SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 6-K
REPORT OF FOREIGN ISSUER
Pursuant to Rule 13a-16 or 15d-16 of the
Securities Exchange Act of 1934
For the period commencing September 11, 2007 through October 15, 2007

KONINKLIJKE PHILIPS ELECTRONICS N.V.

(Exact name of registrant as specified in its charter)

Royal Philips Electronics

(Translation of registrant's name into English)

The Netherlands

(Jurisdiction of incorporation or organization)

Breitner Center, Amstelplein 2, 1096 BC Amsterdam, The Netherlands

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

Name and address of person authorized to receive notices
and communications from the Securities and Exchange Commission:

E.P. Coutinho

Koninklijke Philips Electronics N.V.

Amstelplein 2

1096 BC Amsterdam The Netherlands

This report comprises a copy of the *Quarterly Report of the Philips Group* for the three months ended September 30, 2007 and a copy of each of following press releases entitled:

Philips CFO confirms Philips strategic direction at Credit Suisse conference in London , dated September 12, 2007;

Philips sells entire stake in US-based Nuance Communications , dated September 13, 2007;

Philips appoints Maarten de Vries as Chief Information Officer , dated September 19, 2007;

Philips sets target to double sales from Green Products to 30% of total revenues within five years , dated September 25, 2007;

Philips updates market on lighting sector and innovation activities , dated September 28, 2007;

Philips lowers its stake in LG.Philips LCD to 19.9% , dated October 10, 2007;

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf, by the undersigned, thereunto duly authorized at Amsterdam, on the 15th day of October 2007.

KONINKLIJKE PHILIPS ELECTRONICS N.V.

/s/ E.P. Coutinho
(General Secretary)

Forward-looking statements

This document contains certain forward-looking statements with respect to the financial condition, results of operations and business of Philips and certain of the plans and objectives of Philips with respect to these items, in particular the outlook paragraph in this report. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements. These factors include, but are not limited to, levels of consumer and business spending in major economies, changes in consumer tastes and preferences, changes in law, the performance of the financial markets, pension costs, the levels of marketing and promotional expenditures by Philips and its competitors, raw materials and employee costs, changes in exchange and interest rates, changes in tax rates and future business combinations, acquisitions or dispositions and the rate of technological changes, political and military developments in countries where Philips operates, and industry consolidation.

Statements regarding market share, including as to Philips' competitive position, contained in this document are based on outside sources such as specialized research institutes, industry and dealer panels in combination with management estimates. Where information is not yet available to Philips, those statements may also be based on estimates and projections prepared by outside sources or management. Rankings are based on sales unless otherwise stated.

Use of non-US GAAP information

In presenting and discussing the Philips Group's financial position, operating results and cash flows, management uses certain non-US GAAP financial measures. These non-US GAAP financial measures should not be viewed in isolation as alternatives to the equivalent US GAAP measure(s) and should be used in conjunction with the most directly comparable US GAAP measure(s). A discussion of the non-US GAAP measures included in this document and a reconciliation of such measures to the most directly comparable US GAAP measure(s) are contained in this document.

Use of fair value measurements

In presenting the Philips Group's financial position, fair values are used for the measurement of various items in accordance with the applicable accounting standards. These fair values are based on market prices, where available, and are obtained from sources that are deemed to be reliable. Readers are cautioned that these values are subject to changes over time and are only valid at the balance sheet date. When a readily determinable market value does not exist, fair values are estimated using valuation models which we believe are appropriate for their purpose. They require management to make significant assumptions with respect to future developments which are inherently uncertain and may therefore deviate from actual developments. In certain cases, independent valuations are obtained to support management's determination of fair values.

Philips reports robust growth in sales and EBITA

Comparable sales increased by 7% to EUR 6,524 million, driven by growth in the consumer businesses and in key emerging markets.

EBITA grew to EUR 438 million, or 6.7% of sales, compared with EUR 71 million, or 1.1% of sales, in Q3 2006.

Net income amounted to EUR 331 million; Q3 2006 net income included a gain of EUR 4,241 million, largely attributable to the sale of our Semiconductors division.

**Gerard Kleisterlee,
President and CEO of Royal Philips Electronics:**

Q3 was another quarter of improved year-on-year performance for Philips. Sales increased by 7% while EBITA rose to EUR 438 million, taking our EBITA margin to 6.7% for the quarter. It's particularly encouraging to see impressive growth in areas that have become, and will continue to be, increasingly important for our company, such as the key emerging markets of Latin America, China and India.

Results at Medical Systems, while still a strong contributor to group earnings, were adversely affected by the further contraction of the imaging systems market in North America, largely due to the impact of the US Budget Deficit Reduction Act. However, the performance of Medical Systems improved in all regions outside of the United States and in businesses such as Ultrasound & Monitoring and Customer Services within the US.

