

DEFENSE INDUSTRIES INTERNATIONAL INC
Form 10-Q
November 21, 2011

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 for the quarterly period ended September 30, 2011

Transition report pursuant to Section 13 or 15(d) of the Exchange Act for the transition period from _____ to _____

Commission file number: 0-30105

DEFENSE INDUSTRIES INTERNATIONAL, INC.
(Exact Name of Registrant as Specified in Its Charter)

Nevada
(State or Other Jurisdiction of
Incorporation or Organization)

84-1421483
(I.R.S. Employer
Identification No.)

12 Hamefalsim Street, Petach Tikva 49514, Israel
(Address of Principal Executive Offices)
(011) 972-3-7168383
(Registrant's Telephone Number, Including Area Code)
N/A
(Former Name, Former Address and Former Fiscal Year,
if Changed Since Last Report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is large accelerated filer, an accelerated filer, or a non-accelerated filer. See of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-Q

Large accelerated filer

Accelerated filer

Non-accelerated filer

(Do not check if smaller reporting
company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of November 12, 2011 the issuer had 28,150,535 shares of Common Stock, par value \$0.0001, outstanding.

DEFENSE INDUSTRIES INTERNATIONAL, INC.
AND SUBSIDIARY COMPANIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2011 AND 2010 (UNAUDITED)

NOTE 1 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

- A. The accompanying unaudited interim consolidated financial statements as of September 30, 2011 and for the nine month period then ended (the “interim financial statements”) were prepared in a condensed form in accordance with the instructions for Form 10-Q and, therefore, do not include all disclosures necessary for a complete presentation of financial condition, results of operations, changes in equity, cash flows and all the data and notes which are required when preparing annual financial statements, in conformity with generally accepted accounting principles accepted in the United States of America.
- B. The accounting principles used in the presentation of the interim financial statements are consistent with those principles used in the presentation of the latest annual financial statements. All significant accounting policies have been applied consistently with the year ended December 31, 2010.
- C. The preparation of the interim financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates. In the opinion of management, all adjustments considered necessary for fair presentation of the interim financial statements have been included. The results of operations for the nine month period ended September 30, 2011, are not necessarily indicative of the results that may be expected for the year ending December 31, 2011. The interim financial statements should be read in conjunction with the Company’s annual financial statements as of December 31, 2010 and for the year then ended and the accompanying notes thereto.

D. Principles of Consolidation

The interim financial statements include the accounts of Defense Industries International, Inc., its wholly owned subsidiaries, Export Erez USA, Inc., Rizzo Inc. (doing business as Owen Mills Company), Export Erez, Ltd. (“Export Erez”), Mayotex, Ltd. (“Mayotex”), Mayosar Technologies Ltd. (“Mayosar”), Philcar Ltd. (“Philcar”), and Achidatex Nazareth Elite (1977) Ltd. (“Achidatex”). In addition, the Company holds 82% of the issued and outstanding share capital of Isorad IR Optics Ltd. (“Optics”).

All significant inter-company accounts and transactions have been eliminated in consolidation.

DEFENSE INDUSTRIES INTERNATIONAL, INC.
AND SUBSIDIARY COMPANIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2011 AND 2010 (UNAUDITED)

NOTE 1 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Per share data

Basic net income per share of common stock is computed based on the weighted average number of shares of common stock outstanding during the period. Diluted net income per share of common stock is computed based on the weighted average number of shares of common stock and common stock equivalents outstanding during the period. For each of the nine month periods ended September 30, 2011 and 2010 common stock equivalents to purchase 202,500 shares of common stock were not included in diluted income (loss) per share because their effect is anti-dilutive.

F. Fair value

The Company categorizes the fair value of its financial assets and liabilities according to the hierarchy of Financial Accounting Standard Board ("FASB") Accounting Standards Codification ("ASC") No. 820 "Fair Value Measurements and Disclosures", which establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements.

FASB ASC 820 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. FASB ASC 820 also requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs, as follows:

Level 1 Quoted prices in active markets for identical assets or liabilities;

Level 2 Quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability; or

Level 3 Unobservable inputs, such as discounted cash flow models or valuations.

The Company's trading securities and bank deposits are measured at fair value based on quoted market prices in active markets for identical assets (Level 1).

The Company's funds in respect to employees' rights upon retirement are measured at fair value based upon unobservable inputs (Level 3).

In addition to the assets and liabilities described above, our financial instruments also include cash, accounts receivable, other receivables, accounts payable, accounts payable to related parties, accrued expenses and other payables. The fair value of these financial instruments was not materially different from their carrying value at September 30, 2011 and December 31, 2010 due to the short-term maturity of these instruments.

DEFENSE INDUSTRIES INTERNATIONAL, INC.
AND SUBSIDIARY COMPANIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2011 AND 2010 (UNAUDITED)

NOTE 1 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Recent accounting pronouncements issued and adopted in the reported period

With the exception of those pronouncements stated below, there have been no recent accounting pronouncements or changes in accounting pronouncements during the nine months ended September 30, 2011, as compared to the recent accounting pronouncements described in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2010, that are of material significance, or have potential material significance, to the Company.

In June 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-05 for the presentation of comprehensive income thereby amending ASC220, Comprehensive Income. The amendment requires that all non-owner changes in stockholder's equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendment is effective in fiscal years beginning after December 15, 2011 and should be applied retrospectively. These amendments will not impact the presentation of our financial statements upon adoption.

In May 2011, the FASB issued ASU No. 2011-04 thereby amending ASC 820, Fair Value Measurement, to achieve common fair value measurement and disclosure requirements in U.S. GAAP and International Financial Reporting Standards (IFRS). The amendments are effective in fiscal years beginning after December 15, 2011 and will be applied prospectively. We are currently evaluating the impact on our financial statements of adopting these amendments to ASC 820 and cannot estimate the impact of adoption at this time.

In September 2011, the FASB issued ASU No. 2011-08, "Intangibles-Goodwill and Other (Topic 350): Testing Goodwill for Impairment" ("ASU 2011-08"). ASU 2011-08 is intended to simplify how entities, both public and nonpublic, test goodwill for impairment. ASU 2011-08 permits an entity to first assess qualitative factors to determine whether it is "more likely than not" that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in Topic 350. The more-likely-than-not threshold is defined as having a likelihood of more than 50%. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Although early adoption is permitted, the Company will adopt ASU 2011-08 as of January 1, 2012. Based on the Company's evaluation of this ASU, the adoption of ASU 2011-08 will not have a material impact on the Company's consolidated condensed financial statements.

