- Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 for the quarterly period ended June 30, 2009
- Transition report pursuant to Section 13 or 15(d) of the Exchange Act for the transition period from [] to []

Commission file number: 0-30105

DEFENSE INDUSTRIES INTERNATIONAL, INC.

(Exact Name of Registrant as Specified in Its Charter)

Nevada
(State or Other Jurisdiction of
Incorporation or Organization)

84-1421483
(I.R.S. Employer
Identification No.)

8 Brisel Street
Industrial Zone Sderot,
Israel, 87711
(Address of Principal Executive Offices)

(011) 972-8-689-1611
(Registrant's Telephone Number, Including Area Code)

N/A
(Former Name, Former Address and Former Fiscal Year,
if Changed Since Last Report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (ss.232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

Indicate by check mark whether the registrant is large accelerated filer, an accelerated filer, or a non-accelerated filer. See of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
(Do not check if smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of August 14, 2009 the issuer had 28,150,535 shares of Common Stock, par value \$0.0001, outstanding.

SUPPLEMENTAL SCHEDULE OF NON-CASH ACTIVITIES:

Pursuant to the agreement signed on February 28, 2005 to acquire the business of Rizzo Inc. (doing business as Owen Mills Company), on June 8, 2009 and March 18, 2008 the Company issued 209,424 and 123,839 shares of common stock, respectively, having a fair value of \$40,000 each at the date of issuance to the former shareholders of Rizzo Inc.

The accompanying notes are an integral part of the condensed consolidated financial statements.

**DEFENSE INDUSTRIES INTERNATIONAL, INC.
AND SUBSIDIARY COMPANIES**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENT
FOR THE SIX MONTHS ENDED JUNE 30, 2009 AND 2008 (UNAUDITED)**

NOTE 1 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

- A.** The accompanying unaudited interim consolidated financial statements as of June 30, 2009 and for the three and six month periods then ended (the interim financial statements) were prepared in a condensed form in accordance with the instructions for Form 10-Q and, therefore, do not include all disclosures necessary for a complete presentation of financial condition, results of operations, changes in shareholders' equity, cash flows and all the data and notes which are required when preparing annual financial statements, in conformity with generally accepted accounting principles accepted in the United States.
- B.** The accounting principles used in the presentation of the interim financial statements are consistent with those principles used in the presentation of the latest annual financial statements. All significant accounting policies have been applied consistently with the year ended December 31, 2008, except as otherwise stated below.
- C.** The preparation of the interim financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates. In the opinion of management, all adjustments considered necessary for fair presentation of the interim financial statements have been included. The results of operations for the three and six months periods ended June 30, 2009, are not necessarily indicative of the results that may be expected for the year ending December 31, 2009. The interim financial statements should be read in conjunction with the Company's annual financial statements as of December 31, 2008 and for the year then ended and the accompanying notes thereto.
- D. Principles of Consolidation**

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

The interim financial statements include the accounts of Defense Industries International, Inc., its wholly owned subsidiaries, Export Erez USA, Inc., Rizzo Inc. (doing business as Owen Mills Company), Export Erez, Ltd. (Export Erez), Mayotex, Ltd. (Mayotex), Dragonwear Trading Ltd. (Dragonwear), and Achidatex Nazareth Elite (1977) Ltd. (Achidatex), (assets and liabilities 100% as of June 30, 2009 and December 31, 2008, respectively, and operations 100% and 76% in the three and six months ended June 30, 2009, and 2008, respectively).

All significant inter-company accounts and transactions have been eliminated in consolidation.

DEFENSE INDUSTRIES INTERNATIONAL, INC. AND SUBSIDIARY COMPANIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENT FOR THE SIX MONTHS ENDED JUNE 30, 2009 AND 2008 (UNAUDITED)

E. Per share data

Basic net income per share of common stock is computed based on the weighted average number of shares of common stock outstanding during the period. Diluted net income per share of common stock is computed based on the weighted average number of shares of common stock and common stock equivalents outstanding during the period. For the three and six months ended June 30, 2009 and 2008 common stock equivalents to purchase 202,500 shares of common stock were not included in diluted income (loss) per share because their effect is anti-dilutive.

F. Fair value

Effective January 1, 2008, the Company adopted Statement of Financial Accounting Standard No. 157, Fair Value Measurements (SFAS 157), which establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements.

SFAS 157 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. SFAS 157 also requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs, as follows:

- Level 1 Quoted prices in active markets for identical assets or liabilities;
- Level 2 Quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability; or
- Level 3 Unobservable inputs, such as discounted cash flow models or valuations.

The Company's trading securities and bank deposits are measured at fair value based on quoted market prices in active markets for identical assets (Level 1).

The Company funds in respect to employees' rights upon retirement are measured at fair value based upon unobservable inputs (Level 3).

G. Recent accounting pronouncements adopted in the reported period

In April 2009, the Financial Accounting Standard Board (FASB) issued FSP FAS 157-4, Determining Fair Value When Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly (FSP 157-4). FSP 157-4 provides guidance on how to determine the fair value of assets and liabilities when the volume and level of activity for the asset/liability has significantly decreased. FSP 157-4 also provides guidance on identifying circumstances that indicate a transaction is not orderly. In addition, FSP 157-4 requires disclosure in interim and annual periods of the inputs and valuation techniques used to measure fair value and a discussion of changes in valuation techniques. FSP 157-4 is effective for the Company beginning in the second quarter of fiscal year 2009. The adoption of FSP 157-4 did not have a significant impact on the Company's interim consolidated financial statements.

