INDEPENDENT ACCOUNTANTS' REVIEW REPORT

To the Shareholders and Management of

Telecomunicações de São Paulo S.A. - TELESP

São Paulo - SP

1. We have performed a special review of the accompanying interim financial statements of Telecomunicações de São Paulo S.A. - TELESP and subsidiaries (Company and consolidated), consisting of the balance sheets as of September 30, 2004, the related statements of income for the quarter and nine-month period then ended and the performance report, all expressed in Brazilian reais and prepared in accordance with Brazilian accounting practices under the responsibility of the Company's management.
2. We conducted our review in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council, which consisted principally of: (a) inquiries of and discussions with persons responsible for the accounting, financial and operating areas as to the criteria adopted in preparing the interim financial statements, and (b) review of the information and subsequent events that had or might have had material effects on the financial position and results of operations of the Company and its subsidiaries.
3. Based on our special review, we are not aware of any material modifications that should be made to the financial statements referred to in paragraph 1 for them to be in conformity with Brazilian accounting practices and standards established by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory interim financial statements.
4. We had previously reviewed the Company and consolidated balance sheets as of June 30, 2004, and the Company and consolidated statements of income for the quarter and nine-month period ended September 30, 2003, presented for comparative purposes, and issued unqualified review reports thereon, dated July 26, 2004 and October 24, 2003, respectively.
5. The accompanying interim financial statements have been translated into English for the convenience of readers outside Brazil.

TELECOMUNICAÇÕES DE SÃO PAULO S.A. - TELESP

NOTES TO THE FINANCIAL STATEMENTS AS OF SEPTEMBER 30, 2004

(Amounts in thousands of Brazilian reais - R\$, unless otherwise indicated)

1. OPERATIONS AND BACKGROUND

- a) Formation of the Company, its controlling shareholders and corporate restructuring

Telecomunicações de São Paulo S.A. - Telesp, hereafter denominated the Company or Telesp, is controlled by Telefónica S.A., which, as of September 30, 2004, holds, directly and indirectly, 84.71% of the common shares and 88.90% of the preferred shares of the Company.

The Company is registered with the Brazilian Securities Commission (CVM) as a publicly-held company and its shares are traded on the São Paulo Stock Exchange (BOVESPA). The Company is also registered with the Securities and Exchange Commission - SEC, in the United States of America, and its American Depository Shares - ADSs, level II, are traded on the New York Stock Exchange - NYSE.

The Company's activities are regulated by the Federal regulatory authority, the National Telecommunications Agency (ANATEL), in accordance with the terms of the concession granted by the Federal Government.

The Company is a concessionaire of the fixed-switch telephone service (STFC) of region 3, which comprises the State of São Paulo, in sectors 31, 32 and 34 as established in the General Concession Plan (PGO).

The STFC concession agreement in effect until December 31, 2005 is extendable for an additional period of 20 years, until December 31, 2025, for a cost corresponding to annual payment of 2% of the revenue of the preceding year, net of taxes. The first installment should be paid on April 31, 2007, and the subsequent ones every 24 months thereafter.

- b) The telecommunication services subsidiaries

Assist Telefônica S.A.: a wholly-owned subsidiary incorporated as a closely-held company, mainly engaged in providing the following services: technical assistance for installation, operation and maintenance of internal telephony, data and IT networks; value-added services, including those related to internet content, connection and access, as well as technology services and all the necessary support related to the internet; installation, operation and maintenance of internet, intranet and extranet solutions; sale, rent and maintenance of general telecommunications and IT equipment and devices.

Edgar Filing: TELESP PARTICIPACOES SA - Form 6-K

Aliança Atlântica Holding B.V.: a company headquartered in Amsterdam, Netherlands, is a joint venture formed in 1997 by Telebrás and Portugal Telecom, where each company had a 50% interest. As a result of the spin-off of Telebrás in February 1998, its interest in Aliança Atlântica was transferred to the Company. Currently, the Company has a 50% interest in Aliança Atlântica and Telefónica S.A. holds the remaining 50%.

Telecomunicações de São Paulo S.A. - TELESP

Companhia Aix de Participações: On June 30, 2001, the Company made a capital contribution of 32% to Companhia Aix de Participações with advances owed by Barramar S.A., which were recorded under property, plant and equipment for the direct and indirect development of activities related to the construction, conclusion and operation of underground duct networks for fiber optic cables. In November and December 2003, Companhia Aix de Participações underwent several corporate restructurings, in which the Company became the holder of 50% of its capital.

