Key point

- The Q1 2011 currency translation movement represents the net charge on retranslating net investments in foreign operations and related currency hedging, following the weakening of the US dollar against sterling since the year end.

Commentary on condensed consolidated balance sheet

Total assets of £1,413.3 billion at 31 March 2011 were down £40.3 billion, 3%, compared with 31 December 2010. This principally reflects the reduction in the mark-to-market value of derivatives within Global Banking & Markets and the continuing planned disposal of Non-Core assets, offset in part by higher settlement balances as a result of increased customer activity from seasonal year-end lows.

Loans and advances to banks increased by £3.9 billion, 4%, to £104.5 billion including reverse repurchase agreements and stock borrowing ('reverse repos'), up £2.5 billion, 6%, to £45.2 billion and bank placings up £1.4 billion, 2%, to £59.3 billion.

Loans and advances to customers declined £0.6 billion to £554.7 billion. Within this, reverse repurchase agreements were up £8.0 billion, 15%, to £60.5 billion. Customer lending decreased by £8.6 billion to £494.1 billion, or £513.3 billion before impairments. This reflected planned reductions in Non-Core of £7.3 billion along with declines in Global Banking & Markets, £4.7 billion and Ulster Bank, £0.4 billion. These were partially offset by growth in Global Transaction Services, £2.7 billion, UK Retail, £1.6 billion, UK Corporate, £0.8 billion and Wealth, £0.3 billion, together with the effect of exchange rate and other movements.

Debt securities were up £13.9 billion, 6%, to £231.4 billion, driven mainly by increased holdings of government bonds within Global Banking & Markets.

Settlement asset balances rose £11.4 billion, 98%, to £23.0 billion as a result of increased customer activity from seasonal year-end lows.

Movements in the value of derivative assets, down £66.0 billion, 15%, to £361.0 billion, and liabilities, down £63.3 billion 15% to £360.6 billion, primarily reflect decreases in interest rate contracts, higher interest rates and the net effect of currency movements, with Sterling strengthening against the US dollar but weakening against the Euro.

The reduction in assets and liabilities of disposal groups primarily resulted from the completion of parts of the RBS Sempra Commodities JV business disposal.

Deposits by banks increased £4.7 billion, 5%, to £103.4 billion, with higher repurchase agreements and stock lending ('repos'), up £6.9 billion, 21%, to £39.6 billion offset by reduced inter-bank deposits, down £2.2 billion, 3%, to £63.8 billion.

Customer accounts increased £8.2 billion, 2%, to £518.9 billion. Within this, repos increased £8.3 billion, 10%, to £90.4 billion. Excluding repos, customer deposits were down £0.1 billion at £428.5 billion, reflecting decreases in Global Banking & Markets, £2.2 billion, offset by growth in Wealth, £1.1 billion, UK Corporate, £0.6 billion, Non-Core £0.4 billion and Ulster Bank £0.3 billion, together with exchange and other movements.

Settlement liability balances were up £10.4 billion, 95%, to £21.4 billion and short positions rose £6.9 billion, 16% to £50.1 billion due to increased customer activity from seasonal year-end lows.

Commentary on condensed consolidated balance sheet

Subordinated liabilities decreased by £0.5 billion, 2% to £26.5 billion. This reflected the redemption of £0.2 billion US dollar subordinated notes, together with the effect of exchange rate movements and other adjustments of £0.3 billion.

Owner's equity decreased by £1.1 billion, 1%, to £74.1 billion, driven by the £0.5 billion attributable loss for the period together with movements in foreign exchange reserve, £0.4 billion and cash flow hedging reserves, £0.2 billion.

