Any discussion of securities lending in the Statement of Additional Information for each of the above Funds is deleted (except for discussion of securities lending under "Fundamental Policies"), and the following is added under "Non-principal Investment Strategies and Associated Risks" for each of the above Funds:

Loans of Portfolio Securities. The Fund, may lend its portfolio securities to certain borrowers if, as a result thereof, the aggregate value of all securities loaned does not exceed 33 1/3% of the total assets of the Fund (including the loan collateral), and the Fund may pay reasonable fees in connection with the loans. The loans are made in conformity with the Fund's policies and are collateralized by cash or liquid securities on a daily basis in an amount at least equal to 100% of the market value of the securities loaned and interest earned thereon. The Fund retains the right to call the loaned securities upon notice and intends to call loaned voting securities in anticipation of any matter to be voted on by stockholders and deemed material by the Adviser acting in accordance with the Fund's proxy voting policies. The Fund invests cash collateral in high quality, readily marketable short-term obligations and/or money market funds (to the extent consistent with the Fund's investment restrictions). The Fund bears the risk of any loss in connection with such investment of collateral. While securities lending involves risk of delays in recovery or even loss of rights in the collateral should the borrower fail financially, loans are made only to borrowers approved in accordance with the Fund's securities lending guidelines. The foregoing securities lending policies are subject to any more restrictive fundamental Fund policies on securities lending below.
