SIMCERE PHARMACEUTICAL GROUP REPORTS UNAUDITED FIRST QUARTER 2009 RESULTS

**Company announces agreement to acquire stake in
antibody producer Shanghai Celgen Bio-Pharmaceutical Co., Ltd.**

NANJING, CHINA, May 19, 2009 Sincere Pharmaceutical Group (Sincere or the Company) (NYSE: SCR), a leading manufacturer and supplier of branded generic and innovative pharmaceuticals in China, today reported unaudited financial results for the quarter ended March 31, 2009.

Highlights

- ² **Total revenue** increased to RMB442.5 million (US\$64.8 million) for the first quarter of 2009 from RMB394.6 million for the corresponding period in 2008, representing 12.1% year-over-year growth.
- ² **Income from operations** was RMB61.1 million (US\$8.9 million) for the first quarter of 2009, a decrease of 38.4% from RMB99.2 million for the corresponding period in 2008.
- ² **Net income attributable to Sincere** was RMB48.2 million (US\$7.1 million) for the first quarter of 2009, representing a 57.0% year-over-year decrease.
- ² **Gross margin** for the first quarter of 2009 was 82.5%, compared to 83.2% for the corresponding period in 2008. Mr. Jinsheng Ren, Chairman and Chief Executive Officer of Sincere Pharmaceutical Group, commented: We saw solid growth in our total revenue this quarter. Sales of our edaravone injection products, the single largest contributor to our total revenue, continued to grow, while the sales performance of Endu remained a challenge. Elsewhere in our portfolio, the growth of Sinofuan and our other branded generics was encouraging. Mr. Ren continued, We are excited to announce today our partnership with Shanghai Celgen, a developer and producer of antibodies. Following our recent agreement with Epitomics, this is an important step forward in developing Sincere s strategic focus in the area of biopharmaceuticals. Looking forward, we will continue to seek investment and cooperation opportunities to enrich our pipeline for Sincere s mid to long term growth. Sincere announced today that it has signed an agreement to indirectly acquire approximately 35.1% of the equity of Shanghai Celgen Bio-Pharmaceutical Co., Ltd. (Shanghai Celgen), through the 100% acquisition of Pearl Ocean Holdings Limited (Pearl) for a total cash sum of RMB140 million, of which RMB30 million will be applied towards the repayment of indebtedness. Shanghai Celgen has strong expertise in research and production of therapeutic antibodies and possesses an antibody manufacturing facility in Shanghai, for which GMP certification is pending. Shanghai Celgen s major biogeneric drug candidate, an etanercept, has completed clinical trials and is currently awaiting approval from the PRC State Food and Drug Administration (SFDA). In addition, Sincere is entitled to unwind the acquisition and have returned the amounts it has paid if the SFDA does not approve Shanghai Celgen s major biogeneric drug candidate within 24 months from the date of agreement. The agreement is subject to certain closing conditions. In December 2008, Sincere signed an agreement with Epitomics, Inc., to collaborate on the co-development and production of monoclonal antibodies for the treatment of multiple tumors.

2009 First Quarter Financial Results

Total revenue for the first quarter of 2009 was RMB442.5 million (US\$64.8 million), an increase of 12.1% from RMB394.6 million for the corresponding period in 2008.

Table of Contents

Revenue from Endu, the Company's patented anti-cancer biotech product, totaled RMB36.5 million (US\$5.3 million) in the first quarter of 2009, representing 8.4% of the Company's product revenue for the quarter and a decrease of 42.8% from RMB63.8 million for the corresponding period in 2008.

Revenue from edaravone injection products under the brand names Bicun and Yidasheng totaled RMB159.6 million (US\$23.4 million) in the first quarter of 2009, representing 36.5% of the Company's product revenue for the quarter and an increase of 5.0% from RMB152.0 million for the corresponding period in 2008.

Revenue from other first-to-market products, Jiebaishu, a nedaplatin product, Sinofuan, a 5-FU sustained release implant for the treatment of cancer, and Anxin, a biapenem injection for the treatment of serious infections launched in the fourth quarter of 2008, totaled RMB32.8 million (US\$4.8 million) in the first quarter of 2009.

Revenue from other branded generic products totaled RMB207.7 million (US\$30.4 million) in the first quarter of 2009, representing 47.6% of the Company's product revenue for the quarter and an increase of 19.5% from RMB173.8 million for the corresponding period in 2008.

Gross margin for the first quarter of 2009 was 82.5%, compared to 83.2% for the corresponding period in 2008.

Research and development expenses for the first quarter of 2009 totaled RMB25.0 million (US\$3.7 million), an increase of 40.9% from RMB17.8 million for the corresponding period in 2008. The increase was primarily due to the recognition of an upfront payment to Epitomics Inc. under the agreement for the co-development and production of humanized rabbit monoclonal antibody therapeutics for multiple tumors. As a percentage of total revenue, research and development expenses were 5.7% for the first quarter of 2009, compared to 4.5% for the corresponding period in 2008.

