**Table of Contents****Domino s Pizza, Inc. and Subsidiaries****Notes to Condensed Consolidated Financial Statements**

(Unaudited; tabular amounts in thousands, except percentages, share and per share amounts)

**March 25, 2007****1. Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. For further information, refer to the consolidated financial statements and footnotes for the fiscal year ended December 31, 2006 included in our annual report on Form 10-K.

In the opinion of management, all adjustments, consisting of normal recurring items and the effects of the adoption of the provisions of Financial Accounting Standards Board Interpretation 48, Accounting for Uncertainty in Income Taxes, considered necessary for a fair presentation have been included. Operating results for the fiscal quarter ended March 25, 2007 are not necessarily indicative of the results that may be expected for the fiscal year ending December 30, 2007.

**2. Comprehensive Income (Loss)**

Unrealized gains (losses) on derivative instruments, net of tax	(9,167)	579
Reclassification adjustment for gains included in net income, net of tax	(736)	(669)
Currency translation adjustment	(4)	137
Comprehensive income (loss)	\$ (1,509)	\$ 26,199

**3. Segment Information**

The following table summarizes revenues, income from operations and earnings before interest, taxes, depreciation, amortization and other, which is the measure by which management allocates resources to its segments and which we refer to as Segment Income, for each of our reportable segments.

	<b>Fiscal Quarters Ended March 25, 2007 and March 26, 2006</b>					
	<b>Domestic</b>	<b>Domestic</b>	<b>International</b>	<b>Intersegment</b>	<b>Other</b>	<b>Total</b>
	<b>Stores</b>	<b>Distribution</b>		<b>Revenues</b>		

Edgar Filing: DOMINOS PIZZA INC - Form 10-Q

Revenues							
2007	\$ 133,057	\$ 204,713	\$ 26,379	\$ (24,828)	\$	\$ 339,321	
2006	134,607	207,818	30,658	(25,429)		347,654	
Income from operations							
2007	\$ 34,101	\$ 13,368	\$ 12,427	N/A	\$ (9,164)	\$ 50,732	
2006	36,641	14,716	11,195	N/A	(8,661)	53,891	
Segment Income							
2007	\$ 37,565	\$ 15,377	\$ 12,566	N/A	\$ (4,963)	\$ 60,545	
2006	39,646	16,859	11,499	N/A	(5,583)	62,421	

**Table of Contents**

The following table reconciles Total Segment Income to consolidated income before provision for income taxes.

	Fiscal Quarter Ended	
	March 25, 2007	March 26, 2006
Total Segment Income	\$ 60,545	\$ 62,421
Depreciation and amortization	(7,249)	(7,499)
Losses on sale/disposal of assets	(598)	(14)
Non-cash stock compensation expense	(1,511)	(1,017)
2007 recapitalization-related expenses	(455)	
Income from operations	50,732	53,891
Interest income	550	355
Interest expense	(24,443)	(12,065)
Other	(13,294)	
Income before provision for income taxes	\$ 13,545	\$ 42,181

## 4. Earnings Per Share

	Fiscal Quarter Ended	
	March 25, 2007	March 26, 2006
Net income available to common stockholders basic and diluted	\$ 8,398	\$ 26,152
Basic weighted average number of shares	62,569,414	66,219,407
Earnings per share basic	\$ 0.13	\$ 0.39
Diluted weighted average number of shares	64,076,179	67,672,576
Earnings per share diluted	\$ 0.13	\$ 0.39

The denominator in calculating diluted earnings per share for common stock for the first quarter of 2007 and the first quarter of 2006 does not include 344,200 and 1,970,000 options to purchase common stock, respectively, as the effect of including these options would have been anti-dilutive.

## 5. Recapitalization

On February 7, 2007, the Company announced a recapitalization plan comprised of (i) a stock tender offer for up to 13,850,000 shares of the Company's common stock, (ii) an offer to purchase all of the outstanding Domino's, Inc. 8 1/4% senior subordinated notes due 2011 pursuant to a debt tender offer, (iii) the repayment of all outstanding borrowings under its senior credit facility and (iv) a planned special cash dividend to stockholders and related payments and adjustments to certain option holders, in each case to be financed as described below.

On March 8, 2007, the Company entered into a \$1.35 billion bridge facility credit agreement, consisting of (i) up to \$1.25 billion in bridge term loans and (ii) up to \$100 million under a revolving credit facility. Also on March 8, 2007, the Company borrowed \$500 million under the bridge term loan facility, which it used to repay all outstanding borrowings under its senior credit agreement, as well as to pay related fees and expenses. Upon repayment of all such outstanding borrowings, the senior credit facility was terminated. On March 9, 2007, the Company

## Edgar Filing: DOMINOS PIZZA INC - Form 10-Q

borrowed an additional \$280 million under the bridge term loan facility, which it used to repurchase and retire at a premium \$273.6 million in aggregate principal amount of Domino's, Inc. 8 1/4% senior subordinated notes due 2011, representing substantially all of the outstanding senior subordinated notes, as well as to pay related fees and expenses. Borrowings under the bridge term loan facility were subject to floating interest rates, as defined in the related agreements.

