PENNSYLVANIA REAL ESTATE INVESTMENT TRUST

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2007

(Unaudited)

1. BASIS OF PRESENTATION:

Pennsylvania Real Estate Investment Trust (PREIT or the Company) prepared the accompanying consolidated financial statements pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP) have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the included disclosures are adequate to make the information presented not misleading. The consolidated financial statements should be read in conjunction with the audited financial statements and the notes thereto included in PREIT's Annual Report on Form 10-K filed on March 1, 2007 for the year ended December 31, 2006, and as revised by PREIT's Current Report on Form 8-K filed on July 16, 2007 that was filed to reflect the operations of Schuylkill Mall as discontinued operations and the reclassification of P&S Office Building to continuing operations. In management's opinion, all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the consolidated financial position of the Company and its subsidiaries and the consolidated results of its operations and its cash flows are included. The results of operations for the interim periods presented are not necessarily indicative of the results for the full year.

Pennsylvania Real Estate Investment Trust, a Pennsylvania business trust founded in 1960 and one of the first equity real estate investment trusts (REITs) in the United States, has a primary investment focus on retail shopping malls and power and strip centers located in the Mid-Atlantic region or in the eastern half of the United States. As of June 30, 2007, the Company's portfolio consisted of a total of 57 properties. The Company's retail portfolio contains 49 properties in 13 states and includes 38 shopping malls and 11 power and strip centers. The ground-up development portion of the Company's portfolio contains eight properties in five states, with four classified as power centers, two classified as mixed use (a combination of retail and other uses) and two classified as other.

The Company holds its interest in its portfolio of properties through its operating partnership, PREIT Associates, L.P. (the Operating Partnership). The Company is the sole general partner of the Operating Partnership and, as of June 30, 2007, the Company held a 93.5% interest in the Operating Partnership, and consolidates it for reporting purposes. The presentation of consolidated financial statements does not itself imply that the assets of any consolidated entity (including any special-purpose entity formed for a particular project) are available to pay the liabilities of any other consolidated entity, or that the liabilities of any consolidated entity (including any special-purpose entity formed for a particular project) are obligations of any other consolidated entity.

Pursuant to the terms of the partnership agreement of the Operating Partnership, each of the limited partners has the right to redeem his/her units of limited partnership interest in the Operating Partnership (OP Units) for cash or, at the election of the Company, the Company may acquire such OP Units for shares of the Company on a one-for-one basis, in some cases beginning one year following the respective issue date of the OP Units and in other cases immediately.

The Company provides its management, leasing and real estate development services through two companies: PREIT Services, LLC (PREIT Services), which generally develops and manages properties that the Company consolidates for financial reporting purposes, and PREIT-RUBIN, Inc. (PRI), which generally develops and manages properties for third parties as well as properties that the Company does not consolidate for financial reporting purposes, including properties owned by partnerships in which the Company owns an interest. PREIT Services and PRI are consolidated. Because PRI is a taxable REIT subsidiary as defined by federal tax laws, it is capable of offering a broad range of services to tenants without jeopardizing the Company's continued qualification as a real estate investment trust under federal tax law.

Certain prior period amounts have been reclassified to conform with the current period presentation.

**2. RECENT ACCOUNTING PRONOUNCEMENTS:
SFAS No. 159**

Edgar Filing: PENNSYLVANIA REAL ESTATE INVESTMENT TRUST - Form 10-Q

In February 2007, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS No. 159). SFAS No. 159 expands opportunities to use fair value measurement in financial reporting and permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The Company has not determined whether the adoption of SFAS No. 159 will have any material effect on the Company s financial statements.

SFAS No. 157

In September 2006, FASB issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS No. 157). SFAS No. 157 establishes a new definition of fair value, provides guidance on how to measure fair value and establishes new disclosure requirements of assets and liabilities at their fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. The Company has not determined whether the adoption of SFAS No. 157 will have any material effect on the Company s financial statements.

Table of Contents**FIN 48**

In June 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). FIN 48 addresses the recognition and measurement of tax-based benefits on the probability that they will be realized. FIN 48 is effective for fiscal years beginning after December 15, 2006. The adoption of FIN 48 had no material impact on the Company's financial statements.

The Company, or its subsidiaries, file income tax returns in the U.S. federal jurisdiction and in various state and local jurisdictions. The Company's open tax years generally include tax years 2003 to 2006 as of the date of adoption.

3. REAL ESTATE ACTIVITIES:

Investments in real estate as of June 30, 2007 and December 31, 2006 were comprised of the following:

(in thousands of dollars)	June 30, 2007	December 31, 2006
Buildings, improvements and construction in progress	\$ 2,675,749	\$ 2,599,499

Accumulated depreciation	(351,016)	(306,893)
Net investments in real estate	\$ 2,859,817	\$ 2,825,477

Dispositions

In May 2007, the Company sold a parcel and related land improvements at Plaza at Magnolia for \$11.3 million. The Company recorded a \$1.5 million gain on the sale.

In May 2007, the Company sold an outparcel and related land improvements containing an operating restaurant at New River Valley Mall for \$1.6 million. The Company recorded a \$0.6 million gain on the sale.

In March 2007, the Company sold Schuylkill Mall in Frackville, Pennsylvania for \$17.6 million. The Company recorded a gain of \$6.7 million from this sale. In connection with the sale, the Company repaid the mortgage note associated with Schuylkill Mall, which was sold in March 2007, with a balance of \$16.5 million at closing.

Discontinued Operations

In accordance with Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* (SFAS No. 144), the Company has presented as discontinued operations the operating results of Schuylkill Mall, which was sold in March 2007, and South Blanding Village, which was sold in September 2006.

The following table summarizes revenue and expense information for the Company's discontinued operations:

Table of Contents**P&S Office Building**

During the first quarter of 2007, the Company reclassified P&S Office Building in Gadsden, Alabama for accounting purposes from held for sale to continuing operations. The Company reached this decision because the property no longer meets the conditions for an exception to the one-year classification requirement in SFAS No. 144. The Company intends to continue to actively market P&S Office Building for sale, but at this time, it cannot determine if or when a sale will be consummated. For balance sheet purposes, as of March 31, 2007, the assets and liabilities of P&S Office Building were reclassified from assets held for sale and liabilities related to assets held for sale into the appropriate balance sheet captions. Because P&S Office Building was considered held for sale as of December 31, 2006, no reclassifications related to P&S Office Building were made as of that date. For income statement purposes, the results of operations for the P&S Office Building are presented in continuing operations for all periods presented. In the first quarter of 2007, the Company recorded depreciation and amortization expense of \$0.2 million to reflect the depreciation and amortization during all of the period that P&S Office Building was classified as held for sale.

