DEFENSE INDUSTRIES INTERNATIONAL, INC.

AND SUBSIDIARY COMPANIES

CONDENSED CONSOLIDATED STATEMENTS OF CASH FLOWS

FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2009 AND 2008 (UNAUDITED)

SUPPLEMENTAL SCHEDULE OF NON-CASH ACTIVITIES:

Pursuant to the agreement signed on February 28, 2005 to acquire the business of Rizzo Inc. (doing business as Owen Mills Company), on June 8, 2009 and March 18, 2008 the Company issued 209,424 and 123,839 shares of common stock, respectively, having a fair value of \$40,000 each at the date of issuance to the former shareholders of Rizzo Inc.

The accompanying notes are an integral part of the condensed consolidated financial statements.

DEFENSE INDUSTRIES INTERNATIONAL, INC.

AND SUBSIDIARY COMPANIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENT

FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2009 AND 2008 (UNAUDITED)

NOTE 1 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

- A. The accompanying unaudited interim consolidated financial statements as of September 30, 2009 and for the three and nine month periods then ended (the interim financial statements) were prepared in a condensed form in accordance with the instructions for Form 10-Q and, therefore, do not include all disclosures necessary for a complete presentation of financial condition, results of operations, changes in shareholders' equity, cash flows and all the data and notes which are required when preparing annual financial statements, in conformity with generally accepted accounting principles accepted in the United States.
- B. The accounting principles used in the presentation of the interim financial statements are consistent with those principles used in the presentation of the latest annual financial statements. All significant accounting policies have been applied consistently with the year ended December 31, 2008, except as otherwise stated below.
- C. The preparation of the interim financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates. In the opinion of management, all adjustments considered necessary for fair presentation of the interim financial statements have been included. The results of operations for the three and nine months periods ended September 30, 2009, are not necessarily indicative of the results that may be expected for the year ending December 31, 2009. The interim financial statements should be read in conjunction with the Company's annual financial statements as of December 31, 2008 and for the year then ended and the accompanying notes thereto.
- D. **Principles of Consolidation**

The interim financial statements include the accounts of Defense Industries International, Inc., its wholly owned subsidiaries, Export Erez USA, Inc., Rizzo Inc. (doing business as Owen Mills Company), Export Erez, Ltd. (Export Erez), Mayotex, Ltd.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

(Mayotex), Dragonwear Trading Ltd. (Dragonwear), and Achidatex Nazareth Elite (1977) Ltd. (Achidatex), (assets and liabilities 100% as of September 30, 2009 and December 31, 2008, respectively, and operations 100% and 76% in the three and nine months ended September 30, 2009, and 2008, respectively).

All significant inter-company accounts and transactions have been eliminated in consolidation.

DEFENSE INDUSTRIES INTERNATIONAL, INC.

AND SUBSIDIARY COMPANIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENT

FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2009 AND 2008 (UNAUDITED)

E. Per share data

Basic net income per share of common stock is computed based on the weighted average number of shares of common stock outstanding during the period. Diluted net income per share of common stock is computed based on the weighted average number of shares of common stock and common stock equivalents outstanding during the period. For the three and nine months ended September 30, 2009 and 2008 common stock equivalents to purchase 202,500 shares of common stock were not included in diluted income (loss) per share because their effect is anti-dilutive.

F. Fair value

Effective January 1, 2008, the Company adopted Accounting Standards Accounting Standards Codification (ASC) Topic 820 Fair Value Measurements and Disclosures, that pertain to the standard formerly known as FSP No. FAS 157-4 *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. This provides additional requirements for estimating fair value when the volume and level of market activity for an asset or liability have decreased significantly, and includes additional information on circumstances that indicate when a transaction or market are not orderly. Factors to consider in determining whether there has been a significant decrease in the volume and level of activity include transaction frequency and volume, substantial variation in market quotations, abnormal risk premiums or bid-ask spreads, and a significant decline in market activity and the availability of market information.

ASC Topic 820 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. SFAS 157 also requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs, as follows:

Level 1 Quoted prices in active markets for identical assets or liabilities;

Level 2 Quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability; or

Level 3 Unobservable inputs, such as discounted cash flow models or valuations.

The Company's trading securities and bank deposits are measured at fair value based on quoted market prices in active markets for identical assets (Level 1).

The Company's funds in respect to employees' rights upon retirement are measured at fair value based upon unobservable inputs (Level 3).

DEFENSE INDUSTRIES INTERNATIONAL, INC.**AND SUBSIDIARY COMPANIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENT****FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2009 AND 2008 (UNAUDITED)****G. Recent accounting pronouncements**

Following are summaries of accounting pronouncements that were either recently adopted or may become applicable to the Company's consolidated financial statements. It should be noted that effective with the quarter ended September 30, 2009, titles and references to accounting standards have been updated to reflect Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) and Accounting Standards Update (ASU) references, where applicable.

Recently Adopted Pronouncements

The provisions of ASC Topic 810 *Consolidation*, that pertain to the standard formerly known as Statement of Financial Accounting Standards (SFAS) No. 160 *Noncontrolling Interests in Consolidated Financial Statements* - an amendment of Accounting Research Bulletin (ARB) No. 51. This standard establishes new accounting and reporting requirements for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It requires the recognition of a noncontrolling interest (minority interest) as equity in the consolidated financial statements and separate from the parent's equity. The amount of net income attributable to the noncontrolling interest is included in consolidated net income on the face of the income statement. The standard clarifies that changes in a parent's ownership interest in a subsidiary that do not result in deconsolidation are equity transactions if the parent retains its controlling financial interest. In addition, this standard requires that a parent recognize a gain or loss in net income when a subsidiary is deconsolidated. Such gain or loss will be measured using the fair value of the noncontrolling equity investment on the deconsolidation date. The standard also includes expanded disclosure requirements regarding the interests of the parent and its noncontrolling interest. The Company adopted this standard as of January 1, 2009. The adoption of this standard did not have a material impact on the Company's consolidated financial statements.

