Amendment No. 2

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934

For the quarterly period ended June 30, 2005

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE EXCHANGE ACT

For the transition period from _____ to _____

Commission File Number: 0-27845

TRANSAX INTERNATIONAL LIMITED

(Exact name of small business issuer as specified in charter)

COLORADO

(State or other jurisdiction of
incorporation or organization)

84-1304106

(I.R.S. Employer I.D. No.)

8th Floor, 5201 Blue Lagoon Drive
Miami, FL, 33126

(Address of principal executive offices) (Zip Code)

(305) 629-3090

(Issuer's telephone number, including area code)

Check whether the Issuer (1) has filed all reports required to be filed by section 13 or 15(d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

State the number of shares outstanding of each of the Issuer's classes of common equity as of the latest practicable date: At August 12, 2005, there were 30,322,981 shares of the small business issuer's common stock outstanding.

EXPLANATORY NOTE REGARDING AMENDMENT NO. 2

Transax International Limited (the "Company") is amending this Quarterly Report

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

on Form 10-QSB for the period ended June 30, 2005 in response to the U.S. Securities & Exchange Commission's Comment Letter to the Company dated August 25, 2006 (the "Comment Letter"). In particular, the Company has added language in the Section entitled "Item 3. Controls & Procedures" in accordance with the Comment Letter as well as the disclosure of certain negative covenants in the Section entitled "Item 2. Management's Discussion & Analysis or Plan of Operation" with respect to the Securities Purchase Agreement, dated April 1, 2005, by and between the Company and Scott and Heather Grimes. The remaining Items contained in this report consist of all other Items originally contained in Amendment No. 1 to our Quarterly Report on Form 10-QSB for the period ended June 30, 2005 as filed on July 10, 2006. This report does not reflect events occurring after the filing of the original Quarterly Report on Form 10-QSB, nor modify or update those disclosures in any way other than as required to reflect the comments of the SEC in the Comment Letter.

TRANSAX INTERNATIONAL LIMITED
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2005

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

NOTE 1 - BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Item 310(b) of Regulation S-B. Accordingly, the financial statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary to make the interim financials not misleading have been included and such adjustments are of a normal recurring nature. These consolidated financial statements should be read in conjunction with the financial statements for the year ended December 31, 2004 and notes thereto contained in the Report on Form 10-KSB of Transax International Limited ("our Company" or the "Company") as filed with the Securities and Exchange Commission (the "Commission"). The results of operations for the six months ended June 30, 2005 are not necessarily indicative of the results for the full fiscal year ending December 31, 2005.

The consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP"). The consolidated financial statements of the Company include the Company and its subsidiaries. All material intercompany balances and transactions have been eliminated.

Organization

Transax International Limited was incorporated in the State of Colorado in 1999. The Company, primarily through its wholly-owned subsidiary TDS Telecommunication Data Systems Ltda. ("TDS"), is an international provider of information network solutions specifically designed for healthcare providers and health insurance companies. The Company's MedLink Solution (TM) enables the real time automation of routine patient eligibility, verification, authorizations, claims processing and payment functions. The Company has offices located in Miami, Florida and Rio de Janeiro, Brazil.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. Estimates used in the preparation of the accompanying financial statements include the allowance for doubtful accounts receivable, the useful lives of property, equipment and software development costs and variables used to determine stock-based compensation.

Fair Value of Financial Instruments

The fair value of our cash and cash equivalents, accounts receivable, accounts payable and accrued expenses approximate carrying values due to their short maturities. The fair values of our debt instruments approximate their carrying values based on rates currently available to us.

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

JUNE 30, 2005

NOTE 1 - BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Concentrations of Credit Risk

Financial instruments that potentially subject us to significant concentrations of credit risk consist principally of cash and accounts receivable.

The Company performs certain credit evaluation procedures and does not require collateral for financial instruments subject to credit risk. The Company believes that credit risk is limited because the Company routinely assesses the financial strength of its customers, and based upon factors surrounding the credit risk of its customers, establishes an allowance for uncollectible accounts and, as a consequence, believes that its accounts receivable credit risk exposure beyond such allowances is limited.

Revenue recognition

Revenue from the sale of software products, which do not require any significant production, modification or customization for the Company's targeted customers and do not have multiple elements, is recognized when: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the Company's fee is fixed and determinable, and; (4) collectibility is probable.

Foreign Currency Translation

The assets and liabilities of the Company's foreign subsidiaries are translated into U.S. dollars at the year-end exchange rates, equity is converted historically and all revenue and expenses are translated into U.S. dollars at the average exchange rates prevailing during the periods in which these items arise. Translation gains and losses are deferred and accumulated as a component of other comprehensive income or loss in stockholders' deficit. Transaction gains and losses that arise from exchange rate fluctuations on transactions denominated in a currency other than the functional currency (TDS - Brazilian Real, Transax Australia, - Australian dollar and Transax and the Company - USD) are included in the Statement of Operations as incurred.

Stock-based compensation

The Company accounts for stock options issued to employees in accordance with the provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations. As such, compensation cost is measured on the date of grant as the excess of the current market price of the underlying stock over the exercise price. Such compensation amounts are amortized over the respective vesting periods of the option grant. The Company adopted the disclosure provisions of SFAS No. 123, "Accounting for Stock-Based Compensation" and SFAS 148, "Accounting for Stock-Based Compensation -Transition and Disclosure", which permits entities to provide pro forma net income (loss) and pro forma earnings (loss) per share disclosures for employee stock option grants as if the fair-valued based method defined in SFAS No. 123 had been applied. The Company accounts for stock options and stock issued to non-employees for goods or services in accordance with the fair value method of SFAS 123.

The exercise prices of all options granted by the Company exceeded the market price at the dates of grant. No compensation expense has been recognized. Had compensation cost for the stock option plan been determined based on the fair value of the options at the grant dates consistent with the method of SFAS 123, "Accounting for Stock Based Compensation", the Company's net income and income per share would have been changed to the pro forma amounts indicated below for

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

the six months ended June 30, 2005 and 2004:

TRANSAX INTERNATIONAL LIMITED
 NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
 JUNE 30, 2005

NOTE 1 - BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
 (CONTINUED)

Stock-based compensation (continued)

	Six months ended June 30,	
	2005	2004
Net loss as reported	\$ (265,861)	\$ (544,384)
Less: total stock-based employee compensation expense determined under fair value based method, net of related tax effect	(50,871)	-
Pro forma net loss	\$ (316,732)	\$ (544,384)
	=====	=====
Basic and diluted loss per share:		
As reported	\$ (.01)	\$ (.04)
	=====	=====
Pro forma	\$ (.01)	\$ (.04)
	=====	=====

The option grants are estimated as of the date of grant using the Black-Scholes option-pricing model with the following assumptions used for grants as of June 30, 2005: expected volatility of 205%; risk free interest rate of 3.25%; expected life of 5 years and annual dividend rate of 0%.

