## The Mexico Fund, Inc.

### Semi-Annual Report

April 30, 2006

### Highlights

- The first half of the Fund's fiscal year 2006 ended on April 30, 2006.
- On June 4, 2006, the Fund celebrated the 25<sup>th</sup> Anniversary of its original launch on that date in 1981. Since the launch and through April 30, 2006, the Fund's compounded annual market price and net asset value per share returns have been 11.6% and 12.6%, respectively. These figures include reinvestment of all dividend distributions.
- Lipper Inc. has ranked the Fund number one among Lipper's Latin American funds classification in the Lipper Closed-End Equity Fund Performance Analysis for the five-year period ended December 31, 2005. According to Lipper, the Fund registered market price and net asset value per share returns of 213.3% and 187.2%, respectively, during this period. Lipper is a Reuters Company that provides research and analysis covering more than 135,000 mutual funds, hedge funds and other collective investments worldwide.
- During the first six months of fiscal 2006, the Fund's market price and net asset value (NAV) per share registered total returns of 26.9% and 28.0%, respectively, compared with increases of 28.5% and 27.4% registered by the IFCG Mexico and IPC indices, respectively.
- At the end of this period, the discount between the Fund's market price and NAV per share was 12.4%, compared with 11.2% at the end of fiscal 2005.
- The Fund conducted its first in-kind repurchase offer of fiscal 2006 during January 2006. The Fund offered to repurchase up to 5% of its outstanding shares at a price equivalent to 98.75% of its NAV per share on the expiration date, January 13, 2006. A total of 5,746,444 shares, equivalent to 34.01% of outstanding shares were validly submitted for repurchase and the proration ratio applied to all submissions was 14.68%.
- The Mexican gross domestic product (GDP) increased 5.5% during the first quarter of 2005, compared with 3.0% during 2005.

*The Mexico Fund, Inc. is a non-diversified closed-end management investment company with the investment objective of long-term capital appreciation through investments in securities, primarily equity, listed on the Mexican Stock Exchange. The Fund provides a vehicle to investors who wish to invest in Mexican companies through a managed non-diversified portfolio as part of their overall investment program.*

*Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may purchase, from time to time, shares of its common stock in the open market.*

## **The Mexico Fund, Inc.**

### **To Our Stockholders:**

---

We are pleased to present to you the Fund's 2006 Semi-Annual Report. The Fund's strategy of investing in growth-oriented businesses, including, but not limited to, small- and medium-capitalization companies, continues to produce favorable performance in the Fund's market price and net asset value (NAV) per share. In this Report, we summarize the period's prevailing economic and market conditions in Mexico and outline the Fund's investment strategy and resulting performance. We hope you find this Report useful and informative.

### **25<sup>th</sup> Anniversary**

On June 4, 2006, the Fund celebrated its 25<sup>th</sup> Anniversary since its original launch in 1981, when 10,000,000 Fund shares were listed on the New York and London Stock Exchanges at a price of \$12 per share. Since then, and through April 30, 2006, the Fund's compounded annual market price and net asset value per share returns have been 11.6% and 12.6%, respectively, including reinvestment of all dividend distributions. The Fund's Board of Directors and Officers, as well as the Fund's Investment Adviser, look forward to continuing to work collectively for the best interests of the Fund and its stockholders.

### **Economic Environment**

According to official sources, Mexico's gross domestic product (GDP) continued to show a positive performance, increasing 5.5% during the first quarter of calendar 2006, compared with 3.0% during 2005. A dynamic manufacturing sector and a higher number of business days included during the first quarter of 2006 than those of the same period of 2005 contributed significantly to this differential. During the first quarter of 2006, all sectors of the economy registered positive rates of growth: transportation, storage and communications, 8.8%; construction, 8.3%; manufacturing, 7.1%; mining, 5.9%; financial services and real estate, 5.7%; commerce, restaurants and hotels, 5.3%; electricity, gas and water, 4.1%; personal services, 2.9%; and the primary sector, composed of agriculture, fishery and livestock, increased 2.6%.