ASC Topic 805 *Business Combinations*, (formerly known as SFAS No. 141(R)). This standard requires the acquirer in a business combination to recognize the assets acquired, the liabilities assumed, contractual contingencies, and contingent consideration at their fair values as of the acquisition date. Additionally, this standard requires acquisition costs to be expensed as incurred, restructuring costs to be expensed in the period subsequent to the acquisition date, and changes in deferred tax asset valuation allowances and income tax uncertainties after the acquisition date to impact tax expense. The acquirer in an acquisition implemented in stages is required to recognize the identifiable assets and liabilities, as well as the noncontrolling interest in the acquiree, at the full amounts of their fair values. This standard was effective for business combinations with an acquisition date after December 31, 2008. The adoption of this standard did not have an impact on the Company's consolidated financial statements.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENT

FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2009 AND 2008 (UNAUDITED)

The provisions of ASC Topic 805 *Business Combinations*, that pertain to the standard formerly known as FASB Staff Position (FSP) No. FAS 141(R)-1 *Accounting for Assets Acquired and Liabilities Assumed in a Business Combination that Arise from Contingencies*. This standard amends and clarifies previously existing rules and requires an acquirer to recognize at fair value, at the acquisition date, an asset acquired or liability assumed in a business combination that arises from a contingency if the fair value can be determined during the measurement period. If an acquisition date fair value cannot be determined during the measurement period, it must still be recognized if it is probable the asset existed or a liability had been incurred and it can be reasonably estimated. This standard also increases the disclosure requirements of the acquirer to include the nature and the financial effects of the contingencies on its financial statements. This standard was effective for assets or liabilities arising from contingencies in business combinations with an acquisition date after December 31, 2008. The adoption of this standard did not have an impact on the Company's consolidated financial statements.

The provisions of ASC Topic 260 *Earnings Per Share*, that pertain to the standard formerly known as FSP No. EITF 03-6-1 *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities*. This standard applies to the calculation of earnings per share (EPS) for share-based payment awards with rights to dividends or dividend equivalents. Unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and should be included in the computation of EPS pursuant to the two-class method. This standard was effective for the Company beginning January 1, 2009 with retrospective adjustment to previously reported EPS data for comparative purposes. The adoption of this standard did not have a material impact on the Company's consolidated financial statements.

The provisions of ASC Topic 320 *Investments Debt and Equity Securities*, that pertain to the standard formerly known as FSP No. FAS 115-2 and FAS 124-2 *Recognition and Presentation of Other-Than-Temporary Impairments*. This standard changes the requirements for recognizing other-than-temporary impairments for debt securities, modifies the presentation of other-than-temporary losses in the income statement and expands the disclosure requirements relating to impairments of debt and equity securities. This standard specifies that if a company does not have the intent or need to sell a debt security prior to recovery, the security is not considered other-than-temporarily-impaired unless there is a credit loss. If impairment to a security is recognized because of a credit loss, a company is required to recognize the credit loss component of the impairment of the debt security in earnings and the remaining portion of the impairment loss in other comprehensive income. The standard was effective for interim and annual periods ending after June 15, 2009. The adoption of this standard did not have a material impact on the Company's consolidated financial statements.

Recently Issued Pronouncements

SFAS No. 167 *Amendments to FASB Interpretation FIN No. 46(R)*. This standard amends the requirements for variable interest entities in ASC Topic 810 (FIN No. 46(R)) *Consolidation of Variable Interest Entities* by changing how a reporting entity determines when to consolidate an entity that is insufficiently capitalized or is not controlled through voting (or similar rights). The determination is based on, among other things, the other entity's purpose and design and the reporting entity's ability to direct the activities of the other entity that most significantly impact the other entity's economic performance. The standard also requires a company to provide additional disclosures about its involvement with variable interest entities and any significant changes in

risk exposure due to that involvement. The standard is effective as of the beginning of an entity's first annual reporting period that begins after November 15, 2009. The Company has not yet determined the impact of this standard on its consolidated financial statements.

ASU No. 2009-05 *Fair Value Measurements and Disclosures* (Topic 820) *Measuring Liabilities at Fair Value*. This ASU provides additional requirements for measuring a liability at fair value. When a quoted price in an active market for the identical liability is not available, a reporting entity is required to use a valuation technique that uses the quoted price for similar liabilities traded or quoted prices for an identical liability or similar liabilities traded as an asset. An entity may also use a valuation technique that is consistent with the principles of Topic 820 such as an income or market approach. This ASU is effective for the first reporting period beginning after August 27, 2009. The Company has not yet determined the impact of this ASU on its consolidated financial statements.

ASU No. 2009-14 *Revenue Recognition* (Topic 605) *Multiple-Deliverable Revenue Arrangements* a consensus of the FASB Emerging Issues Task Force. This ASU addresses the accounting for multiple-deliverable arrangements to enable vendors to account for products or services (deliverables) separately rather than a combined unit. It establishes a hierarchy for determining the selling price for each deliverable. The selling price used for each deliverable should be based on vendor-specific objective evidence if available, third-party evidence if vendor-specific objective evidence is not available, or estimated selling price if neither vendor-specific objective evidence nor third-party evidence is available. This ASU also clarifies existing requirements that the allocation of revenue is based on entity-specific assumptions rather than assumptions of a marketplace participant. This ASU is effective for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. The adoption of this ASU is not expected to have material impact on the Company's consolidated financial statements.

NOTE 2 TENTATIVE ACQUISITIONS

On December 17, 2008, Mayotex entered into an agreement with Sarino Crystal Technologies Ltd. and Sarino Optronics Ltd. (Sarino) to cooperate in the manufacture of optical grade Germanium crystals and sales of optical and infra-red night vision products utilizing the Germanium crystals (the Sarino Agreement). As of the balance sheet date, Isorad Ltd.'s (Isorad) board of directors has not approved the Isorad Agreement as discussed below.

Pursuant to the Sarino Agreement and subject to the approval of the Isorad Agreement:

(1) Mayotex and Sarino agreed to incorporate Mayosar, with Mayotex being the majority shareholder owning 50.1% and Sarino owning 49.9%. As majority shareholder, Mayotex will have operational control of Mayosar.