2. PRESENTATION OF INTERIM FINANCIAL STATEMENTS

The individual (Company) and consolidated interim financial statements have been prepared in accordance with Brazilian accounting practices, rules applicable to concessionaires of public telecommunications services, and standards and accounting procedures established by the CVM.

The consolidated interim financial statements include the balances and transactions of the wholly-owned subsidiary Assist Telefônica S.A. and the jointly-controlled subsidiaries Aliança Atlântica Holding B.V. and Companhia Aix de Participações, which were fully or proportionally consolidated in accordance with CVM Instruction No. 247/96 rules.

All assets, liabilities, revenues and expenses from transactions between the consolidated companies were eliminated in consolidation.

3. SUMMARY OF PRINCIPAL ACCOUNTING PRACTICES

The interim financial statements as of September 30, 2004 have been prepared in accordance with the principles, practices and criteria consistently applied to the financial statements for the prior year and should be analyzed together with those financial statements.

Deferred income and social contribution tax credits

According to the tax legislation in force, tax losses can be offset against future taxable income, up to the annual limit of 30% of these future profits.

Considering the existence of taxable income in four out of the last five fiscal years and the expected generation of taxable income discounted to present value, based on a technical feasibility study, as provided for in CVM Instruction No. 371/02, the Company estimates the realization of the deferred tax credits as of September 30, 2004 as follows:

<u>Year</u>	<u>Company</u>	<u>Consolidated</u>
2004	242,432	242,432
2005	146,767	161,459
2006	115,227	127,471
2007	89,227	95,637
2008	6,907	6,907

Tax credit from corporate restructuring

The corporate restructuring in 1999 was carried out in a manner to avoid that the amortization of the transferred goodwill would adversely affect the Company's future results and the payment of dividends to its shareholders, and to ensure the realization of the tax credit used to increase capital.

The accounting records maintained for the Company's corporate and tax purposes include specific accounts related to transferred goodwill and the related reserve, as well as the corresponding amortization, reversal of reserve and tax credit for the nine-month period ended September 30, 2004 and 2003 as follows:

Company/Consolidated

Jun./2004

Edgar Filing: TELESP PARTICIPACOES SA - Form 6-K

	<u>Sept./</u> <u>2004</u>	<u> </u>
Effects on balance sheet:		
Goodwill	66,570	266,279
Reserve	(44,602)	(178,407)
	<u> </u>	<u> </u>
Net	21,968	87,872
	<u> </u>	<u> </u>

Telecomunicações de São Paulo S.A. - TELESP

	Company/Consolidated	
	Sept./2004	Sept./2003
Effect on income:		
Goodwill amortization	(599,128)	(599,128)
Reversal of reserve	401,416	401,416
Tax credit	203,703	203,703
Effect on income	5,991	5,991

For purposes of calculation of the transferred tax credit, the tax rates applied were 25% for income tax and 8% for social contribution tax, in accordance with the tax legislation in force on the merger date. The current social contribution tax rate is 9%.

Due to this change, as shown above, the amortization of goodwill, net of reversal of the related reserve and the corresponding tax credit, in the first nine months of 2004, resulted in an increase in net income and, consequently, in the calculation basis for mandatory minimum dividends.

For a better presentation of the Company's financial position and results of operations, the net amount of R\$21,968 (R\$87,872 as of June 30, 2004) which, in essence, represents the transferred tax credit, was recorded in the balance sheet in current assets as deferred and recoverable taxes. Amortization of goodwill and the reversal of the reserve are included as operating income and expense in the statements of income and the corresponding tax credit is recorded together with the provision for income and social contribution taxes.

Realization of tax credit

On November 25, 1999, SP Telecomunicações Holding S.A. (currently SP Telecomunicações Holding Ltda.) assumed the commitment to reimburse the Company in case the tax benefit derived from the goodwill amortization is not fully used within the 60-month period set forth for the use of the benefit. No credit related to the refund was recorded in the Company's assets as of September 30, 2004, since management believes that the tax benefit will be fully used in the 60-month period set forth for the goodwill amortization.

Preoperating expenses refer to costs incurred during the preoperating stage for long-distance services; amortization began in May 2002, and is recognized over a period of 60 months.

The goodwill paid on the acquisition of Ceterp S.A. is presented in deferred charges since Ceterp was merged into the Company on November 30, 2000. The period for amortization of the goodwill, based on the expectation of future profitability, is 60 months.