AND SUBSIDIARY COMPANIES**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENT
FOR THE SIX MONTHS ENDED JUNE 30, 2009 AND 2008 (UNAUDITED)**

In April 2009, the FASB issued FSP FAS 115-2 and FAS 124-2, Recognition and Presentation of Other-Than-Temporary Impairment (FSP 115-2/124-2). FSP 115-2/124-2 amends the requirements for the recognition and measurement of other-than-temporary impairments for debt securities by modifying the pre-existing intent and ability indicator. Under FSP 115-2/124-2, an other-than-temporary impairment is triggered when there is intent to sell the security, it is more likely than not that the security will be required to be sold before recovery, or the security is not expected to recover the entire amortized cost basis of the security. Additionally, FSP 115-2/124-2 changes the presentation of an other-than-temporary impairment in the income statement for those impairments involving credit losses. The credit loss component will be recognized in earnings and the remainder of the impairment will be recorded in other comprehensive income. FSP 115-2/124-2 is effective for the Company beginning in the second quarter of fiscal year 2009. FSP 115-2/124-2 did not have a significant impact on the Company's interim consolidated financial statements.

In April 2009, the FASB issued FSP FAS 107-1 and APB 28-1, Interim Disclosure about Fair Value of Financial Instruments (FSP 107-1/APB 28-1). FSP 107-1/APB 28-1 requires interim disclosures regarding the fair values of financial instruments that are within the scope of FAS 107, Disclosures about the Fair Value of Financial Instruments. Additionally, FSP 107-1/APB 28-1 requires disclosure of the methods and significant assumptions used to estimate the fair value of financial instruments on an interim basis as well as changes of the methods and significant assumptions from prior periods. FSP 107-1/APB 28-1 does not change the accounting treatment for these financial instruments and is effective for the Company beginning in the second quarter of fiscal year 2009.

**DEFENSE INDUSTRIES INTERNATIONAL, INC.
AND SUBSIDIARY COMPANIES**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENT
FOR THE SIX MONTHS ENDED JUNE 30, 2009 AND 2008 (UNAUDITED)**

In May 2009, SFAS No. 165, Subsequent Events, was issued by the FASB, which establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before the financial statements are issued or are available to be issued. SFAS No. 165 provides guidance on the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements and the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. SFAS No. 165 is effective for interim or annual financial periods ending after June 15, 2009. Accordingly, the Company has adopted SFAS No. 165 for the period ended June 30, 2009, and its application had no impact on the Company's condensed financial statements. Events subsequent to the balance sheet date have been evaluated for inclusion in the accompanying financial statements through the issuance date, August 14, 2009.

In June 2009, the FASB issued SFAS No. 168, The FASB Accounting Standards Codification™ and the Hierarchy of Generally Accepted Accounting Principles a replacement of FASB Statement No. 162 (SFAS 168). The statement confirmed that the FASB Accounting Standards Codification (the Codification) will become the single official source of authoritative U.S. GAAP (other than guidance issued by the SEC), superseding existing FASB, American Institute of Certified Public Accountants, Emerging Issues Task Force (EITF), and related literature. After that date, only one level of authoritative U.S. GAAP will exist. All other literature will be considered non-authoritative. The Codification does not change U.S. GAAP; instead, it introduces a new structure that is organized in an easily accessible, user-friendly online research system. The Codification, which changes the

referencing of financial standards, becomes effective for interim and annual periods ending on or after September 15, 2009. The Company will apply the Codification beginning in the third quarter of 2009. The Company does not expect the adoption of SFAS 168 to have any substantive impact on its Condensed Consolidated Financial Statements or related footnotes.

NOTE 2 TENTATIVE ACQUISITIONS

On December 17, 2008, Mayotex entered into an agreement with Sarino Crystal Technologies Ltd. and Sarino Optronics Ltd. (Sarino) to cooperate in the manufacture of optical grade Germanium crystals and sales of optical and infra-red night vision products utilizing the Germanium crystals (the Sarino Agreement). As of the balance sheet date, Isorad Ltd. s (Isorad) board of directors has not approved the Isorad Transaction as discussed below.

Pursuant to the Sarino Agreement and subject to the approval of the Isorad Transaction:

(1) Mayotex and Sarino agreed to incorporate Mayosar, with Mayotex being the majority shareholder owning 50.1% and Sarino owning 49.9%. As majority shareholder, Mayotex will have operational control of Mayosar.

(2) In consideration of the above, Mayotex will pay Sarino \$1 million, out of which, \$300,000 will be non-refundable to Mayotex upon 24 months following the execution of the Isorad agreement, as detailed below and the remaining \$700,000 will be earned by Sarino based on 10% of sales over \$3 million and up to \$10 million during the first 36 months of operations. Amounts not earned are to be refunded to Mayotex, including interest of Libor + 2% per annum. The refundable consideration is secured by Sarino s interest in Mayosar. The \$1 million payment is currently being held in escrow pending completion of the Isorad Transaction.

(3) Mayotex agreed to provide Mayosar with a loan of up to \$2 million. Such loan will bear interest at the rate of Libor + 2%, and is payable from profits generated by Mayosar.

As of June 30, 2009, Mayotex provided loans of \$1 million to Sarino and \$900,000 to Mayosar. Such payments are recognized as refundable deposits for the above transaction.

On December 21, 2008, Mayosar, through its wholly owned subsidiary Isorad IR Optics Ltd., (Optics), entered into an agreement to purchase the Germanium Crystals Business of Isorad, consisting of certain know-how, equipment, inventories and production activities of Germanium Crystals for lenses used in infra-red night vision system applications (Isorad Agreement).

Pursuant to the Isorad Agreement, Optics is to pay royalties of 3% out of sales for a period of 15 years commencing the effective date of the Isorad Agreement (the Effective Date), with a minimum amount of approximately \$125,000 payable per year during the first 18 months or until the date of completion of the transfer of the site of the Germanium Crystals Business, whichever is earlier (this payment includes a reimbursement of costs for the usage of the site and equipment in this initial period), and approximately \$50,000 per year during the following years of the royalties payment period.

**DEFENSE INDUSTRIES INTERNATIONAL, INC.
AND SUBSIDIARY COMPANIES**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENT
FOR THE SIX MONTHS ENDED JUNE 30, 2009 AND 2008 (UNAUDITED)**

Pursuant to the Isorad Agreement, Isorad was granted the right to acquire 5% of the share capital of Optics on a fully diluted basis for their nominal value during the 24 month period beginning on the Effective Date. If the Israeli Government does not approve the 5% purchase of the Optics shares by Isorad within twelve (12) months of the Effective Date, the right to acquire the shares will expire and Isorad will be entitled to a payment of \$75,000.