(2) In consideration of the above, Mayotex will pay Sarino \$1 million, out of which, \$300,000 will be non-refundable to Mayotex upon 24 months following the execution of the Isorad Agreement, and the remaining \$700,000 will be earned by Sarino based on 10% of sales over \$3 million and up to \$10 million during the first 36 months of operations. Amounts not earned are to be refunded to Mayotex, including interest of Libor + 2% per annum. The refundable consideration is secured by Sarino's interest in Mayosar.

(3) Mayotex agreed to provide Mayosar with a loan of up to \$2 million. Such loan will bear interest at the rate of Libor + 2%, and is payable from profits generated by Mayosar.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

As of September 30, 2009, Mayotex provided loans of \$1 million to Sarino and \$0.9 million to Mayosar. Such payments are recognized as refundable deposits pending resolution of the Isorad Agreement.

Isorad Agreement (subject to approval):

On December 21, 2008, Mayosar, through its wholly owned subsidiary Isorad IR Optics Ltd., (Optics), entered into an agreement to purchase the Germanium Crystals Business of Isorad, consisting of certain know-how, equipment, inventories and production activities of Germanium Crystals for lenses used in infra-red night vision system applications (Isorad Agreement). As of September 30, 2009, this agreement has not been executed.

15

DEFENSE INDUSTRIES INTERNATIONAL, INC.

AND SUBSIDIARY COMPANIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENT

FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2009 AND 2008 (UNAUDITED)

Pursuant to the Isorad Agreement, Optics is to pay royalties of 3% out of sales for a period of 15 years commencing the effective date of the Isorad Agreement (the Effective Date), with a minimum amount of approximately \$125,000 payable per year during the first 18 months or until the date of completion of the transfer of the site of the Germanium Crystals Business, whichever is earlier (this payment includes a reimbursement of costs for the usage of the site and equipment in this initial period), and approximately \$50,000 per year during the following years of the royalties payment period.

Pursuant to the Isorad Agreement, Isorad was granted the right to acquire 5% of the share capital of Optics on a fully diluted basis for their nominal value during the 24 month period beginning on the Effective Date. If the Israeli Government does not approve the 5% purchase of the Optics shares by Isorad within twelve (12) months of the Effective Date, the right to acquire the shares will expire and Isorad will be entitled to a payment of \$75,000.

In the event of an allotment of shares to Isorad, representing 5% of Optics share capital, Mayosar will issue to Mayotex additional shares of Mayosar on a pro rata basis, in order for Mayotex to retain a 50.01% indirect interest in Optics share capital.

Optics has the right during the four year period following the Effective Date to redeem and purchase from Isorad its option to purchase 5% of its shares and to cancel its commitment to pay royalties under the Isorad agreement, in consideration of a fixed payment of \$750,000, less all royalties paid to Isorad through that date.

Management is currently assessing its legal position in order to clarify the matter regarding the validity of the transaction with Isorad. Management is of the opinion, based on legal advice received, that the amounts paid under the Sarino and Isorad agreements will be fully refundable to the Company in the event that the Isorad Agreement is not consummated.

NOTE 4 SEGMENT INFORMATION AND CONCENTRATIONS

The Company has two strategic business segments: sales to the civilian market and the military market.

The military and the civilian markets are further broken down between Israel (local) and other (export) sales in order to better analyze trends in sales and profit margins. The Company does not allocate assets between segments because assets are used in more than one segment and any allocation would be impractical.

NOTE 5 COMPENSATION FROM GOVERNMENT

Export Erez and Mayotex received \$54,056 and \$174,309, respectively, as compensation from the Israeli Government, under the Property tax and compensation payments for war damages Regulations, for the loss of employment days and potential revenues during the last two years due to the security and military situation in the area in which Export Erez and Mayotex were located. This \$228,365 of compensation has been recorded as a reduction to the Company's operating expenses.

DEFENSE INDUSTRIES INTERNATIONAL, INC.**AND SUBSIDIARY COMPANIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENT****FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2009 AND 2008 (UNAUDITED)****NOTE 6 COMMITMENTS AND CONTINGENCIES**

On February 11, 2009, a lawsuit was filed in the Jerusalem District Court against the Company's subsidiaries, Export Erez USA Inc. and Achidatex, and its chief executive officer, Mr. Avraham Hazor. The suit alleges that Achidatex materially breached its agreement with the plaintiff, dated February 22, 2000, relating to the development of inflatable mine-field crossing enabling sandals, because Achidatex allegedly failed to register patents for the technology worldwide and only registered patents in the United States. The plaintiff further claims that the defendants, jointly and severally, committed a breach of trust. The plaintiff is seeking damages in the amount of NIS 10 million (approximately \$2.7 million), and claiming all rights in the patent. The Company believes that the plaintiff's claim is unfounded and that it has substantial legal arguments to oppose the allegations. The Company has denied any liability under the claims, have sought the dismissal of the claims against Export Erez and Mr. Avraham Hazor because of a lack of privity, have sought to join a third party and have submitted a counterclaim against the plaintiff for funds owed to Achidatex. This matter is currently in its early stages, and

the Company intends to vigorously defend against the claim and to pursue the Company's counterclaim.

NOTE 7 SUBSEQUENT EVENTS

The Company has evaluated all events or transactions that occurred after September 30, 2009 through the filing date of this document and did not have any material recognizable and unrecognizable subsequent events.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion should be read in conjunction with the condensed consolidated financial statements and notes included in Item 1 of Part I of this Quarterly Report and the audited consolidated financial statements and notes thereto, and Management's Discussion and Analysis of Financial Condition and Results of Operations for the Year Ended December 31, 2008 contained in our 2008 Annual Report on Form 10-K. The discussion and analysis which follows may contain trend analysis and other forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 which reflect our current views with respect to future events and financial results. These include statements regarding our earnings, projected growth and forecasts, and similar matters that are not historical facts.

We remind shareholders that forward-looking statements are merely predictions and therefore are inherently subject to uncertainties and other factors that could cause the future results to differ materially from those described in the forward-looking statements.

The following is management's discussion and analysis of certain significant factors which have affected our financial position and operating results during the periods included in the accompanying consolidated financial statements, as well as information relating to the plans of our current management.