The goodwill on acquisition of the IP network in December 2002 refers to the acquisition of the assets and customer portfolio for the Switched IP and Speedy Link services of Telefônica Empresas S.A. The portion of the acquired business which refers to the customer portfolio was treated as goodwill and recorded in deferred charges. According to the appraisal report, this goodwill, based on expected future profitability, is amortized over 120 months.

19. RESERVE FOR CONTINGENCIES

The Company, as an entity and also as the successor to the merged companies, and its subsidiaries are involved in labor, tax and civil proceedings filed with different courts. The Company's management, based on the opinion of its legal counsel, has recognized reserves for those cases in which an unfavorable outcome is considered probable and, on a conservative basis, in certain cases where risks are considered possible or remote, as follows:

Consolidated	Nature			Total
	Labor	Tax	Civil	
Balances as of June 30, 2004	218,929	504,747	47,526	771,202

19.1. Labor contingencies

The Company has various labor contingencies, with R\$234,179 (consolidated) reserved to cover probable losses. The amounts involved and the respective degree of risk are as follows:

Risk	Amount		
	Telesp	Assist	Total
Remote	1,630,442	3,641	1,634,083
Possible	84,731		84,731
Probable	234,002	177	234,179
Total	1,949,175	3,818	1,952,993

These contingencies involve various lawsuits, mainly related to wage differences, wage equivalence, overtime, employment relationship with employees of outsourced companies and job hazard premium, among others.

19.2. Tax contingencies

Telecomunicações de São Paulo S.A. - TELESP

The amount of R\$513,516 as of September 30, 2004 includes contingencies classified by management as probable risk, as well as certain cases related to lawsuits filed by the Company, even when the risks are classified as possible (items a , b , k and n).

The principal tax contingencies for which the risks are considered remote, possible and probable by management and its legal counsel are as follows:

Claims by the National Institute of Social Security (INSS), amounting to R\$605,751, referring to:

- a) Collection of Work Accident Insurance (SAT) and the assessment of joint liability for social security contributions allegedly not paid by contracted third parties, for which the risk is considered possible, amounting to approximately R\$269,090. Due to a partially unfavorable decision, management classified R\$94,168 of the total contingency as a probable risk, and recognized a reserve in the same amount to cover possible losses.
- b) Social security contributions on the payment of compensation arising from the replacement of salary losses originating from the government's economic stabilization plans, Plano Verão and Plano Bresser , amounting to approximately R\$124,182, for which the risk is considered possible. Due to decisions made by higher courts and an unfavorable decision obtained by another Group company in a similar case, management decided to classify R\$86,050 of the contingency as a probable risk, and recognized a reserve in the same amount to cover possible losses.
- c) Notification demanding social security contributions, SAT and amounts for third parties (National Institute for Agrarian Reform and Colonization (INCRA) and Brazilian Mini and Small Business Support Agency (SEBRAE)) on the payment of various salary amounts for the period from January 1999 to December 2000, in the amounts of approximately R\$44,543, for which the risk is considered possible, and which are in the lower court and in the last administrative instance, respectively.
- d) Notification demanding social security contributions for joint liability in 1993, in the amount of approximately R\$167,936, for which the risk is considered possible. This process is at the second administrative level.

Claims by the Finance Secretary of the State of São Paulo, totaling R\$668,794, referring to:

- e) Assessments on October 31 and December 13, 2001, related to ICMS (State VAT) allegedly due on international long-distance calls amounting to approximately R\$152,761 for the period from November to December 1996 and from January 1997 to March 1998, considered as a possible risk, and to R\$163,965 for the period from April 1998 to December 1999, considered as a remote risk. The first claim is in the first administrative instance and the second claim is in the second instance.

Telecomunicações de São Paulo S.A. - TELESP

- f) Assessment, on February 29, 2000, demanding payment of the ICMS allegedly due on cell phone activation in the period from January 1995 to December 1997, plus fines and interest, amounting to approximately R\$258,983, considered as a remote risk. The claim is in the first administrative instance.
- g) Assessment, on July 2, 2001, demanding the difference in ICMS paid without late-payment penalty, amounting to R\$5,173, considered as a possible risk. The claim is in the lower court.
- h) Infraction notice related to the use of credits in the period from January to April 2002, in the amount of R\$27,443, for which the risk is considered remote. The claim is in the second administrative instance.
- i) Infraction notice related to the use of ICMS credits on acquisition of consumable materials, in the amount of R\$10,069, for which the risk is considered possible. The claim is in the second administrative instance.
- j) Infraction notice related to the nonreversal of ICMS credits in proportion to sales and exempt and services not taxed in the period from January 1999 to June 2000, in addition to an ICMS credit unduly used in March 1999. The total amount involved is R\$50,400. The risk is considered possible by legal counsel. The claim is in the first administrative instance.

