### **Commentary on condensed consolidated balance sheet - pro forma**

Total assets of £1,522.5 billion at 31 December 2009 were down £696.2 billion, 31%, compared with 31 December 2008, principally reflecting substantial repayments of customer loans and advances, as corporate customer demand fell and corporates looked to deleverage their balance sheets. Lending to banks also fell in line with significantly reduced wholesale funding activity. There were also significant falls in the value of derivative assets, with a corresponding reduction in derivative liabilities.

Cash and balances at central banks were up £39.7 billion to £51.5 billion due to the placing of short-term cash surpluses, including the proceeds from the issue of B shares in December, with central banks.

Loans and advances to banks decreased by £45.6 billion, 35%, to £83.9 billion with reverse repurchase agreements and stock borrowing ('reverse repos') down by £23.7 billion, 40% to £35.1 billion and lower bank placings, down £22.0 billion, 31%, to £48.8 billion, largely as a result of reduced wholesale funding activity in Global Banking & Markets.

Loans and advances to customers were down £135.6 billion, 19%, at £595.7 billion. Within this, reverse repos increased by 4%, £1.8 billion to £41.0 billion. Excluding reverse repos, lending decreased by £137.3 billion to £554.7 billion or by £131.6 billion, 19%, before impairment provisions. This reflected reductions in Global Banking & Markets of £71.4 billion, and planned reductions in Non-Core of £30.1 billion, including a £3.2 billion transfer to disposal groups in respect of RBS Sempra Commodities and the Asian and Latin American businesses. There were also reductions in US Retail & Commercial, £7.4 billion; UK Corporate & Commercial, £5.4 billion; Ulster Bank, £1.8 billion; and the effect of exchange rate movements, £22.8 billion, following the strengthening of sterling during the year, partially offset by growth in UK Retail of £9.2 billion, and in Wealth of £1.4 billion.

Debt securities decreased by £4.1 billion, 2%, to £249.1 billion and equity shares decreased by £6.2 billion, 28%, to £16.0 billion, principally due to the sale of the Bank of China investment and lower holdings in Global Banking & Markets and Non-Core, largely offset by growth in Group Treasury, in part reflecting an £18.0 billion increase in the gilt liquidity portfolio.

Settlement balances were down £5.8 billion, 32%, at £12.0 billion as a result of lower customer activity.

Movements in the value of derivative assets, down £553.3 billion, 56%, to £438.2 billion, and liabilities, down £547.9 billion, 57%, to £421.5 billion, reflect the easing of market volatility, the strengthening of sterling and significant tightening in credit spreads in the continuing low interest rate environment.

Increases in assets and liabilities of disposal groups reflect the inclusion of the RBS Sempra Commodities business and the planned sale of a number of the Group's retail and commercial activities in Asia and Latin America.

Deposits by banks declined by £109.0 billion, 41%, to £153.6 billion, due to a decrease in repurchase agreements and stock lending ('repos'), down £45.7 billion, 55%, to £38.0 billion and reduced inter-bank deposits, down £63.3 billion, 35%, to £115.6 billion, principally in Global Banking & Markets reflecting reduced reliance on wholesale funding.

**Commentary on condensed consolidated balance sheet - pro forma**

Customer accounts were down £35.9 billion, 7%, to £482.6 billion. Within this, repos increased £10.2 billion, 18%, to £68.4 billion. Excluding repos, deposits were down £46.1 billion, 10%, to £414.3 billion, primarily due to reductions in Global Banking & Markets, down £43.6 billion; Non-Core, £13.0 billion, including the transfer of £8.9 billion to disposal groups; and Ulster Bank, £1.2 billion; together with exchange rate movements, £11.3 billion, offset in part by growth across all other divisions, up £23.0 billion.

Debt securities in issue were down £23.1 billion, 9% to £246.3 billion, mainly as a result of movements in exchange rates together with reductions in Global Banking & Markets and Non-Core.

Retirement benefit liabilities increased by £1.2 billion, 74%, to £2.7 billion, with net actuarial losses of £3.8 billion, arising from lower discount rates and higher assumed inflation, partially offset by curtailment gains of £2.1 billion due to changes in prospective pension benefits.

Subordinated liabilities were down £12.1 billion, 28% to £31.5 billion, reflecting the redemption of £5.0 billion undated loan capital, £1.5 billion trust preferred securities and £2.7 billion dated loan capital, together with the effect of exchange rate movements and other adjustments, £2.9 billion.