Capitalization of Costs

Costs incurred for interest, real estate taxes and insurance that are directly related to development and redevelopment projects are capitalized only during periods in which activities necessary to prepare the property for its intended use are in progress. Costs incurred for such items after the property is substantially complete and ready for its intended use are charged to expense as incurred. The Company capitalizes a portion of development department employees' compensation and benefits related to time spent involved in development and redevelopment projects.

The Company capitalizes payments made to obtain options to acquire real property. All other related costs that are incurred before acquisition of a property are capitalized if the acquisition of the property or if an option to acquire the property is probable. If the property is acquired, such costs are included in the amount recorded as the initial value of the asset. Capitalized pre-acquisition costs are charged to expense when it is no longer probable that the property will be acquired.

The Company capitalizes salaries, commissions and benefits related to time spent by leasing and legal department personnel involved in originating leases with third-party tenants.

The following table summarizes the Company's capitalized salaries and benefits, real estate taxes and interest for the three and six months ended June 30, 2007 and 2006:

5. FINANCING ACTIVITY:

Credit Facility

The Company's \$500 million Credit Facility can be increased to \$650.0 million under prescribed conditions, and bears interest at a rate between 0.95% and 1.40% per annum over LIBOR based on the Company's leverage. In determining the Company's leverage, the capitalization rate used to calculate Gross Asset Value is 7.50%. The Credit Facility has a term that expires in January 2009, with an additional 14 month extension option, provided that there is no event of default at that time. The Credit Facility contains affirmative and negative covenants customarily found in facilities of this type. See Note 4 to the audited financial statements of the Company for the year ended December 31, 2006 contained in the Current Report on Form 8-K filed July 16, 2007. As of June 30, 2007, the Company was in compliance with all of these debt covenants.

As of June 30, 2007, \$35.0 million was outstanding under the Credit Facility. The Company pledged \$14.8 million under the Credit Facility as collateral for letters of credit, and the unused portion of the Credit Facility that was available to the Company was \$450.2 million at June 30, 2007. The weighted average effective interest rate based on amounts borrowed was 6.95% for the three month period ended June 30, 2007. The weighted average interest rate on outstanding Credit Facility borrowings at June 30, 2007 was 6.37%.

Table of Contents**Exchangeable Senior Notes**

In May 2007, the Company, through its wholly owned Operating Partnership, completed the sale of \$287.5 million aggregate principal amount exchangeable senior notes due 2012. The net proceeds from the offering of \$281.0 million were used for the repayment of indebtedness under the Company's Credit Facility, the cost of the related capped call transactions, and for other general corporate purposes.

The notes are general unsecured senior obligations of the Operating Partnership and rank equally in right of payment with all other senior unsecured indebtedness of the Operating Partnership. Interest is payable on June 1 and December 1 of each year, beginning December 1, 2007, until the maturity date of June 1, 2012. The Operating Partnership's obligations under the notes are fully and unconditionally guaranteed by the Company.

The notes bear interest at 4.00% per annum and contain an exchange settlement feature. Pursuant to this feature, upon surrender of the notes for exchange, the notes will be exchangeable for cash equal to the principal amount of the notes and, with respect to any excess exchange value, at our option, for cash, common shares of the Company or a combination of cash and common shares at an initial exchange rate of 18.303 shares per \$1,000 principal amount of notes, or \$54.64 per share.

The notes will be exchangeable only under certain circumstances. Prior to maturity, the Operating Partnership may not redeem the notes except to preserve the Company's status as a real estate investment trust. If the Company undergoes certain change of control transactions at any time prior to maturity, holders of the notes may require the Operating Partnership to repurchase their notes in whole or in part for cash equal to 100% of the principal amount of the notes to be repurchased plus unpaid interest, if any, accrued to the repurchase date.

In connection with the offering of the notes, the Company and the Operating Partnership entered into capped call transactions with affiliates of the initial purchasers of the notes. These agreements effectively increase the exchange price of the notes to \$63.74. The cost of these agreements of \$12.6 million was recorded in the shareholders' equity section of the Company's balance sheet.

Mortgage Activity

In May 2007, the Company entered into a \$150.0 million interest only first mortgage loan that is secured by the Mall at Prince Georges. The mortgage loan has an interest rate of 5.513% with a maturity date of June 1, 2017. Proceeds of the mortgage loan were used to reduce the borrowings under the Credit Facility. The Company repaid the previous mortgage on The Mall at Prince Georges of \$40.2 million in March 2007 using funds borrowed from its Credit Facility and available working capital.

Cash paid for interest was \$53.6 million (net of capitalized interest of \$7.4 million) and \$55.5 million (net of capitalized interest of \$3.4 million) for the six months ended June 30, 2007 and 2006, respectively.

On June 6, 2007, the Company issued 1,580,211 common shares of beneficial interest in exchange for a like number of OP Units.

8. RELATED PARTY TRANSACTIONS:

PRI provides management, leasing and development services for eight properties owned by partnerships and other entities in which certain officers or trustees of the Company and of PRI or their immediate families and affiliated entities have indirect ownership interests. Total revenues earned by PRI for such services were \$0.2 million and \$0.4 million for the three and six month periods ended June 30, 2007, and \$0.4 million and \$0.5 million for the three and six month periods ended June 30, 2006, respectively.

The Company leases its principal executive offices from Bellevue Associates (the Landlord). Ronald Rubin and George F. Rubin, collectively with members of their immediate families and affiliated entities, own approximately a 50% interest in the Landlord. Total rent expense under this lease was \$0.4 million and \$0.8 million, respectively, for each of the three and six month periods ended June 30, 2007 and 2006. The office lease has a 10 year term that commenced on November 1, 2004. The Company's base rent is \$1.4 million per year during the first five years of the office lease and \$1.5 million during the second five years.

The Company uses an airplane in which Ronald Rubin owns a fractional interest. The Company paid \$13,000 and \$18,000 in the three and six months ended June 30, 2007 and June 30, 2006, respectively, for flight time used by employees on Company-related business.

On June 6, 2007, the Company issued 1,580,211 common shares of beneficial interest in exchange for a like number of OP Units. The shares were issued to an entity that is an affiliate of Mark Pasquerilla, a trustee of the Trust.

9. COMMITMENTS AND CONTINGENCIES:

Development and Redevelopment Activities

In connection with its current ground-up development and its redevelopment projects, the Company has made contractual commitments on some of these projects in the form of tenant allowances, lease termination fees and contracts with general contractors and other professional service providers. As of June 30, 2007, the remainder to be paid against such contractual and other commitments was \$119.8 million, which is expected to be financed through the Credit Facility, other unsecured indebtedness or through short-term construction loans.

