PROXY STATEMENT

**2525 Armitage Avenue
Melrose Park, Illinois 60160**

December 12, 2003

Solicitation of Proxies

The board of directors of Alberto-Culver Company (the Company) solicits your proxy for use at the annual meeting of stockholders to be held on January 22, 2004 and at any adjournment thereof.

On December 1, 2003, the record date for the meeting, the Company had _____ shares of Class B common stock outstanding. This Proxy Statement and form of proxy are being mailed to stockholders on or about December 12, 2003. Pursuant to the conversion of all of the issued shares of Class A common stock into Class B common stock on a one-share-for-one-share basis which was effective on November 5, 2003 (the Conversion), there are no longer shares of Class A common stock outstanding. Unless the context herein otherwise requires, references to shares, common stock or Class B common stock shall refer to the Company's Class B common stock.

Each holder of record at the close of business on the record date is entitled to one vote for each Class B share then held. Any person submitting a proxy has the right to revoke it at any time before it is voted, in person at the meeting, by written notice to the Secretary of the Company or by delivery of a later-dated proxy.

The election of directors is decided by a plurality of the votes cast by holders of all shares entitled to vote in the election. Accordingly, withheld votes and broker non-votes will not affect the outcome of the election of directors.

A majority of the votes entitled to be cast thereon by holders of shares of common stock present in person or by proxy at the meeting is required to re-approve the Management Incentive Plan, as amended. Although abstentions and broker non-votes will be treated as present at the meeting for purposes of determining a quorum, abstentions will have the effect of a vote against the re-approval of the Management Incentive Plan, as amended, and broker non-votes will have no effect on the re-approval of the Management Incentive Plan, as amended.

A majority of the outstanding votes of the Company entitled to be cast thereon is required to approve each of the proposed amendments to Article 4 of the Company's Amended and Restated Certificate of Incorporation (the Certificate). Accordingly, withheld votes, broker non-votes and abstentions will have the effect of a vote against the approval of the proposed amendments to the Certificate.

Election of Directors

Unless otherwise instructed, proxies will be voted for the election as directors of the five persons listed as nominees for a term of three years. All of the nominees are currently serving as directors. Should any of the nominees become unable to accept nomination or election (which the Company has no reason to expect), it is the intention of the persons named in the enclosed proxy to vote for a substitute in each case or the board of directors may make an appropriate reduction in the number of directors to be elected.

Options are granted for a ten-year term and become exercisable in four equal annual installments commencing one year after the date of grant. No director who has received an Initial Grant shall be entitled to receive a Subsequent Grant in the same fiscal year. Outstanding options still exist under the 1994 Stock Option Plan For Non-Employee Directors (the 1994 Director Plan). No more options may be granted under the 1994 Director Plan without the approval of stockholders.

Non-employee directors also participate in the Deferred Compensation Plan for Non-Employee Directors (the DCP). Under the DCP, each non-employee director may elect to defer his or her annual retainer and meeting fees (Director Fees), receive shares of common stock on a quarterly basis equal to the Director Fees payable during such period or receive cash payable under the regular payment system. With respect to deferrals, non-employee directors may defer their Director Fees in a Company common stock fund or in other investment funds. Director Fees may be deferred at the election of each non-employee director until (i) one month after such director's service on the board of directors ends or (ii) any date selected by such board member.

Stock Option Grants

The table below sets forth certain information with respect to options granted to the named executive officers during the fiscal year ended September 30, 2003. All of these options were granted on January 23, 2003.

- (1) Options are granted under the Employee Stock Option Plan of 2003 (the 2003 ACSOP) which permits the compensation committee to grant non-qualified options to purchase shares of common stock. All options granted have a maximum term of ten years from the date of grant and an exercise price per share equal to the fair market value of a share of common stock on the date of grant. Generally, options become exercisable on a cumulative basis in annual increments of one-fourth of the optioned shares, commencing one year after the date of grant. For the options granted January 23, 2003, one-fourth of the options became exercisable on September 30, 2003, with the remaining options becoming exercisable in annual increments of one-fourth of the option shares each September 30th thereafter. The compensation committee may accelerate the exercisability of any options subject to such terms and conditions as it deems necessary and appropriate. In the event of a change in control, as defined in the 2003 ACSOP and summarized below under Employment Contracts, Termination of Employment and Change in Control Arrangements, all stock option awards will be immediately vested and all outstanding stock option awards will, depending on the type of consideration given to stockholders in connection with the change in control, either become options to purchase shares of the acquiring corporation or be canceled and option holders will receive a cash payment in lieu of the exercise of such option awards.
- (2) The dollar amounts in these columns assume that the market price per share of common stock appreciates in value from the date of grant to the expiration date of the option at the annualized rates indicated. These rates are set by the Securities and Exchange Commission and are not intended to forecast possible future appreciation, if any, of the price of common stock.

