The following information was issued as a Company announcement in London, England and is furnished pursuant to General Instruction B to the General Instructions to Form 6-K:

The Royal Bank of Scotland Group plc ("RBS")

Divisional Reorganisation and Group Reporting Changes (effective 1 January 2012)

This announcement provides details of the changes to the Group structure announced in January 2012 and restates the segmental results for 2011 and 2010 on the new divisional basis. To further aid historic comparison ahead of the Group's first quarter 2012 results, restated first and fourth quarter 2011 financial information is also contained within. A spreadsheet containing this financial information will also be available at www.rbs.com/ir.

While these restatements affect the reported results of the divisions that comprise the Group's business, they have no impact on the Group's overall Income Statement, Balance Sheet or other primary statements.

Details of this reorganisation are set out below.

Divisional reorganisation

Organisational change

In January 2012, the Group announced changes to its wholesale banking operations in light of a changed market and regulatory environment. The changes have seen the reorganisation of the Group's wholesale businesses into 'Markets' and 'International Banking' and the proposed exit and/or downsizing of selected activities. The changes will ensure the wholesale businesses continue to deliver against the Group's strategy.

The changes will include an exit from cash equities, corporate broking, equity capital markets and mergers and acquisitions advisory businesses. Significant reductions in balance sheet, funding requirements and cost base in the remaining wholesale businesses will be implemented.

The GBM and GTS divisions have been reorganised as follows:

o

The 'Markets' division will maintain its focus on fixed income, with strong positions in debt capital raising, securitisation, risk management, foreign exchange and rates. It will serve the corporate and institutional clients of all Group businesses.

0

GBM's corporate banking business has combined with the international businesses of our GTS arm into a new 'International Banking' division which provides clients with a 'one-stop shop' access to the Group's debt financing, risk management and payments services. This international corporate business will ultimately be self-funded through its stable corporate deposit base.

 \mathbf{o}

The domestic small and mid-size corporates currently served within GTS will be managed within RBS's domestic corporate banking businesses in the UK, Ireland

(Ulster Bank) and the US (US Retail & Commercial).

Our wholesale businesses will be retaining their international footprint to ensure that they can serve our customers' needs globally. We believe that, despite current challenges to the sector, wholesale banking services can play a central role in supporting cross border trade and capital flows, financing requirements and risk management and we remain committed to this business.

Group Reporting Changes

Revised allocation of Group Treasury costs

In the first quarter of 2012, the Group revised its allocation of funding and liquidity costs and capital for the new divisional structure as well as for a new methodology. The new methodology is designed to ensure that the allocated funding and liquidity costs more fully reflect each division's funding requirement. Comparatives have been restated.

Revised divisional return on equity ratios

For the purposes of divisional return on equity ratios, notional equity has been calculated as a percentage of the monthly average of divisional risk-weighted assets (RWAs), adjusted for capital deductions. Historically, notional equity was allocated at 9% of RWAs for the Retail & Commercial divisions and 10% of RWAs for Global Banking & Markets. This has been revised and 10% of RWAs is now applied to both the Retail & Commercial and Markets divisions.

Fair Value of own Debt and Derivative Liabilities

The Group had previously excluded changes in the fair value of own debt (FVOD) in presenting the underlying performance of the Group on a managed basis given it is a volatile non-cash item. To better align our managed view of performance, movements in the fair value of own derivative liabilities (FVDL), previously incorporated within Markets operating performance, are now combined with the movement in FVOD in a single measure, 'Own Credit Adjustments' (OCA). Group and Markets operating results have been adjusted to reflect this change which does not affect profit/(loss) before and after tax.

Q1 2012 Results

The Group's results for the first quarter of 2012 will be announced on Friday 4 May. These results will be reported on the new divisional and Group reporting basis as described above. A financial supplement showing restated financial information for the last eight quarters will be available on the day at www.rbs.com/ir.

Forward-looking statements

Certain sections in this document contain 'forward-looking statements' as that term is defined in the United States Private Securities Litigation Reform Act of 1995, such as statements that include the words 'expect', 'estimate',

'project', 'anticipate', 'believes', 'should', 'intend', 'plan', 'could', 'probability', 'risk', 'target', 'goal', 'objective', 'will', 'endeavour', 'outlook', 'optimistic', 'prospects' and similar expressions or variations on such expressions. The forward-looking statements contained in this document speak only as of the date of this announcement, and the Group does not undertake to update any forward-looking statement to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