Tax Protection Agreements

The Company has entered into tax protection agreements in connection with certain completed property acquisitions. Under these agreements, the Company has agreed not to dispose of certain protected properties in a taxable transaction until certain dates. In some cases, members of the Company's senior management and/or board of trustees are the beneficiaries of these agreements.

Other

In the normal course of business, the Company has become and may, in the future, become involved in legal actions relating to the ownership and operations of its properties and the properties it manages for third parties. In management's opinion, the resolution of any such pending legal actions is not expected to have a material adverse effect on the Company's consolidated financial position or results of operations.

10. DERIVATIVES:

In the normal course of business, the Company is exposed to financial market risks, including interest rate risk on its interest-bearing liabilities. The Company endeavors to limit these risks by following established risk management policies, procedures and strategies, including the use of financial instruments. The Company does not use financial instruments for trading or speculative purposes.

Financial instruments are recorded on the balance sheet as assets or liabilities based on each instrument's fair value. Changes in the fair value of financial instruments are recognized currently in earnings, unless the financial instrument meets the criteria for hedge accounting contained in Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended and interpreted (SFAS No. 133). If the financial instruments meet the criteria for a cash flow hedge, the gains and losses in the fair value of the financial instrument are deferred in other comprehensive income. Gains and losses on a cash flow hedge are reclassified into earnings when the forecasted transaction affects earnings. A contract that is designated as a hedge of an anticipated transaction which is no longer likely to occur is immediately recognized in earnings.

Edgar Filing: PENNSYLVANIA REAL ESTATE INVESTMENT TRUST - Form 10-Q

The anticipated transaction to be hedged must expose the Company to interest rate risk, and the hedging instrument must reduce the exposure and meet the requirements for hedge accounting under SFAS No. 133. The Company must formally designate the financial instrument as a hedge and document and assess the effectiveness of the hedge at inception and on a quarterly basis. Interest rate hedges that are designated as cash flow hedges hedge the future cash outflows on debt.

Table of Contents

As of June 30, 2007 and December 31, 2006, the Company had a total of 13 and 16 forward-starting interest rate swap agreements, respectively, as detailed below.

The Company's swaps will be settled in cash for the present value of the difference between the locked swap rate and the then-prevailing rate on or before the cash settlement dates corresponding to the dates of issuance of new long-term debt obligations. If the prevailing market interest rate exceeds the rate in the swap agreement, then the counterparty will make a payment to the Company. If it is lower, the Company will pay the counterparty. The settlement amounts will be amortized over the life of the debt as a yield adjustment.

The Company entered into these swap agreements in order to hedge the expected interest payments associated with a portion of the Company's anticipated future issuances of long-term debt. The Company assessed the effectiveness of these swaps as hedges at inception and on June 30, 2007 and considers these swaps to be highly effective cash flow hedges under SFAS No. 133.

In March 2007, the Company settled three swaps. The settled swaps had a value of \$4.3 million as of December 31, 2006 and at the cash settlement date, the Company received \$4.1 million in cash and recorded an unrealized loss of \$0.2 million to Other Accumulated Comprehensive Income. The swaps were settled in anticipation of the Company's issuance of long-term debt. Amortization of the settlement amount commenced upon the issuance of such debt and is being recorded as a decrease in interest expense over the term of the new long-term debt.

To determine the fair values of derivative instruments prior to settlement, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each balance sheet date. For the majority of financial instruments, including most derivatives, long-term investments and long-term debt, standard market conventions and techniques such as discounted cash flow analysis, option pricing models, replacement cost and termination cost are used to determine fair value. All methods of assessing fair value result in a general approximation of value, and there can be no assurance that the value in an actual transaction will be equivalent to the fair value set forth in the Company's financial statements.

The counterparties to these swap agreements are all major financial institutions and participants in the Credit Facility. The Company is potentially exposed to credit loss in the event of non-performance by these counterparties. However, because of their high credit ratings, the Company does not anticipate that any of the counterparties will fail to meet these obligations as they come due.

The following table summarizes the terms and fair values of the Company's derivative financial instruments at June 30, 2007. The notional amounts at June 30, 2007 provide an indication of the extent of the Company's involvement in these instruments at that time, but do not represent exposure to credit, interest rate or market risks.

(1) These swaps were settled in March 2007 resulting in a payment to the Company of \$4.1 million. As of June 30, 2007 and December 31, 2006, the estimated unrealized gain attributed to the cash flow hedges was \$20.3 million and \$9.4 million, respectively, and has been included in deferred costs and other assets and accumulated other comprehensive income in the accompanying consolidated balance sheets. The increase in the aggregate value from December 31, 2006 to June 30, 2007 is due to an increase in market interest rates during the first six months of 2007, net of swaps settled in that period.

11. SUBSEQUENT EVENTS

On July 31, 2007, the Company redeemed its 2,475,000 11% nonconvertible senior preferred shares for \$131.8 million, or \$52.50 per preferred share plus accrued and unpaid dividends to the redemption date. The preferred shares were issued in November 2003 in connection with the Company's merger (the Merger) with Crown American Realty Trust (Crown), and were initially recorded at \$57.90 per preferred share, the fair value based on the market value of the corresponding Crown preferred shares as of May 13, 2003, the date on which the financial terms of the Merger were substantially complete. In order to finance the redemption, the Company borrowed \$131.8 million under its Credit Facility. As a result of the redemption, the \$13.3 million excess of the carrying amount of the preferred shares, net of expenses, over the redemption price will be included in Income Available to Common Shareholders.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following analysis of our consolidated financial condition and results of operations should be read in conjunction with our unaudited consolidated financial statements and the notes thereto included elsewhere in this report.

OVERVIEW

Pennsylvania Real Estate Investment Trust, a Pennsylvania business trust founded in 1960 and one of the first equity REITs in the United States, has a primary investment focus on retail shopping malls and power and strip centers located in the Mid-Atlantic region or in the eastern half of the United States. Our operating portfolio currently consists of a total of 57 properties. The retail portion of our portfolio contains 49 properties in 13 states and includes 38 shopping malls and 11 power and strip centers. The ground-up development portion of our portfolio contains eight properties in five states, with four classified as power centers, two classified as mixed use (a combination of retail and other uses) and two classified as other. The retail properties have a total of 33.7 million square feet, of which we and partnerships or tenancy in common arrangements (collectively, partnerships) in which we own an interest own 25.6 million square feet. The retail properties that we consolidate for financial reporting purposes have 29.3 million square feet, of which we own 22.8 million square feet. Properties that are owned by unconsolidated partnerships with third parties (see below) have 4.4 million square feet, of which 2.8 million square feet are owned by such partnerships.