Long-Term Incentive Awards

The table below sets forth certain information with respect to the grant of performance units under the SVIP during the fiscal year ended September 30, 2003 to the named executive officers.

LONG-TERM INCENTIVE PLAN

AWARDS IN LAST FISCAL YEAR

Name	Number of Shares, Units or Other Rights (#) (1)	Performance or Other Period Until Maturaton or Payout	Estimated Future Payouts Under Non-Stock Price-Based Plans		
			Threshold (\$)	Target (\$)	Maximum (\$)
Leonard H. Lavin	600	3 years	\$ 150,000	\$ 600,000	\$ 1,200,000
Howard B. Bernick	725	3 years	181,250	725,000	1,450,000

William J. Cernugel	100	3 years	25,000	100,000	200,000
Michael H. Renzulli	340	3 years	85,000	340,000	680,000

- (1) Awards under the SVIP are made in the form of performance units, each unit having a payout value of \$250 if the threshold performance level is attained, \$1,000 if the target performance level is attained and \$2,000 if the maximum performance level is attained. Units will have no value if the threshold performance level is not attained. In the event of a change in control, payouts of awards may be reduced (but not below zero) under certain circumstances, so as not to constitute excess parachute payments within the meaning of the Internal Revenue Code (the Code).

Performance units were granted at the beginning of fiscal year 2003 for the three-year performance period ending September 30, 2005. At the time the performance units were granted, the compensation committee established objectives for such three-year performance period based on the percentile ranking of the total shareholder return of the Class B common stock among the total shareholder returns of the companies comprising the Standard & Poor's 500 Index. Participants may elect to receive all or a portion of their award, less applicable withholding taxes, in common stock. Participants owning shares of common stock having a dollar value below the guidelines established by the compensation committee will be required to take at least 50% of their award, less applicable withholding taxes, in common stock. In the event of a change in control, as defined in the SVIP and summarized below under Employment Contracts, Termination of Employment and Change in Control Arrangements, all or a pro-rata portion of the outstanding performance units, based on the number of fiscal years of each performance period that have elapsed and the percentile ranking of the Company based on the total shareholder return of the Class B common stock as of the date of the change in control compared to the total shareholder return of the companies comprising the index chosen for each such performance period by the compensation committee from among those indexes specified in the SVIP (Applicable Index) as of the end of the last quarter for which such information is available, will become payable in cash.

within 30 days following such change in control, subject to any reduction of such payment pursuant to the preceding paragraph. If at least six full calendar months of any fiscal year have elapsed, the entire fiscal year shall be deemed to have elapsed.

Effective for grants made on or after July 26, 2001, the SVIP was amended to (i) decrease the maximum payout from \$3,000 per unit to \$2,000 per unit, (ii) prohibit any payout if the Company's total shareholder return compared to the total shareholder return of companies comprising the Applicable Index would rank it at less than the 40th percentile (for grants made before July 26, 2001, payouts are prohibited if the Company's total shareholder return would rank it below the 50th percentile) and (iii) permit the compensation committee to reduce or eliminate any award otherwise payable if the Company's total shareholder return for the applicable performance period is negative.

Employment Contracts, Termination of Employment and Change in Control Arrangements

The Company's named executive officers are parties to severance agreements which provide payments and benefits if such officer's employment with the Company terminates under the circumstances set forth in their severance agreement within two years after a change in control, as defined in the agreement and summarized below. The severance agreement for each named executive officer provides for a payment in the amount which, when added to any other payments subject to the limitation set forth in Section 280G of the Code, ranges from 2.49 to 2.99 times such officer's base amount as such term is defined in Section 280G(b)(3) of the Code. Such payment shall be in lieu of any other amount of severance relating to salary or bonus continuation to be received by such officer upon termination of employment under any other severance plan or arrangement of the Company. The severance agreements provide for continuation of such officer's health, life, disability and similar insurance benefits for up to a three-year period. These agreements also provide for payment to the named executive officer of accrued salary and vacation pay, and of all amounts which he or she would otherwise be eligible to receive under the Company's incentive plans applicable to the fiscal year in which the termination occurs. The amounts payable to such an officer under each severance agreement may be reduced so as to not exceed the limitation on tax deductibility of such payments set forth in Section 280G of the Code.

Stock options granted to named executive officers under the 2003 ACSOP and Employee Stock Option Plan of 1988 (the 1988 ACSOP) will be immediately vested upon the occurrence of a change in control, as defined in the 2003 ACSOP and 1988 ACSOP and summarized below, and all outstanding stock options will, depending on the type of consideration given to stockholders in connection with the change in control, either become options to purchase shares of the acquiring corporation or be canceled and option holders will receive a cash payment in lieu of the exercise of such options. In addition, the payment of awards under the Management Incentive Plan (MIP) and the SVIP will be accelerated, and all or a pro-rata portion of each such award will become payable as provided in such plans, upon the occurrence of a change in control, as defined in such plans and summarized below. Under certain circumstances, awards paid pursuant to grants made under the SVIP may be reduced. See Long-Term Incentive Awards.

