## Dear Shareholder

The past 12 months reveal two distinct economic and market backdrops – one of extreme investor pessimism and decided weakness, and another of increased optimism amid growing signs of recovery. The start of the period was characterized by the former. September through December 2008 saw the surge of the economic storm that sparked the worst recession in decades. The months featured, among others, the infamous collapse of Lehman Brothers, uniformly poor economic data and plummeting investor confidence that resulted in massive government intervention (on a global scale) in the financial system and the economy. The tide turned dramatically in March 2009, however, on the back of new US government initiatives, as well as better-than-expected economic data and upside surprises in corporate earnings.

In this environment, US equities contended with extraordinary volatility, posting steep declines through mid-March before embarking on a rally that resulted in strong year-to-date returns for all major indexes. June saw a brief correction, though it appeared to be induced more by profit-taking and portfolio rebalancing than by a change in the economic outlook. The experience in international markets was similar to that in the United States. Notably, emerging markets staged a strong comeback in 2009 as these areas of the globe have generally seen a stronger acceleration in economic activity.

In fixed income markets, the flight-to-safety premium in Treasury securities prevailed during the equity market downturn, but more recently, ongoing concerns about deficit spending, debt issuance, inflation and dollar weakness have kept Treasury yields higher. At the same time, relatively attractive yields and distressed valuations among non-Treasury assets, coupled with a more favorable macro environment, drew in sidelined investors and triggered a sharp recovery in these sectors. This was particularly evident in the high yield sector, which has firmly outpaced all other taxable asset classes since the start of 2009. The municipal bond market enjoyed strong returns in 2009 as well, buoyed by a combination of attractive valuations, robust retail investor demand and a slowdown in forced selling. Moreover, the Build America Bond program has alleviated supply pressures, creating a more favorable technical environment. In particular, August marked the municipal market's best monthly performance in more than 20 years, as the asset class has regained year-to-date all that was lost during 2008.

Overall, results for the major benchmark indexes were mixed. Higher-risk assets (i.e., equities and high yield bonds) and Treasuries reflected a bifurcated market, while less-risky fixed income investments posted stable, modest returns.

| <b>Total Returns as of August 31, 2009</b>   | <b>6-month</b> | <b>12-month</b> |
|--|----------------|-----------------|
| US equities (S&P 500 Index)  | 40.52%         | (18.25)%        |
| Small cap US equities (Russell 2000 Index)   | 48.25          | (21.29)         |
| International equities (MSCI Europe, Australasia, Far East Index)                  | 53.47          | (14.95)         |
| US Treasury securities (BofA Merrill Lynch 10-Year US Treasury Index*)             | (1.61)         | 6.77            |
| Taxable fixed income (Barclays Capital US Aggregate Bond Index)                    | 5.95           | 7.94            |
| Tax-exempt fixed income (Barclays Capital Municipal Bond Index)                    | 5.61           | 5.67            |
| High yield bonds (Barclays Capital US Corporate High Yield 2% Issuer Capped Index) | 36.31          | 7.00            |

**Announcement to Shareholders**

---

On June 16, 2009, BlackRock, Inc. announced that it received written notice from Barclays PLC ( Barclays ) in which Barclays Board of Directors had accepted BlackRock's offer to acquire Barclays Global Investors ( BGI ). At a special meeting held on August 6, 2009, BlackRock's proposed purchase of BGI was approved by an overwhelming majority of Barclays' voting shareholders, an important step toward closing the transaction. The combination of BlackRock and BGI will bring together market leaders in active and index strategies to create the preeminent asset management firm. The transaction is scheduled to be completed in the fourth quarter of 2009, subject to important fund shareholder and regulatory approvals.

Trust Summary as of August 31, 2009

BlackRock Core Bond Trust

---

**Investment Objective**

---

**BlackRock Core Bond Trust (BHK) (the Trust)** seeks to provide high current income with the potential for capital appreciation.

No assurance can be given that the Trust's investment objective will be achieved.

---

**Performance**

---

For the 12 months ended August 31, 2009, the Trust returned 11.76% based on market price and 5.28% based on net asset value (NAV). For the same period, the closed-end Lipper Corporate Debt Funds BBB-Rated category posted an average return of 11.92% on a market price basis and 5.72% on a NAV basis. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust's longer duration compared to its Lipper peers detracted from performance as rates rose (prices decreased) during the 12 months. The Trust benefited from its allocation to both spread index sectors, including investment-grade credit and high yield, as well as non-index sectors, such as commercial mortgage-backed and asset-backed securities, which collectively outperformed government sectors during 2009. The Trust also benefited from an increase in leverage during the second half of the year. The Trust employed leverage during the period, which generally detracted from performance in 2008 when markets declined sharply, but helped in the rising market of 2009.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

<sup>5</sup> Includes U.S. Government Sponsored Agency Securities which are deemed AAA/Aaa by the investment advisor.

Trust Summary as of August 31, 2009

BlackRock Corporate High Yield Fund V, Inc.

---

**Investment Objective**

---

**BlackRock Corporate High Yield Fund V, Inc. (HYV) (the Trust)** seeks to provide shareholders with current income by investing primarily in a diversified portfolio of fixed income securities that are rated in the lower rating categories of the established rating services (Ba or lower by Moody's or BB or lower by S&P) or are unrated securities of comparable quality.

No assurance can be given that the Trust's investment objective will be achieved.

---

**Performance**

---

For the 12 months ended August 31, 2009, the Trust returned 8.59% based on market price and (3.83)% based on NAV. For the same period, the closed-end Lipper High Current Yield Funds (Leveraged) category posted an average return of (2.57)% on a market price basis and (10.55)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust maintained relatively defensive sector positioning and relatively low levels of leverage (less than 20%). On balance, that positioning benefited the Trust relative to its more highly levered Lipper competitors, although returns would have been higher over the trailing six-month period had the Trust maintained a higher leverage balance. The Trust maintains a 17% position in floating rate loan interests; this detracted from results as these securities underperformed high yield corporate bonds over the last 12 months. During the period, the Trust moved from a larger cash and short-term investment balance to a balance of less than 2%, which has benefited performance in the rising market of 2009.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

Trust Summary as of August 31, 2009

BlackRock High Yield Trust

---

**Investment Objective**

---

**BlackRock High Yield Trust (BHY) (the Trust)** seeks to provide high current income and to a lesser extent capital appreciation, by investing in a diversified portfolio of below investment grade securities.

No assurance can be given that the Trust's investment objective will be achieved.

---

**Performance**

---

For the 12 months ended August 31, 2009, the Trust returned 9.81% based on market price and (5.30)% based on NAV. For the same period, the closed-end Lipper High Current Yield Funds (Leveraged) category posted an average return of (2.57)% on a market price basis and (10.55)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust moved from a discount to NAV to a premium by period-end, which accounts for the difference between performance based on price and performance based on NAV. The Trust maintained relatively defensive sector positioning and relatively low levels of leverage (less than 20%). On balance, that positioning benefited the Trust relative to its more highly levered Lipper competitors, although returns would have been higher over the trailing six-month period had the Trust maintained a higher leverage balance. The Trust maintains a 13% position in floating rate loan interests; this detracted from results as these securities underperformed high yield over the last 12 months. During the period, the Trust moved from a larger cash and short-term investment balance to a balance of less than 6%, which has benefited performance in the rising market of 2009.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

Trust Summary as of August 31, 2009

BlackRock Income Opportunity Trust, Inc.

---

**Investment Objective**

---

**BlackRock Income Opportunity Trust, Inc. (BNA) (the Trust)** seeks to provide current income and capital appreciation in a portfolio of primarily U.S. dollar-denominated securities.

No assurance can be given that the Trust's investment objective will be achieved.

---

**Performance**

---

For the 12 months ended August 31, 2009, the Trust returned 5.46% based on market price and 3.90% based on NAV. For the same period, the closed-end Lipper Corporate Debt Funds BBB-Rated category posted an average return of 11.92% on a market price basis and 5.72% on a NAV basis. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust's longer duration compared to its Lipper peers detracted from performance as rates rose (prices decreased) during the 12 months. The Trust benefited from its allocation to both spread index sectors, including investment-grade credit and high yield corporate bonds, as well as non-index sectors, such as commercial mortgage-backed and asset-backed securities, which collectively outperformed government sectors during 2009. The Trust employed leverage during the period, which generally detracted from performance in 2008 when markets declined sharply, but helped in the rising market of 2009.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

Trust Summary as of August 31, 2009

BlackRock Income Trust, Inc.

---

**Investment Objective**

---

**BlackRock Income Trust, Inc. (BKT) (the Trust)** seeks to provide high monthly income while preserving capital by investing in a portfolio of mortgage-backed securities.

No assurance can be given that the Trust's investment objective will be achieved.

---

**Performance**

---

For the 12 months ended August 31, 2009, the Trust returned 12.87% based on market price and 7.64% based on NAV. For the same period, the closed-end Lipper US Mortgage Funds category posted an average return of 6.61% on a market price basis and 1.66% on a NAV basis. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. As mortgage markets sold off during the first half of the reporting period, leverage generally detracted from performance, although the Trust's low levels of leverage benefited performance relative to its Lipper peers. The Trust's low leverage position subsequently became a relative detractor as spread sectors rallied during the second quarter of 2009. In most cases, cash in the portfolio is held for pending trade settlements, and therefore does not affect performance. During the second half of the reporting period, the Trust's large allocation to US government sponsored agency mortgage-backed securities (MBS) helped performance. Allocations to non-agency MBS and commercial MBS also added to returns, as those sectors rallied during the second quarter of 2009.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

Trust Summary as of August 31, 2009

BlackRock Strategic Bond Trust

**Investment Objective**

**BlackRock Strategic Bond Trust (BHD) (the Trust )** seeks total return through high current income and capital appreciation.

No assurance can be given that the Trust's investment objective will be achieved.

**Performance**

For the 12 months ended August 31, 2009, the Trust returned 15.34% based on market price and 3.99% based on NAV. For the same period, the closed-end Lipper High Current Yield Funds (Leveraged) posted an average return of (2.57)% on a market price basis and (10.55)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. Unlike most other funds in its Lipper category, the Trust typically invests about 20% to 30% of its portfolio in investment-grade credit. This contributed to performance, particularly early in the period, when investment-grade issues outperformed high yield. Relatively conservative sector and credit positioning also were beneficial, as was a lack of leverage. The Trust maintains a 11% position in floating rate loan interests; this detracted from results as these securities underperformed high yield and corporate bonds over the last 12 months. During the period, the Trust moved from a larger cash and short-term investment balance to a balance of approximately 5%. Cash holdings generally helped performance in 2008 when markets declined sharply, but detracted in the rising market of 2009.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## The Benefits and Risks of Leveraging

The Trusts may utilize leverage to seek to enhance the yield and NAV. However, these objectives cannot be achieved in all interest rate environments.

The Trusts may utilize leverage through borrowings, including participation in the Term Asset-Backed Securities Loan Facility ( TALF ), or through entering into reverse repurchase agreements and dollar rolls. In general, the concept of leveraging is based on the premise that the cost of assets to be obtained from leverage will be based on short-term interest rates, which normally will be lower than the income earned by each Trust on its longer-term portfolio investments. To the extent that the total assets of each Trust (including the assets obtained from leverage) are invested in higher-yielding portfolio investments, each Trust's shareholders will benefit from the incremental net income.

The interest earned on securities purchased with the proceeds from leverage is paid to shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share NAV. However, in order to benefit shareholders, the yield curve must be positively sloped; that is, short-term interest rates must be lower than long-term interest rates. If the yield curve becomes negatively sloped, meaning short-term interest rates exceed long-term interest rates, income to shareholders will be lower than if the Trusts had not used leverage.

To illustrate these concepts, assume a Trust's capitalization is \$100 million and it borrows an additional \$30 million, creating a total value of \$130 million available for investment in long-term securities. If prevailing short-term interest rates are 3% and long-term interest rates are 6%, the yield curve has a strongly positive slope. In this case, the Trust pays borrowing costs and interest expense on the \$30 million of borrowings based on the lower short-term interest rates. At the same time, the securities purchased by the Trust with assets received from the borrowings earn the income based on long-term interest rates. In this case, the borrowing costs and interest expense is significantly lower than the income earned on the Trust's long-term investments, and therefore each Trust's shareholders is the beneficiaries of the incremental net income.

If short-term interest rates rise, narrowing the differential between short-term and long-term interest rates, the incremental net income pickup will be reduced or eliminated completely. Furthermore, if prevailing short-term interest rates rise above long-term interest rates of 6%, the yield curve has a negative slope. In this case, the Trust pays interest expense on the higher short-term interest rates whereas the Trust's total portfolio earns income based on lower long-term interest rates.

Furthermore, the value of the Trusts' portfolio investments generally varies inversely with the direction of long-term interest rates, although other factors can influence the value of portfolio investments. In contrast, the redemption value of the Trusts' borrowings do not fluctuate in relation to interest rates. As a result, changes in interest rates can influence the Trusts' NAV positively or negatively in addition to the impact on Trust performance from leverage from borrowings.

The use of leverage may enhance opportunities for increased income to the Trusts and shareholders, but as described above, it also creates risks as short- or long-term interest rates fluctuate. Leverage also will generally cause greater changes to each Trust's NAV, market price and dividend rate than a comparable portfolio without leverage. If the income derived from securities purchased with assets received from leverage exceeds the cost of leverage, each Trust's net income will be greater than if leverage had not been used. Conversely, if the income from the securities purchased is not sufficient to cover the cost of leverage, each Trust's net income will be less than if leverage had not been used, and therefore the amount available for distribution to shareholders will be reduced. Each Trust may be required to sell portfolio securities at inopportune times or at distressed values in order to comply with regulatory requirements applicable to the use of leverage or as required by the terms of leverage instruments which may cause a Trust to incur losses. The use of leverage may limit each Fund's ability to invest in certain types of securities or use certain types of hedging strategies. Each Trust will incur expenses in connection with the use of leverage, all of which are borne by shareholders of each Trust and may reduce income.

Under the Investment Company Act of 1940, the Trusts are permitted to borrow through a credit facility up to 33 $\frac{1}{3}$ % of their total managed assets. As of August 31, 2009, the Trusts had outstanding leverage from borrowings and/or reverse repurchase agreements as a percentage of their total managed assets as follows:

|     | Percent of<br>Leverage |
|-----|------------------------|
| BHK | 18%                    |
| HYV | 14%                    |
| HYT | 15%                    |
| HIS | 15%                    |

|     |     |
|-----|-----|
| BHY | 10% |
| BNA | 18% |
| BKT | 3%  |

### Derivative Financial Instruments

The Trusts may invest in various derivative instruments, including financial futures contracts, swaps and foreign currency exchange contracts, as specified in Note 2 of the Notes to Financial Statements, which constitute forms of economic leverage. Such instruments are used to obtain exposure to a market without owning or taking physical custody of securities or to hedge market and/or interest rate risks. Such derivative instruments involve risks, including the imperfect correlation between the value of a derivative instrument and the underlying asset, possible default of the other party to the transaction and illiquidity of the derivative instrument. A Trust's ability to successfully use a derivative instrument depends on the investment advisor's ability to accurately predict pertinent market movements, which cannot be assured. The use of derivative instruments may result in losses greater than if they had not been used, may require the Trusts to sell or purchase portfolio securities at inopportune times or distressed values, may limit the amount of appreciation the Trusts can realize on an investment or may cause the Trusts to hold a security that they might otherwise sell. The Trusts' investments in these instruments are discussed in detail in the Notes to Financial Statements.

Schedule of Investments August 31, 2009

**BlackRock Core Bond Trust (BHK)**  
(Percentages shown are based on Net Assets)

| Asset-Backed Securities  |     | Par<br>(000) | Value        |

\* The cost and unrealized appreciation (depreciation) of investments as of August 31, 2009, as computed for federal income tax purposes, were as follows:

|                               |                |
|-------------------------------|----------------|
| Aggregate cost                | \$ 459,654,221 |
| Gross unrealized appreciation | \$ 23,486,061  |
| Gross unrealized depreciation | (21,978,077)   |
| Net unrealized appreciation   | \$ 1,507,984   |

- (a) Variable rate security. Rate shown is as of report date.
- (b) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (c) All or a portion of the security has been pledged as collateral for swaps.
- (d) Non-income producing security.
- (e) Issuer filed for bankruptcy and/or is in default of interest payments.
- (f) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the effective yield as of report date.
- (g) Convertible security.
- (h) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (i) Investments in companies considered to be an affiliate of the Trust, during the period September 1, 2008 to December 31, 2008 for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

| Affiliate   | Purchase Cost | Sale Cost | Realized Gain | Income    |
|---|---------------|-----------|---------------|-----------|
| Merrill Lynch Mortgage Investors, Inc. Series 2006-A3 Class 3A1, 5.80%, 5/25/36 |               | \$ 25,089 | \$ 11,657     | \$ 19,752 |
| Merrill Lynch Mortgage Trust Series 2004BPC1 Class A3, 4.47%, 10/12/41          | \$ 3,067,116  |           |               | \$ 18,745 |
| Merrill Lynch Mortgage Trust Series 2007-C1 Class AM, 5.83%, 6/12/50            |               |           |               | \$ 18,266 |

- (j) All or a portion of the security has been pledged as collateral in connection with open financial futures contracts.
- (k) Security held as collateral in connection with TALF program.
- (l) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.