In Lighting, we continued to capitalize on our strong position in energy-efficient lighting solutions, and we will continue to grow our business in this

All amounts in millions of euros unless otherwise stated; data included are unaudited
Financial reporting is in accordance with US GAAP, unless otherwise stated.

area going forward. In our consumer businesses, we benefited from the recent introduction of a number of innovative and exciting new products, positioning our new Consumer Lifestyle sector for a winning start.

With our results improving quarter after quarter, I feel that Philips is well positioned to meet the objectives outlined in our recently communicated Vision 2010 strategic plan.

2

Per common share (in euros) basic	3.59	0.31

Highlights in the quarter**Net income**

Income from continuing operations amounted to EUR 333 million, compared to EUR 1 million in the same period of last year. Q3 2006 included the after-tax impact of a EUR 265 million asbestos-related product liability charge.

Results relating to equity-accounted investees improved by EUR 209 million compared to the corresponding period of 2006 due to higher income from LG.Philips LCD.

Income tax included EUR 91 million in charges related to a reduction in the value of carried-forward tax losses resulting from a decrease in the corporate tax rate in Germany.

Income from discontinued operations in Q3 2006 was due to the estimated gain on the sale of a majority stake in our former Semiconductors division.

Sales by sector

in millions of euros unless otherwise stated

	Q3 2006	Q3 2007	nominal	% change comparable
Medical Systems	1,575	1,600	2	3

GMS	29	44	52	73

Philips Group	6,313	6,524	3	7
---------------	-------	-------	---	---

Sales by sector

Sales of EUR 6,524 million represent comparable growth of 7% compared to Q3 2006. Nominal sales, including the impact of portfolio changes and currency movements, increased by 3% year-on-year. All businesses contributed to the comparable growth, led by strong sales in the consumer divisions and across key emerging markets.

Medical Systems saw double-digit sales growth in its Ultrasound & Monitoring and Healthcare Informatics businesses tempered by lower sales in the North American imaging systems business.

Sales at DAP continued to show exceptional growth, supported by all businesses. Sales at CE increased 8% on a comparable basis, with higher sales visible across all operational businesses.

At Lighting, strong comparable sales growth at Luminaires, Automotive and Lamps was largely offset by the ongoing contraction of the UHP lamp market and the exit from the LCD backlighting business.

Sales by region

in millions of euros unless otherwise stated

	Q3 2006	Q3 2007	nominal	% change comparable
Europe/Africa	2,680	2,954	10	10
North America	1,979	1,888	(5)	(1)
Latin America	440	527	20	20
Asia Pacific	1,214	1,155	(5)	9
Philips Group	6,313	6,524	3	7

Sales by region

The increase in comparable sales in Europe/Africa was driven by growth in the emerging Eastern European markets as well as in the major economies. Sales in North America were impacted by weaker market conditions while Latin America saw strong growth, particularly in the smaller emerging countries. Comparable sales growth in Asia Pacific was particularly strong in China and India.

EBITA

in millions of euros unless otherwise stated

	Q3 2006	Q3 2007

Innovation & Emerging Businesses	(51)	(38)
Group Management & Services	(337)	(72)
Philips Group	25	385
as a % of sales	0.4	5.9

Earnings

Excluding last year's EUR 265 million product liability charge, EBITA improved by EUR 102 million, or 1.4 percentage points, compared to Q3 2006, driven mainly by Lighting and the consumer businesses.

At Medical Systems, lower EBITA at Imaging Systems, which continued to be impacted by the US Budget Deficit Reduction Act, could not be fully compensated by improvements in the other business areas.

DAP's EBITA increased as a result of sales growth in all businesses coupled with ongoing cost management.

EBITA at CE improved due to higher earnings at Entertainment Solutions, Home Networks and Peripherals & Accessories, partly offset by lower EBITA at Connected Displays.

Lighting's EBITA improved year-on-year in most businesses, including the positive impact of Consumer Luminaires (PLI). EBITA included a EUR 11 million net gain on the sale of real estate as well as restructuring and other incidental charges; the corresponding amount in Q3 2006 for restructuring and miscellaneous net charges was EUR 32 million.

EBITA at Innovation & Emerging Businesses improved compared to Q3 2006, driven by the divestment of low-margin businesses and improved margin at Lifeline.

EBITA at Group Management & Services benefited from lower corporate and pension-related costs.
Q3 2006 included a product liability charge of EUR 265 million.

4

Financial income and expenses

in millions of euros

	Q3 2006	Q3 2007
Interest expenses, net	(71)	(10)
Nuance: sale of securities		31
TSMC: dividend	97	
Other	6	(1)
Total	32	20

Financial income and expenses

Net interest charges decreased by EUR 61 million compared to Q3 2006 as a result of a higher liquid assets balance and a lower debt position.

Other income from non-current financial assets included a EUR 31 million gain on the sale of shares in Nuance Communications.

A gain of EUR 97 million related to the receipt of a TSMC stock dividend was recognized in Q3 2006; this year's TSMC-related stock dividend was recognized in Q2.