Equity minority interests decreased by £3.2 billion, 59%, to £2.2 billion. Equity withdrawals of £3.1 billion, due to the disposal of the investment in the Bank of China attributable to minority shareholders and the redemption, in part, of certain trust preferred securities, the recycling of related available-for-sale reserves to income, £0.4 billion, and dividends paid of £0.3 billion, were partially offset by attributable profits of £0.6 billion.

Owners' equity increased by £18.9 billion, 32% to £77.7 billion. The issue of B shares to HM Treasury in December 2009 raised £25.1 billion, net of expenses, and was offset in part by the creation of a £1.2 billion reserve in respect of contingent capital B shares. The placing and open offer in April 2009 raised £5.3 billion to fund the redemption of the £5.0 billion preference shares issued to HM Treasury in December 2008. Actuarial losses, net of tax, of £2.7 billion, the attributable loss for the period, £2.7 billion, exchange rate movements of £1.9 billion, the payment of other owners' dividends of £0.9 billion including £0.3 billion to HM Treasury on the redemption of preference shares, and partial redemption of paid-in equity, £0.3 billion, were partly offset by increases in available-for-sale reserves, £1.8 billion, cash flow hedging reserves, £0.6 billion, and the equity owners gain on withdrawal of minority interests, net of tax, of £0.5 billion arising from the redemption of trust preferred securities.

**Notes to pro forma results****1. Basis of preparation**

The pro forma financial information shows the underlying performance of the Group including the results of the ABN AMRO businesses to be retained by the Group. This information is prepared using the Group's accounting policies and is being provided to give a better understanding of the results of the RBS operations excluding the results attributable to the other Consortium Members.

Group operating profit on a pro forma basis excludes:

- amortisation of purchased intangible assets;
- write-down of goodwill and other intangible assets;
- integration and restructuring costs;
- gain on redemption of own debt;
- strategic investments;
- gains on pensions curtailment; and
- bonus tax.

**2. Loan impairment provisions**

Operating loss is stated after charging loan impairment losses of £13,090 million (9 months ended 30 September 2009 - £10,058 million; year ended 31 December 2008 - £6,478 million). The balance sheet loan impairment provisions increased in the year ended 31 December 2009 from £9,451 million to £15,173 million, and the movements thereon were:

	<b>6,921</b>	<b>8,252</b>	<b>15,173</b>	15,124	9,451

Provisions at 31 December 2009 include £157 million (30 September 2009 - £151 million; 31 December 2008 - £127 million) in respect of loans and advances to banks. The charge to the income statement in the table above excludes £809 million (9 months ended 30 September 2009 - £742 million; year ended 31 December 2008 - £954 million) relating to available-for-sale financial assets (See Note 3).

## Notes to pro forma results

### 3. Available-for-sale financial assets

Available-for-sale financial assets are initially recognised at fair value plus directly related transaction costs and subsequently measured at fair value with changes in fair value reported in shareholders' equity until disposal, at which stage the cumulative gain or loss is recognised in profit or loss. When there is objective evidence that an available-for-sale financial asset is impaired, any decline in its fair value below original cost is removed from equity and recognised in profit or loss.

Impairment losses are recognised when there is objective evidence of impairment. The Group reviews its portfolios of available-for-sale financial assets for such evidence which includes: default or delinquency in interest or principal payments; significant financial difficulty of the issuer or obligor; and it becoming probable that the issuer will enter bankruptcy or other financial reorganisation. However, the disappearance of an active market because an entity's financial instruments are no longer publicly traded is not evidence of impairment. Furthermore, a downgrade of an entity's credit rating is not, of itself, evidence of impairment, although it may be evidence of impairment when considered with other available information. A decline in the fair value of a financial asset below its cost or amortised cost is not necessarily evidence of impairment. Determining whether objective evidence of impairment exists requires the exercise of management judgment. The unrecognised losses on the Group's available for sale debt securities are concentrated in its portfolios of mortgage-backed securities. The losses reflect the widening of credit spreads as a result of the reduced market liquidity in these securities and the current uncertain macro-economic outlook in US and Europe. The underlying securities remain unimpaired.