Overview

We are a manufacturer and global provider of personal military and civilian protective equipment and supplies. Our products are used by military, law enforcement, border patrol enforcement, and other special security forces, corporations, non-governmental organizations and individuals throughout the world.

Our main products include body armor, bomb disposal suits, bullet proof vests and jackets, ballistic wall coverings, bullet proof ceramic and polyethylene panels, V.I.P. car armoring and lightweight armor kits for vehicles, personal military equipment, dry storage systems, liquid logistic products, tents and other camping and travel gear.

While we believe that current international tensions, the war on terrorism, and the continuing conflict in Iraq are all likely to result in additional interest in our products, and that the demand for our products will continue to grow, the recent global economic turmoil and the instability in the financial markets may result in reduction in governmental spending for military and security budgets. We expect to address the growth indication by offering a comprehensive array of high quality branded security products that meet our customers' increasingly complex security products requirements. We intend to enhance our position in the industry through additional strategic acquisitions that will broaden our portfolio of products.

Material Trends

Local Military Market. After the war between Israel and the Hezbollah in Lebanon in July and August of 2006, increased orders from the Israeli Ministry of Defense increased the demand for our products in this market. We benefited from this trend for the remainder of 2006 and through 2007. During 2008 the demand for our products decreased compared to the same period of 2007, but was significantly higher than in 2006. During the first nine months of 2009 the demand for our products increased due to the ongoing violence as well as tensions between Israel and several of its neighboring states. We believe that the demand for our products from the Israeli Ministry of Defense will decrease in the fourth quarter of 2009,.

As of November 3, 2009, we had a backlog of firm orders from the Israeli Ministry of Defense of approximately \$0.7 million, including orders of approximately \$0.2 million that we received subsequent to September 30, 2009. In the nine month periods ended September 30, 2009 and 2008, sales to the Israeli Ministry of Defense were \$5.9 million and \$4.0 million, accounting for 45.9% and 32.8% of our sales, respectively.

Export Military Market. Our customers in this market are military and law enforcement organizations located mostly in South America, North America, Africa and Europe. Their budgets fluctuate and as a result we cannot identify definite trends in these markets.

We are continuing our efforts to strengthen our position in our existing export markets in North America, South America, Asia and Europe and to extend our presence to new export markets in Australia and Africa. We believe that although the demand for our products from these markets is inconsistent, the demand is growing and that any future success in such markets will be primarily dependant on our ability to be competitive in our pricing and the quality of our products.

In the first nine months of 2009, we experienced a decrease in demand for armored vehicles from African countries. We believe that the armored car business will grow in the future and become more significant to us. The armored car business is characterized by higher gross margins than our traditional military products.

The following table presents details of our export military sales during the three and nine month periods ended September 30, 2009 and 2008:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
Sales to South America	\$ 335,766	\$ 553,732	\$ 1,544,182	\$ 993,681
Sales to North America	11,214	322,565	187,868	558,816
Sales to Europe and Asia	147,896	516,378	980,553	1,129,572
Sales to Africa	350,717	891,924	1,738,208	1,642,656
Total Export Military Sales	\$ 845,593	\$ 2,284,599	\$ 4,450,811	\$ 4,324,725

Local Civilian Market. In the first nine months of 2009, we experienced a decrease in demand for our local market products. We expect this trend to continue during the remainder of 2009.

Export Civilian Market. Since the downturn in demand that we experienced in the first quarter of 2009 for products we market in our export civilian market, our sales levels have returned to the higher levels of 2008. We expect this trend to continue for the remainder of 2009.

Current Economic Overview. We generate revenues from sales of our products to the civilian and military markets. Accordingly, our business is affected by economic conditions. The volatile economic conditions have slowed down our sales process and complicated our ability to conduct transactions. The current economic climate and the uncertainty in global economic conditions could impact the ability of our customers to make capital expenditures, thereby affecting their ability to purchase our products. Our business and financial performance, including collection of our accounts receivable, realization of inventory and recoverability of assets including investments, may be adversely affected if economic conditions deteriorate or continue to be volatile. Our profitability may also be adversely affected by our fixed costs and the possibility that we would be unable to scale back other costs within a time frame sufficient to match any decreases in revenue relating to changes in market and economic conditions. The turmoil in the financial markets may limit our ability to obtain financing for our working capital requirements.

Exchange rate fluctuation. Exchange rate fluctuation affect our financial results in several ways. Most of our deposits and a portion of our tradable securities are linked to the rate of exchange between the U.S. dollar and the NIS. Accordingly, devaluation of the U.S. dollar against the NIS is reflected as comprehensive income in our consolidated financial statements.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

We develop products in Israel and sell them in Israel, North and South America, Asia, Africa and several European countries. Our sales in Israel are denominated in NIS, while most of our export sales are denominated in U.S. dollars. Under U.S. GAAP we report all of our sales in U.S. dollars. Accordingly, appreciation of the U.S. dollar against the NIS reduces our reported sales while the devaluation of the U.S. dollar against the NIS increases our reported sales.

Our cost of sales and operating expenses are affected in the same manner. Most of our purchases of raw material are made in U.S. dollars while most of our labor and other operating expenses are in NIS, however, under U.S. GAAP we report our cost of sales and operating expenses in U.S. dollars. Accordingly, appreciation of the U.S. dollar against the NIS reduces our reported cost of sales and operating expenses while the devaluation of the U.S. dollar against the NIS increases our reported cost of sales and operating expenses.

In the quarter ended September 30, 2009, the U.S. dollar depreciated against the NIS by approximately 4.1%, and our financial results were negatively impacted. Because exchange rates between the U.S. dollar and the NIS fluctuate continuously, exchange rate fluctuations and especially larger periodic devaluations will have an impact on our profitability and period-to-period comparisons of our results. We cannot assure you that in the future our results of operations may not be materially adversely affected by currency fluctuations.

