Publicly-traded stocks – closing prices at the end of the year; derivatives using valuation techniques incorporating estimates and assumptions that are consistent with prevailing market conditions. When the fair value is positive, the derivative is recognized as a financial asset; when the fair value is negative, the derivative is recognized as a financial liability.

Available-for-sale Financial Assets

Investments designated as available-for-sale financial assets include debt securities and equity securities. Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of shareholders' equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

Fair value is determined as follows: Structured time deposits – using valuation techniques; open-end mutual funds and money market funds – net asset value at the end of the year; publicly-traded stocks – closing prices at the end of the year; and other debt securities – average of bid and asked prices at the end of the year.

Cash dividends are recognized as investment income upon resolution of shareholders of an investee but are accounted for as a reduction to the original cost of investment if such dividends are declared on the earnings of the investee attributable to the period prior to the purchase of the investment. Stock dividends are recorded as an increase in the number of shares held and do not affect investment income. The cost per share is recalculated based on the new total number of shares.

Any difference between the initial carrying amount of a debt security and the amount due at maturity is amortized using the effective interest method, with the amortization recognized in earnings.

- 13 -

Table of Contents

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent of the decrease and recorded as an adjustment to shareholders' equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

Held-to-maturity Financial Assets

Financial instruments for which the Company has a positive intention and ability to hold to maturity are categorized as held-to-maturity financial assets and are carried at amortized cost under the effective interest method except for structured time deposits which are carried at acquisition cost. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains or losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

Allowance for Doubtful Receivables

An allowance for doubtful receivables is provided based on a review of the collectibility of notes and accounts receivable. The Company determines the amount of the allowance for doubtful receivables by examining the aging analysis of outstanding notes and accounts receivable and current trends in the credit quality of its customers as well as its internal credit policies.

Revenue Recognition and Allowance for Sales Returns and Others

The Company recognizes revenue when evidence of an arrangement exists, the rewards of ownership and significant risk of the goods has been transferred to the buyer; price is fixed or determinable, and collectibility is reasonably assured. Provisions for estimated sales returns and others are generally recorded in the period the related revenue is recognized, based on historical experience, management's judgment, and any known factors that would significantly affect the allowance.

Sales prices are determined using fair value taking into account related sales discounts agreed to by the Company and its customers. Sales agreements typically provide that payment is due 30 days from invoice date for a majority of the customers and 30 to 45 days after the end of the month in which sales occur for some customers. Since the receivables from sales are collectible within one year and such transactions are frequent, fair value of the receivables is equivalent to the nominal amount of the cash to be received.

Inventories

Inventories are stated at the lower of cost or market value. Inventories are recorded at standard cost and adjusted to the approximate weighted-average cost at the balance sheet date. Market value represents replacement cost for raw materials, supplies and spare parts and net realizable value for work in process and finished goods. The Company assesses the impact of changing technology on its inventories on hand and writes off inventories that are considered obsolete. Year-end inventories are evaluated for estimated excess quantities and obsolescence based on a demand forecast within a specific time horizon, which is generally 180 days or less. Estimated losses

on scrap and slow-moving items are recognized and included in the allowance for losses.

Table of Contents

Investments Accounted for Using Equity Method

Investments in companies wherein the Company exercises significant influence over the operating and financial policy decisions are accounted for using the equity method. The Company's share of the net income or net loss of an investee is recognized in the equity in earnings/losses of equity method investees, net account. Prior to January 1, 2006, the difference, if any, between the cost of investment and the Company's proportionate share of the investee's equity was amortized by the straight-line method over five years, with the amortization recorded in the equity in earnings/losses of equity method investees, net account. Effective January 1, 2006, pursuant to the revised Statement of Financial Accounting Standards No. 5, Long-term Investments Accounted for Using the Equity Method (SFAS No. 5), the cost of an investment shall be analyzed and the cost of investment in excess of the fair value of identifiable net assets acquired, representing goodwill, shall not be amortized and instead shall be tested for impairment annually. If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be proportionately allocated as reductions to fair values of non-current assets (except for financial assets other than investments accounted for using the equity method and deferred income tax assets). When an indication of impairment is identified, the carrying amount of the investment is reduced, with the related impairment loss recognized in earnings.

When the Company subscribes for additional investee's shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company's share of the investee's equity. The Company records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to capital surplus.

Gains or losses on sales from the Company to equity method investees are deferred in proportion to the Company's ownership percentages in the investees until such gains or losses are realized through transactions with third parties. The entire amount of the gains or losses on sales to investees over which the Company has a controlling interest is deferred until such gains or losses are realized through subsequent sales of the related products to third parties. Gains or losses on sales from equity method investees to the Company are deferred in proportion to the Company's ownership percentages in the investees until they are realized through transactions with third parties. Gains or losses on sales between equity method investees are deferred in proportion to the multiplication of the Company's weighted-average ownership percentages in the investees. Such gains or losses are recorded until they are realized through transactions with third parties.

If an investee's functional currency is a foreign currency, differences will result from the translation of the investee's financial statements into the reporting currency of the Company. Such differences are charged or credited to cumulative translation adjustments, a separate component of shareholders' equity.

Financial Assets Carried at Cost

Investments for which the Company does not exercise significant influence and that do not have a quoted market price in an active market and whose fair value cannot be reliably measured, such as non-publicly traded stocks and mutual funds, are carried at their original cost. The costs of non-publicly traded stocks and mutual funds are determined using the weighted-average method. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

The accounting treatment for cash dividends and stock dividends arising from financial assets carried at cost is the same as that for cash and stock dividends arising from available-for-sale financial assets.

Table of Contents

Property, Plant and Equipment, Assets Leased to Others and Idle Assets

Property, plant and equipment and assets leased to others are stated at cost less accumulated depreciation. Properties covered by agreements qualifying as capital leases are carried at the lower of the leased equipment's market value or the present value of the minimum lease payments at the inception date of the lease, with the corresponding amount recorded as obligations under capital leases. When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized. Significant additions, renewals and betterments incurred during the construction period are capitalized. Maintenance and repairs are expensed as incurred.

Depreciation is computed using the straight-line method over the following estimated service lives: Land improvements 20 years; buildings 10 to 20 years; machinery and equipment 3 to 10 years; office equipment 3 to 15 years; and leased assets 20 years.

Upon sale or disposal of property, plant and equipment and assets leased to others, the related cost and accumulated depreciation are deducted from the corresponding accounts, with any gain or loss recorded as non-operating gains or losses in the period of sale or disposal.

When property, plant and equipment are determined to be idle or useless, they are transferred to idle assets at the lower of the net realizable value or carrying amount. Depreciation on the idle assets is provided continuously, and the idle assets are tested for impairment on a periodical basis.

Intangible Assets

Goodwill represents the excess of the consideration paid for acquisition over the fair value of identifiable net assets acquired. Prior to January 1, 2006, goodwill was amortized using the straight-line method over the estimated life of 10 years. Effective January 1, 2006, pursuant to the newly revised Statement of Financial Accounting Standards No. 25, Business Combinations Accounting Treatment under Purchase Method (SFAS No. 25), goodwill is no longer amortized and instead is tested for impairment annually. If an event occurs or circumstances change which indicated that the fair value of goodwill is more likely than not below its carrying amount, an impairment loss is recognized. A subsequent reversal of such impairment loss is not allowed.