Litigation at the Federal and Municipal levels in the amount of R\$332,329:

- k) The Company filed a lawsuit challenging the expansion of the COFINS and PIS (taxes on revenue) (PIS - through November 2002) tax basis, requiring the inclusion of financial and securitization income and exchange gains, instead of only on operating revenues. Despite the injunction obtained suspending the change in the calculation method, the Company considered the risk as possible and recognized a reserve of R\$227,780 in case the final court decision is unfavorable to the Company.
- l) FINSOCIAL, now COFINS, was a tax on gross operating revenues, originally established at a rate of 0.5% and gradually and subsequently raised to 2.0%. Such rate increases were judicially challenged with success by several companies, which led to the creation of taxable credits, caused by higher payments, which were offset by CTBC (company merged into the Company in November 1999) against current payments of related taxes, the COFINS. Claiming that those offsets made by CTBC were improper, the Federal Government made an assessment in the amount of R\$15,310, considered as a possible loss. The claim is in the second administrative instance.
- m) Litigation contesting the incidence of taxation for corporate income tax, social contribution tax, PASEP and COFINS on telecommunication services of Ceterp, merged in November 2000, based on paragraph 3 of article 155 of the Federal Constitution, according to which, with the exception of VAT and taxes on exports and imports, no other taxation applies to services. The Company considers this case as a probable loss, and has reserved the amount of R\$69,586. The claim is in the second administrative instance.

Telecomunicações de São Paulo S.A. - TELESP

- n) Lawsuit filed to obtain a court decision declaring the nonexistence of a legal tax relationship between Telesp and the Federal Government, the defendant, that would require the Company to pay the Economic Domain Intervention Contribution Tax (CIDE) on remittances to be made based on contracts with foreign residents, since the unconstitutionality of the referred tax is clear. The lawsuit also requests approval to offset, against other taxes payable, the amount of R\$2,190, monetarily restated, related to the CIDE payment made in March 2002. The Company made an escrow deposit of R\$2,178 related to the remittance made on October 18, 2002. Although the risk of loss is considered as possible, the Company recognized a reserve for the unpaid amounts, in the amount of R\$10,372. The claim is in the lower court.
- o) At the municipal level, the Company has contingencies related to real estate tax (IPTU) in the amount of R\$805, which have all been accrued due to the existence of favorable and unfavorable decisions in relation to the Company's position.
- p) The City of São Paulo assessed the Company, alleging differences in the payment of the municipal tax on services (ISS), by the imputation of fines of 20% not paid by the Company, in the amount of R\$8,476. The Company did not reserve for this contingency, since the lawyers responsible for this case believe that the risk is possible. The claim is in the first administrative instance.

There are other contingencies that have also been accrued, for which the involved amount is R\$24,755; the risk is considered probable by management.

19.3. Civil contingencies

Probable	44,032	21	44,053
Total	1,361,093	1,684	1,362,777

The Company is involved in public class action lawsuits related to the Community Telephony Plan (PCT), claiming the possible right for indemnity for purchasers of the expansion plans who did not receive shares for their financial investment, in the municipalities of Santo André, Diadema, São Caetano do Sul, São Bernardo do Campo, Ribeirão Pires and Mauá, involving a total amount of approximately R\$561,135. The risks involved are considered possible by legal counsel. The claim is in the second administrative instance.

On June 29, 2004, through Notices No. 45,011 and No. 45,012, ANATEL approved tariff adjustments for fixed-switch telephone service (STFC), based on criteria established in the local and domestic long-distance concession contracts, effective July 2, 2004, except for the former Ceterp s region, which is July 3, 2004. The percentage increases approved on July 2, 2004 were applied to tariffs determined through preliminary injunctions. Average increases were as follows:

Local: 6.89%.

Long distance: 3.20%.

Network usage fee for local interconnection (TU-RL): (-10.47%).

Network usage fee for long-distance interconnection (TU-RIU): 3.20%.