Sales marketing and distribution expenses for the first quarter of 2009 were RMB219.8 million (US\$32.2 million), an increase of 33.6% from RMB164.5 million for the corresponding period in 2008. As a percentage of total revenue, sales, marketing and distribution expenses were 49.7% for the first quarter of 2009, compared to 41.7% for the corresponding period in 2008. The increase was primarily due to reduced sales and marketing activities in the first quarter of 2008 due to the severe snow storm in China during that period, and the expansion of the sales and promotion team in the first quarter of 2009.

General and administrative expenses were RMB59.3 million (US\$8.7 million) for the first quarter of 2009, an increase of 26.1% from RMB47.0 million for the corresponding period in 2008. As a percentage of total revenue, general and administrative expenses increased to 13.4% for the first quarter of 2009 from 11.9% for the corresponding period in 2008. The increase was primarily due to increased administrative headcount and increased travel and conference activities.

Share-based compensation expenses, which were allocated to research and development expenses, sales, marketing and distribution expenses, and general and administrative expenses, based on the nature of the work that the Company's employees were assigned to perform, totaled RMB6.3 million (US\$0.9 million) for the first quarter of 2009. Share-based compensation expenses for the first quarter of 2008 were RMB7.0 million.

Income from operations was RMB61.1 million (US\$8.9 million) for the first quarter of 2009, a decrease of 38.4% from RMB99.2 million for the corresponding period in 2008.

Income tax expense for the first quarter of 2009 totaled RMB7.6 million (US\$1.1 million), compared to RMB16.8 million for the corresponding period in 2008. The decreased income tax expense for the first quarter of 2009 was primarily due to the lower taxable income for the first quarter of 2009. The effective tax rates for the first quarters of 2009 and 2008 remained stable.

Net income attributable to Simcere was RMB48.2 million (US\$7.1 million) for the first quarter of 2009, compared to RMB112.1 million for the corresponding period in 2008. Net income margin was 10.9% for the first quarter of 2009, compared to 28.4% for the first quarter of 2008.

Basic and diluted earnings per share for the first quarter of 2009 were RMB0.40 (US\$0.06). One American Depository Share (ADS) represents two ordinary shares of the Company. Basic and diluted earnings per ADS for the

Table of Contents

first quarter of 2009 were RMB0.80 (US\$0.12).

As of March 31, 2009, the Company had **cash, cash equivalents and restricted cash** of RMB 825.5 million (US\$120.8 million), compared to RMB813.8 million as of December 31, 2008.

On January 6, 2009, the Company completed an acquisition of the remaining 10% of the outstanding shares of Shandong Simcere Medgenn Bio-Pharmaceutical Co., Ltd. (Shandong Simcere) for a cash consideration of approximately RMB30.1 million (US\$4.4 million). Following the acquisition, Shandong Simcere became a wholly-owned subsidiary of the Company.

Subsequent event

On April 15, 2009, the compensation committee of the Company s board of directors approved a share option exchange program that offered the Company s eligible employees and directors the right to exchange vested and unvested outstanding share options to purchase ordinary shares of the Company under the 2006 Share Incentive Plan for restricted shares of the Company. The exchange ratio was determined based on the fair value of replacement restricted shares so that the fair value of the replacement restricted shares to be issued upon exchange would be approximately equivalent to the fair value of the share options surrendered by an individual. In addition, these replacement restricted shares are subject to substantially the same vesting schedule as the options that are validly tendered in the exchange offer. The exchange of the share option awards for restricted shares was accounted for as a modification for awards which involves a cancellation of the original award and an issuance of a new award. The replacement restricted shares were granted on May 7, 2009. Management does not expect the effect of this award modification on share-based compensation expense over the remaining requisite service period to be significant. This exchange program is expected to provide additional incentive and retention value.

Financial Statements

The unaudited consolidated condensed statements of income and balance sheets accompanying this press release have been prepared by management using U.S. GAAP. These financial statements are not intended to fully comply with U.S. GAAP because they do not present all of the disclosures required by U.S. GAAP.

Safe Harbor Statement

This press release contains forward-looking statements. These statements constitute forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as anticipate, believe, estimate, expect, forecast, intend, may, plan, project, predict, should expressions. In particular, the quotations from management in this press release and the section under Financial Outlook contain forward-looking statements. These forward looking statements are based upon management s current views and expectations with respect to future events and are not a guarantee of future performance. Furthermore, these statements are, by their nature, subject to a number of risks and uncertainties that could cause actual performance and results to differ materially from those discussed in the forward-looking statements as a result of a number of factors. Further information regarding these and other risks is included in Simcere s filing with the U.S. Securities and Exchange Commission at www.sec.gov. Simcere does not undertake any obligation to update any forward-looking statement, except as required under applicable law.

Conference Call