Deferred charges consist of technology license fees, software and system design costs and other charges. The amounts are amortized over the following periods: Technology license fees the shorter of the estimated life of the technology or the term of the technology transfer contract; software and system design costs and other charges 2 to 5 years. When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the previously recognized impairment loss would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of amortization, as if no impairment loss had been recognized.

Effective January 1, 2007, the Company adopted the newly released Statement of Financial Accounting Standards No. 37, Accounting for Intangible Assets. The Company had reassessed the useful lives and the amortization method of its recognized intangible assets at the effective date. Expenditures related to research activities and those related to development activities that do not meet the criteria for capitalization are charged to expenses when incurred.

Table of Contents

Pension Costs

For employees who participate in defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees' individual pension accounts during their service periods. For employees who participate in defined benefit pension plans, pension costs are recorded based on actuarial calculations.

Government Subsidies

Income-related subsidies from governments are recognized in earnings when the requirements for subsidies are met.

Income Tax

The Company applies intra-period and inter-period allocations for its income tax whereby (1) a portion of current year's income tax expense is allocated to the cumulative effect of changes in accounting principles; and (2) deferred income tax assets and liabilities are recognized for the tax effects of temporary differences, net operating loss carryforwards and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery, equipment and technology, research and development expenditures, personnel training expenditures, and investments in important technology-based enterprises are recognized using the flow-through method.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

Income tax on unappropriated earnings (excluding earnings from foreign consolidated subsidiaries) at a rate of 10% is expensed in the year of shareholder approval which is the year subsequent to the year the earnings are generated.

The R.O.C. government enacted the Alternative Minimum Tax Act (the AMT Act), which became effective on January 1, 2006. The alternative minimum tax (AMT) imposed under the AMT Act is a supplemental tax levied at a rate of 10% which is payable if the income tax payable determined pursuant to the Income Tax Law is below the minimum amount prescribed under the AMT Act. The taxable income for calculating the AMT includes most of the tax-exempt income under various laws and statutes. TSMC and subsidiaries domiciled in the R.O.C. have considered the impact of the AMT Act in the determination of their tax liabilities.

Stock-based Compensation

Employee stock option plans that are amended or have options granted on or after January 1, 2004 are accounted for by the interpretations issued by the Accounting Research and Development Foundation of the Republic of China. The Company adopted the intrinsic value method and any compensation cost determined using this method is recognized in earnings over the employee vesting period.

Table of Contents

Treasury Stock

Treasury stock is stated at cost and shown as a deduction in shareholders' equity. When TSMC retires treasury stock, the treasury stock account is reduced and the common stock as well as the capital surplus and additional paid-in capital are reversed on a pro rata basis. When the book value of the treasury stock exceeds the sum of the par value and additional paid-in capital, the difference is charged to capital surplus and treasury stock transactions and to retained earnings for any remaining amount. TSMC's stock held by its subsidiaries is treated as treasury stock and reclassified from investments accounted for using equity method to treasury stock. The gains resulted from disposal of the treasury stock held by subsidiaries and cash dividends received by subsidiaries from TSMC are recorded under capital surplus and treasury stock transactions.

Foreign-currency Transactions

Foreign-currency transactions are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings.

At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

Translation of Foreign-currency Financial Statements

The financial statements of foreign subsidiaries are translated into New Taiwan dollars at the following exchange rates: Assets and liabilities - spot rates at year-end; shareholders' equity - historical rates; income and expenses - average rates during the year. The resulting translation adjustments are recorded as a separate component of shareholders' equity.

Recent Accounting Pronouncements

In March 2007, the Accounting Research and Development Foundation of the R.O.C. issued an interpretation that requires companies to record the bonus paid to directors, supervisors and employees as an expense rather than an appropriation of earnings. This interpretation should be applied to financial statements for fiscal years beginning on or after January 1, 2008.

The Accounting Research and Development Foundation of the R.O.C. also issued Statement of Financial Accounting Standards No. 39, Accounting for Share-based Payment (SFAS No. 39) in August 2007, which requires companies to record share-based payment transactions in the financial statements at fair value. SFAS No. 39 should be applied to financial statements for fiscal years beginning on or after January 1, 2008.

The Accounting Research and Development Foundation of the R.O.C. revised Statement of Financial Accounting Standards No. 10, Accounting for Inventories (SFAS No. 10) in November 2007, which requires inventories to be stated at the lower of cost or net realizable value item by item. Inventories are recorded by the specific identification method, first-in, first-out method or weighted average method. The last-in, first-out method is no longer permitted. The revised SFAS No. 10 should be applied to financial statements for the fiscal years beginning on or after January 1, 2009. Early adoption is permitted.

3. ACCOUNTING CHANGES

On January 1, 2006, the Company adopted the newly released Statements of Financial Accounting Standards No. 34, Financial Instruments: Recognition and Measurement (SFAS No. 34) and No. 36, Financial Instruments: Disclosure and Presentation .

Table of Contents

The Company had categorized its financial assets and liabilities upon initial adoption of the newly released SFASs. The adjustments made to the carrying amounts of the financial instruments categorized as financial assets or liabilities at fair value through profit or loss were included in the cumulative effect of changes in accounting principles; the adjustments made to the carrying amounts of those categorized as available-for-sale financial assets were recognized as adjustments to shareholders' equity.

The effect of adopting the newly released SFASs is summarized as follows:

	Recognized as Cumulative Effect of Changes in Accounting Principles (Net of Tax)	Recognized as a Separate Component of Shareholders Equity
Financial assets or liabilities at fair value through profit or loss	\$ 1,606,749	\$
Available-for-sale financial assets		306,531
	\$ 1,606,749	\$ 306,531

The adoption of the newly released SFASs resulted in a decrease in net income before cumulative effect of changes in accounting principles of NT\$1,083,574 thousand, an increase in net income of NT\$523,175 thousand, and an increase in basic earnings per share (after income tax) of NT\$0.02, for the year ended December 31, 2006.

Effective January 1, 2006, the Company adopted the newly revised SFAS No. 5 and SFAS No. 25, which prescribe that investment premiums, representing goodwill, be assessed for impairment at least on an annual basis instead of being amortized. Such a change in accounting principle did not have a material effect on the Company's consolidated financial statements as of and for the year ended December 31, 2006.

4. CASH AND CASH EQUIVALENTS

	December 31	
	2007	2006
Cash and deposits in banks	\$ 84,105,377	\$ 85,496,085
Repurchase agreements collateralized by government bonds	10,067,843	31,241,594

Forward exchange contracts	\$ 185,583	\$ 113
Cross currency swap contracts	63,730	10,751
	\$ 249,313	\$ 10,864

The Company entered into derivative contracts during the years ended December 31, 2007 and 2006 to manage exposures due to the fluctuations of foreign exchange rates. The derivative contracts entered into by the Company did not meet the criteria for hedge accounting prescribed by SFAS No. 34. Therefore, the Company did not apply hedge accounting treatment for its derivative financial contracts.