See Notes to Financial Statements.

## Schedule of Investments (continued)

## BlackRock Core Bond Trust (BHK)

- (m) Security is perpetual in nature and has no stated maturity date.
- (n) All or a portion of the security has been pledged as collateral for reverse repurchase agreements.
- (o) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (p) Represents or includes a to-be-announced transaction. The Trust has committed to purchasing (selling) securities for which all specific information is not available at this time.

| Counterparty                   | Value          | Unrealized<br>Appreciation<br>(Depreciation) |
|--------------------------------|----------------|--|
| Bank of America Securities LLC | \$ (9,248,871) | \$ (150,933)                                 |
| Citigroup Global Markets, Inc. | \$ (703,718)   | \$ (2,078)                                   |

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements ( FAS 157 ). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

See Notes to Financial Statements.

## Schedule of Investments (concluded)

## BlackRock Core Bond Trust (BHK)

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of August 31, 2009 in determining the fair valuation of the Trust's investments:

| Valuation Inputs                            | Investments in Securities |                 |
|---|---------------------------|-----------------|
|   | Assets                    | Liabilities     |
| Level 1                                     |                           |                 |
| Short-Term Securities                       | \$ 1,735,485              |                 |
| Level 2                                     |                           |                 |
| Long-Term Investments:                      |                           |                 |
| Asset-Backed Securities                     | 18,331,312                |                 |

\* The cost and unrealized appreciation (depreciation) of investments as of August 31, 2009, as computed for federal income tax purposes, were as follows:

|                               |                 |
|-------------------------------|-----------------|
| Aggregate cost                | \$ 431,225,690  |
| Gross unrealized appreciation | \$ 11,405,773   |
| Gross unrealized depreciation | (72,156,022)    |
| Net unrealized depreciation   | \$ (60,750,249) |

- (a) Non-income producing security.
- (b) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (c) Issuer filed for bankruptcy and/ or is in default of interest payments.
- (d) Convertible security.
- (e) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (f) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (g) Variable rate security. Rate shown is as of report date.
- (h) All or a portion of the security has been pledged as collateral in connection with swaps.
- (i) Represents a step-down bond that pays an initial coupon rate for the first period and then a lower coupon rate for the following periods. Rate shown is as of report date.
- (j)

## Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown is as of report date.

- (k) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.
- (l) Warrants entitle the Trust to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date.
- (m) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

---

| Affiliate   | Net<br>Activity | Income    |
|---|-----------------|-----------|
| BlackRock Liquidity Funds, TempFund               | USD 2,197,091   | \$ 4,762  |
| BlackRock Liquidity Series, LLC Cash Sweep Series | USD (6,347,441) | \$ 27,186 |

---

- (n) Represents the current yield as of report date.

For Trust compliance purposes, the Trust's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report which may combine industry sub-classifications for reporting ease.

See Notes to Financial Statements.

## Schedule of Investments (concluded)

## BlackRock Corporate High Yield Fund V, Inc. (HYV)

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of August 31, 2009 in determining the fair valuation of the Trust's investments:

| Valuation Inputs       | Investments in Securities |
|------------------------|---------------------------|
|                        | Assets                    |
| Level 1                |                           |

## Schedule of Investments (continued)

**BlackRock Corporate High Yield Fund VI, Inc. (HYT)**  
 (Percentages shown are based on Net Assets)

| Short-Term Securities   | Shares    | Value          |
|---|-----------|----------------|
| BlackRock Liquidity Funds, TempFund, 0.22% (m)(n)             | 2,267,254 | \$ 2,267,254   |
| <b>Total Short-Term Securities</b><br>(Cost \$2,267,254) 0.7% |           | 2,267,254      |
| <b>Total Investments (Cost \$454,461,492*) 115.0%</b>         |           | 392,730,932    |
| <b>Liabilities in Excess of Other Assets (15.0)%</b>          |           | (51,315,684)   |
| <b>Net Assets 100.0%</b>                                      |           | \$ 341,415,248 |

\* The cost and unrealized appreciation (depreciation) of investments as of August 31, 2009, as computed for federal income tax purposes, were as follows:

|                               |                 |
|-------------------------------|-----------------|
| Aggregate cost                | \$ 457,405,694  |
| Gross unrealized appreciation | \$ 13,264,918   |
| Gross unrealized depreciation | (77,939,680)    |
| Net unrealized depreciation   | \$ (64,674,762) |

- (a) Non-income producing security.
- (b) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (c) Issuer filed for bankruptcy and/or is in default of interest payments.
- (d) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (e) Convertible security.
- (f) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (g) Variable rate security. Rate shown is as of report date.
- (h) All or a portion of the security has been pledged as collateral in connection with open swaps.
- (i) Represents a step-down bond that pays an initial coupon rate for the first period and then a lower coupon rate for the following periods. Rate shown is as of report date.
- (j) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown is as of report date.

Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

- (k) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.
- (l) Warrants entitle the Trust to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date.
- (m) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

| Affiliate   | Net Activity    | Income    |
|---|-----------------|-----------|
| BlackRock Liquidity Funds, TempFund               | \$ 2,267,254    | \$ 5,026  |
| BlackRock Liquidity Series, LLC Cash Sweep Series | \$ (14,277,183) | \$ 29,243 |

- (n) Represents the current yield as of report date.

For Trust compliance purposes, the Trust's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report which may combine industry sub-classifications for reporting ease.

Foreign currency exchange contracts as of August 31, 2009 were as follows:

| Currency Purchased | Currency Sold  | Counterparty      | Settlement Date | Unrealized Appreciation (Depreciation) |
|--------------------|----------------|-------------------|-----------------|--|
| USD 748,122        | EUR 530,000    | UBS AG            | 9/16/09         | \$ (11,707)                            |

<sup>1</sup> Using Standard & Poor's ratings of the issuer.

<sup>2</sup> The maximum potential amount the Trust may be required to pay should a negative credit event take place as defined under the terms of the agreement.

## Currency Abbreviations:

|     |                 |
|-----|-----------------|
| CAD | Canadian Dollar |
| EUR | Euro            |
| GBP | British Pound   |
| USD | US Dollar       |

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit

## Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of August 31, 2009 in determining the fair valuation of the Trust's investments:

| Valuation Inputs             | Investments in Securities |                    |
|------------------------------|---------------------------|--------------------|
|                              | Assets                    |                    |
| Level 1                      |                           |                    |
| Short-Term Securities        | \$                        | 2,267,254          |
| Long-Term Investments:       |                           |                    |
| Common Stocks                |                           | 6,882,759          |
| <b>Total Level 1</b>         |                           | <b>9,150,013</b>   |
| Level 2                      |                           |                    |

\* The cost and unrealized appreciation (depreciation) of investments as of August 31, 2009, as computed for federal income tax purposes, were as follows:

|                               |                 |
|-------------------------------|-----------------|
| Aggregate cost                | \$ 135,240,896  |
| Gross unrealized appreciation | \$ 4,068,541    |
| Gross unrealized depreciation | (22,704,331)    |
| Net unrealized depreciation   | \$ (18,635,790) |

- (a) Non-income producing security.
- (b) Security exempt from registration under Rule 144A of the Securities Act of 1933.  
These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (c) Issuer filed for bankruptcy and/or is in default of interest payments.
- (d) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (e) Convertible security.

See Notes to Financial Statements.

Schedule of Investments (concluded)

**BlackRock High Income Shares (HIS)**

- (f) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (g) Variable rate security. Rate shown is as of report date.
- (h) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the effective yield as of report date.
- (i) Represents a step-down bond that pays an initial coupon rate for the first period and then a lower coupon rate for the following periods. Rate shown is as of report date.
- (j) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.
- (k) Security is perpetual in nature and has no stated maturity date.
- (l) Warrants entitle the Trust to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date.
- (m) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

| Affiliate                           | Net Activity  | Income   |
|-------------------------------------|---------------|----------|
| BlackRock Liquidity Funds, TempFund | USD 1,250,194 | \$ 6,145 |

- (n) Represents the current yield as of report date.

For Trust compliance purposes, the Trust's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine industry sub-classification for reporting ease.

Foreign currency exchange contracts as of August 31, 2009 were as follows:

 USD US Dollar

## Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

The Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements ( FAS 157 ) which clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of August 31, 2009 in determining the fair valuation of the Trust's investments:

| Valuation Inputs             | Investments in Securities |
|------------------------------|---------------------------|
|                              | Assets                    |

| Marsico Parent Superholdco LLC, expiring December 2019 at \$942.86 | 3         | 3,000                |
| <b>Total Options Purchased</b><br>(Cost \$2,933) 0.0%              |           | 3,000                |
| <hr/>  |           |                      |
| <b>Total Investments (Cost \$49,173,936*) 108.3%</b>               |           | 40,206,856           |
| <b>Liabilities in Excess of Other Assets (8.3)%</b>                |           | (3,070,036)          |
| <b>Net Assets 100.0%</b>   |           | <u>\$ 37,136,820</u> |

\* The cost and unrealized appreciation (depreciation) of investments as of August 31, 2009, as computed for federal income tax purposes, were as follows:

|                               |                       |
|-------------------------------|-----------------------|
| Aggregate cost                | \$ 49,311,367         |
| Gross unrealized appreciation | \$ 1,216,526          |
| Gross unrealized depreciation | (10,321,037)          |
| Net unrealized depreciation   | <u>\$ (9,104,511)</u> |

- (a) Non-income producing security.
- (b) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (c) Issuer filed for bankruptcy and/or is in default of interest payments.

Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

- (d) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (e) Convertible security.
- (f) Represent a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (g) Variable rate security. Rate shown is as of report date.
- (h) Represents a step-down bond that pays an initial coupon rate for the first period and then a lower coupon rate for the following periods. Rate shown is as of report date.
- (i) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown is as of report date.
- (j) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.
- (k) Security is perpetual in nature and has no stated maturity date.
- (l) Warrants entitle the Trust to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date.
- (m) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

| Affiliate                           | Net Activity | Income  |
|-------------------------------------|--------------|---------|
| BlackRock Liquidity Funds, TempFund | \$2,180,193  | \$5,470 |

- (n) Represents the current yield as of report date.

For Trust compliance purposes, the Trust's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine industry sub-classifications for reporting ease.

Credit default swaps on single-name issues buy protection outstanding as of August 31, 2009 were as follows:

| Issuer               | Pay Fixed Rate | Counterparty              | Expiration     | Notional Amount (000) | Unrealized Appreciation |
|----------------------|----------------|---------------------------|----------------|-----------------------|-------------------------|
| Brunswick Corp.      | 5.00%          | Credit Suisse             | September 2014 | \$150                 | \$ 2,114                |
| Limited Brands, Inc. | 1.00%          | JPMorgan Chase<br>Bank NA | September 2014 | \$160                 | 1,828                   |
| <b>Total</b>         |                |                           |                |                       | <b>\$ 3,942</b>         |

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements ( FAS 157 ). FAS 175 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

## Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

See Notes to Financial Statements.

## Schedule of Investments (concluded)

## BlackRock High Yield Trust (BHY)

The following table summarizes the inputs used as of August 31, 2009 in determining the fair valuation of the Trust's investments:

| Valuation Inputs             | Investments in Securities |
|------------------------------|---------------------------|
|                              | Assets                    |
| Level 1                      |                           |
| Short-Term Securities        | \$ 2,180,193              |
| Long-Term Investments:       |                           |
| Common Stocks                | 455,109                   |
| <b>Total Level 1</b>         | <b>2,635,302</b>          |
| Level 2                      |                           |
| Long-Term Investments:       |                           |
| Common Stocks                | 3,607                     |
| Corporate Bonds              | 31,381,677                |
| Floating Rate Loan Interests | 2,448,314                 |
| Preferred Stocks             | 3,060                     |
| <b>Total Level 2</b>         | <b>33,836,658</b>         |
| Level 3                      |                           |
| Long-Term Investments:       |                           |
| Corporate Bonds              | 1,149,295                 |
| Floating Rate Loan Interests | 2,581,647                 |
| Other Interests              | 953                       |
| Warrants                     | 1                         |
| <b>Total Level 3</b>         | <b>3,731,896</b>          |
| <b>Total</b>                 | <b>\$ 40,203,856</b>      |

| Valuation Inputs | Other Financial Instruments <sup>1</sup> |
|------------------|--|
|                  | Assets                                   |
| Level 1          |  |
| Level 2          | \$ 6,942                                 |
| Level 3          |  |
| <b>Total</b>     | <b>\$ 6,942</b>                          |

<sup>1</sup> Other financial instruments are swaps and options purchased. Swaps are shown at the unrealized appreciation/depreciation on the instrument and options purchased are shown at market value.

The following is a reconciliation of investments for unobservable inputs (Level 3) used in determining fair value:

| Investments in Securities  |                     |                                 |                    |             |                     |
|--|---------------------|---------------------------------|--------------------|-------------|---------------------|
|  | Corporate<br>Bonds  | Floating Rate<br>Loan Interests | Other<br>Interests | Warrants    | Total               |
| Balance, as of August 31, 2008                                   |                     | \$ 189,740                      | \$ 1,592           | \$ 1        | \$ 191,333          |
| Accrued discounts/premiums                                       |                     |                                 |                    |             |                     |
| Realized gain (loss)   |                     | (45,833)                        |                    |             | (45,833)            |
| Change in unrealized appreciation<br>(depreciation) <sup>2</sup> | \$ (80,665)         | 690,328                         | (639)              |             | 609,024             |
| Net purchases (sales)  |                     | (103,229)                       |                    |             | (103,229)           |

## Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

\* The cost and unrealized appreciation (depreciation) of investments as of August 31, 2009, as computed for federal income tax purposes, were as follows:

|                               |    |              |
|-------------------------------|----|--------------|
| Aggregate cost                | \$ | 471,775,156  |
| Gross unrealized appreciation | \$ | 22,042,162   |
| Gross unrealized depreciation |    | (20,932,775) |
| Net unrealized appreciation   | \$ | 1,109,387    |

- (a) Variable rate security. Rate shown is as of report date.
- (b) Non-income producing security.
- (c) Issuer filed for bankruptcy and/or is in default of interest payments.
- (d) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (e) All or a portion of the security has been pledged as collateral in connection with open financial futures contracts.
- (f) All or a portion of the security has been pledged as collateral in connection with swaps.
- (g) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the effective yield as of report date.
- (h) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (i) Investments in companies considered to be an affiliate of the Trust, during the period September 1, 2008 to December 31, 2008 for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

| Affiliate   | Purchase Cost | Sale Cost | Realized Gain (Loss) | Income    |
|---|---------------|-----------|----------------------|-----------|
| Federal Housing Administration Merrill Projects:      |               |           |                      |           |

USD US Dollar

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements ( FAS 157 ). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

## Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of August 31, 2009 in determining the fair valuation of the Trust's investments:

| Valuation Inputs                            | Investments in Securities |                        |
|---|---------------------------|------------------------|
|   | Assets                    | Liabilities            |
| <b>Level 1</b>                              |                           |                        |
| Short-Term Securities                       | \$ 30,000,661             |                        |
| <b>Level 2</b>                              |                           |                        |
| Long-Term Investments:                      |                           |                        |
| Asset-Backed Securities                     | 18,039,352                |                        |

- (b) Pays fixed interest rate and receives floating rate.

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments)

## Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of August 31, 2009 in determining the fair valuation of the Trust's investments:

| Valuation Inputs                            | Investments in Securities |                        |
|---|---------------------------|------------------------|
|   | Assets                    | Liabilities            |
| Level 1 Short-Term Securities               | \$ 178,238,591            |                        |
| Level 2                                     |                           |                        |
| Long-Term Investments:                      |                           |                        |
| Asset-Backed Securities                     | 8,770,187                 |                        |

\* The cost and unrealized appreciation (depreciation) as of August 31, 2009, as computed for federal income tax purposes, were as follows:

|                               |                |
|-------------------------------|----------------|
| Aggregate cost                | \$ 87,763,497  |
| Gross unrealized appreciation | \$ 2,971,861   |
| Gross unrealized depreciation | (6,841,187)    |
| Net unrealized depreciation   | \$ (3,869,326) |

- (a) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (b) Non-income producing security.
- (c) Issuer filed for bankruptcy and/or is in default of interest payments.
- (d) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (e) Variable rate security. Rate shown is as of report date.
- (f) Convertible security.
- (g) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the effective yield as of report date.
- (h) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.

See Notes to Financial Statements.