Results relating to equity-accounted investees

in millions of euros

	Q3 2006	Q3 2007
LG.Philips LCD	(85)	127
Other	4	1
Total	(81)	128

Results relating to equity-accounted investees

Results relating to equity-accounted investees improved significantly from a loss of EUR 81 million in Q3 2006 to a profit of EUR 128 million due to higher income from LG.Philips LCD.

Cash balance
in millions of euros

	Q3 2006	Q3 2007
Beginning balance	2,538	6,261
Net cash from operating activities	634	388
Gross capital expenditures	(237)	(178)
Acquisitions/divestments	(704)	(546)
Other cash from investing activities	4	210
Changes in debt/other	(1,705)	(976)
Net cash discontinued operations	6,742	
Ending balance	7,272	5,159
Cash balance		

During the quarter, the cash balance decreased by EUR 1,102 million, primarily due to the acquisition of Color Kinetics for EUR 515 million and additional share repurchases totaling EUR 789 million, of which EUR 326 million for cancellation.

Net cash from discontinued operations in Q3 2006 consisted of cash received from the sale of a majority stake in our former Semiconductors division.

Cash flows from operating activities

Cash flows from operating activities

Operating activities generated cash flows totaling EUR 388 million in the third quarter, largely driven by net income. The cash flow in Q3 2006 was positively impacted by certain items related to the sale of a majority stake in the Semiconductors division which were subsequently reclassified in Q4 2006.

Gross capital expenditures (PPE*)

Gross capital expenditures (PPE*)

Gross capital expenditures remained broadly in line with Q3 2006. Additional investments, mainly at Medical Systems, were offset by lower capital expenditure at Lighting and DAP.

* Capital expenditures on property, plant and equipment only

** Excluding gross capital expenditures related to the Q3 2006 timing difference in the finalization of the sale of the

Semiconductors
division

6

Inventories as a %of sales

Inventories

Excluding the year-on-year impact of currency changes, inventories as a percentage of sales increased by 1.1 percentage points. This was primarily due to higher inventories at Medical Systems (mainly Customer Services-related) and at Lighting due to the acquisition of Color Kinetics and Partners in Lighting International (PLI) which because of its business model - has an inventory level above the divisional average.

Net debt and group equity

Net debt and group equity

During the quarter, the net cash position decreased by EUR 1.0 billion, mainly due to a EUR 1.1 billion decline in liquid assets. This decline was primarily attributable to a cash outflow of EUR 789 million for share repurchases and EUR 515 million for the acquisition of Color Kinetics.

In the quarter, Group equity declined by EUR 1.3 billion to EUR 20.9 billion as the positive impact of net income was more than offset by additional share repurchases, a decline in the market value of the Company's stake in TSMC and currency translation effects.

Number of employees (FTEs)

Employment

The number of employees at the end of Q3 2007 was 128,119 compared to 125,564 at the end of Q3 2006. The increase is mainly due to acquisitions completed during the last 12 months - notably Intermagnetics and PLI partly offset by divestments, mainly Optical Storage and the Enabling Technologies Group within Corporate Investments.

Medical Systems

Key data

in millions of euros unless otherwise stated

	Q3 2006	Q3 2007
Sales	1,575	1,600
Sales growth		
% nominal	3	2
% comparable	6	3
EBITA	192	182
as a % of sales	12.2	11.4
EBIT	166	151
as a % of sales	10.5	9.4
Net operating capital (NOC)	3,330	4,193
Number of employees (FTEs)	31,524	33,085

Business highlights

Philips announced it has acquired healthcare IT company XIMIS Inc., which focuses on systems to help reduce errors and streamline workflow in hospital radiology wards.

For the 15th year in a row, US customers ranked Philips #1 for service performance in ultrasound in an annual survey by IMV ServiceTrak – a market research organization focusing on medical imaging and clinical diagnostic instruments.

Medical Systems achieved important new business wins in the quarter, including a three-year imaging systems contract from the US-based Premier Imaging Committee. Additionally, the Wellmont Health System entered into a three-year strategic alliance with Philips through which it is set to become the area's premier cardiovascular destination center.

Sales

Financial performance

During the quarter, equipment order intake grew 3% on a currency-comparable basis compared to Q3 2006. Outside North America, order intake remained robust. In the US, growth at Ultrasound & Monitoring and General X-Ray was tempered by lower order intake at Imaging Systems, mainly in Computed Tomography, Nuclear Medicine and Cardiovascular X-Ray. The increasing impact of the US Budget Deficit Reduction Act continued to pressure the imaging systems industry.

Comparable sales grew 3% year-on-year thanks to strong growth at Ultrasound & Monitoring, Healthcare Informatics and Customer Services. Year-on-year sales at Imaging Systems declined however, particularly in CT, which suffered from the ongoing market contraction. MedQuist sales fell 9% comparably due to a decline in transcription revenues.