Former Operations in the Erez Industrial Zone

During 2004, the Israeli Government decided to evacuate the Erez Industrial Zone in the Gaza Strip, where part of our operations were located. We owned facilities, leased other facilities and maintained equipment and inventory within this area. In 2005, we moved our light cut and sew operation from the Erez Industrial Zone to Sderot and some of our webbing equipment to Nazareth. In August 2005, we evacuated our remaining operations and abandoned the buildings we owned and leased in the Erez Industrial Zone.

The Israeli Government's decision to evacuate the Gaza Strip was supported by certain resolutions, including the Evacuation Compensation Law that was adopted by the Israeli Parliament to compensate the Israeli Gaza Strip settlers as well as business and property owners in the Gaza Strip and in the Erez Industrial Zone. In February 2006, three of our subsidiaries, Export Erez, Mayotex and Achidatex, filed claims for compensation pursuant to the Evacuation Compensation Law. In 2006, we were notified that we would receive advance payment in the aggregate amount of \$523,000. We applied this payment against the receivable established in 2005 and recorded the excess payment of \$240,658, net of taxes, as extraordinary gain. On February 18, 2008, Export Erez, Mayotex and Achidatex signed definitive agreements with SELA, a government agency, established pursuant to the Evacuation Compensation Law, for compensation of approximately \$6.0 million, net of 5% related taxes, receipt of the previous advance payment and the other associated costs.

Tentative acquisitions

On December 17, 2008, Mayotex entered into an agreement with Sarino Crystal Technologies Ltd. and Sarino Optronics Ltd. (Sarino) to cooperate in the manufacture of optical grade Germanium crystals and sales of optical and infra-red night vision products utilizing the Germanium crystals (the Sarino Agreement). As of the balance sheet date, Isorad Ltd. s (Isorad) board of directors has not approved the Isorad Agreement as discussed below.

Pursuant to the Sarino Agreement and subject to the approval of the Isorad Agreement:

Mayotex and Sarino agreed to incorporate Mayosar, with Mayotex being the majority shareholder owning 50.1% and Sarino owning 49.9%. As majority shareholder, Mayotex will have operational control of Mayosar.

In consideration of the above, Mayotex will pay Sarino \$1 million, out of which, \$300,000 will be non-refundable to Mayotex upon 24 months following the execution of the Isorad Agreement, and the remaining \$700,000 will be earned by Sarino based on 10% of sales over \$3 million and up to \$10 million during the first 36 months of operations. Amounts not earned are to be refunded to Mayotex, including interest of Libor + 2% per annum. The refundable consideration is secured by Sarino's interest in Mayosar.

Mayotex agreed to provide Mayosar with a loan of up to \$2 million. Such loan will bear interest at the rate of Libor + 2%, and is payable from profits generated by Mayosar.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

As of September 30, 2009, Mayotex provided loans of \$1 million to Sarino and \$0.9 million to Mayosar. Such payments are recognized as refundable deposits pending resolution of the Isorad Agreement.

On December 21, 2008, Mayosar, through its wholly owned subsidiary Isorad IR Optics Ltd., (Optics), entered into an agreement to purchase the Germanium Crystals Business of Isorad, consisting of certain know-how, equipment, inventories and production activities of Germanium Crystals for lenses used in infra-red night vision system applications (Isorad Agreement). As of September 30, 2009, this agreement has not been executed.

Pursuant to the Isorad Agreement, Optics is to pay royalties of 3% out of sales for a period of 15 years commencing the effective date of the Isorad Agreement (the Effective Date), with a minimum amount of approximately \$125,000 payable per year during the first 18 months or until the date of completion of the transfer of the site of the Germanium Crystals Business, whichever is earlier (this payment includes a reimbursement of costs for the usage of the site and equipment in this initial period), and approximately \$50,000 per year during the following years of the royalties payment period.

Pursuant to the Isorad Agreement, Isorad was granted the right to acquire 5% of the share capital of Optics on a fully diluted basis for their nominal value during the 24 month period beginning on the Effective Date. If the Israeli Government does not approve the 5% purchase of the Optics shares by Isorad within twelve (12) months of the Effective Date, the right to acquire the shares will expire and Isorad will be entitled to a payment of \$75,000.

In the event of an allotment of shares to Isorad, representing 5% of Optics share capital, Mayosar will issue to Mayotex additional shares of Mayosar on a pro rata basis, in order for Mayotex to retain a 50.01% indirect interest in Optics share capital.

Optics has the right during the four year period following the Effective Date to redeem and purchase from Isorad its option to purchase 5% of its shares and to cancel its commitment to pay royalties under the Isorad agreement, in consideration of a fixed payment of \$750,000, less all royalties paid to Isorad through that date.

Our management is currently assessing the Company's legal position in order to clarify the matter regarding the validity of the transaction with Isorad. Our management is of the opinion, based on legal advice received, that the amounts paid under the Sarino and Isorad agreements will be fully refundable to us in the event that the Isorad Agreement is not consummated.

Results of Operations

Our management views revenues, the sources of our revenues, gross profit margin and the level of inventory compared to revenues as the key performance indicators in assessing our company's financial condition and results of operations. While our management believes that demand for our products will continue to grow, our business is subject to a high degree of volatility because of the impact of geopolitical events, government budgeting, and competition.

Three Months Ended September 30, 2009 Compared with Three Months Ended September 30, 2008

Net Revenues. Net revenues for the three months ended September 30, 2009 decreased to \$3,554,137 from \$4,647,247 in the three months ended September 30, 2008, a decrease of 23.5%. The decrease is mainly attributable to a decrease of approximately \$0.4 million in our local civilian market segment, and a decrease of approximately \$1.4 million in our export military market segment, which was offset by an increase of approximately \$0.1 million in our export civilian market segment and an increase of approximately \$0.6 million in our local military market segment. The increased revenues in our local military market segment are attributable to an increase in demand for our products from the Israeli Ministry of Defense. The decreased revenues in our export military market and local civilian market segments are attributable to a general decrease in demand for our products in those markets.

The following table sets forth the breakdown of sales by segment for the three months ended September 30, 2009 and 2008.