## Schedule of Investments (continued)

## BlackRock Strategic Bond Trust (BHD)

- (i) Security is perpetual in nature and has no stated maturity date.
- (j) Warrants entitle the Trust to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date.
- (k) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

| Affiliate                           | Net Activity | Income   |
|-------------------------------------|--------------|----------|
| BlackRock Liquidity Funds, TempFund | 4,155,886    | \$39,732 |

- (l) Represents the current yield as of report date.

For Trust compliance purposes, the Trust's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine industry sub-classification for reporting ease.

Financial futures contracts sold as of August 31, 2009 were as follows:

| Contracts    | Issue                      | Expiration Date | Face Value   | Unrealized Depreciation |

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements ( FAS 157 ). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of August 31, 2009 in determining the fair valuation of the Trust's investments:

| Valuation Inputs             | Investments in Securities |
|------------------------------|---------------------------|
|                              | Assets                    |
| <b>Level 1</b>               |                           |
| Short-Term Securities        | \$ 4,155,886              |
| Long-Term Investments:       |                           |
| Common Stocks                | 559,548                   |
| <b>Total Level 1</b>         | <b>4,715,434</b>          |
| <b>Level 2</b>               |                           |
| Long-Term Investments:       |                           |
| Corporate Bonds              | 68,615,326                |

<sup>1</sup> Audited by other Independent Registered Public Accounting Firm.

<sup>2</sup> Based on average shares outstanding.

<sup>3</sup> Net investment income per share has been recalculated in accordance with Securities and Exchange Commission requirements, with the exception that end-of-the-year accumulated undistributed/(overdistributed) net investment income has not been adjusted to reflect current year permanent differences between financial and tax accounting.

<sup>4</sup> Total investment returns based on market value, which can be significantly greater or lesser than the net asset value, may result in substantially different returns. Where applicable, total investment returns exclude the effects of any sales charges and include the reinvestment of dividends and distributions.

<sup>5</sup> Aggregate total investment return.

<sup>6</sup> Annualized.

The performance set forth in this table is the financial data of BlackRock High Income Shares. BlackRock Advisors, LLC began managing the Trust on March 2, 2005.

## Notes to Financial Statements

### 1. Organization and Significant Accounting Policies:

BlackRock Core Bond Trust ( BHK ), BlackRock Corporate High Yield Fund V, Inc. ( HYV ), BlackRock Corporate High Yield Fund VI, Inc. ( HYT ), BlackRock High Income Shares ( HIS ), BlackRock High Yield Trust ( BHY ), BlackRock Income Opportunity Trust, Inc. ( BNA ), BlackRock Income Trust, Inc. ( BKT ) and BlackRock Strategic Bond Trust ( BHD ) (collectively the Trusts or individually as the Trust ) are registered as diversified, closed-end management investment companies under the Investment Company Act of 1940 (the 1940 Act ), as amended. HYV, HYT, BNA and BKT are organized as Maryland corporations. BHK, BHY and BHD are organized as Delaware statutory trusts. HIS is organized as a Massachusetts business trust. The Trusts' financial statements are prepared in conformity with accounting principles generally accepted in the United States of America, which may require the use of management accruals and estimates. Actual results may differ from these estimates. The Boards of Directors and Boards of Trustees of the Trusts are referred to throughout this report as the Board of Trustees or the Board. The Trusts determine and make available for publication the net asset value of their Common Shares on a daily basis.

The following is a summary of significant accounting policies followed by the Trusts:

**Valuation of Investments:** The Trusts value their bond investments on the basis of last available bid prices or current market quotations provided by dealers or pricing services selected under the supervision of each Trust's Board. Floating rate loan interests are valued at the mean between the last available bid prices from one or more brokers or dealers as obtained from a pricing service. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrixes, market transactions in comparable investments, various relationships observed in the market between investments and calculated yield measures based on valuation technology commonly employed in the market for such investments. The fair value of asset-backed and mortgage-backed securities are estimated based on models that consider the estimated cash flows of each tranche of the entity, establishes a benchmark yield and develops an estimated tranche specific spread to the benchmark yield based on the unique attributes of the tranche. Financial futures contracts traded on exchanges are valued at their last sale price. To be announced ( TBA ) commitments are valued at the current market value of the underlying securities. Swap agreements are valued utilizing quotes received daily by the Trusts' pricing service or through brokers, which are derived using daily swap curves and trades of underlying securities. Investments in open-end investment companies are valued at net asset value each business day. Short-term securities with maturities less than 60 days may be valued at amortized cost, which approximates fair value. The Trusts value their investments in Cash Sweep Series, of BlackRock Liquidity Series, LLC at fair value, which is ordinarily based upon their pro rata ownership in the net assets of the underlying fund.

Equity investments traded on a recognized securities exchange or the NASDAQ Global Market System are valued at the last reported sale price that day or the NASDAQ official closing price, if applicable. For equity investments traded on more than one exchange, the last reported sale price on the exchange where the stock is primarily traded is used. Equity investments traded on a recognized exchange for which there were no sales on that day are valued at the last available bid (long positions) or ask (short positions) price. If no bid or ask price is available, the prior day's price will be used, unless it is determined that such prior day's price no longer reflects the fair value of the security.

Exchange-traded options are valued at the mean between the last bid and ask prices at the close of the options market in which the options trade. An exchange-traded option for which there is no mean price is valued at the last bid (long positions) or ask (short positions) price. If no bid or ask price is available, the prior day's price will be used, unless it is determined that such prior day's price no longer reflects the fair value of the option. Over-the-counter options and swaptions are valued by an independent pricing service using a mathematical model which incorporates a number of market data factors, such as the trades and prices of the underlying securities.

In the event that application of these methods of valuation results in a price for an investment which is deemed not to be representative of the market value of such investment or are not available, the investment will be valued by a method approved by the Board as reflecting fair value ( Fair Value Assets ). When determining the price for Fair Value Assets, the investment advisor and/or sub-advisor seeks to determine the price that each Trust might reasonably expect to receive from the current sale of that asset in an arm's length transaction. Fair value determinations shall be based upon all available factors that the investment advisor and/or sub-advisor deems relevant. The pricing of all Fair Value Assets is subsequently reported to the Board or a committee thereof.

Generally, trading in foreign securities is substantially completed each day at various times prior to the close of business on the New York Stock Exchange ( NYSE ). The values of such securities used in computing the net assets of each Trust are determined as of such times. Foreign currency exchange rates will be determined as of the close of business on the NYSE. Occasionally, events affecting the values of such securities and such exchange rates may occur between the times at which they are determined and the close of business on the NYSE that may not be reflected in the computation of each Trust's net assets. If events (for example, a company announcement, market volatility or a natural disaster) occur during such periods that are expected to materially affect the value of such securities, those securities will be valued at their fair value as determined in good faith by the Board or by the investment advisor using a pricing service and/or procedures approved by the Board. Foreign currency exchange contracts are valued at the mean between the bid and ask prices. Interpolated values are derived when the settlement date of

the contract is an interim date for which quotations are not available.

## Notes to Financial Statements (continued)

**Foreign Currency Transactions:** Foreign currency amounts are translated into United States dollars on the following basis: (i) market value of investment securities, assets and liabilities at the current rate of exchange; and (ii) purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

The Trusts report foreign currency related transactions as components of realized gains for financial reporting purposes, whereas such components are treated as ordinary income for federal income tax purposes.

**Asset-Backed and Mortgage-Backed Securities:** Certain Trusts may invest in asset-backed securities. Asset-backed securities are generally issued as pass-through certificates, which represent undivided fractional ownership interests in an underlying pool of assets, or as debt instruments, which are also known as collateralized obligations, and are generally issued as the debt of a special purpose entity organized solely for the purpose of owning such assets and issuing such debt. Asset-backed securities are often backed by a pool of assets representing the obligations of a number of different parties. The yield characteristics of certain asset-backed securities may differ from traditional debt securities. One such major difference is that all or a principal part of the obligations may be prepaid at any time because the underlying assets (i.e., loans) may be prepaid at any time. As a result, a decrease in interest rates in the market may result in increases in the level of prepayments as borrowers, particularly mortgagors, refinance and repay their loans. An increased prepayment rate with respect to an asset-backed security subject to such a prepayment rate feature will have the effect of shortening the maturity of the security. If a Trust has purchased such an asset-backed security at a premium, a faster than anticipated prepayment rate could result in a loss of principal to the extent of the premium paid.

Certain Trusts may purchase certain mortgage pass-through securities. There are a number of important differences among the agencies and instrumentalities of the US Government that issue mortgage-related securities and among the securities that they issue. For example, mortgage-related securities guaranteed by the Government National Mortgage Association ( GNMA ) are guaranteed as to the timely payment of principal and interest by GNMA and such guarantee is backed by the full faith and credit of the United States. However, mortgage-related securities issued by the Federal Home Loan Mortgage Corporation ( FHLMC ) and Federal National Mortgage Association ( FNMA ), including FNMA guaranteed Mortgage Pass-Through Certificates which are solely the obligations of the FNMA, are not backed by or entitled to the full faith and credit of the United States and are supported by the right of the issuer to borrow from the Treasury.

Certain Trusts invest a significant portion of their assets in securities backed by commercial or residential mortgage loans or in issuers that hold mortgage and other asset-backed securities. Please see the Schedules of Investments for these securities. Changes in economic conditions, including delinquencies and/or defaults of assets underlying these securities, can affect the value, income and/or liquidity of such positions.

**Collateralized Mortgage Obligations:** Certain Trusts may invest in multiple class pass-through securities, including collateralized mortgage obligations ( CMOs ). These multiple class securities may be issued by GNMA, US government agencies or instrumentalities or by trusts formed by private originators of, or investors in, mortgage loans. In general, CMOs are debt obligations of a legal entity that are collateralized by, and multiple class pass-through securities represent direct ownership interests in, a pool of residential or commercial mortgage loans or mortgage pass-through securities (the Mortgage Assets ), the payments on which are used to make payments on the CMOs or multiple pass-through securities. Classes of CMOs include interest only ( IOs ), principal only ( POs ), planned amortization classes ( PACs ) and targeted amortization classes ( TACs ). IOs and POs are stripped mortgage-backed securities representing interests in a pool of mortgages, the cash flow from which has been separated into interest and principal components. IOs receive the interest portion of the cash flow while POs receive the principal portion. IOs and POs can be extremely volatile in response to changes in interest rates. As interest rates rise and fall, the value of IOs tends to move in the same direction as interest rates. POs perform best when prepayments on the underlying mortgages rise since this increases the rate at which the investment is returned and the yield to maturity on the PO. When payments on mortgages underlying a PO are slower than anticipated, the life of the PO is lengthened and the yield to maturity is reduced. If the underlying mortgage assets experience greater than anticipated pre-payments of principal, the Trusts may not fully recoup its initial investment in IOs.

**Capital Trusts and Trust Preferreds:** These securities are typically issued by corporations, generally in the form of interest-bearing notes with preferred securities characteristics, or by an affiliated business trust of a corporation, generally in the form of beneficial interests in subordinated debentures or similarly structured securities. The securities can be structured as either fixed or adjustable coupon securities that can have either a perpetual or stated maturity date. Dividends can be deferred without creating an event of default or acceleration, although maturity cannot take place unless all cumulative payment obligations have been met. The deferral of payments does not affect the purchase or sale of these securities in the open market. Payments on these securities are treated as interest rather than dividends for Federal income tax purposes. These securities can have a rating that is slightly below that of the issuing company's senior debt securities.

**Preferred Stock:** Certain Trusts may invest in preferred stocks. Preferred stock has a preference over common stock in liquidation (and generally in receiving dividends as well) but is subordinated to the liabilities of the issuer in all respects. As a general rule, the market value of preferred stock with a fixed dividend rate and no conversion element varies inversely with interest rates and perceived credit risk, while the market price of convertible preferred stock generally also reflects some element of conversion value. Because preferred stock is junior to debt

## Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

securities and other obligations of the issuer, deterioration in the credit quality of the issuer will cause greater changes in the value of a preferred stock than in a more senior debt security with similar stated yield characteristics. Unlike interest payments on debt securities, preferred stock dividends are payable only if declared by the issuer's board of directors. Preferred stock also may be subject to optional or mandatory redemption provisions.

**Floating Rate Loans:** Certain Trusts may invest in floating rate loans, which are generally non-investment grade, made by banks, other financial institutions, and privately and publicly offered corporations. Floating rate loans are senior in the debt structure of a corporation. Floating rate loans generally pay

---

ANNUAL REPORT

AUGUST 31, 2009

93

---

## Notes to Financial Statements (continued)

interest at rates that are periodically determined by reference to a base lending rate plus a premium. The base lending rates are generally (i) the lending rate offered by one or more European banks, such as LIBOR (London Inter-Bank Offered Rate), (ii) the prime rate offered by one or more US banks or (iii) the certificate of deposit rate. The Trusts consider these investments to be investments in debt securities for purposes of their investment policies.

The Trusts earn and/or pay facility and other fees on floating rate loans. Other fees earned/paid include commitment, amendment, consent, commissions and prepayment penalty fees. Facility, amendment, and consent fees are typically amortized as premium and/or accreted as discount over the term of the loan. Commitment, commission and various other fees are recorded as income. Prepayment penalty fees are recognized on the accrual basis. When a Trust buys a floating rate loan it may receive a facility fee and when it sells a floating rate loan it may pay a facility fee. On an ongoing basis, the Trusts may receive a commitment fee based on the undrawn portion of the underlying line of credit portion of a floating rate loan. In certain circumstances, the Trusts may receive a prepayment penalty fee upon the prepayment of a floating rate loan by a borrower. Other fees received by the Trusts may include covenant waiver fees and covenant modification fees.

The Trusts may invest in multiple series or tranches of a loan. A different series or tranche may have varying terms and carry different associated risks.

Floating rate loans are usually freely callable at the issuer's option. The Trusts may invest in such loans in the form of participations in loans (Participations) and assignments of all or a portion of loans from third parties. Participations typically will result in the Trusts having a contractual relationship only with the lender, not with the borrower. The Trusts will have the right to receive payments of principal, interest and any fees to which it is entitled only from the lender selling the Participation and only upon receipt by the lender of the payments from the borrower.

In connection with purchasing Participations, the Trusts generally will have no right to enforce compliance by the borrower with the terms of the loan agreement relating to the loans, nor any rights of offset against the borrower, and the Trusts may not benefit directly from any collateral supporting the loan in which it has purchased the Participation.

As a result, the Trusts will assume the credit risk of both the borrower and the lender that is selling the Participation. The Trusts' investments in loan participation interests involve the risk of insolvency of the financial intermediaries who are parties to the transactions. In the event of the insolvency of the lender selling the Participation, the Trusts may be treated as a general creditor of the lender and may not benefit from any offset between the lender and the borrower.

**Borrowed Bond Agreements:** In a borrowed bond agreement, a Trust borrows securities from a third party, with the commitment that they will be returned to the lender on an agreed-upon date. Borrowed bond agreements are primarily entered into to settle short positions. In a borrowed bond agreement, the Trust's prime broker or third party broker takes possession of the underlying collateral securities or cash to settle such short positions. The value of the underlying collateral securities or cash approximates the principal amount of the borrowed bond transaction, including accrued interest. To the extent that borrowed bond transactions exceed one business day, the value of the collateral with any counterparty is marked to market on a daily basis to ensure the adequacy of the collateral. If the lender defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the lender of the security, realization of the collateral by the Trust may be delayed or limited.

**Mortgage Dollar Roll Transactions:** Certain Trusts may sell mortgage-backed securities and simultaneously contract to repurchase substantially similar (same type, coupon and maturity) securities on a specific future date at an agreed upon price. During the period between the sale and repurchase, the Trusts will not be entitled to receive interest and principal payments on the securities sold. The Trusts account for dollar roll transactions as purchases and sales and realize gains and losses on these transactions.

Mortgage dollar rolls involve the risk that the market value of the securities that each Trust is required to purchase may decline below the agreed upon repurchase price of those securities. If investment performance of securities purchased with proceeds from these transactions does not exceed the income, capital appreciation and gain or loss that would have been realized on the securities sold as part of the dollar roll, the use of this technique will adversely impact the investment performance of each Trust.

**Treasury Roll Transactions:** A treasury roll transaction involves the sale of a Treasury security, with an agreement to repurchase the same security at an agreed upon price and date. Treasury rolls constitute a borrowing (not treated as purchase and sales) and the difference between the sale and repurchase price represents interest expense at an agreed upon rate. Whether such a transaction produces a positive impact on performance depends upon whether the income and gains on the securities purchased with the proceeds received from the sale of the security exceeds the interest expense incurred by the Trusts. Treasury rolls are not considered purchases and sales and any gains or losses incurred on the

treasury rolls will be deferred until the treasury securities are disposed.

Treasury roll transactions involve the risk that the market value of the securities that the Trusts are required to purchase may decline below the agreed upon purchase price of those securities. If investment performance of securities purchased with proceeds from these transactions does not exceed the income, capital appreciation and gain or loss that would have been realized on the securities sold as part of the treasury roll, the use of this technique will adversely impact the investment performance of the Trusts.