DEFENSE INDUSTRIES INTERNATIONAL, INC.
AND SUBSIDIARY COMPANIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2011 AND 2010 (UNAUDITED)

NOTE 2 BUSINESS COMBINATION AND CERTAIN TRANSACTIONS

1. On December 21, 2008, Mayosar, through its wholly owned subsidiary, Optics, entered into an agreement (the "Isorad Agreement") to purchase the Germanium Crystals Business of Isorad Ltd. ("Isorad"), an Israeli governmental company. The Isorad Agreement provided for the purchase of certain know-how, equipment, inventories and production activities of Germanium Crystals for lenses used in infra-red night vision system applications. After a period of uncertainty, in August 2010, Mayosar, Optics and Isorad executed an addendum to the 2008 agreement, according to which the parties confirmed the validity of the Isorad Agreement under certain conditions. On December 19, 2010 (the "Effective Date"), the Isorad Agreement was approved and became effective. Pursuant to the Isorad Agreement, Optics is to pay annual royalties to Isorad of 3% out of sales for a period of 15 years commencing the Effective Date of the Isorad Agreement, with a minimum of approximately \$133,000, payable on an annual basis during the first 18 months or until the date of completion of the transfer of the site of the Germanium Crystals Business, whichever is earlier (this payment includes a reimbursement of costs for the usage of the site and equipment in this initial period), and approximately \$53,000 per year during the years following the above initial period. Isorad also has the right to acquire 5% of the share capital of Optics on a fully diluted basis for a nominal value during an original 24-month period beginning on the Effective Date. Such right was extended until January 1, 2012. In the event of an allotment of shares representing 5% of Optics' share capital to Isorad upon the exercise by Isorad of its option, Optics will issue additional shares of Optics to Mayotex on a pro rata basis, in order for Mayotex to retain an 82% interest in Optics' share capital.

Management performed a purchase price allocation for the purchase of Isorad IR based on the fair value of the assets acquired and liabilities assumed at the date of acquisition, and concluded upon the advice of an independent valuator that no intangible assets should be recognized and the excess purchase price over the fair value of the net assets purchased should be allocated to goodwill at the date of acquisition.

The following table summarizes the consideration transferred and estimated fair values of the assets acquired and liabilities assumed at the date of acquisition:

Cash payment to Isorad (in the form of a deposit paid in January 2009)	\$698,570
Minimum guaranteed royalty payments	750,000
Total consideration	1,448,570
Recognized amounts of identifiable assets acquired and liabilities assumed:	
Current assets (including cash and cash equivalents of \$82,947)	196,539
Property and equipment	152,284
Goodwill	1,267,000
Accounts payable and other current liabilities	(92,253)
Deferred income taxes liabilities	(75,000)
Total identifiable net assets acquired	\$1,448,570

NOTE 2 BUSINESS COMBINATION AND CERTAIN TRANSACTIONS (Continued)

Management has identified certain changes in circumstance, including a reduction in the volume of operations of Isorad IR and a decrease in sales following the acquisition as triggering events for applying a goodwill impairment test that would, more likely than not, reduce the fair value of Isorad IR below the booked amount, based on the provisions of ASC 350-20-35-28.

Management applied the Net Realized Value (NRV) approach to estimate the fair value of Isorad IR and recognized impairment losses of \$549,933 and \$ 141,312 for goodwill and fixed assets, respectively. Additionally, we wrote off certain current assets of Isorad IR in aggregate amount of \$ 72,299.

The Companies are in the process of signing a second addendum to the Isorad agreement that will provide that the royalty payment will be postponed to a period that will start on January, 1, 2012 and that at the end of 2012, Isorad could under certain circumstances, determine to end the relationship between the parties, subject to a final payment of approximately \$150,000.

Management is of the opinion that under the circumstances, including the recognition of impairment losses for long lived assets and goodwill, it is more likely than not that the Company will determine to make a final payment of approximately \$150,000. Accordingly, the Company made a provision for such amount in our financial statements.

2. On February 22, 2010, Mayotex entered into a contract for the acquisition of the business of Vacutec Industries Ltd., a manufacturer of fiberglass for the automotive industry. Pursuant to the agreement Mayotex acquired certain fixed assets, inventories, customer lists and backlog in consideration of \$23,000, of which \$13,243 was paid prior to December 31, 2010.

Management allocated the purchase price to the following assets on the basis of their fair value:

Fixed assets	\$22,205
Inventory	1,830
Customer lists and backlog	28,445

Accordingly the excess fair value of the assets purchased over the purchase price (bargain purchase gain), in the amount of \$25,994 was recognized in the income statement at the date of the acquisition.

3. On May 3, 2011, Mayotex entered into an agreement with Rabintex Industries Ltd. ("Rabintex"), to purchase Philcar Ltd. ("Philcar"), a company that specializes in equipping and protecting vehicles, for an amount of \$235,502. Under the terms of the agreement, Mayotex may pay Rabintex additional compensation of up to \$160,728, depending on the amount of orders that Philcar receives from certain customers during the nine-month period following the closing of the transaction.

NOTE 2 BUSINESS COMBINATION AND CERTAIN TRANSACTIONS (Continued)

The following table summarizes the consideration transferred and estimated fair values of the assets acquired and liabilities assumed at the date of acquisition:

Cash payment	\$235,502
Contingent consideration liability at fair value	133,950
Total consideration	369,452
Recognized amounts of identifiable assets acquired and liabilities assumed:	
Current assets	197,711
Property and equipment	100,883
Backlog	84,823
Contractor Number	129,814
Goodwill	383,119
Accounts payable and other current liabilities	(526,898)
Total identifiable net assets acquired	\$369,452

The allocation of purchase price for backlog, contract number and goodwill are provisional pending receipt of the final valuations of those assets. These assets have an expected future life of 2.67 years for the backlog and indefinite for all the others.

Amortization cost for the five months ended September 30, 2011 for the backlog was \$15,000.

The unaudited pro forma information below assumes that the acquisition of the Philcar business was consummated on January 1, 2010, and includes the effect of amortization of intangible assets from that date. This data is presented for information purposes only and is not necessarily indicative of the results of future operations or the results that would have been achieved had the acquisition taken place at those dates.

The pro forma information is as follows:

NOTE 2 BUSINESS COMBINATION AND CERTAIN TRANSACTIONS (Continued)

4. On July 11, 2011, Achidatex entered into an agreement to purchase the personal protection activity of Rabintex Ltd. (the "Agreement"). The personal protection activity to be acquired includes Rabintex's activities in respect to the development, manufacture, assembly and marketing of protection products, mainly based on lining of ballistic clothing and its manufacture of dry storage.