Our primary business is owning and operating shopping malls and power and strip centers. We evaluate operating results and allocate resources on a property-by-property basis, and do not distinguish or evaluate our consolidated operations on a geographic basis. No individual property constitutes more than 10% of our consolidated revenue or assets, and thus the individual properties have been aggregated into one reportable segment based upon their similarities with regard to the nature of our properties and the nature of our tenants and operational processes, as well as long-term financial performance. In addition, no single tenant accounts for 10% or more of our consolidated revenue, and none of our properties are located outside the United States.

We hold our interests in our portfolio of properties through our operating partnership, PREIT Associates, L.P. (PREIT Associates). We are the sole general partner of PREIT Associates and, as of June 30, 2007, held a 93.5% controlling interest in PREIT Associates. We consolidate PREIT Associates for financial reporting purposes. We hold our investments in seven of the 49 operating retail properties in our portfolio through unconsolidated partnerships with third parties in which we own a 50% interest. We hold a non-controlling interest in each unconsolidated partnership, and account for such partnerships using the equity method of accounting. We do not control any of these equity method investees for the following reasons:

Except for two properties that we co-manage with our partner, all of the other entities are managed on a day-to-day basis by one of our other partners as the managing general partner in each of the respective partnerships. In the case of the co-managed properties, all decisions in the ordinary course of business are made jointly.

The managing general partner is responsible for establishing the operating and capital decisions of the partnership, including budgets, in the ordinary course of business.

All major decisions of each partnership, such as the sale, refinancing, expansion or rehabilitation of the property, require the approval of all partners.

Voting rights and the sharing of profits and losses are generally in proportion to the ownership percentages of each partner. We record the earnings from the unconsolidated partnerships using the equity method of accounting under the income statement caption entitled Equity in income of partnerships rather than consolidating the results of the unconsolidated partnerships with our results. Our investments in these entities are recorded in the balance sheet caption entitled Investment in partnerships, at equity. In the case of deficit investment balances, such amounts are recorded in Distributions in excess of partnership investments.

For further information regarding our unconsolidated partnerships, see Note 4 to our consolidated financial statements.

Edgar Filing: PENNSYLVANIA REAL ESTATE INVESTMENT TRUST - Form 10-Q

We provide our management, leasing and development services through PREIT Services, LLC, which generally develops and manages properties that we consolidate for financial reporting purposes, and PREIT-RUBIN, Inc. (PRI), which generally develops and manages properties that we own interests in through partnerships with third parties and properties that are owned by third parties in which we do not have an interest. One of our long-term objectives is to obtain managerial control of as many of our assets as possible. Due to the nature of our existing partnership arrangements, we cannot anticipate when this objective will be achieved, if at all.

Our revenues consist primarily of fixed rental income, additional rent in the form of expense reimbursements, and percentage rents (rents that are based on a percentage of our tenants' sales or a percentage of sales in excess of thresholds that are specified in the leases) derived from our income producing retail properties. We also receive income from our real estate partnership investments and from the management and leasing services PRI provides.

Table of Contents

Our net income available to common shareholders was \$6.2 million for the six months ended June 30, 2007, an increase of \$8.5 million from a loss allocable to common shareholders of \$2.3 million for the six months ended June 30, 2006. The increase in our net income resulted primarily from the \$6.7 million gain recognized in connection with the sale of Schuylkill Mall in March 2007, the \$1.5 million gain associated with the sale of a parcel and related land improvement at Plaza at Magnolia in May 2007, \$0.8 million of condemnation proceeds associated with highway improvements at Capital City Mall recorded in March 2007, the \$0.6 million gain on the sale of an outparcel containing an operating restaurant at New River Valley Mall in May 2007, separation expenses associated with the retirement of Jonathan B. Weller, a Vice Chairman of the Company, in the first quarter of 2006 that did not recur in 2007, and the impact in March 2006 of \$2.8 million of depreciation and amortization from one property that was reclassified in the first quarter of 2006 from discontinued operations to continuing operations.

ACQUISITIONS, DISPOSITIONS AND DEVELOPMENT ACTIVITIES

We record our acquisitions based on estimates of fair value as determined by our management, using information available and based on assumptions of future performance. These allocations are subject to revisions, in accordance with GAAP, during the twelve-month periods following the closings of the respective acquisitions.

We are actively involved in pursuing and evaluating acquisition opportunities. Our evaluation includes an analysis of whether the properties meet the investment criteria we apply, given economic, market and other circumstances. The Company did not acquire any significant properties during the first six months of 2007.

P&S Office Building

During the first quarter of 2007, we reclassified P&S Office Building in Gadsden, Alabama for accounting purposes from held for sale to continuing operations. We reached this decision because the property no longer met the conditions for an exception to the one-year classification requirement in SFAS No.144, Accounting for the Impairment or Disposal of Long-Lived Assets. We intend to continue to actively market P&S Office Building for sale, but at this time, we cannot determine if or when a sale will be consummated. For balance sheet purposes, as of March 31, 2007, the assets and liabilities of P&S Office Building were reclassified from assets held for sale and liabilities related to assets held for sale into the appropriate balance sheet captions. Because P&S Office Building was considered held for sale as of December 31, 2006, no reclassifications related to P&S Office Building were made as of that date. For income statement purposes, the results of operations for P&S Office Building are presented in continuing operations for all periods presented. In the first quarter of 2007, we recorded depreciation and amortization expense of \$0.2 million to reflect the depreciation and amortization during all of the period that P&S Office Building was held for sale.

2007 Dispositions

In May 2007, we sold a 4.6 acre parcel and related land improvements at Plaza at Magnolia for \$11.3 million. We recorded a \$1.5 million gain on the sale.

In May 2007, we sold a 1.6 acre outparcel and related land improvements containing an operating restaurant at New River Valley Mall for \$1.6 million. We recorded a \$0.6 million gain on the sale.

In March 2007, we sold Schuylkill Mall in Frackville, Pennsylvania for \$17.6 million. We recorded a gain of \$6.7 million from this sale. In connection with the sale, we repaid the mortgage note associated with Schuylkill Mall, with a balance of \$16.5 million at closing.

Development and Redevelopment

We are engaged in the ground-up development of eight retail and other mixed-use projects that we believe meet the financial hurdles that we apply, given economic, market and other circumstances. As of June 30, 2007, we had incurred \$139.6 million of costs related to these projects. The costs identified to date to complete these ground-up projects are expected to be \$129.8 million in the aggregate, excluding the Springhills (Gainesville, Florida) and Pavilion at Market East (Philadelphia, Pennsylvania) projects because details of those projects and the related costs have not been determined. In each case, we will evaluate the financing opportunities available to us at the time a project requires funding. In cases where the project is undertaken with a partner, our flexibility in funding the project might be governed by the partnership agreement or the covenants contained in our Credit Facility, which limit our involvement in such projects.