On March 9, 2007, the Company announced the acceptance for purchase of 2,242 shares of its common stock under its stock tender offer at a purchase price of \$30.00 per share, for a total purchase price of approximately \$67,000.

---

**Table of Contents**

On April 16, 2007, the Company completed an asset-backed securitization by placing \$1.85 billion of notes in a private transaction consisting of \$1.6 billion of 5.261% Fixed Rate Series 2007-1 Senior Notes, Class A-2 and \$100 million of 7.629% Fixed Rate Series 2007-1 Subordinated Notes, Class M-1 (collectively, the Fixed Rate Notes). In connection with the issuance of the Fixed Rate Notes, a securitized financing facility of Variable Rate Series 2007-1 Senior Variable Funding Notes, Class A-1 (the Variable Funding Notes) was completed which allows for the issuance of up to \$150 million of Variable Funding Notes and certain other credit instruments, including letters of credit in support of various obligations of the Company. The securitized notes were issued by indirect subsidiaries of the Company that hold substantially all of the Company's revenue generating assets, including royalty income from all domestic stores, distribution income, international income and intellectual property. The Fixed Rate Notes require no annual principal payments and the anticipated repayment date is April 25, 2012, with legal final maturity on April 27, 2037. Gross proceeds from the issuance of the Fixed Rate Notes were \$1.7 billion. The Company used a portion of the proceeds to (i) repay the bridge term loan facility in full and terminate the bridge loan facility; (ii) capitalize certain new subsidiaries; and (iii) pay transaction-related fees and expenses.

On April 17, 2007, the Company completed the recapitalization, with its Board of Directors declaring a \$13.50 per share special cash dividend on its outstanding common stock, payable on May 4, 2007 to stockholders of record at the close of business on April 27, 2007. Additionally, in accordance with the Company's previously approved dividend equivalent rights policy and pursuant to the Company's stock option agreements, the Company will make a corresponding dividend equivalent rights cash payment on certain stock options, while reducing the exercise price on certain other stock options. The Company will use substantially all of the remaining portion of the proceeds under the Fixed Rate Notes to pay the special cash dividend and related payments to certain option holders.

Additionally, the Board of Directors approved an open market share repurchase program for up to \$200 million of the Company's common stock, which will be funded by future free cash flow and borrowings available under the Variable Funding Notes.

During the first quarter of 2007 and in connection with the recapitalization, the Company incurred approximately \$25.7 million of expenses, consisting primarily of a \$13.3 million premium paid to holders of the Domino's, Inc. senior subordinated notes in the debt tender offer, \$9.5 million of write-offs of deferred financing fees and bond discount related to extinguished debt and net \$2.5 million of additional interest expense that was incurred in connection with the settlement of interest rate derivatives. Additionally, in connection with obtaining the bridge loan facility, the Company paid \$22.3 million in fees, which were recorded as a deferred financing cost asset in the consolidated balance sheet.

Subsequent to the first quarter of 2007, the Company paid \$33.6 million of deferred financing fees relating to the completion of the asset-backed securitization and wrote-off the unamortized deferred financing costs related to the bridge loan facility of approximately \$21.9 million.

**6. Interest Rate Derivatives**

During the first quarter of 2007, the Company entered into a swaption derivative agreement with a total notional amount of \$1.2 billion. The swaption derivative agreement was settled upon the Company entering into a five-year forward-starting interest rate swap agreement with a notional amount of \$1.25 billion, which resulted in the Company recording \$3.8 million of additional interest expense. At March 25, 2007, the Company recognized a \$12.8 million liability related to the forward-starting interest rate swap agreement, with an offsetting amount, net of tax, of \$7.9 million in accumulated other comprehensive loss. Additionally, concurrent with the extinguishment of the senior credit facility and senior subordinated notes, the Company settled its related outstanding interest rate derivatives, which reduced interest expense by \$1.3 million.

**Table of Contents**

7. Effect of Adoption of Statement of Financial Accounting Standards Board Interpretation No. 48

On January 1, 2007, the Company adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation 48, Accounting for Uncertainty in Income Taxes (FIN 48). The Company previously had accounted for tax contingencies in accordance with Statement of Financial Accounting Standards 5, Accounting for Contingencies. As required by FIN 48, which clarifies FASB Statement No. 109, Accounting for Income Taxes, the Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more likely than not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. At the adoption date, the Company applied FIN 48 to all tax positions for which the statute of limitations remained open. As a result of the adoption of FIN 48, the Company recognized a net increase of approximately \$86,000 in the liability for unrecognized tax benefits, which was accounted for as an increase to the January 1, 2007 balance of retained deficit.