Loss per common share

Basic income (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted income per share is computed by dividing net income by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during each period. At June 30, 2005, there were options and warrants to purchase 12,926,070 shares of common stock, which could potentially dilute future earnings per share, but which are anti-dilutive for the periods presented above.

Comprehensive Loss

Other comprehensive loss, which currently includes only foreign currency translation adjustments, is shown in the Statement of Changes in Stockholders' Deficit.

Recent accounting pronouncements

In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Accounting Standards ("SFAS") No. 123R, "Share-Based Payment, an Amendment of FASB Statement No. 123" ("SFAS No. 123R"). FAS No. 123R requires companies to recognize in the statement of operations the grant-date fair value

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

of stock options and other equity-based compensation issued to employees. SFAS No. 123R is effective for the first fiscal year beginning after December 15, 2005. The Company is in the process of evaluating the impact of this pronouncement on its financial position.

In December 2004, the FASB issued SFAS Statement No. 153, "Exchanges of Non-monetary Assets." The Statement is an amendment to APB Opinion No. 29 which eliminates the exception for non-monetary exchanges of similar productive assets and replaces it with a general exception for exchanges of non-monetary assets that do not have commercial substance. The Company believes that the adoption of this standard will have no material impact on its financial statements.

-8-

TRANSAX INTERNATIONAL LIMITED NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2005

NOTE 1 - BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent accounting pronouncements (continued)

In May 2005, FASB issued FASB Statement 154, "Accounting Changes and Error Corrections -- a replacement of APB Opinion No. 20 and FASB Statement No. 3" ("SFAS 154"). SFAS 154 changes the requirements for the accounting for and reporting of a change in accounting principle. The provisions of SFAS 154 require, unless impracticable, retrospective application to prior periods' financial statements of (1) all voluntary changes in principles and (2) changes required by a new accounting pronouncement, if a specific transition is not provided. SFAS 154 also requires that a change in depreciation, amortization, or depletion method for long-lived, non-financial assets be accounted for as a change in accounting estimate, which requires prospective application of the new method. SFAS 154 is effective for all accounting changes made in fiscal years beginning after December 15, 2005.

NOTE 2 - RELATED PARTY TRANSACTIONS

Convertible Loans Payable

At December 31, 2004, the Company had loans payable for \$200,000 and \$100,000 to a related party whose officer is an officer of the Company. On March 23, 2005, the Company modified the terms of its convertible loans to this related party. Under the modified terms, \$200,000 of principal due under the convertible loans is due on March 31, 2007 and is convertible into the Company's common stock at \$.125 per share. The remaining principal of \$100,000 is due on April 30, 2007 and is convertible into the Company's common stock at \$.125 per share. For each common share received upon conversion of the principal balance, the related party is entitled to receive one warrant to purchase the Company's common stock at \$.25 per share for a period of two years from the conversion date. The interest rate of the loan is 12% per annum compounded monthly. On June 28, 2005, the holder of the notes partially exercised the conversion feature. Accordingly, the Company issued 400,000 shares and 400,000 warrants to purchase common stock of the Company for the conversion of principal balance of \$50,000. The Company also issued 35,770 shares of common stock to settle \$4,471 in interest due on these loans. At June 30, 2005, interest due on these two loans amounted to \$24,836 and the aggregate principal amount due is \$250,000. During the six months ended June 30, 2005 and 2004, the Company incurred \$17,852 and \$24,132, respectively, in interest related to these two loans. The Company did not incur beneficial conversion charges because the conversion price was equivalent to the average offering price for equity when these loans became convertible.

TRANSAX INTERNATIONAL LIMITED
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2005

NOTE 2 - RELATED PARTY TRANSACTIONS (CONTINUED)

Due to Related Parties

As of June 30, 2005 the Company had \$20,905 of advances payable and accrued interest due to a related party whose officer is an officer of the Company.

For the six months ended June 30, 2005 and 2004, the Company incurred \$82,500 and \$66,000, respectively, in management fees to an officer/director of the Company. On January 14, 2005, the board of directors voted to increase the compensation paid to this officer/director from \$11,000 per month to \$13,750 per month, effective January 1, 2005. On March 28, 2005, the Company issued 400,000 shares of common stock at \$.126 per share to this officer/director for settlement of \$50,500 of this debt. The fair market value of these shares was based on the average price of the Company's shares traded between March 14 and March 27, 2005. On June 28, 2005, the Company issued 300,000 shares of common stock at \$.11 per share to this officer/director for settlement of \$33,000 of this debt. The fair market value of these shares was based on the average price of the Company's shares traded between June 14 and June 27, 2005. At June 30, 2005, \$137,343 in management fees and other expenses were outstanding to this officer/director and are included in due to related parties on the accompanying balance sheet. The amounts due are unsecured, non-interest bearing and are payable on demand.

At June 30, 2005, \$14,152 in management fees and expenses payable was due to a director of the Company and is included in due to related parties on the accompanying balance sheet. The amounts due are unsecured, non-interest bearing and are payable on demand.

Loan Payable - Related Party

On March 5, 2004, the Company borrowed Euro 115,000 (\$138,759 at June 30, 2005) from an officer of the Company for working capital purposes. The loan accrues 0.8% compounded interest per month, has a term of twelve months, and the debt is repayable quarterly in arrears. During the six months ended June 30, 2005 and 2004, the Company incurred \$7,225 and \$3,721, respectively, in interest related to this loan. As at June 30, 2005, \$3,312 in interest was accrued on this loan and is included in loan payable - related party on the accompanying balance sheet. The officer agreed to extend the loan for an additional twelve months until March 2006.

NOTE 3 - FINANCING ARRANGEMENTS

Loan Payable

On October 25, 2004, the Company and Cornell Capital Partners entered into a Securities Purchase Agreement, pursuant to which Cornell Capital Partners purchased two 5% secured convertible debentures. The initial convertible debenture in the original principal amount of \$125,000 was dated October 25, 2004 and the second convertible debenture in the original principal amount of \$125,000 was dated January 4, 2005 (collectively, the "Original Debentures"). In connection with the terms of the original debentures, for the six months ended June 30, 2005, the Company recorded a beneficial conversion amount of \$31,250 as interest expense since the debentures were immediately convertible. On May 17,

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

2005, the Company and Cornell Capital Partners entered into a \$255,237 Promissory Note (the "Note"), whereby the Original Debentures were terminated. This Note represents the outstanding principal balance of \$250,000 on the Original Debentures, plus accrued but unpaid interest through April 30, 2005 equal to \$5,237. The Note bears interest at a rate of 12% per annum and is secured by stock pledged by certain shareholders of the Company. As of June 30, 2005, the Company has accrued interest payable of \$2,552 related to this Note which is included in accounts payable and accrued expenses on the accompanying balance sheet.

