RBS Group – Q3 2010 Results

Commentary on condensed consolidated balance sheet – pro forma

Total assets of £1,628.7 billion at 30 September 2010 were up £47.8 billion, 3%, compared with 30 June 2010.

Cash and balances at central banks were up £31.8 billion, 108% to £61.4 billion.

Loans and advances to banks increased by £6.6 billion, 6%, to £108.7 billion. Reverse repurchase agreements and stock borrowing ('reverse repos') were up £0.7 billion, 2% to £48.4 billion and bank placings rose £5.9 billion, 11%, to £60.3 billion as a result of increased placings on the inter-bank markets.

Loans and advances to customers were down £6.2 billion, 1%, at £572.6 billion. Within this, reverse repos were up £5.1 billion, 13%, to £44.5 billion. Excluding reverse repos, customer lending decreased by £11.3 billion, 2%, to £528.0 billion or £9.8 billion before impairment provisions. This reflected reductions, in constant currency terms, in Non-Core of £6.8 billion, together with declines in UK Corporate, £1.7 billion, Global Transaction Services, £1.2 billion, Global Banking & Markets, £1.2 billion and US Retail & Commercial, £1.1 billion together with the effect of exchange rate movements, £0.2 billion. These were offset by growth in UK Retail, £1.9 billion, and Wealth, £0.6 billion.

Equity shares increased £4.4 billion, 26%, to £21.8 billion driven by increased holdings within Global Banking & Markets.

Settlement balances rose £2.2 billion, 10%, to £22.9 billion as a result of customer activity principally within Global Banking & Markets.

Movements in the value of derivative assets, up £25.9 billion, 5%, to £548.8 billion, and liabilities, up £34.4 billion, 7%, to £543.4 billion, primarily reflect changes in interest rates, currency movements, with Sterling strengthening against the US dollar offset in part by weakening against the Euro, and growth in trading volumes.

Assets of disposal groups reduced by £5.1 billion, 24%, to £16.5 billion resulting primarily from the completion of disposals of RBS Sempra's Oil, Metals and European Gas & Power business, the Eurosales Finance businesses in France and Germany and certain of the Group's Asian and Latin American businesses.

Deposits by banks declined £19.1 billion, 14%, to £121.7 billion, reflecting reduced inter-bank deposits, down £16.4 billion, 17%, to £80.2 billion and decreased repurchase agreements and stock lending ('repos'), down £2.7 billion, 6%, to £41.5 billion.

Customer accounts rose £16.4 billion, 3%, to £507.9 billion. Within this, repos increased £16.6 billion, 24%, to £87.3 billion. Excluding repos, customer deposits were down £0.2 billion, to £420.6 billion, with reductions, in constant currency terms, in Global Banking & Markets, £4.8 billion, Wealth, £1.4 billion and Ulster Bank, £0.2 billion, together with the effect of exchange rate movements of £1.5 billion. This was partially offset by growth in UK Corporate, £2.6 billion, Global Transaction Services, £2.3 billion, UK Retail, £1.4 billion and US Retail & Commercial, £1.1 billion.

Commentary on condensed consolidated balance sheet – pro forma

Debt securities in issue were up £17.8 billion, 8%, to £235.1 billion, principally as a result of the Group's capital raising programme in the third quarter, coupled with movements in Global Banking & Markets.

Liabilities of disposal groups declined £1.3 billion, 8%, to £15.7 billion primarily reflecting the completion of several disposals in the quarter.

Owners' equity reduced by £1.2 billion, 2%, to £75.6 billion. The attributable loss for the period, £1.1 billion, and exchange rate movements, £0.7 billion, were offset in part by an increase in cash flow hedging reserves, £0.4 billion, and reduced losses in available-for-sale reserves, £0.2 billion.

RBS Group – Q3 2010 Results

Notes to pro forma results

1. Basis of preparation

Pro forma results

The pro forma financial information, prepared using the Group's accounting policies, shows the underlying performance of the Group including the results of the ABN AMRO businesses retained by the Group. This information is provided to give a better understanding of the results of the Group's operations. Group operating profit on a pro forma basis excludes:

- amortisation of purchased intangible assets;
- integration and restructuring costs;
- gain on redemption of own debt;
- strategic disposals;
- bonus tax;
- Asset Protection Scheme credit default swap – fair value changes;
- write-down of goodwill and other intangible assets; and
- other Consortium Members' interest in shared assets.

