Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-Q

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. The accompanying unaudited condensed consolidated financial statements of Golden Enterprises, Inc. (the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 to Regulation S-X. Accordingly, they do not include all information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments consisting of normal recurring accruals considered necessary for a fair presentation have been included. For further information, refer to the consolidated financial statements and footnotes included in the Golden Enterprises, Inc. and subsidiary ("the Company") Annual Report on Form 10-K for year ended June 2, 2006.
2. The consolidated results of operations for the twenty-six weeks ended December 1, 2006 are not necessarily indicative of the results to be expected for the fifty-two week fiscal year ending June 1, 2007.
3. The following tables summarize the prepaid assets accounts:

Prepaid Breakdown

	Twenty-Six Weeks Ended December 1, 2006	Twenty-Six Weeks Ended December 2, 2005
	-----	-----
Truck shop supplies	\$ 683,195	\$ 624,411

Prepaid taxes/licenses	130,439	675,262
Prepaid dues/supplies	33,562	47,154
Other	20,751	17,998
	-----	-----
	\$ 1,828,325	\$ 2,428,558
	=====	=====

4. The principal raw materials used in the manufacture of the Company's snack food products are potatoes, corn, vegetable oils and seasoning. The principal supplies used are flexible film, cartons, trays, boxes and bags. These raw materials and supplies are generally available in adequate quantities in the open market from sources in the United States and are generally contracted up to a year in advance.
5. Beginning June 3, 2006, we adopted SFAS No. 123 (R), "Share-Based Payment" which requires measurement of the cost of employee services received in exchange for an award of an equity instrument based on the fair value and the date of grant of the award.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-Q

25 "Accounting for Stock Issued to Employees" in accounting for stock option plans. SFAS No. 123, "Accounting for Stock-Based Compensation," as amended by SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure," required the Company to provide pro forma information regarding net income (loss) as if the compensation cost for the Company's stock option plans had been determined in accordance with the fair value based method prescribed in SFAS No. 123. To provide the required pro forma information, the Company estimated the fair value of each stock option at the grant date by using the Black-Scholes option-pricing model.

We adopted the "modified prospective method" in adopting SFAS 123 (R) described in FASB No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure", and prior amounts have not been restated. As of June 3, 2006, all outstanding options were fully vested. Additionally, no options were granted during the twenty-six week period ended December 1, 2006. The adoption of SFAS 123 (R) did not have a material effect on the current period financial position, results of operations, or cash flows. Statement 123 (R) also requires that the benefits of tax deductions in excess of recognized compensation cost be reported as a financing cash flow rather than an operating cash flow as required under current literature. This requirement will reduce net operating cash flows and increase net financing cash flows in periods after the effective date. The company cannot estimate what those amounts will be in the future because they depend on, among other things, when employees exercise stock options.

For further information regarding our Incentive Stock Option plans in effect including share-based payment arrangements, the number and weighted-average exercise prices for outstanding options, and the number and weighted-average grant-date fair value refer to the consolidated financial statements and footnotes included in the Golden Enterprises, Inc. and subsidiary ("the Company") Annual Report on Form 10-K for the year ended June 2, 2006.

6. The following table provides a reconciliation of the denominator used in computing basic earnings per share to the denominator used in computing diluted earnings per share for the twenty-six weeks ended December 1, 2006 and December 2, 2005:

	Twenty-Six Weeks Ende 12/01/06

Weighted average number of common shares used in computing basic earnings per share	11,835,3
Effect of dilutive stock options	-----
Weighted average number of common shares and dilutive potential common stock used in computing dilutive earnings per share	11,835,3
Stock options excluded from the above reconciliation because they are anti-dilutive	369,0
	=====

7. The following table shows the effect on net income and earnings per

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-Q

share for the thirteen and twenty-six weeks ended December 2, 2005 had compensation expense been recognized based upon the estimated fair value on the grant date of awards, in accordance with SFAS 123, as amended by SFAS No. 148 "Accounting for Stock-Based Compensation - Transition and Disclosure":

8

	Thirteen Weeks Ended 12/2/2005
Net loss as reported	\$ (289,031)
Stock based compensation costs, net of income tax, that would have been included in net income if the fair value method had applied	(2,614)
Pro-forma net loss	\$ (291,645)
Loss per share as reported-basic	\$ (0.02)
Loss per share as reported-diluted	\$ (0.02)
Pro-forma loss per share-basic	\$ (0.02)
Pro-forma loss per share-diluted	\$ (0.02)

8. The Company entered into a five year term product purchase commitment during the year ending May 31, 2001 with a supplier. Under the terms of the agreement the minimum purchase quantity and the unit purchase price were fixed resulting in a minimum first year commitment of approximately \$2,171,000. After the first year, the minimum purchase quantity was fixed and the purchase unit price was negotiable, based on current market. Subsequently, in September 2002, the product purchase agreement was amended to fix the purchase unit price and establish specific annual quantities. The purchase commitment with the supplier, based on a specific purchase price and specific annual quantities, ended as of October 25, 2005. The Company was prohibited from purchasing certain products from any other vendor until October 25, 2006. As of October 26, 2006, the Company no longer had any obligation under this product purchase commitment.