Three Months Ended September 30,	
2009	2008

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

	Three Months Ended September 30,	
Local civilian market	\$ 484,888	\$ 892,559
Export civilian market	340,489	231,970
Local military market	1,883,167	1,238,119
Export military market	845,593	2,284,599
Total	\$ 3,554,137	\$ 4,647,247

Gross Profit. Gross profit for the three months ended September 30, 2009 was \$716,217 compared to \$972,830 for the three months ended September 30, 2008. Our gross profit margin for the three months ended September 30, 2009 decreased to 20.2% compared to 20.9% for the three months ended September 30, 2008. The decrease in gross profit margin is primarily attributable to the 23.5% decrease in revenues while our cost of sales decreased by only 22.8%, which is primarily due to our fixed costs that are not revenue dependent.

Selling Expenses. Selling expenses for the three months ended September 30, 2009 decreased by 30.8% to \$153,485 from \$221,866 for the three months ended September 30, 2008. The decrease in our selling expenses was attributable primarily to the decrease in export sales commissions and also due to the depreciation of the U.S. dollar against the NIS.

General and Administrative Expenses. General and administrative expenses for the three months ended September 30, 2009 decreased by 1.3% to \$551,053 from \$558,205 for the three months ended September 30, 2008.

Compensation from Israeli Government. In the second quarter of 2009, Export Erez and Mayotex received a total of \$223,913, as compensation from the Israeli Government under the Property tax and compensation payments for war damages regulations, for the loss of employment days and potential revenues during the last two years due to the security and military situation in the area in which Export Erez and Mayotex are located. We recorded \$4,452 of income due to exchange rate differences in the third quarter with respect to the compensation received from the Israeli Government.

Financial (Expenses) Income, Net. We had financial expenses, net of \$255,392 for the three months ended September 30, 2009 compared to financial income, net of \$108,206 for the three months ended September 30, 2008. Our financial expenses are primarily due to the change in the U.S. dollar exchange rate versus the NIS, which resulted in a loss of \$254,938 for the three months ended September 30, 2009 compared to a gain of \$85,000 for the three months ended September 30, 2008.

Other Income (Expense), Net. We had other income, net for the three months ended September 30, 2009 of \$71,999 as compared to other expense, net of \$29,814 for the three months ended September 30, 2008. Our other income in the three months ended September 30, 2009 is attributable to a \$30,330 gain derived from revaluation of funds in respect of employee rights upon retirement, a \$8,832 gain derived from sales of tradable securities and a \$32,837 unrealized gain on tradable securities. Our other expense for the three months ended September 30, 2008 is mainly attributable to a \$8,608 loss from sales of tradable securities and a \$48,191 unrealized loss on tradable securities.

Income Tax Expense. Our income tax benefit for the three months ended September 30, 2009 was \$16,878 compared to income tax expense of \$121,752 for the three months ended September 30, 2008. The decrease in income tax expense was mainly due to the loss before income taxes in the three months ended September 30, 2009 compared to income before income taxes in the three months ended September 30, 2008.

24

Net Income (Loss) Before Extraordinary Income. Net loss before extraordinary income for the three months ended September 30, 2009 was \$150,384 as compared to net income before extraordinary income for the three months ended September 30, 2008 of \$149,399.

Extraordinary Income. We did not record any extraordinary income for the three months ended September 30, 2009. For the three months ended September 30, 2008, we recognized and recorded extraordinary income of \$19,524, net of tax, from payments to our three subsidiaries, Export Erez, Mayotex and Achidatex, by the Israeli Government with respect to their evacuation from the Gaza Industrial Zone.

Net Loss Attributable to Noncontrolling Interest. For the three months ended September 30, 2009, we did not recognize or record any income attributable to noncontrolling interest, compared to a net loss of \$23,347 attributable to noncontrolling interest for the three months ended September 30, 2008, which loss relates to a subsidiary that is now wholly-owned.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

Net Income (Loss). For the three months ended September 30, 2009 our consolidated net loss attributable to controlling interest was \$150,384, compared to net income of \$192,270 attributable to controlling interest for the three months ended September 30, 2008.

Nine Months Ended September 30, 2009 Compared with Nine Months Ended September 30, 2008

Net Revenues. Net revenues for the nine months ended September 30, 2009 increased to \$12,943,562 from \$12,249,635 in the nine months ended September 30, 2008, an increase of 5.7%. The increase is mainly attributable to an increase in revenues from our local military market segment. In the period ended September 30, 2009, revenues from our local military market segment increased by approximately \$2.1 million. The increased revenues in our local military market segment are attributable to an increase in demand for our products. This increase was offset by a decrease of approximately \$1.4 million in our local civilian market segment. The following table sets forth the breakdown of sales by segment for the nine months ended September 30, 2009 and 2008.

	Nine Months Ended September 30,	
	2009	2008
Local civilian market	\$ 1,640,218	\$ 3,078,661
Export civilian market	763,342	823,342
Local military market	6,089,191	4,022,907
Export military market	4,450,811	4,324,725
	\$ 12,943,562	\$ 12,249,635

Gross Profit. Gross profit for the nine months ended September 30, 2009 was \$2,960,570 compared to \$2,892,736 for the nine months ended September 30, 2008. This increase in gross profit is primarily attributable to the increase in revenues from sales. Our gross profit margin for the nine months ended September 30, 2009 decreased to 22.9% compared to 23.6% for the nine months ended September 30, 2008.

Selling Expenses. Selling expenses for the nine months ended September 30, 2009 decreased by 35.4% to \$485,540 from \$751,700 for the nine months ended September 30, 2008. The decrease in our selling expenses was attributable primarily to lower commissions due to a different mix of products sales and a decrease in sales through agents.

General and Administrative Expenses. General and administrative expenses for the nine months ended September 30, 2009 decreased by 9.5% to \$1,537,421 from \$1,699,434 for the nine months ended September 30, 2008. This decrease is primarily attributable to a decrease in professional services expenses.

25

Compensation from Israeli Government. In the second quarter of 2009, Export Erez and Mayotex received a total of \$223,913, as compensation from the Israeli Government under the Property tax and compensation payments for war damages regulations, for the loss of employment days and potential revenues during the last two years due to the security and military situation in the area in which Export Erez and Mayotex are located. We recorded \$4,452 of income due to exchange rate differences in the third quarter with respect to the compensation received from the Israeli Government.