Mexico's inflation rates continue under control. According to information prepared by Banco de Mexico, the Central Bank, for the year ended May 31, 2006, the Mexican inflation rate was 3.0%, compared with 3.33% at the end of 2005. This decline was generated by the restrictive monetary policy implemented by the Central Bank in an effort to reach annual inflation rates of 3% ( $\pm 1\%$  as a margin of error to accommodate external factors). Analysts currently believe that the annual inflation rate for 2006 will be around 3.4% and 3.5% for 2007.

As a consequence of lower inflation rates, domestic interest rates have declined in recent months. The interest rate of the 28-day Cetes declined from 9.6% at the end of May 2005 to 7.0% one year later. Similarly, Mexico's country risk, measured by the spread between the yield of Mexican sovereign debt instruments traded abroad and US Treasury bonds, reached a new historical minimum level of 97 basis points (0.97%) on February 24, 2006. Since then, along with the volatility experienced in international financial markets, Mexico's country risk increased to 145 basis points at the end of May 2006. Analysts estimate that interest rates will be relatively stable during the rest of 2006 and 2007, projected at 7.2% and 7.0%, respectively, at the end of each year. The interest rate paid by the 20-year bond denominated in Mexican pesos was 8.7% at the end of May 2006, compared with 10.9% during May 2005. The stable demand for, and long-term maturities of, these instruments continue to reflect the confidence and positive sentiment of domestic and international investors towards Mexican debt instruments.

The significant increase of international oil prices and remittances sent by Mexicans living abroad,

mostly in the United States, continued to contribute to a relative strength of the Mexican peso, which devalued 2.8% during this six-month period. The exchange rate of the peso against the US dollar increased from Ps. 10.79 to Ps. 11.09. During the first quarter of calendar 2006, remittances sent to Mexico from Mexicans living abroad increased 27.5% to \$5.18 billion, while the price of the Mexican oil mix increased 43.5% during the same period, from US\$39.86 per barrel to US\$57.18 per barrel. The Central Bank continues implementing a free-floating exchange rate policy, with only minor market interventions aimed at reducing the rate of growth of international currency reserves, which have continued reaching historical maximum levels. As of mid June 2006, international reserves amounted to \$76 billion. During May and June 2006, international financial markets were affected by the reaction of international investors to rising international interest rates, and the exchange rate of the Mexican peso against the dollar increased to around Ps. 11.44 per dollar as of June 22, 2006. Despite this increase, analysts estimate that the exchange rate will be relatively stable during the remaining months of 2006 and during 2007, estimated at around Ps. 11.12 and Ps. 11.45, respectively, at the end of each year.

Mexico's external accounts continue reporting healthy rates of growth consistent with those of the economic activity, foreign trade and oil prices. During 2005, Mexico registered a trade deficit of \$7.6 billion, 14.2% lower than during 2004. More recently, during the first four months of 2006, Mexico's trade balance shifted to a surplus of \$1.2 billion, which is mostly explained by the high levels of international oil prices (see previous paragraph). During this period, Mexico's total exports increased 22.4% to \$78.7 billion; within this, non-oil exports increased 17.9% to \$65.3 billion, while oil exports increased 50.4% to \$13.4 billion. At the same time, total imports increased 16.0% to \$77.5 billion. Also as a consequence of high international oil prices, the Mexican current account registered a surplus of \$882 million during the first quarter of 2006, compared with a deficit of \$2.7 billion during the same period of 2005.

### **Management Discussion of Fund's Performance and Portfolio Strategy**

Throughout the first half of fiscal 2006, the Mexican equity market continued to provide favorable investment opportunities, allowing the Fund to capitalize on the results of its investment strategy by investing in leading Mexican corporations as well as attractive and growth-oriented small- and medium-capitalization companies. During this period, the Fund's market price and NAV per share registered total returns of 26.9% and 28.0%, respectively, increasing to \$32.50 and \$37.10, respectively. These figures compare with 28.5% for the IFCG Mexico Index, 27.4% for the Bolsa IPC Index, 26.5% for the Morgan Stanley Capital International Index and 21.2% for the Bolsa Index of Medium Size Companies.

