ITEM 2.02. RESULTS OF OPERATIONS AND FINANCIAL CONDITION

The Registrant hereby incorporates by reference into this Item 2.02 the press release issued by TODCO on October 25, 2004 with respect to its third quarter 2004 earnings. The press release is furnished as Exhibit 99.1. The information contained in this Item 2.02 is being furnished pursuant to General Instruction B.2. of Form 8-K and shall not be deemed to be filed.

The registrant has presented EBITDA in the press release and conference call transcript incorporated herein, which is a "non-GAAP" financial measure under Regulation G of the rules and regulations of the SEC. The components of EBITDA are computed by using amounts, which are determined in accordance with GAAP. As part of the press release information the registrant has provided a reconciliation of EBITDA to net loss from continuing operations which is the nearest comparable GAAP financial measure. However, because EBITDA is not based on any standardized methodology prescribed by GAAP, it is not necessarily comparable to similar measures presented by other companies. The registrant included EBITDA in the press release because it believes EBITDA provides investors additional information to assist them in assessing the registrant's business and performance in comparison to other industry participants.

ITEM 7.01 REGULATION FD DISCLOSURE

The Registrant hereby incorporates by reference into this Item 7.01 the monthly rig status report, as of October 25, 2004, of the Registrant attached as Exhibit 99.2 which is being furnished in accordance with Rule 101(e)(1) under Regulation FD and shall not be deemed to be filed.

Statements in this report that contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, include, but are not limited to, statements regarding the current term, start and end dates and comments concerning future contracts and availability and other aspects of the Registrant's drilling rigs. Such statements are inherently subject to a variety of risks and uncertainties that could cause actual results to differ materially from those anticipated or projected. A discussion of the risk factors that could impact these areas and the Registrant's overall business and financial performance can be found in the Registrant's reports and other documents filed with the Securities and Exchange Commission. These factors include, among others, early termination by the customer pursuant to the contract or otherwise, cancellation or completion of certain contracts or projects earlier than expected, operating hazards, general economic and business conditions, casualty losses, industry fleet capacity, changes in foreign and domestic oil and gas exploration and production activity, competition, changes in foreign, political, social and economic conditions, regulatory initiatives and compliance with governmental regulations, customer preferences and various other matters, many of which are beyond the registrant's control. Given these concerns, investors and analysts should not place undue reliance on forward-looking statements. Each forward-looking statement speaks only as of the date of the rig status report, and the Registrant undertakes no obligation to publicly update or revise any forward-looking statement.