At January 1, 2007, the amount of unrecognized tax benefits was \$13.6 million which, if ultimately recognized, \$8.1 million will reduce the Company's annual effective tax rate. There have been no material changes in unrecognized tax benefits since January 1, 2007.

The Company is currently under examination by the Internal Revenue Service and certain state tax authorities. The Company's federal statute of limitation has expired for years prior to 2003 and the relevant state statutes vary. The Company expects the current ongoing examinations to be concluded in the next twelve months and does not expect the assessment of any significant additional tax in excess of amounts reserved.

The Company recognizes accrued interest related to unrecognized tax benefits in interest expense and penalties in income tax expense. The Company accrued approximately \$6.1 million for interest and penalties at January 1, 2007. Subsequent changes to accrued interest and penalties have not been significant.

**Table of Contents****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Unaudited; tabular amounts in millions, except percentages and store data)**

The 2007 and 2006 first quarters referenced herein represent the twelve-week periods ended March 25, 2007 and March 26, 2006, respectively.

**Overview**

We are the number one pizza delivery company in the United States and have a leading international presence. We operate through a network of Company-owned stores, all of which are in the United States, and franchise stores located in all 50 states and in more than 55 countries. In addition, we operate regional dough manufacturing and distribution centers in the United States and Canada.

Our financial results are driven largely by retail sales at our Company-owned and franchise stores. Changes in retail sales are driven by changes in same store sales and store counts. We monitor both of these metrics very closely, as they directly impact our revenues and profits, and strive to consistently increase the related amounts. Retail sales drive Company-owned store revenues, royalty payments from franchisees and distribution revenues. Retail sales are primarily impacted by the strength of the Domino's Pizza® brand, the success of our marketing promotions and our ability to execute our store operating model and other business strategies.

## Edgar Filing: DOMINOS PIZZA INC - Form 10-Q

Global retail sales growth in 2007, comprised of retail sales results at both our franchise and Company-owned stores worldwide, was driven primarily by same store sales growth in our international markets as well as an increase in our worldwide store counts during the trailing four quarters. The decreases in domestic same store sales in 2007 were due primarily to a weaker consumer environment and continued strong competition on a national, regional and local scale. The increase in international same store sales reflect continued strong promotional and operational performance.

Additionally, we grew our worldwide net store counts by 28 and 270 stores during the first quarter and trailing four quarters, respectively.

## Edgar Filing: DOMINOS PIZZA INC - Form 10-Q

Revenues decreased \$8.4 million, or 2.4%, in the first quarter of 2007, driven by lower international revenues, due primarily to the third quarter of 2006 sale of Company-owned operations in France and the Netherlands, and lower distribution revenues, due primarily to lower volumes related to a decrease in domestic franchise same store sales.

**Table of Contents**

Income from operations decreased \$3.2 million, or 5.9%, in the first quarter of 2007, due primarily to lower margins in our Company-owned store and distribution businesses as well as a decrease in domestic franchise same store sales. These decreases were offset in part by continued strong performance in our international business.

Net income decreased \$17.8 million, or 67.9%, in the first quarter of 2007, driven primarily by the expenses incurred in connection with the Company's recapitalization and, to a lesser extent, the aforementioned decrease in income from operations.

International	26.4	7.8%	30.7	8.8%
<b>Total revenues</b>	<b>\$ 339.3</b>	<b>100.0%</b>	<b>\$ 347.7</b>	<b>100.0%</b>

Revenues primarily consist of retail sales from our Company-owned stores, royalties from our franchise stores, and sales of food, equipment and supplies by our distribution centers to certain franchise stores. Company-owned store and franchise store revenues may vary significantly from period to period due to changes in store count mix while distribution revenues may vary significantly as a result of fluctuations in commodity prices, primarily cheese and meats.

**Domestic Stores Revenues**

	First Quarter		First Quarter	
	of 2007		of 2006	
Domestic Company-owned stores	\$ 95.5	71.8%	\$ 96.5	71.7%
Domestic franchise	37.5	28.2%	38.1	28.3%
<b>Domestic stores</b>	<b>\$ 133.1</b>	<b>100.0%</b>	<b>\$ 134.6</b>	<b>100.0%</b>

Domestic stores revenues decreased \$1.5 million, or 1.2%, in the first quarter of 2007, due primarily to lower domestic franchise same store sales and a decrease in the average number of domestic Company-owned stores open during 2007, offset in part by an increase in the average number of domestic franchise stores open during 2007. Domestic same store sales decreased 2.9% in the first quarter of 2007, compared to a decrease of 3.8% in the first quarter of 2006. These changes in domestic stores revenues are more fully described below.

