Edgar Filing: GASTAR EXPLORATION LTD - Form 8-K

SECTION 8 - OTHER EVENTS

ITEM 8.01 OTHER EVENTS.

On October 19, 2006, Gastar Exploration Ltd. announced that a ten well coal bed methane drilling program had been commenced on its 1.0 million gross acre Exploration License 4416 (EL 4416) in the Gippsland Basin located in Victoria, Australia. Gastar has committed and funded approximately \$6.5 million for its 75% interest in the 10 CBM wells, which are being operated by CBM Resources Pty, Ltd., a subsidiary of Geostar Corporation. Gastar owns its interest in EL 4416 jointly with Geostar. The 10 well program will include the establishment of two "5-spot" pilots, one incorporating the two previous wells, and two wells designed to test for the presence and production potential of the coals at additional locations within the license area. The two previously drilled wells are also scheduled to have larger capacity pumps installed to facilitate de-watering operations.

In a related matter, Gastar has sent a letter to Geostar Corporation requesting arbitration to settle certain disputed issues and interpretations under a Participation and Operating Agreement (POA) with Geostar and its subsidiaries concerning Geostar's failure to deliver certain documents, requests for cash calls that far exceed the funds actually required for operations within a reasonable time frame and requesting cash calls while simultaneously asserting that certain provisions of the POA, including overhead reimbursement rates, need to be renegotiated on terms that Gastar believes are not reasonable and are not within industry standards .

A copy of the Company's press release, dated October 19, 2006, regarding this filing is attached as Exhibit 99.1 hereto and is incorporated herein by reference.

SECTION 9 - FINANCIAL STATEMENTS AND EXHIBITS

ITEM 9.01 FINANCIAL STATEMENTS AND EXHIBITS.

(d) Exhibits

The following is a list of exhibits furnished as part of this Form 8-K:

Exhibit No.	Description of Document