EBITA declined by EUR 10 million, or 0.8 percentage points, compared to Q3 2006, primarily driven by the decline in sales performance of Computed Tomography. Excluding Computed Tomography, EBITA improved by 0.7 percentage points, driven by solid margin expansion in Ultrasound & Monitoring, Customer Services and by sales growth outside of the US.

Net operating capital and headcount increased, mainly due to the acquisition of Intermagnetics in Q4 2006.
EBITA

Looking ahead

The ongoing impact of the US Budget Deficit Reduction Act is expected to lead to a broadly flat year-on-year US healthcare market. We expect to partially offset the impact on our business through sales growth outside North America and the contribution from acquisitions.

8

Domestic Appliances and Personal Care

Key data

in millions of euros unless otherwise stated

	Q3 2006	Q3 2007
Sales	577	718

EBIT	94	132
as a % of sales	16.3	18.4
Net operating capital (NOC)	1,276	1,326
Number of employees (FTEs)	10,347	10,423

Business highlights

Philips introduced two new shaving innovations. The Arcitec targets the high end of the male shaving market and was launched globally in September. Philips also launched in September a new Moisturizing Shaving System developed with Nivea For Men.

Philips showcased the next-generation, ultra-slim Sonicare FlexCare electrical toothbrush at a trade show of the American Dental Association in San Francisco. The FlexCare, which features a bacteria-killing UV sanitizer, will be available in the coming months.

In coffee-making, Philips further strengthened its position by entering the German espresso market with a new high-end espresso machine. This product will also be launched on other European markets in the future. Philips also added two special-edition Senseo coffee-makers to the product line-up.

Sales

Financial performance

Comparable sales grew 20% compared to Q3 2006, largely driven by strong growth at Shaving & Beauty, supported by the launch of the new shavers (Arcitec and Moisturizing Shaving System), and at Domestic Appliances, most notably Kitchen Appliances, due to a strong product portfolio and the successful healthy-living positioning.

All regions reported strong double-digit sales growth, led by a 33% comparable increase in emerging markets.

EBITA improved by EUR 39 million year-on-year, driven by higher sales and cost management.

EBITA

Looking ahead

Notwithstanding the 13% comparable sales growth achieved in Q4 2006, DAP expects sales growth to continue. The growth will be supported by higher advertising and promotion investments, particularly for the newly introduced ranges in Shaving and Oral Healthcare.

Consumer Electronics

Key data

in millions of euros unless otherwise stated

	Q3 2006	Q3 2007

Business highlights

At IFA 2007 in Berlin, Philips unveiled Aurea, the latest TV with Philips' successful Ambilight feature. Aurea creates a halo of dynamic light within the frame and around the TV for an exceptionally immersive viewing experience.

Philips received two prestigious product awards from the European Imaging & Sound Association (EISA). An Ambilight FlatTV with Perfect Pixel HD Engine was named *European Full-HD LCD TV 2007-2008*, while the Philips SoundBar DVD Home Theater technology was named *European Home Theater Compact System 2007-2008*.

Peripherals & Accessories has launched several innovative product solutions such as Power4life – a power solutions product that allows users to charge all their portable devices with one integrated charger – and its active crystal range of wearable accessories developed in conjunction with Swarovski.

Sales

Financial performance

Consumer Electronics' sales amounted to EUR 2,520 million, a year-on-year comparable increase of 8%, with growth visible across all operating businesses and in all key emerging markets.

EBITA improved to EUR 36 million (1.4% of sales), compared to EUR 27 million (1.1% of sales) in Q3 2006. High margin pressure in Flat Displays, particularly in North America, was more than offset by higher EBITA in the other businesses.

Despite the increased sales level, net operating capital remained low, consistent with the division's business model.

EBITA

Looking ahead

Sales in the fourth quarter are expected to show strong year-on-year growth, supported by a number of new product introductions. It is expected that the competitive market environment in Flat Displays will continue, with pressure on margins.

Lighting

Key data

in millions of euros unless otherwise stated

	Q3 2006	Q3 2007

Net operating capital (NOC)	2,697	4,116
Number of employees (FTEs)	48,753	54,951

Business highlights

Philips announced the completion of the acquisition of US-based Color Kinetics, a leader in the design and marketing of innovative LED lighting systems, further strengthening Philips' position in the LED value chain and bolstering its strong LED intellectual property portfolio.

Enabling a 35% saving on energy costs, over 50,000 Philips CosmoPolis street-lighting systems have been installed in Europe, with interest from Asia and particularly China growing fast. There, energy-efficient products represent 44% of total Lighting sales, and 35 distribution points are being added each day in second and third-tier cities.

A study by the independent safety research organization TÜV Rheinland showed that if all vehicles on German roads were equipped with Xenon car lights, 18% of all fatalities could be avoided, saving 1,200 lives annually. Philips is the inventor and the world's leading manufacturer of Xenon car bulbs.

Sales

Financial performance

Sales amounted to EUR 1,496 million, representing 2% comparable growth compared to Q3 2006. Excluding the impact of the contracting UHP lighting market and the exit this year from fluorescent lamp-based LCD backlighting, sales increased 7% on a comparable basis, driven by the global demand for energy-efficient lighting solutions and strong growth in emerging markets.

