Item 8.01 Other Events

On November 8, 2006, U.S. Physical Therapy, Inc. (the "Company") filed its quarterly report on Form 10-Q for the period ended September 30, 2006. Included in this filing is information regarding recently promulgated changes relating to Medicare reimbursement for 2007 including the following:

In November 2006, The Centers for Medicare and Medicaid Services (CMS) released the final rule regarding Revisions to Payment Policies Under

the Physician Fee Schedule for calendar year 2007. The rule is projected to result in a 10% reduction in reimbursement for outpatient physical and occupational therapy provided to Medicare and Medicaid patients. The rule also provides for a \$1,780 therapy reimbursement cap per Medicare or Medicaid patient for 2007 with no exception process. The fee schedule will be published in the December 1, 2006 Federal Register and will take effect January 1, 2007.

Through the first three quarters of 2006, Medicare and Medicaid reimbursement accounted for 19% of the Company's billed services or approximately \$19.0 million of net patient revenue from continuing operations. Using that interim figure, then on an annualized basis a corresponding 10% reduction to the Company in Medicare and Medicaid payments could result in a more than \$2.5 million reduction in revenue unless Congress were to change the fee schedule and exception process or unless the Company were to be successful in offsetting the Medicare and Medicaid reduction through expansion of its business with other reimbursement sources.

For additional information, see the Company's Form 10-Q for the period ended September 30, 2006, dated November 8, 2006, and the Company's Form 10-K for the year ended December 31, 2005, dated March 8, 2006.