During 2009 impairment losses of £809 million (2008 - £954 million) were charged to profit or loss and net unrealised gains of £1,202 million (2008 - £6,808 million loss) were recognised directly in equity on available-for-sale financial assets. Available-for-sale reserves at 31 December 2009 amounted to net losses of £1,755 million (2008 - net losses £3,561 million), and the movements were as follows:

	<b>31</b>	30	31
	<b>December</b>	September	December
	2009	2009	2008
<b>Available-for-sale reserves</b>	<b>£m</b>	£m	£m

	<b>363</b>	16,196	<b>52</b>	-	16,196

The write-down of goodwill for the year ended 31 December 2009 principally relates to ABN AMRO and NatWest goodwill allocated to Non-Core businesses.

## 6. Pensions

Pension costs, excluding curtailment gains, for the year ended 31 December 2009 amounted to £653 million (year ended 31 December 2008 - £536 million; quarter ended 31 December 2009 - £110 million; quarter ended 30 September 2009 - £204 million; quarter ended 31 December 2008 - £94 million). Defined benefit schemes charges are based on the actuarially determined pension cost rates at 31 December 2008. At 31 December 2009, increased benefit obligations reflecting lower discount rates and higher assumed inflation, have been partially offset by increased asset values. This has resulted in net actuarial losses of £3,756 million at 31 December 2009 (30 September 2009 - nil; 31 December 2008 - £1,807 million).

The most recent funding valuation of the main UK scheme, as at 31 March 2007, showed a surplus of assets over liabilities of £0.7 billion. The next valuation is due as at 31 March 2010 and the Group expects this valuation to show that liabilities exceed the value of the assets. Following this valuation, the Group and scheme Trustees will agree the level of contributions to be paid to the scheme. This could result in the amount of contributions payable in 2010 and subsequent years being materially different from the current rates based on the previous valuation.

90

## Notes to pro forma results (continued)

### 7. Gains on pensions curtailment

Curtailment gains of £2,148 million have been recognised in 2009 arising from changes to pension benefits in the main UK scheme and certain other subsidiary schemes due to the capping of future salary increases that will count for pension purposes to the lower of 2% or the rate of inflation in any year.

### 8. Taxation

Edgar Filing: ROYAL BANK OF SCOTLAND GROUP PLC - Form 6-K

The credit for taxation differs from the tax credit computed by applying the standard UK corporation tax rate of 28% (2008 - 28.5%) as follows:

	Year ended		Quarter ended		
	<b>31</b> <b>December</b>	31 December	<b>31</b> <b>December</b>	30 September	31 December
	2009 <b>£m</b>	2008 £m	2009 <b>£m</b>	2009 £m	2008 £m
(Loss)/profit before tax	<b>(1,928)</b>	(8,296)	<b>134</b>	(2,077)	(9,473)
Expected tax (credit)/charge at 28%					
(2008 - 28.5%)	<b>(540)</b>	(2,364)	<b>38</b>	(582)	(2,700)
Unrecognised timing differences	<b>(274)</b>	274	<b>(67)</b>	(223)	186
Other non-deductible items	<b>508</b>	371	<b>400</b>	35	169
Non-taxable items:					
- Gain on redemption of own debt	<b>(693)</b>	-	<b>-</b>	-	-
- Other	<b>(410)</b>	(491)	<b>(208)</b>	(27)	(232)
Taxable foreign exchange movements	<b>(1)</b>	80	<b>13</b>	9	64
Foreign profits taxed at other rates	<b>332</b>	271	<b>159</b>	126	206
Losses in year not recognised	<b>715</b>	942	<b>448</b>	83	907
Losses brought forward and utilised	<b>(94)</b>	(11)	<b>(65)</b>	(6)	(11)
Adjustments in respect of prior periods	<b>118</b>	(352)	<b>(69)</b>	9	(290)
Actual tax (credit)/charge	<b>(339)</b>	(1,280)	<b>649</b>	(576)	(1,701)

The Group has recognised a deferred tax asset at 31 December 2009 of £6,492 million (30 September 2009 - £7,667 million; 31 December 2008 - £5,786 million), of which £4,803 million (30 September 2009 - £6,032 million; 31 December 2008 - £4,706 million) relates to carried forward trading losses in the UK. Under UK tax legislation, these UK losses can be carried forward indefinitely to be utilised against profits arising in the future. The Group has considered the carrying value of this asset as at 31 December 2009 and concluded that it is recoverable based on base case future profit projections.

**Notes to pro forma results** (continued)**13. Financial instruments** (continued)**Valuation techniques of financial instruments carried at fair value**

Certain aspects relating to the valuation of financial instruments carried at fair value are discussed below.