6. Tax

The (charge)/credit for tax differs from the tax credit computed by applying the standard UK corporation tax rate of 26.5% (2010 - 28%) as follows:

	Quarter ended		
	31 March 2011 £m	31 December 2010 £m	31 March 2010 £m
Loss before tax	(116)	(8)	(5)
Tax credit based on the standard UK corporation tax rate of 26.5% (2010-28%)	31	2	1
Unrecognised timing differences	5	11	(52)
Items not allowed for tax			
- losses on strategic disposals and write downs	(3)	(129)	(6)
- other	(40)	(190)	(25)
Non-taxable items			
- gain on sale of Global Merchant Services	12	221	-
- gain on redemption of own debt	-	(1)	-
- other	12	240	2
Taxable foreign exchange movements	2	2	-
Foreign profits taxed at other rates	(200)	(131)	(124)
UK tax rate change - deferred tax impact	(87)	8	-
Losses in period where no deferred tax asset recognised	(166)	(96)	(83)
Losses brought forward and utilised	16	(8)	8
Adjustments in respect of prior periods	(5)	74	172
Actual tax (charge)/credit	(423)	3	(107)

The high charge in the first three months of 2011 reflects profits in high tax regimes (principally US) and losses in low tax regimes (principally Ireland), losses in overseas subsidiaries for which a deferred tax asset has not been recognised (principally Ireland and the Netherlands) and the effect of the reduction of 1% in the rate of UK Corporation Tax enacted in March 2011 on the net deferred tax balance.

The combined effect of the Irish tax losses and the 1% change in the standard rate of UK corporation tax accounts for £331 million (73%) of the difference between the actual tax charge and the tax credit derived from applying the standard UK Corporation Tax rate to the results for the period.

The Group has recognised a deferred tax asset at 31 March 2011 of £6,299 million (31 December 2010 - £6,373 million), of which £3,770 million (31 December 2010 - £3,849 million) relates to carried forward trading losses in the UK. Under UK tax legislation, these UK losses can be carried forward indefinitely to be utilised against profits arising in the future. The Group has considered the carrying value of this asset as at 31 March 2011 and concluded that it is recoverable based on future profit projections.

10. Financial instruments (continued)

Financial instruments carried at fair value

Refer to Note 12 Financial instruments - valuation of the 2010 Annual Report and Accounts for valuation techniques.

Certain aspects relating to the valuation of financial instruments carried at fair value are discussed below.

Valuation reserves

When valuing financial instruments in the trading book, adjustments are made to mid-market valuations to cover bid-offer spread, liquidity and credit risk.

The table below shows the valuation reserves and adjustments.

	31 March 2011 £m	31 December 2010 £m

CVA represent an estimate of the adjustment to fair value that a market participant would make to incorporate the credit risk inherent in counterparty derivative exposures.

Key points

- The decrease in monoline CVA was driven by a reduction in exposure mainly due to higher prices of underlying reference instruments (see page 108).
- The CDPC CVA reduced as exposure decreased reflecting decline in relative value of senior tranches partially offset by wider credit spreads of the underlying portfolios (see page 108).
- CVA held against exposures to other counterparties decreased due to tighter credit spreads (specifically European names), changes to risk parameters and realised defaults.

10. Financial instruments (continued)

Valuation hierarchy (continued)

Key points

- Total assets carried at fair value decreased by £44.5 billion in the quarter to £741.6 billion, principally in derivatives (£66.1 billion) and collateral (£1.4 billion), partially offset by higher debt securities (£14.2 billion) and reverse repos (£9.5 billion).
- Total liabilities carried at fair value decreased by £48.3 billion to £592.1 billion, mainly in derivatives (£63.4 billion) and collateral (£4.9 billion) offset by higher debt securities in issue (£1.9 billion), repos (£9.8 billion) and short positions (£7.0 billion).
- Level 3 assets decreased by £1.6 billion to £14.1 billion, mainly reflecting French bank bond disposals and increased observability and liquidity in debt securities and credit derivatives. The APS derivative decreased from £550 million to £81 million primarily due to reduction in covered assets.
- Level 3 liabilities increased by £0.6 billion to £5.4 billion primarily due to refinements to structured note classifications in RBS N.V..
- The favourable and unfavourable effects of reasonably possible alternative assumptions on level 3 instruments were £1,730 million and £1,190 million respectively excluding £660 million and £400 million relating to the APS derivative. These sensitivities are calculated at sub- portfolio level and hence these aggregated figures do not reflect the correlation between some of the sensitivities.