From 1 April 2010, other than these differences in presentation, the Group's pro forma and statutory results are substantially the same.

Acquisition and separation of ABN AMRO

On 17 October 2007, RFS Holdings B.V, completed the acquisition of ABN AMRO Holding N.V which was renamed RBS Holdings N.V. on 1 April 2010 when the shares in ABN AMRO Bank N.V. were transferred to ABN AMRO Group N.V., a holding company for the interests of the Dutch State. This marked the substantial completion of the restructuring of the activities of ABN AMRO Holding N.V. in accordance with the agreement between the RBSG, the Dutch State and Banco Santander, SA. RBS Holdings N.V. has one direct subsidiary, The Royal Bank of Scotland N.V., a fully operational bank within the Group, which is independently rated and regulated by the Dutch Central Bank.

(1) Including £359 million attributable to minority interests.

Notes to pro forma results (continued)

5. Taxation

The credit/(charge) for taxation differs from the tax credit/(charge) computed by applying the standard UK corporation tax rate of 28% as follows:

	Quarter ended			Nine months ended	
	30 September 2010 £m	30 June 2010 £m	30 September 2009 £m	30 September 2010 £m	30 September 2009 £m
(Loss)/profit before tax	(1,379)	1,157	(2,077)	(243)	(2,062)
Expected tax credit/(charge) at 28%	386	(324)	582	68	578
Unrecognised timing differences	-	52	223	-	207
Other non-deductible items	(77)	(198)	(35)	(306)	(108)
Non-taxable items:					
- gain on redemption of own debt	-	12	-	12	692
- other	37	62	27	101	203
	(5)	7	(9)	2	14

Taxable foreign exchange movements					
Foreign profits taxed at other rates	(56)	(210)	(126)	(394)	(173)
Reduction in deferred tax asset following change in the rate of UK corporation tax	(90)	-	-	(90)	-
Losses in period not recognised	9	(280)	(83)	(354)	(267)
Losses brought forward and utilised	(1)	3	6	10	29
Adjustments in respect of prior periods	58	51	(9)	281	(187)
Actual tax credit/(charge)	261	(825)	576	(670)	988
Effective tax rate	18.9%	71.3%	27.7%	nm	47.9%

The unusually high tax charge in the first nine months of 2010 reflects profits in high tax regimes and losses in low tax regimes, together with £354 million relating to losses in overseas subsidiaries for which a deferred tax asset has not been recognised, and £166 million mainly in respect of losses on disposal of businesses for which no tax relief is available. This was offset in part by the release of provisions of £281 million mainly due to settlement of a number of tax issues relating to prior years.

The Group has recognised a deferred tax asset at 30 September 2010 of £5,907 million, of which £3,741 million relates to carried forward trading losses in the UK. Under UK tax legislation, these UK losses can be carried forward indefinitely to be utilised against profits arising in the future. The Group has considered the carrying value of this asset as at 30 September 2010 and concluded that it is recoverable based on base case future profit projections.

9. Segmental analysis

Analysis of divisional operating profit/(loss)

The following tables provide an analysis of the divisional profit/(loss) for the quarters ended 30 September 2010, 30 June 2010 and for the nine month period ended 30 September 2010, by main income statement captions. The pro forma divisional income statements on pages 24 to 56 reflect certain presentational reallocations as described in the notes below. These do not affect the overall operating profit/(loss).

	Net interest income	Non- interest income	Total income	Operating expenses	Insurance net claims	Impairment losses	Operating profit/(loss)

RBS Group – Q3 2010 Results

Notes to pro forma results (continued)

10. Financial instruments (continued)

Reclassification of financial instruments

As permitted by amended IAS 39, the Group reclassified certain financial assets from the HFT and AFS categories into the LAR category and from the HFT category into the AFS category in 2008 and 2009. There were no reclassifications in the nine months ended 30 September 2010. The following tables detail the effect of the reclassifications and the balance sheet values of the assets.