In the event of an allotment of shares to Isorad, representing 5% of Optics share capital, Mayosar will issue to Mayotex additional shares of Mayosar on a pro rata basis, in order for Mayotex to retain a 50.01% indirect interest in Optics share capital.

Optics has the right during the four year period following the Effective Date to redeem and purchase from Isorad its option to purchase 5% of its shares and to cancel its commitment to pay royalties under the Isorad agreement, in consideration of a fixed payment of \$750,000, less all royalties paid to Isorad through that date.

Management is of the opinion, based on legal advice received, that the amounts paid under the Sarino and Isorad agreements will be fully refundable to the Company in the event that the Isorad transaction is not consummated.

NOTE 3 INVENTORIES

Consist of:

	June 30, 2009	December 31, 2008
Raw materials (1)	\$ 3,217,526	\$ 3,527,373
Work in progress	719,844	754,932
Finished goods	843,920	1,091,322
	\$ 4,781,290	\$ 5,373,627

(1) As of December 31, 2008, includes advanced payment to purchase inventory for \$513,447.

NOTE 4 SEGMENT INFORMATION AND CONCENTRATIONS

The Company has two strategic business segments: sales to the civilian market and the military market.

The military and the civilian markets are further broken down between Israel (local) and other (export) sales in order to better analyze trends in sales and profit margins. The Company does not allocate assets between segments because assets are used in more than one segment and any allocation would be impractical.

A. Sales and Income from Operations:

	Civilian		Military		Consolidated
	Local	Export	Local	Export	
For the six months ended June 30, 2009:

NOTE 5 COMPENSATION FROM GOVERNMENT

Export Erez and Mayotex received \$53,002 and \$170,911, respectively, as compensation from the Israeli Government, under the Property tax and compensation payments for war damages Regulations, for the loss of employment days and potential revenues during the last two years due to the security and military situation in the area in which Export Erez and Mayotex were located.

NOTE 6 COMMITMENTS AND CONTINGENCIES

On February 11, 2009, a lawsuit was filed in the Jerusalem District Court against the Company's subsidiaries, Export Erez USA Inc. and Achidatex, and its chief executive officer, Mr. Avraham Hazor. The suit alleges that Achidatex materially breached its agreement with the plaintiff, dated February 22, 2000, relating to the development of inflatable mine-field crossing enabling sandals, because Achidatex allegedly failed to register patents for the technology worldwide and only registered patents in the United States. The plaintiff further claims that the defendants, jointly and severally, committed a breach of trust. The plaintiff is seeking damages in the amount of NIS 10 million (approximately \$2.6 million), and claiming all rights in the patent. Contemporaneously with the filing of the claim, the plaintiff also filed a motion seeking an exemption from payment of the requisite court filing fee, which motion was subsequently granted. The Company believes that the plaintiff's claim is unfounded and that it has substantial legal arguments to oppose the allegations. The Company intends to vigorously defend against the claim and is considering a possible counterclaim.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

This discussion should be read in conjunction with the condensed consolidated financial statements and notes included in Item 1 of Part I of this Quarterly Report and the audited consolidated financial statements and notes thereto, and Management's Discussion and Analysis of Financial Condition and Results of Operations for the Year Ended December 31, 2008 contained in our 2008 Annual Report on Form 10-K. The discussion and analysis which follows may contain trend analysis and other forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 which reflect our current views with respect to future events and financial results. These include statements regarding our earnings, projected growth and forecasts, and similar matters that are not historical facts.

We remind shareholders that forward-looking statements are merely predictions and therefore are inherently subject to uncertainties and other factors that could cause the future results to differ materially from those described in the forward-looking statements.

The following is management's discussion and analysis of certain significant factors which have affected our financial position and operating results during the periods included in the accompanying consolidated financial statements, as well as information relating to the plans of our current management.

Overview

We are a manufacturer and global provider of personal military and civilian protective equipment and supplies. Our products are used by military, law enforcement, border patrol enforcement, and other special security forces, corporations, non-governmental organizations and individuals throughout the world.

Our main products include body armor, bomb disposal suits, bullet proof vests and jackets, ballistic wall coverings, bullet proof ceramic and polyethylene panels, V.I.P. car armoring and lightweight armor kits for vehicles, personal military equipment, dry storage systems, liquid logistic products, tents and other camping, travel gear and optical Germanium for night vision infra-red applications.

While we believe that current international tensions, the war on terrorism, and the continuing conflict in Iraq are all likely to result in additional interest in our products, and that the demand for our products will continue to grow, the recent global economic turmoil and the instability in the financial markets may result in reduction in governmental spending for military and security budgets. We expect to address the growth indication by offering a comprehensive array of high quality branded security products that meet our customers' increasingly complex security products requirements. We intend to enhance our position in the industry through additional strategic acquisitions that will broaden our portfolio of products.

Material Trends

Local Military Market. After the war between Israel and the Hezbollah in Lebanon in July and August of 2006, increased orders from the Israeli Ministry of Defense increased the demand for our products in this market. We benefited from this trend for the remainder of 2006 and through 2007. During 2008 the demand for our products decreased compared to the same period of 2007, but was significantly higher than in 2006. We believe that on an annual basis the demand for our products from the Israeli Ministry of Defense will continue at the levels similar to the demand in 2008.

As of August 5, 2009, we had a backlog of firm orders from the Israeli Ministry of Defense of approximately \$2.2 million, including orders of approximately \$0.3 million that we received subsequent to June 30, 2009. In the six month periods ended June 30, 2009 and 2008, sales to the Israeli Ministry of Defense were \$4.1 million and \$2.8 million, accounting for 44.1% and 36.6% of our sales, respectively.

Export Military Market. Our customers in this market are military and law enforcement organizations mostly in South America, North America, Africa and Europe. Their budgets fluctuate and as a result we cannot identify definite trends in these markets.

We are continuing our efforts to strengthen our position in our existing export markets in North America, South America, Asia and Europe and to extend our presence to new export markets in Australia and Africa. We believe that although the demands for our products from these markets are inconsistent, they are growing and that any future success in such markets is mainly dependant on our ability to be competitive in our pricing and the quality of our products.