Achidatex agreed to purchase the activities free from any warranty, debt, lien, claim or third party rights and on "as is" basis. Achidatex also agreed to take all action reasonably necessary to complete project Italy for the supply of bullet proof vests to the Italian army, which is encumbered by a lien to Bank Hapoalim. Achidatex has the right to decide whether to employ the employees of Rabintex after the latter of (i) the date of approval of the Agreement by the banks whose loans are secured by the assets of Rabintex (the "Banks"), or the court enables the sale; (ii) approval of the Agreement by the Anti-Trust Authority; or (iii) the supply of documents and approvals required by Achidatex pursuant to the conditions precedent to closing the Agreement (the "Determination Date"). Rabintex agreed to change its name so as to no longer include "Rabintex" within 30 days of the Determination Date. Rabintex also agreed to keep confidential any information related to the personal protection activity and to not compete with Achidatex for a period of three years from the date of receipt of the last payment.

The consideration to be paid by Achidatex is NIS 42 million (approximately \$12.3 million) together with V.A.T. as required by law and 10% of the issued and outstanding share capital of the Company (2,815,053 shares of common stock). The consideration is to be paid as follows: (i) NIS 9 million (approximately \$2.6 million) to be paid to Rabintex in installments; (ii) NIS 14.5 million (approximately \$4.25 million) to be paid directly to the Banks; (iii) NIS 6.5 million (approximately \$1.9 million) to be paid to the accounts of Rabintex at the Banks for the purchase of real estate; and (iv) Achidatex agreed to take all action reasonably necessary to enable the collection of the accounts receivable under a project in Italy for the Italian army. Payment is to be guaranteed by a NIS 15 million (approximately \$4.4 million) lien on the personal protection activity assets purchased, including a floating lien on the inventory purchased in the framework of the Agreement, and a writ of guarantee from the Company's Export-Erez and Mayotex Ltd. subsidiaries. As of September 30, 2011 not all of the conditions to closing that are mentioned above had been met.

NOTE 4 SEGMENT INFORMATION AND CONCENTRATIONS

The Company has two strategic business segments: sales to the civilian market and the military market.

The military and the civilian markets are further broken down between Israel (local) and other (export) sales in order to better analyze trends in sales and profit margins. The Company does not allocate assets between segments because assets are used in more than one segment and any allocation would be impractical.

A. Sales and income from operations:

NOTE 5 COMMITMENTS AND CONTINGENCIES

A. On February 11, 2009, a lawsuit was filed in the Jerusalem District Court, or the Court, against our subsidiary, Achidatex Nazareth Elite (1977) Ltd., or Achidatex, Mr. Avraham Haztor, the then chief executive officer of Achidatex, and our subsidiary Export Erez USA Inc., or Export Inc. Our subsidiary Export Erez Ltd., or Export Erez, was subsequently added as a defendant in the action. The suit alleges that Achidatex materially breached its February 22, 2000 agreement with the plaintiff, relating to the development of inflatable mine-field crossing enabling sandals, by failing to register patents for the technology underlying the sandals, worldwide as it only registered patents in the United States. The plaintiff further claims that the defendants, jointly and severally, committed a breach of trust. The plaintiff is seeking damages in the amount of NIS 10 million (approximately \$2.7 million). We filed a statement of defense rejecting the plaintiff's claims and asserted a claim against the plaintiff and others for a declaratory judgment that the plaintiff breached his contractual undertakings towards Achidatex. The petition to consolidate the counter-claim with the plaintiff's claim was ordered by the Court and the claims are now being heard together. Our subsidiaries filed a statement of defense and the proceedings are currently at the stage at which the parties have submitted affidavits stating evidence to support their case. We believe that the risk under the above lawsuit is not material to the business of our subsidiaries. We intend to vigorously defend our position against the lawsuit. Recently the plaintiff requested court permission to amend its statement of claims to increase the amount of damages sought to NIS 20 million (approximately \$5.4 million). This motion was rejected recently by the court.

B. On July 12, 2010, a lawsuit was filed in the Tel-Aviv Regional Labor Court, or the Labor Court against our company, our subsidiaries, Mayotex Ltd, or Mayotex and Export Erez, and against an officer of our company, by a former employee. The plaintiff alleged that we breached her employment agreement and violated certain Israeli labor related legislation by not paying her severance payment in lieu of vacation, recuperation payments, contribution to a study fund, payments due during a prior notice period and compensation for unpaid overtime. The plaintiff also claimed that she was the subject of sexual harassment and consequently we violated certain applicable Israeli legislation. The plaintiff sought damages of \$414,775. On June 6, 2011, we entered into a settlement agreement with the former employee in which we paid a total of NIS 244,856 NIS (approximately \$71,700) in full settlement of her claims.

On October 24, 2011, Mrs. Tzipi Moldovan, a director and former employee of the company, filed an action against the company with the labor court in Be'er-Sheva, Israel. Ms. Moldovan alleged that the company is improperly withholding payments and certain documents that she requires in order to obtain certain rights allegedly due to her as a former employee of the company. The company has until November 16, 2011 to file an appeal and intends to vigorously oppose the claim as it believes that it has fully complied with the applicable law. Management believes that the Company's exposure in this matter is not material to the business of the Company.

NOTE 6 SUBSEQUENT EVENTS

A. During 2004, the Israeli Government decided to evacuate persons and companies from the Erez Industrial Zone in the Gaza Strip where part of the Company's operations was located. The Company evacuated its remaining operations from the Erez Industrial Zone in August 2005. The Israeli Government's decision to evacuate the Gaza Strip was supported by certain resolutions as well as the Israeli Evacuation Compensation Law (2005) that was adopted by the Israeli Parliament to compensate the Israeli Gaza Strip settlers as well as business and property owners in the Gaza Strip and in the Erez Industrial Zone. In February 2006, three of the Company's subsidiaries, Export Erez Ltd., Mayotex Ltd. and Achidatex Nazareth Elite (1997) Ltd. filed claims for compensation pursuant to the Evacuation Compensation Law. During the first quarter of 2008 the Company received compensation of \$4,910,541, net of tax from the Israeli Government pursuant to the Evacuation Compensation Law.

In November 2011, three of the Company's subsidiaries, Export Erez, Mayotex and Achidatex, filed compensation claims with the Israeli Government as a result of an amendment of the Evacuation Compensation Law. As of September 30, 2011, the Company could not estimate when or if it would receive further compensation based on such claims.

B. On October 30 the Israeli Government approved the recommendations of the tax chapter of the Trachtenberg committee report (the "recommendations").