**Domestic Company-Owned Stores Revenues**

Revenues from domestic Company-owned store operations decreased \$1.0 million, or 1.0%, in the first quarter of 2007, due to a decrease in the average number of domestic Company-owned stores open during 2007. Domestic Company-owned same store sales increased 0.6% in the first quarter of 2007, compared to a decrease of 3.0% in the first quarter of 2006. There were 570 and 580 domestic Company-owned stores in operation as of March 25, 2007 and March 26, 2006, respectively.

**Domestic Franchise Revenues**

Revenues from domestic franchise operations decreased \$0.6 million, or 1.6%, in the first quarter of 2007, due to lower same store sales, offset in part by an increase in the average number of domestic franchise stores open during 2007. Domestic franchise same store sales decreased 3.4% in the first quarter of 2007, compared to a decrease of 4.0% in the first quarter of 2006. There were 4,559 and 4,506 domestic franchise stores in

operation as of March 25, 2007 and March 26, 2006, respectively.

**Domestic Distribution Revenues**

Revenues from domestic distribution operations decreased \$2.5 million, or 1.4%, in the first quarter of 2007, due primarily to lower volumes, related to decreases in domestic franchise same store sales, offset in part by an increase in food prices, including cheese. The published cheese block price-per-pound averaged \$1.33 in the first quarter of 2007, up from \$1.30 in the comparable period in 2006. Had the 2007 average cheese prices been in effect during 2006, distribution revenues for the first quarter of 2006 would have been approximately \$0.7 million higher than the reported 2006 amounts.

**Table of Contents****International Revenues**

Revenues from international operations decreased \$4.3 million, or 14.0%, in the first quarter of 2007, due primarily to the third quarter 2006 sale of Company-owned operations in France and the Netherlands, offset in part by higher royalty revenues due to increases in same store sales and the average number of international stores open during 2007. On a constant dollar basis, same store sales increased 3.8% in the first quarter of 2007, compared to an increase of 3.0% in the first quarter of 2006. There were 3,265 and 3,038 international stores in operation as of March 25, 2007 and March 26, 2006, respectively.

**Cost of Sales / Operating Margin**

	First Quarter		First Quarter	
	of 2007		of 2006	
Consolidated revenues	\$ 339.3	100.0%	\$ 347.7	100.0%
Consolidated cost of sales	248.3	73.2%	253.4	72.9%
Consolidated operating margin	\$ 91.1	26.8%	\$ 94.3	27.1%

Consolidated cost of sales primarily consists of domestic Company-owned store and domestic distribution costs incurred to generate related revenues. Components of consolidated cost of sales primarily include food, labor and occupancy costs.

The consolidated operating margin, which we define as revenues less cost of sales, decreased \$3.2 million, or 3.4%, in the first quarter of 2007. This decrease in the consolidated operating margin was due primarily to lower margins at our Company-owned stores, lower margins in our distribution business and lower domestic franchise royalty revenues. Franchise revenues do not have a cost of sales component and, as a result, changes in franchise revenues have a disproportionate effect on the consolidated operating margin.

As a percentage of revenues, the consolidated operating margin decreased 0.3 percentage points in the first quarter of 2007. This decrease was due primarily to decreases in domestic Company-owned store and domestic distribution operating margins as discussed below, and were offset in part by improvements in the operating margin in our international operations as a result of the third quarter 2006 sale of the Company-owned operations in France and the Netherlands.

As mentioned above, the consolidated operating margin as a percentage of revenues was negatively impacted by higher cheese costs. Cheese price changes are a pass-through in domestic distribution revenues and cost of sales and, as such, have no impact on the related operating margin as measured in dollars. However, cheese price changes do impact operating margin when measured as a percentage of revenues.

**Domestic Company-Owned Stores Operating Margin**

	First Quarter		First Quarter	
	of 2007		of 2006	
<b>Domestic Company-Owned Stores</b>				
Revenues	\$ 95.5	100.0%	\$ 96.5	100.0%
Cost of sales	75.6	79.2%	75.2	78.0%
Store operating margin	\$ 19.9	20.8%	\$ 21.3	22.0%

The domestic Company-owned store operating margin decreased \$1.4 million, or 6.5%, in the first quarter of 2007. This decrease was due primarily to higher labor costs, offset in part by lower food costs.

As a percentage of store revenues, the store operating margin decreased 1.2 percentage points in the first quarter of 2007. As a percentage of store revenues, food costs decreased 0.6 percentage points to 25.4% in the first quarter of 2007, due primarily to a change in product mix per order related to differing year over year promotions, offset in part by higher food prices, including cheese. As a percentage of store revenues,

## Edgar Filing: DOMINOS PIZZA INC - Form 10-Q

labor costs increased 1.7 percentage points to 31.4% in the first quarter of 2007, due primarily to higher average wage rates during 2007. As a percentage of store revenues, occupancy costs, which include rent, telephone, utilities and depreciation, decreased 0.2 percentage points to 11.3% in the first quarter of 2007. As a percentage of store revenues, insurance costs decreased 0.2 percentage points to 3.0% in the first quarter of 2007, due primarily to improved loss experience.