Since January 2008, we have experienced an increased demand for armored vehicles from central and South African countries. We believe that the armored car business is growing and will become even more significant for us in the near future. The armored car business is characterized by higher gross margins than our traditional military products.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

The following table presents details of our export military sales during the three and six month periods ended June 30, 2009 and 2008:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Sales to South America	\$ 453,889	\$ 394,962	\$ 1,208,416	\$ 439,949
Sales to North America	176,654	129,572	176,654	236,251
Sales to Europe and Asia	372,923	340,597	832,657	613,194
Sales to Africa	201,136	563,129	1,387,491	750,732
Total Export Military Sales	\$ 1,204,602	\$ 1,428,260	\$ 3,605,218	\$ 2,040,126

Local Civilian Market. In the first six months of 2009, we experienced a decrease in demand for products we market in our local market. We expect the same trend in this market during the remainder of 2009.

Current Economic Overview. We generate revenues from sales of our products to the civilian and military markets. Accordingly, our business is affected by economic conditions. The volatile economic conditions have slowed down our sales process and complicated our ability to conduct transactions. The current economic climate and the uncertainty in global economic conditions could impact the ability of our customers to make capital expenditures, thereby affecting their ability to purchase our products. In addition, the turmoil in the financial markets may limit our ability to obtain financing in 2009. Our business and financial performance, including collection of our accounts receivable, realization of inventory and recoverability of assets including investments, may be adversely affected if economic conditions deteriorate or continue to be volatile. Our profitability may also be adversely affected by our fixed costs and the possibility that we would be unable to scale back other costs within a time frame sufficient to match any decreases in revenue relating to changes in market and economic conditions. The turmoil in the financial markets may limit our ability to obtain financing for our working capital requirements.

Exchange rate fluctuation. Exchange rate fluctuation affects our financial results in several ways. Most of our deposits and a portion of our tradable securities are linked to the rate of exchange between the U.S. dollar and the NIS. Accordingly, devaluation of the U.S. dollar against the NIS is reflected as comprehensive income in our consolidated statement.

In addition, we develop products in Israel and sell them in Israel, North and South America, Asia, Africa and several European countries. Our sales in Israel are denominated in NIS, while most of our export sales are denominated in U.S. dollars. Under U.S. GAAP we report all of our sales in U.S. dollars. Accordingly, appreciation of the U.S. dollar against the NIS reduces our reported sales while the devaluation of the U.S. dollar against the NIS increases our reported sales.

19

Our cost of sales and operating expenses are affected in the same manner. Most of our purchases of raw material are made in U.S. dollars while most of our labor and other operating expenses are in NIS, however, under U.S. GAAP we report our cost of sales and operating expenses in U.S. dollars. Accordingly, appreciation of the U.S. dollar against the NIS reduces our reported cost of sales and operating expenses while the devaluation of the U.S. dollar against the NIS increases our reported cost of sales and operating expenses.

In the quarter ended June 30, 2009, the U.S. dollar depreciated against the NIS by approximately 6.4%, and our financial results were positively impacted. However, because exchange rates between the U.S. dollar and the NIS fluctuate continuously, exchange rate fluctuations and especially larger periodic devaluations will have an impact on our profitability and period-to-period comparisons of our results. We cannot assure you that in the future our results of operations may not be materially adversely affected by currency fluctuations.

Former Operations in the Erez Industrial Zone

During 2004, the Israeli Government decided to evacuate the Erez Industrial Zone in the Gaza Strip, where part of our operations were located. We owned facilities, leased other facilities and maintained equipment and inventory within this area. In 2005, we moved our light cut and sew operation from the Erez Industrial Zone to Sderot and some of our webbing equipment to Nazareth. In August 2005, we evacuated our remaining operations and abandoned the buildings we owned and leased in the Erez Industrial Zone.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

The Israeli Government's decision to evacuate the Gaza Strip was supported by certain resolutions, including the Evacuation Compensation Law that was adopted by the Israeli Parliament to compensate the Israeli Gaza Strip settlers as well as business and property owners in the Gaza Strip and in the Erez Industrial Zone. In February 2006, three of our subsidiaries, Export Erez, Mayotex and Achidatex, filed claims for compensation pursuant to the Evacuation Compensation Law. In 2006, we were notified that we would receive advance payment in the aggregate amount of \$523,000. We applied this payment against the receivable established in 2005 and recorded the excess payment of \$240,658, net of taxes, as extraordinary gain.

On February 18, 2008 Export Erez, Mayotex and Achidatex signed definitive agreements with SELA, a government agency, established pursuant to the Evacuation Compensation Law, for compensation of approximately \$6.0 million, net of 5% related taxes, receipt of the previous advance payment and the other associated costs.

Tentative acquisitions

On December 17, 2008, Mayotex entered into an agreement with Sarino Crystal Technologies Ltd. and Sarino Optronics Ltd. (Sarino) to cooperate in the manufacture of optical grade Germanium crystals and sales of optical and infra-red night vision products utilizing the Germanium crystals (the Sarino Agreement). As of the balance sheet date, Isorad Ltd.'s (Isorad) board of directors has not approved the Isorad Transaction as discussed below.

Pursuant to the Sarino Agreement and subject to the approval of the Isorad Transaction:

Mayotex and Sarino agreed to incorporate Mayosar, with Mayotex being the majority shareholder owning 50.1% and Sarino owning 49.9%. As majority shareholder, Mayotex will have operational control of Mayosar.

In consideration of the above, Mayotex will pay Sarino \$1 million, out of which, \$300,000 will be non-refundable to Mayotex upon 24 months following the execution of the Isorad agreement, as detailed below and the remaining \$700,000 will be earned by Sarino based on 10% of sales over \$3 million and up to \$10 million during the first 36 months of operations. Amounts not earned are to be refunded to Mayotex, including interest of Libor + 2% per annum. The refundable consideration is secured by Sarino's interest in Mayosar. The \$1 million payment is currently being held in escrow pending completion of the Isorad Transaction.

