In conjunction with the previously announced divestitures of its Florida operations and northern California foodservice businesses, Smart & Final Inc. ( the Company ) has received the consents of its revolving credit facility and synthetic lease lender groups to the release of the lenders security positions in the divested assets.

The Company has also received lender consents to the restructuring of its revolving credit facility, to include in the borrowing base calculation a 50% advance rate against the value of certain Company owned real estate assets.

As previously announced on September 16, 2003 the Company applied \$42 million of net cash proceeds from the divestiture transactions to reduce the balance outstanding under its revolving credit facility, and the corresponding facility commitment amount. The Company s current usage of its revolving credit facility is approximately \$84 million. The facility commitment amount is currently \$127.8 million. The facility s calculated borrowing base is approximately \$112 million, indicating current availability under the facility of approximately \$28 million.

As previously announced on September 10, 2003 the trust of the company s synthetic lease facility sold two Florida real properties for \$14.3 million. These funds are being held within the trust for acquisition of replacement properties or later reduction to the lease facility amount.

The Company s revolving credit facility and synthetic lease lender groups are currently evaluating certain modifications to financial covenants to reflect the effect of the Company s divestiture transactions. The Company currently expects that the covenant modifications will receive lender approval prior to the end of its third fiscal quarter.
