ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company acquired all of the assets of RadioTV Network, Inc ("RTV") on July 16, 2001 in a transaction treated as a recapitalization of RTV. RTV has been developing and operating, for the past few years, a new television network that produces and distributes TV adaptations of top rated radio programs. The Company intends to further develop and expand RTV and is also planning on acquiring and affiliating with other media related entities, which are presently being identified. The Company requires capital for these purposes and anticipates completing several Private Placements to raise equity capital in 2002, which the Company believes sufficient to fund its initial business plans. The RTV operational expenses for fiscal 2001 reflect revised operations from the prior years pending this funding.

YEAR ENDED DECEMBER 31, 2001 COMPARED TO YEAR ENDED DECEMBER 31, 2000 In fiscal 2001 the Company's subsidiary, RTV, reduced operational, film and exploitation expenses as it discontinued the broadcast and syndication of its principal program in anticipation of changing broadcast outlets and its merger with Sun. Sun had no continuing operations and financial results for the year reflect these changes.

YEAR ENDED DECEMBER 31, 2000 COMPARED TO YEAR ENDED DECEMBER 31, 1999 In fiscal 2000 the Company's subsidiary, RTV, continued to develop its programming concept and converted its principal program into a "weekly" which resulted in less operating revenues and operational expenses for the year. Sun had no continuing operations for the year and financial results for the year reflect these changes.

LIQUIDITY AND CAPITAL RESOURCES

None.

Independent Auditors' Report

Board of Directors and Stockholders of:
Sun Network Group, Inc.

We have audited the accompanying consolidated balance sheets of Sun Network Group, Inc. and Subsidiary as of December 31, 2001 and 2000 and the related consolidated statements of operations, changes of stockholders' equity (deficiency) and cash flows for the years ended December 31, 2001, 2000 and 1999. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly in all material respects, the consolidated financial position of Sun

Edgar Filing: SUN NETWORK GROUP INC - Form 10-K/A

Network Group, Inc. and Subsidiary as of December 31, 2001 and 2000 and the consolidated results of its operations and its cash flows for the years ended December 31, 2001, 2000 and 1999, in conformity with accounting principles generally accepted in the United States of America.

As more fully described in Note 12, subsequent to the issuance of the Company's 2001 consolidated financial statements and our report thereon dated March 15, 2002, we became aware that those consolidated financial statements did not reflect certain accrued compensation and related compensation expense. In our related report, we expressed an unqualified opinion with an explanatory paragraph describing conditions that raised doubt about the Company's ability to continue as a going concern. Our opinion on the revised consolidated financial statements, as expressed herein, remains unqualified with an explanatory paragraph describing conditions that raised doubt about the Company's ability to continue as a going concern.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 10 to the consolidated financial statements, the Company's accumulated deficit of \$575,828 at December 31, 2001, net losses in 2001 of \$164,935, cash used in operations in 2001 of \$91,617, working capital deficit of \$102,629 at December 31, 2001 and the need for additional cash to fund operations over the next year raise substantial doubt about its ability to continue as a going concern. Management's Plan in regards to these matters is also described in Note 10. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

(E) Long-Lived Assets

The Company reviews long-lived assets and certain identifiable assets related to those assets for impairment whenever circumstances and situations change such that there is an indication that the carrying amounts may not be recoverable. If the non-discounted future cash flows of the enterprise are less than their carrying amount, their carrying amounts are reduced to fair value and an impairment loss is recognized.

(F) Revenue Recognition

The Company accounts for revenues in accordance with the AICPA Accounting Standards Executive Committee Statement of Position No. 00-2, "Accounting by Producers or Distributors of Films" ("SOP 00-2").

The Company generally produces episodic television series and generates revenues from the sale of broadcast licenses. The terms of the licensing arrangement may vary significantly from contract to contract and may include fixed fees, variable fees with or without nonrefundable minimum guarantees, or barter arrangements.

The Company recognizes monetary revenues when evidence of a sale or licensing arrangement exists, the license period has begun, delivery of the film to the licensee has occurred or the film is available for immediate and unconditional delivery, the arrangement fee is fixed or determinable, and collection of the arrangement fee is reasonably assured. The Company recognizes only the net revenue due to the Company pursuant to the formulas or amounts stipulated in the customer contracts.

The Company recognizes revenues from barter arrangements in accordance with the Accounting Principles Board Opinion No. 29 "Accounting for Non-Monetary Exchanges," ("APB 29") as interpreted by EITF No. 93-11 "Accounting for Barter Transactions Involving Barter Credits." In general, APB 29 and its related interpretation require barter revenue to be recorded at the fair market value of what is received or what is surrendered, whichever is more clearly evident.