After judgment of such injunction by the Supreme Court of Justice(STJ), the approved percentage increases by ANATEL were made based on the General Price Index(IGP-DI), based on tariffs effective in June 2003, without retroactivity, divided in two installments, being the first in force effective from September 1, 2004. On September 1, 2004, the average increases applied to the telecommunications services of the Company were as follows:

Local: 3.22%.

National long distance: 5.22%.

Non-residential monthly charge and trunk: 7.75%

Residential monthly charge: 3.14%

Installation: 14.14%

The second installment was applied effective from November 1, 2004. The average increases applied by the Company were as follows:

Local: 3.13%.

National long distance: 4.97%.

Non-residential monthly charge and trunk: 7.20%

Residential monthly charge: 3.05%

Installation: 12.40%

Edgar Filing: TELESP PARTICIPACOES SA - Form 6-K

On July 6, 2003, the wireless operators implemented the Carriers Selection Code (CSP) on national (VC2 and VC3) and international long distance calls, according to SMP rules. The Company started recognizing revenues from these services and paying, in turn, wireless operators for the use of their networks.

As of September 30, 2004, the Company recorded transactions mainly due to interconnection and long-distance calls, for which commercial differences amounting to R\$ 61,694 had been identified (net of taxes). Company management expects such differences be solved during the fourth quarter of 2004.

31. POST-RETIREMENT BENEFIT PLANS

Telesp, together with other companies of the former Telebrás System, sponsors private pension benefit plans and health care plans for retirees, managed by Fundação Sistel de Seguridade Social (Sistel). Until December 1999, the plans managed by Sistel were multiemployer benefit plans. On December 28, 1999, the sponsors of the plans managed by Sistel negotiated the conditions for the creation of plans separated by sponsor (PBS Telesp Plan) and the continuation of participation in the multiemployer plans only for participants who were already retired on January 31, 2000 (PBS-A), resulting in a proposal for restructuring the statutes and regulations of Sistel, which was approved by the Supplementary Pension Plan Secretariat on January 13, 2000.

Telecomunicações de São Paulo S.A. - TELESP

As from December 1999, Telesp individually sponsors a defined retirement benefit plan (PBS Telesp Plan), which covers approximately 1% of the Company's employees. In addition to the supplemental pension benefit, health care (PAMA) is provided to retired employees and their dependents, at shared costs. Contributions for the PBS Telesp Plan are determined based on actuarial valuations prepared by independent actuaries, in accordance with the rules in force in Brazil. The method used to determine costing is the capitalization method and the contribution by the sponsoring entity is 61.4% of payroll of employees covered by the plan, of which 59.9% is allocated to costing of the PBS Telesp Plan and 1.5% to costing of the PAMA Plan.

For the other Telesp employees, there is an individual defined contribution plan - Visão Telesp Benefit Plan, established by Sistel in August 2000. The Visão Telesp Plan is supported by contributions made by the participants (employees) and by the sponsor which are credited to participants' individual accounts. Telesp is responsible for funding all administrative expenses and plan maintenance, including participant's death and disability risks. The employees participating in the defined benefit plan (PBS Telesp Plan) were granted the option of migrating to the Visão Telesp Plan. The new Plan was also offered to the other employees who did not participate in the PBS Telesp Plan, as well as to new hires. The Company's contributions to the Visão Telesp Plan are equal to those of the employees, varying from 2% to 9% of salary, based on the percentage chosen by the participant.

Additionally, the Company supplements the retirement benefits of certain employees of the former CTB - Companhia Telefônica Brasileira.

In the period from January to September 2004, the Company made contributions to the PBS Telesp Plan in the amount of R\$200 (R\$170 in the same period in 2003) and the Visão Telesp Plan in the amount of R\$14,111 (R\$15,288 in the same period in 2003).

Edgar Filing: TELESP PARTICIPACOES SA - Form 6-K

Telecomunicações de São Paulo S.A. - TELESP

Assist individually sponsors a defined contribution plan similar to that of Telesp, the Visão Assist Benefit Plan, which covers about 43% of its employees. Assist's contributions to that plan totaled R\$150 (R\$74 in the same period in 2003).

The Company recognized actuarial liabilities as provided in CVM Instruction No. 371 of December 13, 2000. The actuarial valuation of the plans was made using the projected unit credit method, based on the plan assets as of November 30, 2003 and November 30, 2002. For multiemployer plans (PAMA and PBS-A), apportionment of assets is made based on the sponsoring entity's actuarial liabilities in relation to the plans' total actuarial liabilities.