Outstanding forward contracts as of December 31, 2007 and 2006:

	Maturity Date	Contract Amount (in Thousands)
December 31, 2007		
Sell US\$/Buy NT\$	January 2008	US\$111,000
Sell EUR\$/Buy NT\$	February 2008 to July 2008	EUR 48,000
December 31, 2006		
Sell JPY\$/Buy US\$	January 2007	JPY 38,610

Outstanding cross currency swap contracts as of December 31, 2007 and 2006:

Maturity Date	Contract Amount (in Thousands)	Range of Interest Rates Paid	Range of Interest Rates Received

Current portion	(66,688,368)	(67,523,858)
	\$ 1,400,691	\$ 6,648,485

In 2004, the Company entered into investment management agreements with three well-known financial institutions (fund managers) to manage its investment portfolios. In accordance with the investment guidelines and terms specified in these agreements, the securities invested by the fund managers cannot be below a pre-defined credit rating. The investment portfolios included securities such as corporate bonds, agency bonds, government bonds, asset-backed securities and others. Securities acquired with maturities of less than three months from the date of purchase were classified as cash equivalents.

Structured time deposits categorized as available-for-sale financial assets consisted of the following:

	Principal Amount	Carrying Amount	Interest Rate	Maturity Date
December 31, 2007				
Step-up callable deposits				
Domestic deposits	\$ 500,000	\$ 499,410	1.76%	March 2008
December 31, 2006				
Step-up callable deposits				
Domestic deposits	\$ 500,000	\$ 499,242	1.76%	March 2008

The interest rate of the step-up callable deposits was pre-determined by the Company and the banks.

Domestic deposits	3,911,520	4,808	(See below)	September 2009 to December 2009
Foreign deposits	3,259,600	4,998	(See below)	October 2009 to January 2010
	\$ 11,671,120	\$ 23,734		

The amount of interest earned from the callable range accrual deposits is based on a pre-defined range as determined by the 3-month or 6-month LIBOR plus an agreed upon rate ranging between 2.10% and 3.45%. Based on the terms of the contracts, if the 3-month or 6-month LIBOR moves outside of the pre-defined range, the interest paid to the Company is at a fixed rate between zero and 1.5%. Under the terms of the contracts, the bank has the right to cancel the contracts prior to the maturity date.

As of December 31, 2007, no structured time deposit resided in banks located in foreign countries. As of December 31, 2006, the principal of the deposits that resided in banks located in Hong Kong and Singapore amounted to US\$80,000 thousand and US\$20,000 thousand, respectively.

8. ALLOWANCES FOR DOUBTFUL RECEIVABLES, SALES RETURNS AND OTHERS

Movements of the allowance for doubtful receivables were as follows:

	Years Ended December 31	
	2007	2006
Balance, beginning of year	\$ 749,888	\$ 980,594
Effect of inclusion of newly consolidated subsidiaries	45	
Provision	2,964	54,713
Write-off	(51,090)	(285,419)
Balance, end of year	\$ 701,807	\$ 749,888

Movements of the allowance for sales returns and others were as follows:

	Years Ended December 31	
	2007	2006
Balance, beginning of year	\$ 2,870,802	\$ 4,317,413
Effect of inclusion of newly consolidated subsidiaries	12,956	
Provision	5,773,383	5,382,146
Write-off	(4,568,106)	(6,828,757)
Balance, end of year	\$ 4,089,035	\$ 2,870,802

10. INVESTMENTS ACCOUNTED FOR USING EQUITY METHOD

	December 31			
	2007			2006
	Carrying Amount	% of Owner- ship	Carrying Amount	% of Owner- ship
Vanguard International Semiconductor Corporation (VIS)	\$ 11,220,101	37	\$ 5,931,755	27
Systems on Silicon Manufacturing Company Pte Ltd. (SSMC)	9,092,741	39	7,960,869	39
VisEra Holding Company (VisEra Holding)	2,204,447	49	1,108,267	49
	\$ 22,517,289		\$ 15,000,891	

In November 2006, the Company acquired 81 thousand shares in SSMC for SGD115,227 thousand from EDB Investments Pte Ltd. under a Shareholders Agreement. After the acquisition, the number of SSMC shares owned by the Company increased to 463 thousand and the Company's percentage of ownership increased from 32% to 39%.

In August 2007, the Company acquired 169,600 thousand shares in VIS for NT\$4,927,865 thousand. After the acquisition, the Company's percentage of ownership in VIS increased from 27% to 37%.

For the years ended December 31, 2007 and 2006, net equity in earnings of NT\$2,507,869 thousand and NT\$2,347,153 thousand were recognized, respectively. The related equity in earnings of equity method investees were determined based on the audited financial statements of the investees for the same periods as the Company.

As of December 31, 2007 and 2006, fair values of publicly traded stocks in investments accounted for using equity method were NT\$15,189,200 thousand and NT\$11,027,066 thousand, respectively.

Table of Contents

Movements of the difference between the cost of investment and the Company's share in investees' net assets allocated to depreciable for the years ended December 31, 2007 and 2006 were as follows:

	Years Ended December 31	
	2007	2006
Balance, beginning of year	\$ 952,159	\$

Current portion		(7,000,000)
	\$ 12,500,000	\$ 12,500,000

Table of Contents

As of December 31, 2007, future principal repayments for the bonds payable were as follows:

Year of Repayment	Amount
2009	\$ 8,000,000
2012	4,500,000
	\$ 12,500,000

15. LONG-TERM BANK LOANS

	December 31	
	2007	2006
Secured loans:		
US\$20,000 thousand, repayable in full in one lump sum payment in November 2010, annual interest at 5.88% in 2007 and 5.91% in 2006	\$ 648,941	\$ 651,871
Repayable from August 2009 in 17 quarterly installments, annual interest at 2.91%-2.99%	630,000	
Repayable from December 2007 in 8 semi-annual installments, annual interest at 2.39%-3.20%	456,750	
Repayable from March 2007 in 12 quarterly installments, annual interest at 2.79%-3.16%	124,944	
Repayable from May 2007 in 16 quarterly installments, annual interest at 2.48%-2.85%	54,641	
Repayable from April 2005 in 16 quarterly installments, annual interest at 2.51%-2.85%	44,975	
Repayable from February 2005 in 17 quarterly installments, annual interest at 2.65%-4.53%	40,670	
Unsecured loans:		
Science Park Administration (SPA) SOC loan, repayable from October 2003 in 20 quarterly installments, interest-free	2,088	4,873
SPA DSP loan, repayable from July 2002 in 20 quarterly installments, interest-free		1,352
	2,003,009	658,096
Current portion	(280,813)	(4,137)
	\$ 1,722,196	\$ 653,959

Pursuant to the loan agreements, financial ratios calculated based on annual audited financial statements of TSMC-Shanghai as well as semi-annual and annual financial statements of Xintec must comply with certain financial covenants. As of December 31, 2007, TSMC-Shanghai and Xintec were in compliance with all such financial covenants.