-10-

TRANSAX INTERNATIONAL LIMITED NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2005

NOTE 3 - FINANCING ARRANGEMENTS (CONTINUED)

Debenture Payable

On April 1, 2005, the Company entered into a Securities Purchase Agreement with Scott and Heather Grimes, Joint Tenants - with Rights of Survivorship (the "Investor"). Pursuant to the Securities Purchase Agreement, the Company issued convertible debentures to the Investor in the original principal amount of \$250,000. The debentures are convertible at the holder's option any time up to maturity at a conversion price equal to the lower of (i) 120% of the closing bid price of the common stock on the date of the debentures or (ii) 80% of the lowest closing bid price of the common stock for the five trading days immediately preceding the conversion date. The debentures have a two-year term and accrue interest at 5% per year. At maturity, the debentures will automatically convert into shares of common stock at a conversion price equal to the lower of (i) 120% of the closing bid price of the common stock on the date of the debentures or (ii) 80% of the lowest closing bid price of the common stock for five trading days immediately preceding the conversion date.

The Company determined that the conversion feature of the convertible debentures represents an embedded derivative since upon conversion the debentures are convertible into a variable number of shares. Accordingly, the convertible debentures are not considered to be conventional debt under EITF 00-19 and the embedded conversion feature must be bifurcated from the debt host and accounted for as a derivative liability in accordance with SFAS 133 and EITF 00-19. The change in the fair value of the liability for derivative contracts will be credited to other income/(expense) in the consolidated statements of operations.

The embedded derivative included in this debenture resulted in an initial debt discount of \$250,000 and an initial loss on the valuation of derivative liabilities of \$44,299. The debt discount is being amortized over the term of the debenture. At the end of each reporting period, the Company revalues this derivative liability. For the six months ended June 30, 2005, after adjustment, the Company recorded a loss on valuation of derivative liability of \$15,804.

The amount allocated as a discount on the debenture for the value of the conversion option is being amortized to interest expense, using the effective interest method, over the term of the debenture. Additionally, the Company paid fees of \$38,262 in connection with this debenture. These fees are recorded as deferred offering costs on the balance sheet and are being amortized over the debenture term.

Amortization expense for the six months ended June 30, 2005 for both the discount on the debenture and the deferred offering costs was approximately \$36,000 and is included in interest expense.

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

At the date of inception and at the valuation date of June 30, 2005, the following assumptions were applied to the convertible debt:

	At Inception	At June 30, 2005
Market Price:	\$ 0.140	\$ 0.100
Exercise Price:	\$ 0.104	\$ 0.128
Term:	2 Years	1.75 Years
Volatility:	203%	206%
Risk-free interest rate:	3.25%	3.64%

The convertible debenture liability is as follows at June 30, 2005:

Convertible debenture payable	\$ 250,000
Less: unamortized discount on debenture	(218,749)

Convertible debenture, net	\$ 31,251

NOTE 3 - FINANCING ARRANGEMENTS (CONTINUED)

Standby Equity Distribution Agreement

On October 25, 2004, the Company entered into a Standby Equity Distribution Agreement with Cornell Capital Partners. Pursuant to the Standby Equity Distribution Agreement, the Company could, at its discretion, periodically sell to Cornell Capital Partners shares of common stock for a total purchase price of up to \$5.0 million.

On May 17, 2005, the Company entered into a Termination Agreement with Cornell Capital Partners, whereby that certain Standby Equity Distribution Agreement, dated October 25, 2004, and the related Registration Rights Agreement, Placement Agent Agreement and Escrow Agreement of even date therewith were terminated.

Upon execution of the Termination Agreement, the Company entered into a new Standby Equity Distribution Agreement with Cornell Capital Partners on May 17, 2005. Pursuant to the Standby Equity Distribution Agreement, the Company may, at its discretion, periodically sell to Cornell Capital Partners shares of common stock for a total purchase price of up to \$5.0 million. For each share of common stock purchased under the Standby Equity Distribution Agreement, Cornell Capital Partners will pay the Company 97% of, or a 3% discount to, the lowest closing bid price of the Company's common stock on the Over-the-Counter Bulletin Board or other principal market on which the Company's common stock is traded for the five days immediately following the notice date. Cornell Capital Partners will also retain 5% of each advance under the Standby Equity Distribution Agreement. Cornell Capital Partner's obligation to purchase shares of the Company's common stock under the Standby Equity Distribution Agreement is subject to certain conditions, including the Company obtaining an effective registration statement for shares of common stock sold under the Standby Equity Distribution Agreement and is limited to \$200,000 per weekly advance and \$1,000,000 per 30 days.

Under the now-terminated Standby Equity Distribution Agreement (SEDA) originally dated October 25, 2004 and the terminated compensation debenture in December 2004, Cornell Capital Partners received a one-time commitment fee in the form of

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

1,201,779 shares of common stock in the amount of \$200,000. In December 2004, the Company valued the common shares issued to Cornell at the fair market value on the dates of grant or \$0.1664 per share or \$200,000 based on the quoted trading price for the stock. From December 2004 through May 27, 2005, the Company renegotiated the terms of the SEDA and the related agreements and did not amortize the commitment fee. At June 30, 2005, the commitment fee was deemed to be a deferred debt offering cost on the accompanying balance sheet and will be amortized as a financing expense over the effective period of 24 months or less if funded earlier. Since as of June 30, 2005, the Company's registration was not yet declared effective, the Company did not begin amortizing the commitment fee.

NOTE 4 - STOCKHOLDERS' DEFICIT

Common Stock

On January 14, 2005, the Company entered into a six-month consulting contract for business development services. In connection with the agreement, the Company issued 400,000 shares of common stock. On May 10, 2005, the Company cancelled this contract and cancelled 200,000 shares that were due on this contract. The Company valued these common shares at the fair market value on the date of grant of \$0.16 based on the quoted trading price and recorded stock-based consulting expense of \$42,667 through the date of cancellation.

On January 14, 2005, the Company entered into a consulting contract for business development services. In connection with the agreement, the Company issued 100,000 shares of common stock. The Company valued these common shares at the fair market value on the date of grant of \$0.16 based on the quoted trading price and recorded stock-based compensation expense of \$16,000.