**Reverse Repurchase Agreements:** Certain Trusts may enter into reverse repurchase agreements with qualified third party broker-dealers. In a reverse repurchase agreement, the Trusts sell securities to a bank or broker-dealer and agree to repurchase the securities at a mutually agreed upon date and price. Interest on the value of the reverse repurchase agreements issued and outstanding is based upon competitive market rates determined at the time of issuance. The Trusts may utilize reverse repurchase agreements when it is anticipated that the interest income to be earned from the investment of the proceeds of the transaction is greater than the interest expense of the

---

**Notes to Financial Statements (continued)**

transaction. Reverse repurchase agreements involve leverage risk and also the risk that the market value of the securities that the Trusts are obligated to repurchase under the agreement may decline below the repurchase price. In the event the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the Trusts' use of the proceeds from the agreement may be restricted while the other party, or its trustee or receiver, whether or not to enforce the Trusts' obligation to repurchase the securities.

**TBA Commitments:** Certain Trusts may enter into to be announced commitments to purchase or sell securities for a fixed price at a future date. TBA commitments are considered securities in themselves, and involve a risk of loss if the value of the security to be purchased or sold declines or increases prior to settlement date, which is in addition to the risk of decline in the value of the Trusts' other assets.

**Zero-Coupon Bonds:** Certain Trusts may invest in zero-coupon bonds, which are normally issued at a significant discount from face value and do not provide for periodic interest payments. Zero-coupon bonds may experience greater volatility in market value than similar maturity debt obligations which provide for regular interest payments.

**Segregation and Collateralization:** In cases in which the 1940 Act and the interpretive positions of the Securities and Exchange Commission (SEC) require that a Trust either deliver collateral or segregate assets in connection with certain investments (e.g., dollar rolls, TBAs beyond normal settlement, written options, written swaptions, foreign currency exchange contracts, financial futures contracts and swaps), or certain borrowings (e.g., reverse repurchase agreements) each Trust will, consistent with SEC rules and/or certain interpretive letters issued by the SEC, segregate collateral or designate on its books and records cash or other liquid securities having a market value at least equal to the amount that would otherwise be required to be physically segregated. Furthermore, based on requirements and agreements with certain exchanges and third party broker-dealers, each party has requirements to deliver/deposit securities as collateral for certain investments (e.g., financial futures contracts, reverse repurchase agreements, swaps and written options). As part of these agreements, when the value of these investments achieves a previously agreed upon value (minimum transfer amount), each party may be required to deliver additional collateral.

**Investment Transactions and Investment Income:** For financial reporting purposes, investment transactions are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on investment transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Dividends from foreign securities where the ex-dividend date may have passed are subsequently recorded when the Trusts have determined the ex-dividend date. Interest income is recognized on the accrual basis. The Trusts amortize all premiums and discounts on debt securities. Consent fees are compensation for agreeing to changes in the terms of debt instruments and are included in interest income in the Statements of Operations.

**Dividends and Distributions:** Dividends from net investment income are declared and paid monthly. Distributions of capital gains are recorded on the ex-dividend dates. If the total dividends and distributions made in any tax year exceeds net investment income and accumulated realized capital gains, a portion of the total distribution may be treated as a tax return of capital.

**Income Taxes:** It is each Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no federal income tax provision is required. Under the applicable foreign tax laws, a withholding tax may be imposed on interest, dividends and capital gains at various rates.

Each Trust files US federal and various state and local tax returns. No income tax returns are currently under examination. The statute of limitations on BHK, BHY, BNA, BKT and BHD's US federal tax returns remains open for the two years ended October 31, 2007, the period ended August 31, 2008 and the year ended August 31, 2009. The statute of limitations on BHK and HIS's US federal tax returns remains open for the two years ended December 31, 2007, the period ended August 31, 2008 and the year ended August 31, 2009. The statute of limitations on the HYV and HYT's tax returns remains open for the four years ended August 31, 2009. The statutes of limitations on the Trusts' state and local tax returns may remain open for an additional year depending upon the jurisdiction.

**Recent Accounting Pronouncement:** In June 2009, Statement of Financial Accounting Standards No. 166, Accounting for Transfers of Financial Assets—an amendment of FASB Statement No. 140 (FAS 166), was issued. FAS 166 is intended to improve the relevance, representational faithfulness and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor's continuing involvement, if any, in transferred financial assets. FAS 166 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2009. Earlier application is prohibited. The recognition and measurement provisions of FAS 166 must be applied to transfers occurring on or after the effective date. Additionally, the disclosure provisions of FAS 166 should be applied to transfers that occurred both before and after the effective date of FAS 166. The impact of FAS 166 on the Trusts' financial statement disclosures, if any, is currently being assessed.

**Deferred Compensation and BlackRock Closed-End Share Equivalent Investment Plan:** Under the deferred compensation plan approved by each Trust's Board, non-interested Trustees ( Independent Trustees ) may defer a portion of their annual complex-wide compensation. Deferred amounts earn an approximate return as though equivalent dollar amounts had been invested in common shares of other certain BlackRock Closed-End Funds selected by the Independent Trustees. This has approximately the same economic effect for the Independent Trustees as if the Independent Trustees had invested the deferred amounts directly in other certain BlackRock Closed-End Funds.

The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of each Trust. Each Trust may, however, elect to invest in common shares of other certain BlackRock Closed-End Funds selected by the Independent Trustees in order to match its deferred compensation obligations. Investments to cover each

## Notes to Financial Statements (continued)

Trust's deferred compensation liability, if any, are included in other assets in the Statements of Assets and Liabilities. Dividends and distributions from the BlackRock Closed-End Fund investments under the plan are included in income-affiliated in the Statements of Operations.

**Other:** Expenses directly related to a Trust are charged to that Trust. Other operating expenses shared by several funds are pro rated among those funds on the basis of relative net assets or other appropriate methods. Pursuant to the terms of the custody agreement, custodian fees may be reduced by amounts calculated on uninvested cash balances, which are shown in the Statements of Operations as fees paid indirectly.

### 2. Derivative Financial Instruments:

The Trusts may engage in various portfolio investment strategies both to increase the returns of the Trusts and to economically hedge, or protect, their exposure to certain risks such as credit risk, equity risk, interest rate risk and foreign currency exchange rate risk. Losses may arise if the value of the contract decreases due to an unfavorable change in the price of the underlying security or if the counterparty does not perform under the contract. The Trusts may mitigate counterparty risk through master netting agreements included within an International Swap and Derivatives Association, Inc. ( ISDA ) Master Agreement between a Trust and each of its counterparties. The ISDA Master Agreement allows each Trust to offset with its counterparty certain derivative financial instrument's payables and/or receivables with collateral held with each counterparty. The amount of collateral moved to/from applicable counterparties is based upon minimum transfer amounts of up to \$500,000. To the extent amounts due to the Trusts from their counter-parties are not fully collateralized contractually or otherwise, the Trusts bear the risk of loss from counterparty non-performance. See Note 1 Segregation and Collateralization for additional information with respect to collateral practices.

The Trusts' maximum risk of loss from counterparty credit risk on over-the-counter derivatives is generally the aggregate unrealized gain in excess of any collateral pledged by the counterparty to the Trusts. For over-the-counter purchased options, the Trusts bear the risk of loss in the amount of the premiums paid and change in market value of the options should the counterparty not perform under the contracts. Options written by the Trusts do not give rise to counterparty credit risk, as written options obligate the Trusts to perform and not the counterparty. Certain ISDA Master Agreements allow counterparty to over-the-counter derivatives to terminate derivative contracts prior to maturity in the event a Trust's net assets decline by a stated percentage or a Trust fails to meet the terms of its ISDA Master Agreements, which would cause the Trust to accelerate payment of any net liability owed to the counterparty. Counterparty risk related to exchange-traded financial futures contracts and options is minimal because of the protection against defaults provided by the exchange on which they trade.

**Financial Futures Contracts:** Certain Trusts may purchase or sell financial futures contracts and options on financial futures contracts to gain exposure to, or economically hedge against, changes in the value of interest rates (interest rate risk) or foreign currencies (foreign currency exchange rate risk). Financial futures contracts are contracts for delayed delivery of securities at a specific future date and at a specific price or yield. Pursuant to the contract, the Trusts agree to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as margin variation and are recognized by the Trusts as unrealized gains or losses. When the contract is closed, the Trusts record a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The use of financial futures transactions involves the risk of an imperfect correlation in the movements in the price of financial futures contracts, interest rates and the underlying assets.

**Foreign Currency Exchange Contracts:** Certain Trusts may enter into foreign currency exchange contracts as an economic hedge against either specific transactions or portfolio positions (foreign currency exchange rate risk). A foreign currency exchange contract is an agreement between two parties to buy and sell a currency at a set exchange rate on a future date. Foreign currency exchange contracts, when used by a Trust, help to manage the overall exposure to the foreign currency backing some of the investments held by a Trust. The contract is marked-to-market daily and the change in market value is recorded by a Trust as an unrealized gain or loss. When the contract is closed, a Trust records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. The use of foreign currency exchange contracts involves the risk that counterparty may not meet the terms of the agreement or unfavorable movements in the value of a foreign currency relative to the US dollar.

**Options:** Certain Trusts may purchase and write call and put options to increase or decrease their exposure to underlying instruments. A call option gives the purchaser of the option the right (but not the obligation) to buy, and obligates the seller to sell (when the option is exercised), the underlying instrument at the exercise price at any time or at a specified time during the option period. A put option gives the holder the right to sell and obligates the writer to buy the underlying instrument at the exercise price at any time or at a specified time during the option period. When a Trust purchases (writes) an option, an amount equal to the premium paid (received) by a Trust is reflected as an asset (liability) and an equivalent liability (asset). The amount of the asset (liability) is subsequently marked-to-market to reflect the current market value of the option purchased (written). When an instrument is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the instrument acquired or deducted from (or added to) the proceeds of the instrument sold. When an option expires (or a Trust enters into a closing transaction), a Trust realizes a gain or loss on the option to the extent of the premiums received or paid

## Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

(or gain or loss to the extent the cost of the closing transaction exceeds the premium received or paid). When a Trust writes a call option, such option is covered, meaning that a Trust holds the underlying instrument subject to being called by the option counterparty, or cash in an amount sufficient to cover the obligation. When a Trust writes a put option, such option is covered by cash in an amount sufficient to cover the obligation.

In purchasing and writing options, a Trust bears the risk of an unfavorable change in the value of the underlying instrument or the risk that a Trust may not be able to enter into a closing transaction due to an illiquid market. Exercise of a written option could result in a Trust purchasing a security at a price different from the current market value. The Trusts may execute transactions in both listed and over-the-counter options.

## Notes to Financial Statements (continued)

**Swaps:** Certain Trusts may enter into swap agreements, in which a Trust and a counterparty agree to make periodic net payments on a specified notional amount. These periodic payments received or made by the Trusts are recorded in the Statements of Operations as realized gains or losses, respectively. Swaps are marked-to-market daily and changes in value are recorded as unrealized appreciation (depreciation). When the swap is terminated, the Trust will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust's basis in the contract, if any. Swap transactions involve, to varying degrees, elements of interest rate, credit and market risk in excess of the amounts recognized in the Statements of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counter-party to the agreements may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreements, and that there may be unfavorable changes in interest rates and/or market values associated with these transactions.

**Credit default swaps** Certain Trusts may enter into credit default swaps to manage its exposure to the market or certain sectors of the market, to reduce their risk exposure to defaults of corporate and/or sovereign issuers or to create exposure to corporate and/or sovereign issuers to which they are not otherwise exposed (credit risk). The Trusts enter into credit default agreements to provide a measure of protection against the default of an issuer (as buyer of protection) and/or gain credit exposure to an issuer to which it is not otherwise exposed (as seller of protection). The Trust may either buy or sell (write) credit default swaps on single-name issuers (corporate or sovereign) or traded indexes. Credit default swaps on single-name issuers are agreements in which the buyer pays fixed periodic payments to the seller in consideration for a guarantee from the seller to make a specific payment should a negative credit event take place (e.g., bankruptcy, failure to pay, obligation accelerators, repudiation, moratorium or restructuring). Credit default swaps on traded indexes are agreements in which the buyer pays fixed periodic payments to the seller in consideration for a guarantee from the seller to make a specific payment should a write-down, principal or interest shortfall or default of all or individual underlying securities included in the index occurs. As a buyer, a Trust will either receive from the seller an amount equal to the notional amount of the swap and deliver the referenced security or underlying securities comprising of an index or receive a net settlement of cash equal to the notional amount of the swap less the recovery value of the security or underlying securities comprising of an index. As a seller (writer), a Trust will either pay the buyer an amount equal to the notional amount of the swap and take delivery of the referenced security or underlying securities comprising of an index or pay a net settlement of cash equal to the notional amount of the swap less the recovery value of the security or underlying securities comprising of an index.

**Interest rate swaps** Certain Trusts may enter into interest rate swaps to manage duration, the yield curve or interest rate risk by economically hedging the value of the fixed rate bonds which may decrease when interest rates rise (interest rate risk). Interest rate swaps are agreements in which one party pays a floating rate of interest on a notional principal amount and receives a fixed rate of interest on the same notional principal amount for a specified period of time. Interest rate floors, which are a type of interest rate swap, are agreements in which one party agrees to make payments to the other party to the extent that interest rates fall below a specified rate or floor in return for a premium. In more complex swaps, the notional principal amount may decline (or amortize) over time.

**Total return swaps** Certain Trusts may enter into total return swaps to transfer the risk/return of one market (e.g., fixed income) to another market (e.g., equity) (equity risk and/or interest rate risk). Total return swaps are agreements in which one party commits to pay interest in exchange for the total return (coupons plus capital gains/losses) of an underlying asset. To the extent the total return of the security or index underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Trust will receive a payment from or make a payment to the counterparty.

**Swaptions** Swap options (swaptions) are similar to options on securities except that instead of selling or purchasing the right to buy or sell a security, the writer or purchaser of the swap option is granting or buying the right to enter into a previously agreed upon interest rate swap agreement at any time before the expiration of the option (interest rate risk). In purchasing and writing swaptions, the Trusts bear the market risk of an unfavorable change in the price of the underlying interest rate swap or the risk that the Trusts may not be able to enter into a closing transaction due to an illiquid market. Exercise of a written swaption could result in the Trusts purchasing an interest rate swap at a price different from the current market value. The Trusts execute transactions in over-the-counter swaptions.

**3. Investment Advisory Agreement and Other Transactions with Affiliates:**

The PNC Financial Services Group, Inc. ( PNC ) and Bank of America Corporation ( BAC ) are the largest stockholders of BlackRock, Inc. ( BlackRock ). BAC became a stockholder of BlackRock following its acquisition of Merrill Lynch & Co., Inc. ( Merrill Lynch ) on January 1, 2009. Prior to that date, both PNC and Merrill Lynch were considered affiliates of the Trusts under the 1940 Act. Subsequent to the acquisition, PNC remains an affiliate, but due to the restructuring of Merrill Lynch's ownership interest of BlackRock, BAC is not deemed to be an affiliate under the 1940 Act.

Each Trust entered into an Investment Advisory Agreement with BlackRock Advisors, LLC (the Manager ), the Trusts' investment advisor, an indirect, wholly owned subsidiary of BlackRock to provide investment services for each Trust and administration services for BHK, HYV, HYT, HIS and BHD.

The following Trusts' investment advisory fee paid to the Manager is computed weekly and payable monthly based on an annual rate of each Trust's average total assets (including any assets attributable to borrowings) minus the sum of total liabilities (other than debt representing financial leverage):

|     |   |
|-----|---|
| BHK | 0.55%   |
| HIS | 0.75% of the first \$200 million and 0.50% thereafter |
| BHY | 1.05%   |
| BHD | 0.75%   |

---

The following Trusts' investment advisory fee paid to the Manager is computed daily and payable monthly based on an annual rate of each Trust's average total assets (including any assets attributable to borrowings) minus the sum of total liabilities (other than debt representing financial leverage):

Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

|     |       |
|-----|-------|
| HYV | 0.60% |
| HYT | 0.70% |

The following Trusts' investment advisory fee paid to the Manager is computed weekly and payable monthly based on an annual rate of each Trust's average net assets:

|     |       |
|-----|-------|
| BNA | 0.60% |
| BKT | 0.65% |

The Manager has voluntarily agreed to waive a portion of the investment advisory fees or other expenses on BHD by 0.05% of its average weekly managed assets through February 28, 2010. This amount is included in fees waived by advisor on the Statements of Operations. For the year ended August 31, 2009, the amount waived by BHD was \$ 56,414.

BHY, BNA and BKT each have an Administration Agreement with the Manager. The administration fee paid to the Manager is computed weekly and payable monthly based on an annual rate, 0.10% for BNA, and 0.15% for BKT, of each Trust's average net assets and 0.10% for BHY of the Trust's average weekly managed assets.