9. The interest rate on the Company's note payable is reset monthly to reflect the 30 days LIBOR rate. Consequently, the carrying value of the note payable approximates fair value. The interest rate at December 1, 2006 was 7.07% compared to 5.83% at December 2, 2005. The Company's total bank debt was decreased by \$825,015 for the fifty-two week period ended December 1, 2006 compared to an increase of \$614,090 last year.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-Q

10. The Company has a letter of credit in the amount of \$2,668,846 outstanding at December 1, 2006, compared to \$3,084,365 at December 2, 2005, a decrease of \$415,519, to support the Company's commercial self-insurance program.
11. Currently, the Company has a line-of-credit agreement with a local bank that permits borrowing up to \$2 million, compared to \$2 million at this time last year. The line-of-credit is subject to the Company's continued credit worthiness and compliance with the terms and conditions of the advance application. The Company's line-of-credit debt as of December 1, 2006 was \$1,471,363 with an interest rate of 8.25%, leaving the Company with \$528,637 of credit availability. The Company's line-of-credit debt as of December 2, 2005 was \$1,584,446 with an interest of 7.00% leaving the Company with \$415,554 of credit availability.
12. The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash equivalents and trade receivables.

9

The Company maintains deposit relationships with high credit quality financial institutions. The Company's trade receivables result primarily from its snack food operations and reflect a broad customer base, primarily large grocery store chains located in the Southeastern United States. The Company routinely assesses the financial strength of its customers. As a consequence, concentrations of credit risk are limited.

The Company's notes receivable requires collateral and management believes they are well secured.

10

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We have reviewed the accompanying interim consolidated balance sheet of Golden Enterprises, Inc. and subsidiary as of December 1, 2006 and the related interim consolidated statements of income and cash flows for the twenty-six week period then ended. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with standards established by the Public Accounting Oversight Board (United States). A review of interim financial statements consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expressions of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements for them to be in conformity

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-Q

with accounting principles generally accepted in the United States of America.

We previously audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of June 2, 2006 and the related consolidated statements of operations, changes in stockholders' equity and cash flows for the fiscal year then ended (not presented herein), and in our report dated July 24, 2006 we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of June 2, 2006, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

Birmingham, Alabama

ITEM 2

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The purpose of this discussion is to provide additional information about Golden Enterprises, Inc., its financial condition and the results of its operations. Readers should refer to the consolidated financial statements and other financial data presented throughout this report to fully understand the following discussion and analysis.

OVERVIEW

The Company manufactures and distributes a full line of snack items, such as potato chips, tortilla chips, corn chips, fried pork skins, baked and fried cheese curls, onion rings and puff corn. The products are all packaged in flexible bags or other suitable wrapping material. The Company also sells a line of cakes and cookie items, canned dips, pretzels, peanut butter crackers, cheese crackers, dried meat products and nuts packaged by other manufacturers using the Golden Flake label.

No single product or product line accounts for more than 50% of the Company's sales, which affords some protection against loss of volume due to a crop failure of major agricultural raw materials. Raw materials used in manufacturing and processing the Company's snack food products are purchased on the open market and under contract through brokers and directly from growers. A large part of the raw materials used by the Company consists of farm commodities which are subject to precipitous changes in supply and price. Weather varies from season to season and directly affects both the quality and supply available. The Company has no control of the agricultural aspects and its profits are affected accordingly.

The Company sells its products through its own sales organization and independent distributors to commercial establishments that sell food products primarily in the Southeastern United States. The products are distributed through the independent distributors and approximately 430 route representatives who are supplied with selling inventory by the Company's trucking fleet. All of

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-Q

the route representatives are employees of the Company and use the Company's direct-store delivery system.

BASIS OF PRESENTATION

The Company's discussion and analysis of its financial condition and results of operations are based upon the accompanying unaudited condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 to Regulation S-X. Accordingly, they do not include all information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments consisting of normal recurring accruals considered necessary for a fair presentation have been included.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Company's discussion and analysis of its financial condition and results of operations are based upon the Company's unaudited condensed consolidated financial statements. The preparation of which, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that in certain circumstances affect amounts reported in the consolidated financial statements. In preparing these financial statements, management has made its best estimates and judgments of certain amounts included in the financial statements, giving due considerations to materiality. The Company does not believe there is a great likelihood that materially different amounts would be reported under different conditions or using different assumptions related to the accounting policies described below. However, application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates.

