Table of Contents**3. Management Performance (Consolidated)**

Consolidated net sales for the first quarter of the fiscal year ending March 31, 2006, expanded 21.6% over the previous corresponding period, to ¥386.7 billion. Net income for the first quarter accelerated 83.9%, to ¥19.0 billion. These results represent four consecutive first-quarter improvements in both sales and profits.

In addition to an outstanding performance achieved by the construction and mining equipment business, Komatsu's stronghold operation, sales of the industrial machinery, vehicles and other operations, as well as the electronics business also improved their business results from the corresponding period a year ago. Operating profit doubled to ¥36.9 billion, an increase of 103.5% over the previous corresponding period, recording growth in both sales and profits for all business segments.

Construction and mining equipment

Consolidated net sales of construction and mining equipment for the first quarter under review made an outstanding increase of 25.6% over the corresponding period a year ago, to ¥303.9 billion, a record-high result since Komatsu began announcing quarterly settlement in the fiscal year ended March 31, 2003. This substantial growth in sales is attributable to improved sales prices in Japan and overseas and expanded production capacity being in place in addition to an increase in sales volume in response to thriving demand worldwide. Segment profit for this business climbed 88.7% over the previous corresponding period, to ¥32.1 billion, showing continued recovery of profitability.

During the first quarter period, Komatsu accelerated sales in the major markets of North America and Europe as well as Latin America and Asia & Oceania with burgeoning demand for mining equipment. In Japan, sales of new equipment steadily grew mainly to rental companies, partly reflecting the progress of restoration work in areas affected by earthquakes and typhoons. In China, Komatsu stepped up sales, as demand for construction equipment has steadily recovered since April this year.

Industrial Machinery, Vehicles and Others

Consolidated net sales of industrial machinery, vehicles and other operations advanced 9.2% over the corresponding period last year, to ¥55.2 billion for the first quarter under review. Segment profit for this business advanced by about 3.6 times, to ¥2.7 billion.

In particular, Komatsu Industries Corp. achieved outstanding performance against the backdrop of aggressive capital investments by automakers. Similarly, other Komatsu Group companies, such as Komatsu Forklift Co., Ltd. and Komatsu Machinery Corp., expanded their sales and profits.

Electronics

Consolidated net sales of the electronics business grew 7.4% over the previous corresponding period, to ¥27.4 billion for the first quarter period under review. Segment profit for this business reached ¥2.8 billion, up 49.3%.

Komatsu Electronic Metals Co., Ltd. secured sales on par with those posted for the corresponding period last year, while total demand for silicon wafers failed to reach the level registered a year ago. Nevertheless, the market has been recovering steadily centering on 300mm wafers. Advanced Silicon Materials LLC improved sales and profits substantially by capitalizing on strong demand for polycrystalline silicon and monosilane gas.

Table of Contents**4. Financial Conditions (Consolidated)**

Total assets amounted to ¥1,475.4 billion at the end of the first quarter under review, an increase of ¥26.4 billion from the last fiscal year-end, reflecting expanded inventories resulting from boosted sales of construction and mining equipment. However, overall asset turnover ratio improved, allowing the Company to facilitate repayments of interest-bearing debt. As a result, interest-bearing debt totaled ¥414.9 billion, a decrease of ¥17.3 billion from the last fiscal year-end, reflecting repayments of borrowings. Shareholders' equity increased with expanded profits, and net debt-to-equity ratio* improved to 0.68 at the end of the first quarter under review from 0.70 at the last fiscal year-end.

* Net DER = (Interest-bearing debt - Cash and cash equivalents - Time deposits)/Shareholders' equity

3. Reasons for the Revision

Edgar Filing: KOMATSU LTD - Form 6-K

In its stronghold business segment of construction and mining equipment, Komatsu anticipates continued growth of investments in energy-related and social infrastructure developments and can expect to expand sales in virtually all regions of the world, including the major market of North America and the steadily recovering market of China.

As announced in June 2005, Komatsu plans to sell 75% of its stake in Advanced Silicon Materials LLC (ASiMI), a subsidiary in the United States, to Renewable Energy Corporation AS of Norway at the end of July 2005. As a result of this sale, ASiMI will be excluded from consolidation, and compared to the earlier projection, Komatsu projects that consolidated sales and operating profit will decline by approximately ¥9 billion and ¥3 billion, respectively, while net income will increase by approximately ¥9 billion, reflecting the proceeds from the sale.

In view of the above matters, Komatsu projects that consolidated sales, operating profit, income before income taxes, and net income will exceed the earlier projections by ¥80 billion, ¥20 billion, ¥35 billion, and ¥21 billion, respectively.

(end)