The Manager has agreed to waive its advisory fees by the amount of investment advisory fees each Trust pays to the Manager indirectly through its investment in affiliated money market funds. These amounts are included in fees waived by advisor on the Statements of Operations. For the year ended August 31, 2009, the amounts were as follows:

|     | Fees Waived<br>by Manager |
|-----|---------------------------|
| BHK | \$ 1,039                  |
| HYV | \$ 714                    |
| HYT | \$ 686                    |
| HIS | \$ 741                    |
| BHY | \$ 841                    |
| BNA | \$ 903                    |
| BKT | \$ 50,476                 |
| BHD | \$ 3,845                  |

The Manager has entered into a separate sub-advisory agreement with BlackRock Financial Management, Inc. ( BFM ), an affiliate of the Manager, with respect to BHK, HYV, HYT, HIS and BHD, under which the Manager pays BFM for services it provides, a monthly fee that is a percentage of the investment advisory fee paid by each Trust to the Manager.

For the year ended August 31, 2009, certain Trusts reimbursed the Manager for certain accounting services, which are included in accounting services in the Statements of Operations. The reimbursements were as follows:

|     | Accounting<br>Services |
|-----|------------------------|
| BHK | \$ 7,476               |
| HYV | \$ 6,513               |
| HYT | \$ 7,045               |
| HIS | \$ 2,069               |
| BHD | \$ 1,562               |

## Notes to Financial Statements (continued)

In addition, Merrill Lynch, Pierce, Fenner & Smith Incorporated ( MLPF&S ), a wholly owned subsidiary of Merrill Lynch, received commissions on execution of portfolio security transactions for the Trusts for the period September 1, 2008 to December 31, 2008 (after which time Merrill Lynch was no longer considered an affiliate), as follows:

|     |        |
|-----|--------|
| BHK | \$ 220 |
| BNA | \$ 220 |

Certain officers and/or trustees of the Trusts are officers and/or directors of BlackRock or its affiliates. The Trusts reimburse the Manager for compensation paid to the Trusts Chief Compliance Officer.

**4. Investments:**

Purchases and sales of investments (including paydowns and TBA and mortgage dollar roll transactions and excluding short-term securities and US government securities), for the year ended August 31, 2009 were as follows:

|     | Purchases        | Sales            |
|-----|------------------|------------------|
| BHK | \$ 1,062,228,930 | \$ 1,109,686,169 |
| HYV | \$ 223,482,779   | \$ 273,112,072   |
| HYT | \$ 220,959,742   | \$ 278,821,284   |
| HIS | \$ 59,223,217    | \$ 71,081,974    |
| BHY | \$ 19,279,254    | \$ 23,555,238    |
| BNA | \$ 911,086,808   | \$ 1,010,199,678 |
| BKT | \$ 4,181,067,375 | \$ 4,151,184,512 |
| BHD | \$ 42,085,588    | \$ 45,574,047    |

For the year ended August 31, 2009, purchases and sales of US government securities were as follows:

|     | Purchases      | Sales          |
|-----|----------------|----------------|
| BHK | \$ 131,069,683 | \$ 157,939,305 |
| BNA | \$ 90,390,147  | \$ 126,596,712 |
| BKT | \$ 118,637,113 | \$ 95,553,053  |
| BHD | \$ 429,608     | \$ 3,971,296   |

For the year ended August 31, 2009, purchases and sales attributable to mortgage dollar rolls were as follows:

|     | Purchases        | Sales            |
|-----|------------------|------------------|
| BHK | \$ 497,080,908   | \$ 499,129,138   |
| BNA | \$ 389,903,416   | \$ 404,738,316   |
| BKT | \$ 2,818,349,172 | \$ 3,130,769,403 |

Transactions in options written for the year ended August 31, 2009 were as follows:

\* Some contracts represent a notional amount of \$1 million.

##### 5. Commitments:

Certain Trusts may invest in floating rate loans. In connection with these investments, the Trust may also enter into unfunded corporate loans ( commitments ). These commitments may obligate the Trust to furnish temporary financing to a borrower until permanent financing can be arranged. In connection with these commitments, the Trust earns a commitment fee, typically set as a percentage of the commitment amount. Such fee income, which is classified in the Statements of Operations as facility and other fees, is recognized ratably over the commitment period. As of August 31, 2009, there were no commitments outstanding.

**6. Market and Credit Risk:**

In the normal course of business, the Trusts invest in securities and enter into transactions where risks exist due to fluctuations in the market (market risk) or failure of the issuer of a security to meet all its obligations (credit risk). The value of securities held by the Trusts may decline in response to certain events, including those directly involving the issuers whose securities are owned by the Trusts; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency and interest rate and price fluctuations. Similar to credit risk, the Trusts may be exposed to counterparty risk, or the risk that an entity with which the Trusts have unsettled or open transactions may default. Financial assets, which potentially expose the Trusts to credit and counterparty risks, consist principally of investments and cash due from counterparties. The extent of the Trusts' exposure to credit and counterparty risks with respect to those financial assets is approximated by their value recorded in the Trusts' Statements of Assets and Liabilities.

**7. Capital Share Transactions:**

There are 200 million of \$0.01 par value shares authorized for BNA and BKT. There are an unlimited number of \$0.001 par value shares authorized for BHK, BHY and BHD. There are an unlimited number of no par value shares authorized for HIS. There are 200 million of \$0.10 par value shares authorized for HYV and HYT.

Shares issued and outstanding for the year ended August 31, 2009 increased by the following amounts as a result of dividend reinvestments:

|     |       |
|-----|-------|
| BHK | 4,253 |
| BHY | 8,666 |
| BNA | 6,677 |

Shares remained constant for all other Trusts for the periods ended August 31, 2009 and August 31, 2008 (period November 1, 2007 to August 31, 2008 for BHK, BHY, BNA, BKT and BHD and period January 1, 2008 to August 31, 2008 for HIS) and the year ended October 31, 2007 for BHK, BNA, BKT and BHD and the year ended December 31, 2007 for HIS.

**8. Borrowings:**

On May 16, 2008, HYV, HYT, HIS and BHY renewed their revolving credit and security Agreements ( Citicorp Agreement ) pursuant to a commercial paper asset securitization program with Citicorp North America, Inc. ( Citicorp ), as Agent, certain secondary backstop lenders and certain asset securitization conduits, as lenders (the Lenders ). The agreement was renewed for one year and at the time of renewal had maximum limits as follows:

|     | Maximum<br>Limit |
|-----|------------------|
| HYV | \$ 212,000,000   |
| HYT | \$ 227,000,000   |
| HIS | \$ 80,000,000    |
| BHY | \$ 32,000,000    |

Under the Citicorp Agreement, the conduits funded advances to each Trust through the issuance of highly rated commercial paper. Each Trust had

## Notes to Financial Statements (continued)

granted a security interest in substantially all of its assets to, and in favor of, the Lenders as security for its obligations to the Lenders. The interest rate on each Trust's borrowings was based on the interest rate carried by the commercial paper plus a program fee. In addition, each Trust paid a liquidity fee to the secondary backstop lenders and the agent. Under the Citicorp Agreement, the Trusts were subject to certain conditions and covenants, which included among other things limitations on asset declines over prescribed time periods. As a result of the decline in net assets attributable to market conditions, certain terms of the facility were renegotiated effective December 5, 2008, which included waivers of certain financial covenants by the Lenders, an increase in program and liquidity fees under the facility and a reduction of the maximum limits.

On March 5, 2009, HYV, HYT, HIS and BHY terminated their revolving credit agreement with Citicorp and entered into a senior committed secured, 364-day revolving line of credit and a separate security agreement (the SSB Agreement) with State Street Bank and Trust Company (SSB). The SSB Agreement has the same maximum limits as the renegotiated limits under the Citigroup Agreement and are as follows:

|     | Maximum<br>Limit |
|-----|------------------|
| HYV | \$ 127,000,000   |
| HYT | \$ 135,000,000   |
| HIS | \$ 41,000,000    |
| BHY | \$ 16,000,000    |

The Trusts have granted a security interest in substantially all of its assets to SSB.

Advances are made by SSB to the Trusts, at the Trusts' option (a) the higher of 1.0% above the Fed Effective Rate or 1.0% above the Overnight LIBOR Rate and (b) 1.0% above 7-day, 30-day, or 60-day LIBOR Rate. In addition, the Trusts pay a facility fee and a commitment fee based upon SSB's total commitment to the Trusts. The fees associated with each of the agreements are included in the Statements of Operations as borrowing costs. Advances to the Trusts as of August 31, 2009 are shown in the Statements of Assets and Liabilities as loan payable.

The Trusts may not declare dividends or make other distributions on shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding short-term borrowings is less than 300%.

On August 28, 2009, BHK, BNA and BKT borrowed under the Term Asset-Backed Securities Loan Facility (TALF). The TALF program was launched by the U.S. Department of Treasury and the Federal Reserve Board as a credit facility designed to restore liquidity to the market for asset-backed securities. The Federal Reserve Bank of New York (FRBNY) will provide up to \$1 trillion in non-recourse loans to support the issuance of certain AAA-rated asset-backed securities and commercial mortgage-backed securities (Eligible Securities). Each Trust posted as collateral already held Eligible Securities, which were all commercial mortgage-backed securities, in return for non-recourse, 5-year term loans (TALF loans) in an amount equal to approximately 85% of the value of such Eligible Securities. The TALF loans are included in loans payable on the Statements of Assets and Liabilities.

The following is a summary of outstanding TALF loans and related information as of August 31, 2009:

|     | Number<br>of Loans | Aggregate<br>Amount<br>of Loans | Maturity<br>Date(s) | Interest<br>Rates | Value of<br>Eligible<br>Securities |
|-----|--------------------|---------------------------------|---------------------|-------------------|------------------------------------|
| BHK | 1                  | \$ 11,850,234                   | 8/28/14             | 3.87%             | \$ 13,982,577                      |
| BNA | 1                  | \$ 11,850,234                   | 8/28/14             | 3.87%             | \$ 13,982,577                      |
| BKT | 1                  | \$ 11,814,907                   | 8/28/14             | 3.87%             | \$ 13,881,696                      |

The non-recourse provision of the TALF loans allows the Trusts to satisfy loan obligations with Eligible Securities, subject to certain conditions, even if the value of the Eligible Securities falls below the outstanding amount of the loan. The Trusts can repay TALF loans prior to the maturity dates with no penalty. Principal and interest due on the loans will typically be paid with principal paydowns and interest received from the

## Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

Eligible Securities. Credit agreements underlying each loan contain provisions to address instances in which interest payments on Eligible Securities fall short of amounts due to the FRBNY. Each Trust paid to the FRBNY a one-time administration fee of 0.20% of the amount borrowed, which was expensed as incurred in the current period by each Trust and is reflected in borrowing costs in the Statements of Operations. Each Trust also pays a financing fee equal to the 5-year LIBOR swap rate plus 1.00% on the outstanding loan amount payable monthly, which is reflected as interest expense in the Statements of Operations.

Since the Trusts have the ability to potentially satisfy TALF loan obligations by surrendering Eligible Securities, potential losses by the Trusts associated with the TALF loans are limited to the difference between the amount of Eligible Securities posted at the time of loan initiation and the loan proceeds received by the Trust.

The Trusts have elected to account for the outstanding TALF loans at fair value. The Trusts elected to fair value their TALF loans to more closely align changes in the value of the TALF loans with changes in the value of the Eligible Securities and to reduce the potential volatility in the Statements of Operations which could result if only the Eligible Securities were fair valued. In fair valuing TALF loans, the Trusts consider various factors such as observable market transactions, if available, changes in the value of Eligible Securities, interest rate movements, and the potential likelihood and timing of loan repayments. Any change in unrealized gain or loss associated with fair valuing TALF loans will be reflected in the Statements of Operations. As of August 31, 2009, the fair value of each Trust's TALF loan obligation was determined to be equal to its face value and as a result there were no unrealized gains or losses recorded by the Trusts.

For the year ended August 31, 2009, the daily weighted average interest rates for funds with reverse repurchase agreements, treasury rolls and TALF loan were as follows:

---

|     | <b>Daily Weighted<br/>Average<br/>Interest Rate</b> |
|-----|---|
| BHK | 0.92%   |
| BNA | 0.63%   |
| BKT | 1.35%   |

---

## Notes to Financial Statements (continued)

For the year ended August 31, 2009, the daily weighted average interest rates for funds with loans under the revolving credit agreements were as follows:

|     | Daily<br>Weighted<br>Average<br>Interest Rate |
|-----|---|
| HYV | 2.86%   |
| HYT | 2.87%   |
| HIS | 2.45%   |
| BHY | 2.74%   |

For the year ended August 31, 2009, the daily weighted average interest rates for funds with reverse repurchase agreements were as follows:

|     | Daily Weighted<br>Average<br>Interest Rate |
|-----|--|
| BHD | 0.74%                                      |

**9. Income Tax Information:**

**Reclassifications:** Accounting principles generally accepted in the United States of America require that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share. The following permanent differences as of August 31, 2009 attributable to accounting for swap agreements, amortization methods on fixed income securities, foreign currency transactions, securities in default, the expiration of capital loss carryforwards, the classification of investments and other differences between financial reporting and tax accounting were reclassified to the following accounts:

|  | BHK            | HYV          | HYT          | HIS             | BHY             | BNA            | BKT          | BHD         |
|--|----------------|--------------|--------------|-----------------|-----------------|----------------|--------------|-------------|
| Paid-in capital  |                |              |              | \$ (55,878,284) | \$ (15,159,280) |                |              |             |
| Undistributed (distributions in excess of) net investment income | \$ 6,012,049   | \$ 429,631   | \$ 486,249   | \$ 118,043      | \$ 21,312       | \$ 8,018,317   | \$ (371,146) | \$ (21,444) |
| Accumulated net realized loss                                    | \$ (6,012,049) | \$ (429,631) | \$ (486,249) | \$ 55,760,241   | \$ 15,137,968   | \$ (8,018,317) | \$ 371,146   | \$ 21,444   |

The tax character of distributions paid during the periods ended August 31, 2009 and 2008 and October 31, 2007 (December 31, 2007 for High Income) was as follows:

|                 | BHK           | HYV           | HYT           | HIS           | BHY          | BNA           | BKT           | BHD          |
|-----------------|---------------|---------------|---------------|---------------|--------------|---------------|---------------|--------------|
| Ordinary income |               |               |               |               |              |               |               |              |
| 8/31/2009       | \$ 20,703,556 | \$ 39,697,493 | \$ 42,020,500 | \$ 11,459,895 | \$ 3,522,285 | \$ 21,085,255 | \$ 18,415,450 | \$ 6,204,335 |
| 8/31/2008       | 16,387,174    | 39,960,291    | 42,767,302    | 6,958,699     | 3,273,618    | 17,707,143    | 15,793,806    | 5,434,969    |
| 12/31/2007      |               |               |               | 12,923,299    |              |               |               |              |

**10. Subsequent Events:**

The Trusts paid a net investment income dividend on September 30, 2009 to shareholders of record on September 15, 2009 in the following amounts:

|     |          |
|-----|----------|
| BHK | \$0.0620 |
| HYV | \$0.0875 |
| HYT | \$0.0875 |
| HIS | \$0.0132 |
| BHY | \$0.0435 |
| BNA | \$0.0510 |
| BKT | \$0.0240 |
| BHD | \$0.0695 |

Management's evaluation of the impact of all subsequent events on the Trusts' financial statements was completed through October 30, 2009, the date the financial statements were issued.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Trustees/Directors of:

**BlackRock Core Bond Trust**

**BlackRock Corporate High Yield Fund V, Inc.**

**BlackRock Corporate High Yield Fund VI, Inc.**

**BlackRock High Income Shares**

**BlackRock High Yield Trust**

**BlackRock Income Opportunity Trust, Inc.**

**BlackRock Income Trust, Inc.**

**BlackRock Strategic Bond Trust (Collectively the Trusts ):**

We have audited the accompanying statements of assets and liabilities of BlackRock Core Bond Trust, BlackRock High Yield Trust and BlackRock Income Opportunity Trust, Inc., including the schedules of investments, as of August 31, 2009, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for the year then ended, for the period November 1, 2007 to August 31, 2008, and for the year ended October 31, 2007, and the financial highlights for the year ended August 31, 2009, for the period November 1, 2007 to August 31, 2008, and for each of the four years in the period ended October 31, 2007. We have also audited the accompanying statements of assets and liabilities of BlackRock Corporate High Yield Fund V, Inc. and BlackRock Corporate High Yield Fund VI, Inc., including the schedules of investments, as of August 31, 2009, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. We have also audited the accompanying statement of assets and liabilities of BlackRock High Income Shares, including the schedule of investments, as of August 31, 2009, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for the year then ended, for the period January 1, 2008 to August 31, 2008, and for the year ended December 31, 2007, and the financial highlights for the year ended August 31, 2009, for the period January 1, 2008 to August 31, 2008, and for each of the three years in the period ended December 31, 2007. We have also audited the accompanying statements of assets and liabilities of BlackRock Income Trust, Inc. and BlackRock Strategic Bond Trust, including the schedules of investments, as of August 31, 2009, and the related statements of operations for the year then ended, the statements of changes in net assets for the year then ended, for the period November 1, 2007 to August 31, 2008, and for the year ended October 31, 2007, and the financial highlights for the year ended August 31, 2009, for the period November 1, 2007 to August 31, 2008, and for each of the four years in the period ended October 31, 2007. These financial statements and financial highlights are the responsibility of the Trusts' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The financial highlights of BlackRock High Income Shares for the year ended December 31, 2004 were audited by other auditors whose report, dated February 22, 2005, expressed an unqualified opinion on those financial highlights.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Trusts are not required to have, nor were we engaged to perform an audit of their internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trusts' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures include confirmation of the securities owned as of August 31, 2009, by correspondence with the custodian and financial intermediaries; where replies were not received from financial intermediaries, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of BlackRock Core Bond Trust, BlackRock High Yield Trust and BlackRock Income Opportunity Trust, Inc., the results of their operations and their cash flows for the year then ended, the changes in their net assets for the year then ended, for the period November 1, 2007 to August 31, 2008, and for the year ended October 31, 2007, and the financial highlights for the year ended August 31, 2009, for the period November 1, 2007 to August 31, 2008, and for each of the four years in the period ended October 31, 2007, in conformity with accounting principles generally accepted in the United States of America. Additionally, in our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of BlackRock Corporate High Yield Fund V, Inc. and BlackRock Corporate High Yield Fund VI, Inc., the results of their operations and their cash flows for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. Additionally, in our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of BlackRock High Income Shares, the results of its operations and its cash flows for the year then ended, the changes in its net assets for the year then ended, for the period January 1, 2008 to

## Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

August 31, 2008, and for the year ended December 31, 2007, and the financial highlights for the year ended August 31, 2009, for the period January 1, 2008 to August 31, 2008, and for each of the three years in the period ended December 31, 2007, in conformity with accounting principles generally accepted in the United States of America. Additionally, in our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of BlackRock Income Trust, Inc. and BlackRock Strategic Bond Trust, the results of their operations for the year then ended, the changes in their net assets for the year then ended, for the period November 1, 2007 to August 31, 2008, and for the year ended October 31, 2007, and the financial highlights for the year ended August 31, 2009, for the period November 1, 2007 to August 31, 2008, and for each of the four years in the period ended October 31, 2007, in conformity with accounting principles generally accepted in the United States of America.