The recommendations include an increase to 25% instead of 23% at 2012. The recommendations require legislative process to be completed. Legislative process has not yet completed at the date of approval of the condensed interim September 30, 2011, and there is no certainty that the future is complete in the format approved by the government or in general, therefore the government's decision not significant effect on the condensed interim financial statements of the Company as of September 30, 2011.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion should be read in conjunction with the condensed consolidated financial statements and notes included in Item 1 of Part I of this Quarterly Report and the audited consolidated financial statements and notes thereto, and Management's Discussion and Analysis of Financial Condition and Results of Operations for the Year Ended December 31, 2010 contained in our 2010 Annual Report on Form 10-K. The discussion and analysis which follows may contain trend analysis and other forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 which reflect our current views with respect to future events and financial results. These include statements regarding our earnings, projected growth and forecasts, and similar matters that are not historical facts.

We remind shareholders that forward-looking statements are merely predictions and therefore are inherently subject to uncertainties and other factors that could cause the future results to differ materially from those described in the forward-looking statements.

The following is management's discussion and analysis of certain significant factors which have affected our financial position and operating results during the periods included in the accompanying consolidated financial statements, as well as information relating to the plans of our current management.

Overview

We are a manufacturer and global provider of personal military and civilian protective equipment and supplies. Our products are used by military, law enforcement, border patrol enforcement, and other special security forces, corporations, non-governmental organizations and individuals throughout the world. Our main products include body armor, bomb disposal suits, bullet proof vests and jackets, ballistic wall coverings, bullet proof ceramic and polyethylene panels, V.I.P. car armoring and lightweight armor kits for vehicles, personal military equipment, dry storage systems, liquid logistic products, tents and other camping and travel gear.

As a supplier of products to the civilian and military markets, our business is affected by economic conditions. The volatile economic conditions of 2010 have continued into 2011 and slowed down our sales process and complicated our ability to conduct transactions. The economic climate and ongoing uncertainty in global economic conditions could impact the ability of our customers, including governmental entities, to make capital expenditures, which would affect their ability to purchase our products. Our business and financial performance, including collection of our accounts receivable, realization of inventory and recoverability of assets (including investments), may be adversely affected if economic conditions continue to be volatile or weaken further. Our profitability may also be adversely affected by our fixed costs and the possibility that we would be unable to scale back other costs within a time frame sufficient to match any decreases in revenue relating to changes in market and economic conditions.

We develop our products in Israel and sell them in Israel, North and South America, Asia, Africa and several European countries. Our sales in Israel are denominated in NIS, while most of our export sales are denominated in U.S. dollars. Under U.S. GAAP we report all of our sales in U.S. dollars. Accordingly, the appreciation of the U.S. dollar against the NIS reduces the U.S. dollar value of our NIS denominated sales, while the depreciation of the U.S. dollar against the NIS increases the U.S. dollar value of our NIS denominated sales.

Our cost of sales and operating expenses are affected in the same manner. Most of our purchases of raw material are made in U.S. dollars, while most of our labor and other operating expenses are in NIS, however, under U.S. GAAP we report our cost of sales and operating expenses in U.S. dollars. Accordingly, the appreciation of the U.S. dollar against the NIS reduces the U.S. dollar value of our NIS denominated cost of sales and operating expenses, while the depreciation of the U.S. dollar against the NIS increases the U.S. dollar value of our NIS denominated cost of sales

and operating expenses.

Exchange rate fluctuations also affect our financial results in other ways. Most of our deposits and a portion of our tradable securities are linked to the rate of exchange between the U.S. dollar and the NIS. Accordingly, a depreciation of the U.S. dollar against the NIS is reflected as comprehensive income in our consolidated statement.

In the three and nine month periods ended September 30, 2011, the NIS appreciated against the U.S. dollar by approximately 8.7% and 4.6%, respectively, and our financial results were negatively impacted. Exchange rates between the U.S. dollar and the NIS fluctuate continuously. Exchange rate fluctuations and especially larger periodic devaluations will have an impact on our profitability and period-to-period comparisons of our results. We cannot assure you that in the future our results of operations will not be materially adversely affected by currency fluctuations.

Material Trends

Local Military Market. In the three and nine month periods ended September 30, 2011, our local military market revenues decreased to \$662,398 and \$2,231,993, respectively, compared to \$1,129,326 and \$3,805,094 for the three and nine month periods ended September 30, 2010. As of November 2, 2011, we had a backlog of firm orders from the Israeli Ministry of Defense of approximately \$500,000 including orders of approximately \$35,000 that we received subsequent to September 30, 2011. In the nine month periods ended September 30, 2011 and 2010, sales to the Israeli Ministry of Defense were approximately \$2,148,418 and \$3,515,281, accounting for 17.9% and 28.2% of our total sales, respectively. Our sales decreased significantly as a result of a decrease in demand from the Israeli Ministry of Defense. We believe that the demand for our products from the Israeli Ministry of Defense will increase during the remainder of 2011 and in 2012.

Export Military Market. Our customers in this market are military and law enforcement organizations mostly in South America, North America, Africa and Europe. In the three and nine month periods ended September 30, 2011, our export military market revenues were \$1,635,699 and \$4,901,516, respectively, compared to \$3,625,338 and \$4,564,250 for the three and nine month periods ended September 30, 2010. During the third quarter of 2011 our sales decreased significantly, as a result of a decrease in sales to South America. Our customers' budgets fluctuate, and as a result, we cannot identify definite trends in these markets.

The following table presents details of our export military sales during the three and nine month periods ended September 30, 2011 and 2010:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Sales to South America	\$185,558	\$2,825,282	\$1,645,554	\$3,292,725
Sales to North America	44,911	---	77,835	7,356
Sales to Europe and Asia	175,374	190,264	691,154	625,116
Sales to Africa	1,229,857	636,792	2,486,973	639,053
Total Export Military Sales	\$1,635,700	\$3,652,338	\$4,901,516	\$4,564,250

Local Civilian Market. In the three and nine month periods ended September 30, 2011, our local market revenues were \$1,025,398 and \$2,412,137, respectively, compared to \$1,311,624 and \$2,996,771 for the three and nine month periods ended September 30, 2010. The decrease in revenues reflects decreased sales of armored vehicles for civilian purposes.

Export Civilian Market. In the three and nine month periods ended September 30, 2011, our export market revenues increased to \$492,425 and \$2,457,051, respectively, compared to \$488,141 and \$1,096,859 for the three and nine month periods ended September 30, 2010. The increase in revenues reflects increase sales of armored vehicles for civilian purposes.

