For Immediate Release

To Whom It May Concern

MITALCO SELLS ITS MINORITY INTEREST IN INTALCO AND EASTALCO

SMELTERS IN WASHINGTON AND MARYLAND U.S.A.

Mitsui & Co., Ltd. announced today that one of its United States subsidiaries, Mitalco Inc., reached agreement to sell its 32 percent stake in Intalco and Eastalco aluminum smelters to Alcoa Inc. Intalco and Eastalco are located in Ferndale, Washington, and Frederick, Maryland.

The Eastalco smelter was idled in December 2005 because it could not secure a competitively priced long-term electrical power arrangement. As to the Intalco smelter, its current power contract will expire in October 2006. Taking the deterioration in power procurement conditions into account, Mitsui negotiated with Alcoa and others to sell Mitsui's interest and liabilities in both smelters, and now it has reached an agreement with Alcoa. YKK Corporation in Tokyo has also reached agreement to sell the 7 percent interest held by its United States affiliate to Alcoa.

Mitsui has previously reported impairment losses on those relevant assets, and does not expect any additional losses to be recognized in its consolidated operating results for the year ending March 2007 due to this transaction.

Mitsui regards aluminum as a very important material and expects stable demand increases worldwide. Mitsui's strategy of being aggressively involved in aluminum investments as one of its core business activities remains unchanged, and the company will continue to pursue new investment opportunities as well as to expand current investments in aluminum.