**Table of Contents****Domestic Distribution Operating Margin**

	First Quarter		First Quarter	
	of 2007		of 2006	
<b>Domestic Distribution</b>				
Revenues	\$ 179.9	100.0%	\$ 182.4	100.0%
Cost of sales	161.4	89.7%	162.6	89.2%
<b>Distribution operating margin</b>	<b>\$ 18.5</b>	<b>10.3%</b>	<b>\$ 19.7</b>	<b>10.8%</b>

The domestic distribution operating margin decreased \$1.2 million, or 6.5%, in the first quarter of 2007, due primarily to higher food costs, offset in part by lower labor costs.

As a percentage of distribution revenues, the distribution operating margin decreased 0.5 percentage points in the first quarter of 2007, due primarily to lower volumes as a result of lower domestic franchise same store sales and higher food prices, including cheese.

***General and Administrative Expenses***

General and administrative expenses decreased \$0.1 million, or 0.2%, in the first quarter of 2007, due primarily to decreases in variable general and administrative expenses, including lower administrative labor, offset in part by expenses incurred in connection with the Company's recapitalization.

***Interest Expense***

Interest expense increased \$12.4 million to \$24.4 million in the first quarter of 2007. This increase was due primarily to expenses incurred in connection with the Company's recapitalization, including the \$9.5 million write-off of deferred financing fees and bond discount related to the extinguishment of debt as well as the net \$2.5 million of additional interest expense incurred in connection with the settlement of interest rate derivatives.

The Company's effective borrowing rate increased 0.2 percentage points to 6.5% during the first quarter of 2007 compared to the first quarter of 2006. The Company's average outstanding debt balance, excluding capital lease obligations, increased \$27.6 million to \$745.6 million in the first quarter of 2007 compared to the first quarter of 2006.

***Other***

The other amount of \$13.3 million represents the premium paid to repurchase and retire the senior subordinated notes that were tendered in the debt tender offer in connection with the Company's recapitalization.

***Provision for Income Taxes***

The effective tax rate remained flat at 38.0% during the first quarter of 2007 versus the comparable period in 2006.

***Summary of Recapitalization Expenses***

The following table presents total recapitalization-related expenses incurred during the first quarter of 2007. These pre-tax expenses affect comparability between the first quarter of 2007 and the first quarter of 2006.

<i>(in thousands)</i>	First Quarter of 2007
<b>2007 recapitalization-related expenses:</b>	

## Edgar Filing: DOMINOS PIZZA INC - Form 10-Q

General and administrative expenses (1)	\$	455
Additional interest expense (2)		11,965
Premium on bond extinguishment (3)		13,294
<b>Total of 2007 recapitalization-related expenses</b>	<b>\$</b>	<b>25,714</b>

- 
- (1) Primarily includes legal and professional fees incurred in connection with the tender offers for Domino's Pizza, Inc. common stock and Domino's, Inc. senior subordinated notes due 2011.
  - (2) Includes the write-off of deferred financing fees and bond discount related to extinguished debt as well as net expense incurred in connection with the settlement of interest rate derivatives.
  - (3) Represents the premium paid to bond holders in the tender offer for the Domino's, Inc. senior subordinated notes due 2011.

---

## **Table of Contents**

In addition to the above fees and expenses and in connection with obtaining a bridge loan facility, the Company paid \$22.3 million in fees and expenses, which were recorded as a deferred financing cost asset on the consolidated balance sheet as of March 25, 2007.

Subsequent to the first quarter of 2007, the Company paid \$33.6 million of deferred financing costs to obtain the securitized debt and wrote-off the unamortized deferred financing costs paid to obtain the bridge loan facility of approximately \$21.9 million.

### **Liquidity and Capital Resources**

We had working capital of \$39.3 million and cash and cash equivalents of \$67.1 million at March 25, 2007. Historically, we have operated with minimal positive or negative working capital, primarily because our receivable collection periods and inventory turn rates are faster than the normal payment terms on our current liabilities. We generally collect our receivables within three weeks from the date of the related sale and we generally experience 40 to 50 inventory turns per year. In addition, our sales are not typically seasonal, which further limits our working capital requirements. These factors, coupled with significant and ongoing cash flows from operations, which are primarily used to repay debt, invest in long-term assets and repurchase common stock, reduce our working capital amounts. Our primary sources of liquidity are cash flows from operations and availability of borrowings under our Variable Funding Notes. We expect to fund planned capital expenditures and debt repayments from these sources. We did not have any material commitments for capital expenditures as of March 25, 2007.