During the period that covers this Report, Mexican listed companies continued reporting strong financial results. For the first quarter of calendar 2006, compared with the same period of 2005, sales of listed companies increased 13.0%, EBITDA<sup>1</sup> increased 13.9% and net income grew 19.5%. The average Price Earnings Ratio (PER) of the market increased from 13.1 times at the end of October 2005 to 15.6 times at the end of April 2006, while the price to book value ratio increased from 2.4 times to 3.0 times during the same period.

---

<sup>1</sup> Earnings before interests, taxes, depreciation and amortization.

The Fund's five portfolio holdings that contributed the most to the increase to its NAV during this six-month period were: América Móvil (AMX), América Telecom (Amtel), Grupo México (Gmexico), Cemex and Tenaris (TS), which together accounted for 34.6% of the Fund's net assets as of the end of April 2006. These five issuers provided 52.4% of the total return of the Fund's NAV during this period. AMX provides telecommunications services in Mexico and Latin America; Amtel is the holding company of AMX; Grupo Mexico is a mining and railroad company; Cemex is one of the world's leading producers of cement, concrete and ready mix; and Tenaris is a producer of seamless steel pipe products for the oil industry. During the first half of this fiscal year, the market prices of these five issuers increased 40.8%, 54.7%, 81.2%, 29.6% and 114.2%, respectively. Two other important contributors to the Fund's NAV performance were Grupo Urbi Desarrollos Urbanos (Urbi) and Consorcio Geo, two companies in the business of constructing mostly affordable and middle-income houses. The market prices of these two issuers increased 27.6% and 21.0%, respectively. The 2.8% increase of the exchange rate of the Mexican peso against the US dollar, mentioned above, negatively contributed to the Fund's total return during this six-month period.

Until recently, companies listed on the Mexican Stock Exchange were only organized under Mexican law. Recently, companies organized outside of Mexico have listed on the Mexican Stock Exchange, a consequence of the increasing globalization of the Mexican economy and its securities market. Because the Fund's Investment Adviser believes some of these issuers may present attractive investment opportunities, the Fund's Board of Directors recently approved permitting the Fund to invest in securities of issuers listed on the Mexican Stock Exchange that are not organized in Mexico, provided that such issuers or their subsidiaries have a business presence in Mexico, and that, in the aggregate, no more than 20% of the Fund's assets are invested in such issuers (based on the initial value of the investment). Based on this decision, the Fund was able to invest in Tenaris, with significant positive results (mentioned above). Tenaris is a global company with operations in Argentina, Brazil, Canada, Italy, Japan, Mexico, Romania and Venezuela. Tenaris is organized in Luxembourg and listed on several stock exchanges, including the NYSE and the Mexican Stock Exchange.

Of the 33 equity issuers included in the Fund's portfolio at the end of April 2006, only three experienced market price declines, the most important being Pasa, with a decline of 38.1%. Pasa is a company recently listed on the Mexican Stock Exchange dedicated to the business of waste treatment and garbage recollection. The market price of Pasa has been affected since the company announced that they were not able to renew an important contract with the Mexican oil company Pemex. The other two companies were Bimbo (consumer goods), with a decline of 5.8% and Alfa (conglomerate) with a decline of 13.6%. At the end of April 2006, the weight of Pasa within the Fund's portfolio was 0.3%, while Bimbo and Alfa accounted for 1.6% of Fund assets each.

The discount between the Fund's market price and NAV ended April 2006 at 12.38%, compared with 11.22% at the end of fiscal 2005. On a regular basis, the Board of Directors closely analyzes the Fund's discount levels. The Board believes that the Fund's periodic in-kind repurchase offers continue to be an effective measure to contain the discount and allow stockholders the opportunity to have additional liquidity at a price near the NAV per share.