The accrual for the plans as of September 30 and June 30, 2004 is as follows:

<u>Plan</u>	<u>Sept./2004</u>	<u>Jun./2004</u>
PBS/Visão Telesp/CTB	46,239	36,256
PAMA	25,219	51,802
Total - Company	71,458	88,058
Visão Assist	2	2
Total consolidated	71,460	88,060

Shown below are expenses estimated for 2004 as per actuaries' report:

<u>Plan</u>	<u>Amounts</u>
PBS/Visão Telesp/CTB:	
Cost of current service	2,932
Interest cost	13,006
Expected return on plan assets	(9,855)
Employees' contribution	(367)
Total - PBS/Visão Telesp/CTB	5,716
PAMA:	
Cost of current service	77
Interest on actuarial liabilities	9,011
Expected return on plan assets	(6,243)
Total PAMA	2,845
Total of plans	8,561

In September 2004 the Company adjusted the addition to the reserve for health care benefit plan (PAMA) provided to retired employees, as a consequence of the plan costs review, according to the actuarial report issued on September 2, 2004.

32. INSURANCE

It is the policy of the Company and its subsidiaries to obtain insurance coverage for all high-risk assets and liabilities of significant values, based on management's judgment, according to instructions of the Telefónica S.A. corporate program. The Company strictly complies with Brazilian legislation for contracting insurance.

Telecomunicações de São Paulo S.A. - TELESP

33. FINANCIAL INSTRUMENTS

In compliance with the terms of CVM Instruction No. 235/95, the Company and its wholly-owned subsidiary made an evaluation of the book values of their assets and liabilities in relation to market values, based on available information and appropriate valuation methodologies. However, the interpretation of market information, as well as the selection of methodologies, requires considerable judgment and reasonable estimates in order to produce adequate realization values. As a result, the estimates presented do not necessarily indicate the amounts which might be realized in the current market. The use of different market approaches and/or methodologies for the estimates may have a significant effect on the estimated realizable values.

Book and market values of financial instruments as of September 30 and June 30, 2004 are as follows:

	(1,544,573)	(1,227,317)	(2,618,158)	(2,272,803)

The Company has investments carried under both the cost and equity methods. The net assets of the subsidiary, Aliança Atlântica, are represented principally by an equity interest of 0.42% in Portugal Telecom.

The Company has a direct interest of 0.64% and an indirect interest of 0.21% in Portugal Telecom, carried at cost. The investment, at market value, is based on the last quotation of June 2004 on the Lisbon Stock Exchange for Portugal Telecom, equivalent to 8.87 euros (8.87 euros in June 2004):

Telecomunicações de São Paulo S.A. - TELESP

The principal market risk factors that affect the Company's business are detailed below:

a) Exchange rate risk

This risk arises from the possibility that the Company may incur losses due to exchange rate fluctuations, which would increase the balances of loans and financing denominated in foreign currency and the related financial expenses. To reduce this risk, the Company enters into hedge contracts (swaps) with financial institutions.

The Company's indebtedness and the results of operations are significantly affected by the foreign exchange rate risk. As of September 30, 2004, 100% of the debt was denominated in foreign currency (U.S. dollar, Canadian dollar and yen); 99.5% of this debt was covered by asset positions on currency hedge transactions (swaps for CDI). Gains or losses on these operations are recorded in income. As of September 30, 2004, these transactions generated a net gain of R\$199,155 (consolidated). The Company has recorded a liability of R\$205,900 to reflect the unrealized temporary loss.

The historical value and market value of the Company's net excess (exposure) to the exchange rate risk as of September 30, 2004 and June 30, 2004 are as follows:

	Consolidated			
	Sept./2004		Jun./2004	
	Book	Market	Historical	Market
	value	value	value	value
Liabilities				
Loans and financing	1,862,694	1,855,581	3,253,675	3,252,961
Purchase commitments	50,272	50,272	85,296	85,296
Asset position on foreign exchange swaps	1,903,487	1,912,321	3,335,638	3,346,466
Net excess (exposure)	(9,479)	6,468	(3,333)	8,209

The valuation method used to calculate the market value of loans, financing and hedge instruments (foreign exchange swaps) was the discounted cash flow method, considering settlement or realization expectations of liabilities and assets, at market rates prevailing on the balance sheet date.