The definition of a change in control is the same for the 2003 ACSOP, 1988 ACSOP, SVIP, MIP, 2003 Director Plan, 1994 Director Plan, the 1994 Restricted Stock Plan (1994 RSP) and the 2003 Restricted Stock Plan (the 2003 RSP) and, except as provided in (iii) of this paragraph, the severance agreements. Generally, a change in control is defined as the occurrence of any of the following: (i) the acquisition by any individual, entity or group of both 20% or more of the combined voting power of the outstanding voting securities of the Company and combined voting power in excess of the combined voting power held by the Exempt Persons, as defined below, (ii) the cessation of the individuals who comprise the Incumbent Board, as defined below, to constitute a majority of the board of directors of the Company, (iii) except as provided in the next sentence, the consummation (but in the case of the severance agreements, upon approval by stockholders) of any merger, reorganization, consolidation or sale or other disposition (other than a tax-free spin-off of a subsidiary or other business unit of the Company) of all or substantially all of the assets of the Company (collectively, a Fundamental Change) or (iv) the approval by the stockholders of the Company of the complete liquidation or dissolution of the Company. A Fundamental Change will not be a change in control if (a) immediately after such Fundamental Change more than 60% of the combined voting power of the then outstanding voting securities of the resulting corporation or the Company, as the case may be, is then owned by all or substantially all of the individuals and entities who were the owners of the combined voting power of the outstanding voting securities of the Company immediately prior to such Fundamental Change and (b) a majority of the members of the board of directors of the resulting or acquiring corporation, as the case may be, were members of the Incumbent Board at the time of the execution of the initial agreement or action of the board of directors of the Company providing for such Fundamental Change.

A change in control will not be deemed to occur through the acquisition of voting securities of the Company if they were acquired (i) by an Exempt Person, an employee benefit plan or trust sponsored or maintained by the Company or any corporation controlled by the Company or (ii) through an exercise, conversion or exchange privilege acquired directly from the Company. In addition, a change in control will not be deemed to occur if such change in control resulted from the Company acquiring its own voting securities. Exempt Persons are defined as: (i) Mr. and Mrs. Lavin, their descendants and spouses of their descendants, and (ii) any estate of any such individuals or any trust or similar arrangement or charitable organization established by or for the benefit of any such individuals. Incumbent Board is defined as those individuals who comprised the board of directors of the Company as of October 24, 2002 and any individual who becomes a director subsequent to such date whose election or nomination was approved by either a majority of the Incumbent Board or at least a majority of the combined voting power held by the Exempt Persons.

Key Executive Deferred Compensation Agreements

Upon retiring on or after reaching a specified retirement age, each of the named executive officers will be entitled to receive the amount of compensation as set forth in his or her key executive deferred compensation agreement payable in equal monthly installments. Payments range up to a maximum of \$400,000 per year and are payable over a maximum of 15 years. If the named executive officer is terminated for any reason prior to his or her specified retirement age, such executive shall not

be entitled to receive any payments under his or her key executive deferred compensation agreement. In the event the executive dies (and was not terminated by the Company) prior to reaching his or her retirement age, the individual(s) designated by such executive will be entitled to 50% of the deceased executive's deferred benefit. In the event the executive dies after reaching his or her retirement age but before termination of employment with the Company, the individual(s) designated by such executive will be entitled to 100% of the deceased executive's deferred benefit. Executives retiring prior to their specified retirement age may, at the discretion of a committee of the board of directors, receive all or a portion of those benefits they would have been entitled to receive had they retired at their specified retirement age.

Payments are conditioned upon the named executive officer rendering such reasonable business consulting and advisory services to the Company or any subsidiary as the Chief Executive Officer deems desirable. No executive will be obligated to provide more than eight hours of consulting and advisory services a month without additional compensation. If the executive commits an act of disloyalty, as defined in the key executive deferred compensation agreements, to the Company or any of its subsidiaries, the executive shall have no right to receive any payments under these agreements. The obligations of the Company under these agreements are unfunded and unsecured promises to pay. The Company has voluntarily elected to purchase insurance policies in the name of the Company covering the life of each named executive officer.