EBITA increased by EUR 56 million compared to Q3 2006, including a EUR 20 million gain on the sale of real estate, which was partly offset by purchase accounting, restructuring and other net incidental charges totaling EUR 9 million. Q3 2006 included restructuring and miscellaneous net charges totaling EUR 32 million.

The increase in net operating capital and number of employees is related to the acquisition of PLI, Color Kinetics and TIR Systems.

EBITA

Looking ahead

Charges for restructuring, together with purchase accounting and integration-related charges for Color Kinetics, of around EUR 15 million are expected in Q4 2007.

Lighting will continue to invest in green products to meet the rapidly growing global demand for energy-efficient lighting solutions.

Innovation & Emerging Businesses

Business highlights

Philips and the Institute of Health Sciences (IHS) have announced an agreement to establish a joint research laboratory in Shanghai, China, in order to apply the many benefits of molecular medicine to patient care. The ultimate aim is to create new solutions for the early diagnosis of disease and for monitoring the effectiveness of subsequent treatment.

Philips introduced the 3D WOWzone, a 132-inch multi-screen 3D wall designed to grab people's attention with stunning 3D multimedia presentations. By creating a spell-binding 3D experience, marketing professionals can use this eye catcher to increase brand and product awareness in larger public spaces at events, exhibitions and theme parks.

Philips has received recognition for its leading designs from Asian design organizations. Five Philips lifestyle products have received iF China design awards 2008, while Philips Design's SKIN Probe program for explorative research aimed at identifying emerging trends and likely societal shifts has received the Red Dot Singapore: Best of the Best award, given to concepts considered pioneering in their field.

Sales**Financial performance**

The investment-driven results within the Technologies/ Incubators sector were consistent with the run-rate of previous quarters.

Consumer Healthcare Solutions EBITA improved compared to Q3 2006. Sales grew 15% on a comparable basis, led by Lifeline, which also supported the increase in earnings compared to Q3 2006.

The year-on-year EBITA improvement within the Corporate Investments portfolio was largely attributable to improved earnings driven by the divestment of low-margin businesses.

EBITA**Looking ahead**

Investment in Research and the Incubators is expected to continue at approximately the same level as in Q3 2007.

Business highlights

Philips was one of the ten fastest-growing brands in terms of total brand value in the 2007 ranking of the top-100 global brands compiled by leading brand consultant Interbrand. The total estimated value of the Philips brand increased by 15% to USD 7.7 billion, from USD 6.7 billion in 2006. Philips was ranked the 42nd most valuable brand in the world, compared with 48th last year.

Philips launched its EcoVision IV program, through which it aims to double sales of green products over the next five years to 30% of total revenues in comparison to 15% in 2006. To achieve this, Philips will, among other things, invest EUR 1 billion in green innovations.

Philips improved its performance in the Dow Jones Sustainability Indexes for the fourth year in a row and was named global leader in the supersector Personal and Household Goods. Philips scored 82 points out of 100, compared to 64 points in 2003.

E.com has awarded Philips Annual Report 2006 a first-class, top 3 rating, a further improvement on last year's 7th position in the ranking of the world's best annual reports.

Philips and Infosys Technologies Ltd entered into a multi-year contract under which Infosys will provide finance and accounting services to Philips and acquire three shared-service centers in India, Poland and Thailand. As part of the agreement, approximately 1,400 Philips professionals will transfer to Infosys.

EBITA: Brand campaign

Financial performance

The EBITA of Group Management & Services improved significantly year-on-year due to the Q3 2006 product liability charge of EUR 265 million as well as lower corporate overhead charges and lower pension costs in the current quarter.

The increased investment in the brand campaign is wholly related to a shift in the annual spend pattern.

EBITA: Service Units, Pensions and Other

Looking ahead

Investments in the global brand campaign in Q4 are expected to total approximately EUR 60 million.

Restructuring charges of approximately EUR 10 million related to the simplification of the regional and country management structures are expected in Q4.

Highlights in the 1st nine months

The 1st nine months of 2007

Comparable sales up 3%, driven by DAP and Lighting

EBITA amounted to EUR 1,180 million, or 6.3% of sales

EBIT of EUR 979 million, or 5.3% of sales

Net income of EUR 2,775 million, including the gain on the sale of shares in TSMC

Net debt : group equity ratio was (8) : 108 at the end of Q3

Net income	4,703	2,775
Per common share (in euros) basic	3.96	2.54

Management summary

Income from continuing operations increased by EUR 2,385 million compared to the first nine months of 2006, due to higher EBITA, the sale of shares in TSMC and a significant improvement in income from LG.Philips LCD.

Sales for the first nine months totaled EUR 18,615 million, 3% higher on a comparable basis than in the corresponding period of 2006.

