The Company does not have a Nominating and Governance Committee and of the six directors on the Board, two are employed by IR BioSciences Holdings, Inc. or its subsidiary ImmuneRegen BioSciences, Inc. The Board does not have a formal written policy regarding diversity when reviewing candidates but consider the diversity as well as breadth and wealth of a director's professional experience and how such might compliment the experience currently represented on the Board. The Company places a significant emphasis on identifying directors who have operational, financial and strategic experience. Other factors considered in evaluating a director's qualifications include educational/technical skills; exposure with turnaround situations; leadership roles and experience in the pharmaceutical and biotechnology industries. All directors must have a high ethical character and solid professional reputation; possess sound business judgment and be willing to be engaged in the business of the Board.

Corporate Governance

Our Bylaws provide that the number of members of the Board of Directors shall be determined from time to time by resolution of the directors. Our Board of Directors should neither be too small to maintain the needed expertise and independence, nor too large so as to be inefficient in functioning. The general expectation is that the Board will consist of between two and nine directors, although periodically the Board of Directors will review the appropriate size and mix of the Board of Directors in light of our needs provided, however, that no change shall have the effect of shortening the term of any incumbent director.

Our Board of Directors has determined that Drs. Gordon, Hariri, Staahl and Zeldis are independent under the standards of independence applicable to companies traded on the NYSE Amex, although such standards are not applicable to us since we are quoted on the FINRA OTC Bulletin Board (the "OTCBB") and not listed on the NYSE Amex. In addition, our Board of Directors has made a subjective determination as to each independent director that no relationships exists which, in the opinion of the Board of Directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. However, members of the Board of Directors have recused themselves, and the Board of Directors reserves the right to recusal of any member of the Board of Directors from discussion and deliberation in respect of any particular issue in which there is perceived to be a conflict of interest.

The Board of Directors did not meet during 2009; however, the Board held 4 telephone board meetings during 2009. Each board member attended 75% or more of the aggregate number of the meetings of the board and the committees on which he served. Our policy regarding attendance by members of the Board of Directors at our annual meeting of shareholders is to encourage our directors to attend, subject to their availability for travel at that time.

Committees Of The Board Of Directors

The committees of our Board of Directors consist of an Audit Committee and a Compensation Committee, each of which has the composition and responsibilities as described below. The Board may also establish other committees from time to time to assist in the discharge of its responsibilities.

Our Board of Directors does not maintain a separate Nominating or Corporate Governance Committee. Functions customarily performed by such committees are performed by our Board of Directors as a whole. We are not required to maintain such committees under the applicable rules of the Over-the-Counter Bulletin Board.

Audit Committee.

Our Audit Committee was established in June 2008. The Audit Committee oversees our corporate accounting and financial reporting. Among other things, the Audit Committee determines the engagement of and approves fees paid to our independent registered public accounting firm; monitors the qualifications, independence, activities and performance of our independent registered public accounting firm; approves the retention of our independent registered public accounting firm to perform any proposed and permissible non-audit services; reviews our financial statements and critical accounting estimates; and discusses with management and our independent registered public accounting firm the results of the annual audit and the reviews of our quarterly financial statements. The Audit Committee also reviews the effectiveness of internal controls and the adequacy of our disclosure controls and procedures. In addition, the Audit Committee maintains procedures for the receipt of employee complaints and submissions of concerns regarding accounting or auditing matters. The members of our Audit Committee are Dr. Lance K. Gordon and Dr. Theodore E. Staahl. Our Board of Directors has determined that Dr. Gordon is the Audit Committee Financial Expert as defined under Item 407(d) of Regulation S-K. Our Audit Committee did not meet during 2009; however, the Audit Committee held one telephone meeting during 2009

Table of Contents

Compensation Committee.

Our Compensation Committee was established in June 2008. Our Compensation Committee establishes, amends, reviews and approves the compensation and benefit plans with respect to officers and employees, including determining individual elements of total compensation of the Chief Executive Officer and other executive officers, and reviewing the performance of IR BioSciences Holdings, Inc., its wholly owned subsidiary ImmuneRegen BioSciences, Inc. and its executive officers with respect to these elements of compensation. The Compensation Committee considers a number of metrics, including peer group analyses and tally sheets, as well as the individual performance of the executive officers and the Company as a whole, based on goals set by the Compensation Committee. The Compensation Committee also determines annual retainer, meeting fees, equity awards and other compensation for members of the Board of Directors and administers the issuance of stock options and other awards under our equity incentive plan. The members of the Compensation Committee are Dr. Hariri, Chairman, and Dr. Gordon. Our Compensation Committee did not meet during 2009; however, the Compensation Committee held one telephone meeting during 2009.