Telecomunicações de São Paulo S.A. - TELESP

b) Interest rate risk

This risk arises from the possibility that the Company may incur losses due to internal and external interest rate fluctuations affecting the Company's results.

As of September 30, 2004, the Company had R\$1,862,694 (R\$3,253,675 as of June 30, 2004) of loans and financing in foreign currency, of which R\$1,216,384 (R\$2,371,021 as of June 30, 2004) was at fixed interest rates and R\$646,310 (R\$882,654 as of June 30, 2004) was at variable interest rates. To hedge against the exchange risk on these foreign currency debts, the Company has hedge transactions in order to peg these debts to local currency, at floating rates indexed to the CDI, in a way that the Company's financial result is affected by the CDI. On the other hand, the Company invests its excess cash (temporary cash investments) of R\$378,911 (R\$673,730 as of June 30, 2004) mainly in short-term instruments, based on the CDI variation, which reduces this risk. The book values of these instruments approximate market values, since they may be redeemed in the short term.

As of September 30, 2004, the Company had swap transactions - CDI versus fixed rate - to partially hedge against internal interest rate fluctuations. Hedged operations mature in January 2005, totaling R\$639,970 (R\$1,153,388 as of June 30, 2004).

Another risk to which the Company is exposed is the nonmatching of the monetary restatement indices for its debt and for accounts receivable. Telephone tariff adjustments do not necessarily follow increases in local interest rates, which affect the Company's debt.

c) Debt acceleration risk

As of September 30, 2004, most of the Company's loan and financing agreements contain restrictive clauses (covenants), typically applied to such agreements, relating to cash generation, debt ratios and other. These restrictive clauses have been complied by the Company in full and do not restrict its capacity to conduct its regular business.

d) Credit risk

This risk arises from the possibility that the Company may incur losses due to the difficulty of receiving amounts billed to its customers. The credit risk on accounts receivable is dispersed. The Company constantly monitors the level of accounts receivable and limits the risk of past-due accounts, interrupting access to telephone lines in case the customer does not pay the related bills in 30 days. Exceptions are made for telecommunication services that must be maintained for security or national defense reasons.

As of September 30, 2004, the Company's customer portfolio had no subscribers whose receivables were individually higher than 1% of the total accounts receivable from services.

The Company is also subject to credit risk related to temporary cash investments and receivables from swap transactions. The Company reduces this exposure by dispersing it among creditworthy financial institutions.

34. BONDS

In September 02, 2004, the Company published a relevant fact related to the establishment of a Public Offering of Obligations Program (the Program) and the activation, within the Program s parameters, of the First Issuance of Telesp s Bonds (the Offer).

The Program has a total value of R\$3,000,000,000.00 (three billion reais), with maturity of two years, counted from the filing at CVM. It considers the issuance of simple bonds, not convertible to shares, unsecured type and/or Promissory Notes.

The Offer consists of the issuance of 150,000 simple bonds, not convertible to shares, unsecured type (Debêntures), with nominal value of R\$10,000.00 per unit, totaling the amount of R\$1,500,000,000.00 (one billion and five hundred million reais), in a single series. The bonds will yield interests with quarterly payments corresponding to 103.5% of the accumulated average daily rates of the DI (overnight Inter-financial Deposits Extra-Group), calculated and published by CETIP (Custodian and Liquidation Chamber). The bonds will mature in 6 years, with a provision to review the conditions in three years.

The Offer and the Program were approved by Telesp s Extraordinary General Shareholders Meeting, held on September 02, 2004. The additional conditions of the Offer were deliberated in the Board of Directors Meeting of the Issuer, held on September 20, 2004.

On October 15, 2004, the Program was filed at the CVM, and the registration of the Offer was granted.

35. SUBSEQUENT EVENT

On October 06, 2004, the Company published an announcement to declare interim Dividends and Interest on Capital of the current year, in accordance of the resolution taken by the Board of Directors at the Meeting held on October 05, 2004, *ad referendum* of the General Shareholders Meeting.

Corresponding credits were stated to the Company s accounting records on October 05, 2004, individually for each shareholder, based on shares held at October 05, 2004. The payment of these dividends and interests on capital began on October 29, 2004.

a) Interim dividends - fiscal year 2004

The Company declared interim dividends in the amount of R\$1,596,120 based on retained earnings of the last six-month period balance sheet ended June 30, 2004, in accordance to article 28 of the Company s bylaws and articles 204 of Law No. 6,404/76.