Financial (Expenses) Income, Net. We had financial expenses, net of \$38,423 for the nine months ended September 30, 2009 compared to financial expenses, net of \$158,295 for the nine months ended September 30, 2008. Our financial expense is primarily due to the change in the U.S. dollar exchange rate versus the NIS, which resulted in a loss of \$97,570 for the nine months ended September 30, 2009 compared to a loss of \$165,864 for the nine months ended September 30, 2008.

Other Income (Expense), Net. We had other income, net for the nine months ended September 30, 2009 of \$293,204 as compared to other expense, net of \$126,483 for the nine months ended September 30, 2008. Our other income in the nine months ended September 30, 2009 is mainly attributable to revaluation of funds in respect of employee rights upon retirement of \$111,570, a gain derived from sales of tradable securities of \$33,512 and an unrealized gain of \$148,122 on tradable securities. Our other expense in the nine months ended September 30, 2008 is mainly attributable to a \$63,654 loss derived from sales of tradable securities and a \$101,198 unrealized loss on tradable securities offset by gain from sales of property, plant and equipment of \$38,369.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

Income Tax Expense. Our income tax expense for the nine months ended September 30, 2009 was \$341,348 compared to income tax expense of \$210,756 for the nine months ended September 30, 2008. The increase in income tax expense was mainly due to the increase in our income before income taxes in the nine months ended September 30, 2009. During the nine months ended September 30, 2008 the Company recorded additional income tax liability in respect of prior years under tax assessment of Israeli subsidiaries and for non-deductible expenses for tax purposes.

Net Income (Loss) Before Extraordinary Income. Net income before extraordinary income for the nine months ended September 30, 2009 was \$1,079,407 as compared to net loss before extraordinary income for the nine months ended September 30, 2008 of \$53,932.

Extraordinary Income. We did not record any extraordinary income for the nine months ended September 30, 2009. For the nine months ended September 30, 2008, we recognized and recorded extraordinary income of \$4,930,065, net of tax, from payments to our three subsidiaries, Export Erez, Mayotex and Achidatex, by the Israeli Government with respect to their evacuation from the Gaza Industrial Zone.

Net Income Attributable to Noncontrolling Interest. For the nine months ended September 30, 2009, we did not recognize or record any income attributable to noncontrolling interest, compared to net income of \$36,112 attributable to noncontrolling interest for the nine months ended September 30, 2008, which is with respect to a subsidiary that is now wholly-owned.

Net Income. In the nine months ended September 30, 2009 our consolidated net income attributable to controlling interest was \$1,079,407, compared to \$4,840,021 for the nine months ended September 30, 2008. Our 2008 net income was attributable to the net extraordinary income of \$4,930,065 we recorded as a result of the compensatory payments we received from the Israeli government.

Liquidity and Capital Resources

As of September 30, 2009, we had \$3,875,330 in cash and cash equivalents, \$2,277,110 in trading securities and working capital of \$10,575,914 as compared to \$1,719,921 in cash and cash equivalents, \$2,384,727 in trading securities and working capital of \$10,088,528 at December 31, 2008.

Most of our large contracts, which are Israeli Governmental contracts, are supported by letters of credit. As a result, we believe that we have limited exposure to doubtful accounts receivables. We have strived to balance our accounts payable and accounts receivable. We believe that we have sufficient working capital and borrowing capability to sustain our current level of operations for the next twelve months.

26

Subject to an unexpected growth in inventories as a result of future growth in sales and to a significant change in raw material prices, we intend to use our cash flow from operations for the acquisition of companies or equipment to expand our capabilities.

We anticipate that our research and development expenses in 2009 will total approximately \$90,000.

On October 30, 2008, our Board of Directors authorized a stock repurchase program, which authorizes the use of up to \$450,000 for the purchase of shares of common stock of our company over a period of nine months. We did not purchase any shares as part of this program, but we purchased 1,050,000 shares from our former minority shareholders in December 31, 2008 in connection with our purchase of their minority interests.

Cash Flows

The following table summarizes our cash flows for the periods presented:

	Nine months ended	
	September 30, 2009	September 30, 2008
Net cash provided by (used in) operating activities	\$ 1,587,773	\$ (641,625)
Cash provided by extraordinary items	-	4,930,065
Net cash provided by (used in) investing activities	2,042,210	(2,168,942)
Net cash used in financing activities	(1,695,666)	(174,027)

	Nine months ended	
Net increase in cash and cash equivalents	2,155,409	1,314,094
Cash and cash equivalents at beginning of period	1,719,921	1,120,054
Cash and cash equivalents at end of period	3,875,330	2,434,148

Net cash provided by operating activities was \$1,587,773 for the nine months ended September 30, 2009 as compared to \$641,625 used in operating activities in the nine months ended September 30, 2008. This was primarily provided from net income of \$1,079,407, a decrease in accounts receivable of \$429,389, a decrease in inventories of \$504,660 and a decrease in trading securities of \$276,488, offset by a decrease in accounts payable of \$227,654 and a decrease in other current liabilities of \$689,791.

Net cash provided by investing activities was \$2,042,210 for the nine months ended September 30, 2009 as compared to \$2,168,942 net cash used in the nine months ended September 30, 2008. During the nine months ended September 30, 2009, \$3,000,000 was provided from the redemption of bank deposits, \$52,189 was provided from the sale of fixed assets, \$91,118 was used to purchase fixed assets and \$918,861 was used for the purchase of a business.

Net cash used in financing activities was \$1,695,666 for the nine months ended September 30, 2009 as compared to \$174,027 net cash used in financing activities for the nine months ended September 30, 2008. During the nine months ended September 30, 2009, we incurred additional short-term debt of \$231,278, repaid \$264,388 of long-term debt and paid \$1,200,000 to related parties for the purchase of their minority interest in Achidatex and 1,050,000 of our company's shares held by them.