The following table sets forth the breakdown of sales by segment for the three and nine month periods ended September 30, 2011 and 2010.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Local civilian market	\$1,025,398	\$1,311,624	\$2,412,137	\$2,996,771
Export civilian market	492,425	488,141	2,457,051	1,096,859
Local military market	662,398	1,129,326	2,231,993	3,805,094
Export military market	1,635,699	3,652,338	4,901,516	4,564,250
Total	\$3,815,920	\$6,581,429	\$12,002,697	\$12,462,974

Backlog. We had approximately \$3.2 million of unfilled customer orders at September 30, 2011, compared to \$3.3 million of unfilled customer orders at September 30, 2010. Of our \$3.2 million of unfilled customer orders at September 30, 2011, approximately \$0.4 million was attributable to orders from the Israeli Ministry of Defense, approximately \$1 million was attributable to orders from military customers in South America, approximately \$0.65 million was attributable to orders from military customers in Africa and approximately \$1 million was attributable to the local civilian market. The decline in our backlog is primarily attributable to a decrease in orders from the Israeli Ministry of Defense.

The Sarino Agreement

On December 21, 2008, Mayosar, through its wholly owned subsidiary, Optics, entered into an agreement (the "Isorad Agreement") to purchase the Germanium Crystals Business of Isorad Ltd. ("Isorad"), an Israeli governmental company. The Isorad Agreement provided for the purchase of certain know-how, equipment, inventories and production activities of Germanium Crystals for lenses used in infra-red night vision system applications. After a period of uncertainty, in August 2010, Mayosar, Optics and Isorad executed an addendum to the 2008 agreement, according to which the parties confirmed the validity of the Isorad Agreement under certain conditions. On December 19, 2010 (the "Effective Date"), the Isorad Agreement was approved and became effective. Pursuant to the Isorad Agreement, the effective date Optics is to pay annual royalties to Isorad of 3% out of sales for a period of 15 years commencing the Effective Ddate of the Isorad Agreement , with a minimum of approximately \$133,000, payable on an annual basis during the first 18 months or until the date of completion of the transfer of the site of the Germanium Crystals Business, whichever is earlier (this payment includes a reimbursement of costs for the usage of the site and equipment in this initial period), and approximately \$53,000 per year during the years following the above initial period. Isorad also has the right to acquire 5% of the share capital of Optics on a fully diluted basis for a nominal value during an original 24-month period beginning on the Effective Date. Such right was extended until January 1, 2012. In the event of an allotment of shares representing 5% of Optics' share capital to Isorad upon the exercise by Isorad of its option, Optics will issue additional shares of Optics to Mayotex on a pro rata basis, in order for Mayotex to retain a 82% interest in Optics' share capital .

Management completed the allocation of purchase price of Isorad IR based on the fair value of the assets acquired and liabilities assumed at the date of acquisition, and concluded upon the advice of an independent valuator that no intangible assets should be recognized and the excess purchase price over the fair value of the net assets purchased should be allocated to goodwill at the date of acquisition

Management has identified certain changes in circumstance, including a reduction in the volume of operations of Isord IR and a decrease in sales following the acquisition as triggering events for applying a goodwill impairment test that would, more likely than not, reduce the fair value of Isorad IR below the booked amount, based on the provisions of ASC 350-20-35-28.

Management applied the Net Realized Value (NRV) approach to estimate the fair value of Isorad IR and recognized impairment losses of \$549,933 and \$ 141,312 for goodwill and fixed assets, respectively. Additionally, we wrote off certain current assets of Isorad IR in aggregate amount of \$ 72,299.

We are in the process of signing a second addendum to the Isorad agreement that will provide that the royalty payment will be postponed to a period that will start on January 1,2012 and that at the end of 2012 Isorad could under certain circumstances determine to end the relationship between the parties, subject to a final payment of approximately \$150,000.

Management is of the opinion that under the circumstances, including the recognition of impairment losses for long lived assets and goodwill, it is more likely than not that our company will determine to make a final payment of approximately \$150,000. Accordingly, we made a provision for such amount in our financial statements.

Acquisition of Philcar Ltd.

In March 2011, Mayotex entered into an agreement with Rabintex Industries Ltd., or Rabintex, to purchase Philcar Ltd., or Philcar, a company that specializes in equipping and protecting vehicles, for \$235,502. The transaction was completed on May 3, 2011 and we began to include the operations of Philcar in our financial statements as of May 3, 2011.

Agreement to Acquire the Israel-Based Armoring Business of Rabintex

On July 11, 2011, Achidatex entered into an agreement to purchase the personal protection activity of Rabintex (the "Agreement"). The acquired personal protection activity included Rabintex's activities in respect to the development, manufacture, assembly and marketing of protection products, mainly based on lining of ballistic clothing and its manufacture of dry storage.

Achidatex agreed to purchase the activities free from any warranty, debt, lien, claim or third party rights and on "as is where is" basis. Achidatex also agreed to take all action reasonably necessary to complete a project in Italy for the supply of bullet proof vests to the Italian army, which project is encumbered by a lien to Bank Hapoalim. Achidatex has the right to decide whether to employ the employees of Rabintex after the later of (i) the date of approval of the Agreement by it, the banks whose loans are secured by the assets of Rabintex (the "Banks"), or the court enables the sale; (ii) approval of the Agreement by the Anti-Trust Authority; or (iii) the supply of documents and approvals required by Achidatex pursuant to the conditions precedent to closing the Agreement (the "Determination Date"). Rabintex agreed to change its name so as to no longer include "Rabintex" within 30 days of the Determinative Date. Rabintex also agreed to keep confidential any information related to the personal protection activity and to not compete with Achidatex for a period of three years from the date of receipt of the last payment.

The consideration to be paid by Achidatex is NIS 42 million (approximately \$12.3 million) together with V.A.T. as required by law and 10% of the issued and outstanding share capital of our company (2,815,053 shares of common stock). The consideration is to be paid as follows: (i) NIS 9 million (approximately \$2.6 million) to be paid Rabintex in installments;(ii) NIS 14.5 million (approximately \$4.25 million) to be paid directly to the Banks; (iii) NIS 6.5 million (approximately \$1.9 million) to be paid to the accounts of Rabintex at the Banks for the purchase of real estate; and (iv) Achidatex agreed to take all action reasonably necessary to enable the collection of the amounts

receivable under the project in Italy for the Italian army. Payment is to be guaranteed by a NIS 15 million (approximately \$4.4 million) lien on the personal protection activity assets to be purchased, including a floating lien on the inventory to be purchased in the framework of the Agreement, and guarantees from our Export-Erez and Mayotex Ltd. subsidiaries. The closing has not been completed as yet.

Results of Operations

Key Indicators

Our management views revenues, the sources of our revenues, gross profit margin and the level of inventory compared to revenues as the key performance indicators in assessing our company's financial condition and results of operations. While our management believes that demand for our products is stable, our business is subject to a high degree of volatility because of the impact of geopolitical events and government budgeting.