	Reduction in profit for the quarter ended 30 September 2010 as a result of reclassifications £m					
From HFT to:						
AFS						81
LAR						162
						243
	30 September 2010		30 June 2010		31 December 2009	
	Carrying		Carrying		Carrying	
	value	Fair value	value	Fair value	value	Fair value
	£m	£m	£m	£m	£m	£m
From HFT to:						
AFS	6,843	6,843	7,343	7,343	7,629	7,629
LAR	9,703	8,131	10,596	8,861	12,933	10,644
	16,546	14,974	17,939	16,204	20,562	18,273
From AFS to:						
LAR	449	405	969	808	869	745
	16,995	15,379	18,908	17,012	21,431	19,018

During the quarter ended 30 September 2010, the balance sheet value of reclassified assets decreased by £1.9 billion, primarily due to disposals and repayments across a range of securities and loans.

For assets reclassified from HFT to AFS, net unrealised losses recorded in equity at 30 September 2010 were £0.3 billion (30 June 2010 - £0.4 billion; 31 December 2009 - £0.6 billion).

Notes to pro forma results (continued)

10. Financial instruments (continued)

Financial instruments carried at fair value

Refer to Note 11 Financial instruments of the 2009 Annual Report and Accounts for valuation techniques. Certain aspects relating to the valuation of financial instruments carried at fair value are discussed below.

Valuation reserves

When valuing financial instruments in the trading book, adjustments are made to mid-market valuations to cover bid-offer spread, liquidity, credit risk and future administrative costs.

Valuation reserves and adjustments comprise:

	30 September 2010 £m	30 June 2010 £m	31 March 2010 £m	31 December 2009 £m
Credit valuation adjustments:				
Monoline insurers	2,678	3,599	3,870	3,796
Credit derivative product companies	622	791	465	499
Other counterparties	1,937	1,916	1,737	1,588
	5,237	6,306	6,072	5,883
Bid-offer and liquidity reserves	3,092	2,826	2,965	2,814
	8,329	9,132	9,037	8,697
Debit valuation adjustments ('own credit'):				
Debt securities in issue	(1,786)	(2,604)	(2,151)	(2,331)
Derivatives	(485)	(551)	(475)	(467)
Total debit valuation adjustments	(2,271)	(3,155)	(2,626)	(2,798)

Credit valuation adjustments (CVA) represent an estimate of the adjustment to fair value that a market participant would make to incorporate the credit risk inherent in counterparty derivative exposures. CVA is discussed in Risk and capital management - Other risk exposures: Credit valuation adjustments on page 123. Bid-offer and liquidity reserves and own credit is discussed on pages 78 and 79 below.

Notes to pro forma results (continued)

10. Financial instruments (continued)

Valuation reserves (continued)

Bid-offer and liquidity reserves

Fair value positions are adjusted to bid or offer levels, by marking individual cash based positions directly to bid or offer or by taking bid-offer reserves calculated on a portfolio basis for derivatives exposures.

The bid-offer approach is based on current market spreads and standard market bucketing of risk. Risk data are used as the primary sources of information within bid-offer calculations and are aggregated when they are more granular than market standard buckets.

Bid-offer adjustments for each risk factor are determined by aggregating similar risk exposures arising on different products. Additional basis bid-offer reserves are taken where these are charged in the market. Risk associated with non identical underlying exposures is not netted down unless there is evidence that the cost of closing the combined risk exposure is less than the cost of closing on an individual basis.

Bid-offer spreads vary by maturity and risk type to reflect different spreads in the market. For positions where there is no observable quote, the bid-offer spreads are widened in comparison to proxies to reflect reduced liquidity or observability. Bid-offer methodologies also incorporate liquidity triggers whereby wider spreads are applied to risks above pre-defined thresholds.

Netting is applied across risk buckets where there is market evidence to support this. For example calendar netting and cross strike netting effects are taken into account where such trades occur regularly within the market. Netting will also apply where long and short risk in two different risk buckets can be closed out in a single market transaction at less cost than by way of two separate transactions (closing out the individual bucketed risk in isolation).