(G) Costs and Expenses of Producing Films

The Company accounts for costs and expenses of producing a film and bringing that film to market in accordance with SOP 00-2 as follows:

Film costs include all direct negative costs incurred in the production of a film as well as allocations of production overhead and capitalized

Edgar Filing: SUN NETWORK GROUP INC - Form 10-K/A

interest costs. Film costs are capitalized and amortized as the Company recognizes revenue from each episode. If reliable estimates of secondary market revenue are established, any subsequent costs are capitalized and amortized using the individual-film-forecast method, which amortizes costs in the same ratio as current revenues bears to estimated unrecognized ultimate revenues.

F-8

Participation costs which consist of contingent payments based on film financial results or based on other contractual arrangements, are expensed and accrued, when a film is released, using the individual-film-forecast method, if the obligation is probable.

Exploitation costs include advertising, marketing, and other exploitation costs. Advertising costs are accounted for in accordance with SOP 93-7, "Reporting on Advertising Costs." All other exploitation costs, including marketing costs, are expensed as incurred.

(H) Income Taxes

During 2000 and 1999, the Company was structured as a limited liability company and elected to be taxed as a partnership under the Internal Revenue Code. In lieu of paying corporate income taxes, the members were taxed individually on their proportionate share of the Company's taxable income. Therefore, no provisions or liability for income taxes during 2000 and 1999 has been included in the accompanying consolidated financial statements.

Starting from January 1, 2001, income taxes are accounted for under the asset and liability method of Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes ("SFAS 109")." Under SFAS 109 deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under SFAS 109, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(I) Net Loss Per Common Share

Basic net income (loss) per common share (Basic EPS) excludes dilution and is computed by dividing net income (loss) available to common stockholder by the weighted-average number of common shares outstanding for the period. Diluted net income per share (Diluted EPS) reflects the potential dilution that could occur if stock options or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company. At December 31, 2001, there were no common stock equivalents outstanding, which may dilute future earnings per share.

(J) Fair Value of Financial Instruments

Statement of Financial Accounting Standards No. 107, "Disclosures about Fair Value of Financial Instruments," requires disclosures of information about the fair value of certain financial instruments for which it is practicable to estimate that value. For purposes of this disclosure, the fair value of a financial instrument is the amount at

Edgar Filing: SUN NETWORK GROUP INC - Form 10-K/A

which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation.

F-9

The carrying amounts of the Company's short-term financial instruments, including accounts payable and due to officer, approximate fair value due to the relatively short period to maturity for these instruments.

(K) New Accounting Pronouncements

The Financial Accounting Standards Board has recently issued several new accounting pronouncements, which may apply, to the Company.

Statement No. 141 "Business Combinations" establishes revised standards for accounting for business combinations. Specifically, the statement eliminates the pooling method, provides new guidance for recognizing intangible assets arising in a business combination, and calls for disclosure of considerably more information about a business combination. This statement is effective for business combinations initiated on or after July 1, 2001. The adoption of this pronouncement on July 1, 2001 did not have a material effect on the Company's financial position, results of operations or liquidity.

Statement No. 142 "Goodwill and Other Intangible Assets" provides new guidance concerning the accounting for the acquisition of intangibles, except those acquired in a business combination, which is subject to SFAS 141, and the manner in which intangibles and goodwill should be accounted for subsequent to their initial recognition. Generally, intangible assets with indefinite lives, and goodwill, are no longer amortized; they are carried at lower of cost or market and subject to annual impairment evaluation, or interim impairment evaluation if an interim triggering event occurs, using a new fair market value method. Intangible assets with finite lives are amortized over those lives, with no stipulated maximum, and an impairment test is performed only when a triggering event occurs. This statement is effective for all fiscal years beginning after December 15, 2001. The Company believes that the future implementation of SFAS 142 on January 1, 2002 will not have a material effect on the Company's financial position, results of operations or liquidity.

Statement No. 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" supercedes Statement No. 121 "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of" ("SFAS 121"). Though it retains the basic requirements of SFAS 121 regarding when and how to measure an impairment loss, SFAS 144 provides additional implementation guidance. SFAS 144 excludes goodwill and intangibles not being amortized among other exclusions. SFAS 144 also supercedes the provisions of APB 30, "Reporting the Results of Operations," pertaining to discontinued operations. Separate reporting of a discontinued operation is still required, but SFAS 144 expands the presentation to include a component of an entity, rather than strictly a business segment as defined in SFAS 131, Disclosures about Segments of an Enterprise and Related Information. SFAS 144 also eliminates the current exemption to consolidation when control over a subsidiary is likely to be temporary. This statement is effective for all fiscal years beginning after December 15, 2001. The Company believes that the future implementation of SFAS 144 on January 1, 2002 will not have a material effect on the Company's financial position, results of operations or liquidity.

Note 3 Due to Stockholder

Amounts due to stockholder are non-interest bearing open advances with no stated due dates.