Table of Contents

As of December 31, 2007, future principal repayments for the long-term bank loans were as follows:

Year of Repayment	Amount
2008	\$ 280,813
2009	302,090
2010	947,453
2011	220,653
2012 and thereafter	252,000
	\$ 2,003,009

16. OTHER LONG-TERM PAYABLES

	December 31	
	2007	2006
Payables for acquisition of property, plant and equipment (Note 281)	\$ 7,908,516	\$ 7,431,371
Payables for royalties	5,174,644	1,889,788
	13,083,160	9,321,159
Current portion (classified under accrued expenses and other current liabilities)	(3,673,182)	(617,892)
	\$ 9,409,978	\$ 8,703,267

The payables for royalties were primarily attributable to several license arrangements that TSMC entered into for certain semiconductor-related patents.

As of December 31, 2007, future payments for other long-term payables were as follows:

Year of Payment	Amount
2008	\$ 3,673,182
2009	582,027
2010	497,676
2011	421,759
2012 and thereafter	7,908,516
	\$ 13,083,160

17. PENSION PLANS

The Labor Pension Act (the Act) became effective on July 1, 2005. The employees of TSMC, GUC, and Xintec who were subject to the Labor Standards Law prior to July 1, 2005 were allowed to choose to be subject to the pension mechanism under the Act with their seniority as of July 1, 2005 retained or continue to be subject to the pension mechanism under the Labor Standards Law. Employees who joined TSMC, GUC, Xintec and Mutual-Pak after July 1, 2005 can only be subject to the pension mechanism under the Act.

Table of Contents

The pension mechanism under the Act is deemed a defined contribution plan. Pursuant to the Act, TSMC, GUC, Xintec and Mutual-Pak have made monthly contributions equal to 6% of each employee's monthly salary to employees' pension accounts starting from July 1, 2005. Furthermore, TSMC-NA, TSMC-Shanghai, TSMC-Europe and TSMC Canada are required by local regulations to make contributions at certain percentages of the monthly basic salary of their employees. Pursuant to the aforementioned Act and local regulations, the Company recognized pension costs of NT\$725,789 thousand and NT\$679,919 thousand for the years ended December 31, 2007 and 2006, respectively.

TSMC, GUC and Xintec have defined benefit plans under the Labor Standards Law that provide benefits based on an employee's length of service and average monthly salary for the six-month period prior to retirement. TSMC, GUC and Xintec contribute an amount equal to 2% of salaries paid each month to their respective pension funds (the Funds), which are administered by the pension fund monitoring committees (the Committees) and deposited in the name of the Committees in the Bank of Taiwan (originally the Central Trust of China, which was merged into the Bank of Taiwan on July 1, 2007).

Pension information on the defined benefit plans is summarized as follows:

a. Components of net periodic pension cost for the year

	2007	2006
Service cost	\$ 184,275	\$ 178,460
Interest cost	156,391	164,168
Projected return on plan assets	(51,309)	(49,399)
Amortization	35,853	12,096
Net periodic pension cost	\$ 325,210	\$ 305,325

b. Reconciliation of funded status of the plans and accrued pension cost at December 31, 2007 and 2006

	2007	2006
Benefit obligation		
Vested benefit obligation	\$ 120,146	\$ 102,920

Valuation allowance	(3,687,240)	(7,686,339)

\$ 7,313,283 \$ 5,802,142

As of December 31, 2007, the net operating loss carryforwards were generated by WaferTech, TSMC Development and TSMC Technology and would expire on various dates through 2026.

- 29 -

Table of Contents

d. Integrated income tax information:

The balance of the imputation credit account (ICA) of TSMC as of December 31, 2007 and 2006 was NT\$3,012,848 thousand and NT\$828,612 thousand, respectively.

The estimated creditable ratio for distribution of TSMC's earnings of 2007 and 2006 was 1.86% and 5.23%, respectively.

The imputation credit allocated to the shareholders is based on its balance as of the date of dividend distribution. The estimated creditable ratio may change when the actual distribution of imputation credit is made.

e. All of TSMC's earnings generated prior to December 31, 1997 have been appropriated.

f. As of December 31, 2007, investment tax credits of TSMC, GUC, Xintec and Mutual-Pak consisted of the following:

Law/Statute	Item	Total Creditable Amount	Remaining Creditable Amount	Expiry Year

Table of Contents**20. SHAREHOLDERS EQUITY**

As of December 31, 2007, 1,132,867 thousand ADSs of TSMC were traded on the NYSE. The number of common shares represented by the ADSs was 5,664,337 thousand (one ADS represents five common shares).

Capital surplus can only be used to offset a deficit under the Company Law. However, the capital surplus generated from donations and the excess of the issuance price over the par value of capital stock (including the stock issued for new capital, mergers, convertible bonds and the surplus from treasury stock transactions) may be appropriated as stock dividends, which are limited to a certain percentage of TSMC's paid-in capital.

Capital surplus consisted of the following:

	December 31	
	2007	2006
From merger	\$ 24,003,546	\$ 24,003,546
Additional paid-in capital	19,526,492	19,974,431
From convertible bonds	9,360,424	9,360,424
From treasury stock transactions	490,950	389,188
From long-term investments	351,215	379,854
Donations	55	55
	\$ 53,732,682	\$ 54,107,498

TSMC's Articles of Incorporation provide that, when allocating the net profits for each fiscal year, TSMC shall first offset its losses in previous years and then set aside the following items accordingly:

- a. Legal capital reserve at 10% of the profits left over, until the accumulated legal capital reserve has equaled TSMC's paid-in capital;
 - b. Special capital reserve in accordance with relevant laws or regulations or as requested by the authorities in charge;
 - c. Bonus to directors and bonus to employees of TSMC of not more than 0.3% and not less than 1% of the remainder, respectively. Directors who also serve as executive officers of TSMC are not entitled to receive the bonus to directors. TSMC may issue stock bonuses to employees of an affiliated company meeting the conditions set by the Board of Directors or, by the person duly authorized by the Board of Directors;
 - d. Any balance left over shall be allocated according to the resolution of the shareholders' meeting.
- TSMC's Articles of Incorporation also provide that profits of TSMC may be distributed by way of cash dividend and/or stock dividend. However, distribution of profits shall be made preferably by way of cash dividend. Distribution of profits may also be made by way of stock dividend; provided that the ratio for stock dividend shall not exceed 50% of the total distribution.

Any appropriations of the profits are recorded in the year of shareholder approval and given effect to in the financial statements of that year.

TSMC no longer has supervisors since January 1, 2007. The required duties of supervisors are being fulfilled by the Audit Committee.

Table of Contents

The appropriation for legal capital reserve shall be made until the reserve equals TSMC's paid-in capital. The reserve may be used to offset a deficit, or be distributed as dividends and bonuses for the portion in excess of 50% of the paid-in capital if TSMC has no unappropriated earnings and the reserve balance has exceeded 50% of TSMC's paid-in capital. The Company Law also prescribes that, when the reserve has reached 50% of TSMC's paid-in capital, up to 50% of the reserve may be transferred to capital.

A special capital reserve equivalent to the net debit balance of the other components of shareholders' equity (for example, cumulative translation adjustments and unrealized loss on financial assets, but excluding treasury stock) shall be made from unappropriated earnings pursuant to existing regulations promulgated by the Securities and Futures Bureau (SFB). Any special reserve appropriated may be reversed to the extent that the net debit balance reverses.