**Valuation reserves**

When valuing financial instruments in the trading book, adjustments are made to mid-market valuations to cover bid-offer spread, liquidity, credit risk and future administrative costs.

Valuation reserves and adjustments comprise:

	<b>2009</b>	2008
	<b>£m</b>	£m
Credit valuation adjustments:		
Monoline insurers	<b>3,796</b>	5,988
CDPCs	<b>499</b>	1,311
Other counterparties	<b>1,588</b>	1,738
	<b>5,883</b>	9,037
Bid-offer and liquidity reserves	<b>2,814</b>	3,260
	<b>8,697</b>	12,297
Debit valuation adjustments:		
Debt securities in issue	<b>(2,331)</b>	(2,373)
Derivatives	<b>(467)</b>	(450)
Total debit valuation adjustments	<b>(2,798)</b>	(2,823)
Total reserves (net)	<b>5,899</b>	9,474

Credit valuation adjustments (CVA) represent an estimate of the adjustment to fair value that a market participant would make to incorporate the credit risk inherent in counterparty derivative exposures. The Group makes such credit adjustments to derivative exposures it has to counterparties, as well as debit valuation adjustments (DVA) to liabilities issued by the Group. CVA is discussed in Risk and capital management - Market turmoil - Credit valuation adjustments (page 157). Bid-offer and liquidity reserves and own credit (page 100) are discussed below.

### **Bid-offer and liquidity reserves**

Fair value positions are adjusted to bid or offer levels, by marking individual cash based positions directly to bid or offer or by taking bid-offer reserves calculated on a portfolio basis for derivatives exposures.

Bid-offer and liquidity reserves reduced during the year, driven mainly by the tightening of spreads across all asset classes in the first half of the year and risk reductions in the second half of the year, most notably in interest rate trading business, partly offset by additional reserves reflecting the implementation of a revised derivative discounting approach.

## Notes to pro forma results (continued)

## 13. Financial instruments (continued)

## Own credit

In accordance with IFRS, when valuing financial liabilities recorded at fair value, the Group takes into account the effect of its own credit standing. The categories of financial liabilities on which own credit spread adjustments are made are issued debt, including structured notes, and derivatives. An own credit adjustment is applied to positions where it is believed that counterparties would consider the Group's creditworthiness when pricing trades.

For issued debt and structured notes, this adjustment is based on independent quotes from market participants for the debt issuance spreads above average inter-bank rates (at a range of tenors), which the market would demand when purchasing new senior or sub-debt issuances from the Group. Where necessary, these quotes are interpolated using a curve shape derived from CDS prices.

The reserve movement between periods will not equate to the reported profit or loss for own credit. The balance sheet reserves are stated by conversion of underlying currency balances at spot rates for each period whereas the income statement includes intra-period foreign exchange sell-offs.

The table below shows the own credit spread adjustments on liabilities recorded during the year.

	Debt securities in issue Designated at fair		Total £m	Derivatives (2) £m	Total £m
	Held-for -trading (1) £m	value through profit and loss £m			
Cumulative own credit adjustment					
<b>2009</b>	<b>1,237</b>	<b>1,094</b>	<b>2,331</b>	<b>467</b>	<b>2,798</b>

**Notes to pro forma results** (continued)

**13. Financial instruments** (continued)

**Valuation hierarchy** (continued)

Key points: level 3

- Level 3 assets and liabilities as a proportion of total financial instruments carried at fair value were similar to proportions at the end of 2008.
- Decrease in loans and advances to customers of £2.0 billion primarily reflected the reclassification of certain leveraged and real estate finance loans from held-for-trading to loans and receivables in first half of the year.
- The decrease in debt securities of £2.8 billion reflects the sale of the US fund derivative portfolio (£1.6 billion), liquidations and write-downs.
- Derivative assets include hedges with CDPCs, illiquid credit and interest rate derivatives: The reduction of £3.9 billion included £1 billion transfers to level 2, due to improved observability, and Sempra assets (£0.6 billion) included within disposal groups in 2009.
- Debt securities in issue were £2.3 billion and comprised structured medium-term notes. The decrease is due to a transfer to level 2 of £1.6 billion of constant proportion portfolio insurance (CPPI) notes reflecting the minimal residual equity component within these notes at 31 December 2009. The decrease in other debt securities in issue of £0.4 billion primarily reflects transfers to level 2, due to improved observability.
- Derivative liabilities decreased due to Sempra (£0.4 billion) included within disposal groups and transfers to level 2 reflecting improved observability.