Executive Deferred Compensation Plan

The named executive officers may also participate in the Executive Deferred Compensation Plan. All eligible employees (all highly compensated employees within the meaning of Section 414(q) of the Code) may elect to defer all or a portion of their salary and commissions (Compensation). Compensation may be deferred for any period of time, provided it is no less than three years, and can be paid out to the employee in a lump sum payment or annually over any period not to exceed five years. The compensation committee determines the rate of interest earned on money deferred under the plan, and may change that rate as it deems appropriate. Such rate is currently 5% per annum. Under certain circumstances, employees who are unable to receive the maximum Company matching contribution they would have otherwise received (the Maximum Match) under the Alberto-Culver or Sally Beauty 401(k) Savings Plans because of limitations under the Code, will be credited in this plan with an amount equal to the difference between the Maximum Match and the amount of the matching contribution such employee actually received in such 401(k) plan. Such contribution will be (i) made by the Company, (ii) immediately vested and (iii) required to be deferred in this plan until the termination of such employee's employment with the Company. The obligations of the Company under the Executive Deferred Compensation Plan are unfunded and unsecured promises to pay.

Equity Compensation Plan Information

The securities reflected in column (a) do not include 276,500 shares of common stock that have been issued under the 1994 RSP and 2003 RSP, but have not yet vested. The securities reflected in column (c) include the number of shares remaining available to issue under the 2003 ACSOP, 2003 Director Plan and the 2003 RSP. No more options may be granted under the 1988 ACSOP and 1994 Directors Plan and no shares of restricted stock may be issued under the 1994 RSP without the approval of shareholders.
- (2) The securities reflected in column (a) do not include 8,988 shares of common stock that have been issued under the Management Bonus Plan but have not yet vested.

Management Bonus Plan

The Management Bonus Plan (the "MBP") is a bonus plan for middle managers of certain units of the Company who are in a position to make substantial contributions to the overall management, growth and success of the Company. No executive officers participate in the MBP. The MBP is a non-shareholder approved plan.

Employees chosen to be in the MBP may elect to take their bonus in cash, 50% in cash and 50% in common stock or all in common stock. Employees electing a stock bonus will receive

common stock valued at one-and-one-half times the amount of what their normal cash bonus entitlement would have been. Shares granted pursuant to the MBP will be held by the Company for three years following the close of the fiscal year for which the bonus award was granted and will not vest until such three-year period has been completed. During this three-year period, employees may vote the common stock and will receive quarterly dividends but have no dispositive rights. Should an employee be terminated for any reason other than cause before his or her shares have vested, such employee will receive the equivalent of the cash bonus he or she would have received had such employee not elected to take stock.

Strategic Bonus Plan

In 2003, shares of Class B common stock were set aside to award employees for their efforts in achieving a three-year strategic plan of Alberto-Culver Consumer Products Worldwide (the Strategic Bonus Plan). During fiscal 2003, 13,260 shares were issued under the Strategic Bonus Plan. No executive officer received shares under this plan.

Other Plan

In 1997, the Company designated 10,000 shares of Class A common stock as being available for grants to employees for the purpose of awarding special prizes, awards or incentives for outstanding service. There is no written plan document and this is a non-shareholder approved plan. Since the plan's inception, 3,702 Class A shares have been issued. No executive officers have received shares under this plan. After the Conversion, no more shares may be issued by the Company under this plan.

Compensation Committee Report

The compensation committee is composed of Robert H. Rock, Chairman, A. G. Atwater, Jr., James G. Brocksmith, Jr., Jim Edgar and Sam J. Susser. The compensation committee is responsible for reviewing executive performance and compensation, approving employment agreements with executive officers and administering benefit plans pursuant to which executive officers receive stock options, incentive awards, retirement income and other compensation awards.

The Company's objectives for its executive officer compensation program are:

To attract, motivate and retain highly qualified individuals.

To link the interests of executive officers closely with those of the Company's stockholders.

To increase the personal stake of the executive officers in the continued success and growth of the Company by linking a significant portion of executive officers' compensation to the performance of the Company.

In order to achieve these objectives, compensation of executive officers for the last fiscal year was comprised principally of three components: base salary, annual bonus and long-term incentive compensation which includes stock options and SVIP performance units.

Base Salary

Base salaries of executive officers are reviewed annually by the compensation committee and may be adjusted appropriately effective the beginning of each calendar year. The factors used in determining an executive officer's base salary are the duties and level of responsibility of the executive officer, the past performance of the executive officer, the performance of the executive officer's principal business unit, if any, studies of positions at comparable businesses, the performance of the Company and the recommendations of management. The compensation committee exercises its judgment in making a determination of the impact which each of these factors has on setting the executive officers' salaries.

Annual Bonus

Annual bonuses for executive officers are awarded pursuant to the MIP. The primary objective of the MIP is to strongly link incentive awards to measurable performance and provide higher rewards for exceptional performance.

For fiscal year 2003, executive officers' bonus award opportunities were allocated among one or more of the following criteria: (i) sales of the Company, a subsidiary or a division; (ii) pre-tax earnings of the Company, a subsidiary or a division; (iii) except for the named executive officers,

any other measurements the compensation committee may determine; and (iv) except for the named executive officers, individual business objectives. The compensation committee may modify the above criteria during the plan year as deemed appropriate; but may not modify these criteria for the named executive officers so as to increase the award payable to such persons.