Mayotex agreed to provide Mayosar with a loan of up to \$2 million. Such loan will bear interest at the rate of Libor + 2%, and is payable from profits generated by Mayosar.

20

As of June 30, 2009, Mayotex provided loans of \$1 million to Sarino and \$900,000 to Mayosar. Such payments are recognized as refundable deposits for the above transaction.

On December 21, 2008, Mayosar, through its wholly owned subsidiary Isorad IR Optics Ltd., (Optics), entered into an agreement to purchase the Germanium Crystals Business of Isorad, consisting of certain know-how, equipment, inventories and production activities of Germanium Crystals for lenses used in infra-red night vision system applications (Isorad Agreement).

Pursuant to the Isorad Agreement, Optics is to pay royalties of 3% out of sales for a period of 15 years commencing the effective date of the Isorad Agreement (the Effective Date), with a minimum amount of approximately \$125,000 payable per year during the first 18 months or until the date of completion of the transfer of the site of the Germanium Crystals Business, whichever is earlier (this payment includes a reimbursement of costs for the usage of the site and equipment in this initial period), and approximately \$50,000 per year during the following years of the royalties payment period.

Pursuant to the Isorad Agreement, Isorad was granted the right to acquire 5% of the share capital of Optics on a fully diluted basis for their nominal value during the 24 month period beginning on the Effective Date. If the Israeli Government does not approve the 5% purchase of the Optics shares by Isorad within twelve (12) months of the Effective Date, the right to acquire the shares will expire and Isorad will be entitled to a payment of \$75,000.

In the event of an allotment of shares to Isorad, representing 5% of Optics' share capital, Mayosar will issue to Mayotex additional shares of Mayosar on a pro rata basis, in order for Mayotex to retain a 50.01% indirect interest in Optics' share capital.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

Optics has the right during the four year period following the Effective Date to redeem and purchase from Isorad its option to purchase 5% of its shares and to cancel its commitment to pay royalties under the Isorad agreement, in consideration of a fixed payment of \$750,000, less all royalties paid to Isorad through that date.

Our management is of the opinion, based on legal advice received, that the amounts paid under the Sarino and Isorad agreements will be fully refundable to us in the event that the Isorad transaction is not consummated.

21

Results of Operations

Our management views revenues, the sources of our revenues, gross profit margin and the level of inventory compared to revenues as the key performance indicators in assessing our company's financial condition and results of operations. While our management believes that demand for our products will continue to grow, our business is subject to a high degree of volatility because of the impact of geopolitical events, government budgeting, and competition.

Three Months Ended June 30, 2009 Compared with Three Months Ended June 30, 2008

Net Revenues. Net revenues for the three months ended June 30, 2009 decreased to \$3,576,137 from \$4,477,086 in the three months ended June 30, 2008, a decrease of 20.1%. The decrease is mainly attributable to a decrease of approximately \$0.9 million in our local civilian market segment, a decrease of approximately \$62,000 in our export civilian market segment, and a decrease of approximately \$0.2 million in our export military market segment, which was offset by an increase of approximately \$0.3 million in our local military market segment. The increased revenues in our local military market segment are attributable to an increase in demand for our products from the Israeli Ministry of Defense. The decreased revenues in our export military market and civilian markets segments are attributable to a general decrease in demand for our products in those markets.

The following table sets forth the breakdown of sales by segment for the three months ended June 30, 2009 and 2008.

	Three Months Ended June 30,	
	2009	2008
Local civilian market	\$ 334,054	\$ 1,265,945
Export civilian market	262,394	324,155
Local military market	1,775,087	1,458,726
Export military market	1,204,602	1,428,260
Total	\$ 3,576,137	\$ 4,477,086

Gross Profit. Gross profit for the three months ended June 30, 2009 was \$752,625 compared to \$1,176,762 for the three months ended June 30, 2008. Our gross profit margin for the three months ended March 31, 2009 decreased to 21.0% compared to 26.3% for the three months ended June 30, 2008. This decrease in gross profit is primarily attributable to the decrease in revenues from sales. The decrease in gross profit margin is primarily attributable to the 20.1% decrease in revenues while our cost of sales decreased by only 14.5%, which is primarily due to our fixed costs that are not revenue-dependent, and due to the depreciation of the U.S. dollar against the NIS.

22

Selling Expenses. Selling expenses for the three months ended June 30, 2009 decreased by 60.2% to \$148,279 from \$372,690 for the three months ended June 30, 2008. The decrease in our selling expenses was attributable primarily to the decrease in export sales commissions.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

General and Administrative Expenses. General and administrative expenses for the three months ended June 30, 2009 decreased by 24.3% to \$456,474 from \$602,904 for the three months ended June 30, 2008. This decrease is primarily attributable to the appreciation of the U.S. dollar against the NIS.

Compensation from Israeli Government. Export Erez and Mayotex received \$53,002 and \$170,911, respectively, as compensation from the Israeli Government under the Property tax and compensation payments for war damages regulations, for the loss of employment days and potential revenues during the last two years due to the security and military situation in the area in which Export Erez and Mayotex are located.

Financial (Expenses) Income, Net. We had financial expenses, net of \$224,056 for the three months ended June 30, 2009 compared to financial expenses, net of \$151,243 for the three months ended June 30, 2008. Our financial expenses are primarily due to the change in the U.S. dollar exchange rate versus the NIS, which resulted in a loss of \$233,599 for the three months ended June 30, 2009 compared to a loss of \$134,483 for the three months ended June 30, 2008.

Other Income (Expense), Net. We had other income, net for the three months ended June 30, 2009 of \$57,001 as compared to other expense, net of \$56,189 for the three months ended June 30, 2008. Our other income in three months ended June 30, 2009 is attributable to a \$42,489 gain derived from revaluation of funds in respect of employee rights upon retirement, a \$4,805 gain derived from sales of tradable securities and a \$9,707 unrealized gain on tradable securities. Our other expense for the three months ended June 30, 2008 is mainly attributable to a \$12,416 loss from sales of tradable securities and a \$45,777 unrealized loss on tradable securities.