**Notes to pro forma results** (continued)**13. Financial instruments** (continued)**Valuation hierarchy** (continued)

Amounts classified as available-for-sale comprise:

	Total £bn	Level 1 £bn	Level 2 £bn	Level 3 £bn	Level 3 sensitivity (2) £m      £m	
<b>2009</b>						
Debt securities	<b>125.4</b>	<b>58.2</b>	<b>65.9</b>	<b>1.3</b>	<b>90</b>	<b>(50)</b>
Equity shares	<b>2.6</b>	<b>0.3</b>	<b>1.6</b>	<b>0.7</b>	<b>100</b>	<b>(90)</b>
	<b>128.0</b>	<b>58.5</b>	<b>67.5</b>	<b>2.0</b>	<b>190</b>	<b>(140)</b>
<b>2008</b>						
Debt securities	118.6	18.0	97.5	3.1	90	(120)
Equity shares	6.7	4.6	1.8	0.3	60	(110)
	125.3	22.6	99.3	3.4	150	(230)

Notes:

(1) Level 1: valued using quoted prices in active markets, examples include G10 government securities, listed equity shares, certain exchange-traded derivatives, and certain US agency securities.

Level 2: includes most government agency securities, investment-grade corporate bonds, certain mortgage products, certain bank and bridge loans, repos and reverse repos, less liquid listed equities, state and municipal obligations, most physical commodities, investment contracts issued by the Group's life assurance businesses and certain money market securities and loan commitments and most OTC derivatives.

Level 3: includes cash instruments which trade infrequently, certain syndicated and commercial mortgage loans, unlisted equity shares, certain residual interests in securitisations, super senior

tranches of high grade and mezzanine CDOs, other mortgage-based products and less liquid debt securities, certain structured debt securities in issue, and OTC derivatives where valuation depends upon unobservable inputs such as certain credit and exotic derivatives. No gain or loss is recognised on the initial recognition of a financial instrument valued using a technique incorporating significant unobservable data.

- (2) Sensitivity represents the favourable and unfavourable impact respectively on the income statement or the statement of comprehensive income due to reasonably possible changes to valuations using reasonably possible alternative inputs to the Group's valuation techniques or models. Totals for sensitivities are not indicative of the total potential effect on the income statement or the statement of comprehensive income.
- (3) Primarily includes debt securities issued by banks and building societies.
- (4) Comprises subordinated liabilities and write-downs relating to undrawn syndicated loan facilities.

## Notes to pro forma results (continued)

## 13. Financial instruments (continued)

## Reclassification of financial instruments

During 2008, as permitted by amended IAS 39, the Group reclassified certain financial assets from the held-for-trading and available-for-sale categories into the loans and receivables category and from the held-for-trading category into the available-for-sale category. There were further reclassifications from the held-for-trading category to the loans and receivables category during 2009. The following tables detail the effect of the reclassifications and the balance sheet values of the assets.

Reduction in profit or increase in loss as a  
result of reclassifications for the year  
ended 2009

	Total £m	Reclassified in:	
		2009 £m	2008 £m
From held-for-trading to:			
Available-for-sale	1,280	-	1,280
Loans and receivables	1,705	37	1,668
	2,985	37	2,948

## Assets

reclassified in	2009		2008		
	2009: Carrying value £m	All reclassifications Carrying value £m	Fair value £m	All reclassifications (1) Carrying value £m	Fair value £m
From held-for-trading to:					
Available-for-sale	-	7,629	7,629	12,047	12,047
Loans and receivables	1,995	12,933	10,644	20,774	16,628

	<b>1,995</b>	<b>20,562</b>	<b>18,273</b>	32,821	28,675
From available-for-sale to:					
Loans and receivables	-	<b>869</b>	<b>745</b>	1,016	956
	<b>1,995</b>	<b>21,431</b>	<b>19,018</b>	33,837	29,631

## Note:

(1) 31 December 2008 amounts have been restated.

During the year ended 31 December 2009, the balance sheet value of reclassified assets decreased by £12.4 billion. This was primarily due to disposals and repayments of £12.1 billion across a range of asset backed securities and loans, including disposals through restructures of £3.4 billion on real estate and leverage financed positions. Other movements include impairment charges of £1.7 billion, foreign exchange rate losses of £2.0 billion, offset by gains taken to the available-for-sale reserve of £1.1 billion and reclassifications of £2.0 billion in 2009.