Actual awards can range from 0% to 200% of an executive officer's base salary depending on the level of performance achieved. The compensation committee may increase or decrease an individual award to a participant, other than the named executive officers, by up to 25% of such participant's base salary based upon such factors and circumstances as the compensation committee deems appropriate, but not to exceed 200% of such participant's base salary. The named executive officers' fiscal year 2003 annual incentive awards under the MIP were formula based and reflected record sales and record pre-tax earnings performance for the Company in fiscal year 2003.

Subject to stockholder approval, the MIP was amended by the board of directors as of October 1, 2003. The material amendments to the MIP were (i) to add operating earnings, operating margin, pre-tax margin, net earnings, earnings per share and return on stockholders' equity to the list of criteria among which the compensation committee can choose to allocate a named executive officer's bonus award opportunity and (ii) permit the compensation committee to increase or decrease an individual award to a participant, other than the named executive officers, by up to 35% of such participant's base salary based upon such factors and circumstances as the compensation committee deems appropriate, but not to exceed 200% of such participant's base salary. The proposed amended MIP is described in greater detail under "Re-Approval of the Management Incentive Plan, As Amended."

Long-Term Incentive Compensation

The Company's long-term incentive compensation program consists of grants of stock options under the 2003 ACSOP and performance units under the SVIP.

Stock options were granted to executive officers under the 2003 ACSOP. Non-qualified stock options were granted on January 23, 2003 for a term of nine years eight months with an option exercise price equal to the fair market value of a share of common stock on the date of grant. One-fourth of the stock options granted became exercisable on September 30, 2003, with the remaining options becoming exercisable in annual increments of one-fourth of the option shares each September 30th thereafter.

Executive officers were also granted performance units pursuant to the SVIP. Each performance unit has a payout value of \$250 if the threshold performance level is attained, \$1,000 if the target performance level is attained and \$2,000 if the maximum performance level is attained. For grants made during fiscal year 2003, the threshold, target and maximum performance levels are attained when the total shareholder return on Class B shares meets or exceeds the total shareholder return of 40%, 60% and 80% of the companies in the Applicable Index, respectively, over a three-year performance period. Under certain circumstances, such awards will be paid in common stock. See "Long-Term Incentive Awards. Units will have no value if the threshold performance level is not attained for a given performance period.

At the time performance units were granted, the compensation committee, based on the recommendations of management and in consultation with the Company's outside compensation consultants, established objectives for the three-year performance period, October 1, 2002 through September 30, 2005, based on the percentile ranking of Class B common stock measured by total shareholder return among companies comprising the Standard & Poor's 500 Index, the selected Applicable Index. For the three-year performance period ended September 30, 2003, the total shareholder return on the Company's Class A common stock was 136.95%, placing it in the 97th percentile of the Standard & Poor's 500 Index with a corresponding payout per unit of \$3,000.

Effective for grants made on or after July 26, 2001, the SVIP was amended to (i) decrease the maximum payout from \$3,000 per unit to \$2,000 per unit, (ii) prohibit any payout if the Company's total shareholder return compared to the total shareholder return of companies comprising the Applicable Index would rank it at less than the 40th percentile (for grants made before July 26, 2001, payouts are prohibited if the Company's total shareholder return would rank it below the 50th percentile) and (iii) permit the compensation committee to reduce or eliminate any award otherwise payable if the Company's total shareholder return for the applicable performance period is negative.

Decisions with respect to grants of stock options and performance units to executive officers were made based on formulas proposed by the Company's outside compensation consultants. Under these formulas, executive officers received grants of stock options and performance units having a value equal to a percentage of his or her base salary. The number of stock options and performance units granted were then adjusted for certain executive officers based on the same factors used for determining base salary.

In fiscal year 1997, the compensation committee established stock ownership guidelines for all SVIP participants. The Chairman and the Chief Executive Officer have guidelines of at least five times, and senior officers, including the other named executive officers, have guidelines of at least three times the amount of their annual base salary to be invested in common stock of the Company. Participants have five years from the time of first becoming a participant in the SVIP to achieve these stock ownership guidelines. In addition in fiscal year 1997, the compensation committee established stock ownership guidelines for outside directors. The guideline for outside directors is to have at least \$100,000 invested in the common stock of the Company within five years of their initial election to the board of directors.

Chief Executive Officer Compensation

Howard B. Bernick's fiscal year 2003 total compensation was established considering competitive market comparisons, Company performance, which included records in each of sales, pre-tax earnings, net earnings and earnings per share for the twelfth consecutive year, and the executive compensation philosophy established by the compensation committee. This philosophy targets total compensation at competitive levels and provides significant performance-based variable compensation opportunities.