EBITA totaled EUR 1,180 million, a marked improvement compared to January-September 2006 driven by increased earnings at DAP and Lighting in particular, and reflecting the impact of a EUR 265 million product liability charge taken in Q3 2006.

In 2006, income from discontinued operations of EUR 4,335 million included both the operational results of Semiconductors for the first nine months and the gain from the sale of a majority 80.1% stake in the division in the third quarter.

Other information

Other information

Philips prepares to report in IFRS only

Currently, Philips' primary external and internal reporting is based on US GAAP. In addition, Philips issues quarterly and annual financial statements prepared in accordance with International Financial Reporting Standards (IFRS).

It is expected that the US Securities and Exchange Commission (SEC) will withdraw the requirement that Foreign Private Issuers such as Philips file US GAAP based financial statements (or a reconciliation thereto) and will accept reporting solely based on IFRS. A final decision from the SEC is expected in the near future.

Anticipating the outcome of the SEC's decision, Philips will begin preparations to migrate to IFRS as its only internal and external reporting standard from January 1, 2009 and to discontinue the use of US GAAP as of the same date.

Subsequent events

Subsequent events

Philips lowers its stake in LG.Philips LCD to 19.9%

On October 10, Philips announced it had sold 46.4 million shares of common stock in LG.Philips LCD Co., Ltd. (LPL) to financial institutions in a capital markets transaction. This transaction represents 13.0% of LPL 's issued share capital and reduces Philips ' holding to 19.9%.

The transaction will provide Philips with net proceeds of approximately EUR 1.55 billion and is expected to result in a non-taxable gain of approximately EUR 500 million in the fourth quarter of 2007.

This transaction is in line with Philips ' communicated strategy to further reduce its holding in LPL in a structured and responsible manner, as the Company has already done with other financial holdings

16

Outlook

Outlook

Our robust third-quarter performance represents good progress towards achieving our sales and earnings targets annual average top-line growth of 5-6% and EBITA of at least 7.5% of sales.

Going forward, we expect the Company's strong business portfolio, coupled with continuing growth in the majority of our geographies, particularly the emerging markets, will offset a potentially weaker US market environment.

We will continue the reallocation of capital by pursuing value-creating acquisitions consistent with our strategic direction and will announce the next step in our program to return capital to shareholders together with the publication of our fourth-quarter results.

Amsterdam, October 15, 2007

Composition of stockholders' equity

The table below provides further information with respect to the composition of stockholders' equity as of December 31, 2006 and September 30, 2007.

December 31,	September 30,
-----------------	--------------------------

	2006	2007
Common stock	228	228
Retained earnings	17,524	19,628
Revaluation reserves	167	138
Other reserves ¹⁾	4,914	1,774
Treasury shares	(923)	(2,246)
	21,910	19,522

Pursuant to Dutch law, certain limitations exist relating to the distribution of stockholders' equity. As a further explanation we note that, as of December 31, 2006, a disclosure of such limitations should have been included in the 2006 financial statements, in accordance with IAS 1.76(a)(v). As of December 31, 2006, these limitations relate to common stock (EUR 228 million) as well as to legal reserves included under revaluation reserves (EUR 167 million), retained earnings (EUR 1,291 million) and other reserves (EUR 4,914 million), totaling EUR 6,600 million.

- 1) As of December 31, 2006, the item other reserves mainly relates to unrealized gains on available-for-sale securities, of which EUR 4,670 million relates to our interest in TSMC. As of September 30, 2007, the unrealized gains relating to our TSMC shares have been reduced to EUR 1,984 million amongst others due to a further reduction of our stake in TSMC in 2007.

Philips CFO confirms Philips strategic direction at Credit Suisse conference in London
Wednesday, September 12, 2007

London, United Kingdom Today, Pierre-Jean Sivignon, Chief Financial Officer of Royal Philips Electronics (NYSE: PHG, AEX: PHI), will be giving a presentation at the Credit Suisse European Capital Goods Conference in London, where he will update the market on Philips continuing efforts in transforming into a truly integrated and highly market-driven global leader in Healthcare, Lighting and Consumer Lifestyle.

In his presentation, Mr. Sivignon will discuss how Philips has evolved into a simpler company with a portfolio of operations focused on value creation and sustainable growth. Mr. Sivignon will also discuss the recent announcement by Philips of Vision 2010, a strategic plan to further position Philips as a market-driven, people-centric company with a strategy and a structure that fully reflect the needs of its customer base, while also increasing shareholder value. Mr. Sivignon will also discuss how through its Vision 2010, Philips aims to achieve higher levels of operating profitability and will reconfirm that by 2010, Philips expects the EBITA (earnings before interest, taxes and amortization) margin of its current businesses to exceed 10%. Mr. Sivignon will also mention all other commitments that were communicated as part of Vision 2010, including at least 6% comparable annual average sales growth for the period 2008-2010 and the fact Philips intends to arrive at an efficient balance sheet by the end of 2009 through a combination of value-creating acquisitions as well as continued return of capital to shareholders. Finally, he will confirm that Philips expects EBITA per common share to at least double by 2010 from the level expected in 2007. The presentation is expected to start around 10:45 AM local time, or 11:45 AM Amsterdam time (CET).