We generally seek to develop these projects in areas that we believe evidence the likelihood of supporting additional retail development and have desirable population or income trends, and where we believe the projects have the potential for strong competitive positions. We usually have several development projects under way at one time in various stages of the

Table of Contents

development process. We manage all aspects of these undertakings, including market and trade area research, site selection, acquisition, preliminary development work, construction and leasing. We monitor our developments closely, including costs and tenant interest.

The following table sets forth the amount of our intended investment in each ground-up development project:

Development Project	Estimated Project Cost	Invested as of June 30, 2007

We are engaged in the redevelopment of 12 of our consolidated properties and one of our unconsolidated properties, and expect to increase the number of such projects in the future. These projects may include the introduction of residential, office or other uses to our properties.

The following table sets forth the amount of our intended investment for each redevelopment project:

Project	Estimated Project Cost	Invested as of June 30, 2007
Cherry Hill Mall	\$ 197.7 million	\$ 30.9 million
Plymouth Meeting Mall	83.9 million	26.7 million
New River Valley Mall	26.0 million	24.3 million

Magnolia Mall	18.5 million	14.5 million
Lycoming Mall	18.1 million	13.9 million
North Hanover Mall	35.1 million	6.8 million
Lehigh Valley Mall ⁽¹⁾	21.5 million	5.7 million
Beaver Valley Mall	9.2 million	4.9 million
Francis Scott Key Mall	4.9 million	4.6 million
Jacksonville Mall	4.0 million	2.3 million
Moorestown Mall	13.7 million	1.9 million
	\$ 532.0 million	\$ 172.7 million

⁽¹⁾ The property is unconsolidated. The amounts shown represent our share.

In connection with our current ground-up development and our redevelopment projects, we have made contractual and other commitments on some of these projects in the form of tenant allowances, lease termination fees and contracts with general contractors and other professional services providers. As of June 30, 2007, the remainder to be paid against such contractual and other commitments was \$119.8 million, which, during the construction phase, is expected to be financed through our Credit Facility, other unsecured debt or through short-term construction loans. The development and redevelopment projects on which these commitments have been made have total remaining estimated costs of \$396.2 million. In connection with our completed redevelopment and development projects, we expect to seek longer-term, fixed-rate mortgages

when projects are completed and the properties are stabilized.

OFF BALANCE SHEET ARRANGEMENTS

We have no material off balance sheet items other than the partnerships described in Note 4 to the consolidated financial statements and in the Overview section above. We have, however, entered into tax protection agreements in connection with certain property acquisitions. Under these agreements, we have agreed not to dispose of certain protected properties in a taxable transaction until certain dates. In some cases, members of our senior management and/or board of trustees are the beneficiaries of these agreements.

RELATED PARTY TRANSACTIONS

PRI provides management, leasing and development services for eight properties owned by partnerships and other entities in which certain officers or trustees of the Company and of PRI or their immediate families and affiliated entities have direct or indirect ownership interests. Total revenues earned by PRI for such services were \$0.2 million and \$0.4 million for the three and six month periods ended June 30, 2007, and \$0.4 million and \$0.5 million for the three and six month periods ended June 30, 2006.

We lease our principal executive offices from Bellevue Associates (the Landlord). Ronald Rubin and George F. Rubin, collectively with members of their immediate families and affiliated entities, own approximately a 50% interest in the Landlord. The office lease has a 10 year term that commenced on November 1, 2004. Our base rent is \$1.4 million per year during the first five years of the office lease and \$1.5 million per year during the second five years. Total rent expense under this lease was \$0.4 million and \$0.8 million, respectively, for each of the three and six month periods ended June 30, 2007 and 2006.

We use an airplane in which Ronald Rubin owns a fractional interest. We paid \$13,000 and \$18,000 in the three and six months ended June 30, 2007 and June 30, 2006, respectively, for flight time used by employees on Company-related business.

On June 6, 2007, we issued 1,580,211 common shares of beneficial interest in exchange for a like number of units of Class B limited partnership interest. The shares were issued to an entity that is an affiliate of Mark Pasquerilla, a trustee of the Trust.

CRITICAL ACCOUNTING POLICIES

Critical accounting policies are those that require the application of management's most difficult, subjective, or complex judgments, often because of the need to make estimates about the effect of matters that are inherently uncertain and that may change in subsequent periods. In preparing the consolidated financial statements, management has made estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. In preparing the financial statements, management has utilized available information, including our past history, industry standards and the current economic environment, among other factors, in forming its estimates and judgments, giving due consideration to materiality. Actual results may differ from these estimates. In addition, other companies may utilize different estimates, which may impact the comparability of our results of operations to those of companies in similar businesses.

Our management makes complex or subjective assumptions and judgments with respect to applying its critical accounting policies. In making these judgments and assumptions, management considers, among other factors:

events and changes in property, market and economic conditions;

estimated future cash flows from property operations; and

the risk of loss on specific accounts or amounts.

The estimates and assumptions made by management in applying critical accounting policies have not changed materially during 2007 and 2006, and none of these estimates or assumptions have proven to be materially incorrect or resulted in our recording any significant adjustments relating to prior periods. We will continue to monitor the key factors underlying our estimates and judgments, but no change is currently expected. See our Current Report on Form 8-K filed on July 16, 2007 for a summary of the accounting policies that management believes are critical to the preparation of the consolidated financial statements.

Table of Contents**RESULTS OF OPERATIONS**

Three and Six Months Ended June 30, 2007 and 2006

Overview

Our results of operations for the three and six months ended June 30, 2007 and 2006 were significantly affected by ongoing redevelopment initiatives that were in various stages at 12 of our consolidated mall properties and one of our unconsolidated properties. While we might undertake a redevelopment to maximize the long term performance of the property, in the short term, the operations and performance of the property, as measured by occupancy and net operating income, will be negatively affected. Tenants will be relocated or leave as space for the redevelopment is aggregated, which affects tenant sales and rental rates. Some space at a property may be taken out of retail use during the redevelopment, and some space may only be made available for short periods of time pending scheduled renovation. Furthermore, our results during these six month periods were affected by the \$6.7 million gain on the sale of Schuylkill Mall in March 2007, the \$1.5 million gain associated with the sale of a parcel and related land improvement at Plaza at Magnolia in May 2007, \$0.8 million of condemnation proceeds recorded in March 2007 associated with highway improvements at Capital City Mall, the \$0.6 million gain on the sale of an outparcel containing an operating restaurant at New River Valley Mall in May 2007, the \$4.0 million of separation expenses associated with the retirement of a Vice Chairman of the Company in the first quarter of 2006 that did not recur in 2007, and \$2.8 million of depreciation and amortization expense recorded in the first quarter of 2006 with the reclassification of Schuylkill Mall from held for sale to held and used, reflecting depreciation and amortization during all of the periods that Schuylkill Mall was classified as held for sale.

