Appendix 1 Income statement reconciliations and Segmental analysis (continued)

Segmental analysis

In January 2012, the Group announced the reorganisation of its wholesale businesses into 'Markets' and 'International Banking'. Divisional results are presented based on the new organisational structure. The Group also revised its allocation of funding and liquidity costs and capital for the new divisional structure as well as for a new methodology. In addition, the Group had previously included movements in the fair value of own derivative liabilities within the Markets operating segment. These movements are now combined with movements in the fair value of own debt in a single measure, 'own credit adjustments' and presented as a reconciling item. Refer to 'presentation of information' on page 4 of the main announcement for further details. Comparatives have been restated accordingly.

Analysis of divisional operating profit/(loss)

The following tables provide an analysis of divisional operating profit/(loss) by main income statement captions. The divisional income statements on pages 20 to 62 of the main announcement reflect certain presentational reallocations as described in the notes below. These do not affect the overall operating profit/(loss).

Businesses outlined for disposal

Appendix 2 Businesses outlined for disposal

To comply with EC State Aid requirements the Group agreed to make a series of divestments by the end of 2013: the disposal of a majority interest in Direct Line Group, Global Merchant Services and its interest in RBS Sempra Commodities JV. The Group also agreed to dispose of its RBS England and Wales and NatWest Scotland branch-based businesses, along with certain SME and corporate activities across the UK ('UK branch-based businesses'). The disposals of Global Merchant Services and RBS Sempra Commodities JV businesses have now effectively been completed.

On 12 October 2012, the Group announced that it had received notification of Santander's decision to pull out of its agreed purchase of certain of the Group's UK branched-based businesses. Santander's decision follows extensive work by both parties to separate the businesses into a largely standalone form and to prepare the business, customers and staff for transfer. RBS intends to initiate a new process of disposal following discussion with HM Treasury and the European Commission.

The Direct Line Group IPO prospectus was published on 28 September 2012 and the shares were admitted to listing on 16 October 2012. RBS Group sold 520.8 million ordinary shares in Direct Line Group, representing 34.7% of the total share capital, generating gross proceeds of £911 million. This was consistent with the already communicated plan to divest control of Direct Line Group in stages, with control ceded by the end of 2013 and complete disposal by the end of 2014.

Direct Line Group reached agreement with RBS Group in September 2012 for an arm's-length, five year distribution agreement for the continued provision of general insurance products post-divestment. Residual IT services will also be provided under a Transitional Services Agreement.

The table below shows total income and operating profit of Direct Line Group and the UK branch-based businesses.