Vanilla risk on exotic products is typically reserved as part of the overall portfolio based calculation e.g. delta and vega risk is included within the delta and vega bid-offer calculations. Aggregation of risk arising from different models is in line with the Group's risk management practices; the model review control process considers the appropriateness of model selection in this respect.

Product related risks such as correlation risk attract specific bid-offer reserves. Additional reserves are provided for exotic products to ensure overall reserves match market close-out costs. These market close-out costs inherently incorporate risk decay and cross-effects which are unlikely to be adequately reflected in the static hedge based on vanilla instruments.

Where there is limited bid-offer information for a product a conservative approach is taken, taking into account pricing approach and risk management strategy.

RBS Group – Q3 2010 Results

Notes to pro forma results (continued)

10. Financial instruments (continued)

Own credit

The Group takes into account the effect of its own credit standing, when valuing financial liabilities recorded at fair value, in accordance with IFRS. The categories of financial liabilities on which own credit spread adjustments are made are issued debt, including issued structured notes, and derivatives. An own credit adjustment is applied to positions where it is believed that counterparties would consider the Group's creditworthiness when pricing trades.

The own credit adjustment does not alter cash flows, is not used for performance management, and is disregarded for regulatory capital reporting processes.

For issued debt and structured notes, this adjustment is based on independent quotes from market participants for the debt issuance spreads above average inter-bank rates, (at a range of tenors) which the market would demand when purchasing new senior or subordinated debt issuances from the Group. Where necessary, these quotes are interpolated using a curve shape derived from credit default swap prices.

The fair value of the Group's derivative financial liabilities has also been adjusted to reflect the Group's own credit risk. The adjustment takes into account collateral posted by the Group and the effects of master netting agreements.

The reserve movement between periods will not equate to the reported profit or loss for own credit. The balance sheet reserves are stated by the conversion of underlying currency balances at spot rates for each period, however the income statement includes intra-period foreign exchange sell-offs.

The effect of change in credit spreads could reverse in future periods provided the liability is not repaid at a premium or a discount.

- (3) Commercial mortgage-backed securities.
- (4) Collateralised debt obligations.

- (5) Collateralised loan obligation.
- (6) Asset-backed securities.
- (7) Primarily includes debt securities issued by banks and building societies.
- (8) Asset Protection Scheme.

RBS Group – Q3 2010 Results

Notes to pro forma results (continued)

10. Financial instruments (continued)

Valuation hierarchy (continued)

Key points

- Total assets carried at fair value increased by £36.5 billion in the quarter to £921.7 billion at 30 September 2010, principally reflecting an increase in derivatives of £25.9 billion, collateral of £8.8 billion, reverse repos of £4.9 billion, partially offset by a decrease in debt securities of £8.6 billion.
- Total liabilities carried at fair value were up by £55.8 billion, with increases in derivatives of £34.4 billion, repos of £13.8 billion, debt securities in issue of £4.7 billion and collateral of £3.0 billion.
- Level 3 assets represented 1.7% (30 June 2010 – 2.1%; 31 December 2009 – 1.6%) of total assets carried at fair value and decreased by £2.9 billion to £15.6 billion primarily due to disposals and tightening credit spreads.
- Level 3 liabilities decreased by £0.4 billion, mainly reflecting the impact of tighter credit spreads on short positions.
- The favourable and unfavourable effects of reasonably possible alternative assumptions on financial instruments carried at fair value were £3.1 billion and £3.0 billion respectively of which £1.2 billion and £1.5 billion related to the APS credit derivative. These sensitivities are not indicative of the total potential effect on the income statement or other comprehensive income.