About Royal Philips Electronics

Royal Philips Electronics of the Netherlands (NYSE: PHG, AEX: PHI) is a global leader in healthcare, lifestyle and technology, delivering products, services and solutions through the brand promise of sense and simplicity. Headquartered in the Netherlands, Philips employs approximately 125,800 employees in more than 60 countries worldwide. With sales of EUR 27 billion in 2006, the company is a market leader in medical diagnostic imaging and patient monitoring systems, energy efficient lighting solutions, personal care and home appliances, as well as consumer electronics. News from Philips is located at www.philips.com/newscenter.

Forward-looking statements

This press release contains certain forward-looking statements with respect to the financial condition, results of operations and business of Philips and certain of the plans and objectives of Philips with respect to these items. We caution readers that no forward-looking statement is a guarantee of future performance and that actual results could differ materially from those contained in the forward-looking statements. Examples of forward-looking statements in this document include the statements we have made about our strategy, estimates of sales growth, future EBITA and cost savings, future developments in our organic business as well as the benefit of future acquisitions, and our capital position. By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances and there are many factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements. The forward looking statements in this document are subject to, among other things, domestic and global economic and business conditions, the successful implementation of our strategy, our ability to identify and complete successful acquisitions and to integrate those acquisitions into our business, consumer preferences with respect to our existing and new products, our ability to develop and market new products, our ability to realize the benefits of this strategy, the policies and actions of governmental and regulatory authorities, changes in legislation, and the impact of competition a number of which factors are beyond our control. As a result, our actual future results may differ materially from the plans, goals, and expectations set forth in such forward-looking statements. Additional risks and factors are identified in our documents filed with or furnished to the U.S. Securities and Exchange Commission (the SEC) including in our Annual Report on Form 20-F for the fiscal year ended December 31, 2006, which is available on the SEC's website at www.sec.gov. Any forward-looking statements made by or on our behalf speak only as of the date they are made. We do not undertake to update forward-looking statements to reflect any changes in expectations with regard thereto or any changes in events, conditions or circumstances on which any such statement is based. The reader should, however, consult any additional disclosures that we have made or may make in documents we have filed or may file with the SEC.

Philips sells entire stake in US-based Nuance Communications

Thursday, September 13, 2007

Amsterdam, The Netherlands Royal Philips Electronics (AEX: PHI, NYSE: PHG) today announced that yesterday it sold its stake of approximately 4.6 million shares in US-based Nuance Communications Inc. (NASDAQ: NUAN). The transaction, which closed yesterday, will provide Philips with proceeds of approximately EUR 60 million, and will result in a non-taxable gain of approximately EUR 30 million in the third quarter.

This transaction is in line with Philips' strategy to focus on Philips' key businesses in the sectors of Healthcare, Lighting and Consumer Lifestyle. Prior to this transaction, Philips held 2.5 percent of Nuance's outstanding shares. Following this transaction, Philips no longer has a stake in Nuance.

Philips appoints Maarten de Vries as Chief Information Officer

Wednesday, September 19, 2007

Amsterdam, The Netherlands Royal Philips Electronics (NYSE:PHG, AEX:PHI) today announced the appointment of Maarten de Vries as Chief Information Officer (CIO) of the company with effect from September 1, 2007. Mr. de Vries was Chief Financial Officer of Philips Consumer Electronics, where he has been instrumental in developing the successful business model of the division.

In his new role, Mr. de Vries has also been appointed to the Group Management Committee of Philips as of the same date.

Mr. de Vries succeeds Mr. Daniel Hartert who has been appointed Chief Executive Officer of the Imaging Systems business within Philips Medical Systems, which will be renamed Philips Healthcare as per January 1, 2008. During his tenure as CIO from 2002 to 2007, Mr. Hartert transformed the IT function to a business-oriented, much more simplified and cost effective organization.

Philips sets target to double sales from Green Products to 30% of total revenues within five years
Tuesday, September 25, 2007

Philips launches fourth EcoVision program, further increasing energy efficiency of products and operations

Philips CEO Gerard Kleisterlee: every one of us should contribute to saving our planet

Amsterdam, The Netherlands - Royal Philips Electronics (AEX:PHI, NYSE:PHG) announced today that by 2012, it aims for 30% of total revenues to come from Green Products, compared with 15% of group sales in 2006. This commitment is part of Philips' latest EcoVision program that focuses on reducing the energy consumption of its products and facilities.

Philips' fourth EcoVision program also aims to increase the energy efficiency of its operations by 25% and double its investment in green innovations to EUR 1 billion in the next five years. These targets mean that by the end of 2008 all the company's offices will be outfitted with energy efficient lighting systems and that further reductions in greenhouse-gas emissions will be realized in production and distribution. Furthermore, the company is calling on its employees to be environmentally aware on a day-to-day basis in their working environment.