Notes (continued)

11. Available-for-sale financial assets

During Q1 2011 gains were realised, mainly in Group Treasury (£163 million), which were offset by adverse movements relating to IFRS volatility and other volatile Treasury items.

	Quarter ended	
	31 March 2011	31 December 2010
Available-for-sale reserve	£m	£m

Realised (gains)/losses	(197)	16
Tax	9	337
At end of period	(2,063)	(2,037)

The above table excludes gains attributable to non-controlling interests of £2 million (Q4 2010 - £1 million loss).

12. Contingent liabilities and commitments

Total contingent liabilities and commitments	275,305	24,579	299,884	287,677	26,654	314,331

Additional contingent liabilities arise in the normal course of the Group's business. It is not anticipated that any material loss will arise from these transactions.

13. Litigation and investigations developments

Except for the developments noted below, there have been no material changes to the litigation or investigations as disclosed in the Annual Results for the year ended 31 December 2010.

Personal current accounts

On 29 March 2011, the Office of Fair Trading (OFT) published its update report in relation to personal current accounts. This noted further progress in improving consumer control over the use of unarranged overdrafts. In particular, the Lending Standards Board has led on producing standards and guidance included in a revised Lending Code published on 31 March 2011. The OFT will continue to monitor the market and will consider the need for, and appropriate timing of, further update reports in light of other developments, in particular the work of the Independent Commission on Banking. The OFT intends to conduct a more comprehensive review of the market in 2012.

Independent Commission on Banking

On 16 June 2010, HM Treasury published the terms of reference for the Government's Independent Commission on Banking (ICB). The ICB is considering the structure of the United Kingdom banking sector and is looking at structural and non-structural measures to reform the banking system and to promote competition. It is mandated to formulate policy recommendations with a view to: (i) reducing systemic risk in the banking sector, exploring the risk posed by banks of different size, scale and function; (ii) mitigating moral hazard in the banking system; (iii) reducing the likelihood and impact of a bank's failure; and (iv) promoting competition in retail and investment banking with a view to ensuring that the needs of banks' customers are served efficiently and considering the extent to which large banks can gain competitive advantage from being perceived as "too big to fail".

The ICB published its Interim Report on 11 April 2011 which contains the ICB's suggestions for changes to the UK banking sector. The report is complex, and while its proposals have potential implications for the Group and many of its stakeholders, they require further clarification and elaboration if they are to be implemented. At this stage it is not possible to estimate the effect of the ICB's report and recommendations upon the Group, if any.

The ICB reports to the Cabinet Committee on Banking Reform and is required to produce a final report by the end of September 2011.

Notes (continued)

13. Litigation and investigations developments (continued)

US dollar clearing activities

In May 2010, following a criminal investigation by the United States Department of Justice (DoJ) into its dollar clearing activities, Office of Foreign Assets Control compliance procedures and other Bank Secrecy Act compliance matters, RBS NV formally entered into a Deferred Prosecution Agreement (DPA) with the DoJ resolving the investigation. The investigation was in relation to activities before the Consortium Members acquired ABN AMRO Holding N.V. (now known as RBS Holdings N.V.). The agreement was signed by RBS NV and is binding on that entity and its subsidiaries. Pursuant to the DPA, RBS NV paid a penalty of US\$500 million and agreed that it will comply with the terms of the DPA and continue to co-operate fully with any further investigations. Payment of the penalty was made from a provision established in April 2007 when an agreement in principle to settle was first announced. At the joint request of the DoJ and RBS NV, in order to allow RBS NV sufficient time to fulfil its obligations, the U.S. District Court, on 6 April 2011, extended the duration of the DPA until 31 December 2011. Upon satisfaction of the conditions of the DPA within that period, the matter will be fully resolved. Failure to comply with the terms of the DPA could result in the DoJ recommencing its investigations, the outcome of which would be uncertain and could result in public censure and fines or have an adverse effect on RBS Holdings N.V.'s operations, any of which could have a material adverse effect on its business, reputation, results of operation and financial condition.

Payment Protection Insurance (PPI)

Following unsuccessful negotiations with the industry, the Financial Services Authority (FSA) issued consultation papers on PPI complaint handling and redress in September 2009 and again in March 2010. The FSA published its final policy statement on 10 August 2010 and instructed firms to implement the measures contained in it by 1 December 2010. The new rules impose significant changes with respect to the handling of mis-selling PPI complaints. On 8 October 2010, the British Bankers' Association (BBA) filed an application for judicial review of the FSA's policy statement and of related guidance issued by the Financial Ombudsman Service (FOS). The application was heard in January 2011. On 20 April 2011 the High Court issued judgment in favour of the FSA and the FOS. The BBA is considering whether to appeal the judgment. At this time, the Group is unable reliably to estimate any potential financial liability, although it could prove to be material.

LIBOR Investigation

The US Commodity Futures Trading Commission, the US Securities and Exchange Commission and the European Commission are conducting investigations into the submission of various LIBOR rates by relevant panel banks. As a panel bank in each instance, RBS Group is co-operating with these investigations and is keeping other relevant regulators informed. It is not possible to estimate with any certainty what effect these investigations and any related developments may have on the Group.

14. Other developments

Bank levy

The UK bank levy announced in the June 2010 Budget has been included in the Finance Bill 2011 published in March 2011. The levy is an annual charge based on period-end equity and liabilities. The legislation has yet to be enacted and no amounts have been accrued for the levy in the Group's Q1 2011 results. The estimated cost for 2011 is in the region of £350 million to £400 million.

Notes (continued)

14. Other developments (continued)

Proposed transfers of a substantial part of the business activities of RBS N.V. to The Royal Bank of Scotland plc (RBS plc)

On 19 April 2011, the Group announced its intention to transfer a substantial part of the business activities of RBS N.V. to RBS plc (the "Proposed Transfers"), subject, amongst other matters, to regulatory and other approvals, further tax and other analysis in respect of the assets and liabilities to be transferred and employee consultation procedures.

The Proposed Transfers will streamline the manner in which the GBM and GTS businesses of the Group interact with clients with simplified access to the GBM and GTS product suites.

It is expected that the Proposed Transfers will be implemented on a phased basis over a period ending 31 December 2013. A large part of the Proposed Transfers (including the transfers of certain securities issued by RBS N.V.) is expected to have taken place by the end of 2012.

Rating agencies

The Group and RBS plc's long term and short term ratings have remained unchanged in the quarter. On 9 March 2011, Standard & Poor's affirmed the A+ counterparty rating of RBS plc and upgraded its standalone credit profile from BBB+ to A-. The agency highlighted that they expect RBS plc's standalone credit profile to move toward the A+ counterparty rating by 2012 if continued progress is made, following the strategic plan. The counterparty rating contains 2 notches of uplift to account for the systemic importance of RBS.

Gender equality in insurance contracts

On 1 March 2011, the European Court of Justice (ECJ) upheld a ruling that insurers are no longer allowed to use gender as a rating factor across the insurance industry. This will have a significant impact on the insurance industry in calculating premiums and determining benefits. The Group is currently working through the findings, and any consequences arising will be rectified by December 2012 in line with the ruling from the ECJ. At this stage, it is not possible to estimate the impact which the ECJ's ruling may have on the Group's businesses, financial position or profitability.

15. Date of approval

This announcement was approved by the Board of directors on 5 May 2011.

16. Post balance sheet events

There have been no significant events between 31 March 2011 and the date of approval of this announcement which would require a change to or additional disclosure in the announcement.