The Group enters into master netting agreements in respect of its derivative activities. These arrangements, which give the Group a legal right to set-off derivative assets and liabilities with the same counterparty, do not result in a net presentation in the Group's balance sheet for which IFRS requires an intention to settle net or to realise the asset and settle the liability simultaneously, as well as a legally enforceable right to set-off. They are, however, effective in reducing the Group's credit exposure from derivative assets. The Group has executed master netting agreements with the majority of its derivative counterparties resulting in a significant reduction in its net exposure to derivative assets. Of the £549 billion derivative assets shown above, £449 billion (30 June 2010 - £422 billion; 31 December 2009 - £359 billion) were subject to such agreements. Furthermore, the Group holds substantial collateral against this net derivative asset exposure, see Risk and capital management: Credit risk: Derivatives on page 106.

Notes to pro forma results (continued)

13. Available-for-sale financial assets

Available-for-sale financial assets are initially recognised at fair value plus directly related transaction costs and are subsequently measured at fair value with changes in fair value reported in shareholders' equity until disposal, at which stage the cumulative gain or loss is recognised in profit or loss. When there is objective evidence that an available-for-sale financial asset is impaired, any decline in its fair value below original cost is removed from equity and recognised in profit or loss.

Impairment losses are recognised when there is objective evidence of impairment. The Group reviews its portfolios of available-for-sale financial assets for such evidence which includes: default or delinquency in interest or principal payments; significant financial difficulty of the issuer or obligor; and it becoming probable that the issuer will enter bankruptcy or other financial reorganisation. However, the disappearance of an active market because an entity's financial instruments are no longer publicly traded is not evidence of impairment. Furthermore, a downgrade of an entity's credit rating is not, of itself, evidence of impairment, although it may be evidence of impairment when considered with other available information. A decline in the fair value of a financial asset below its cost or amortised cost is not necessarily evidence of impairment. Determining whether objective evidence of impairment exists requires the exercise of management judgment. The unrecognised losses on the Group's available-for-sale debt securities are concentrated in its portfolios of mortgage-backed securities. The losses reflect the widening of credit spreads as a result of the reduced market liquidity in these securities and the current uncertain macroeconomic outlook in the US and Europe. The underlying securities remain unimpaired.

During the third quarter of 2010 gains were realised by US Retail & Commercial (£215 million) and RBS N.V. (£216 million). The gain in US Retail & Commercial, which was part of its balance sheet restructuring exercise, was largely offset in the income statement by losses crystallised on the termination of swaps hedging fixed-rate funding related hedges. The gain in RBS N.V., which is included in Central items was offset by negative movements relating to IFRS volatility. Available-for-sale reserves at 30 September 2010 amounted to net losses of £1,242 million (30 June 2010 – net losses £1,459 million; 31 December 2009 – net losses £1,755 million), and the movements were as follows:

	Quarter ended 30 September 2010	Half year ended 30 June 2010	Year ended 31 December 2009
	£m	£m	£m
Available-for-sale reserves			
At beginning of period	(1,459)	(1,755)	(3,561)
Unrealised gains in the period	680	647	1,202
Realised (gains)/losses in the period	(408)	(127)	981
Taxation	(55)	(208)	(377)
Recycled to profit or loss on disposal of businesses, net of £6 million tax	-	(16)	-
At end of period	(1,242)	(1,459)	(1,755)

The above excludes losses attributable to minority interests of £336 million in the year ended 31 December 2009.

14. Contingent liabilities and commitments

	30 September 2010			30 June 2010			31
	Core £m	Non-Core £m	Total £m	Core £m	Non-Core £m	Total £m	December 2009 £m
Contingent liabilities							
Guarantees and assets pledged as							
collateral security	35,334	2,616	37,950	33,391	2,529	35,920	36,579
Other contingent liabilities	12,606	376	12,982	12,503	485	12,988	13,410
	47,940	2,992	50,932	45,894	3,014	48,908	49,989
Commitments							
Undrawn formal standby facilities, credit lines and other commitments							
to lend	240,560	26,126	266,686	245,053	25,478	270,531	289,135
Other commitments	867	2,637	3,504	2,084	2,631	4,715	3,483
	241,427	28,763	270,190	247,137	28,109	275,246	292,618
Total contingent liabilities and commitments	289,367	31,755	321,122	293,031	31,123	324,154	342,607

Additional contingent liabilities arise in the normal course of the Group's business. It is not anticipated that any material loss will arise from these transactions.