-12-

TRANSAX INTERNATIONAL LIMITED
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2005

NOTE 4 - STOCKHOLDERS' DEFICIT (CONTINUED)

Common Stock (continued)

On March 21, 2005, the Company entered into a consulting contract for business development services. In connection with the agreement, the Company issued 150,000 shares of common stock. The Company valued these common shares at the fair market value on the dates of grant or \$0.14 or \$21,000 based on the quoted trading price and recorded stock-based consulting expense of \$11,375 and deferred consulting expense of \$9,625 to be amortized over the remaining service period.

On March 28, 2005, the Company issued 400,000 shares of common stock to settle \$50,500 in debt due to an officer/director of the Company. The Company valued these common shares at the fair market value on the date of grant of \$0.126.

On June 28, 2005, the holder of the related party loans (see note 2) exercised the conversion feature. Accordingly, the Company issued 400,000 shares at the conversion price of \$.125 per share and 400,000 warrants to purchase common stock of the Company at \$.25 per share (see note 3) for the conversion of principal balance of \$50,000. The Company also issued 35,770 shares of common stock to settle \$4,471 in interest due on these loans.

On June 28, 2005, the Company issued 300,000 shares of common stock at \$.11 per share, the fair market value on the date of grant, to this officer/director for

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

settlement of \$33,000 of this debt.

Stock Options

On November 28, 2004, the Company adopted a 2004 Incentive Stock Option Plan (the "Plan"). The Plan provides options to be granted, exercisable for a maximum of 2,500,000 shares of common stock. Both incentive and nonqualified stock options may be granted under the Plan. The exercise price of options granted, the expiration date, and the vesting period, pursuant to this plan is determined by a committee.

On January 14, 2005, the board of directors elected to extend the expiration date of 373,570 warrants from December 31, 2004 to December 31, 2005.

On May 5, 2005, the Company granted options to purchase an aggregate of 1,000,000 shares of common stock to employees, officers and directors of the Company. The options are exercisable at \$0.15 per share, which exceeds the fair market value of the common stock at the grant date. Accordingly, under APB 25, no compensation expense was recognized. The options expire on May 5, 2010.

A summary of the status of the Company's outstanding stock options as of June 30, 2005 and changes during the period then ended is as follows:

	Shares	Weighted Average Exercise Price
	-----	-----
Outstanding at December 31, 2004	2,425,000	0.41

TRANSAX INTERNATIONAL LIMITED
 NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
 JUNE 30, 2005

NOTE 5 - LITIGATION

An action has been brought against the Company by its former stock transfer agent who alleges, among other items, that the Company breached its contract

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

with the transfer agent. The Company has filed an answer to the action and a portion of the action has been dismissed by the court. The Company intends to vigorously defend itself against the remainder of the action. Counsel has advised the Company that there is a better than fifty percent chance that a potential loss will be incurred. Accordingly, as of December 31, 2004, an accrual of \$50,000 was recorded which, as of June 30, 2005, is included in accounts payable and accrued expenses on the accompanying balance sheet.

NOTE 6 - FOREIGN OPERATIONS

The Company identifies its operating segments based on its business activities and geographical locations. The Company operates within a single operating segment, being a provider of information network solutions specifically designed for healthcare providers and health insurance companies. The Company operates in Brazil, Australia and Mauritius, and has a registered mailing address in Singapore and in the USA. All of the Company's assets are located in Brazil.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2005

NOTE 7 - GOING CONCERN

Since inception, the Company has incurred cumulative net losses of \$8,745,797, has a stockholders' deficit of \$1,518,612 at June 30, 2005 and has a working capital deficit of \$1,798,720. Since its inception, the Company has funded operations through short-term borrowings and equity investments in order to meet its strategic objectives. The Company's future operations are dependent upon external funding and its ability to increase revenues and reduce expenses. Management believes that sufficient funding will be available from additional related party borrowings and private placements to meet its business objectives, including anticipated cash needs for working capital, for a reasonable period of time. Additionally, under the current roll out schedules with its clients, the Company expects to increase its revenues significantly during 2005 with the expectation of the Company becoming a profitable entity. However, there can be no assurance that the Company will be able to obtain sufficient funds to continue the development of its software products and distribution networks. Further, since fiscal 2000, the Company has been deficient in the payment of Brazilian payroll taxes and Social Security taxes. At June 30, 2005, these deficiencies (including interest and fines) amounted to approximately \$762,000. This payroll liability is included as part of the accounts payable and accrued expenses (short-term and long-term) within the consolidated balance sheet.

As a result of the foregoing, there exists substantial doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 8 - SUBSEQUENT EVENTS

On July 15, 2005, the Company entered into a one-year consulting contract for public relations services. For services rendered, the Company shall pay \$5,000 per month payable in cash and/or free-trading common stock. In connection with this agreement, the Company issued 200,000 shares of common stock. The Company valued these common shares at the fair market value on the dates of grant of \$0.15 per share or \$30,000 based on the quoted trading price and recorded deferred consulting expense of \$30,000 to be amortized over the service period.

NOTE 9 - RESTATEMENT

After reviewing certain accounting principles, the Company had applied in previously issued financial statements, management has determined that the Company's accounting for the embedded derivative option related to the Company's debenture payable should have been classified as a liability on the accompanying balance sheet and revalued at the end of each period in accordance with SFAS No. 133 and EITF 00-19. Consequently, management is restating its quarterly financial statements as of June 30, 2005 and for the three and six months then ended. The change in presentation of the Company's embedded derivative feature associated with its debenture payable has the effect of increasing total assets by \$33,479, increasing liabilities by \$80,533, increasing the stockholders' deficit by \$47,055 as of June 30, 2005, and decreasing the Company's net loss by \$15,445 for the three and six months ended June 30, 2005, respectively. This change in presentation of the Company's embedded derivative feature affected some of the items within the Company's consolidated statement of cash flows for the six months ended June 30, 2005 but did not impact cash at the end of the period. Accordingly, the adjustments to the balance sheet, statement of operations, and statement of cash flows are summarized as follows:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

This report on Form 10-QSB contains forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those discussed in the forward-looking statements and from historical results of operations. Among the risks and uncertainties which could cause such a difference are those relating to our dependence upon certain key personnel, our ability to manage our growth, our success in implementing the business strategy, our success in arranging financing where required, and the risk of economic and market factors affecting us or our customers. Many of such risk factors are beyond the control of the Company and its management.

GENERAL

Transax International Limited, a Colorado corporation (the "Company"), currently trades on the OTC Bulletin Board under the symbol "TNSX". Transax International Limited is referred to in this Form 10-QSB as "we".