12

The Company believes the following to be critical accounting policies. That is, they are both important to the portrayal of the Company's financial condition and results and they require management to make judgments and estimates about matters that are inherently uncertain.

Revenue Recognition

The Company recognizes sales and related costs upon delivery or shipment of products to its customers. Sales are reduced by returns and allowances to customers.

Accounts Receivable

The Company records accounts receivable at the time revenue is recognized. Amounts for bad debt expense are recorded in selling, general and administrative expenses on the Consolidated Statements of Operations. The amount of the allowance for doubtful accounts is based on management's estimate of the accounts receivable amount that is uncollectible. Management records a general reserve based on analysis of historical data. In addition, management records specific reserves for receivable balances that are considered high-risk due to known facts regarding the customer. The allowance for bad debts is reviewed quarterly, and it is determined whether the amount should be changed. Failure of a major customer to pay the Company amounts owed could have a material impact on the financial statements of the Company. At December 1, 2006 and June 2, 2006

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-Q

the Company had accounts receivables in the amount of \$7,590,880 and \$8,363,356, net of an allowance for doubtful accounts of \$113,419 and \$133,422 respectively.

The following table summarizes the Company's customer accounts receivable profile as of December 1, 2006:

Amount Range -----	No. of Customer -----
Less than \$1,000.00	1,2
\$1,001.00-\$10,000.00	5
\$10,001.00-\$100,000.00	1
\$100,001.00-\$500,000.00	
\$500,001.00-\$1,000,000.00	
\$1,000,001.00-\$2,500,000.00	
 Total All Accounts.....	 1,9 ==

Inventories

Inventories are stated at the lower of cost or market. Cost is computed on the first-in, first-out method.

Accrued Expenses

Management estimates certain expenses in an effort to record those expenses in the period incurred. The most significant estimates relate to a salary continuation plan for certain key executives of the Company, and to insurance-related expenses, including self-insurance. The Company is self-insured for certain casualty losses relating to automobile liability, general liability, workers' compensation, property losses and medical claims. The Company also has stop loss coverage to limit the exposure arising from these claims. Automobile liability, general liability, workers' compensation, and property losses costs are covered by letters of credit with the Company's claim administrators.

The Company uses a third-party actuary to estimate the casualty insurance obligations on an annual basis. In determining the ultimate loss and reserve requirements, the third-party actuary uses various actuarial assumptions including compensation trends, health care cost trends and discount rates. The third-party actuary also uses historical information for claims frequency and severity in order to establish loss development factors.

OTHER MATTERS

Transactions with related parties, reported in Note 13 of the Notes to Consolidated Financial Statements in the Annual Report to Stockholders for fiscal year ended June 2, 2006, are conducted on an arm's-length basis in the ordinary course of business.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-Q

LIQUIDITY AND CAPITAL RESOURCES

Working Capital was \$4,050,402 at June 2, 2006 and \$3,599,193 at the end of the second quarter. Net cash provided by operating activities amounted to \$913,853 for the twenty-six weeks ended December 1, 2006 compared to \$552,312 for the same period last year.

Additions to property, plant and equipment, net of disposals, were \$330,256 this year and \$631,727 last year. Cash dividends of \$369,856 were paid during this year's second quarter compared to \$369,856 last year. No cash was used to purchase treasury stock this year, and no cash was used to increase investment securities this year. The Company's current ratio was 1.30 to 1.00 at December 1, 2006.

The following table summarizes the significant contractual obligations of the Company as of December 1, 2006:

Contractual Obligations	Total	Current	2-3 Years	4-
-----	-----	-----	-----	-----
Long-Term Debt	\$ 643,776	\$ 643,776	\$ -	\$ -

Total Contractual Obligations	\$ 2,383,994	\$ 760,890	\$ 264,195	\$ 30
	=====	=====	=====	=====

OFF-BALANCE SHEET ARRANGEMENT

The Company entered into a five-year term product purchase commitment during the year ending May 31, 2001 with a supplier. Under the terms of the agreement the minimum purchase quantity and the unit purchase price were fixed resulting in a minimum first year commitment of approximately \$2,171,000. After the first year, the minimum purchase quantity was fixed and the purchase unit price was negotiable, based on current market. Subsequently, in September 2002, the product purchase agreement was amended to fix the purchase unit price and establish specific annual quantities. The purchase commitment with the supplier, based on a specific purchase price and specific annual quantities, ended as of October 25, 2005. The Company was prohibited from purchasing certain products from any other vendor until October 25, 2006. As of October 26, 2006, the Company no longer had any obligation under this product purchase commitment.

