#### Commentary on condensed consolidated balance sheet – pro forma

Total assets of £1,452.6 billion at 31 December 2010 were down £69.8 billion, 5%, compared with 31 December 2009. This principally reflects the continuing planned disposal of Non-Core assets, together with a reduction in the level of debt securities and mark-to-market value of derivatives in Global Banking & Markets.

Cash and balances at central banks were up £5.5 billion, 11%, to £57.0 billion due to an improvement in the Group's structural liquidity position during 2010.

Loans and advances to banks increased by £16.6 billion, 20%, to £100.5 billion. Reverse repurchase agreements and stock borrowing ('reverse repos') were up £7.5 billion, 21%, to £42.6 billion and bank placings rose £9.1 billion, 19%, to £57.9 billion, primarily as a result of the investment of surplus liquidity in short-term assets .

Loans and advances to customers were down £40.4 billion, 7%, at £555.3 billion. Within this, reverse repurchase agreements were up £11.5 billion, 28%, to £52.5 billion. Customer lending decreased by £51.9 billion to £502.7 billion or £48.9 billion before impairment provisions. This reflected planned reductions in Non-Core of £39.7 billion along with declines in Global Banking & Markets £16.7 billion, US Retail & Commercial, £2.6 billion and Ulster Bank, £2.0 billion. These were partially offset by growth in UK Retail, £5.4 billion, Wealth, £2.4 billion and Global Transaction Services, £1.7 billion, together with the effect of exchange rate and other movements, £2.6 billion.

Debt securities were down £31.6 billion, 13%, to £217.5 billion driven mainly by reductions in Global Banking & Markets.

The value of derivative assets were down £11.1 billion, 3%, to £427.1 billion, primarily reflecting a decrease in interest contracts, movements in five to ten year interest yields, and the combined effect of currency movements, with Sterling weakening against the dollar but strengthening against the Euro.

The reduction in assets and liabilities of disposal groups resulted from completion of disposals of certain of the Group's Asian and Latin American businesses, and substantially all of the RBS Sempra Commodities JV business.

Deposits by banks declined £55.0 billion, 36%, to £98.7 billion, with reduced inter-bank deposits, down £49.7 billion, 43%, to £65.9 billion and lower repurchase agreements and stock lending ('repos'), down £5.3 billion, 14%, to £32.7 billion.

## Edgar Filing: ROYAL BANK OF SCOTLAND GROUP PLC - Form 6-K

Customer accounts rose £28.1 billion, 6%, to £510.7 billion. Within this, repos increased £13.7 billion, 20%, to £82.1 billion. Excluding repos, customer deposits were up £14.3 billion, 3%, to £428.6 billion, reflecting growth in UK Corporate, £12.2 billion, Global Transaction Services £7.8 billion, UK Retail, £7.0 billion, Ulster Bank, £1.7 billion and Wealth, £0.8 billion, together with exchange rate and other movements of £3.0 billion. This was partially offset by decreases in Global Banking & Markets, £8.3 billion, US Retail & Commercial, £4.0 billion and Non-Core, £5.9 billion.

### Commentary on condensed consolidated balance sheet – pro forma

Debt securities in issue were down £28.0 billion, 11% to £218.4 billion. Reductions in the level of certificates of deposit and commercial paper in Global Banking & Markets were partially offset by a programme of new term issuances totalling £38.4 billion.

Subordinated liabilities decreased by £4.5 billion, 14% to £27.1 billion. This reflected the redemption of £2.6 billion undated loan capital, debt preference shares and trust preferred securities under the liability management exercise completed in May, together with the conversion of £0.8 billion US dollar and Sterling preference shares and the redemption of £1.6 billion of other dated and undated loan capital, which were partially offset by the effect of exchange rate movements and other adjustments of £0.5 billion.

The Group's non-controlling interests decreased by £0.8 billion, 36%, to £1.4 billion, primarily reflecting the disposal of the majority of the RBS Sempra Commodities JV business, £0.6 billion, and the life assurance business, £0.2 billion.

Owner's equity decreased by £2.6 billion, 3%, to £75.1 billion. This was driven by the partial redemption of preference shares and paid in equity, £3.1 billion less related gains of £0.6 billion, the attributable loss for the period, £1.1 billion, together with an increase in own shares held of £0.7 billion and higher losses in available-for-sale reserves, £0.3 billion. Offsetting these reductions were the issue of £0.8 billion ordinary shares on conversion of the US dollar and Sterling denominated non-cumulative preference shares classified as debt and exchange rate and other movements, £1.2 billion.

## Notes on pro forma results

### 1. Basis of preparation

#### Pro forma results

The pro forma financial information, prepared using the Group's accounting policies, shows the underlying performance of the Group including the results of the ABN AMRO businesses retained by the Group. This information is provided to give a better understanding of the results of the Group's operations. Group operating profit on a pro forma basis excludes:

- amortisation of purchased intangible assets;
- integration and restructuring costs;
- gain on redemption of own debt;
- strategic disposals;
- bonus tax;
- Asset Protection Scheme credit default swap - fair value changes;

From 1 April 2010, other than these differences in presentation, the Group's pro forma and statutory results are substantially the same.