Through our wholly-owned subsidiary TDS Telecommunication Data Systems LTDA ("TDS"), we are an international provider of health information management products (collectively, the "Health Information Management Products"), which are specifically designed for the healthcare providers and health insurance companies. We are dedicated to improving healthcare delivery by providing to hospitals, physician practices and health insurance companies with innovative health information management systems to manage coding, compliance, abstracting and record management processes. We have developed a proprietary software trademarked (Brazil only) "MedLink Solution", which was specifically designed and developed for the healthcare and health insurance industry enabling the real time automation of routine patient eligibility, verifications, authorizations, claims processing and payment functions that are currently performed manually (the "MedLink Solution").

RESULTS OF OPERATIONS

SIX-MONTH PERIOD ENDED JUNE 30, 2005 COMPARED TO SIX-MONTH PERIOD ENDED JUNE 30, 2004

Our net losses during the six-month period ended June 30, 2005 were \$265,861 compared to a net loss of \$544,384 during the six-month period ended June 30, 2004. During the six month period ended June 30, 2005, we generated \$1,501,431 in net revenues compared to \$450,199 in net revenues for the six months ended June 30, 2004, an increase of \$1,051,232 or 233.5%. The significant increase in revenues is due to the continued rollout of software contracts in Brazil. We undertook approximately 3.0 million "real-time" transactions during the first and second quarter of 2005 compared to 1.1 million "real-time" transactions during the same period in 2004. We installed a record 1043 Point of Sales (POS) solutions during the six months ended June 30, 2005. At the end of June 2005 we had 4,600 solutions operational in Brazil including 2345 Point of Sales solutions.

-20-

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION (CONTINUED)

SIX-MONTH PERIOD ENDED JUNE 30, 2005 COMPARED TO SIX-MONTH PERIOD ENDED JUNE 30, 2004

During the six-month period ended June 30, 2005, we incurred operating expenses of \$1,596,323 compared to operating expenses of \$890,578 incurred during the six-month period ended June 30, 2004, an increase of \$705,745 or 79.2%. The increase in operating expenses during the six-month period ended June 30, 2005 from the same period in 2004 resulted from: (i) an increase of \$350,147, or approximately 141.8%, in cost of product support services resulting from the increase in net revenues; (ii) an increase of \$41,887, or approximately 25.4%, in payroll and related benefits due to an increase in employees needed to handle our increased operations; (iii) an increase of \$172,048, or 93%, in general and administrative expenses resulting from increased operating costs associated with increased operations; (iv) an increase of \$80,042, or 100%, in stock-based compensation and consulting fees as a result of an increase in stock issuances to employees, officers and consultants; (v) an increase of \$68,853, or approximately 198%, in depreciation and amortization expense as a result of an increase in property and equipment acquired for our TDS operations, (vi) an increase in research and development costs of \$42,041 related to increased amortization of development costs associated with our software, and (vii) an increase in professional fees of \$37,564 related to our SEC filings and filing of a registration statement of form SB-2.

Certain operating expenses, however, decreased during the six-month period ended June 30, 2005 from the same period in 2004 as follows: (i) a decrease of \$82,835, or 52.5%, in management and consulting fees, which is attributable to a decrease in the use of consultants; and (ii) a decrease of \$4,002, or approximately, 20.4%, in investor relation fees attributable to a decrease in the use of investor relations services.

We reported a loss from operations of \$94,892 for the six-month period ended June 30, 2005 as compared to a loss from operations of \$440,379 for the six-month period ended June 30, 2004. Although there can be no assurances, we anticipate that during the fiscal year 2005, our ongoing marketing efforts and product roll-out will result in an increase in our net sales from those reported in the six months ended June 30, 2005. To support these increased sales, we anticipate that our operating expenses will also increase during the fiscal year 2005 as compared to the fiscal 2004. We are, however, unable to predict at this time the amount of any such increase in operating expenses.

Total other expenses increased \$66,964, or approximately 64.4%, for the six months ended June 30, 2005 as compared to the six months ended June 30, 2004. Included in this change is: (i) an increase in other income of \$29,717 due to the income recognized upon settlement of accounts payable balances which were settled for less than the original obligation.; (ii) an increase of \$106,430 or approximately 124.2%, in interest expense for the six months ended June 30, 2005 as compared to the six months ended June 30, 2004 which reflects an increase in our borrowings during six months ended June 30, 2005, interest expense recorded in connection with the discount on the Convertible Debenture and with the grant of warrants upon debt conversion of \$31,200; (iii) an increase of \$25,553 in foreign exchange rate gains due to a favorable fluctuation in the exchange rate between Brazil and the United States, and (iv) \$15,804 expense recognized for the change in the valuation of the derivative liability.

For the six months ended June 30, 2005, our net loss was \$265,861 or \$0.01 per common share compared to a net loss of \$544,384 or \$0.04 per common share for the six month period ended June 30, 2004.

THREE-MONTH PERIOD ENDED JUNE 30, 2005 COMPARED TO THREE-MONTH PERIOD ENDED JUNE

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

30, 2004

Our net losses during the three-month period ended June 30, 2005 were \$167,042 compared to a net loss of \$112,214 during the three-month period ended June 30, 2004. During the three-month period ended June 30, 2005, we generated \$861,023 in net revenues compared to \$312,615 in net revenues for the three-months ended June 30, 2004, an increase of \$548,408 or 175.4%. The significant increase in revenues is due to the continued rollout of software contracts in Brazil as discussed above.

-21-

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION (CONTINUED)

During the three-month period ended June 30, 2005, we incurred operating expenses of \$916,787 compared to operating expenses of \$391,324 incurred during the three-month period ended June 30, 2004, an increase of \$525,463 or 134.3%. The increase in operating expenses during the three-month period ended June 30, 2005 from the same period in 2004 resulted from: (i) an increase of \$232,534, or approximately 143.5%, in cost of product support services resulting from the increase in net revenues; (ii) an increase of \$19,802, or approximately 23.8%, in payroll and related benefits due to an increase in employees needed to handle our increased operations; (iii) an increase of \$98,929, or 119.2%, in general and administrative expenses resulting from increased operating costs associated with increased operations; (iv) an increase of \$26,500, or 100%, in stock-based compensation and consulting fees as a result of an increase in stock issuances to employees, officers and consultants; (v) an increase of \$42,273, or approximately 252.3%, in depreciation and amortization expense as a result of an increase in property and equipment acquired for our TDS operations, (vi) an increase in research and development costs of \$22,074 related to increased amortization of development costs associated with our software, and (vii) an increase in professional fees of \$123,038 related to our SEC filings and the filing of a registration statement, Form SB-2.

Certain operating expenses, however, decreased during the three-month period ended June 30, 2005 from the same period in 2004 as follows: (i) a decrease of \$37,650, or 47.7%, in management and consulting fees, which is attributable to a decrease in the use of consultants; and (ii) a decrease of \$2,037, or approximately, 72.1%, in investor relation fees attributable to a decrease in the use of investor relations services.