Income Tax Expense. Our income tax expense for the three months ended June 30, 2009 was \$73,375 compared to income tax expense of \$9,310 for the three months ended June 30, 2008. The increase in income tax expense was mainly due to the increase in our income before income taxes in the three months ended June 30, 2009.

Extraordinary Income. We didn't record any extraordinary income for the three months ended June 30, 2009. For the three months ended June 30, 2008, we recognized and recorded extraordinary income of \$228,703, net of tax, from the payments to our three subsidiaries, Export Erez, Mayotex and Achidatex, by the Israeli Government with respect to their evacuation from the Gaza Industrial Zone.

Noncontrolling Interest. For the three months ended June 30, 2009, we did not recognize or record any noncontrolling interest, compared with the noncontrolling interest in our profit of \$18,042 for the three months ended June 30, 2008 with respect to a subsidiary that is now wholly-owned.

Net Income. For the three months ended June 30, 2009 our consolidated net income of controlling interest was \$131,355, compared to \$195,087 for the three months ended June 30, 2008.

Six Months Ended June 30, 2009 Compared with Six Months Ended June 30, 2008

Net Revenues. Net revenues for the six months ended June 30, 2009 increased to \$9,389,425 from \$7,602,388 in the six months ended June 30, 2008, an increase of 23.5%. The increase is mainly attributable to an increase in our local military and export military market segments. In the period ended June 30, 2009, revenues from our local military market segment increased by approximately \$1.4 million and our military export market segment grew by approximately \$1.6 million. The increased revenues in our local military market segment are attributable to an increase in demand for our products. The increased revenues in our export military market segment are attributable to a general increase in demand for our products during the first quarter, especially armored vehicles, which demand moderated during the second quarter of 2009. The following table sets forth the breakdown of sales by segment for the six months ended June 30, 2009 and 2008.

23

	Six Months Ended June 30,	
	2009	2008
Local civilian market	\$ 1,155,330	\$ 2,186,102
Export civilian market	422,853	591,372
Local military market	4,206,024	2,784,788
Export military market	3,605,218	2,040,126

	Six Months Ended June 30,	
	2009	2008
Total	\$ 9,389,425	\$ 7,602,388

Gross Profit. Gross profit for the six months ended June 30, 2009 was \$2,244,353 compared to \$1,919,906 for the six months ended June 30, 2008. This increase in gross profit is primarily attributable to the increase in revenues from sales. Our gross profit margin for the six months ended June 30, 2009 decreased to 23.9% compared to 25.3% for the six months ended June 30, 2008.

Selling Expenses. Selling expenses for the six months ended June 30, 2009 decreased by 37.3% to \$332,055 from \$529,834 for the six months ended June 30, 2008. The decrease in our selling expenses was attributable primarily to lower commissions due to the decrease in sales in our export civilian market.

General and Administrative Expenses. General and administrative expenses for the six months ended June 30, 2009 decreased by 13.6% to \$986,368 from \$1,141,229 for the six months ended June 30, 2008. This decrease is primarily attributable to the appreciation of the U.S. dollar against the NIS.

Financial (Expenses) Income, Net. We had financial income, net of \$216,969 for the six months ended June 30, 2009 compared to financial expenses, net of \$266,501 for the six months ended June 30, 2008. Our financial income is primarily due to the change in the U.S. dollar exchange rate versus the NIS, which resulted in a gain of \$157,368 for the six months ended June 30, 2009 compared to a loss of \$261,540 for the six months ended June 30, 2008.

Other Income (Expense), Net. We had other income, net for the six months ended June 30, 2009 of \$221,205 as compared to other expense, net of \$96,669 for the six months ended June 30, 2008. Our other income in six months ended June 30, 2009 is mainly attributable to revaluation of funds in respect of employee rights upon retirement of \$81,240, a gain derived from sales of tradable securities of \$24,680 and an unrealized gain of \$115,285 on tradable securities. Our other expense in six months ended June 30, 2008 is mainly attributable to a \$55,046 loss derived from sales of tradable securities and a \$53,007 unrealized loss on tradable securities.

Income Tax Expense. Our income tax expense for the six months ended June 30, 2009 was \$358,226 compared to income tax expense of \$89,004 for the six months ended June 30, 2008. The increase in income tax expense was mainly due to the increase in our income before income taxes in the six months ended June 30, 2009.

Extraordinary Income. We did not record any extraordinary income for the six months ended June 30, 2009. For the six months ended June 30, 2008, we recognized and recorded extraordinary income of \$4,910,541, net of tax, from the payments to our three subsidiaries, Export Erez, Mayotex and Achidatex, by the Israeli Government with respect to their evacuation from the Gaza Industrial Zone.

Noncontrolling Interest. For the six months ended June 30, 2009, we did not recognize or record any noncontrolling interest, compared with the noncontrolling interest in our profit of \$59,459 for the six months ended June 30, 2008 with respect to a subsidiary that is now wholly-owned.

Net Income. In the six months ended June 30, 2009 our consolidated net income of controlling interest was \$1,229,791, compared to \$4,647,751 for the six months ended June 30, 2008.

Liquidity and Capital Resources

As of June 30, 2009, we had \$3,411,492 in cash and cash equivalents, \$2,154,927 in trading securities and working capital of \$10,148,693 as compared to \$1,719,921 in cash and cash equivalents, \$2,384,727 in trading securities and working capital of \$10,088,528 at December 31, 2008.

The current economic climate and the uncertainty in the global financial markets resulting from the disruption in credit markets may affect our ability to raise additional funds in the future, if required. There can be no assurance that such additional financing will be available to us, or if available, will be on terms favorable to our company.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

On October 30, 2008, our Board of Directors authorized a stock repurchase program, which authorizes the use of up to \$450,000 for the purchase of shares of common stock of our company over a period of six months. We did not purchase any shares as part of this program, but we purchased 1,050,000 shares from our former minority shareholders in December 31, 2008 in connection with our purchase of their minority interests.