Three Months Ended September 30, 2011 Compared with Three Months Ended September 30, 2010

Net Revenues. Net revenues for the three months ended September 30, 2011 decreased to \$3.8 from \$6.8 million in the three months ended September 30, 2010, a decrease of 42.4%. The decrease is mainly attributable to a decrease of approximately \$2 million in our export military market segment due to a decrease in demand and a decrease of approximately \$0.76 million in our local military market segment due to decreased sales of armored vehicles for civilian purposes. We expect that our revenues will increase in the next quarter.

The following table sets forth the breakdown of sales by segment for the three months ended September 30, 2011 and 2010.

	Three Months Ended September 30,	
	2011	2010
Local civilian market	\$ 1,025,398	\$ 1,311,624
Export civilian market	492,425	488,141
Local military market	662,398	1,129,326
Export military market	1,635,699	3,652,338
Total	\$ 3,815,920	\$ 6,581,429

Gross Profit. Gross profit for the three months ended September 30, 2011 was \$0.4 million compared to \$1.7 million for the three months ended September 30, 2010. Our gross profit margin for the three months ended September 30, 2011 decreased to 10.4% compared to 25% for the three months ended September 30, 2010. This decrease in gross profit is primarily attributable to the decrease in revenues from sales. The decrease in our gross profit margin is primarily attributable to the 44% decrease in revenues while our cost of sales decreased by only 29.7%, which is primarily due to the relatively stable level of our fixed costs that are not revenue dependent.

Selling Expenses. Selling expenses for the three months ended September 30, 2011 decreased by 13% to \$399,843 from \$460,788 for the three months ended September 30, 2010. The decrease in our selling expenses was primarily attributable to decrease in sales during the quarter.

General and Administrative Expenses. General and administrative expenses for the three months ended September 30, 2011 decreased by 8.5% to \$577,282 from \$631,357 for the three months ended September 30, 2010. The decrease in general and administrative expenses was attributable primarily to a \$198,434 decrease in depreciation expense.

Impairment of Goodwill and Fixed Assets. In the third quarter of 2011, we determined that the fair value of our investment in the Germanium Crystals Business of Isorad Ltd had decreased and as a result, we incurred impairment losses of \$549,933 including a \$141,312 impairment for fixed assets.

Financial (Expenses) Income, Net. We had financial expenses, net of \$282,609 for the three months ended September 30, 2011 compared to financial expenses, net of \$312,870 for the three months ended September 30, 2010. The decrease in our financial expenses is primarily due to the repayment of loans during the period and the decrease in cash credit.

Other Income (Expenses), Net. We had other expenses, net for the three months ended September 30, 2011 of \$13,678 as compared to other income, net of \$10,483 for the three months ended September 30, 2010. Our other expenses in three months ended September 30, 2011 included a \$20,749 loss derived from sales of tradable securities, a \$27,824 unrealized loss on tradable securities and a \$48,746 loss derived from revaluation of funds in respect of employee rights upon retirement. Our other income in the three months ended September 30, 2010 included a \$11,000 gain derived from the revaluation of funds in respect of employee rights upon retirement.

Income Tax Expense (Benefit). Our income tax expense for the three months ended September 30, 2011 was \$17,222 compared to an income tax benefit of \$3,313 for the three months ended September 30, 2010. The increase in income tax expense was mainly due to the increase in our tax assets in the three months ended September 30, 2011.

Net Income (Loss). For the three months ended September 30, 2011, our consolidated net loss attributable to controlling interest was \$1,462,524 compared to consolidated net income attributable to controlling interest of \$324,655 for the three months ended September 30, 2010.

Nine Months Ended September 30, 2011 Compared with Nine Months Ended September 30, 2010

Net Revenues. Net revenues for the nine months ended September 30, 2011 decreased to \$12 million from \$12.5 million in the nine months ended September 30, 2010, a decrease of 3.7%. The decrease is mainly attributable to a decrease in revenues attributable to our local civilian and military market segments. In the nine-month period ended September 30, 2011, revenues from the local civilian market segment decreased by approximately \$0.6 million and revenues from our local military market segment decreased by approximately \$1.6 million. These decreases were partially offset by an increase of \$1.4 million, or 124%, in the export civilian market, reflecting higher demand in this market.

The following table sets forth the breakdown of sales by segment for the nine months ended September 30, 2011 and 2010.

	Nine Months Ended September 30,	
	2011	2010
Local civilian market	\$ 2,412,137	\$ 2,996,771
Export civilian market	2,457,051	1,096,859
Local military market	2,231,993	3,805,094
Export military market	4,901,516	4,564,250
Total	\$ 12,002,697	\$ 12,462,974

Gross Profit. Gross profit for the nine months ended September 30, 2011 was \$2.3 million compared to \$2.5 million for the nine months ended September 30, 2010. This decrease in gross profit is primarily attributable to the decrease in

revenues. Our gross profit margin for the nine months ended September 30, 2011 decreased to 19.2% compared to 20% for the nine months ended September 30, 2010. The decrease is primarily due to the relatively stable level of our fixed costs that are not revenue dependent.

Selling Expenses. Selling expenses for the nine months ended September 30, 2011 increased by 130.7% to \$1,829,851 from \$793,295 for the nine months ended September 30, 2010. The increase in our selling expenses was attributable primarily to sales consulting expenses incurred during the first half of 2011 in an effort to increase future sales and increased commission sales.

General and Administrative Expenses. General and administrative expenses for the nine months ended September 30, 2011 increased by 38.7% to approximately \$3 million from approximately \$2 million for the nine months ended September 30, 2010. The increase in general and administrative expenses was attributable primarily to an increase of \$286,066 in professional fees and an increase of \$38,543 in depreciation expenses, an increase of \$409,780 in wages and other employee benefits and an increase of \$99,265 in office expenses.

Impairment of Goodwill and Fixed Assets. In the third quarter of 2011, we determined that the fair value of our investment in the Germanium Crystals Business of Isorad Ltd had decreased and as a result, we incurred impairment losses of \$549,933 including a \$141,312 impairment for fixed assets.

Financial (Expenses) Income, Net. We had financial expenses, net of \$495,525 for the nine months ended September 30, 2011 compared to financial expenses, net of \$161,190 for the nine months ended September 30, 2010. The increase in our financial expenses is primarily due to the increase in bank commissions and other bank expenses due to the sale of securities in the period, an increase in guarantee commissions and a decrease in financial income due to a decrease in our cash deposits .