The Board of Directors has adopted a written charter for the Audit Committee and the Compensation Committee. Copies of the current charters of our Audit Committee and Compensation Committee are posted on our website at www.immuneregen.com. We will provide to any person without charge, upon request, a copy of such charters. You may request a copy of our charters at no cost by writing or calling us at the following address: IR BioSciences Holdings, Inc., 8777 E. Via De Ventura, Suite 280, Scottsdale, Arizona 85258, Attention: John N. Fermanis. You can also request by phone at (480) 922-3926 or fax at (480) 922-4781.

Stockholder Communications

We do not have a formal procedure for stockholder communication with our Board of Directors. Stockholders who wish to contact the Board of Directors, a committee of the Board of Directors or an individual director should send their correspondence to IR BioSciences Holdings, Inc., 8777 E. Via De Ventura, Suite 280, Scottsdale, Arizona 85258, Attention: Board of Directors. Any such communication should specify the applicable addressee or addressees to be contacted, as well as the general topic of the communication. We will initially receive and process communications before forwarding them to the addressee. We generally will not forward a stockholder communication to our directors that we determine to be primarily commercial in nature or may be abusive, threatening or otherwise inappropriate.

Item 11. Executive Compensation

As a “smaller reporting company,” IR BioSciences Holdings, Inc. has elected to follow scaled disclosure requirements for smaller reporting companies with respect to Part III, Item 11 – Executive Compensation. Under the scaled disclosure obligations, IR BioSciences Holdings, Inc. is not required to provide Compensation Discussion and Analysis and certain other tabular and narrative disclosures relating to executive compensation. Nor is IR BioSciences Holdings, Inc. required to quantify payments due to the named executives upon termination of employment. Management believes that the scaled disclosure for the Company’s executive compensation policy and practices is appropriate because IR BioSciences Holdings, Inc. is small for a publicly-traded company, has only three named executives and has a relatively simple compensation policy and structure that has not changed in the last fiscal year.

Compensation Discussion and Analysis

The Compensation Committee operates under a written charter adopted by the Board and is responsible for making all compensation decisions for the Company’s named executives including determining base salary and annual incentive compensation amounts and recommending stock option grants and other stock-based compensation under our equity

incentive plans.

Our Compensation Committee has not historically employed compensation consultants to assist it in designing our compensation programs. Instead, we rely on our familiarity with the market and ongoing market intelligence, including occasional review of publicly available compensation information of other companies, both those with which we compete and those within our geographic labor market, to gauge the competitiveness of our compensation programs.

Overview and Philosophy

The goals of our executive compensation program are to:

- o provide competitive compensation that will help attract, retain and reward qualified executives, with a focus on talent from within the bio-pharmaceutical industry; and,
- o align management's interests with the interests of stockholders by including long-term equity incentives.

Table of Contents

Our compensation philosophy is to motivate, measure and reward employees for performance that we believe will result in efficient and effective progress toward the achievement of our product development and corporate partnering goals and building long-term value for our shareholders. Our executive compensation program is designed to:

- focus decision-making and behavior on long and near-term goals that are consistent with our overall business strategy;
- allow us to attract and retain employees with the skills critical to our long-term success; and
- align management's financial interests with the interests of our shareholders.

The Compensation Committee does not focus on any particular benchmark to set executive compensation. Instead, we believe that a successful compensation program requires the application of judgment and subjective determinations based on the consideration of a number of factors. These factors include the following:

- o the scope and strategic impact of the executive officer's responsibilities, including the importance of the job function to our business;
- o our past financial performance and future expectations;
- o the performance and experience of each individual;
- o past salary levels of each individual and of the officers as a group;
- o our need for someone in a particular position; and
- o for each executive officer, other than the Chief Executive Officer, the evaluations and recommendations of our Chief Executive Officer, in consultation with our Chief Financial Officer.

Components of Executive Compensation

Our executive compensation program consists of base salary and long-term equity incentives in the form of stock options. Executive officers also are eligible to participate in certain benefit programs that are generally available to all of our employees, such as medical insurance programs and our 401(k) plan. The Compensation Committee of our Board of Directors oversees our executive compensation program.