As of March 25, 2007, we had \$785.7 million of debt, of which \$0.6 million was classified as a current liability. Additionally, as of March 25, 2007, the Company had borrowings of \$66.1 million available under its \$100 million revolving credit facility, net of letters of credit issued of \$33.9 million. These letters of credit are primarily related to our casualty insurance programs and distribution center leases. Borrowings under the revolving credit facility are available to fund our working capital requirements, capital expenditures and other general corporate purposes.

Cash provided by operating activities was \$6.9 million and \$28.7 million in the first quarter of 2007 and 2006, respectively. The \$21.8 million decrease was due primarily to a \$17.8 million decrease in net income and a \$13.7 million net change in operating assets and liabilities. These decreases were offset in part by a \$9.3 million increase in amortization and write-off of deferred financing costs and debt discount, due primarily to the write-off of deferred financing costs in connection with the debt extinguishments in the first quarter of 2007.

Cash used in investing activities was \$3.0 million and \$3.8 million in the first quarter of 2007 and 2006, respectively. The \$0.8 million decrease was due primarily to a \$0.6 million decrease in capital expenditures.

Cash provided by financing activities was \$25.0 million in the first quarter of 2007. Cash used in financing activities was \$75.4 million in the first quarter of 2006. The \$100.4 million net change was due primarily to a \$680.0 million increase in proceeds from issuance of long-term debt and a \$145.0 million decrease in repurchases of common stock, offset in part by a \$701.6 million increase in repayments of long-term debt and capital lease obligations and a \$22.0 million increase in cash paid for financing costs.

On February 7, 2007, the Company announced a recapitalization plan comprised of (i) a stock tender offer for up to 13,850,000 shares of the Company's common stock, (ii) an offer to purchase all of the outstanding Domino's, Inc. 8 1/4% senior subordinated notes due 2011 pursuant to a debt tender offer, (iii) the repayment of all outstanding borrowings under its senior credit facility and (iv) a planned special cash dividend to stockholders and related payments and adjustments to certain option holders, in each case to be financed as described below.

---

**Table of Contents**

On March 8, 2007, the Company entered into a \$1.35 billion bridge credit facility agreement, consisting of (i) up to \$1.25 billion in bridge term loans and (ii) up to \$100 million under a revolving credit facility. Also on March 8, 2007, the Company borrowed \$500 million under the bridge term loan facility, which it used to repay all outstanding borrowings under its senior credit agreement, as well as to pay related fees and expenses. Upon repayment of all such outstanding borrowings, the senior credit facility was terminated. On March 9, 2007, the Company borrowed an additional \$280 million under the bridge term loan facility, which it used to repurchase and retire at a premium \$273.6 million in aggregate principal amount of Domino's, Inc. 8<sup>1</sup>/<sub>4</sub>% senior subordinated notes due 2011, representing substantially all of the outstanding senior subordinated notes, as well as to pay related fees and expenses. Borrowings under the bridge term loan facility were subject to floating interest rates, as defined in the related agreements.

On March 9, 2007, the Company announced the acceptance for purchase of 2,242 shares of its common stock under its stock tender offer at a purchase price of \$30.00 per share, for a total purchase price of approximately \$67,000.

During the first quarter of 2007, the Company entered into a swaption derivative agreement with a total notional amount of \$1.2 billion. The swaption derivative agreement was settled upon the Company entering into a five-year forward-starting interest rate swap agreement with a notional amount of \$1.25 billion. At March 25, 2007, the Company recognized a \$12.8 million liability related to this interest rate swap agreement, with an offsetting amount, net of tax, of \$7.9 million in accumulated other comprehensive loss. Additionally, concurrent with the extinguishment of the senior credit facility and senior subordinated notes, the Company settled its related outstanding interest rate derivatives.

On April 16, 2007, a wholly-owned subsidiary of the Company completed an asset-backed securitization by placing \$1.85 billion of notes in a private transaction consisting of \$1.6 billion of 5.261% Fixed Rate Series 2007-1 Senior Notes, Class A-2 (the Senior Notes) and \$100 million of 7.629% Fixed Rate Series 2007-1 Subordinated Notes, Class M-1 (the Subordinated Notes and collectively, with the Senior Notes, the Fixed Rate Notes). In connection with the issuance of the Fixed Rate Notes, a securitized financing facility of Variable Rate Series 2007-1 Senior Variable Funding Notes, Class A-1 (the Variable Funding Notes) was completed which allows for the issuance of up to \$150 million of Variable Funding Notes and certain other credit instruments, including a \$60 million letters of credit sub-facility in support of various obligations of the Company and a \$40 million swing-line sub-facility. The securitized notes were issued by indirect subsidiaries of the Company that hold substantially all of the Company's revenue generating assets, including royalty income from all domestic stores, distribution income, international income and intellectual property. Gross proceeds from the issuance of the Fixed Rate Notes were \$1.7 billion. The Company used a portion of the proceeds to (i) repay the bridge term loan facility in full and terminate the bridge loan facility; (ii) capitalize certain new subsidiaries; and (iii) pay transaction-related fees and expenses.