Mr. Bernick's fiscal year 2003 annual incentive award under the MIP was formula based and reflected record sales and record pre-tax earnings performance.

The number of stock options and performance units granted to Mr. Bernick was based on formulas proposed by the Company's outside compensation consultants and reviewed and approved by the compensation committee. Under these formulas, Mr. Bernick's grants were equal to a percentage of his base salary.

Deductibility of Compensation

As part of the Omnibus Budget Reconciliation Act passed by Congress in 1993, the Code was amended to add Section 162(m) which limits the deductibility for federal income tax purposes of compensation paid to the Chief Executive Officer and the four other most highly compensated executive officers of the Company. Under Section 162(m), compensation paid to each of these officers in excess of \$1.0 million per year is deductible by the Company only if it is performance-based.

It is the Company's policy to take into account the deductibility for federal income tax purposes of the compensation paid to its executive officers. The Company believes that all bonuses and awards paid to executive officers under the MIP and SVIP, respectively, will be tax deductible and that any compensation generated upon the exercise of non-qualified stock options granted under the 2003 ACSOP and 1988 ACSOP or the vesting of restricted shares under the 2003 RSP and 1994 RSP will be tax deductible by the Company.

Performance Graph

The following graph compares the cumulative total shareholder return on the Company's Class A common stock and Class B common stock, the Standard & Poor's 500 Index, and a selected peer group of companies for the last five fiscal years. The selected peer group consists of Avon Products, Inc.; Church & Dwight Co., Inc.; The Clorox Company; Claire's Stores, Inc.; The Dial Corp.; Dollar General Corporation; The Estee Lauder Companies; Family Dollar Stores, Inc.; Linens 'N Things, Inc.; McCormick & Company, Incorporated; Michaels Stores, Inc.; Payless Shoesource, Inc.; Playtex Products, Inc.; Regis Corporation; and Revlon, Inc.

During fiscal year 2003, the Company retained the law firm of Katten Muchin Zavis Rosenman, of which Allan B. The Company has retained the firm to perform legal services during fiscal year 2004.

Re-Approval of the Management Incentive Plan, As Amended

Effective October 1, 2003, the board of directors adopted, subject to stockholder approval, amendments to the Management Incentive Plan (the MIP). The stockholders initially approved the MIP on January 26, 1995 and again on January 28, 1999. The material amendments to the MIP are (i) to add to the enumerated list of financial criteria operating earnings, operating margin, pre-tax margin, net earnings, earnings per share and return on stockholders' equity to the list of criteria among which the compensation committee can choose to allocate to a participant's bonus award opportunity and (ii) permit the compensation committee to increase or decrease an individual award to a participant, other than the named executive officers, by up to 35% of such participant's base salary based upon such factors and circumstances as the compensation committee deems appropriate. The amended MIP is being submitted to stockholders for approval to assure that awards paid under the MIP can be fully deducted for federal income tax purposes by the Company. Unless otherwise determined by the board of directors, the MIP will be submitted to stockholders no less often than every five years for reapproval. Below is a summary of the material terms of the MIP.

Subject to stockholder approval, the amended MIP will be effective as of October 1, 2003. The MIP is administered by the compensation committee. Key salaried employees of the Company and its subsidiaries are eligible to participate in the MIP; provided, however, that a participant must be employed with the Company for at least four months during the plan year to receive an award. Assuming stockholder approval, approximately 30 employees will participate in the MIP.

A participant's bonus award opportunity is allocated among one or more of the following criteria: (i) sales of the Company, a subsidiary or a division; (ii) operating earnings of the Company, a subsidiary or a division; (iii) pre-tax earnings of the Company, a subsidiary or a division; (iv) operating margin of the Company, a subsidiary or a division; (v) pre-tax margin of the Company, a subsidiary or a division; (vi) net earnings of the Company, a subsidiary or a division; (vii) earnings per share for the Company; (viii) return on stockholders' equity of the Company, a subsidiary or a division; (ix) except for the named executive officers, any other measurements the compensation committee may determine; and (x) except for the named executive officers, individual business objectives. For purposes of the MIP, operating earnings means pre-tax earnings before non-recurring and other unusual items reported separately in the Company's income statement. The compensation committee may modify the above financial criteria during the plan year as deemed appropriate; provided, however, that the compensation committee may not modify such criteria for the named executive officers so as to increase the award payable to such persons.

Actual awards can range from 0% to 200% of a participant's base salary depending on the level of performance achieved. The compensation committee may increase or decrease an individual award to a participant, other than the named executive officers, by up to 35% of such participant's base salary based upon such factors and circumstances as the compensation committee deems appropriate. The maximum amount payable to a single participant under the MIP, however, may not exceed the lesser of 200% of base salary or \$4.0 million per fiscal year. The compensation committee must certify in writing after the end of each plan year the awards achieved. Except in the

event of a change in control as defined in the MIP and summarized above under Employment Contracts, Termination of Employment and Change in Control Arrangements, no award may be paid to a participant prior to such certification. Upon the occurrence of a change in control, the payment of awards will be accelerated, and all or a pro rata portion of such awards shall become payable.

