Golden River Resources Corporation ("Golden River Resources") is incorporated in the State of Delaware. The principal shareholder of Golden River Resources is Northern Capital Resources Corp ("NCRC") which owned 96.62% of Golden River Resources as of September 30, 2013.

Golden River Resources is a gold exploration company. On March 17, 2009, the Company announced that it had reached agreement with Acadian Mining Corporation (TSX: ADA) ("Acadian") to subscribe in private placement transactions for common shares in Acadian and since that time, it acquired an interest by June 30, 2011 of 71.48%. During 2012, the Company acquired 0.48% of Acadian, sold 19.9% of Acadian and at June 30, 2012 it held 52.06% of Acadian. During fiscal 2013, it sold a further 51.56% and at June 30, 2013, it held a 0.50% interest in Acadian. On September 18, 2013, the Company converted a convertible note of CDN\$420,000 into 3,500,000 shares in Acadian thus increasing its equity interest in Acadian to 6.53%. On October 11, 2013 Acadian and LionGold Corp. Ltd. ("LionGold") announced that they concluded the arrangement by which LionGold, through its wholly-owned subsidiary LionGold Mining Canada Inc. (formerly 9286-0931 Québec Inc.) acquired all of the common shares of Acadian that it did not already own. As a result, effective October 11, 2013, the Company no longer has an equity interest in Acadian.

The financial statements presented herein have been prepared on a consolidated basis to include the accounts of Golden River Resources and its other subsidiaries (collectively "the Company"). All intercompany balances and transactions have been eliminated in consolidation.

Effective November 1, 2010, the Company had a 1-for-10 reverse stock split of its Common Stock and accordingly, all share and per share data has been retroactively restated.

The Company's consolidated financial statements are prepared using generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, Golden River Resources is an exploration stage company which has not yet commenced revenue producing operations and has sustained recurring losses since inception, all of which raises substantial doubt as to its ability to continue as a going concern.

In addition, Golden River Resources has historically relied on loans and advances from corporations affiliated with the President of Golden River Resources and fund raising through the sale of equity instruments. Based on discussions with these affiliate companies, the Company believes this source of funding will continue to be available.

Other than the arrangements noted above, the Company has not confirmed any other arrangement for ongoing funding. The Company's ability to continue operations is dependent upon future funding from capital raisings, or its ability to commence revenue producing operations and positive cash flows.

2. Recent Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its

consolidated financial position or results of operations.

3. Affiliate Transactions

Golden River Resources advances to and receives advances from various affiliates.

The Company has entered into an agreement with AXIS Consultants Pty Ltd (“AXIS”) to provide geological, management and administration services to the Company. Each of the companies has some common Directors, officers and shareholders. Golden River Resources holds a 9.09% interest in AXIS at a cost of A\$1 and is accounted for under the cost method. Any profits generated by AXIS are returned to its shareholders in the form of dividends.

During the three months ended September 30, 2013, AXIS provided services in accordance with the service agreement of CDN\$33,000, AXIS repaid Golden River Resources CDN\$32,000 and the Company advanced AXIS CDN\$651,000. During the three months ended September 30, 2012, AXIS repaid the Company CDN\$404,000 and provided services in accordance with the service agreement of CDN\$57,000. The amount owed to AXIS at September 30, 2012 was CDN\$18,000 and is reflected in non-current assets – receivables from affiliates. During the three months ended September 30, 2012, AXIS did not charge interest.

During fiscal 2010, the Company sold shares of common stock to NCRC, a Nevada corporation, pursuant to certain subscription agreements. Mr Joseph Gutnick, the Company’s President, is the Chairman and Chief Executive Officer of NCRC. In addition, Legend International Holdings, Inc., of which Mr. Gutnick is the Chairman and Chief Executive Officer and a principal stockholder, owns 31.46% of NCRC. As of September 30, 2013, NCRC owned approximately 96.6% of the outstanding common stock of the Company.

During fiscal 2013, the Company advanced NCRC CDN\$1,193,000 and is the amount owed by NCRC at June 30, 2013. At June 30, 2013, management considered the recoverability of the amount owed by NCRC and in accordance with the requirements of accounting standards provided a provision for doubtful receivable of CDN\$1,193,000 during fiscal 2013.

During fiscal 2013, Golden River advanced Acadian CDN\$140,000 in funds for operating expenditure and incurred expenditure on behalf of Acadian of CDN\$2,000. This loan is non-interest bearing and is due on or before June 6, 2014. As of September 30, 2013 the amount remains unpaid and is reflected in non-current assets – investment in and receivable from other entity (see note 7).

#### 5. (Loss) per share

The Company calculates (loss) per share in accordance with ASC Topic 260, Earnings per Share. Basic profit/(loss) per share is computed based on the weighted average number of common shares outstanding during the period.