Cash Flows

The following table summarizes our cash flows for the periods presented:

	Six months ended	
	June 30, 2009	June 30, 2008
Net cash provided by (used in) operating activities	\$ 983,638	\$ (1,917,075)
Cash provided by extraordinary items	-	4,910,541
Net cash provided by (used in) investing activities	2,066,130	(1,995,114)
Net cash used in financing activities	(1,431,949)	(309,460)
Net increase in cash and cash equivalents	1,691,571	728,486
Cash and cash equivalents at beginning of period	1,719,921	1,120,054
Cash and cash equivalents at end of period	3,411,492	1,848,540

Net cash provided by operating activities was \$983,638 for the six months ended June 30, 2009 as compared to \$1,917,075 used in operating activities in the six months ended June 30, 2008. This was primarily provided from net income of \$1,229,791, a decrease in trading securities of \$268,088, and a decrease in other current assets of \$417,792, offset by a decrease in accounts payable of \$237,215, and a decrease in other current liabilities of \$245,656.

Net cash provided by investing activities was \$2,066,130 for the six months ended June 30, 2009 as compared to \$1,995,114 net cash used in the six months ended June 30, 2008. During the six months ended June 30, 2009, \$3,000,000 was provided from the redemption of bank deposits, \$23,658 was provided from the sale of fixed assets, \$76,594 was used to purchase fixed assets and \$880,934 was used to purchase of a business.

Net cash used in financing activities was \$1,431,949 for the six months ended June 30, 2009 as compared to \$309,460 net cash used in financing activities for the six months ended June 30, 2008. During the six months ended June 30, 2009, we incurred additional short-term debt of \$46,314, repaid \$185,635 of long-term debt and repaid \$1,200,000 to related party creditors for the purchase of the minority interest in Achidatex and 1,050,000 of our shares.

Most of our large contracts, which are Israeli Governmental contracts, are supported by letters of credit. As a result, we believe that we have limited exposure to doubtful accounts receivables. We have strived to balance our accounts payable and accounts receivable.

Subject to an unexpected growth in inventories as a result of future growth in sales and to a significant change in raw material prices, we intend to use our cash flow from operations for the acquisition of companies or equipment to expand our capabilities.

25

We anticipate that our research and development expenses in 2009 will total approximately \$140,000.

We believe that we have sufficient working capital and borrowing capability to sustain our current level of operations for the next twelve months.

Foreign Currency Exchange Risk

We develop products in Israel and sell them in Israel, North and South America, Asia, Africa and several European countries. Our sales in Israel are denominated in NIS while most of our export sales are denominated in U.S. dollars. In addition, our labor expenses are primarily paid in NIS while our expenses for raw materials are paid in U.S. dollars and Euros. As a result, our financial results could be affected by factors such as changes in foreign currency exchange rates or weak economic conditions in foreign markets.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

Our foreign currency exposure with respect to our sales is mitigated, and we expect it will continue to be mitigated, through salaries, materials and support operations, in which part of these costs are denominated in NIS.

In the year ended December 31, 2008, the inflation rate in Israel was 3.8% and the NIS appreciated in relation to the U.S. dollar at a rate of 1.14%, from NIS 3.846 per \$1 on December 31, 2007 to NIS 3.802 per \$1 on December 31, 2008. In the six months ended in June 30, 2009 deflation in Israel was 2.2% while the NIS devaluated in relation to the U.S. dollar at a rate of 3.1%. If future inflation in Israel exceeds the devaluation of the NIS against the U.S. dollar or if the timing of such devaluation lags behind increases in inflation in Israel, our results of operations may be materially adversely affected.

We did not enter into any foreign exchange contracts or hedging transactions in the six months ended June 30, 2009.

Inflation and Seasonality

We do not believe that our operating results have been materially affected by inflation during the preceding two years. There can be no assurance, however, that our operating results will not be affected by inflation in the future. Our business is subject to minimal seasonal variations with slightly increased sales historically in the second and third quarters of fiscal year.

Off-balance Sheet Arrangements

None.

Contractual Obligations

The following table summarizes our contractual obligations and commercial commitments as of June 30, 2009.

Contractual Obligations	Payments due by Period				
	Total	Less than 1 year	2 - 3 years	4 - 5 years	more than 5 years
Long-term debt obligations	\$ 688,814	\$ 298,709	\$ 334,819	\$ 55,286	\$ -
Estimated interest payments on long-term debt obligations	57,423	31,538	23,524	2,361	-
Operating lease obligations	302,135	251,612	50,523	-	-
Total	\$ 1,048,372	\$ 581,859	\$ 408,866	\$ 57,647	\$ -

26

Critical Accounting Policies

A discussion of our critical accounting policies was provided in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2008. There were no significant changes to these policies in the six months ended June 30, 2009.

Recent Accounting Pronouncements

In April 2009, the Financial Accounting Standard Board (FASB) issued FSP FAS 157-4, Determining Fair Value When Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly (FSP 157-4). FSP 157-4 provides guidance on how to determine the fair value of assets and liabilities when the volume and level of activity for the asset/liability has significantly decreased. FSP 157-4 also provides guidance on identifying circumstances that indicate a transaction is not orderly. In addition, FSP 157-4 requires disclosure in interim and annual periods of the inputs and valuation techniques used to measure fair value and a discussion of changes in valuation techniques. FSP 157-4 is effective for us beginning in the second quarter of fiscal year 2009. The adoption of FSP 157-4 did not have a significant impact on our interim financial statements.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

In April 2009, the FASB issued FSP FAS 115-2 and FAS 124-2, Recognition and Presentation of Other-Than-Temporary Impairment (FSP 115-2/124-2). FSP 115-2/124-2 amends the requirements for the recognition and measurement of other-than-temporary impairments for debt securities by modifying the pre-existing intent and ability indicator. Under FSP 115-2/124-2, an other-than-temporary impairment is triggered when there is an intent to sell the security, it is more likely than not that the security will be required to be sold before recovery, or the security is not expected to recover the entire amortized cost basis of the security. Additionally, FSP 115-2/124-2 changes the presentation of an other-than-temporary impairment in the income statement for those impairments involving credit losses. The credit loss component will be recognized in earnings and the remainder of the impairment will be recorded in other comprehensive income. FSP 115-2/124-2 is effective for us beginning in the second quarter of fiscal year 2009. FSP 115-2/124-2 did not have a significant impact on our interim financial statements.

