**NORTHERN DYNASTY SHAREHOLDERS APPROVE  
\$5 MILLION FINANCING FOR PEBBLE GOLD-COPPER PROJECT**

**July 15, 2003, Vancouver, BC** - Ronald W. Thiessen, President and CEO of Northern Dynasty Minerals Ltd. (TSX Venture: NDM; OTCBB: NDMLF) is pleased to announce that further to Northern Dynasty's news release of June 23, 2003, shareholders' approval for the \$5 million private placement financing with Shambhala Gold Limited was obtained at the reconvened annual and extraordinary general meeting of the Company held July 14, 2003. Shambhala is a private mining finance company based in the United Kingdom and is acquiring the shares of Northern Dynasty for investment purposes. The financing is scheduled to close before July 31, 2003 and is subject to TSX Venture acceptance.

This \$5 million equity placement, the potential exercise of the associated warrants by June 12, 2004 (\$6.25 million) and the currently outstanding dilutables (\$3 million) together with cash on hand (\$0.9 million), provide for a cumulative total of \$15 million in potential funding to facilitate the rapid advancement of Northern Dynasty's Pebble gold-copper project in southwestern Alaska, USA.

An initial phase of core drilling has been successfully completed at the Pebble property, consisting of 25 holes totaling 20,693 feet, with 18 holes drilled in the "Resource Lands" and 7 holes completed in the "Exploration Lands". Assay results for this phase are expected to be received and compiled by the second week of August and will be reported at that time. The next phase of core drilling will commence in the first week of August and consist of 30,000 feet.

The Pebble deposit is one of the world's largest undeveloped gold and copper resources, containing 13.1 million ounces of gold and 6.8 billion pounds of copper (see news release dated March 31, 2003). The Pebble deposit is only a small part of a giant, 89 square kilometre sulphide system, recently listed as the largest in the world by the United States Geological Survey. These systems typically host multiple large-scale deposits. Northern Dynasty holds options to purchase a 100% interest (subject to no underlying royalty or back-in rights) in the "Resource Lands" hosting the Pebble deposit and can earn a minimum 50% interest in the extensive surrounding "Exploration Lands". Northern Dynasty is a Hunter Dickinson Inc. managed company. Hunter Dickinson Inc. companies have a strong record of success in exploring and developing large gold-copper porphyry projects, several of which have yielded exceptional returns for their shareholders.
