Form 6-K
February 27, 2014

FORM 6-K
SECURITIES AND EXCHANGE COMMISSION
Washington D.C. 20549

Report of Foreign Private Issuer

Pursuant to Rule 13a-16 or 15d-16
of the Securities Exchange Act of 1934

For February 27, 2014

Commission File Number: 001-10306

The Royal Bank of Scotland Group plc

RBS, Gogarburn, PO Box 1000
Edinburgh EH12 1HQ

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.

Form 20-F X

Form 40-F ___

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1): _____

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7): _____

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes ___

No X

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82-

The following information was issued as a Company announcement in London, England and is furnished pursuant to General Instruction B to the General Instructions to Form 6-K:

Appendix 1

RBS Capital Resolution ('RCR')

Appendix 1 RBS Capital Resolution

Background

In June 2013, in response to a recommendation by the Parliamentary Commission on Banking Standards, the UK Government announced it would review the case for an external 'bad bank', based on three objectives as originally outlined by the Chancellor:

- accelerating the return of RBS to the private sector;
- supporting the British economy; and
- best value for the taxpayer.

Following this announcement, RBS worked closely with HM Treasury ('HMT') and its advisers to identify a pool of assets with particularly high long-term capital intensity, credit risk, low returns and/or potential stress loss in varying scenarios. The balance of this identified pool was £47 billion as at 30 June 2013. The pool was forecast to be c.£38 billion of assets as at 31 December 2013, which together with derivatives were forecast to attract c.£116 billion of RWA equivalents.

HMT published its report on 1 November 2013. The review concluded that the effort, risk and expense involved in the creation of an external bad bank could not be justified. It also concluded that "RBS's existing provisions and levels of capital deducted suggested that projected future losses are appropriately covered".

As a result, and in line with its new strategic direction set out on 1 November 2013, RBS announced the creation of RBS Capital Resolution ('RCR') to separate and wind down RBS's high capital intensive assets. RCR will bring assets under common management and was established with the following principles:

- removing risk from the balance sheet in an efficient, expedient and economic manner;
- reducing the volatile outcomes in stressed environments; and
- accelerating the release of capital through management and exit of the portfolio.

The RCR division created with effect from 1 January 2014 is of a similar size to the ex Non-Core division, but the assets were selected on a different basis and no direct comparisons should be drawn. RCR assets were selected on the basis of long term capital intensity whereas the Non-Core assets were selected based on five strategic tests.

Going forward, as part of its external reporting, the Group will provide comprehensive and transparent disclosures on the progress of RCR, including funding and capital employed and released. Furthermore, a Board Oversight Committee ('BOC'), has been set up, reporting directly to the Group Board, to report on adherence to asset

management principles and recommend changes to strategy where appropriate. The BOC comprises a quorum of any two of the Chairman of the Group Board, the Senior Independent Director, the Chair of the Group Audit Committee and the Chair of the Board Risk Committee.

While there are inevitable uncertain market and execution risks associated with running down such assets, it is RBS's aspiration, subject to shareholder value, to remove most of these assets and capital from the balance sheet in three years. RCR will target a reduction in funded assets to c.£23 billion by the end of 2014; to between £15 billion and £11 billion by the end of 2015 and to less than £6 billion by the end of 2016. RCR is expected to be Common Equity Tier 1 ('CET1') accretive over its life and neutral for shareholder value, taking into account future regulatory capital requirements.

Appendix 1 RBS Capital Resolution

The RCR pool of assets was forecast to be c.£38 billion and c.£116 billion RWAE(1) at its inception on 1 January 2014 based on 30 June 2013 data. Since this forecast was made:

- £4.6 billion of impairments and other adjustments were recorded in respect of non-performing and other assets as a result of the change in realisation strategy noted above, with capital impact of £37 billion RWAE. The increased impairments relate to certain of the impaired or non-performing assets transferred to RCR, and reflect the revised holding strategy which has led to adverse changes in our estimates of future cash flows.
- there were materially higher levels of disposal activity and recoveries (£5 billion) in Non-Core than had been forecast based on 30 June 2013 data, with a capital impact of £14 billion reduction in RWAE.