#### Acquisition and separation of ABN AMRO

On 17 October 2007, RFS Holdings B.V., completed the acquisition of ABN AMRO Holding N.V. which was renamed RBS Holdings N.V. on 1 April 2010 when the shares in ABN AMRO Bank N.V. were transferred to ABN AMRO Group N.V., a holding company for the interests of the Dutch State. This marked the substantial completion of the restructuring of the activities of ABN AMRO Holding N.V. in accordance with the agreement between the RBSG, the Dutch State and Banco Santander, SA. RBS Holdings N.V. has one direct subsidiary, The Royal Bank of Scotland N.V., a fully operational bank within the Group, which is independently rated and regulated by the Dutch Central Bank.

##### 5. Pensions

Pension costs for the year ended 31 December 2010 amounted to £561 million (2009 - £653 million excluding curtailment gains), net of a £78 million gain in US Retail & Commercial associated with changes to its defined benefit pension plan. Defined benefit schemes charges are based on the actuarially determined pension cost rates at 31 December 2009.

Curtailment gains of £2,148 million were recognised in 2009 arising from changes to pension benefits in the main UK scheme and certain other subsidiaries schemes due to the capping of future salary increases that will count for pension purposes to the lower of 2% or the rate of inflation in any year.

The most recent funding valuation of the main UK scheme was 31 March 2007. A funding valuation of the Main UK scheme at 31 March 2010 is currently in progress. The scheme trustees and the Group are in discussion on this

valuation and the level of contributions to be paid by the Group and expect to reach agreement by 30 June 2011. The Group expects that in addition to estimated contributions of £300 - £350 million for future accrual of benefits, it will make additional contributions, as yet unquantified, in 2011 and subsequent years to improve the funding position of the scheme.

Refer to analysis in Note 4 on the statutory results on page 156.

#### 6. Bank levy

In his 22 June 2010 budget statement, the Chancellor announced that the UK Government will introduce an annual bank levy. The Finance Bill 2011 contains details of how the levy will be calculated and collected. The levy will be collected through the existing quarterly Corporation Tax collection mechanism starting with payment dates on or after the date the Finance Bill 2011 receives Royal Assent.

The levy will be based upon the total chargeable equity and liabilities as reported in the balance sheet at the end of a chargeable period. In determining the chargeable equity and liabilities the following amounts are excluded: adjusted Tier 1 capital; certain "protected deposits" (for example those protected under the Financial Services Compensation Scheme); liabilities that arise from certain insurance business within banking groups; liabilities in respect of currency notes in circulation; Financial Services Compensation Scheme liabilities; liabilities representing segregated client money; and deferred tax liabilities, current tax liabilities, liabilities in respect of the levy, revaluation of property liabilities, liabilities representing the revaluation of business premises and defined benefit retirement liabilities. It will also be permitted in specified circumstances to reduce certain liabilities: by netting them against certain assets; offsetting assets on the relevant balance sheets that would qualify as high quality liquid assets (in accordance with the FSA definition); and repo liabilities secured against sovereign and supranational debt.

The levy will be set at a rate of 0.075 per cent from 2011. Three different rates apply during 2011, these average to 0.075 per cent. Certain liabilities will be subject to only a half rate, namely any deposits not otherwise excluded, (except for those from financial institutions and financial traders) and liabilities with a maturity greater than one year at the balance sheet date. The levy will not be charged on the first £20 billion of chargeable liabilities.

If the levy had been applied to the balance sheet at 31 December 2010, the cost of the levy to RBS would be in the region of £350 to £400 million in 2011.

#### 7. Tax

The credit/(charge) for tax differs from the tax (charge)/credit computed by applying the standard UK corporation tax rate of 28% as follows:

Actual tax credit/(charge)	7	261	(649)	(663)	339

The high tax charge in 2010 reflects profits in high tax regimes and losses in low tax regimes, together with £450 million relating to losses in overseas subsidiaries for which a deferred tax asset has not been recognised, and £299 million in respect of losses on disposal of businesses and write-downs for which no tax relief is available. This was offset in part by non-taxable items including the gain on the disposal of the Global Merchant Services business.

The Group has recognised a deferred tax asset at 31 December 2010 of £6,373 million (30 September 2010 - £5,907 million; 31 December 2009 - £6,492 million), of which £3,849 million (30 September 2010 - £3,741 million; 31 December 2009 - £4,803 million) relates to carried forward trading losses in the UK. Under UK tax legislation, these UK losses can be carried forward indefinitely to be utilised against profits arising in the future. The Group has considered the carrying value of this asset as at 31 December 2010 and concluded that it is recoverable based on future profit projections. Deferred tax assets of £2,008 million (31 December 2009 - £2,163 million) have not been recognised in respect of tax losses carried forward of £9,689 million (31 December 2009 - £7,759 million).