At the closing of April 2006, total Fund outstanding shares amounted to approximately 16 million, for total net assets of \$595.4 million, and the total number of Fund shares traded on all US consolidated markets during the first half of fiscal 2006 was equivalent to 5.87 million shares.

Since the end of this reporting period, international financial markets, including the Mexican market, have demonstrated volatility with decreasing market prices in response to the increase of international interest rates. Mexico's Bolsa index has decreased 11.2% in dollar terms, from 20,646 points on April 30, 2006 to 18,766 points on June 6, 2006, while the Fund's market price and NAV per share have decreased 6.7% and 9.9%, respectively, during the same period.

The following chart shows the Fund's portfolio composition by sector, expressed as a percentage of the Fund's net assets. More detailed information about the Fund's portfolio is available below in this report.

### **Portfolio Composition by Sector**

**% of Net Assets**

**April 30, 2006**

Lipper Inc, has ranked the Fund number one among Lipper's Latin American funds classification in the Lipper Closed-End Equity Fund Performance Analysis for the five-year period ended December 31, 2005. According to Lipper, the Fund registered market price and net asset value per share returns of 213.30% and 187.15%, respectively, during this period. Lipper is a Reuters Company that provides research and analysis covering more than 135,000 mutual funds, hedge funds and other collective investments worldwide. The Fund has received 22 Lipper awards since its inception in June 1981.

### **Annual Meeting of Stockholders**

The Fund held its annual stockholders' meeting on March 8, 2006 at 1:00 p.m. New York City Time at 30 Rockefeller Plaza, 23<sup>rd</sup> Floor, New York, New York. Fund stockholders re-elected Dr. Jaime Serra Puche and elected Mr. Marc Shapiro as a new director. Mr. Philip Caldwell, former director and Chairman of the Fund's Audit Committee, decided not to stand for re-election and retire from the Board. The Board of Directors and Fund Officers wish to express their gratitude to Mr. Caldwell for his distinguished service to the Fund and its stockholders.

A total of 10,934,923 Fund shares were present at the meeting, constituting a quorum of 64.72%. The results of the meeting were as follows.

*Election of Directors*

	<u>For</u>	<u>% of Outstanding</u>	<u>% of Voted</u>	<u>Against</u>	<u>% of Outstanding</u>	<u>% of Voted</u>
Jaime Serra Puche	10,816,534	64.02%	98.9%	118,389	0.007%	0.010%
Marc Shapiro	10,771,267	63.75%	98.5%	163,656	0.009%	0.014%

**Renewal of Investment Advisory and Management Agreement**

On March 8, 2006, the Board of Directors ( Board ) of the Fund, including a majority of independent Directors, approved the continuation of the Investment Advisory and Management Agreement ( Agreement ) with Impulsora del Fondo México, SC ( Impulsora ) based on its consideration of various factors, including (1) the nature, extent and quality of services provided by Impulsora to the Fund; (2) the investment performance of the Fund; (3) the costs and services provided, including a comparison of such costs to other comparable funds; (4) profits to be realized by Impulsora from its relationship with the Fund; and (5) the extent to which economies of scale have been realized as the Fund grows and whether fee levels reflect these economies of scale for the benefit of Fund investors. In response to a specific request by the Independent Trustees, Impulsora provided detailed information concerning the foregoing factors. The Board also evaluated information consisting of comparative figures of overall expenses, management and other fees, of a group of substantially similar funds. As discussed more fully below, the Board considered the Fund's positive performance, as well as the Fund's current advisory fee rate which is one of the lowest in the closed-end fund industry. The Board determined that the fees payable to Impulsora were reasonable, especially in light of the quality of the services provided, as well as the level of advisory fees paid by comparable funds.