Except as set forth in the following sentence, if a participant's employment terminates during a plan year or after the end of a plan year, but prior to payment of the award, no award will be payable for that plan year. If a participant's employment terminates during the plan year or after the end of the plan year but prior to the payment of the annual award, by reason of death, disability or retirement, the compensation committee has the discretion to award the participant (or his or her beneficiary) a portion of the award that would otherwise be payable. In the event a participant dies before receiving an award and/or any previously deferred awards, such awards will be paid to the beneficiary designated in writing by the participant. If no such designation is made, or if no such designated beneficiary is then living, such awards will be paid to the surviving spouse of the participant, or if there is no surviving spouse, to the estate of the participant.

Payment of awards will be made in cash unless the participant elects to defer payment of the award. A participant may also elect to have all or a portion of his or her award, less withholding taxes, paid in common stock. An election to receive common stock rather than cash does not constitute a deferral of the award.

Except upon the death of a participant, no right or interest of a participant in any annual award under the plan may be (i) assigned or transferred in whole or in part, (ii) subject to any obligation or liability of any person or (iii) subject to seizure or assignment or transfer through execution, levy, garnishment, attachment, pledge, bankruptcy, or in any other manner by the participant. The board of directors or the compensation committee may at any time terminate or amend the MIP, except that no amendment by the compensation committee or board of directors may increase the amount of an award payable to a named executive officer for performance achieved during the plan year of such amendment or any previous plan year or allow a member of the compensation committee to be a participant in the MIP. Termination of the MIP shall not be effective for the plan year in which the termination occurs.

The board of directors recommends that the stockholders vote FOR the Re-Approval of the Management Incentive Plan, As Amended.

Approval of Amendments to Article 4 of the Company's

Amended and Restated Certificate of Incorporation

General

The board of directors of the Company has approved, and recommends that the stockholders approve, amendments to Article 4 of the Company's Amended and Restated Certificate of Incorporation (the "Certificate"). As proposed, Article 4 would be amended to read in its entirety as follows:

4. Capital Stock. The total number of shares of capital stock which the Corporation shall have authority to issue is Three Hundred Million (300,000,000) of Common Stock, \$.22 par value per share. The Three Hundred Million (300,000,000) shares of Common Stock, \$.22 par value per share, authorized by the preceding sentence shall consist of shares formerly designated as Class B Common Stock, \$.22 par value per share. All shares of Class B Common Stock outstanding immediately prior to the filing of this Amended and Restated Certificate of Incorporation are hereby redesignated as shares of Common Stock.

Amendments

On October 22, 2003, the board of directors of the Company approved the conversion of all of the Company's issued Class A common stock into Class B common stock at the rate of one share of Class B common stock for each share of Class A common stock effective after the close of business on November 5, 2003 (the "Conversion"). Thereafter, certificates of Class A common stock represented certificates of Class B common stock equal to the number of shares of Class A common stock formerly represented by such certificates. As a result of the Conversion, the Company's only outstanding class of capital stock is the Class B common stock. All outstanding Class B common stock has one vote per share whereas the previous outstanding Class A common stock had one-tenth vote per share.

The board of directors of the Company proposes to amend Article 4 of the Certificate to eliminate provisions that are no longer applicable as a result of the Conversion (all paragraphs of Article 4 after the first paragraph), eliminate the Class A common stock as a separate class of capital stock of the Company and redesignate Class B common stock as Common Stock. The board believes that by eliminating the Class A common stock as a separate class of capital stock and changing the designation of the Class B common stock to Common Stock, any remaining confusion that may have been caused by the Company's two classes of common stock will be eliminated. This proposed amendment shall be referred to as the "First Amendment."

Currently the Company has 300,000,000 authorized shares of capital stock consisting of 150,000,000 Class A shares and 150,000,000 Class B shares. As a result of the Conversion, the Class A shares may not be issued without the approval of the Company's stockholders. The

Company will not be able to issue any of the 150,000,000 Class A shares as a result of the elimination of the Class A common stock as a separate class of capital stock as proposed above. To accommodate for the loss of these authorized shares and to further increase the Company's flexibility with respect to such actions as stock splits or stock dividends, the board of directors of the Company proposes to increase the authorized shares of Class B common stock from 150,000,000 shares to 300,000,000 shares. Assuming that the First Amendment is approved, this proposal will retain the overall capitalization of the Company at 300,000,000 shares. If the First Amendment is not approved, the Company will have an overall capitalization of 450,000,000 shares, although 150,000,000 shares of Class A common stock would not be able to be issued without stockholder approval. This proposed amendment shall be referred to as the Second Amendment.