The table below sets forth occupancy statistics for our consolidated properties as of June 30, 2007 and 2006:

	Occupancy As of June 30,	
	2007	2006
Retail portfolio weighted average:		
Total including anchors	89.8% ⁽¹⁾	89.6% ⁽¹⁾
Excluding anchors	87.0%	86.5%
Enclosed malls weighted average:		
Total including anchors	89.3% ⁽¹⁾	89.1% ⁽¹⁾
Excluding anchors	86.5%	85.9%
Power/strip centers weighted average:	96.2%	96.9%

(1) Includes acquired vacant anchor stores until the space is decommissioned pending redevelopment.

The following information summarizes our results of operations for the three and six months ended June 30, 2007 and 2006. The amounts reflected as income from continuing operations reflect income from properties wholly-owned by us or owned by partnerships that we consolidate for financial reporting purposes, with the exception of income from the properties that are classified as discontinued operations. Our unconsolidated partnerships are presented under the equity method of accounting in the line item entitled Equity in income of partnerships.

Real Estate Revenue

Real estate revenue increased by \$0.6 million, or 1%, in the three months ended June 30, 2007 compared to the three months ended June 30, 2006. Real estate revenue increased primarily due to increases of \$0.8 million in base rents, which is comprised of minimum rent, straight line rent and rent from tenants that pay a percentage of sales in lieu of minimum rent, and \$0.4 million in expense reimbursements, partially offset by a \$0.1 million decrease in lease termination income, a \$0.1 million decrease in percentage rents and a \$0.4 million decrease in other revenue.

Base rents increased primarily due to a \$1.3 million increase in rents and increased occupancy at recently completed redevelopment projects. These increases were partially offset by decreases in base rents at Voorhees Town Center, Moorestown Mall and Plymouth Meeting Mall, three of our current redevelopment properties, which had decreases of \$0.3 million, \$0.2 million and \$0.2 million, respectively, for the three month period, as in-line occupancy decreased and more tenants were converted from fixed rents to percentage of sales in order to maintain occupancy during the redevelopment period. Expense reimbursements increased by \$0.4 million in the three months ended June 30, 2007 due to higher reimbursable expenses, as discussed below under Property Operating Expenses. Other revenue decreased by \$0.4 million, primarily due to a \$0.4 million decrease in marketing revenue. The decrease in marketing revenue was offset by a corresponding \$0.4 million decrease in marketing expense, as discussed below under Property Operating Expenses.

Real estate revenue increased by \$1.5 million, or 1%, in the first six months of 2007 compared to the first six months of 2006. Real estate revenue increased primarily due to increases of \$1.5 million in base rents and \$2.0 million in expense reimbursements, partially offset by a \$1.4 million decrease in lease termination income, a \$0.1 million decrease in percentage rents and a \$0.5 million decrease in other revenue.

Base rents increased primarily due to a \$2.7 million increase in rents and increased occupancy at recently completed redevelopment projects. These increases were partially offset by decreases in base rents at Voorhees Town Center, Moorestown Mall and Plymouth Meeting Mall, three of our current redevelopment properties, which had decreases of \$0.5 million, \$0.5 million and \$0.4 million, respectively, for the six month period, as in-line occupancy decreased and more tenants were converted from fixed rents to percentage of sales in order to maintain occupancy during the redevelopment period. Expense reimbursements increased by \$2.0 million in the six months ended June 30, 2007 due to higher reimbursable expenses, as discussed below under Property Operating Expenses. Lease termination revenue decreased by \$1.4 million, primarily due to \$1.2 million received from two tenants in the six months ended June 30, 2006. Other revenue decreased by \$0.5 million, primarily due to a \$0.5 million decrease in marketing revenue. The decrease in marketing revenue was offset by a corresponding \$0.5 million decrease in marketing expense, as discussed below under Property Operating Expenses.

Table of Contents

Property Operating Expenses

Property operating expenses increased by \$0.3 million, or 1%, in the three months ended June 30, 2007 compared to the three months ended June 30, 2006. Property operating expenses increased primarily due to a \$0.6 million increase in common area maintenance expense, a \$0.2 million increase in real estate tax expense and a \$0.3 million increase in utility expense. These increases were partially offset by a \$0.8 million decrease in other operating expenses.

Common area maintenance expenses increased by \$0.6 million, or 3%, in the three months ended June 30, 2007 primarily due to increases of \$0.3 million in loss prevention expense, \$0.1 million in janitorial expense and \$0.1 million in utility expense. Loss prevention expense increased primarily due to an increase in the number of contracted security personnel at some properties compared to the three months ended June 30, 2006. Other operating expenses decreased by \$0.8 million, including a \$0.4 million decrease in marketing expenses, offsetting the \$0.4 million decrease in marketing revenues, as discussed above under Real Estate Revenues. The marketing expense decrease resulted from a timing difference of marketing expenditures at some properties compared to last year, with higher expenditures anticipated over the remaining six months of 2007. In addition to the marketing expense decrease, other operating expenses decreased due to a \$0.2 million decrease in professional fees and a \$0.1 million decrease in bad debt expense.

Property operating expenses increased by \$2.4 million, or 3%, in the first six months of 2007 compared to the first six months of 2006. Property operating expenses increased primarily due to a \$2.1 million increase in common area maintenance expense, a \$0.4 million increase in real estate tax expense and a \$1.1 million increase in utility expense. These increases were partially offset by a \$1.2 million decrease in other operating expenses.

Common area maintenance expenses increased by \$2.0 million, or 5%, in the six months ended June 30, 2007 primarily due to an increase of \$1.2 million in snow removal expense. Snow fall amounts increased during the first three months of 2007 compared to the first three months of 2006, at our properties located in Pennsylvania and New Jersey in particular. Also, loss prevention expense increased \$0.7 million in the six months ended June 30, 2007. Loss prevention expense increased primarily due to an increase in the number of contracted security personnel at some properties compared to the six months ended June 30, 2006. Utility expense increased by \$1.1 million in the six months ended June 30, 2007 due to an increase in energy consumption at some of our properties, as a result of colder temperatures compared to the six months ended June 30, 2006. Other operating expenses decreased by \$1.2 million, including a \$0.5 million decrease in marketing expenses, offsetting the \$0.5 million decrease in marketing revenues, as discussed above under Real Estate Revenues. The marketing expense decrease resulted from a timing difference of marketing expenditures at some properties compared to last year, with higher expenditures anticipated over the remaining six months of 2007. In addition to the marketing expense decrease, other operating expenses decreased due to a \$0.3 million decrease in recoverable tenant service expense (offset by a \$0.3 million decrease in recoverable tenant service income), a \$0.2 million decrease in professional fees and a \$0.1 million decrease in bad debt expense.