The following discussion is not intended to be all-inclusive. The Board reviewed a variety of factors and considered a significant amount of information, including information received on an ongoing basis at meetings of the Board and Board committees. In view of the broad scope and variety of these factors and information, the Board did not find it practicable, and did not make specific assessments of, quantify or otherwise assign relative weights to the specific factors in reaching their conclusions and determinations to approve the continuance of the investment Advisory and Management Agreement.

- **The nature, extent and quality of the advisory services provided.** The Board concluded that Impulsora provides high quality services to the Fund, as indicated by the Fund's competitive investment performance, including its performance as compared to the Mexican market indices, as well as against other listed funds that invest exclusively in Mexican securities. The Board further noted that Impulsora provides all facilities and services necessary to analyze, execute and maintain investments that are consistent with the Fund's objectives, and has done so since the Fund's inception in 1981.
- **The investment performance of the Fund.** As noted above, the Board determined that Impulsora has achieved competitive or superior investment performance relative to the leading Mexican equity indices and comparable funds. In fact, the Board noted that during the past two

years, the Fund has outperformed all comparable funds investing in Mexican equity securities except for one proprietary fund. The Board also considered the considerable efforts made by Impulsora to address the discount between the Fund's net asset value and market price.

- **The costs of advisory services provided and the level of profitability.** The Board reviewed the fees charged by Impulsora for investment advisory services, the gross revenues and pre-tax profits earned by Impulsora. On the basis of this information, the Board concluded that the level of investment advisory fees is appropriate in light of the management fees and that the overall expense ratios compared favorably to other similar funds and the anticipated profitability of the relationship between the Fund and Impulsora. Further, on the basis of comparative information supplied by Lipper Inc., the Board determined that the investment advisory fee of the Fund was equal to the weighted average of other comparable closed-end country funds. In addition, the Board reviewed itemized expenses incurred by some other world equity closed-end funds as compared to the Fund. The Board also reviewed the actual dollar amount of the fees payable under the Investment Advisory and Management Agreement, as well as the fee as a percentage of assets under management.
- **Whether the advisory fees reflect economies of scale and the extent to which economies of scale will be realized as the Fund grows.** The Board determined that the investment advisory fees payable under the advisory arrangements already reflect potential future economies of scale through the existing fee structure, which includes the imposition of breakpoints as Fund assets increase, of 1.00% of average net assets for assets up to and including \$200 million, 0.90% of average net assets in excess of \$200 million and up to \$400 million, and 0.60% of average net assets for assets in excess of \$400 million.
- **Benefits to Impulsora from relationships with the Fund (and any corresponding benefit to the Fund).** The Board determined that other benefits described by Impulsora are reasonable and fair, and are consistent with industry practice and the best interest of the Fund and its stockholders. In this regard, the Board specifically considered the benefits to Impulsora due to the fact that it also serves, and receives an additional fee from the Fund as administrator to the Fund. In addition, the Board considered the fact that Impulsora also receives \$75,000 for each Fund repurchase offer (with such amount payable through an adjustment to the repurchase price paid to shareholders participating in the repurchase offer in order to reimburse the Fund for repurchase offer related expenses). With regard to brokerage, the Board noted that Impulsora does not utilize soft dollar arrangements. With regard to benefits to the Fund, the Board considered the fact that Impulsora has been able to obtain from Mexican brokerage houses, on behalf of the Fund, one of the lowest commission rates in Mexico.

### Concentration Policy

The Fund has adopted a concentration policy that permits it to concentrate its investments in any industry or group of industries in the IPC Index (or any successor or comparable index as determined by the Board of Directors to be an appropriate measure of the Mexican market) if, at the time of investment, such industry represents 20% or more of the IPC Index; provided, however, that the Fund will not exceed the IPC Index concentration by more than 5%.