The appropriations of earnings for 2006 and 2005 had been approved in TSMC's shareholders' meetings held on May 7, 2007 and May 16, 2006, respectively. The appropriations and dividends per share were as follows:

	Appropriation of Earnings		Dividends Per Share (NT\$)	
	For Fiscal	For Fiscal	For	For
	Year 2006	Year 2005	Fiscal Year 2006	Fiscal Year 2005
Legal capital reserve	\$ 12,700,973	\$ 9,357,503		
Special capital reserve	(11,192)	(1,585,685)		
Bonus to employees in cash	4,572,798	3,432,129		
Bonus to employees in stock	4,572,798	3,432,129		
Cash dividends to shareholders	77,489,064	61,825,061	\$ 3.00	\$ 2.50
Stock dividends to shareholders	516,594	3,709,504	0.02	0.15
Bonus to directors and supervisors	285,800	257,410		
	\$ 100,126,835	\$ 80,428,051		

The shareholders' meeting held on May 7, 2007 also resolved to distribute stock dividends out of capital surplus in the amount of NT\$774,891 thousand.

The amounts of the appropriations of earnings for 2006 and 2005 were consistent with the resolutions of the meetings of the Board of Directors held on February 6, 2007 and February 14, 2006, respectively. If the above bonus to employees, directors and supervisors had been paid entirely in cash and charged to earnings of 2006 and 2005, the basic earnings per share (after income tax) for the years ended December 31, 2006 and 2005 shown in the respective financial statements would have decreased from NT\$4.93 to NT\$4.56 and NT\$3.79 to NT\$3.50, respectively. The shares distributed as a bonus to employees represented 1.77% and 1.39% of TSMC's total outstanding common shares as of December 31, 2006 and 2005, respectively.

As of January 10, 2008, the Board of Directors had not resolved the appropriation for earnings of 2007.

The information about the appropriations of bonus to employees, directors and supervisors is available at the Market Observation Post System website.

Under the Integrated Income Tax System that became effective on January 1, 1998, R.O.C. resident shareholders are allowed a tax credit for their proportionate share of the income tax paid by TSMC on earnings generated since January 1, 1998.

Table of Contents**21. STOCK-BASED COMPENSATION PLANS**

TSMC's Employee Stock Option Plans, under the TSMC 2004 Plan, TSMC 2003 Plan, and TSMC 2002 Plan, were approved by the SFB on January 6, 2005, October 29, 2003 and June 25, 2002, respectively. The maximum number of options authorized to be granted under the TSMC 2004 Plan, TSMC 2003 Plan and TSMC 2002 Plan was 11,000 thousand, 120,000 thousand and 100,000 thousand, respectively, with each option eligible to subscribe for one common share when exercisable. The options may be granted to qualified employees of TSMC or any of its domestic or foreign subsidiaries, in which TSMC's shareholding with voting rights, directly or indirectly, is more than fifty percent (50%). The options of all the plans are valid for ten years and exercisable at certain percentages subsequent to the second anniversary of the grant date. Under the terms of the plans, the options are granted at an exercise price equal to the closing price of TSMC's common shares listed on the TSE on the grant date.

Options of the plans that had never been granted or had been granted but subsequently cancelled had expired as of December 31, 2007.

Information about TSMC's outstanding options for the years ended December 31, 2007 and 2006 was as follows:

	Number of Options (in Thousands)	Weighted- average Exercise Price (NT\$)
Year ended December 31, 2007		
Balance, beginning of year	52,814	\$ 37.9
Options granted	1,094	37.9
Options exercised	(10,988)	39.8
Options cancelled	(1,045)	45.9
Balance, end of year	41,875	37.4
Year ended December 31, 2006		
Balance, beginning of year	67,758	\$ 39.4
Options granted	2,758	40.1
Options exercised	(14,550)	40.1
Options cancelled	(3,152)	43.7
Balance, end of year	52,814	39.6

The number of outstanding options and exercise prices have been adjusted to reflect the appropriations of earnings in accordance with the plans. The options granted were the result of the aforementioned adjustment.

Table of Contents

As of December 31, 2007, information about TSMC's outstanding and exercisable options was as follows:

Range of Exercise Price (NT\$)	Options Outstanding			Options Exercisable	
	Number of Options (in Thousands)	Weighted-average Remaining Contractual Life (Years)	Weighted-average Exercise Price (NT\$)	Number of Options (in Thousands)	Weighted-average Exercise Price (NT\$)
\$25.9 - \$36.4	28,527	5.16	\$33.1	28,528	\$33.1
38.9 - 51.3	13,348	6.89	46.6	6,838	46.4
	41,875		37.4	35,366	35.6

GUC's Employee Stock Option Plans, consisting of the GUC 2003 Plan and GUC 2002 Plan, were approved by its Board of Directors on January 23, 2003 and July 1, 2002, respectively. The maximum number of options authorized to be granted under the GUC 2003 Plan and GUC 2002 Plan was 7,535 and 5,000, respectively, with each option eligible to subscribe for one thousand common shares when exercisable. The options may be granted to qualified employees of GUC. The options of all the plans are valid for six years and exercisable at certain percentages subsequent to the second anniversary of the grant date.

Moreover, the GUC 2007 Plan, GUC 2006 Plan, and GUC 2004 Plan were approved by the SFB on November 28, 2007, July 3, 2006, and August 16, 2004 to grant a maximum of 1,999 options, 3,665 options and 2,500 options, respectively, with each option eligible to subscribe for one thousand common shares when exercisable. The options may be granted to qualified employees of GUC or any of its subsidiaries. Except for the options of the GUC 2006 Plan which are valid until August 15, 2011, the options of the other two GUC option Plans are valid for six years. Options of all three Plans are exercisable at certain percentages subsequent to the second anniversary of the grant date.

Information about GUC's outstanding options for the years ended December 31, 2007 and 2006 was as follows:

	Number of Options	Weighted-average Exercise Prices (NT\$)
Year ended December 31, 2007		
Balance, beginning of year	7,342	\$ 14.0
Options granted	2,053	183.6
Options exercised	(1,563)	10.2
Options cancelled	(234)	13.5
Balance, end of year	7,598	60.3

Year ended December 31, 2006

Balance, beginning of year	7,132	\$ 10.7
Options granted	3,689	19.5
Options exercised	(2,862)	10.5
Options cancelled	(617)	12.1
Balance, end of year	7,342	14.0

- 35 -

Table of Contents

The number of outstanding options and exercise prices have been adjusted to reflect the distribution of earnings by GUC in accordance with the plans. The options granted shown above included options resulting from the aforementioned adjustment and options newly granted in accordance with the plans.