General and Administrative Expenses and Other

General and administrative expenses increased \$0.6 million, or 6%, for the three months ended June 30, 2007 compared to the three months ended June 30, 2006. The increase was due to a \$0.7 million increase in compensation expense due to salary increases, incentive compensation, and increased headcount and a \$0.1 million decrease in other miscellaneous expenses.

General and administrative expenses increased \$1.3 million, or 7%, for the six months ended June 30, 2007 compared to the six months ended June 30, 2006. The increase was due to a \$1.2 million increase in compensation expense and a \$0.3 million increase in other miscellaneous expenses, offset by a \$0.2 million decrease in professional fees.

Executive Separation

Executive separation expense in the six months ended June 30, 2006 represents a \$4.0 million expense related to separation costs associated with the retirement of Jonathan Weller, a former Vice Chairman of the Company.

Depreciation and Amortization

Depreciation and amortization expense increased by \$1.9 million, or 6%, in the three months ended June 30, 2007 compared to the three months ended June 30, 2006. This increase was primarily due to a higher asset base resulting from capital improvements, particularly at properties that have recently completed redevelopments, including increases of \$0.4 million, \$0.2 million and \$0.2 million at New River Valley Mall, Lycoming Mall and Magnolia Mall, respectively.

Edgar Filing: PENNSYLVANIA REAL ESTATE INVESTMENT TRUST - Form 10-Q

Depreciation and amortization expense increased by \$3.6 million, or 6%, in the first six months of 2007 compared to the first six months of 2006. This increase was primarily due to a higher asset base resulting from capital improvements, particularly at properties that have recently completed redevelopments, including increases of \$0.7 million, \$0.5 million and \$0.4 million at New River Valley Mall, Lycoming Mall and Magnolia Mall, respectively.

Table of Contents**Interest Expense**

Interest expense decreased \$0.8 million, or 3%, for the three months ended June 30, 2007 compared to the three months ended June 30, 2006. The decrease resulted from a \$0.4 million decrease due to lower average interest rates (the combined weighted average rate under the Credit Facility and exchangeable senior notes was 6.08% in the second quarter of 2007 versus a weighted average rate of 7.05% in the same period in 2006) and a \$0.4 million decrease in interest paid on mortgage loans that were outstanding during the three months ended June 30, 2007 and 2006 due to principal amortization.

Interest expense decreased \$0.8 million, or 2%, for the six months ended June 30, 2007 compared to the six months ended June 30, 2006. The decrease resulted from a \$0.3 million decrease due to lower average interest rates (the combined weighted average rate under the Credit Facility and exchangeable senior notes was 6.47% in six months ended June 30, 2007 versus a weighted average rate of 6.63% in the same period in 2006) and a \$0.5 million decrease in interest paid on mortgage loans that were outstanding during the six months ended June 30, 2007 and 2006 due to principal amortization.

Gains on Sales of Real Estate

Gains on sales of interests in real estate were \$0.6 million for the three and six months ended June 30, 2007, due to the sale of an outparcel and related land improvements containing an operating restaurant at New River Valley Mall in May 2007. There were no gains on sales of interests in real estate for the three and six months ended June 30, 2006.

Gains on sales of non-operating real estate increased \$1.3 million for the three and six months ended June 30, 2007 compared to three and six months ended June 30, 2006. The increase resulted from a \$1.5 million gain on the sale of a parcel and related land improvements at Plaza at Magnolia in May 2007, as compared to a \$0.2 million gain on the sale of non-operating real estate at Plaza at Magnolia in June 2006.

Gains on Sales of Discontinued Operations

Gains on sales of discontinued operations were \$6.7 million for the six months ended June 30, 2007, due to the sale of Schuylkill Mall in March 2007. There were no gains on sales of discontinued operations for the six months ended June 30, 2006.

Discontinued Operations

The Company has presented as discontinued operations the operating results of Schuylkill Mall, which was sold in March 2007, and South Blanding Village, which was sold in September 2006.

Property operating results and related minority interest for the properties in discontinued operations for the periods presented were as follows:

NET OPERATING INCOME

Net operating income (a non-GAAP measure) is derived from real estate revenues (determined in accordance with GAAP) minus property operating expenses (determined in accordance with GAAP). It does not represent cash generated from operating activities in accordance with GAAP and should not be considered to be an alternative to net income (determined in accordance with GAAP) as an indication of the Company's financial performance or to be an alternative to cash flow from operating activities (determined in accordance with GAAP) as a measure of our liquidity; nor is it indicative of funds available for our cash needs, including our ability to make cash distributions. We believe that net income is the most directly comparable GAAP measurement to net operating income. We believe that net operating income is helpful to management and

Edgar Filing: PENNSYLVANIA REAL ESTATE INVESTMENT TRUST - Form 10-Q

investors as a measure of operating performance because it is an indicator of the return on property investment, and provides a method of comparing property performance over time. Net operating income excludes management company revenues, interest income, general and administrative expenses, interest expense, depreciation and amortization and gains on sales of interests in real estate.

The following tables present net operating income results for the three and six months ended June 30, 2007 and 2006. The results are presented using the proportionate-consolidation method (a non-GAAP measure), which presents our share of the results of our partnership investments. Under GAAP, we account for our partnership investments under the equity method of accounting. Property operating results for retail properties that we owned for the full periods presented (Same Store) include the results of properties that have undergone or were undergoing redevelopment during the applicable periods, and excludes properties acquired or disposed of during the periods presented:

Primarily because of the items discussed above under Real Estate Revenues and Property Operating Expenses, total net operating income was unchanged at \$72.9 million in the three months ended June 30, 2007 compared to the three months ended June 30, 2006. Same Store net operating income increased by \$0.7 million in the three months ended June 30, 2007 compared to the three months ended June 30, 2006. Non-Same Store net operating income decreased by \$0.7 million.

Primarily because of the items discussed above under Real Estate Revenues and Property Operating Expenses, total net operating income decreased by \$1.9 million in the first six months of 2007 compared to the first six months of 2006. Same Store net operating income decreased by \$0.7 million in the first six months of 2007 compared to the first six months of 2006. Non-Same Store net operating income decreased by \$1.2 million.

FUNDS FROM OPERATIONS

The National Association of Real Estate Investment Trusts (NAREIT) defines Funds From Operations, which is a non-GAAP measure, as income before gains and losses on sales of operating properties and extraordinary items (computed in accordance with GAAP); plus real estate depreciation; plus or minus adjustments for unconsolidated partnerships to reflect funds from operations on the same basis. We compute Funds From Operations by taking the amount determined pursuant to the NAREIT definition and subtracting dividends on preferred shares (FFO).