In April 2009, the FASB issued FSP FAS 107-1 and APB 28-1, Interim Disclosure about Fair Value of Financial Instruments (FSP 107-1/APB 28-1). FSP 107-1/APB 28-1 requires interim disclosures regarding the fair values of financial instruments that are within the scope of FAS 107, Disclosures about the Fair Value of Financial Instruments. Additionally, FSP 107-1/APB 28-1 requires disclosure of the methods and significant assumptions used to estimate the fair value of financial instruments on an interim basis as well as changes of the methods and significant assumptions from prior periods. FSP 107-1/APB 28-1 does not change the accounting treatment for these financial instruments and is effective for the us beginning in the second quarter of fiscal year 2009.

In May 2009, SFAS No. 165, Subsequent Events, was issued by the FASB, which establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before the financial statements are issued or are available to be issued. SFAS No. 165 provides guidance on the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements and the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. SFAS No. 165 is effective for interim or annual financial periods ending after June 15, 2009. Accordingly, we have adopted SFAS No. 165 for the period ended June 30, 2009, and its application had no impact on our condensed financial statements. Events subsequent to the balance sheet date have been evaluated for inclusion in the accompanying financial statements through the issuance date, August 14, 2009.

In June 2009, the FASB issued SFAS No. 168, The FASB Accounting Standards CodificationTM and the Hierarchy of Generally Accepted Accounting Principles a replacement of FASB Statement No. 162 (SFAS 168). The statement confirmed that the FASB Accounting Standards Codification (the Codification) will become the single official source of authoritative U.S. GAAP (other than guidance issued by the SEC), superseding existing FASB, American Institute of Certified Public Accountants, Emerging Issues Task Force (EITF), and related literature. After that date, only one level of authoritative U.S. GAAP will exist. All other literature will be considered non-authoritative. The Codification does not change U.S. GAAP; instead, it introduces a new structure that is organized in an easily accessible, user-friendly online research system. The Codification, which changes the referencing of financial standards, becomes effective for interim and annual periods ending on or after September 15, 2009. We will apply the Codification beginning in the third quarter of 2009. We do not expect the adoption of SFAS 168 to have any substantive impact on our Condensed Consolidated Financial Statements or related footnotes.

27

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

We do not believe that we have any material exposure to interest rate risk other than sensitivity to prevailing interest rates that may affect income from our cash deposits and marketable securities.

Foreign Exchange Risk

Most of our sales are currently denominated in dollars, while the majority of our operating expenses are incurred in foreign currencies, principally the NIS. As a result, the decrease in the value of the U.S. dollar against these currencies has resulted in increased expenses for our company. In 2006, 2007 and 2008, the U.S dollar depreciated against the NIS by approximately 8%, 9%, 1%, respectively. In the first six months of 2009, the U.S dollar appreciated by approximately 3.1% in relation to the NIS.

Item 4T. Controls and Procedures

Foreign Exchange Risk

25

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities Exchange Act of 1934, or the Exchange Act, reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our chief executive officer and chief financial officer to allow timely decisions regarding required disclosure. Our management, including our chief executive officer and chief financial officer, conducted an evaluation of the effectiveness of our disclosure controls and procedures, as defined under Exchange Act Rule 13a-15(e), as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, our chief executive officer and chief financial officer have concluded that, as of such date, our disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting that occurred during the quarter ended June 30, 2009 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II OTHER INFORMATION:

Item 1. Legal Proceedings

On February 11, 2009, a lawsuit was filed in the Jerusalem District Court against our subsidiaries, Export Erez USA Inc. and Achidatex, and its chief executive officer, Mr. Avraham Hazor. The suit alleges that Achidatex materially breached its agreement with the plaintiff, dated February 22, 2000, relating to the development of inflatable mine-field crossing enabling sandals, because Achidatex allegedly failed to register patents for the technology worldwide and only registered patents in the United States. The plaintiff further claims that the defendants, jointly and severally, committed a breach of trust. The plaintiff is seeking damages in the amount of NIS 10 million (approximately \$2.6 million), and claiming all rights in the patent. Contemporaneously with the filing of the claim, the plaintiff also filed a motion seeking an exemption from payment of the requisite court filing fee, which motion was subsequently granted. We believe that the plaintiff's claim is unfounded and that we have substantial legal arguments to oppose the allegations. We intend to vigorously defend against the claim and we are considering a possible counterclaim.

28

Item 1A. Risk Factors

Our business may be negatively affected by the current global economic and credit crisis.

The current economic climate and the uncertainty in the global economic conditions resulting from the recent disruption in credit markets pose a risk to the overall economy that could impact customer demand for our products, as well as our ability to manage normal commercial relationships with our customers, suppliers and creditors. If the current situation deteriorates significantly, our business could be negatively impacted, including such areas as reduced demand for our products from a slow-down in the general economy, or supplier or customer disruptions resulting from tighter credit markets.

Reliance on a Limited Number of Key Personnel.

Our success has been significantly dependent on the services of our former chairman and chief executive officer, Joseph Postbinder. Mr. Postbinder passed away in June 2009 and we appointed Mrs. Meira Postbinder to succeed him as the chairman of our board of directors. Mr. Baruch Tosh, our president, was appointed as Chief Executive Officer. The death of Mr. Joseph Postbinder could have a material adverse effect on our business.

There have been no other material changes to our Risk Factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2008.

Item 6. Exhibits

Exhibits

- 31.1 Certification of Chief Executive Officer pursuant to Rule 13a-14(a) of the Securities Exchange Act, as amended.
- 31.2 Certification of Chief Financial Officer pursuant to Rule 13a-14(a) of the Securities Exchange Act, as amended.
- 32.1 Certification of Chief Financial Officer pursuant to Rule 13a-14(a) of the Securities Exchange Act, as amended.
- 32.2 Certification of Chief Financial Officer pursuant to 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

29

SIGNATURE

In accordance with the requirements of the Exchange Act, the registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