We reported a loss from operations of \$55,764 for the three-month period ended June 30, 2005 as compared to a loss from operations of \$78,709 for the three-month period ended June 30, 2004.

Total other expenses increased \$77,773, or approximately 232.1%, for three months ended June 30, 2005 as compared to three months ended June 30, 2004. Included in this change is: (i) a decrease in other expense of \$11,372 as reported for the three months ended June 30, 2004.; (ii) an increase of \$79,082, or approximately 196.1%, in interest expense for the three months ended June 30, 2005 as compared to the three months ended June 30, 2004, (iii) an increase of \$5,741 in foreign exchange rate gains due to a favorable fluctuation in exchange rate between Brazil and the United States, and (iv) \$15,804 expense recognized for the change in the valuation of the derivative liability.

Therefore, our net loss during the three month period ended June 30, 2005 was \$167,042 or \$0.01 per common share compared to a net loss of \$112,214 or \$0.01 per common share for the three month period ended June 30, 2004.

LIQUIDITY AND CAPITAL RESOURCES

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

As of June 30, 2005, our current assets were \$534,525 and our current liabilities were \$2,333,245, which resulted in a working capital deficit of \$1,798,720. As of June 30, 2005, our total assets were \$1,771,040 consisting of: (i) \$64,221 in cash; (ii) \$100,578 in prepaid expenses and other assets; (iii) \$369,726 in accounts receivable; (iv) 279,878 in net software development costs; (v) \$720,758 in net valuation of property and equipment; (vi) deferred debt offering costs of \$233,479 which will be amortized into interest expense over time and (vii) \$2,400 of other assets.

As of June 30, 2005, our total liabilities were \$3,289,652 consisting of: (i) \$1,874,109 in long-term and current portion of accounts payable and accrued expenses; (ii) \$172,400 due to related parties; (iii) \$274,836 in convertible loans to related parties; (iv) \$142,071 in loan payable to related parties; (v) \$71,051 in long-term and current portion of capital lease obligation; (vi) \$31,251 in convertible debenture payable, net of unamortized discount of \$218,749; (ix) \$458,130 in long-term and current portions of loan payable, and (x) \$265,804 in convertible feature liability related to the convertible debenture.

-22-

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION (CONTINUED)

As at June 30, 2005, our current liabilities were \$2,333,244 compared to \$2,121,551 at December 31, 2004. The increase in current liabilities is due primarily to an increase in accounts payable and accrued expenses and additional loans to fund operations.

For the six months ended June 30, 2005, net cash flow provided by operating activities was \$251,045 compared to net cash used in operating activities of \$114,525 for the six months ended June 30, 2004. The change in cash flows used in operating activities is mainly due to the decrease in operating loss for the period.

Net cash flows used in investing activities amounted to \$484,404 for the six months ended June 30, 2005 compared to \$131,531 for the six months ended June 30, 2004, an increase in cash used in investing activities of \$352,873. The increase is primarily attributable to an increase in the acquisition of property and equipment in order to facilitate our growth in revenues.

Net cash flow provided by financing activities for the six months ended June 30, 2005 was \$407,674 resulting primarily from proceeds from a convertible debenture and loans payable compared to \$218,869 for the six months ended June 30, 2004 resulting from proceeds from related party loans of \$139,500 and advanced from related parties of \$82,500.

In summary, based upon the cash flow activities as previously discussed, for the six months ended June 30, 2005, our overall cash position increased by \$60,131.

PLAN OF OPERATION

Since our inception, we have funded operations through short-term borrowings and equity investments in order to meet our strategic objectives. Our future operations are dependent upon external funding and our ability to increase revenues and reduce expenses. Management believes that sufficient funding will be available from additional related party borrowings and private placements to meet our business objectives including anticipated cash needs for working capital, for a reasonable period of time. However, there can be no assurance that we will be able to obtain sufficient funds to continue the development of our software products and distribution networks.

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

As of the date of this quarterly report, there is substantial doubt regarding our ability to continue as a going concern as we have not generated sufficient cash flow to fund our business operations and material commitments. Our future success and viability, therefore, are dependent upon our ability to develop, provide and market our information network solutions to healthcare providers, health insurance companies and other end-users, and the continuing ability to generate capital financing. We are optimistic that we will be successful in our business operations and capital raising efforts; however, there can be no assurance that we will be successful in generating revenue or raising additional capital. The failure to generate sufficient revenues or raise additional capital may have a material and adverse effect upon us and our shareholders.

We anticipate an increase in operating expenses over the next three years to pay costs associated with such business operations. We may need to raise additional funds. We may finance these expenses with further issuances of our common stock. We believe that any anticipated private placements of equity capital and debt financing, if successful, may be adequate to fund our operations over the next twelve months. Thereafter, we expect we will need to raise additional capital to meet long-term operating requirements. If we raise additional funds through the issuance of equity or convertible debt securities other than to current shareholders, the percentage ownership of our current shareholders would be reduced, and such securities might have rights, preferences or privileges senior to our existing common stock. In addition, additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available, or are not available with acceptable terms, we may not be able to conduct our business operations successfully. The outcome of this uncertainty could significantly and materially restrict our overall business operations.

-23-

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION (CONTINUED)

Based upon a twelve-month work plan proposed by management, it is anticipated that such a work plan would require approximately \$2,000,000 to \$5,000,000 of financing designed to fund current debt commitments and business operations. As of the date of this quarterly report, we entered into a financing agreement with Scott and Heather Grimes, Joint Tenants with Right of Survivorship (the "Investor"). Under the terms of the financing arrangement with the Investor, we issued convertible debentures to the Investor in the original principal amount of \$250,000. The debentures are convertible at the Investor's option any time up to maturity at a conversion price equal to the lower of: (i) 120% of the closing bid price of our Common Stock on the date of the debentures, or (ii) 80% of the lowest closing bid price of our Common Stock for the five trading days immediately preceding the conversion date. The debentures have a two-year term and accrue interest at 5% per year. At maturity, the debentures will automatically convert into shares of our Common Stock at a conversion price equal to the lower of: (i) 120% of the closing bid price of our Common Stock on the date of the debentures, or (ii) 80% of the lowest closing bid price on our Common Stock for five trading days immediately preceding the conversion date. Additionally, we entered into a new Standby Equity Distribution Agreement with Cornell Capital Partners on May 17, 2005. Pursuant to the Standby Equity Distribution Agreement, we may, at our discretion, periodically sell to Cornell Capital Partners shares of common stock for a total purchase price of up to \$5.0 million.

