-

**Item 8.01. Other Events.**

On March 21, 2006, sanofi-aventis and Bristol-Myers Squibb Company (the Company) issued a joint press release announcing that they have reached an agreement subject to certain conditions with Apotex Inc. and Apotex Corp. to settle the patent infringement lawsuit pending between the parties in the U.S. District Court for the Southern District of New York. The lawsuit relates to the validity of a composition of matter patent for clopidogrel bisulfate, a medicine made available in the United States by sanofi-aventis and the Company as PLAVIX®. The trial in the lawsuit had previously been scheduled to begin in June 2006. As a result of the agreement, the Court has now suspended the trial date pending the possible finalization of the proposed settlement.

The agreement is subject to certain conditions, including antitrust review and clearance by the Federal Trade Commission and state attorneys general. There is a significant risk that required antitrust clearance will not be obtained. In such event, the proposed settlement would be terminated, and the litigation would be reinstated in the same Court. If the litigation were reinstated, sanofi-aventis and the Company intend to vigorously pursue patent enforcement of their patent rights in PLAVIX®.

It is not possible at this time reasonably to assess the outcome of this lawsuit or the timing of potential generic competition for PLAVIX®. Apotex announced in January 2006 that it had received final approval of its aNDA for clopidogrel bifulfate from the FDA. As a result, if the litigation were reinstated, Apotex could launch a generic clopidogrel at risk.

A copy of the press release is attached to this report as Exhibit 99.1. Also attached to this report as Exhibit 99.2 is supplemental information posted on the Company's website at [www.bms.com](http://www.bms.com).