Base Salary

Each named executive officer and key employee's employment agreement sets forth his salary, which varies with the scope of his respective responsibilities. Consistent with our compensation objectives and philosophy described above, the Compensation Committee attempts to set base salary compensation, and adjust it when warranted, based on company financial performance, the individual's position and responsibility within our company and performance in that position and the importance of the executive's position to our business. The Committee also generally takes into account its perceived range of salaries of executive officers with comparable qualifications, experience and responsibilities at other companies with which we compete for executive talent. The Committee also reviews historical salary information for each of the executive officers as part of its analysis in setting base salary structures. The Committee uses this information to review historical progression of each executive officer's compensation and to identify variations in compensation levels among the executive officers.

Table of Contents

In 2009, the Compensation Committee reviewed the base salaries of our named executive officers and key employees, taking into account the considerations described above. The base salary rates for 2009 and 2008 are as follows:

Named Executive Officers & Key Employees	2009 Salary	2008 Salary	% Increase
Michael K. Wilhelm	\$ 380,365	\$ 344,842	10.3%
Hal N. Siegel	\$ 229,191	\$ 210,000	9.1%
John N. Fermanis	\$ 140,000	\$ 130,000	7.7%

The Compensation Committee also approved an increase to one non-key employee to reflect the employee's responsibility and importance to the Company, as well as an increase to match market conditions for scientific personnel at other companies with which we compete. To date, salary amounts in 2010 have remained unchanged for all employees from the amounts established by the Compensation Committee during 2009. Per the terms of employment agreements with our President and Chief Executive Officer and Chief Science Officer, salaries are to increase in 2010. In addition, the Compensation Committee may meet subsequent to the filing of this amendment to determine salary amounts for other employees for 2010.

Bonuses

In the past, we have provided bonuses in the form of cash and or shares of common stock, which are designed to motivate and reward executives for their contribution to the company's performance during the fiscal year. Bonuses have been awarded in 2008 for performance, as a signing bonus for employment agreements and as per the terms of employment agreements with regard to specific target incentive milestones. In 2009, John N. Fermanis, our Chief Financial Officer, received incentive bonuses of \$9,000 for meeting target milestones and Hal N. Siegel, our Chief Scientific Officer, received \$10,000 as a sign on bonus. To date, the Compensation Committee has not determined to provide bonuses to any employees in 2010. The Compensation Committee may meet subsequent to the filing of this amendment to determine bonuses, if any, to be paid in 2010.

Stock Options

Executive officers and key employees are also eligible to receive annual grants of stock option awards under our 2003 Stock Option, Deferred Stock, Restricted Stock and Bonus Stock Plan. Typically, we have granted stock options every year because these awards are consistent with our compensation goals of aligning executives' interests with those of our stockholders in the long term, and because these grants are a standard form of compensation among the companies with which we compete. The Compensation Committee believes that stock option awards can be an especially valuable tool in linking the personal interests of executives to those of our stockholders, because executives' compensation under these awards is directly linked to our stock price. These awards give executive officers a significant, long-term interest in the company's success. Moreover, the vesting component of our stock option awards provides a valuable retention tool, and retention is a significant consideration in making these awards.

In August 2009, the Committee granted stock option awards to employees, officers and directors. To date, the Compensation Committee has not granted any stock option awards to any of the Company's employees, officers and directors in 2010. The Compensation Committee may meet subsequent to the filing of this amendment to determine the stock option awards, if any, to be granted to Company employees in 2010.

Other Compensation and Personal Benefits

We maintain general broad-based employee benefit plans in which our executives participate, such as health insurance plans and a 401(k) plan. These benefits are provided as part of the basic conditions of employment for all of our employees. In addition, we believe that providing these basic benefits is necessary for us to attract and retain

high-level executives working in our industry and in our geographic area. We believe that these benefits substantially enhance employee morale and performance. Our benefit plans may change over time as the Compensation Committee determines appropriate.

The Company's 401(k) plan permits a contribution of salary to our 401(k) plan. We do not match any such contribution. Participation in the Company's 401(k) plan is available to all full-time employees.

Retirement Benefits

Our executive officers and key employees do not participate in any defined benefit retirement plans such as a pension plan. We do not have any deferred compensation programs. As noted above, our executive officers and key employees are eligible for our 401(k) plan, as described immediately above in "Other Compensation and Personal Benefits".

Employment, Severance and Change in Control Agreements

Set forth below are the material terms of employment for each of the three named executives. The terms of employment provide for certain payments upon termination or change in control. Such benefits are in addition to benefits available generally to salaried employees.