As of December 31, 2007, information about GUC's outstanding and exercisable options was as follows:

Range of Exercise Price (NT\$)	Number of Options	Options Outstanding		Options Exercisable	
		Weighted- average Remaining Contractual Life (Years)	Weighted- average Exercise Price (NT\$)	Number of Options	Weighted- average Exercise Price (NT\$)
\$9.6 - \$10.5	2,247	0.58 - 3.75	\$ 10.0	850	\$10.2
17.7	3,418	3.67	17.7		
194.0	1,933	6.00	194.0		
	7,598		60.3	850	10.2

Xintec's Employee Stock Option Plans, consisting of the Xintec 2007 Plan and Xintec 2006 Plan, were approved by the SFB on June 26, 2007 and July 3, 2006, respectively. The maximum number of options authorized to be granted under the Xintec 2007 Plan and Xintec 2006 Plan was 6,000 thousand each, with each option eligible to subscribe for one common share of Xintec when exercisable. The options may be granted to qualified employees of Xintec or any of its subsidiaries. The options of all the plans are valid for ten years and exercisable at certain percentages subsequent to the second anniversary of the grant date.

Information about Xintec's outstanding options for the year ended December 31, 2007 was as follows:

	Number of Options (in Thousands)	Weighted- average Exercise Price (NT\$)
Year ended December 31, 2007		
Balance, beginning of year	4,968	\$ 13.0
Options granted	5,555	17.3
Options cancelled	(881)	14.1
Balance, end of year	9,642	15.1

The number of outstanding options and exercise prices have been adjusted to reflect the distribution of earnings by Xintec in accordance with the plans.

As of December 31, 2007, information about Xintec's outstanding and exercisable options was as follows:

Range of Exercise Price (NT\$)	Number of Options (in Thousands)	Options Outstanding	Weighted- average	Weighted- average	Options Exercisable	Weighted- average
		Remaining Contractual Life (Years)	Exercise Price (NT\$)	Exercise Price (NT\$)	Number of Options (in Thousands)	Exercise Price (NT\$)
\$12.7 \$20.0	9,642	8.75-9.96	\$15.1			\$

Table of Contents

No compensation cost was recognized under the intrinsic value method for the years ended December 31, 2007 and 2006. Had the Company used the fair value based method to evaluate the options granted after January 1, 2004 using the Black-Scholes model, the assumptions and pro forma results of the Company would have been as follows:

		2007		2006	
Assumptions:					
TSMC	Expected dividend yield	1.00%	3.44%	1.00%	3.44%
	Expected volatility	43.77%	46.15%	43.77%	46.15%
	Risk free interest rate	3.07%	3.85%	3.07%	3.85%
	Expected life	5 years		5 years	
GUC	Expected dividend yield	0.00%	0.60%		
	Expected volatility	22.65%	45.47%	22.65%	41.74%
	Risk free interest rate	2.12%	2.56%	2.23%	2.56%
	Expected life	3 6 years		3 6 years	
Xintec	Expected dividend yield	0.80%			
	Expected volatility	31.79%	47.42%		
	Risk free interest rate	1.88% 2.45%			
	Expected life	3 years			
Net income attributable to shareholders of the parent:					
As reported		\$109,177,093		\$127,009,731	
Pro forma		109,089,016		126,887,247	
Earnings per share (EPS) after income tax (NT\$):					
Basic EPS as reported		\$4.14		\$4.82	
Pro forma basic EPS		4.14		4.81	
Diluted EPS as reported		4.14		4.81	
Pro forma diluted EPS		4.14		4.81	

22. TREASURY STOCK

(Shares in Thousands)

	Beginning Shares	Addition	Stock Dividends	Ending Shares
Year ended December 31, 2007				
Parent company stock held by subsidiaries	33,926		170	34,096
Repurchase under share buyback plan		800,000		800,000
	33,926	800,000	170	834,096
Year ended December 31, 2006				
Parent company stock held by subsidiaries	32,938		988	33,926

As of December 31, 2007 and 2006, the book value of the treasury stock was NT\$49,385,032 thousand and NT\$918,075 thousand, respectively; the market value was NT\$51,713,947 thousand and NT\$2,290,026 thousand, respectively. The Company's common shares held by subsidiaries were treated as treasury stock and the holders are entitled to the rights of shareholders, with the exception of voting rights.

- 37 -

Table of Contents

TSMC held a meeting of the Board of Directors and approved a share buyback plan to repurchase TSMC's common shares up to 800,000 shares listed on the TSE during the period from November 14, 2007 to January 13, 2008 for the buyback price in the range from NT\$43.2 to NT\$94.2. As of December 31, 2007, TSMC had repurchased 800,000 thousand common shares for a total cost of NT\$48,466,957 thousand. All the treasury stock repurchased will be retired in 2008.

23. EARNINGS PER SHARE

	Years Ended December 31			
	2007		2006	
	Before Income Tax	After Income Tax	Before Income Tax	After Income Tax
Basic EPS (NT\$)				
Income before cumulative effect of changes in accounting principles attributable to shareholders of the parent	\$ 4.59	\$ 4.14	\$ 5.05	\$ 4.76
Cumulative effect of changes in accounting principles attributable to shareholders of the parent			0.06	0.06
Income attributable to shareholders of the parent	\$ 4.59	\$ 4.14	\$ 5.11	\$ 4.82
Diluted EPS (NT\$)				
Income before cumulative effect of changes in accounting principles attributable to shareholders of the parent	\$ 4.58	\$ 4.14	\$ 5.04	\$ 4.75

Table of Contents**24. DISCLOSURES FOR FINANCIAL INSTRUMENTS**

a. Fair values of financial instruments were as follows:

	December 31			
	2007		2006	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Assets				
Financial assets at fair value through profit or loss	\$ 1,632,387	\$ 1,632,387	\$ 1,206,854	\$ 1,206,854
Available-for-sale financial assets	68,089,059	68,089,059	74,172,343	74,172,343
Held-to-maturity financial assets	20,224,672	20,192,188	37,484,318	37,375,517
Liabilities				
Financial liabilities at fair value through profit or loss	249,313	249,313	10,864	10,864
Bonds payable (including current portion)	12,500,000	12,669,987	19,500,000	19,817,149
Long-term bank loans (including current portion)	2,003,009	2,003,009	658,096	658,096
Other long-term payables (including current portion)	13,083,160	13,083,160	10,413,125	10,413,125
Obligations under capital leases	652,296	652,296	612,941	612,941

b. Methods and assumptions used in estimating fair values of financial instruments

- 1) The aforementioned financial instruments do not include cash and cash equivalents, receivables, other financial assets, payables, and payables to contractors and equipment suppliers. The carrying amounts of these financial instruments approximate their fair values due to their short maturities.
- 2) Fair values of financial assets at fair value through profit or loss, available-for-sale and held-to-maturity financial assets other than derivatives and structured time deposits were based on their quoted market prices.
- 3) Fair values of derivatives and structured time deposits were determined using valuation techniques incorporating estimates and assumptions that were consistent with prevailing market conditions.
- 4) Fair value of bonds payable was based on their quoted market price.
- 5) Fair values of long-term bank loans, other long-term payables and obligations under capital leases were based on the present value of expected cash flows, which approximate their carrying amounts.

c. The changes in fair value during the years ended December 31, 2007 and 2006 of financial assets/liabilities at fair value through profit or loss, including derivatives estimated using valuation techniques and publicly-traded stocks, were recognized as losses of NT\$240,847 thousand and gains of NT\$33,737 thousand, respectively.