Options to acquire 485,000 shares of common stock were not included in the diluted weighted average shares outstanding as such effects would be anti-dilutive.

#### 6. Fair Value Of Financial Instruments

The Company's financial instruments consist of cash, receivables, accounts payable, accrued expenses, note receivable and advances due from affiliates. The carrying amounts of receivables, accounts payable and accrued expenses, advances receivable approximate their respective fair values because of the short maturities of these expenses. The fair values of advances due/from affiliates are not practicable to estimate as no similar market exists for these instruments and as it does not have a specified date of repayment. The Company's investment in Acadian is recorded at fair value using Level 1 inputs, as described in the US GAAP guidance for fair value measurements (see note 7).

## 7. Investments In and Receivable From Acadian

At September 30, 2013 the carrying value of the marketable investment in Acadian was CDN\$452,000. During fiscal 2012, Golden River purchased \$420,000 of debentures in its former consolidated subsidiary Acadian. The debentures were unsecured and convertible into common shares of Acadian at the holder's option at a price of \$0.12 per common share. On September 18, 2013, the Company elected to convert the convertible note into 3,500,000 shares in Acadian.

On October 11, 2013 Acadian and LionGold announced that they concluded the arrangement by which LionGold, through its wholly-owned subsidiary LionGold Mining Canada Inc. (formerly 9286-0931 Québec Inc.) acquired all of the common shares of Acadian ("Acadian Shares") that it did not already own (the "Arrangement"). Effective from that date, LionGold directly or indirectly owns 100% of the outstanding shares of Acadian. Under the Arrangement, Acadian shareholders (other than LionGold and its affiliates) received C\$0.12 in cash for each Acadian Share. On October 17, 2013 the Company received CDN\$421,000 for 3,509,998 shares it held in Acadian. The balance of the funds of CDN\$31,140 are expected to be received in 2013.

The Company's investment in Acadian is classified as a marketable security, and accordingly is presented at its approximate fair market value. At September 30, 2013, the Company recorded an unrealized gain on marketable investment in the amount of CDN\$3,000.

## 8. Income Taxes

The Company recognises deferred tax assets or liabilities for the expected future consequences attributable to differences between the financial statement carrying amount of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using the enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled.

The Company is subject to taxation in both the USA and Canada.

The Company's net deferred taxes at September 30, 2013 is summarized as follows:

	USA 2013 CDN\$000s	Canada 2013 CDN\$000s	Total 2013 CDN\$000s

The Company's net deferred taxes at June 30, 2013 is summarized as follows:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

FUND COSTS CONVERSION

The consolidated statements of operations and other financial and operating data contained elsewhere here in and the consolidated balance sheets and financial results have been reflected in Canadian dollars unless otherwise stated.

The following table shows the average rate of exchange of the Canadian dollar as compared to the US dollar and Australian dollar during the periods indicated:

3 months ended September 30, 2012	CDN\$1.00 = US\$1.0167
3 months ended September 30, 2013	CDN\$1.00 = US\$0.9704
3 months ended September 30, 2012	CDN\$1.00 = A\$0.9796
3 months ended September 30, 2013	CDN\$1.00 = A\$1.0415

The Company's financial statements are prepared in Canadian dollars (CDN\$). A number of the costs and expenses of the Company are incurred in US and Australian dollars and the conversion of these costs to CDN\$ means that the comparison of the three months ended September 30, 2013 to the three months ended September 30, 2012 does not always present a true comparison.

GENERAL

Golden River Resources was a gold exploration company focusing its activities in Canada through its investment in Acadian. Following the sale of Acadian shares in October 2012, Golden River's holding in Acadian amounted to 32.16% and Golden River no longer controlled Acadian. As a result, Golden River de-consolidated the operations of Acadian. Accordingly, the management discussion and analysis relates to the activities of Golden River only and does not include a discussion of Acadian activities unless otherwise stated.

As set out in notes to consolidated financial statements – affiliate transactions, the Company is managed by AXIS. Certain costs and expenses are incurred by the Company and certain costs and expenses are incurred by AXIS on behalf of the Company and billed to the Company by AXIS. The total amount of expenses billed to the Company by AXIS for the three months ended September 30, 2013 was CDN\$33,000 (2012: CDN\$57,000). The discussion in the next paragraphs relates to costs and expenses of the Company, incurred by both the Company; and by AXIS that are billed to the Company.

Costs and expenses decreased from CDN\$104,000 in the three months ended September 30, 2012 to CDN\$64,000 in the three months ended September 30, 2013.