The Senior Notes will accrue interest at a fixed rate of 5.261% per year and the Subordinated Notes will accrue interest at a fixed rate of 7.629%. Accrued interest will be due and payable quarterly, commencing on October 25, 2007. The Fixed Rate Notes require no annual principal payments and the anticipated repayment date is April 25, 2012, with legal final maturity on April 27, 2037. The Fixed Rate Notes are subject to certain financial covenants, including certain leverage ratio tests, as defined in the related agreements.

On April 17, 2007, the Company completed the recapitalization, with its Board of Directors declaring a \$13.50 per share special cash dividend on its outstanding common stock, payable on May 4, 2007 to stockholders of record at the close of business on April 27, 2007. Additionally, in accordance with the Company's previously approved dividend equivalent rights policy and pursuant to the Company's stock option agreements, the Company will make dividend equivalent rights payments for certain stock options, while reducing the exercise price on certain other stock options. The Company will use substantially all of the remaining portion of the proceeds under the Fixed Rate Notes to pay the special cash dividend and related payments to certain option holders.

Additionally, the Board of Directors approved an open market share repurchase program for up to \$200 million of the Company's common stock, which will be funded by future free cash flow and borrowings available under the Variable Funding Notes.

**Table of Contents**

Based upon the current level of operations and anticipated growth, we believe that the cash generated from operations and amounts available under the Variable Funding Notes will be adequate to meet our anticipated debt service requirements, capital expenditures and working capital needs for the next twelve months. Our ability to continue to fund these items and continue to reduce debt could be adversely affected by the occurrence of any of the events described under Risk Factors in our filings with the Securities and Exchange Commission. There can be no assurance, however, that our business will generate sufficient cash flows from operations or that future borrowings will be available under the Variable Funding Notes or otherwise to enable us to service our indebtedness, or to make anticipated capital expenditures. Our future operating performance and our ability to service, extend or refinance the Fixed Rate Notes and to service, extend or refinance the Variable Funding Notes will be subject to future economic conditions and to financial, business and other factors, many of which are beyond our control.

**Forward-Looking Statements**

This filing contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. You can identify forward-looking statements because they contain words such as believes, expects, may, will, should, seeks, approximately, intends, plans, estimates, or anticipates or similar expressions that concern or intentions. These forward-looking statements relating to our anticipated profitability and operating performance reflect management's expectations based upon currently available information and data. However, actual results are subject to future risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such forward-looking statements. The risks and uncertainties that can cause actual results to differ materially include: our increased level of indebtedness as a result of the securitization transaction; the uncertainties relating to litigation; consumer preferences, spending patterns and demographic trends; the effectiveness of our advertising, operations and promotional initiatives; our ability to retain key personnel; new product and concept developments by Domino's and other food-industry competitors; the ongoing profitability of our franchisees and the ability of Domino's and our franchisees to open new restaurants; changes in food prices, particularly cheese, labor, utilities, insurance, employee benefits and other operating costs; the impact that widespread illness or general health concerns may have on our business and the economy of the countries in which we operate; severe weather conditions and natural disasters; changes in our effective tax rate; changes in government legislation and regulations; adequacy of our insurance coverage; costs related to future financings and changes in accounting policies. Important factors that could cause actual results to differ materially from our expectations (cautionary statement) are more fully described in our other filings with the Securities and Exchange Commission, including under the section headed Risk Factors in our annual report on Form 10-K. We do not undertake to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

---

**Table of Contents**

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

***Market Risk***

We are exposed to market risks from interest rate changes on our variable rate debt. Management actively monitors this exposure. We do not engage in speculative transactions nor do we hold or issue financial instruments for trading purposes.

We are also exposed to market risks from changes in commodity prices. During the normal course of business, we purchase cheese and certain other food products that are affected by changes in commodity prices and, as a result, we are subject to volatility in our food costs. We may periodically enter into financial instruments to manage this risk. We do not engage in speculative transactions nor do we hold or issue financial instruments for trading purposes.

***Interest Rate Derivatives***

We enter into interest rate swaps, collars or similar instruments with the objective of managing volatility relating to our borrowing costs.