- d. As of December 31, 2007 and 2006, financial assets exposed to fair value interest rate risk were NT\$87,450,676 thousand and NT\$111,492,332 thousand, respectively; financial liabilities exposed to fair value interest rate risk were NT\$249,313 thousand and NT\$10,864 thousand, respectively. As of December 31, 2006, financial assets exposed to cash flow interest rate risk were NT\$7,171,120 thousand.

- 39 -

Table of Contents

- e. Movements of the unrealized gain/loss on financial instruments for the years ended December 31, 2007 and 2006 were as follows:

	Year Ended December 31, 2007		
	Valuation Gain on Available- for-sale Financial Assets	Equity in Valuation Gain on Available- for-sale Financial Assets Held by Investees	Total
Balance, beginning of year	\$ 386,017	\$ 175,598	\$ 561,615
Recognized directly in shareholders' equity	849,823	(122,439)	727,384
Removed from shareholders' equity and recognized in earnings	(608,002)		(608,002)
Balance, end of year	\$ 627,838	\$ 53,159	\$ 680,997

	Year Ended December 31, 2006

- f. Information about financial risk

1) Market risk. The publicly-traded stocks categorized as financial assets at fair value through profit or loss are exposed to market price fluctuations. The derivative financial instruments categorized as financial assets/liabilities at fair value through profit or loss are mainly used to hedge the exchange rate fluctuations of foreign-currency assets and liabilities; therefore, the market risk of derivatives will be offset by the foreign exchange risk of these hedged items. Available-for-sale financial assets held by the Company are mainly fixed-interest-rate debt securities; therefore, the fluctuations in market interest

rates would result in changes in fair value of these debt securities.

- 2) Credit risk. Credit risk represents the potential loss that would be incurred by the Company if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties to the foregoing financial instruments are reputable financial institutions, business organizations, and government agencies. Management believes that the Company's exposure to default by those parties is low.

- 40 -

Table of Contents

- 3) Liquidity risk. The Company has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments, bonds payable and bank loans. Therefore, the liquidity risk is low.
- 4) Cash flow interest rate risk. The Company mainly invests in fixed-interest-rate debt securities. Therefore, cash flows are not expected to fluctuate significantly due to changes in market interest rates.

25. RELATED PARTY TRANSACTIONS

Except as disclosed in the consolidated financial statements and other notes, the following is a summary of significant related party transactions:

- a. Philips, one of the major shareholders of TSMC, which has become a non-related party since March, 2007.
- b. Investees of TSMC
- VIS (accounted for using equity method)
SSMC (accounted for using equity method)
- c. VisEra Technology Company, Ltd. (VisEra), an indirect investee accounted for using equity method by TSMC
- d. Others: Related parties over which the Company exercises significant influence but with which the Company had no material transactions

Deferred credits				
VisEra	\$	62,175	1	\$ 124,350 11

The terms of sales to related parties were not significantly different from those of sales to third parties. For other related party transactions, prices were determined in accordance with mutual agreements.

TSMC deferred the gains (classified under deferred credits) derived from sales of property, plant and equipment to VisEra, and then recognized such gains (classified under the non-operating income and gains) over the depreciable lives of the disposed assets.

TSMC leased certain buildings and facilities to VisEra. The related rental income was classified under non-operating income. The lease terms and prices were determined in accordance with mutual agreements.

- 42 -

Table of Contents**26. PLEDGED OR MORTGAGED ASSETS**

The Company provided certain assets as collateral mainly for long-term bank loans and land lease agreements, which were as follows:

	December 31	
	2007	2006
Other financial assets	\$ 48,929	\$ 52,858
Property, plant and equipment, net	5,733,263	4,293,595
	\$ 5,782,192	\$ 4,346,453

27. SIGNIFICANT LONG-TERM LEASES

The Company leases several parcels of land and office premises from the SPA and Jhongli Industrial Park Service Center. These operating leases expire on various dates from March 2008 to December 2027 and can be renewed upon expiration.

The Company entered into lease agreements for its office premises and certain equipment located in the United States, Japan, Shanghai and Taiwan. These operating leases expire between 2008 and 2016 and can be renewed upon expiration.

As of December 31, 2007, future lease payments were as follows:

Year	Amount
2008	\$ 556,943
2009	544,866
2010	458,770
2011	319,274
2012 and thereafter	2,582,888
	\$ 4,462,741

28. SIGNIFICANT COMMITMENTS AND CONTINGENCIES

Significant commitments and contingencies of the Company as of December 31, 2007, excluding those disclosed in other notes, were as follows:

- a. On June 20, 2004, TSMC and Philips (Philips parted with its semiconductor company which was renamed as NXP B.V. in September 2006) amended the Technical Cooperation Agreement, which was originally signed on May 12, 1997. The amended Technical Cooperation Agreement is for five years beginning from January 1, 2004. Upon expiration, this amended Technical Cooperation Agreement will be terminated and will not be automatically renewed; however, the patent cross license arrangement between TSMC and Philips (now NXP B.V.) will survive the expiration of the amended Technical Cooperation Agreement. Under this amended Technical Cooperation Agreement, TSMC will pay Philips (now NXP B.V.) royalties based on a fixed amount mutually agreed-on, rather than under a certain percentage of TSMC's annual net sales. TSMC and Philips (now NXP B.V.) agreed to cross license the patents owned by each party. TSMC also obtained through Philips (now NXP B.V.) a number of cross patent licenses.

Table of Contents

- b. Under a technical cooperation agreement with ITRI, the R.O.C. Government or its designee approved by TSMC can use up to 35% of TSMC's capacity if TSMC's outstanding commitments to its customers are not prejudiced. The term of this agreement is for five years beginning from January 1, 1987 and is automatically renewed for successive periods of five years unless otherwise terminated by either party with one year prior notice. The agreement was automatically renewed in 1992, 1997, 2002 and on January 1, 2007.
- c. Under several foundry agreements, TSMC shall reserve a portion of its production capacity for certain major customers that have guarantee deposits with TSMC. As of December 31, 2007, TSMC had a total of US\$68,391 thousand of guarantee deposits.
- d. Under a Shareholders Agreement entered into with Philips and EDB Investments Pte Ltd. on March 30, 1999, the parties formed a joint venture company, SSMC, which is an integrated circuit foundry in Singapore. TSMC's equity interest in SSMC was 32%. Nevertheless, Philips parted with its semiconductor company which was renamed as NXP B.V. in September 2006. TSMC and NXP B.V. purchased all the SSMC shares owned by EDB Investments Pte Ltd. pro rata according to the Shareholders Agreement on November 15, 2006. After the purchase, TSMC and NXP B.V. currently own approximately 39% and 61% of the SSMC shares respectively. The Company and Philips (now NXP) committed to buy specific percentages of the production capacity of SSMC. TSMC and Philips (now NXP B.V.) are required, in the aggregate, to purchase up to 70% of SSMC's capacity, but TSMC alone is not required to purchase more than 28% of the capacity. If any party defaults on the commitment and the capacity utilization of SSMC fall below a specific percentage of its capacity, the defaulting party is required to compensate SSMC for all related unavoidable costs.
- e. TSMC provides technical services to SSMC under a Technical Cooperation Agreement (the Agreement) entered into on May 12, 1999. TSMC receives compensation for such services computed at a specific percentage of net selling price of all products sold by SSMC. The Agreement shall remain in force for ten years and may be automatically renewed for successive periods of five years each unless pre-terminated by either party under certain conditions.
- f. Under a Technology Transfer Agreement (TTA) with National Semiconductor Corporation (National) entered into on June 27, 2000, TSMC shall receive payments for the licensing of certain technology to National. The agreement was to remain in force for ten years and could be automatically renewed for successive periods of two years thereafter unless either party gives written notice for early termination under certain conditions. In January 2003, TSMC and National entered into a Termination Agreement whereby the TTA was terminated. Under the Termination Agreement, TSMC will be relieved of any further obligation to transfer any additional technology. In addition, TSMC granted National an option to request prior to January 2008 the transfer of certain technologies under the same terms and conditions as the terminated TTA. National did not make such request by the deadline, therefore the option has expired in January 2008.
- g. In December 2003, TSMC entered into a Technology Development and License Agreement with Freescale Semiconductor, Inc. to jointly develop 65-nm SOI (silicon on insulator) technology. TSMC will also license related 90-nm SOI technology from Freescale Semiconductor, Inc. Any intellectual properties arising out of the co-development project shall be jointly owned by the parties. In accordance with the agreement, TSMC will pay royalties to Freescale Semiconductor, Inc. and will share a portion of the costs associated with the joint development project.
- h. TSMC provides a technology transfer to VIS under a Manufacturing License and Technology Transfer Agreement entered into on April 1, 2004. TSMC receives compensation for such technology transfer in the form of royalty payments from VIS computed at specific percentages of net selling price of certain products sold by VIS. VIS agreed to reserve its certain capacity to manufacture for TSMC certain products at prices as