<sup>1</sup> The law varies in each state as to whether and what percentage of dividend income attributable to federal obligations is exempt from state income tax. We recommend that you consult your tax advisor to determine if any portion of the dividends you received is exempt from state income taxes.

<sup>2</sup> Represents the portion of the taxable ordinary income dividends eligible for exemption from U.S. withholding tax for nonresident aliens and foreign corporations.

## Disclosure of Investment Advisory Agreements and Sub-Advisory Agreements

The Board of Directors or the Board of Trustees, as the case may be (each, a Board, and, collectively, the Boards, and the members of which are referred to as Board Members) of each of BlackRock Core Bond Trust ( BHK ), BlackRock Corporate High Yield Fund V, Inc. ( HYV ), BlackRock Corporate High Yield Fund VI, Inc. ( HYT ), BlackRock High Income Shares ( HIS ), BlackRock High Yield Trust ( BHY ), BlackRock Income Opportunity Trust ( BNA ), BlackRock Income Trust Inc. ( BKT ) and BlackRock Strategic Bond Trust ( BHD, and together with BHK, HYV, HYT, HIS, BHY, BNA and BKT, each a Trust, and, collectively, the Trusts ) met on April 14, 2009 and May 28-29, 2009 to consider the approval of its respective Trust's investment advisory agreement (each an Advisory Agreement) with BlackRock Advisors, LLC (the Manager), each Trust's investment advisor. Each Board also considered the approval of the sub-advisory agreement (each a Sub-Advisory Agreement) between its respective Trust, the Manager and BlackRock Financial Management, Inc. (the Sub-Advisor), as applicable. The Manager and the Sub-Advisor are referred to herein as BlackRock. The Advisory Agreements and the Sub-Advisory Agreements are referred to herein as the Agreements. Unless otherwise indicated, references to actions taken by the Board or the Boards shall mean each Board acting independently with respect to its respective Trust.

## Activities and Composition of the Boards

Each Board consists of twelve individuals, ten of whom are not interested persons of the Trust as defined in the Investment Company Act of 1940, as amended (the 1940 Act) (the Independent Board Members). The Board Members of each Trust are responsible for the oversight of the operations of such Trust and perform the various duties imposed on the directors of investment companies by the 1940 Act. The Independent Board Members have retained independent legal counsel to assist them in connection with their duties. The Chairman of each Board is an Independent Board Member. Each Board has established five standing committees: an Audit Committee, a Governance and Nominating Committee, a Compliance Committee, a Performance Oversight Committee and an Executive Committee, each of which is composed of Independent Board Members (except for the Executive Committee, which has one interested Board Member) and is chaired by an Independent Board Member. In addition, each Board has established an Ad Hoc Committee on Auction Market Preferred Shares.

## The Agreements

Pursuant to the 1940 Act, each Board is required to consider the continuation of the Agreements on an annual basis. In connection with this process, each Board assessed, among other things, the nature, scope and quality of the services provided to its respective Trust by the personnel of BlackRock and its affiliates, including investment management, administrative and shareholder services, oversight of fund accounting and custody, marketing services and assistance in meeting applicable legal and regulatory requirements.

Throughout the year, the Boards, acting directly and through their committees, consider at each of their meetings factors that are relevant to their annual consideration of the renewal of the Agreements, including the services and support provided by BlackRock to the Trusts and their shareholders. Among the matters the Boards considered were: (a) investment performance for one-, three- and five-year periods, as applicable, against peer funds, and applicable benchmarks, if any, as well as senior management and portfolio managers' analysis of the reasons for any outperformance or underperformance against its peers; (b) fees, including advisory fees, administration fees with respect to BHY, BNA and BKT, and other amounts paid to BlackRock and its affiliates by the Trusts for services such as call center and fund accounting; (c) the Trusts' operating expenses; (d) the resources devoted to and compliance reports relating to the Trusts' investment objective, policies and restrictions; (e) the Trusts' compliance with their Code of Ethics and compliance policies and procedures; (f) the nature, cost and character of non-investment management services provided by BlackRock and its affiliates; (g) BlackRock's and other service providers' internal controls; (h) BlackRock's implementation of the proxy voting policies approved by the Boards; (i) execution quality of portfolio transactions; (j) BlackRock's implementation of the Trusts' valuation and liquidity procedures; and (k) periodic updates on BlackRock's business.

## Board Considerations in Approving the Agreements

**The Approval Process:** Prior to the April 14, 2009 meeting, each Board requested and received materials specifically relating to the Agreements. Each Board is engaged in an ongoing process with BlackRock to continuously review the nature and scope of the information provided to better assist their deliberations. The materials provided in connection with the April meeting included: (a) information independently compiled and prepared by Lipper, Inc. (Lipper) on Trust fees and expenses, and the investment performance of each Trust as compared with a peer group of funds as determined by Lipper (collectively, Peers); (b) information on the profitability of the Agreements to BlackRock and a discussion of fall-out benefits to BlackRock and its affiliates and significant shareholders; (c) a general analysis provided by BlackRock concerning investment advisory fees charged to other clients, such as institutional clients and open-end funds, under similar investment mandates, as well as the performance of such other clients; (d) the impact of economies of scale; (e) a summary of aggregate amounts paid by each Trust to BlackRock; and (f) an internal comparison of management fees classified by Lipper, if applicable.

At an in-person meeting held on April 14, 2009, each Board reviewed materials relating to its consideration of the Agreements. As a result of the discussions that occurred during the April 14, 2009 meeting, the Boards presented BlackRock with questions and requests for additional

Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

information and BlackRock responded to these requests with additional written information in advance of the May 28 - 29, 2009 Board meeting.

---

ANNUAL REPORT

AUGUST 31, 2009

107

---

**Disclosure of Investment Advisory Agreements and Sub-Advisory Agreements (continued)**

At an in-person meeting held on May 28-29, 2009, each Trust's Board, including the Independent Board Members, unanimously approved the continuation of the Advisory Agreement between the Manager and such Trust and the Sub-Advisory Agreement between such Trust, the Manager and the Sub-Advisor, as applicable, each for a one-year term ending June 30, 2010. The Boards considered all factors they believed relevant with respect to the Trusts, including, among other factors: (a) the nature, extent and quality of the services provided by BlackRock; (b) the investment performance of the Trusts and BlackRock portfolio management; (c) the advisory fee and the cost of the services and profits to be realized by BlackRock and certain affiliates from the relationship with the Trusts; (d) economies of scale; and (e) other factors.

Each Board also considered other matters it deemed important to the approval process, such as services related to the valuation and pricing of its respective Trust's portfolio holdings, direct and indirect benefits to BlackRock and its affiliates and significant shareholders from their relationship with such Trust and advice from independent legal counsel with respect to the review process and materials submitted for the Board's review. The Boards noted the willingness of BlackRock personnel to engage in open, candid discussions with the Boards. The Boards did not identify any particular information as controlling, and each Board Member may have attributed different weights to the various items considered.

**A. Nature, Extent and Quality of the Services:** Each Board, including its Independent Board Members, reviewed the nature, extent and quality of services provided by BlackRock, including the investment advisory services and the resulting performance of its respective Trust. Throughout the year, each Board compared its respective Trust's performance to the performance of a comparable group of closed-end funds, and the performance of at least one relevant benchmark, if any. The Boards met with BlackRock's senior management personnel responsible for investment operations, including the senior investment officers. Each Board also reviewed the materials provided by its respective Trust's portfolio management team discussing such Trust's performance and such Trust's investment objective, strategies and outlook.

Each Board considered, among other factors, the number, education and experience of BlackRock's investment personnel generally and its respective Trust's portfolio management team, investments by portfolio managers in the funds they manage, BlackRock's portfolio trading capabilities, BlackRock's use of technology, BlackRock's commitment to compliance and BlackRock's approach to training and retaining portfolio managers and other research, advisory and management personnel. Each Board also reviewed a general description of BlackRock's compensation structure with respect to its respective Trust's portfolio management team and BlackRock's ability to attract and retain high-quality talent.

In addition to advisory services, each Board considered the quality of the administrative and non-investment advisory services provided to its respective Trust. BlackRock and its affiliates and significant shareholders provide the Trusts with certain administrative and other services (in addition to any such services provided to the Trusts by third parties) and officers and other personnel as are necessary for the operations of the Trusts. In addition to investment advisory services, BlackRock and its affiliates provide the Trusts with other services, including: (i) preparing disclosure documents, such as the prospectus and the statement of additional information in connection with the initial public offering and periodic shareholder reports; (ii) preparing communications with analysts to support secondary market trading of the Trusts; (iii) assisting with daily accounting and pricing; (iv) preparing periodic filings with regulators and stock exchanges; (v) overseeing and coordinating the activities of other service providers; (vi) organizing Board meetings and preparing the materials for such Board meetings; (vii) providing legal and compliance support; and (viii) performing other administrative functions necessary for the operation of the Trusts, such as tax reporting, fulfilling regulatory filing requirements, and call center services. The Boards reviewed the structure and duties of BlackRock's fund administration, accounting, legal and compliance departments and considered BlackRock's policies and procedures for assuring compliance with applicable laws and regulations.

**B. The Investment Performance of the Trusts and BlackRock:** Each Board, including its Independent Board Members, also reviewed and considered the performance history of its respective Trust. In preparation for the April 14, 2009 meeting, the Boards were provided with reports, independently prepared by Lipper, which included a comprehensive analysis of each Trust's performance. The Boards also reviewed a narrative and statistical analysis of the Lipper data that was prepared by BlackRock, which analyzed various factors that affect Lipper's rankings. In connection with its review, each Board received and reviewed information regarding the investment performance of its respective Trust as compared to a representative group of similar funds as determined by Lipper and to all funds in such Trusts applicable Lipper category. Each Board was provided with a description of the methodology used by Lipper to select peer funds. Each Board regularly reviews the performance of its respective Trust throughout the year.

The Board of each of BHK, BHY, BNA and BKT noted that, in general, BHK, BHY, BNA and BKT performed better than their respective Peers in that the performance of each of BHK, BHY, BNA and BKT was at or above the median of their respective Lipper performance universe in each of the one-, three- and five-year periods reported.

Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

The Board of each of HYV and HIS noted that, in general, HYV and HIS performed better than their respective Peers in that the performance of each of HYV and HIS was at or above the median of their respective Lipper performance universe in two of the one-, three- and five-year periods reported.

---

**Disclosure of Investment Advisory Agreements and Sub-Advisory Agreements (continued)**

The Board of HYT noted that HYT performed below the median of its Lipper performance universe in the one-, three- and five-year periods reported. The Board and BlackRock reviewed the reasons for the HYT's underperformance during these periods compared with its Peers. The Board was informed that, among other things, exposure to senior bank loans negatively impacted returns. Additionally, HYT's underweight to BB-rated credits and overweight to CCC-rated credits subtracted from returns as higher quality below investment-grade bonds strongly outperformed their lower quality counterparts.

The Board of BHD noted that BHD performed below the median of its Lipper performance universe in the one-, three- and five-year periods reported. The Board and BlackRock reviewed the reasons for BHD's underperformance during these periods compared with its Peers. The Board was informed that, among other things, the predominantly high yield strategy of BHD detracted from BHD's performance relative to its Peers.

For HYT and BHD, the Board of each respective Trust and BlackRock discussed BlackRock's commitment to providing the resources necessary to assist the portfolio managers and to improve each such Trust's performance.

**C. Consideration of the Advisory Fees and the Cost of the Services and Profits to be Realized by BlackRock and its Affiliates from their Relationship with the Trusts:** Each Board, including its Independent Board Members, reviewed its respective Trust's contractual advisory fee rates compared with the other funds in its respective Lipper category. Each Board also compared its respective Trust's total expenses, as well as actual management fees, to those of other comparable funds. Each Board considered the services provided and the fees charged by BlackRock to other types of clients with similar investment mandates, including separately managed institutional accounts.

The Boards received and reviewed statements relating to BlackRock's financial condition and profitability with respect to the services it provided the Trusts. The Boards were also provided with a profitability analysis that detailed the revenues earned and the expenses incurred by BlackRock for services provided to the Trusts. The Boards reviewed BlackRock's profitability with respect to the Trusts and other funds the Boards currently oversee for the year ended December 31, 2008 compared to available aggregate profitability data provided for the year ended December 31, 2007. The Boards reviewed BlackRock's profitability with respect to other fund complexes managed by the Manager and/or its affiliates. The Boards reviewed BlackRock's assumptions and methodology of allocating expenses in the profitability analysis, noting the inherent limitations in allocating costs among various advisory products. The Boards recognized that profitability may be affected by numerous factors including, among other things, fee waivers by the Manager, the types of funds managed, expense allocations and business mix, and therefore comparability of profitability is somewhat limited.

The Boards noted that, in general, individual fund or product line profitability of other advisors is not publicly available. Nevertheless, to the extent such information is available, the Boards considered BlackRock's overall operating margin compared to the operating margin for leading investment management firms whose operations include advising closed-end funds, among other product types. The comparison indicated that operating margins for BlackRock with respect to its registered funds are generally consistent with margins earned by similarly situated publicly traded competitors. In addition, the Boards considered, among other things, certain third party data comparing BlackRock's operating margin with that of other publicly-traded asset management firms, which concluded that larger asset bases do not, in themselves, translate to higher profit margins.

In addition, the Boards considered the cost of the services provided to the Trusts by BlackRock, and BlackRock's and its affiliates' profits relating to the management and distribution of the Trusts and the other funds advised by BlackRock and its affiliates. As part of their analysis, the Boards reviewed BlackRock's methodology in allocating its costs to the management of the Trusts. The Boards also considered whether BlackRock has the financial resources necessary to attract and retain high-quality investment management personnel to perform its obligations under the Agreements and to continue to provide the high quality of services that is expected by the Boards.

The Board of each of BHK, HYV, HYT, HIS, BKT and BHD noted that its respective Trust paid contractual management fees, which do not take into account any expense reimbursement or fee waivers, lower than or equal to the median contractual management fees paid by such Trust's Peers.

The Board of BHY noted that, although BHY paid contractual management fees higher than the median of its Peers, its total expenses, including investment-related expenses (e.g., interest expense related to such Trust's use of leverage) and taxes, were lower than the median of its Peers.

The Board of BNA noted that, although BNA paid contractual management fees higher than the median of its Peers, its actual management fees were lower than or equal to the median of its Peers.