Operating expenses, net	(1,991.3)	(1,804.7)	10.3	(186.6)
Income from operations	1,765.8	1,364.6	29.4	401.2
Net income	1,475.0	928.0	58.9	547.0

- Net operating revenue for the nine-month period ended 2004 was R\$9,862.1, as compared to R\$8,608.6 in the same period of the preceding year, an increase of R\$1,253.5 or 14.6%, due to the tariff adjustment based on the IPC-A since June 2003 and readjustment in July 2004 based on IGP-DI, together with the growth of the Speedy Service, as well as the long-distance services.
- Cost of services provided increased R\$561.8 or 11.3%, mainly due to the increase in network interconnection expenses after the implementation of the Personal Mobile Service (PMS), increase in costs for telecommunication equipment maintenance provided by third parties and increase in expenses on sale of modems, partially offset by results of voluntary termination programs and reduction in the amounts of depreciation for obsolescence and assets already fully depreciated.
- Net financial expenses were R\$592.8 for the period, an increase of R\$103.9, compared to the same period of 2003, mainly due to interest on capital, which was partially offset by the decrease in interest expenses due to the reduction in the Company's average indebtedness. The Company also has hedge contracts with financial institutions to reduce the foreign exchange risk arising from the possibility of incurring losses due to exchange rate fluctuations.

Net financial expenses YTD - R\$	Sept./04	Sept./03	Change	
			%	R\$
Results of financial operations	55.7	149.9	(62.8)	(94.2)
Results of hedge operations	(199.2)	(1,110.4)	(82.1)	911.2

7. ANATEL

7.1 Targets

The quality and universalization targets for fixed-line service (STFC) are available at ANATEL's website: www.anatel.gov.br.

7.2 National and international long-distance operating authority

ANATEL recognized that the Company had met the universalization targets by more than two years in advance, which permitted the Company to receive the licenses to explore STFC for national and international long-distance calls throughout Brazil, thus expanding its frontiers. Subsequently ANATEL announced the authorization for the Company to provide STFC throughout Brazil, for national long-distance calls in Regions I, II and Sector 33 of Region III and international long-distance calls in all three regions. An injunction was granted to Embratel suspending the national long-distance calls originated in its concession area to Regions I (Telemar) and II (Brasil Telecom); however, this injunction was reversed by ANATEL, allowing the Company to provide services throughout Brazil.

In May 2003 the Company began offering local-call services in an additional six states, in addition to São Paulo, its original concession area. Later, the Company's operations were expanded to cover the cities of Duque de Caxias, Nova Iguaçu and São Gonçalo (in the State of Rio de Janeiro), Aracajú (Sergipe), Vitória (Espírito Santo), Porto Alegre (Rio Grande do Sul), Curitiba (Paraná) and Florianópolis (Santa Catarina).

Operations in these cities mark the start of the progressive achievement of the targets established by ANATEL at the time the concession was granted for providing local services in regions outside the State of São Paulo, representing an advance in the accomplishment of universalization targets based on which the Company has become the first concessionaire to offer local telephony services outside its original area of operation.

On July 6, 2003, the wireless operators implemented the Carrier Selection Code - CSC on national (VC2 and VC3) and international long-distance calls, under PMS rules. The Company began to recognize revenues from these services, and pay wireless operators for the use of their networks on these calls.

8. iTelefônica

The Company, through its subsidiary Assist Telefônica S.A., started to provide internet access services in the State of São Paulo (the list with the cities is available on the web site itelefonica.com.br).

After several tests conducted in cities in the State of São Paulo since September 29, 2002, on July 13, 2003, Telefônica officially launched the provider iTelefonica in the entire State.

9. Economy and Super-economy Lines

As of July 14, 2004, Telesp announced to its customers and users in general the launch of a promotion through alternative plans for local service - the Economy Line and the Super- -economy Line - and for National Long-distance Service from fixed terminals in its concession area - the Economy Line Card. With the Economy Line, the customer pays a subscription of R\$22.30 and can make fixed-to-fixed local calls charged to a monthly account. To make long-distance calls or to call cellular phones, a prepaid card with calling credits must be purchased.

With the Super-economy Line, the customer pays a subscription of R\$11.15 and the telephone only receives calls. To make any calls, a prepaid card is required. Some of these prices are promotional and are valid for new customers until November 30, or until an inventory of 300,000 available lines is exhausted.