Table of Contents

- i. Effective January 1, 2006, The Company entered into the Joint Technology Cooperation Agreement with Philips (now NXP B.V.), Freescale Semiconductor, Inc. and STMicroelectronics to jointly develop 45-nm and beyond advanced CMOS Logic and e-DRAM technologies. The Company will contribute process technologies and share a portion of the costs associated with this joint development project. This agreement was to expire on December 31, 2008, but the Company has ended its participation in the project. For the Company, this agreement will terminate as of January 26, 2008.
- j. TSMC, TSMC-North America and WaferTech filed a series of lawsuits in late 2003 and 2004 against Semiconductor Manufacturing International Corporation, SMIC (Shanghai) and SMIC Americas (aggregately referring to as SMIC). The lawsuits alleged that SMIC infringed multiple TSMC, TSMC-North America and WaferTech patents and misappropriated TSMC, TSMC-North America and WaferTech's trade secrets. These suits were settled out of court on January 30, 2005. As part of the settlement, Semiconductor Manufacturing International Corporation shall pay US\$175 million over six years to resolve TSMC, TSMC-North America and WaferTech's claims. As of December 31, 2007, SMIC had paid US\$90 million in accordance with the terms of this settlement agreement. In August 2006, TSMC, TSMC-North America and WaferTech filed a lawsuit against SMIC in Alameda County Superior Court in California for breach of aforementioned settlement agreement, breach of promissory notes and trade secret misappropriation, seeking injunctive relief and monetary damages. In September 2006, SMIC filed a cross-complaint against TSMC, TSMC-North America and WaferTech in the same court, alleging TSMC, TSMC-North America and WaferTech of breach of the settlement agreement and implied covenant of good faith and fair dealing, in response to TSMC, TSMC-North America and WaferTech's August complaint. In November 2006, SMIC filed a complaint with Beijing People's High Court against TSMC, TSMC-North America and WaferTech alleging defamation and breach of good faith. The California State Superior Court of Alameda County issued an Order on TSMC, TSMC-North America and WaferTech's pre-trial motion for a preliminary injunction against SMIC on September 7, 2007. In the Order, the Court found TSMC has demonstrated a significant likelihood that it will ultimately prevail on the merits of its claim for breach of certain paragraphs of the (2005) Settlement Agreement with SMIC. The Court also found TSMC has demonstrated a significant probability of establishing that SMIC retains and is using TSMC Information in SMIC's 0.13um and smaller technologies, and there is significant threat of serious irreparable harm to TSMC if SMIC were to disclose or transfer that information before final resolution of the case. Therefore, the Court ordered that, effective immediately, SMIC must provide advance notice and an opportunity for TSMC, TSMC-North America and WaferTech to object before disclosing items enumerated in the Court Order to SMIC's third party partners. The Court, however, did not grant a preliminary injunction as requested by TSMC, TSMC-North America and WaferTech. The result of the above-mentioned litigation cannot be determined at this time.
- k. In April 2004, UniRAM Technology, Inc. filed an action with the US District Court in the Northern District of California against TSMC and TSMC North America, alleging patent infringement and trade secret misappropriation and seeking injunctive relief and damages. A jury in the District Court made a verdict in September 2007, awarding US\$30.5 million to the plaintiff. TSMC intends to pursue remedies against this verdict.
- l. TSMC-Shanghai entered into an agreement with a certain foreign company. In accordance with the agreement, TSMC-Shanghai is obligated to purchase certain property, plant and equipment at the agreed-upon price within the contract period. If the purchase is not completed, TSMC-Shanghai is obligated to compensate the counterparty for the loss incurred.
- m. Amounts available under unused letters of credit as of December 31, 2007 were NT\$36,589 thousand.

Table of Contents

29. ADDITIONAL DISCLOSURES

Following are the additional disclosures required by the SFB for TSMC and its investees:

- a. Financing provided: None;
- b. Endorsement/guarantee provided: None;
- c. Marketable securities held: Please see Table 1 attached;
- d. Marketable securities acquired and disposed of at costs or prices of at least NT\$100 million or 20% of the paid-in capital: Please see Table 2 attached;
- e. Acquisition of individual real estate properties at costs of at least NT\$100 million or 20% of the paid-in capital: Please see Table 3 attached;
- f. Disposal of individual real estate properties at prices of at least NT\$100 million or 20% of the paid-in capital: None;
- g. Total purchases from or sales to related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Please see Table 4 attached;
- h. Receivable from related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Please see Table 5 attached;
- i. Names, locations, and related information of investees over which TSMC exercises significant influence: Please see Table 6 attached;
- j. Information on investment in Mainland China
 - 1) The name of the investee in mainland China, the main businesses and products, its issued capital, method of investment, information on inflow or outflow of capital, percentage of ownership, equity in the net gain or net loss, ending balance, amount received as dividends from the investee, and the limitation on investee: Please see Table 7 attached.
 - 2) Significant direct or indirect transactions with the investee, its prices and terms of payment, unrealized gain or loss, and other related information which is helpful to understand the impact of investment in mainland China on financial reports: Please see Table 8 attached.
- k. Intercompany relationships and significant intercompany transactions: Please see Table 8 attached.

30. SEGMENT FINANCIAL INFORMATION

- a. Industry financial information
The Company is engaged mainly in the manufacturing, selling, packaging and testing of integrated circuits. Therefore, the disclosure of industry financial information is not applicable to the Company.