Foreign Currency Exchange Risk

We develop products in Israel and sell them in Israel, North and South America, Asia, Africa and several European countries. Our sales in Israel are denominated in NIS while most of our export sales are denominated in U.S. dollars. In addition, our labor expenses are primarily paid in NIS while our expenses for raw materials are paid in U.S. dollars and Euros. As a result, our financial results could be affected by factors such as changes in foreign currency exchange rates or weak economic conditions in foreign markets.

27

Our foreign currency exposure with respect to our sales is mitigated, and we expect it will continue to be mitigated, through salaries, materials and support operations, in which part of these costs are denominated in NIS.

In the year ended December 31, 2008, the inflation rate in Israel was 3.8% and the NIS appreciated in relation to the U.S. dollar at a rate of 1.14%, from NIS 3.846 per \$1 on December 31, 2007 to NIS 3.802 per \$1 on December 31, 2008. In the nine months ended in September 30, 2009 inflation in Israel was 3.42% while the NIS appreciated in relation to the U.S. dollar at a rate of 1.16%. If future inflation in Israel exceeds the devaluation of the NIS against the U.S. dollar or if the timing of such devaluation lags behind increases in inflation in Israel, our results of operations may be materially adversely affected.

We did not enter into any foreign exchange contracts or hedging transactions in the nine months ended September 30, 2009.

Inflation and Seasonality

We do not believe that our operating results have been materially affected by inflation during the preceding two years. There can be no assurance, however, that our operating results will not be affected by inflation in the future. Our business is subject to minimal seasonal variations with slightly increased sales historically in the second and third quarters of fiscal year.

Off-balance Sheet Arrangements

None.

Contractual Obligations

The following table summarizes our contractual obligations and commercial commitments as of September 30, 2009.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

Contractual Obligations	Payments due by Period				
	Total	Less than 1 year	2 -3 years	4 -5 years	more than 5 years
Long-term debt obligations	\$ 637,491	\$ 299,016	\$ 294,056	\$ 44,419	\$ -
Estimated interest payments on long-term debt obligations	49,965	28,779	19,898	1,288	-
Operating lease obligations	233,056	187,553	45,503	-	-
Total	\$ 920,512	\$ 515,348	\$ 359,457	\$ 45,707	\$ -

Critical Accounting Policies

A discussion of our critical accounting policies was provided in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2008. There were no significant changes to these policies in the nine months ended September 30, 2009.

28

Recent Accounting Pronouncements

See Note 1G. to the unaudited condensed consolidated financial statements included in Part I, Item 1, *Financial Statements*, of this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

We do not believe that we have any material exposure to interest rate risk other than sensitivity to prevailing interest rates that may affect income from our cash deposits and marketable securities.

Foreign Exchange Risk

Most of our sales are currently denominated in dollars, while the majority of our operating expenses are incurred in foreign currencies, principally the NIS. As a result, the decrease in the value of the U.S. dollar against these currencies has resulted in increased expenses for our company. In 2006, 2007 and 2008, the U.S dollar depreciated against the NIS by approximately 8%, 9%, 1%, respectively. In the first nine months of 2009, the U.S dollar depreciated by approximately 1.2% in relation to the NIS.

Item 4T. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities Exchange Act of 1934, or the Exchange Act, reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our chief executive officer and chief financial officer to allow timely decisions regarding required disclosure. Our management, including our chief executive officer and chief financial officer, conducted an evaluation of the effectiveness of our disclosure controls and procedures, as defined under Exchange Act Rule 13a-15(e), as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, our chief executive officer and chief financial officer have concluded that, as of such date, our disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting that occurred during the quarter ended September 30, 2009 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II OTHER INFORMATION:

Item 1. Legal Proceedings

On February 11, 2009, a lawsuit was filed in the Jerusalem District Court against our subsidiaries, Export Erez USA Inc. and Achidatex, and its chief executive officer, Mr. Avraham Hazor. The suit alleges that Achidatex materially breached its agreement with the plaintiff, dated February 22, 2000, relating to the development of inflatable mine-field crossing enabling sandals, because Achidatex allegedly failed to register patents for the technology worldwide and only registered patents in the United States. The plaintiff further claims that the defendants, jointly and severally, committed a breach of trust. The plaintiff is seeking damages in the amount of NIS 10 million (approximately \$2.7 million), and claiming all rights in the patent. We believe that the plaintiff's claim is unfounded and that we have substantial legal arguments to oppose the allegations. We have denied any liability under the claims, have sought the dismissal of the claims against Export Erez and Mr. Avraham Hazor because of a lack of privity, have sought to join a third party and have submitted a counterclaim against the plaintiff for funds owed to Achidatex. This matter is currently in its early stages, and we intend to vigorously defend against the claim and to pursue our counterclaim.

29

Item 1A. Risk Factors

Our business may be negatively affected by the current global economic and credit crisis.

The current economic climate and the uncertainty in the global economic conditions resulting from the recent disruption in credit markets pose a risk to the overall economy that could impact customer demand for our products, as well as our ability to manage normal commercial relationships with our customers, suppliers and creditors. If the current situation deteriorates significantly, our business could be negatively impacted, including such areas as reduced demand for our products from a slow-down in the general economy, or supplier or customer disruptions resulting from tighter credit markets.

Reliance on a Limited Number of Key Personnel.

Our success has been significantly dependent on the services of our former chairman and chief executive officer, Joseph Postbinder. Mr. Postbinder passed away in June 2009 and we appointed Mrs. Meira Postbinder to succeed him as the chairman of our board of directors. Mr. Baruch Tosh, our president, was appointed as Chief Executive Officer. The death of Mr. Joseph Postbinder could have a material adverse effect on our business.

There have been no other material changes to our Risk Factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2008.

Item 6. Exhibits

Exhibits

- 31.1 Certification of Chief Executive Officer pursuant to Rule 13a-14(a) of the Securities Exchange Act, as amended.
- 31.2 Certification of Chief Financial Officer pursuant to Rule 13a-14(a) of the Securities Exchange Act, as amended.
- 32.1 Certification of Chief Financial Officer pursuant to Rule 13a-14(a) of the Securities Exchange Act, as amended.
- 32.2 Certification of Chief Financial Officer pursuant to 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

SIGNATURE

In accordance with the requirements of the Exchange Act, the registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