**D. Economies of Scale:** Each Board, including its Independent Board Members, considered the extent to which economies of scale might be realized as the assets of its respective Trust increase and whether there should be changes in the advisory fee rate or structure in order to enable such Trust to participate in these economies of scale, for example through the use of breakpoints in the advisory fee based upon the assets of such Trust. The Boards considered that the funds in the BlackRock fund complex share some common resources and, as a result, an increase in the overall size of the complex could permit each fund to incur lower expenses than it would otherwise as a stand-alone entity. The Boards also considered BlackRock's overall operations and its efforts to expand the scale of, and improve the quality of, its operations.

#### Disclosure of Investment Advisory Agreements and Sub-Advisory Agreements (concluded)

The Board noted that most closed-end fund complexes do not have fund level breakpoints because closed-end funds generally do not experience substantial growth after the initial public offering and each fund is managed independently, consistent with its own investment objectives. Information provided by Lipper revealed that only one closed-end fund complex used a complex level breakpoint structure. The Board noted that only one closed-end fund in the Fund Complex, HIS, has breakpoints in its fee structure.

**E. Other Factors:** The Boards also took into account other ancillary or fallout benefits that BlackRock or its affiliates and significant shareholders may derive from their relationship with the Trusts, both tangible and intangible, such as BlackRock's ability to leverage its investment professionals who manage other portfolios, an increase in BlackRock's profile in the investment advisory community, and the engagement of BlackRock's affiliates and significant shareholders as service providers to the Trusts, including for administrative and distribution services. The Boards also noted that BlackRock may use third party research obtained by soft dollars generated by certain mutual fund transactions to assist itself in managing all or a number of its other client accounts.

In connection with their consideration of the Agreements, the Boards also received information regarding BlackRock's brokerage and soft dollar practices. The Boards received reports from BlackRock which included information on brokerage commissions and trade execution practices throughout the year.

#### Conclusion

Each Board, including its Independent Board Members, unanimously approved the continuation of the Advisory Agreement between its respective Trust and the Manager for a one-year term ending June 30, 2010 and the Sub-Advisory Agreement between such Trust, the Manager and Sub-Advisor, where applicable, for a one-year term ending June 30, 2010. Based upon its evaluation of all these factors in their totality, each Board, including its Independent Board Members, was satisfied that the terms of the Agreements were fair and reasonable and in the best interest of its respective Trust and its shareholders. In arriving at a decision to approve the Agreements, each Board did not identify any single factor or group of factors as all-important or controlling, but considered all factors together, and different Board Members may have attributed different weights to the various factors considered. The Independent Board Members were also assisted by the advice of independent legal counsel in making this determination. The contractual fee arrangements for each Trust reflects the results of several years of review by such Trust's Board Members and predecessor Board Members, and discussions between such Board Members (and predecessor Board Members) and BlackRock. Certain aspects of the arrangements may be the subject of more attention in some years than in others, and the Board Members' conclusions may be based in part on their consideration of these arrangements in prior years.

---

## Dividend Reinvestment Plans

---

### For BHK, HIS, BHY, BNA, BKT and BHD

---

Pursuant to each Trust's respective Dividend Reinvestment Plan (the "Plan"), common shareholders of HIS, BNA and BKT may elect, while shareholders of BHK, BHY and BHD are automatically enrolled, to have all distributions of dividends and capital gains reinvested by Computershare Trust Company, N.A. (the "Plan Agent") in the respective Trust's shares pursuant to the Plan. Shareholders who do not participate in the Plan will receive all distributions in cash paid by check and mailed directly to the shareholders of record (or if the shares are held in street or other nominee name, then to the nominee) by the Plan Agent, which serves as agent for the shareholders in administering the Plan.

After the Trusts declare a dividend or determine to make a capital gain distribution, the Plan Agent will acquire shares for the participants account, depending upon the circumstances described below, either (i) through receipt of unissued but authorized shares from the Trust ("newly issued shares") or (ii) by open market purchases. If, on the dividend payment date, the net asset value per share ("NAV") is equal to or less than the market price per share plus estimated brokerage commissions (such condition being referred to herein as "market premium"), the Plan Agent will invest the dividend amount in newly issued shares on behalf of the participants. The number of newly issued shares to be credited to each participant's account will be determined by dividing the dollar amount of the dividend by the NAV on the date the shares are issued. However, if the NAV is less than 95% of the market price on the payment date, the dollar amount of the dividend will be divided by 95% of the market price on the payment date. If, on the dividend payment date, the NAV is greater than the market value per share plus estimated brokerage commissions (such condition being referred to herein as "market discount"), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participants in open-market purchases.

The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by each Trust. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any Federal income tax that may be payable on such dividends or distributions.

Each Trust reserves the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, each Trust reserves the right to amend the Plan to include a service charge payable by the participants. Participants who request a sale of shares through the Plan Agent are subject to a \$2.50 sales fee and a \$0.15 per share sold brokerage commission. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43078, Providence, RI 02940-3078 or by calling (800) 699-1BFM. All overnight correspondence should be directed to the Plan Agent at 250 Royall Street, Canton, MA 02021.

---

## Automatic Dividend Reinvestment Plans

---

### For HYV and HYT

---

**How the Plan Works** The Trusts offer a Dividend Reinvestment Plan (the Plan) under which income and capital gains dividends paid by the Trusts are automatically reinvested in additional shares of Common Stock of the Trusts. The Plan is administered on behalf of the shareholders by Computer-share Trust Company, N.A. (the Plan Agent). Under the Plan, whenever the Trust declares a dividend, participants in the Plan will receive the equivalent in shares of Common Stock of the Trust. The Plan Agent will acquire the shares for the participant's account either (i) through receipt of additional unissued but authorized shares of the Trust (newly issued shares) or (ii) by purchase of outstanding shares of Common Stock on the open market on the New York Stock Exchange or elsewhere. If, on the dividend payment date, the Trust's net asset value per share is equal to or less than the market price per share plus estimated brokerage commissions (a condition often referred to as a market premium), the Plan Agent will invest the dividend amount in newly issued shares. If the Trust's net asset value per share is greater than the market price per share (a condition often referred to as a market discount), the Plan Agent will invest the dividend amount by purchasing on the open market additional shares. If the Plan Agent is unable to invest the full dividend amount in open market purchases, or if the market discount shifts to a market premium during the purchase period, the Plan Agent will invest any uninvested portion in newly issued shares. The shares acquired are credited to each shareholder's account. The amount credited is determined by dividing the dollar amount of the dividend by either (i) when the shares are newly issued, the net asset value per share on the date the shares are issued or (ii) when shares are purchased in the open market, the average purchase price per share.

**Participation in the Plan** Participation in the Plan is automatic, that is, a shareholder is automatically enrolled in the Plan when he or she purchases Common Stock of the Fund unless the shareholder specifically elects not to participate in the Plan. Shareholders who elect not to participate will receive all dividend distributions in cash. Shareholders who do not wish to participate in the Plan must advise the Plan Agent in writing (at the address set forth below) that they elect not to participate in the Plan. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by writing to the Plan Agent.

**Benefits of the Plan** The Plan provides an easy, convenient way for shareholders to make additional, regular investments in the Trust. The Plan promotes a long-term strategy of investing at a lower cost. All shares acquired pursuant to the Plan receive voting rights. In addition, if the market price plus commissions of the Trust's shares is above the net asset value, participants in the Plan will receive shares of the Trust for less than they could otherwise purchase them and with a cash value greater than the value of any cash distribution they would have received. However, there may not be enough shares available in the market to make distributions in shares at prices below the net asset value. Also, since the Trust does not redeem shares, the price on resale may be more or less than the net asset value.

**Plan Fees** There are no enrollment fees or brokerage fees for participating in the Plan. The Plan Agent's service fees for handling the reinvestment of distributions are paid for by the Trusts. However, brokerage commissions may be incurred when the Trusts purchase shares on the open market and shareholders will pay a pro rata share of any such commissions.

**Tax Implications** The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. Therefore, income and capital gains may still be realized even though shareholders do not receive cash. Participation in the Plan generally will not affect the tax-exempt status of exempt interest dividends paid by the Trusts. If, when the Trusts' shares are trading at a market premium, the Trusts issue shares pursuant to the Plan that have a greater fair market value than the amount of cash reinvested, it is possible that all or a portion of the discount from the market value (which may not exceed 5% of the fair market value of the Trusts' shares) could be viewed as a taxable distribution. If the discount is viewed as a taxable distribution, it is also possible that the taxable character of this discount would be allocable to all the shareholders, including shareholders who do not participate in the Plan. Thus, shareholders who do not participate in the Plan might be required to report as ordinary income a portion of their distributions equal to their allocable share of the discount.

**Contact Information** All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43078, Providence, RI 02940-3078 or by calling (800) 699-1BFM. All overnight correspondence should be directed to the Plan Agent at 250 Royall Street, Canton, MA 02021.

<sup>1</sup> Trustees serve until their resignation, removal or death, or until December 31 of the year in which they turn 72.

<sup>2</sup> Date shown is the earliest date a person has served for any of the Trusts covered by this annual report. Following the combination of Merrill Lynch Investment Managers, L.P. ( MLIM ) and BlackRock, Inc. ( BlackRock ) in September 2006, the various legacy MLIM and legacy BlackRock Fund boards were realigned and consolidated into three new Fund boards in 2007. As a result, although the chart shows certain trustees as joining the Fund's board in 2007, each director first became a member of the board of directors of other legacy MLIM or legacy BlackRock Funds as follows: G. Nicholas Beckwith, III, 1999; Richard E. Cavanagh, 1994; Kent Dixon, 1988; Frank J. Fabozzi, 1988; Kathleen F. Feldstein, 2005; James T. Flynn, 1996; Jerrold B. Harris, 1999; R. Glenn Hubbard, 2004; W. Carl Kester, 1995 and Karen P. Robards, 1998.

**Fund Certification**

Certain Trusts are listed for trading on the New York Stock Exchange ( NYSE ) and have filed with the NYSE their annual chief executive officer certification regarding compliance with the NYSE s listing standards. The Trusts filed with the SEC the certification of their chief executive officer and chief financial officer required by section 302 of the Sarbanes-Oxley Act.

---

Additional Information (continued)

---

**General Information**

---

The Trusts do not make available copies of their Statements of Additional Information because the Trusts' shares are not continuously offered, which means that the Statement of Additional Information of each Trust has not been updated after completion of the respective Trust's offerings and the information contained in each Trust's Statement of Additional Information may have become outdated.

During the period, there were no material changes in the Trusts' investment objectives or policies or to the Trusts' charter or by-laws that were not approved by the shareholders or in the principal risk factors associated with investment in the Trusts. Other than as disclosed below, there have been no changes in the persons who are primarily responsible for the day-to-day management of the Trusts' portfolio.

Quarterly performance, semi-annual and annual reports and other information regarding the Trusts may be found on BlackRock's website, which can be accessed at <http://www.blackrock.com>. This reference to BlackRock's web-site is intended to allow investors public access to information regarding the Trusts and does not, and is not intended to, incorporate BlackRock's website into this report.

**Electronic Delivery**

Electronic copies of most financial reports are available on the Trusts' web-site or shareholders can sign up for e-mail notifications of quarterly statements, annual and semi-annual reports by enrolling in the Trusts' electronic delivery program.

**Shareholders Who Hold Accounts with Investment Advisors, Banks or Brokerages:**

Please contact your financial advisor to enroll. Please note that not all investment advisors, banks or brokerages may offer this service.

**Householding**

The Trusts will mail only one copy of shareholder documents, including annual and semi-annual reports and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called "householding" and it is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be househanded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please contact the Trusts at (800) 441-7762.

**Availability of Quarterly Schedule of Investments**

Each Trust files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Trusts' Forms N-Q are available on the SEC's website at <http://www.sec.gov> and may also be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling (202) 551-8090. Each Trust's Forms N-Q may also be obtained upon request and without charge by calling (800) 441-7762.

**Availability of Proxy Voting Policies and Procedures**

A description of the policies and procedures that the Trusts use to determine how to vote proxies relating to portfolio securities is available (1) without charge, upon request, by calling toll-free (800) 441-7762; (2) at [www.blackrock.com](http://www.blackrock.com); and (3) on the SEC's website at <http://www.sec.gov>.

**Availability of Proxy Voting Record**

Information about how the Trusts voted proxies relating to securities held in the Trusts' portfolios during the most recent 12-month period ended June 30 is available upon request and without charge (1) at [www.blackrock.com](http://www.blackrock.com) or by calling (800) 441-7762 and (2) on the SEC's website at <http://www.sec.gov>.

BHK, HYV, HYT, HIS, BHY, BNA and BHD are managed by a team of financial professionals. The portfolio managers are primarily responsible for the day-to-day management of the Trusts' portfolio. Effective May 8, 2009, James Keenan, CFA, Mitchell S. Garfin, CFA and Derek Schoenhofen are the portfolio managers for HYV, HYT, HIS and BNY. Curtis Arledge, James Keenan and Matthew Marra are the portfolio managers for BHK and BNA. Jeffrey Cucunato, James Keenan and Derek Schoenhofen are the portfolio managers for BHD.

Mr. Arledge is Managing Director of BlackRock, Inc. since 2008 and Global Head of Fixed Income Division of Wachovia Corporation from 2004 to 2008.

Mr. Cucunato is Managing Director of BlackRock, Inc. since 2005 and Director thereof from 2001 to 2005.

Mr. Garfin is Managing Director of BlackRock, Inc. since 2009; Director thereof from 2005 to 2009 and Vice President from 2001 to 2005.

Mr. Keenan is Managing Director of BlackRock, Inc. since 2008 and Director thereof from 2004 to 2008; Head of the Leveraged Finance Portfolio team; and senior high yield trader at Columbia Management Group from 2003 to 2004.

Mr. Marra is Managing Director of BlackRock, Inc. since 2006 and Director thereof from 2002 to 2006.

Mr. Schoenhofen is Director of BlackRock, Inc. since 2006 and Vice President thereof from 2000 to 2006.

---

## Additional Information (concluded)

## Section 19 Notices

These amounts and sources of distributions reported are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon each Trust's investment experience during the year and may be subject to changes based on the tax regulations. The Trusts will send you a Form 1099-DIV each calendar year that will tell you how to report these distributions for federal income tax purposes.

## BlackRock Privacy Principles

BlackRock is committed to maintaining the privacy of its current and former fund investors and individual clients (collectively, "Clients") and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information BlackRock collects, how we protect that information and why in certain cases we share such information with select parties.

If you are located in a jurisdiction where specific laws, rules or regulations require BlackRock to provide you with additional or different privacy-related rights beyond what is set forth below, then BlackRock will comply with those specific laws, rules or regulations.

BlackRock obtains or verifies personal non-public information from and about you from different sources, including the following: (i) information we receive from you or, if applicable, your financial intermediary, on applications, forms or other documents; (ii) information about your transactions with us, our affiliates, or others; (iii) information we receive from a consumer reporting agency; and (iv) from visits to our websites.

BlackRock does not sell or disclose to non-affiliated third parties any non-public personal information about its Clients, except as permitted by law or as is necessary to respond to regulatory requests or to service Client accounts. These non-affiliated third parties are required to protect the confidentiality and security of this information and to use it only for its intended purpose.

We may share information with our affiliates to service your account or to provide you with information about other BlackRock products or services that may be of interest to you. In addition, BlackRock restricts access to non-public personal information about its Clients to those BlackRock employees with a legitimate business need for the information. BlackRock maintains physical, electronic and procedural safeguards that are designed to protect the non-public personal information of its Clients, including procedures relating to the proper storage and disposal of

such information.

ANNUAL REPORT

AUGUST 31, 2009

119

---

## Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

This report is transmitted to shareholders only. It is not a prospectus. Past performance results shown in this report should not be considered a representation of future performance. The Trusts have leveraged their Common Shares, which creates risks for Common Shareholders, including the likelihood of greater volatility of net asset value and market price of the Common Shares, and the risk that fluctuations in short-term interest rates may reduce the yield to Common Shareholders. Statements and other information herein are as dated and are subject to change.

---

#CEF-1-8-08/09

---

- Item 2 – Code of Ethics – The registrant (or the “Fund”) has adopted a code of ethics, as of the end of the period covered by this report, applicable to the registrant’s principal executive officer, principal financial officer and principal accounting officer, or persons performing similar functions. During the period covered by this report, there have been no amendments to or waivers granted under the code of ethics. A copy of the code of ethics is available without charge at [www.blackrock.com](http://www.blackrock.com).
- Item 3 – Audit Committee Financial Expert – The registrant’s board of directors or trustees, as applicable (the “board of directors”) has determined that (i) the registrant has the following audit committee financial experts serving on its audit committee and (ii) each audit committee financial expert is independent:

Kent Dixon  
Frank J. Fabozzi  
James T. Flynn  
W. Carl Kester  
Karen P. Robards  
Robert S. Salomon, Jr. (retired effective December 31, 2008)

The registrant’s board of directors has determined that W. Carl Kester and Karen P. Robards qualify as financial experts pursuant to Item 3(c)(4) of Form N-CSR.