Other Income (Expenses), Net. We had other expenses, net for the nine months ended September 30, 2011 of \$71,614 as compared to other income, net of \$100,694 for the nine months ended September 30, 2010. Our other expenses in the nine months ended September 30, 2011 included a charge of \$102,323 relating to the revaluation of funds in respect of employee rights upon retirement, offset in part by a \$20,749 gain derived from sales of tradable securities. Our other income in the nine months ended September 30, 2010 is mainly attributable to the revaluation of funds in respect of employee rights upon retirement of \$20,000, an unrealized gain of \$59,000 on tradable securities and a gain of \$23,000 from the dissolution of our subsidiary, Dragonwear Trading Ltd.

Income Tax Expense (Benefit). Our income tax benefit for the nine months ended September 30, 2011 was \$6,059 compared to income tax expense of \$4,671 for the nine months ended September 30, 2010. The decrease in income tax expense was mainly due to the increase in our tax assets for the nine months ended September 30, 2011.

Net Income (Loss). In the nine months ended September 30, 2011, our consolidated net loss attributable to controlling interest was \$3,462,076, compared to a net loss attributable to controlling interest of \$402,081 for the nine months ended September 30, 2010.

Liquidity and Capital Resources

We assess liquidity in terms of our ability to generate cash to fund our operating and investing activities. Of particular importance to management are cash flows generated by operating activities and cash used for capital and financing expenditures.

In the last few years we have financed our operating needs and capital expenditures through cash flows from our operations, payments from the Israeli government relating to the evacuation by our Erez Export and Mayotex subsidiaries from their manufacturing facilities in the Erez Industrial Zone in the Gaza Strip, bank credits and loans and from existing cash. We expect to continue to finance current and planned operating requirements principally through cash from operations, as well as existing cash resources.

As of September 30, 2011, we had \$1,026,957 in cash and cash equivalents, \$201,152 in trading securities and working capital of \$4 million, as compared to \$3.5 million in cash and cash equivalents, \$2.0 million in trading securities and working capital of \$8 million at December 31, 2010. We believe that we have sufficient working capital and borrowing capability to sustain our current level of operations for the next twelve months. However, we may, from time to time, seek additional funding through a combination of equity and debt financings or from other sources. The economic climate and any uncertainty in the global financial markets resulting from the disruption in credit markets may affect our ability to raise additional funds in the future, if required. There can be no assurance that such additional financing will be available to us, or if available, will be on terms favorable to our company.

Cash Flows

The following table summarizes our cash flows for the periods presented:

	Nine Months Ended	
	September 30, 2011	September 30, 2010
Net cash (used in) operating activities	\$(1,113,806)	\$(761,329)
Net cash (used in) investing activities	(995,688)	(181,130)
Net cash (used in) provided by in financing activities	(407,986)	132,653
Net decrease in cash and cash equivalents	(2,475,504)	(682,373)
Cash and cash equivalents at beginning of period	3,502,461	3,783,631
Cash and cash equivalents at end of period	\$1,026,957	\$3,101,258

Operating activities. Net cash used in operating activities was \$1,113,806 for the nine months ended September 30, 2011 as compared to \$761,329 used in operating activities in the nine months ended September 30, 2010. Net cash used in operating activities in the 2011 period was primarily attributable to our net loss of \$3,462,076 in the period, a decrease in account receivable of \$354,289, a increase in inventories of \$62,276, a increase in other current assets of \$772,226 and a decrease in funds in respects of employee rights of \$90,297, offset by an increase in accounts payable of \$998,795 and a decrease in trading securities of \$1,588,337.

Investing activities. Net cash used in investing activities was \$995,688 for the nine months ended September 30, 2011 as compared to \$181,130 used in investing activities for the nine months ended September 30, 2010. During the nine months ended September 30, 2011, we used \$760,186 to purchase fixed assets and used \$235,502 to purchase Philcar Ltd.

Financing activities. Net cash provided by financing activities was \$407,986 for the nine months ended September 30, 2011 as compared to \$132,653 used in financing activities for the nine months ended September 30, 2010. During the nine months ended September 30, 2011, we incurred \$525,362 of short-term debt and \$317,664 of long-term debt, offset by a reduction of \$214,521 of long-term debt.

Foreign Currency Exchange Risk

We develop products in Israel and sell them in Israel, North and South America, Asia, Africa and several European countries. Our sales in Israel are denominated in NIS while most of our export sales are denominated in U.S. dollars. In addition, our labor expenses are primarily paid in NIS while our expenses for raw materials are paid primarily in U.S. dollars. As a result, our financial results could be affected by factors such as changes in foreign currency exchange rates or weak economic conditions in foreign markets.

Our foreign currency exposure is significant due to the fluctuations of the U.S. dollar against the NIS. We expect our exposure will continue to be significant, since a significant portion of the prices of our raw material purchases, as well as part of our sales are denominated in U.S. dollars.

In the nine month period ended September 30, 2011, the inflation rate in Israel was 2% and the NIS appreciated against the U.S. dollar by 4.6%. If future inflation in Israel exceeds the devaluation of the NIS against the U.S. dollar or if the timing of such devaluation lags behind increases in inflation in Israel, our results of operations may be materially adversely affected.

We did not enter into any foreign exchange contracts in the nine months ended September 30, 2011.

Inflation and Seasonality

We do not believe that our operating results have been materially affected by inflation during the preceding two years. There can be no assurance, however, that our operating results will not be affected by inflation in the future. Our business is subject to minimal seasonal variations with slightly increased sales historically in the second and fourth quarters of fiscal year. We generally experience a slight increase in sales of our camping equipment during the second quarter and in sales of our protective clothing during the fourth quarter.

Off-balance Sheet Arrangements

None.

Contractual Obligations

The following table summarizes our contractual obligations and commercial commitments as of September 30, 2011.

Contractual Obligations	Total	Payments due by Period			
		Less than 1 year	2 -3 years	4 -5 years	more than 5 years
Long-term debt obligations	\$591,158	\$125,313	\$134,861	\$17,824	\$313,160
Estimated interest payments on long-term debt obligations	27,105	13,094	8,821	5,190	---
Operating lease obligations	1,758,384	161,328	465,061	473,278	658,718
Total	2,376,647	299,735	608,743	496,292	971,878

Critical Accounting Policies

A discussion of our critical accounting policies was provided in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2010. There were no significant changes to these policies in the period ended September 30, 2011.

Recent Accounting Pronouncements

See Note 1G to the unaudited condensed consolidated financial statements included in Part I, Item 1, Financial Statements, of this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

We have variable rate loans that we borrow from Israeli banks which are based on the local Prime Rate. Each increase of 1% in the Prime Rate will increase our interest expense approximately \$21,600 on an annualized basis.

