### ITEM 2. VALUATION HIERARCHY

SFAS 157 establishes a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets in which the Fund can participate.

Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset of liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement, and include inputs that are available in situations where there is little, if any, market activity for the related asset or liability.

A financial instrument s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy.

#### Assets

### Common Stock Investments

All of the Fund s common stock investments are classified within Level 1 of the valuation hierarchy as quoted prices are available in an active market.

The following table presents the financial instruments carried at fair value as of March 31, 2009, as identified in Item 1., Schedule of Investments and by the SFAS 157 hierarchy (as described above):

Assets measure at fair value on a recurring basis as of March 31, 2009:

	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Balance at September 30, 2008
Common Stock Investments	\$ 13,949,861	\$	\$	\$ 13,949,861

## ITEM 3. CONTROLS AND PROCEDURES.

(i) As of April 1, 2009, an evaluation of the effectiveness of the registrant s disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) was performed by management with the participation of the registrant s President and Chief Executive Officer (who is the principal executive officer of the registrant) and the registrant s Chief Financial Officer (who is the principal financial officer of the registrant). Based on that evaluation, the registrant s President and Chief Executive Officer and Chief Financial Officer concluded that the registrant s disclosure controls and procedures are effectively designed to ensure that information required to be disclosed by the registrant is recorded, processed, summarized and reported within the time periods specified by the Commission s rules and forms, and that information required to be disclosed by the registrant has been accumulated and communicated to the registrant s management, including its principal executive officer and principal financial officer, or persons performing similar functions as appropriate to allow timely decisions regarding required disclosure.

(ii) There has been no change in the registrant s internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act) that occurred during the last fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant s internal control over financial reporting.