On January 25, 2007, the Company entered into a swaption derivative agreement with a total notional amount of \$1.2 billion to hedge the interest rate variability of the coupon payments associated with the issuance of \$1.85 billion of securitized debt in connection with the recapitalization. The swaption derivative agreement effectively was an interest rate cap with an exercise rate of 5.5%, exercisable on March 31, 2008. The swaption derivative agreement was settled during the first quarter of 2007 upon the Company entering into a five-year forward-starting interest rate swap agreement. In connection with the settlement, the Company recognized additional interest expense of \$3.8 million.

On February 12, 2007, the Company entered into a five-year forward-starting interest rate swap agreement with a notional amount of \$1.25 billion to hedge the interest rate variability of the coupon payments associated with the issuance of \$1.85 billion of securitized debt in connection with the recapitalization. Under the swap agreement, the Company has agreed to pay a fixed interest rate of approximately 5.16%, beginning on March 31, 2008 through March 31, 2013, in exchange for receiving floating payments based on three-month LIBOR on the same \$1.25 billion notional amount for the same five-year period. The Company designated this derivative as a cash flow hedge and determined that there was no ineffectiveness at March 25, 2007. Additionally, at March 25, 2007, the Company recognized a \$12.8 million liability related to this interest rate derivative, with an offsetting loss, net of tax, of \$7.9 million in other comprehensive loss. Subsequent to the first quarter, on April 16, 2007, the swap agreement was settled in cash for \$11.5 million, in accordance with its terms, concurrent with the issuance of the securitized debt. Additionally, the other comprehensive income amount was adjusted and the total net settlement loss of \$7.1 million will be amortized into earnings over the five year contractual term of the securitized debt.

During the first quarter of 2007, concurrent with the extinguishment of the senior credit facility and repurchase of substantially all of the outstanding senior subordinated notes in the debt tender offer, the Company settled its then outstanding interest rate derivatives. In connection with the settlement, the Company recognized a reduction in interest expenses of \$1.3 million.

***Interest Rate Risk***

Our variable interest expense is sensitive to changes in the general level of interest rates. At March 25, 2007, the weighted average interest rate on our \$780.0 million of variable interest debt was 6.32%.

We had total interest expense of approximately \$24.4 million in the first quarter of 2007. The estimated increase in interest expense for this period from a hypothetical 200 basis point adverse change in applicable variable interest rates would be approximately \$1.7 million.

**Table of Contents**

**Item 4. Controls and Procedures**

Management, with the participation of Domino's Pizza, Inc.'s Chairman and Chief Executive Officer, David A. Brandon, and Executive Vice President and Chief Financial Officer, L. David Mounts, performed an evaluation of the effectiveness of Domino's Pizza, Inc.'s disclosure controls and procedures (as that term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on that evaluation, Messrs. Brandon and Mounts concluded that Domino's Pizza, Inc.'s disclosure controls and procedures were effective.

During the quarterly period ended March 25, 2007 there have been no changes in Domino's Pizza, Inc.'s internal controls over financial reporting that have materially affected or are reasonably likely to materially affect Domino's Pizza, Inc.'s internal control over financial reporting.

**Table of Contents****PART II. OTHER INFORMATION****Item 1. Legal Proceedings**

We are a party to lawsuits, revenue agent reviews by taxing authorities and administrative proceedings in the ordinary course of business which include workers' compensation, general liability, automobile and franchisee claims. We are also subject to suits related to employment practices and, specifically in California, wage and hour claims. We have two class actions pending in California brought by former employees. On June 10, 2003, Vega v. Domino's Pizza LLC was filed, in Orange County Superior Court, alleging that we failed to provide meal and rest breaks to our employees. On August 2, 2006, Roselio v. Domino's Pizza LLC was filed, in Los Angeles County Superior Court, alleging similar claims as set out in the Vega lawsuit. On February 14, 2007 the two actions were coordinated in Orange County Superior Court. No determination with respect to class certification has been made. On April 16, 2007 in Murphy v. Kenneth Cole Productions, Inc., the California Supreme Court held that the premiums provided by section 226.7 of the California Labor Code for missed meal and rest periods are subject to a three- or potentially four-year statute of limitations rather than a one-year statute of limitations.

While we may occasionally be party to large claims, including class action suits, we do not believe that these matters, individually or in the aggregate, will materially affect our financial position, results of operations or cash flows.

**Item 1A. Risk Factors**

There have been no material changes in the risk factors previously disclosed in the Company's Form 10-K for the fiscal year ended December 31, 2006.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

c. Purchases of Equity Securities by the Issuer and Affiliated Purchasers.

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
Period #1 (January 1, 2007 to January 28, 2007)				
Period #2 (January 29, 2007 to February 25, 2007)				
Period #3 (February 26, 2007 to March 25, 2007)	2,242(1)	\$ 30.00		
Total	2,242	\$ 30.00		

(1) As previously reported, in the first quarter we repurchased and retired 2,242 shares of our common stock in connection with our common stock tender offer, for approximately \$67,000, or \$30.00 per share.