Foreign Exchange Risk

Most of our sales are currently denominated in dollars, while the majority of our operating expenses are incurred in foreign currencies, principally the NIS. As a result, the depreciation of the U.S. dollar against these currencies increases the U.S. dollar value of our expenses denominated in such currencies. In the first nine months of 2011, the U.S. dollar depreciated against the NIS by approximately 4.6%.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. As of September 30, 2011, our company's chief executive officer and acting chief financial officer conducted an evaluation regarding the effectiveness of our company's disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Exchange Act. Based upon the evaluation of these controls and procedures, our chief executive officer and acting chief financial officer concluded that our disclosure controls and procedures were not effective as of September 30, 2011, due to the material weaknesses described below in our internal control over financial reporting.

Disclosure Controls and Internal Controls. As provided in Rule 13a-14 of the General Rules and Regulations under the Securities and Exchange Act of 1934, as amended, Disclosure Controls are defined as meaning controls and procedures that are designed with the objective of insuring that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, designed and reported within the time periods specified by the SEC's rules and forms. Disclosure controls include, within the definition under the Exchange Act, and without limitation, controls and procedures to insure that information required to be disclosed by us in our reports is accumulated and communicated to our management, including our chief executive officer and principal financial officer, as appropriate to allow timely decisions regarding disclosure. Internal controls are procedures are designed with the objective of providing reasonable assurance that (1) our transactions are properly authorized; (2) our assets are safeguarded against unauthorized or improper use; and (3) our transactions are properly recorded and reported, all to permit the preparation of our financial statements in conformity with generally accepted accounting principles.

Changes in Internal Control over Financial Reporting

No change in our internal control over financial reporting occurred during the three month period ended September 30, 2011, that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. However, subsequent to March 31, 2011, we made changes to our internal control over financial reporting and took remedial actions, as described below.

Based on Management's evaluation of internal control over financial reporting, including using the Committee of Sponsoring Organizations of the Treadway Commission, or COSO, framework (an integrated framework for the evaluation of internal controls issued by COSO) to identify the risks and control objectives related to the evaluation of our control environment, our chief executive officer and acting chief financial officer concluded that our internal control over financial reporting was ineffective as of September 30, 2011, due to material weaknesses related to our financial statement closing process resulting from insufficient knowledge of our financial staff regarding the application of U.S. GAAP to complex transactions.

We have taken the following steps to remediate the material weaknesses:

we are implementing revised policies and procedures and enhancing our review of complex transactions to ensure consistent application of U.S. GAAP and enhanced internal control over financial reporting; and

We are increasing the level of preparation and review of our financial statements, and in connection therewith, we are implementing additional control procedures as part of our quarter and year-end close processes as well as adding resources in connection with our review of key financial estimates.

PART II - OTHER INFORMATION:

Item 1. Legal Proceedings

On February 11, 2009, a lawsuit was filed in the Jerusalem District Court, or the Court, against our subsidiary, Achidatex Nazareth Elite (1977) Ltd., or Achidatex, Mr. Avraham Haztor, the then chief executive officer of Achidatex, and our subsidiary Export Erez USA Inc., or Export Inc. Our subsidiary Export Erez Ltd., or Export Erez, was subsequently added as a defendant in the action. The suit alleges that Achidatex materially breached its February 22, 2000 agreement with the plaintiff, relating to the development of inflatable mine-field crossing enabling sandals, by failing to register patents for the technology underlying the sandals, worldwide as it only registered patents in the United States. The plaintiff further claims that the defendants, jointly and severally, committed a breach of trust. The plaintiff is seeking damages in the amount of NIS 10 million (approximately \$2.7 million). We filed a statement of defense rejecting the plaintiff's claims and asserted a claim against the plaintiff and others for a declaratory judgment that the plaintiff breached his contractual undertakings towards Achidatex. The petition to consolidate the counter-claim with the plaintiff's claim was ordered by the Court and the claims are now being heard together. Our subsidiaries filed a statement of defense and the proceedings are currently at the stage at which the parties have to submit affidavits stating evidence to support their case. We believe that the risk under the above lawsuit is not material to the business of our subsidiaries. We intend to vigorously defend our position against the lawsuit.

On July 12, 2010, a lawsuit was filed in the Tel-Aviv Regional Labor Court, or the Labor Court against our company, our subsidiaries, Mayotex Ltd. and Export Erez, and against an officer of our company, by a former employee. The plaintiff alleged that we breached her employment agreement and violated certain Israeli labor related legislation by not paying her severance payment in lieu of vacation, recuperation payments, contribution to a study fund, payments due during a prior notice period and compensation for unpaid overtime. The plaintiff also claimed that she was the subject of sexual harassment and consequently we violated certain applicable Israeli legislation. The plaintiff sought damages of \$414,775. On June 6, 2011, we entered into a settlement agreement with the former employee pursuant to which we paid approximately \$71,700 in full settlement of her claims.

On October 24, 2011, Mrs. Tzipi Moldovan, a director and former employee of the company, filed an action against our company with the labor court in Be'er-Sheva, Israel.

Ms. Moldovan alleged that our company is improperly withholding payments and certain documents that she requires in order to obtain certain rights allegedly due to her as a former employee of our company. We have until November 9, 2011 to respond and we intend to vigorously oppose the claim as we believe that we have fully complied with the applicable law. Management believes that the exposure in this matter is not material to the business of our Company.

Item 1A. Risk Factors

We may encounter difficulties in realizing the potential financial or strategic benefits of recent business acquisitions.

In May 2011 we acquired Philcar, a company that specializes in equipping and protecting vehicles, from Rabintex for \$235,502, and in July 2011 we entered into an agreement to purchase the remaining Israel-based armoring business activity of Rabintex.

Acquisitions involve numerous risks, including the following:

- Difficulties in integrating the operations, systems, technologies, products, and personnel of the acquired companies;
- Diversion of management's attention from normal daily operations of the business and the challenges of managing larger and more widespread operations resulting from acquisitions;
- Difficulties in entering markets in which we have no or limited direct prior experience and where competitors in such markets have stronger market positions;
 - Initial dependence on unfamiliar supply chains or relatively small supply partners;
 - Insufficient revenue to offset increased expenses associated with acquisitions; and
- The potential loss of key employees, customers, distributors, vendors and other business partners of the companies we acquire following and continuing after announcement of acquisition plans.

Mergers and acquisitions are inherently risky and subject to many factors outside of our control and no assurance can be given that these acquisitions will be successful and will not materially adversely affect our business, operating results, or financial condition. Failure to manage and successfully integrate these acquisitions could materially harm our business and operating results.

There have been no other material changes to our "Risk Factors" set forth in Item 1A. Of our Annual Report on Form 10-K for the year ended December 31, 2010.