We believe that we can satisfy our cash requirements for the next twelve months based on our ability to enter into additional financing arrangement as necessary. Our future success and viability are primarily dependent upon our current management to generate revenues from business operations and raise additional capital through further private offerings of our stock or loans from private investors. There can be no assurance, however, that we will be able to

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

raise additional capital. Our failure to successfully raise additional capital will have a material and adverse affect upon us and our shareholders.

Certain negative covenants in the Securities Purchase Agreement could substantially impact our ability to raise funds from alternative sources in the future. For example, for as long as the convertible debenture remains outstanding and without the written consent of the debenture holder, the Company (a) shall not directly or indirectly consummate any merger, reorganization, restructuring, reverse stock split consolidation, sale of all or substantially all of the Company's assets or any similar transaction or related transactions; (b) shall not issue or sell shares of common stock or preferred stock without consideration or for a consideration per share less than the bid price of the common stock determined immediately prior to its issuance or issue any warrant, option, right, contract, call, or other security or instrument granting the holder thereof the right to acquire common stock without consideration or for a consideration per share less than the bid price of the common stock determined immediately prior to the issuance of such convertible security; (c) shall not enter into any security instrument granting the holder a security interest in any or all assets of the Company; (d) shall not file any registration statement on Form S-8 except the Company may file one registration statement on Form S-8 for up to 2,500,000 shares of common stock and provided however, anyone receiving shares pursuant to such permitted Form S-8 registration shall be restricted from selling such shares for a period of ninety (90) days after the registration statement becomes effective and (e) shall not, and shall cause each of its subsidiaries not to, enter into, amend, modify or supplement, or permit any subsidiary to enter into, amend, modify or supplement any agreement, transaction, commitment, or arrangement with any of its or any of its subsidiary's officers, directors, person who were officers or directors at any time during the previous two years, stockholders who beneficially own five percent (5%) or more of the Company's common stock, or Affiliates (as defined in the Securities Purchase Agreement) or with any individual related by blood, marriage, or adoption to any such individual or with any entity in which any such entity or individual owns a five percent (5%) or more beneficial interest, except for (i) customary employment arrangements and benefit programs on reasonable terms, (ii) any investment in an Affiliate of the Company, (iii) any agreement, transaction, commitment, or arrangement on an arms-length basis on terms no less favorable than terms which would have been obtainable from a person other than such related party and (iv) any agreement transaction, commitment, or arrangement which is approved by a majority of the disinterested directors of the Company.

-24-

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION (CONTINUED)

OFF BALANCE SHEET ARRANGEMENTS

As of the date of this quarterly report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors. The term "off-balance sheet arrangement" generally means any transaction, agreement or other contractual arrangement to which an entity unconsolidated with us is a party, under which we have: (i) any obligation arising under a guarantee contract, derivative instrument or variable interest; or (ii) a retained or contingent interest in assets transferred to such entity or similar arrangement that serves as credit, liquidity or market risk support for such assets.

CRITICAL ACCOUNTING POLICIES

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

Our financial statements and accompanying notes are prepared in accordance with generally accepted accounting principles in the United States. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. These estimates and assumptions are affected by management's applications of accounting policies. Critical accounting policies for Transax International Limited includes the useful live of property and equipment and accounting for stock based compensation.

Under the criteria set forth in SFAS No. 86, "Accounting for the Costs of Computer Software to be Sold, Leased or Otherwise Marketed," capitalization of software development costs begins upon the establishment of technological feasibility of the software. The establishment of technological feasibility and the ongoing assessment of the recoverability of these costs require considerable judgment by management with respect to certain external factors, including, but not limited to, anticipated future gross product revenues, estimated economic life, and changes in software and hardware technology. Capitalized software development costs are amortized utilizing the straight-line method over the estimated economic life of the software not to exceed three years. We regularly review the carrying value of software development assets and a loss is recognized when the unamortized costs are deemed unrecoverable based on the estimated cash flows to be generated from the applicable software.

-25-

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION (CONTINUED)

We review the carrying value of property and equipment for impairment at least annually or whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of long-lived assets is measured by comparison of its carrying amount to the undiscounted cash flows that the asset or asset group is expected to generate. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the property, if any, exceeds its fair market value.

Accounting for Stock Based Compensation - We account for stock options issued to employees in accordance with the provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations. As such, compensation cost is measured on the date of grant as the excess of the current market price of the underlying stock over the exercise price. Such compensation amounts are amortized over the respective vesting periods of the option grant. The Company adopted the disclosure provisions of SFAS No. 123, "Accounting for Stock-Based Compensation" and SFAS 148, "Accounting for Stock-Based Compensation -Transition and Disclosure", which permits entities to provide pro forma net income (loss) and pro forma earnings (loss) per share disclosures for employee stock option grants as if the fair-valued based method defined in SFAS No. 123 had been applied. The Company accounts for stock options and stock issued to non-employees for goods or services in accordance with the fair value method of SFAS 123. We are required to comply with SFAS No. 123 (revised 2004) starting on the first day of our fiscal year 2006. We are currently evaluating the effect that the adoption of SFAS No. 123 (revised 2004) will have on our consolidated operating results and financial condition. No stock-based compensation cost is currently reflected in net loss for employee option grants as all options granted had an exercise price equal to or exceeding market value of the underlying common stock on the date of grant.

RECENT ACCOUNTING PRONOUNCEMENTS

In December 2004, the FASB issued FASB Statement No. 123R, "Share-Based Payment,

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

an Amendment of FASB Statement No. 123" ("FAS No. 123R"). FAS No. 123R requires companies to recognize, in the statement of operations, the grant-date fair value of stock options and other equity-based compensation issued to employees. FAS No. 123R is effective for the Company on January 1, 2006. We are in process of evaluating the impact of this pronouncement on our financial position.

In May 2005, FASB issued FASB Statement 154, "Accounting Changes and Error Corrections -- a replacement of APB Opinion No. 20 and FASB Statement No. 3" ("FAS 154"). FAS 154 changes the requirements for the accounting for and reporting of a change in accounting principle. The provisions of FAS 154 require, unless impracticable, retrospective application to prior periods' financial statements of (1) all voluntary changes in principles and (2) changes required by a new accounting pronouncement, if a specific transition is not provided. FAS 154 also requires that a change in depreciation, amortization, or depletion method for long-lived, non-financial assets be accounted for as a change in accounting estimate, which requires prospective application of the new method. FAS 154 is effective for all accounting changes made in fiscal years beginning after December 15, 2005.

ITEM 3. CONTROLS AND PROCEDURES

We maintain "disclosure controls and procedures," as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act"), that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. We conducted an evaluation (the "Evaluation"), under the supervision and with the participation of our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), of the effectiveness of the design and operation of our disclosure controls and procedures ("Disclosure Controls") as of the end of the period covered by this report pursuant to Rule 13a-15 of the Exchange Act.