At the end of April 2006, the only industry group that represented 20% or more of the value of the securities included in the IPC Index is the communications industry group. This industry includes local, long-distance, and cellular telephone

companies, as well as broadcast and media companies. Approximately 87.81% of this industry group is comprised of stocks of telecommunications companies. At the end of April 2006, 27.5% of the Fund's net assets were invested in this industry group. This is compared with the communications industry group's weighting of approximately 45.12% of the IPC Index. The Fund's Investment Adviser will continue to evaluate the concentration in this industry and may choose not to concentrate in this industry group in the future or to concentrate in other industries subject to the concentration policy described above.

### **Periodic Repurchase Offer Authority**

On March 6, 2002, the Fund announced the Board's approval of a policy to conduct periodic in-kind repurchase offers at no less than 98% of NAV for up to 100% of the Fund's outstanding shares. This policy is intended to provide additional liquidity to Fund shares and to reduce the discount at which Fund shares have been trading on the NYSE. Under this policy which was approved by stockholders and is the subject of exemptive relief granted by the Securities and Exchange Commission (SEC), the Fund offers to repurchase no less than five percent of the Fund's outstanding shares each fiscal year, based on the number of shares outstanding at the beginning of the fiscal year. Repurchase offers are in-kind and conducted at least once each fiscal year, but not more frequently than quarterly, and are for between one and one hundred percent of the Fund's outstanding shares. The Board can set or reset the periodic interval between repurchase offers at three, six or 12 months.

The Fund has publicly announced that its next repurchase offer will begin on July 5, 2006. The Fund is offering to repurchase up to five percent of its shares in exchange for a pro-rata portion of the Fund's securities. The repurchase offer will expire on August 3, 2006 at 5:00 p.m., Eastern time. The repurchase pricing date is August 10, 2006. The

Fund will repurchase shares at net asset value, reduced by a repurchase price adjustment of 1.25%, for a repurchase price of 98.75% of net asset value. Payment of the repurchase offer proceeds will be made on or before August 17, 2006, provided the stockholder participant's account accepts the proceeds.

**The repurchase offers are not part of a plan to liquidate the Fund. Stockholder participation in the repurchase offers is not mandatory as stockholders can continue to purchase and sell Fund shares in cash transactions on the NYSE. The Fund continues to provide a convenient professionally managed vehicle for investing in Mexico.**

The Board of Directors of the Fund anticipates that the Fund's next repurchase offer following the July 2006 repurchase offer will occur during January 2007 for an amount not yet determined.

### **Proxy Voting**

Information is available about how the Fund voted proxies during the twelve-month period beginning July 1<sup>st</sup> and ending June 30<sup>th</sup> of each year by August 31<sup>st</sup> of the year, without charge, upon request, by calling collect Mr. Eduardo Solano, the Fund's Investor Relations Vice President, at (52 55) 5280-3247, during Mexico City business hours (10:00 am to 3:00 pm and 5:00 to 7:00 pm ET) and on the SEC's website at [www.sec.gov](http://www.sec.gov). The Fund and the Fund's Investment Adviser's proxy voting policies and procedures are on the Fund's website, [www.themexicofund.com](http://www.themexicofund.com), or are available without charge, upon request, by calling collect Mr. Eduardo Solano, the Fund's Investor Relations Vice President, at (52 55) 5280-3247, during Mexico City business hours (10:00 am to 3:00 pm and 5:00 to 7:00 pm ET), and on the Fund's website at [www.themexicofund.com](http://www.themexicofund.com) under the heading Corporate Governance and the SEC's website at [www.sec.gov](http://www.sec.gov).

## Investor Relations; Reports to Stockholders

The Fund's website presents the Fund's market price and NAV per share on a same-day basis, the complete history of dividend distributions made by the Fund and provides a downloadable database containing the most important historical figures for the Fund. Documentation of the Fund's in-kind repurchase offers is available at the Fund's website section titled "Repurchase Offers". The website section "Insiders Filings" provides direct hyperlinks to filings made by Directors and Officers of the Fund and its Investment Adviser regarding transactions in Fund shares available at the Securities and Exchange Commission's website. The Fund also has placed many Fund governance documents on the website under the section titled "Corporate Governance", including the Fund's Articles and By-laws and committee charters.