Philips Green Products have a significant improved environmental advantage for customers, users and society in one or more of the Philips green focal areas: energy consumption, packaging, hazardous substances, weight, recycling and lifetime reliability.

Gerard Kleisterlee, President and CEO of Philips said in a letter to employees: "We believe that big changes start small and that every one of us should contribute to saving our planet. What's more, we are convinced that those companies that combine the principles of economic growth and environmental stewardship will be the winners of the future and offer long term rewards to you, our employees, and to our customers, partners and shareholders."

Barbara Kux, member of the Group Management Committee and chair of the Sustainability Board said: "We want to be a company that provides solutions to complex problems such as sustainable development. Sometimes these solutions will be simple; sometimes they will require more comprehensive approaches. But one thing that is sure is that environmental stewardship and a commitment to energy efficient innovations will be a key characteristic of our development over the coming years and will create value both for our planet and for our company."

Besides providing energy efficient lighting solutions, Philips has a Green Product portfolio consisting of medical equipment, consumer electronics, and household and personal care goods. Philips' campaign www.asimpleswitch.com communicates to the public at large that solutions in energy management can be simple and easy to implement.

Visitors to the website have pledged to switch over 3.3 million

incandescent light bulbs to energy saving alternatives since the campaign started in early July this year. Philips also improved its environmental performance in the Dow Jones Sustainability Indexes for the fourth consecutive year this month, making the company the global leader in the sector Personal and Household Goods , a recognition which shows that Philips continues to capitalize on the growing demand for energy efficient and eco-friendly products.

Philips updates market on lighting sector and innovation activities

Friday, September 28, 2007

Amsterdam, The Netherlands In a meeting with investors and financial analysts today, Royal Philips Electronics (AEX: PHI, NYSE: PHG) will discuss how Philips Lighting expects to continue on its current growth path. This expectation is supported by an ongoing focus on market-driven innovation and an accelerated adoption of more advanced and environmentally-friendly forms of lighting in line with Philips' recently communicated Vision 2010 strategy.

Some concrete examples of medium-term growth opportunities that will replace certain current technologies and products which Philips Lighting management will mention are:

The rapidly growing demand for green lighting solutions. Today, 75% of all lighting currently in use are legacy systems, and growing awareness about existing energy-efficient lighting solutions is expected to lead to significant potential for replacement sales.

Increasing demand for advanced lighting solutions in emerging markets such as China. Philips expects to continue to tap into the potential of this market, notably in second and third tier cities, by further speeding up the expansion of its distribution network going forward, after having already secured a leading position in China's largest cities, with sales concentrating in the largest cities.

Continued build-up of Philips' presence in selected lighting markets and expansion of Philips' distribution channels for solid state lighting solutions to unlock the potential of this market.

Ongoing innovation within Philips Lighting will continue to lead to breakthrough products such as Philips Xenon automotive lighting. According to independent research, Xenon lights could result in a reduction of fatal car accidents by 18% as safety increases due to much better road visibility, while at the same time reducing CO2 emissions.

In addition, Philips will elaborate on its strategy for further growth and value creation for its core activities through disciplined, focused and controlled investments in innovation. In the spotlight will be the Corporate Technologies unit, which supports the Philips market sectors by providing state-of-the-art technology solutions. The Technology, Healthcare and Lifestyle Incubators have given birth to groundbreaking inventions and technologies that are aimed at creating new markets, such as AmbX scripting software, 3D Signage solutions and Handheld Drugs-of-Abuse testing.

By consistently coming up with meaningful innovations that truly improve people's lives we continue to show we are fully committed to maintaining our winning streak of innovations and building on our past successes. We bring in the right partners and work in a spirit of Open Innovation, in close touch with our customers, Rick Harwig, Chief Technology Officer at Royal Philips and Chief Executive Officer of Philips Corporate Technologies said.

Presentation and Audiocast

Presentations will begin at 09:00 AM (CET), and can also be followed via webcast.

Philips lowers its stake in LG.Philips LCD to 19.9%

Wednesday, October 10, 2007

Amsterdam, The Netherlands Royal Philips Electronics (AEX: PHI, NYSE: PHG) today announced it has sold 46.4 million shares of common stock in LG.Philips LCD Co., Ltd. (LPL) (NYSE: LPL, KRX: 034220) to financial institutions in a capital markets transaction. This transaction represents 13.0% of LPL s issued share capital and reduces Philips holding to 19.9%.

The transaction, which closed today, will provide Philips with net proceeds of approximately EUR 1.55 billion, and is expected to result in a non-taxable gain of approximately EUR 500 million in the fourth quarter of 2007. As part of the transaction, Philips may decide to sell additional shares to the same financial institutions later today to meet additional demand, if any.

This transaction is in line with Philips communicated strategy to further reduce its holding in LPL in a structured and responsible manner, as the company has already done with other financial holdings.