-26-

ITEM 3. CONTROLS AND PROCEDURES (CONTINUED)

Our management, including our CEO and CFO, do not expect that our disclosure controls and internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving our objectives. Our certifying officers have concluded that our disclosure controls and procedures were ineffective as at June 30, 2005. However, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. It is our responsibility and that of our management to identify any deficiencies in internal controls over financial reporting. We discovered certain deficiencies in our internal control over financial reports, which resulted in the restatement of our financial statements as discussed below. The restatement was undertaken to properly reflect an embedded derivative conversion liability related to our debentures payable in accordance with SFAS No. 133 and EITF 00-19 after further consultation with our independent auditors.

We have implemented additional measures as part of changes to our internal controls to determine and ensure that information required to be disclosed in reports filed under the exchange Act was recorded, processed, summarized and reported within the time periods specified in the rules and forms including, but not limited to, the following: (i) engagement of a third party to assist us with

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

documenting processes, performing testing and reviewing our internal control over financial reporting in connection with our assessment under Section 404 of the Sarbanes-Oxley Act; (ii) evaluation and implementation of improvements to our accounting and management information systems; and (iii) development and implementation of a remediation plan to address any perceived deficiencies identified by the Securities and Exchange Commission in our internal control over financial reporting. The costs of these additional measures did not have a material impact on our future results or operations liquidity.

On July 6, 2006, we announced that we were restating our Consolidated Balance Sheet at June 30, 2005 and our Consolidated Statement of Operations and Statement of Cash Flows for the period ended June 30, 2005 to properly reflect an embedded derivative conversion liability related to our debenture payable in accordance with SFAS No. 133 and EITF 00-19. The change in presentation of the Company's embedded derivative feature associated with its debenture payable has the effect of increasing total assets by \$33,479, increasing liabilities by \$80,533, increasing the stockholders' deficit by \$47,054 as of June 30, 2005, and decreasing the Company's net loss by \$15,446 for the three and six months ended June 30, 2005, respectively. This change in presentation of the Company's embedded derivative feature affected some of the items within the Company's consolidated statement of cash flows for the six months ended June 30, 2005 but did not impact cash at the end of the period.

Our certifying officers have concluded that our disclosure controls and procedures were ineffective as at June 30, 2005 related to the presentation of derivative liabilities. However, we believe that the implementation of changes to our internal controls and procedures as detailed above has corrected this deficiency.

-27-

ITEM 3. CONTROLS AND PROCEDURES (CONTINUED)

Other than the changes related to the proper presentation and recording of derivative liabilities, there were no changes during our last fiscal quarter in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 under the Exchange Act with respect to the period ended June 30, 2005 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management or board override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

-28-

PART II

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

Item 1 - Legal Proceedings

On March 14, 2005, X-Clearing Corp, a Colorado corporation ("X-Clearing"), our former transfer agent, initiated legal proceedings against us by filing a complaint and verified motion for replevin and for temporary order to preserve property in the District Court of the City and County of Denver, State of Colorado, civil action no. 05 CV 1980 (the "Complaint"). During September 2001, we had entered into an agreement with X-Clearing Corp. regarding engagement as our transfer agent, registrar and disbursing agent in connection with our shares of Common Stock (the "Transfer Agent Agreement"). The Complaint generally alleges that: (i) we have breached and wrongfully attempted to terminate the Transfer Agent Agreement; (ii) X-Clearing has a valid and perfected security interest in our books and records in accordance with the terms of the Transfer Agent Agreement; and (iii) X-Clearing is entitled to an order from the District Court replevining and preventing us from altering, destroying or otherwise interfering with the valid and perfected security interest and liquidated damages.

On April 5, 2005, we filed an answer to Complaint, counterclaims and jury demand (the "Answer"). The Answer generally denies that: (i) we breached and attempted to wrongfully terminate the Transfer Agent Agreement; (ii) X-Clearing Corp. has a valid and perfected security interest in our books and records; (iii) X-Clearing is entitled to an order of replevin and liquidated damages. Our Answer further states that: (i) X-Clearing Corp. has failed to take reasonable steps to minimize or mitigate its claimed damages; and (ii) X-Clearing Corp.'s claims are barred by the statute of frauds, doctrine of laches, doctrine of accord and satisfaction. Our Answer further counterclaims that: (i) despite X-Clearing Corp. being paid all administrative fees, share transfer fees and fees for new issuances, X-Clearing Corp. has refused to produce and provide us with our stock transfer records, which has caused us irreparable harm; (ii) X-Clearing Corp. has continued undertaking stock transfers on our behalf and illegally issuing fraudulent stock certificates; and (iii) X-Clearing Corp. has improperly and illegally used our records, which included stock certificates that X-Clearing Corp. has fraudulently created and issued to make stock transfers without notification to us.

On April 7, 2005, we filed a stipulated motion for testimony by telephone and for expedited ruling by court. A hearing was set for April 12, 2005. X-Clearing Corp.'s replevin action was dismissed by the District Court. As of the date of this Quarterly Report, we intend to aggressively pursue all such legal actions and review further legal remedies against X-Clearing Corp.

The parties through legal counsel are currently in negotiation for settlement by mutual agreement.

Other than as disclosed above, we are not aware of any legal proceedings contemplated by any governmental authority or other party involving us or our subsidiaries or our properties. None of our directors, officers or affiliates are: (i) a party adverse to us in any legal proceedings; or (ii) has an adverse interest to us in any legal proceedings. We are not aware of any other legal proceedings pending or that have been threatened against us, our subsidiaries or our properties.

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form 10QSB/A

Item 2 - Unregistered Sales of Equity Securities and Use of Proceeds.

On June 28, 2005, the holder of the related party notes partially exercised the conversion feature. Accordingly, we issued 400,000 shares at the conversion price of \$.125 per share and 400,000 warrants to purchase common stock of the Company at \$.25 per share (see note 2 to the unaudited consolidated financial statements included elsewhere in this filing) for the conversion of principal balance of \$50,000. We also issued 35,770 shares of common stock to settle \$4,471 in interest due on these loans.

On June 28, 2005, we issued 300,000 shares of common stock at \$.11 per share, the fair market value on the date of grant for settlement of \$33,000 of this debt.

The recipients are sophisticated investors who have such knowledge and experience in financial, investment and business matters that they are capable of evaluating the merits and risks of the prospective investment in our securities. The recipients are accredited investors. The issuance was exempt from registration under the Securities Act in reliance on an exemption provided by Section 4(2) of that act.