Note 4 Commitments

On July 16, 2001, the Company entered into a three-year employment agreement with its Chief Executive Officer. The agreement stipulated annual salary of \$120,000, \$30,000 of a guaranteed bonus plus certain expenses. The Company has accrued \$68,750 as of December 31, 2001.

Note 5 Related Party Transactions

In 2000, an affiliate of a stockholder provided 33% of revenues (see Note 9).

In 2000, a stockholder exchanged their entire equity interest for equipment (see Note 5).

During 2001, the Company paid \$12,018 of personal expenses of the chief executive officer. This amount was included as compensation expense in 2001.

At December 31, 2001, the Company has amounts due to stockholder and accrued compensation due to that stockholder who was the Chief executive officer of the Company.

Note 6 Stockholders' Equity (Deficiency)

On January 1, 2000, a stockholder converted a promissory note of \$200,000 plus \$4,490 of accrued interest to contributed capital. The note had been executed in July 1999 to account for equipment with original cash basis of \$155,003 and advances of \$44,997 provided to the Company.

On December 31, 2000, the stockholder who previously converted the note discussed above surrendered its entire 10% equity interest in the Company in exchange for the equipment, which at that time had net book value of \$115,839. This transaction was considered a related party transaction and accordingly equity was reduced by \$115,839 and no gain or loss was recognized.

In February 2001, the Company issued, after its reorganization into a corporation, 898,333 common shares to an investor for \$60,000 and 500,000 common shares to a service provider valued at the contemporaneous cash offering price of \$0.0668 per share or \$33,395. The shares for services was recorded as a consulting expense for past services rendered.

On July 17, 2001, 8,332,066, common shares were deemed issued in a recapitalization transaction. (See Note 1(A))

Note 7 Revenues

Edgar Filing: SUN NETWORK GROUP INC - Form 10-K/A

In May 2001, the Company settled some disputes with a customer licensee by accepting barter advertising time valued at its estimated fair market value of \$35,200.

F-11

The Company recorded the advertising time as revenues at the settlement date and an asset to be amortized on a usage basis. Through December 31, 2001, none of the advertising time had been used.

Note 8 Income Taxes

There was no income tax expense or benefit for federal and state income taxes in the consolidated statement of operations due to the Company's net loss and valuation allowance on the resulting deferred tax asset.

The actual tax expense differs from the "expected" tax expense for the years ended December 31, 2001 (computed by applying the blended U.S. Federal Corporate tax rate of 35 percent to income before taxes) as follows:

	2001
Computed "expected" tax expense (benefit)	\$ (70,047)
Established deferred tax asset valuation allowance	70,047

	\$ -
	=====

The tax effects of temporary differences that give rise to significant portions of deferred tax assets and liabilities at December 31, 2001 are as follows:

	2001
Deferred tax assets:	
Net operating loss carryforward	\$ 70,047

Total Gross Deferred Assets	70,047
Less valuation allowance	(70,047)

Net Deferred Tax Asset	\$ -
	=====

At December 31, 2001, the Company had useable net operating loss carryforwards of approximately \$96,185 for income tax purposes, available to offset future taxable income expiring in 2021.

There was no valuation allowance at January 1, 2001. The net change in the valuation allowance during the year ended December 31, 2001 was an increase of \$33,665.

Note 9 Concentrations

During 2001, one customer provided 100% of the revenue, which was all barter revenue (See Note 4). During 2000, two customers provided 55% and 42% of the revenues, respectively. During 1999, one customer provided 62% of the revenues and an affiliate of a stockholder provided 33% of revenues.

Note 10 Segment Information

The Company has a single reportable segment. All revenues as of December 31, 2001, 2000, and 1999 are derived from customers in the United States of America.

Note 11 Going Concern

As reflected in the accompanying consolidated financial statements, the Company had an accumulated deficit of \$575,828 at December 31, 2001, net losses in 2001 of \$164,935; cash used in operations in 2001 of \$91,617, a working capital deficit of \$102,629 at December 31, 2001 and needs additional cash to fund operations over the next year. The ability of the Company to continue as a going concern is dependent on the Company's ability to raise additional funds, further implement its business plan, and generate revenues. The consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Management is in process of seeking additional financing. Management believes that the actions presently being taken to further implement its business plan and generate additional revenues provide the opportunity for the Company to continue as a going concern.

Note 12 Restatement

Subsequent to the issuance of the Company's fiscal 2001 consolidated financial statements management became aware that those consolidated financial statements did not include \$68,750 of accrued compensation expense pursuant to a July 16, 2001 employment agreement with the Company's chief executive officer. The inclusion of this item in the revised consolidated financial statements has the effect of increasing current liabilities by \$68,750 and increasing net loss by \$68,750. Net loss per share, basic and diluted did not change.