Other Commitments

Available cash, cash from operations and available credit under the line-of-credit are expected to be sufficient to meet anticipated cash expenditures and normal operating requirements for the foreseeable future.

OPERATING RESULTS

For the thirteen weeks ended December 1, 2006, net sales increased 4.6% from the comparable period in fiscal 2006. For the twenty-six weeks ended December 1, 2006, net sales increased 5.7% from the comparable period in fiscal 2006. This year's second quarter cost of sales was 53.5% of net sales compared to 54.3% for last year's second quarter. This year's second quarter, selling, general, and

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-Q

administrative expenses were 48.0% of net sales compared to 47.5% for last year's second quarter. This year's year to date cost of sales was 53.1% of net sales compared to 54.5% for last year's year to date. This year's year to date, selling, general and administrative expenses were 47.0% of net sales compared to 46.7% for last year's year to date.

The following tables compare manufactured products to resale products:

	=====	-----	=====	-----

The Company's gain on sales of assets for the thirteen weeks ended December 1, 2006 in the amount of \$28,968 is from the sale of used equipment for cash.

For last year's thirteen weeks, the gain on sale of assets was \$20,320 from the sale of used equipment for cash.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-Q

The Company's investment income decreased 4.2% from last year for the current quarter's thirteen week period. For the twenty-six weeks ended investment income was down 3.3%.

The Company's effective tax rate for the thirteen weeks was -37.0% compared to -37.0% for last year's thirteen weeks and -37.0% for the twenty-six weeks this year and -37.0% last year.

MARKET RISK

The principal market's risks (i.e., the risk of loss arising from adverse changes in market rates and prices), to which the Company is exposed, are interest rates on its investment securities, bank loans, and commodity prices affecting the cost of its raw materials.

The Company's investment securities consist of short-term marketable securities. Presently, these are variable rate money market mutual funds. Assuming December, 2006 variable rate investment levels and bank loan balances, a one-point change in interest rates would impact interest income by \$1,292 on an annual basis and interest expense by \$6,438.

The Company is subject to market risk with respect to commodities because its ability to recover increased costs through higher pricing may be limited by the competitive environment in which it operates. The Company purchases its raw materials on the open market under contract through brokers and directly from growers. Future contracts have been used occasionally to hedge immaterial amounts of commodity purchases, but none are presently being used.

INFLATION

Certain costs and expenses of the Company are affected by inflation. The Company's prices for its products over the past several years have remained relatively flat. The Company will contend with the effect of further inflation through efficient purchasing, improved manufacturing methods, pricing and by monitoring and controlling expenses.

ENVIRONMENTAL MATTERS

There have been no material effects of compliance with governmental provisions regulating discharge of materials into the environment.

SUBSEQUENT EVENT

The Purchase and Sales agreement that was executed by and between Golden Flake Snack Foods, Inc. as Seller, and Educational Development Company of America, LLC & Waterbury Companies, LLC as Purchaser, discussed in Note 17 to the June 2, 2006 Consolidated Financial Statements, with an effective date of June 26, 2006 for the sale of approximately 12 acres of land located adjacent to the Company's

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-Q

office headquarters and manufacturing plant in Birmingham, Alabama was cancelled by the Purchaser on October 19, 2006.

16

On December 29, 2006, Golden Flake Snack Foods, Inc. sold a warehouse located in Chattanooga, Tennessee. The selling price was \$248,000.

FORWARD-LOOKING STATEMENTS

This discussion contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Actual results could differ materially from those forward-looking statements. Factors that may cause actual results to differ materially include price competition, industry consolidation, raw material costs and effectiveness of sales and marketing activities, as described in the Company's filings with the Securities and Exchange Commission.

ITEM 3

QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Included in Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations- Market Risk beginning on page 16.

ITEM 4

CONTROLS AND PROCEDURES

The Company performed an evaluation, under the supervision and with the participation of the Company's management (including the Company's Chief Executive Officer and Chief Financial Officer), of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this quarterly report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that as of the end of the period covered by this quarterly report, the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed in reports that the Company files or submits under the Securities and Exchange Act of 1934 is recorded, processed, summarized and reported within the specified time periods.

There were no changes in the Company's internal control over financial reporting which occurred during the period covered by this report which have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1

There are no material pending legal proceedings against the Company or its subsidiary other than routine litigation incidental to the business of the Company and its subsidiary.

ITEM 1-A