President and Chief Executive Officer:

On August 10, 2005, we entered into a new employment agreement with our President and Chief Executive Officer, Michael K. Wilhelm. The employment agreement calls for a salary at the rate of \$275,000 per annum. The salary will be subject to adjustment of at least 10% per year at the end of each year. The Company also agreed to defend and indemnify, to the fullest extent permitted by the Company's certificate of incorporation and bylaws and the Delaware General Corporation Law, Mr. Wilhelm and hold him harmless against any liability that he incurs within the scope of his employment under the agreement. The agreement also provides for the following various bonus incentives:

- i) A target incentive bonus in cash and/or stock if the Company consummates a transaction with any unaffiliated third party such as an equity or debt financing, acquisition, merger, strategic partnership or other similar transaction.
- ii) A one time grant of an option to purchase 200,000 shares (post-split) of the Company's common stock at an exercise price equal to the fair market value per share on the date option is granted.

In connection with Mr. Wilhelm's new employment agreement, we also entered into a change of control agreement with him on August 10, 2005. On November 7, 2005 the agreement was amended to include a severance agreement.

Under the change of control agreement, Mr. Wilhelm shall be entitled to a continuation of his base salary for a period of 18 months following an involuntary termination, which means, at any time within that period which is one-year from the change of control date (including such date), the termination of the employment of Mr. Wilhelm (i) by us without cause or (ii) due to constructive termination, as such terms are defined in the change of control agreement. Further, in the event of an involuntary termination, the agreement provides that the Company shall pay Mr. Wilhelm a lump sum amount in cash, equal to the sum of (i) any unpaid incentive compensation which has been allocated or awarded to Mr. Wilhelm for a completed fiscal year or other measuring period preceding the date of involuntary termination under any annual or long-term incentive plan and which, as of the date of involuntary termination, is contingent only upon the continued employment of Mr. Wilhelm to a subsequent date, and (ii) a pro rata portion to the date of involuntary termination of the aggregate value of all contingent incentive compensation awards to Mr. Wilhelm for all then uncompleted periods under any such plan. Further, 100% of the unvested portion of each outstanding stock option granted to Mr. Wilhelm shall be accelerated so that they become immediately exercisable upon the date of involuntary termination.

Table of Contents

Under the severance agreement, Mr. Wilhelm shall be entitled to a continuation of his base salary for a period of 18 months following an involuntary termination, which means the termination of the employment of Mr. Wilhelm (i) by the Company without cause or (ii) due to constructive termination, as such terms are defined in the severance agreement. Further, in the event of an involuntary termination, the agreement provides that the Company shall pay Mr. Wilhelm an amount equal to the amount of executive incentive pay (bonus) that he would have received for the year in which the involuntary termination occurred had he met one hundred percent (100%) of the target for such incentive pay.

- Our executive officers and directors;
- All directors and executive officers as a group; and
- Each person known to us to beneficially own more than five percent (5%) of our outstanding shares of common stock.

In addition, a person is considered by SEC rules to beneficially own shares underlying options or warrants that are presently exercisable or that will become exercisable within sixty (60) days.

Except as otherwise noted, the persons or entities in this table have sole voting and investing power with respect to all of the shares of Common Stock beneficially owned by them, subject to community property laws, where applicable. Director Independence

Our securities are not listed on a national securities exchange or in an inter-dealer quotation system which has requirements that directors be independent. Shares of our common stock are quoted on the OTCBB. We have adopted the independence standards of the NYSE Amex to determine the independence of our directors and those directors serving on our committees, although we are not subject to the rules of the NYSE Amex.

The Board of Directors currently consists of six members, four of whom are “independent” as defined under NYSE Amex regulations. The four independent members of the Board of Directors are Lance K. Gordon, Ph.D., Robert J. Hariri, M.D., Ph.D., Theodore E. Staahl, M.D. and Jerome B. Zeldis, M.D., Ph.D.

For a director to be considered independent, the Board must determine that the director has no relationship which, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

All members of the Audit Committee, the Compensation Committee and the Corporate Governance and Nominating Committee must be independent directors. Members of the Audit Committee also must satisfy a separate SEC independence requirement, which provides that they may not accept directly or indirectly any consulting, advisory or other compensatory fee from the Company or any of its subsidiaries other than their directors' compensation. In addition, under SEC rules, an Audit Committee member who is an affiliate of the issuer (other than through service as a director) cannot be deemed to be independent.