Starting with the third quarter in 2004, the Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's complete Schedules of Investments and Statements of Assets and Liabilities for the first and third quarters of its fiscal year are also available at the Fund's website section titled "Portfolio". The Fund's Form N-Q filings are available on the SEC's website at [www.sec.gov](http://www.sec.gov) or may be reviewed and copied at the SEC's Public Reference Room in Washington, DC (information regarding which may be obtained by calling 1-800-SEC-0330). Electronic versions of the Fund's Semi- and Annual reports and Monthly Summary Reports are published on the Fund's website at section "Investor Reports". Stockholders will receive printed versions of the Fund's Semi- and Annual reports. This information is also available on the Fund's electronic Form N-Q filings submitted to the SEC. Stockholders who desire to receive public reports and press releases regarding the Fund electronically upon their dissemination by the Fund should contact the Fund's Investor Relations Office via e-mail (see address below). We hope that the Fund's website is a useful resource for information and we will continue working to improve it.

Stockholders may contact the Investment Adviser via telephone, in Mexico City, at (52 55) 5282-8900. Please ask for Mr. Eduardo Solano, the Fund's Investor Relations Vice President. Personnel to answer your questions are regularly available from 10:00 am to 3:00 pm and from 5:00 pm to 7:00 pm ET.

The Fund also offers stockholders and the general public the ability to contact the Fund via e-mail with questions or requests for additional information about the Fund. **Stockholders may also direct any concerns regarding financial information to this e-mail address.** Please direct your e-mail inquiries to:

### Investor Relations Office

Information on the Fund's NAV and market price per share is also published weekly in The Wall Street Journal, The New York Times and other newspapers in a table called "Closed-End Funds". The Fund's NYSE trading symbol is MXF.

The Fund's Dividend Reinvestment Plan and Transfer Agent is:

**American Stock Transfer & Trust Company**

59 Maiden Lane Plaza Level

New York, NY 10038

(212) 936-5100

**Dividend Reinvestment Plan**

The Fund's Dividend Reinvestment Plan (the "Plan") provides a convenient way to increase your holdings in the Common Stock of the Fund through the reinvestment of net investment income and capital gain distributions. Under the terms of the Plan, Fund shareholders are automatically enrolled as participants in the Plan. If you do not wish to

participate in the Plan, please contact the Plan Agent. Upon any termination of participation under the Plan, the Plan Agent will cause a share certificate for the appropriate number of full shares to be delivered to the participant, and a cash adjustment for any fractional shares. At a stockholder's request, the Plan Agent will sell the participant's shares and remit any proceeds to the participant, net of brokerage commissions. Stockholders who do not participate in the Plan will receive all distributions in cash.

Under the terms of the Plan, whenever the Fund declares a distribution, Plan participants will receive their distribution entirely in shares of Common Stock purchased either in the open market or from the Fund. If, on the date a distribution becomes payable or such other date as may be specified by the Fund's Board of Directors (the valuation date), the market price of the Common Stock plus estimated brokerage commissions is equal to or exceeds the NAV per share of Common Stock, the Plan Agent will invest the distribution in newly issued shares of Common Stock, which will be valued at the greater of NAV per share or the current market price on the valuation date. If on the valuation date, the market price of the Common Stock plus estimated brokerage commissions is lower than the NAV per share, the Plan Agent will buy Common Stock in the open market. As a participant in the Plan, you will be charged a *pro-rata* portion of brokerage commissions on all open market purchases.

If your shares are registered or will be registered in the name of a broker-dealer or any other nominee, you must contact the broker-dealer or other nominee regarding his or her status under the Plan, including whether such broker-dealer or nominee will participate in the Plan on your behalf. Generally, stockholders receiving Common Stock under the Plan will be treated as having received a distribution equal to the amount payable to them in cash as a distribution had the stockholder not participated in the Plan.

If you have any questions concerning the Plan or would like a copy of the Plan brochure, please contact the Plan Agent:
