In the Second Quarter of Fiscal 2012, Signet's gross margin was \$294.8 million (Second Quarter Fiscal 2011: \$237.2 million), up by \$57.6 million or 24.3%. The gross margin rate increased by 400 basis points to 37.0% (Second Quarter Fiscal 2011: 33.0%), with the gross merchandise margin up 90 basis points. The US division's gross merchandise margin was up 110 basis points compared to the second quarter of Fiscal 2011 and benefited from selective price increases and reduced discounting, which more than offset higher commodity costs. The UK division's gross merchandise margin declined by 40 basis points, with the impact of an increase in the cost of commodities, and a higher value added tax rate, being largely offset by a number of price increases.

Gross margin also benefited from an improved net bad debt to total US sales ratio compared to the Second Quarter of Fiscal 2011 and leverage on store occupancy costs in the US division. The net bad debt to total US sales ratio was 4.4% (Second Quarter Fiscal 2011: 5.2%). In-house customer finance participation in the US division was 57.7% (Second Quarter Fiscal 2011: 56.3%).

For the Second Quarter of Fiscal 2012, selling, general and administrative expenses were \$224.5 million (Second Quarter Fiscal 2011: \$203.7 million), up by \$20.8 million or 10.2%. The major contributing reasons for the increase were as follows: increased net advertising investment of \$4.0 million; \$3.5 million was attributable to currency fluctuations; \$1.5 million to higher 401(k) contributions; \$7.6 million of the remaining increase was as a result of store staff costs, which flexed with sales, and the balance primarily reflected increased investment in IT and credit infrastructure.

In the Second Quarter of Fiscal 2012, other operating income increased by \$4.8 million to \$32.0 million (Second Quarter Fiscal 2011: \$27.2 million), up by 17.6%. This reflected increased interest income earned from higher outstanding receivables balances.

In the Second Quarter of Fiscal 2012, net operating income increased by \$41.6 million to \$102.3 million (Second Quarter Fiscal 2011: \$60.7 million), up 68.5% over the Second Quarter of Fiscal 2011. The US division's net operating income increased by \$43.7 million to \$104.4 million (Second Quarter Fiscal 2011: \$60.7 million), up 72.0%, while net operating income in the UK division decreased by \$1.9 million to \$2.8 million, down by 40.4% (Second Quarter Fiscal 2011: \$4.7 million, including a gain of \$0.9 million on a real estate disposal).

Operating margin increased by 430 basis points to 12.8% (Second Quarter Fiscal 2011: 8.5%). The US division's operating margin was up 570 basis points to 16.2% (Second Quarter Fiscal 2011: 10.5%) and that of the UK division declined by 150 basis points to 1.8% (Second Quarter Fiscal 2011: 3.3%).

Interest expense, net

In the Second Quarter of Fiscal 2012, net interest expense was \$2.5 million (Second Quarter Fiscal 2011: \$6.0 million), including a write-off of \$1.3 million of unamortized deferred financing fees related to the termination of the prior revolving credit facility. The decrease was due to the prepayment of private placement notes during Fiscal 2011.

Income before income taxes

For the Second Quarter of Fiscal 2012, income before income taxes increased by \$45.1 million to \$99.8 million (Second Quarter Fiscal 2011: \$54.7 million), up by 82.4%.

Income taxes

Income tax expenses in the Second Quarter of Fiscal 2012 were \$33.5 million (Second Quarter Fiscal 2011: \$16.0 million), an effective tax rate of 33.6%, which reflects the favorable recognition of \$1.9 million previously unrecognized tax benefits in the second quarter of Fiscal 2012 (Second Quarter Fiscal 2011: 29.3%, included the favorable recognition of \$4.5 million previously unrecognized tax benefits). The anticipated effective tax rate for Fiscal 2012 is approximately 35.5% (Fiscal 2011: 33.3%), which reflects the recognition of the above \$1.9 million unrecognized tax benefit.

Net income

Net income for the Second Quarter of Fiscal 2012 increased by \$27.6 million to \$66.3 million (Second Quarter Fiscal 2011: \$38.7 million), up by 71.3%.

Earnings per share

For the Second Quarter of Fiscal 2012, basic and diluted earnings per share were \$0.77 and \$0.76, respectively (Second Quarter Fiscal 2011: both \$0.45), an increase of 71.1% and 68.9%, respectively.

The accompanying notes are an integral part of these condensed consolidated financial statements.

1. Basis of preparation

Signet Jewelers Limited (the "Company") and its subsidiaries (collectively, "Signet") is a leading retailer of jewelry, watches and associated services. Signet manages its business as two geographical segments, being the United States of America (the "US") and the United Kingdom (the "UK"). The US division operates retail stores under brands including Kay Jewelers, Jared The Galleria Of Jewelry and various regional brands, while the UK division's retail stores operate under brands including H.Samuel and Ernest Jones.

These condensed consolidated financial statements included herein have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Certain information normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") have been condensed or omitted from this report, as is permitted by such rules and regulations. In the opinion of management, the accompanying condensed consolidated financial statements reflect all adjustments, which are of a normal recurring nature, necessary for a fair presentation of the results for the interim periods. It is suggested that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and notes included in Signet's Annual Report on Form 10-K for the year ended January 29, 2011.

Correction of immaterial error

During the third quarter of Fiscal 2011, Signet changed its accounting for extended service plans. Previously, revenue from the sale of extended service plans was deferred, net of direct costs arising from the sale, and was recognized in proportion to the historical actual claims incurred. Signet has conducted a review of the claims cost patterns, including estimates of future claims costs expected to be incurred, and concluded that the deferral period required extension and that claims cost is a more appropriate basis for revenue recognition than the number of claims incurred. In addition, Signet now defers all revenues and recognizes direct costs in proportion to the revenue recognized. These changes are in accordance with ASC 605-20-25. The impact resulted in an overstatement of extended service plan revenue and an understatement of deferred revenue. These plans are only sold by the US division and therefore only affect the US segment reporting.

Signet evaluated the effects individually and in the aggregate and determined that its prior period financial statements were not materially misstated. However, Signet determined that the cumulative effect of adjusting this in the third quarter of Fiscal 2011 would be material to the Fiscal 2011 financial statements. Therefore, Signet adjusted the affected prior periods and presented the results in this quarterly report.

As a result of applying this correction, the following condensed consolidated financial statements were impacted as follows:

2. Foreign currency translation

The exchange rates used in these condensed consolidated financial statements for the translation of UK pound sterling transactions and balances into US dollars are follows:

26 weeks ended July 30, 2011 52 weeks ended January 29, 2011 26 weeks ended July 31, 2010

Income statement (average rate)	1.62	1.551	1.51
Balance sheet (period end rate)	1.64	1.59	1.57

1. Not meaningful to these financial statements as the 52 week income statement is not presented.

The year-to-date average exchange rate is used to prepare the income statement for the 26 weeks ended July 30, 2011 and is calculated from the weekly average exchange rates weighted by sales of the UK division. The income statement for the 13 weeks ended July 30, 2011 is calculated as the difference between the income statement for the 26 weeks ended July 30, 2011 and the previously reported income statement for the 13 weeks ended April 30, 2011. Therefore, the second quarter's income statement includes the impact of the change in the year-to-date exchange rates between these quarter ends.

3. Non-GAAP measures and other information

Income statement at constant exchange rates

Movements in the US dollar to pound sterling exchange rate have an impact on Signet's results. The UK division is managed in pounds sterling as sales and costs are incurred in that currency and its results are then translated into US dollars for external reporting purposes. Management believes it assists in understanding the performance of Signet and its UK division if constant currency figures are given. This is particularly so in periods when exchange rates are volatile. The constant currency amounts are calculated by retranslating the prior year figures using the current year's exchange rate. Management considers it useful to exclude the impact of movements in the pound sterling to US dollar exchange rate to analyze and explain changes and trends in Signet's sales and costs.