Prof. Kester has a thorough understanding of generally accepted accounting principles, financial statements and internal control over financial reporting as well as audit committee functions. Prof. Kester has been involved in providing valuation and other financial consulting services to corporate clients since 1978. Prof. Kester’s financial consulting services present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the registrant’s financial statements.

Ms. Robards has a thorough understanding of generally accepted accounting principles, financial statements and internal control over financial reporting as well as audit committee functions. Ms. Robards has been President of Robards & Company, a financial advisory firm, since 1987. Ms. Robards was formerly an investment banker for more than 10 years where she was responsible for evaluating and assessing the performance of companies based on their financial results. Ms. Robards has over 30 years of experience analyzing financial statements. She also is a member of the audit committee of one publicly held company and a non-profit organization.

Under applicable securities laws, a person determined to be an audit committee financial expert will not be deemed an “expert” for any purpose, including without limitation for the purposes of Section 11 of the Securities Act of 1933, as a result of being designated or identified as an audit committee financial expert. The designation or identification as an audit committee financial expert does not impose on such person any duties, obligations, or liabilities greater than the duties, obligations, and liabilities imposed on such person as a member of the audit committee and board of directors in the absence of such designation or identification.

Item 4 – Principal Accountant Fees and Services

| Entity Name                                  | (a) Audit Fees          |                          | (b) Audit-Related Fees <sup>1</sup> |                          | (c) Tax Fees <sup>2</sup> |                          | (d) All Other Fees <sup>3</sup> |                          |
|--|-------------------------|--------------------------|-------------------------------------|--------------------------|---------------------------|--------------------------|---------------------------------|--------------------------|
|  | Current Fiscal Year End | Previous Fiscal Year End | Current Fiscal Year End             | Previous Fiscal Year End | Current Fiscal Year End   | Previous Fiscal Year End | Current Fiscal Year End         | Previous Fiscal Year End |
| BlackRock Corporate High Yield Fund VI, Inc. | \$42,500                | \$41,000                 | \$0                                 | \$8,000                  | \$6,100                   | \$6,100                  | \$1,028                         | \$1,049                  |

1 The nature of the services include assurance and related services reasonably related to the performance of the audit of financial statements not included in Audit Fees.

2 The nature of the services include tax compliance, tax advice and tax planning.

3 The nature of the services include a review of compliance procedures and attestation thereto.

(e)(1) Audit Committee Pre-Approval Policies and Procedures:

The registrant’s audit committee (the “Committee”) has adopted policies and procedures with regard to the pre-approval of services. Audit, audit-related and tax compliance services provided to the registrant on an annual basis require specific pre-approval by the Committee. The Committee also must approve other non-audit services provided to the registrant and those non-audit services provided to the registrant’s affiliated service providers that relate directly to the operations and the financial reporting of the registrant. Certain of these non-audit services that the Committee believes are a) consistent with the SEC’s auditor independence rules and b) routine and recurring services that will not impair the independence of the independent accountants may be approved by the Committee without consideration on a specific case-by-case basis (“general pre-approval”). The term of any general pre-approval is 12 months from the date of the pre-approval, unless the Committee provides for a different period. Tax or other non-audit services provided to the registrant which have a direct impact on the operation or financial reporting of the registrant will only be deemed pre-approved provided that any individual project does not exceed \$10,000 attributable to the registrant or \$50,000 for all of the registrants the Committee oversees. For this purpose, multiple projects will be aggregated to determine if they exceed the previously mentioned cost levels.

Any proposed services exceeding the pre-approved cost levels will require specific pre-approval by the Committee, as will any other services not subject to general pre-approval (e.g., unanticipated but permissible services). The Committee is informed of each service approved subject to general pre-approval at the next regularly scheduled in-person board meeting. At this meeting, an analysis of such services is presented to the Committee for ratification. The Committee may delegate to one or more of its members the authority to approve the provision of and fees for any specific engagement of permitted non-audit services, including services exceeding pre-approved cost levels.

(e)(2) None of the services described in each of Items 4(b) through (d) were approved by the audit committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

(f) Not Applicable

(g) Affiliates’ Aggregate Non-Audit Fees:

Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

| <u>Entity Name</u>                              | <u>Current Fiscal Year<br/>End</u> | <u>Previous Fiscal<br/>Year<br/>End</u> |
|---|------------------------------------|---|
| BlackRock Corporate High<br>Yield Fund VI, Inc. | \$414,628                          | \$420,149                               |

---

(h) The registrant's audit committee has considered and determined that the provision of non-audit services that were rendered to the registrant's investment adviser (not including any non-affiliated sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by the registrant's investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

Regulation S-X Rule 2-01(c)(7)(ii) – \$407,500, 0%

Item 5 – Audit Committee of Listed Registrants – The following individuals are members of the registrant's separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(58)(A)):

Kent Dixon

Frank J. Fabozzi

James T. Flynn

W. Carl Kester

Karen P. Robards

Robert S. Salomon, Jr. (retired effective December 31, 2008)

Item 6 – Investments

(a) The registrant's Schedule of Investments is included as part of the Report to Stockholders filed under Item 1 of this form.

(b) Not Applicable due to no such divestments during the semi-annual period covered since the previous Form N-CSR filing.

Item 7 – Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies – The board of directors has delegated the voting of proxies for the Fund securities to the Fund's investment adviser ("Investment Adviser") pursuant to the Investment Adviser's proxy voting guidelines. Under these guidelines, the Investment Adviser will vote proxies related to Fund securities in the best interests of the Fund and its stockholders. From time to time, a vote may present a conflict between the interests of the Fund's stockholders, on the one hand, and those of the Investment Adviser, or any affiliated person of the Fund or the Investment Adviser, on the other. In such event, provided that the Investment Adviser's Equity Investment Policy Oversight Committee, or a sub-committee thereof (the "Oversight Committee") is aware of the real or potential conflict or material non-routine matter and if the Oversight Committee does not reasonably believe it is able to follow its general voting guidelines (or if the particular proxy matter is not addressed in the guidelines) and vote impartially, the Oversight Committee may retain an independent fiduciary to advise the Oversight Committee on how to vote or to cast votes on behalf of the Investment Adviser's clients. If the Investment Adviser determines not to retain an independent fiduciary, or does not desire to follow the advice of such independent fiduciary, the Oversight Committee shall determine how to vote the proxy after consulting with the Investment Adviser's Portfolio Management Group and/or the Investment Adviser's Legal and Compliance Department and

## Edgar Filing: BLACKROCK CORPORATE HIGH YIELD FUND VI INC - Form N-CSR

concluding that the vote cast is in its client's best interest notwithstanding the conflict. A copy of the Fund's Proxy Voting Policy and Procedures are attached as Exhibit 99.PROXYPOL. Information on how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge, (i) at [www.blackrock.com](http://www.blackrock.com) and (ii) on the SEC's website at <http://www.sec.gov>.

Item 8 – Portfolio Managers of Closed-End Management Investment Companies – as of August 31, 2009.

(a)(1) The registrant (or "Fund") is managed by a team of investment professionals comprised of James E. Keenan, Managing Director at BlackRock, Mitchell Garfin, Managing Director at BlackRock and Derek Schoenhofen, Director at BlackRock. Messrs. Keenan, Garfin and Schoenhofen are the Fund's co-portfolio managers and are responsible for the day-to-day management of the Fund's portfolio and the selection of its investments. Mr. Keenan has been a member of the Fund's management team since 2006. Messrs. Garfin and Schoenhofen have been members of the Fund's management team since 2009.

| Portfolio Manager | Biography   |
|-------------------|---|
| James E. Keenan   | Managing Director of BlackRock, Inc. since 2008; Director of BlackRock, Inc. from 2004 - 2008; Head of the Leveraged Finance Portfolio team; senior high yield trader at Columbia Management from 2003 to 2004. |
| Mitchell Garfin   | Managing Director of BlackRock, Inc. since 2009; Director of BlackRock, Inc. from 2005 - 2009; Vice President of BlackRock, Inc. from 2001 - 2005.  |
| Derek Schoenhofen | Director of BlackRock, Inc. since 2006; Vice President of BlackRock, Inc from 2000 - 2006.  |

(iv) Potential Material Conflicts of Interest

BlackRock and its affiliates (collectively, herein "BlackRock") has built a professional working environment, firm-wide compliance culture and compliance procedures and systems designed to protect against potential incentives that may favor one account over

another. BlackRock has adopted policies and procedures that address the allocation of investment opportunities, execution of portfolio transactions, personal trading by employees and other potential conflicts of interest that are

---

designed to ensure that all client accounts are treated equitably over time. Nevertheless, BlackRock furnishes investment management and advisory services to numerous clients in addition to the Fund, and BlackRock may, consistent with applicable law, make investment recommendations to other clients or accounts (including accounts which are hedge funds or have performance or higher fees paid to BlackRock, or in which portfolio managers have a personal interest in the receipt of such fees), which may be the same as or different from those made to the Fund. In addition, BlackRock, its affiliates and significant shareholders and any officer, director, stockholder or employee may or may not have an interest in the securities whose purchase and sale BlackRock recommends to the Fund. BlackRock, or any of its affiliates or significant shareholders, or any officer, director, stockholder, employee or any member of their families may take different actions than those recommended to the Fund by BlackRock with respect to the same securities. Moreover, BlackRock may refrain from rendering any advice or services concerning securities of companies of which any of BlackRock's (or its affiliates' or significant shareholders') officers, directors or employees are directors or officers, or companies as to which BlackRock or any of its affiliates or significant shareholders or the officers, directors and employees of any of them has any substantial economic interest or possesses material non-public information. Each portfolio manager also may manage accounts whose investment strategies may at times be opposed to the strategy utilized for a fund. In this connection, it should be noted that Messrs. Keenan, Garfin and Schoenhofen currently manage certain accounts that are subject to performance fees. In addition, a portfolio manager may assist in managing certain hedge funds and may be entitled to receive a portion of any incentive fees earned on such funds and a portion of such incentive fees may be voluntarily or involuntarily deferred. Additional portfolio managers may in the future manage other such accounts or funds and may be entitled to receive incentive fees.

As a fiduciary, BlackRock owes a duty of loyalty to its clients and must treat each client fairly. When BlackRock purchases or sells securities for more than one account, the trades must be allocated in a manner consistent with its fiduciary duties. BlackRock attempts to allocate investments in a fair and equitable manner among client accounts, with no account receiving preferential treatment. To this end, BlackRock has adopted a policy that is intended to ensure that investment opportunities are allocated fairly and equitably among client accounts over time. This policy also seeks to achieve reasonable efficiency in client transactions and provide BlackRock with sufficient flexibility to allocate investments in a manner that is consistent with the particular investment discipline and client base.

(a)(3) As of August 31, 2009:

#### **Portfolio Manager Compensation Overview**

BlackRock's financial arrangements with its portfolio managers, its competitive compensation and its career path emphasis at all levels reflect the value senior management places on key resources. Compensation may include a variety of components and may vary from year to year based on a number of factors. The principal components of compensation include a base salary, a performance-based discretionary bonus, participation in various benefits programs and one or more of the incentive compensation programs established by BlackRock such as its Long-Term Retention and Incentive Plan and Restricted Stock Program.

---

**Base compensation.** Generally, portfolio managers receive base compensation based on their seniority and/or their position with the firm. Senior portfolio managers who perform additional management functions within the portfolio management group or within BlackRock may receive additional compensation for serving in these other capacities.

#### **Discretionary Incentive Compensation**

Discretionary incentive compensation is a function of several components: the performance of BlackRock, Inc., the performance of the portfolio manager's group within BlackRock, the investment performance, including risk-adjusted returns, of the firm's assets under management or supervision by that portfolio manager relative to predetermined benchmarks, and the individual's seniority, role within the portfolio management team, teamwork and contribution to the overall performance of these portfolios and BlackRock. In most cases, including for the portfolio managers of the Fund, these benchmarks are the same as the benchmark or benchmarks against which the performance of the Fund or other accounts managed by the portfolio managers are measured. BlackRock's Chief Investment Officers determine the benchmarks against which the performance of funds and other accounts managed by each portfolio manager is compared and the period of time over which performance is evaluated. With respect to the portfolio managers, such benchmarks for the Fund include a combination of market-based indices (e.g., Barclays Capital U.S. Corporate High Yield 2% Issuer Cap Index), certain customized indices and certain fund industry peer groups.

BlackRock's Chief Investment Officers make a subjective determination with respect to the portfolio managers' compensation based on the performance of the funds and other accounts managed by each portfolio manager relative to the various benchmarks noted above. Performance is measured on both a pre-tax and after-tax basis over various time periods including 1, 3, 5 and 10-year periods, as applicable.

#### **Distribution of Discretionary Incentive Compensation**

Discretionary incentive compensation is distributed to portfolio managers in a combination of cash and BlackRock, Inc. restricted stock units which vest ratably over a number of years. The BlackRock, Inc. restricted stock units, if properly vested, will be settled in BlackRock, Inc. common stock. Typically, the cash bonus, when combined with base salary, represents more than 60% of total compensation for the portfolio managers. Paying a portion of annual bonuses in stock puts compensation earned by a portfolio manager for a given year "at risk" based on BlackRock's ability to sustain and improve its performance over future periods.

*Long-Term Retention and Incentive Plan ("LTIP")* — The LTIP is a long-term incentive plan that seeks to reward certain key employees. Prior to 2006, the plan provided for the grant of awards that were expressed as an amount of cash that, if properly vested and subject to the attainment of certain performance goals, will be settled in cash and/or in BlackRock, Inc. common stock. Beginning in 2006, awards are granted under the LTIP in the form of BlackRock, Inc. restricted stock units that, if properly vested and subject to the attainment of certain performance goals, will be settled in BlackRock, Inc. common stock. Messrs. Keenan, Garfin and Schoenhofen have each received awards under the LTIP.

*Deferred Compensation Program* — A portion of the compensation paid to eligible BlackRock employees may be voluntarily deferred into an account that tracks the performance of certain of the firm's investment products. Each participant in the deferred compensation program is

permitted to allocate his deferred amounts among the various investment options. Messrs. Keenan, Garfin and Schoenhofen have each participated in the deferred compensation program.

*Options and Restricted Stock Awards* — A portion of the annual compensation of certain employees is mandatorily deferred into BlackRock restricted stock units. Prior to the mandatory deferral into restricted stock units, BlackRock granted stock options to key employees, including certain portfolio managers who may still hold unexercised or unvested options. BlackRock, Inc. also granted restricted stock awards designed to reward certain key employees as an incentive to contribute to the long-term success of BlackRock. These awards vest over a period of years. Mr. Garfin has been granted stock options and/or restricted stock in prior years.

**Other compensation benefits.** In addition to base compensation and discretionary incentive compensation, portfolio managers may be eligible to receive or participate in one or more of the following:

*Incentive Savings Plans* — BlackRock, Inc. has created a variety of incentive savings plans in which BlackRock employees are eligible to participate, including a 401(k) plan, the BlackRock Retirement Savings Plan (RSP), and the BlackRock Employee Stock Purchase Plan (ESPP). The employer contribution components of the RSP include a company match equal to 50% of the first 6% of eligible pay contributed to the plan capped at \$4,000 per year, and a company retirement contribution equal to 3-5% of eligible compensation. The RSP offers a range of investment options, including registered investment companies managed by the firm. BlackRock contributions follow the investment direction set by participants for their own contributions or, absent employee investment direction, are invested into a balanced portfolio. The ESPP allows for investment in BlackRock common stock at a 5% discount on the fair market value of the stock on the purchase date. Annual participation in the ESPP is limited to the purchase of 1,000 shares or a dollar value of \$25,000. Each portfolio manager is eligible to participate in these plans.

(a)(4) *Beneficial Ownership of Securities.*

| Portfolio Manager | Dollar Range of Equity Securities<br>Beneficially Owned |
|-------------------|---|
| James E. Keenan   | None  |
| Mitchell Garfin   | None  |
| Derek Schoenhofen | None  |

Item 9 – Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers – Not Applicable due to no such purchases during the period covered by this report.

Item 10 – Submission of Matters to a Vote of Security Holders – The registrant’s Nominating and Governance Committee will consider nominees to the board of directors recommended by shareholders when a vacancy becomes available. Shareholders who wish to recommend a nominee should send nominations that include biographical information and set forth the qualifications of the proposed nominee to the registrant’s Secretary. There have been no material changes to these procedures.

Item 11 – Controls and Procedures

- 11(a) – The registrant’s principal executive and principal financial officers or persons performing similar functions have concluded that the registrant’s disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the “1940 Act”)) are effective as of a date within 90 days of the filing of this report based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act and Rule 13(a)-15(b) under the Securities Exchange Act of 1934, as amended.
- 11(b) – There were no changes in the registrant’s internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the registrant’s internal control over financial reporting.
- Item 12 – Exhibits attached hereto
- 12(a)(1) – Code of Ethics – See Item 2
- 12(a)(2) – Certifications – Attached hereto
- 12(a)(3) – Not Applicable
- 12(b) – Certifications – Attached hereto
-