While the increase in authorized shares of Common Stock is not being proposed for this reason, the availability of the additional shares could be used to render more difficult or discourage a merger, tender offer or proxy contest, the assumption of control by a holder of a large block of the Company's securities, or the removal of incumbent management by increasing the aggregate outstanding shares, and thus, the number of shares required to accomplish such a transaction. Unlike the Class A Common Stock which would require shareholder approval to issue, the board of directors may approve the issuance of previously authorized shares of Common Stock at such times and to such persons as it may determine to be in the best interest of the Company and its stockholders, except for certain transactions involving the issuance of stock for which the New York Stock Exchange rules require prior stockholder approval. This proposed amendment therefore may have the effect of discouraging unsolicited takeover attempts, even if the transaction were favored by the current stockholders. The board of directors is not aware of any attempt to take control of the Company.

The issuance of additional shares could also have a dilutive effect on earnings per share and, because the stockholders of the Company have no preemptive rights, on the equity ownership of the present holders of common stock.

The board of directors is seeking stockholder approval for each of the amendments. The approval of one amendment is not dependent on the approval of the other.

If the First Amendment is approved and the Second Amendment is not, Article 4 will read as set forth above, except in each case the numbers Three Hundred Million (300,000,000) will read One Hundred and Fifty Million (150,000,000).

If the Second Amendment is approved and the First Amendment is not, the first paragraph of Article 4 of the Certificate shall read in its entirety as follows and the remaining paragraphs of Article 4 shall remain in their current form:

4. Capital Stock. The total number of shares of all classes of capital stock which the Corporation shall have authority to issue is Four Hundred and Fifty Million (450,000,000), One Hundred and Fifty Million (150,000,000) of which shall be

Class A Common Stock, \$.22 par value per share, and Three Hundred Million (300,000,000) of which shall be Class B Common Stock, \$.22 par value per share. The Class A Common Stock and the Class B Common Stock are hereinafter sometimes called collectively the Common Stock.

Effectiveness and Required Vote

If the amendments are adopted, they will become effective upon filing of a Certificate of Amendment to the Company's Certificate with the Delaware Secretary of State. At that time, certificates representing shares of Class B common stock will automatically represent the same number of shares of Common Stock and will not need to be returned or exchanged by stockholders. After the filing of the Certificate of Amendment, we will contact the stockholders with instructions as to how they may exchange their certificates for Common Stock certificates, although it is not necessary to make such an exchange.

A majority of the outstanding votes of the Company entitled to be cast thereon is required to approve each of the proposed amendments to the Certificate. Accordingly, withheld votes, broker non-votes and abstentions will have the effect of a vote against the approval of the proposed amendment to the Certificate.

The board of directors recommends that the stockholders vote FOR each of the proposed amendments to Article 4 of the Company's Restated Certificate of Incorporation.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers, directors and persons who beneficially own more than 10% of a registered class of the Company's equity securities to file reports of ownership and changes in ownership with the Securities and Exchange Commission, the New York Stock Exchange and the Company. Based solely on its review of such reports received by it, the Company believes that during fiscal year 2003 its executive officers, directors and greater than 10% beneficial owners complied with all such filing requirements.

Independent Public Accountants

The audit committee has selected KPMG LLP as independent public accountants for the Company for the fiscal year ending September 30, 2004. KPMG LLP has served the Company in the capacity of independent public accountants since 1955. Representatives of that firm are expected to be present at the annual meeting of stockholders, with an opportunity to make a statement if they so desire, and will be available to respond to appropriate questions presented at the meeting by stockholders.

Other Business

Management knows of no other matters which will be brought before the meeting. However, if other matters are properly brought before the meeting, the persons named in the enclosed proxy will vote in accordance with their judgment on such matters. For business to be properly brought before the meeting by a stockholder, other than stockholder proposals covered by the following paragraph, notice in proper written form must be given to the Secretary not more than 120 days and not less than 90 days in advance of the anniversary date of the immediately preceding annual meeting and otherwise be in compliance with the Company's Bylaws.

Stockholder Proposals

Any stockholder proposals intended to be included in the Company's 2004 proxy materials must be received by August 15, 2004 and must otherwise comply with the requirements of Rule 14a-8 of the Securities and Exchange Commission.

Cost and Method of Proxy Solicitation

The cost of soliciting proxies will be borne by the Company. We have engaged Morrow & Co. to assist with the solicitation of proxies for an estimated fee of \$9,000 plus expenses. In addition to solicitation by mail, brokerage houses, nominees and other custodians and fiduciaries will be requested to send the proxy materials to their principals and the Company will reimburse them for their reasonable expenses.