The decrease in costs and expenses is a net result of:

- a) a decrease in legal, accounting and professional expense from CDN\$22,000 for the three months ended September 30, 2012 to CDN\$19,000 for the three months ended September 30, 2013. The expenses for the three months ended September 30, 2013 consisted of costs associated with the Company's SEC compliance obligations.

Included within the administrative expenses of CDN\$45,000 (2012: CDN\$82,000) is an amount of CDN\$33,000 (2012: CDN\$57,000) billed to us by AXIS.

The Company recorded a foreign currency exchange gain of CDN\$2,000 for the three months ended September 30, 2013 and a loss of CDN\$3,000 for the three months ended September 30, 2012, as a result of the movement in the Australian and US dollar versus the Canadian dollar.

At September 30, 2013, management considered the recoverability of the amount owed by AXIS and in accordance with the requirements of accounting standards provided a provision for doubtful receivable. For the three months ended September 30, 2013 the Company recorded an adjustment to the provision of A\$586,000 (three months ended September 30, 2012: CDN\$nil).

The Company recorded a net loss from discontinued operations of CDN\$667,000 for the three months ended September 30, 2012 which was offset by the share of net loss attributable to non-controlling interests of discontinued operations of CDN\$318,000. There was no net loss from discontinued operations for the three months ended September 30, 2013.

The net loss attributable to Golden River Resources stockholders amounted to CDN\$644,000 for the three months ended September 30, 2013 compared to a net loss of CDN\$456,000 for the three months ended September 31, 2012.

During the three months ended September 30, 2013, AXIS provided services in accordance with the service agreement of CDN\$33,000 and AXIS repaid the Company CDN\$32,000 and provided AXIS with a CDN\$651,000 advance. On October 11, 2013 Acadian and LionGold Corp. Ltd. ("LionGold") announced that they concluded the arrangement by which LionGold, through its wholly-owned subsidiary LionGold Mining Canada Inc. (formerly 9286-0931 Québec Inc.) acquired all of the common shares of Acadian that it did not already own (the "Arrangement"). Effective from that date, LionGold directly or indirectly owns 100% of the outstanding shares of Acadian. Under the Arrangement, Acadian shareholders (other than LionGold and its affiliates) received C\$0.12 in cash for each Acadian share and on October 17, 2013, the Company received CDN\$421,000 and the balance of CDN\$31,000 will be received shortly.

Our budget for general and administration costs for fiscal 2014 is CDN\$250,000. We are searching for new business opportunities and are not planning any exploration related activities in the short term.

The Company has historically funded its activities from funds provided by capital raising through the issuance of its shares and advances from affiliated entities. We are currently investigating further capital raising opportunities which may be in the form of either equity or debt, to provide funding for working capital purposes and future exploration programs. There can be no assurance that such capital raising will be successful, or that even if an offer of financing was received by the Company, it is on terms acceptable to the Company.

Cautionary Safe Harbor Statement under the United States Private Securities Litigation Reform Act of 1995.

Certain information contained in this Form 10-Q's forward looking information within the meaning of the Private Securities Litigation Act of 1995 (the "Act") which became law in September 1995. In order to obtain the benefits of

the “safe harbor” provisions of the act for any such forwarding looking statements, the Company wishes to caution investors and prospective investors about significant factors which among others have affected the Company’s actual results and are in the future likely to affect the Company’s actual results and cause them to differ materially from those expressed in any such forward looking statements. This Form 10-Q report contains forward looking statements relating to future financial results. Actual results may differ as a result of factors over which the Company has no control including, without limitation, the risks of exploration and development stage projects, political risks of development in foreign countries, risks associated with environmental and other regulatory matters, mining risks and competition and the volatility of gold and copper prices, movements in the foreign exchange rate and the availability of additional financing for the Company. Investors are cautioned not to put undue reliance on forward-looking statements. We disclaim any intent or obligation to update publicly these forward-looking statements, whether as a result of new information, future events or otherwise. Additional information which could affect the Company’s financial results is included in the Company’s Form 10-K on file with the Securities and Exchange Commission.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Company does not hold funds in foreign bank accounts.

Item 4. Controls and Procedures.

(a) Disclosure Controls and Procedures

Our principal executive officer and our principal financial officer evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 as amended) as of the end of the period covered by this report. Based on that evaluation, such principal executive officer and principal financial officer concluded that, the Company's disclosure controls and procedures were effective as of the end of the period covered by this report at the reasonable level of assurance.

(b) Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the second quarter of fiscal that materially affected, or are reasonably likely to materially affect, internal control over financial reporting.

(c) Other

We believe that a controls system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected. Therefore, a control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Our disclosure controls and procedures are designed to provide such reasonable assurance of achieving our desired control objectives, and our principal executive officer and principal financial officer have concluded, as of September 30, 2013, that our disclosure controls and procedures were effective in achieving that level of reasonable assurance.