In aggregate these two factors reduced the opening funded assets by £9 billion to £29 billion and RWAE by £51 billion to £65 billion. This reduction in funded assets in the second half of the year, particularly the disposals, has also resulted in a corresponding decrease in the Group's funding requirements.

At 1 January 2014, 48% of the portfolio's funded assets are from Non-Core (excluding Ulster Bank), 17% from Ulster Bank (Core and Non-Core) and the remainder are from UK Corporate, International Banking and Markets.

£12 billion of assets with RWAE of £11 billion managed by Non-Core have been returned to the relevant Core divisions because they did not meet the risk and capital criteria for RCR.

RCR commenced on 1 January 2014 and its first results will be reported separately in the Group's first quarter 2014 results.

Roll forward of funded assets

	Note	£bn
Estimated balance at 30 June 2013		46.8
Disposals	(a)	(6.0)
Run-off	(b)	(4.8)
Impairments	(c)	(5.2)

Other	(d)	(1.9)
Balance at 31 December 2013		28.9

Notes:

- (a) Disposals in the second half of the year, predominantly in Non-Core.
- (b) Represents repayments and amortisations, partially offset by draw down of facilities across the portfolios.
- (c) Includes all impairments in the second half of 2013, predominately in Non-Core, and reflects increased impairments relating to the creation of RCR and the related strategy.
- (d) Other includes fair value adjustments, foreign exchange movements (£1.2 billion) and finalisation of the asset pool.

(1) RWA equivalent (RWAE) is an internal metric that measures the equity capital employed in divisions. RWAE converts both performing and non-performing exposures into a consistent capital measure, being the sum of the regulatory RWAs and the regulatory capital deductions, the latter converted to RWAE by applying a multiplier. The Group applies a CET 1 ratio of 10%, consistent with that used for divisional return on equity measure; this results in an FLB3 RWAE conversion multiplier of 10.

Appendix 1 RBS Capital Resolution

Roll forward of FLB3 RWAE

	Note	£bn
Estimated balance at 30 June 2013		136.8
Disposals	(a)	(11.9)
Run-off	(b)	(10.9)
Impairments	(c)	(45.1)
Other	(d)	(3.9)
Balance at 31 December 2013		65.0

Notes:

- (a) Includes all aspects relating to disposals including associated removal of deductions from regulatory capital.
- (b) Represents RWAE on repayments and amortisations, partially offset by draw down of facilities across the portfolios.
- (c) RWAE impairment charge.
- (d) Other includes fair value adjustments; changes to inputs for RWA calculation (including LGD, PD, and slotting category); the implementation of a new RWA model or modification of an existing model approved by the PRA, foreign exchange movements and finalisation of the asset pool.

Edgar Filing: ROYAL BANK OF SCOTLAND GROUP PLC - Form 6-K

The £18 billion decrease in funded assets in the second half of the year resulted in a significantly higher reduction of £72 billion in RW Ae. This was due to:

- impairments of £5 billion recognised in the second half of 2013 resulted in a lower capital deduction for the excess of expected loss over provisions. Allowing for a restriction in provisions allowable against expected losses, the benefit was £4.5 billion or £45 billion of RW Ae.
- disposals of £6 billion resulting in RW Ae of £12 billion.
- run-off of £5 billion with a corresponding RW Ae of £11 billion.

Capital deductions comprised expected losses less impairment provisions (31 December 2013 - £1,774 million; 30 June 2013 - £6,047 million) and allocation of defined pension fund deficit (31 December 2013 - £58 million; 30 June 2013 - £38 million).

Additional details are set out on the following pages.

Appendix 1 RBS Capital Resolution

Impact of the revised strategy

The impact of the revised strategy on key metrics of the Group is set out below.

	Group £bn	RCR £bn	Rest of the Group £bn