For assets reclassified from held-for-trading to available-for-sale, net unrealised losses recorded in equity at 31 December 2009 were £0.6 billion (2008 - £2.2 billion).

**Key points**

- 54% of the debt securities portfolios were issued by central and local governments and federal agencies compared to 38% at end of 2008.
- Of the ABS portfolios, nearly 75% was AAA rated and 49% was guaranteed or effectively guaranteed by G10 governments.
- Part of the decrease in corporate debt securities relates to the unwinding of the US funds derivatives portfolio.
- 63% of corporate debt securities are investment grade.

## Key points

The Group enters into master netting agreements in respect of its derivative activities. These arrangements give the Group a legal right to set-off derivative assets and liabilities with the same counterparty. They do not result in a net presentation in the Group's balance sheet for which IFRS requires an intention to settle net or to realise the asset and settle the liability simultaneously, as well as a legally enforceable right to set-off. These agreements are, however, effective in reducing the Group's credit exposure from derivative assets. The Group has executed master netting agreements with the majority of its derivative counterparties resulting in a significant reduction in its net exposure to derivative assets.

Of the £438 billion (30 September 2009 - £552 billion; 31 December 2008 - £991 billion) derivatives assets shown above, £359 billion (30 September 2009 - £459 billion; 31 December 2008 - £834 billion) were under such agreements. Furthermore, the Group holds substantial collateral against this net derivative asset exposure.

## 16. Analysis of contingent liabilities and commitments

	31 December 2009			30 September 2009 £m	31 December 2008 £m
	Core £m	Non-Core £m	Total £m		
<b>Contingent liabilities</b>					
Guarantees and assets pledged as					
collateral security	33,300	3,279	36,579	39,654	45,931
Other contingent liabilities	12,651	759	13,410	13,992	21,765
	45,951	4,038	49,989	53,646	67,696
<b>Commitments</b>					
Undrawn formal standby facilities, credit					
lines and other commitments to lend	255,555	33,580	289,135	304,702	349,417
Other commitments	730	2,753	3,483	3,656	6,876
	256,285	36,333	292,618	308,358	356,293
Total contingent liabilities and					
Commitments	302,236	40,371	342,607	362,004	423,989

Additional contingent liabilities arise in the normal course of the Group's business. It is not anticipated that any material loss will arise from these transactions.

## 17. The Financial Services Compensation Scheme

The Financial Services Compensation Scheme (FSCS), the UK's statutory fund of last resort for customers of authorised financial services firms, pays compensation if a firm is unable to meet its obligations. The FSCS funds compensation for customers by raising management expenses levies and compensation levies on the industry. In

relation to protected deposits, each deposit-taking institution contributes towards these levies in proportion to their share of total protected deposits on 31 December of the year preceding the scheme year (which runs from 1 April to 31 March), subject to annual maxima set by the Financial Services Authority (FSA). In addition, the FSCS has the power to raise levies ('exit levies') on firms who have ceased to participate in the scheme and are in the process of ceasing to be authorised for the amount that the firm would otherwise have been asked to pay during the relevant levy year.

FSCS has borrowed from HM Treasury to fund the compensation costs associated with Bradford & Bingley, Heritable Bank, Kaupthing Singer & Friedlander, Landsbanki 'Icesave' and London Scottish Bank plc. These borrowings are on an interest-only basis until September 2011. The annual limit on the FSCS management expenses levy for the three years from September 2008 in relation to these institutions has been capped at £1 billion per annum.

**Notes to pro forma results** (continued)

**17. The Financial Services Compensation Scheme** (continued)

The FSCS will receive funds from asset sales, surplus cash flow, or other recoveries in relation to these institutions which will be used to reduce the principal amount of the FSCS's borrowings. Only after the interest only period, which is expected to end in September 2011, will a schedule for repayment of any remaining principal outstanding (after recoveries) on the borrowings be agreed between the FSCS and HM Treasury. It is expected that, from that point, the FSCS will begin to raise compensation levies (principal repayments). No provision has been made for these levies as the amount is not yet known and is unlikely to be determined before 2011.

The Group has accrued £135 million for its share of FSCS management expenses levies for the 2009/10 and 2010/11 scheme years