Funds From Operations is a commonly used measure of operating performance and profitability in the real estate industry. We use FFO and FFO per diluted share and OP unit (FFO per share) as supplemental non-GAAP measures to compare our Company s performance to that of our industry peers. Similarly, we use FFO and FFO per share as performance measures for determining bonus amounts earned under certain of our performance-based executive compensation programs. We compute FFO in accordance with standards established by NAREIT, less dividends on preferred shares, which may not be comparable to Funds From Operations reported by other REITs that do not define the term in accordance with the current NAREIT definition, or that interpret the current NAREIT definition differently than we do.

FFO does not include gains or losses on sales of operating real estate assets, which are included in the determination of net income in accordance with GAAP. Accordingly, FFO is not a comprehensive measure of our operating cash flows. In addition, since FFO does not include depreciation on real estate assets, FFO may not be a useful performance measure when comparing our operating performance to that of other non-real estate commercial enterprises. We compensate for these limitations by using FFO in conjunction with other GAAP financial performance measures, such as net income and net cash provided by operating activities, and other non-GAAP financial performance measures, such as net operating income. FFO does not represent cash generated from operating activities in accordance with GAAP and should not be considered to be an alternative to net income (determined in accordance with GAAP) as an indication of our financial performance or to be an alternative to cash flow from operating activities (determined in accordance with GAAP) as a measure of our liquidity, nor is it indicative of funds available for our cash needs, including our ability to make cash distributions.

We believe that net income is the most directly comparable GAAP measurement to FFO. We believe that FFO is helpful to management and investors as a measure of operating performance because it excludes various items included in net income that do not relate to or are not indicative of operating performance, such as various non-recurring items that are considered extraordinary under GAAP, gains on sales of operating real estate and depreciation and amortization of real estate.

Edgar Filing: PENNSYLVANIA REAL ESTATE INVESTMENT TRUST - Form 10-Q

FFO was \$33.9 million for the three months ended June 30, 2007, an increase of \$1.0 million, or 3%, compared to \$32.9 million for the three months ended June 30, 2006. FFO per share increased \$0.01 to \$0.82 for the three months ended June 30, 2007, compared to FFO per share of \$0.81 for the three months ended June 30, 2006. The change in FFO and FFO per share was primarily due to the items discussed in Results of Operations.

FFO was \$67.1 million for the first six months of 2007, an increase of \$2.5 million, or 4%, compared to \$64.6 million for the first six months of 2006. FFO per share increased \$0.04 to \$1.62 for the first six months of 2007, compared to FFO per share of \$1.58 for the first six months of 2006. The change in FFO and FFO per share was primarily due to the items discussed in Results of Operations.

SUBSEQUENT EVENT

On July 31, 2007, the Company redeemed its 2,475,000 11% nonconvertible senior preferred shares for \$131.8 million, or \$52.50 per preferred share, plus accrued and unpaid dividends to the redemption date. The preferred shares were issued in November 2003 in connection with the Company's merger (the Merger) with Crown American Realty Trust (Crown), and were initially recorded at \$57.90 per preferred share, the fair value based on the market value of the corresponding Crown preferred shares as of May 13, 2003, the date on which the financial terms of the Merger were substantially complete. In order to finance the redemption, the Company borrowed \$131.8 million under its Credit Facility. As a result of the redemption, the \$13.3 million excess of the carrying amount of the preferred shares, net of expenses, over the redemption price will be included in Income Available to Common Shareholders.

LIQUIDITY AND CAPITAL RESOURCES

Credit Facility

Our \$500.0 million Credit Facility can be increased to \$650.0 million under prescribed conditions, and the Credit Facility bears interest at a rate between 0.95% and 1.40% per annum over LIBOR based on our leverage. In determining our leverage, the capitalization rate used to calculate Gross Asset Value is 7.50%. The availability of funds under the Credit Facility is subject to our compliance with financial and other covenants and agreements. The Credit Facility has a term that expires in January 2009, with an additional 14 month extension option, provided that there is no event of default at that time. See Note 4 in our audited financial statements for the year ended December 31, 2006 contained in the Current Report on Form 8-K filed on July 16, 2007.

As of June 30, 2007, \$35.0 million was outstanding under the Credit Facility. We pledged \$14.8 million under the Credit Facility as collateral for letters of credit, and the unused portion of the Credit Facility that was available to us was \$450.2 million at June 30, 2007. The weighted average effective interest rate based on amounts borrowed was 6.95% for the three month period ended June 30, 2007. The weighted average interest rate on outstanding Credit Facility borrowings at June 30, 2007 was 6.37%.

We must repay the entire principal amount outstanding under the Credit Facility at the end of its term. We may prepay any revolving loan at any time without premium or penalty. Accrued and unpaid interest on the outstanding principal amount under the Credit Facility is payable monthly, and any unpaid amount is payable at the end of the term. The Credit Facility has a facility fee of 0.15% to 0.20% per annum of the total commitments, depending on leverage and without regard to usage. The Credit Facility contains some lender yield protection provisions related to LIBOR loans. The Company and certain of its subsidiaries are guarantors of the obligations arising under the Credit Facility.

The Credit Facility contains affirmative and negative covenants customarily found in facilities of this type. As of June 30, 2007, we were in compliance with all of these covenants.

Upon the expiration of any applicable cure period following an event of default, the lenders may declare all obligations of the Company in connection with the Credit Facility immediately due and payable, and the commitments of the lenders to make loans under the Credit Facility will terminate. Upon the occurrence of a voluntary or involuntary bankruptcy proceeding of the Company, PREIT Associates, PRI or any material subsidiary, all outstanding amounts will automatically become immediately due and payable and the commitments of the lenders to make loans will automatically terminate.

Exchangeable Senior Notes

In May 2007, we completed the sale of \$287.5 million aggregate principal amount of exchangeable senior notes due 2012. The net proceeds from the offering of \$281.0 million were used for the repayment of indebtedness under our Credit Facility, the cost of the related capped call transactions, and for other general corporate purposes.

The notes are general unsecured senior obligations of PREIT Associates and rank equally in right of payment with all other senior unsecured indebtedness of PREIT Associates. Interest is payable on June 1 and December 1 of each year, beginning December 1, 2007, until the maturity date of June 1, 2012. PREIT Associates' obligations under the notes are fully and unconditionally guaranteed by the Company.

The notes bear interest at 4.00% per annum and contain an exchange settlement feature. Pursuant to this feature, upon surrender of the notes for exchange, the notes will be exchangeable for cash equal to the principal amount of the notes and, with respect to any excess exchange value, at our option, for cash, common shares of the Company or a combination of cash and common shares at an initial exchange rate of 18.303 shares per \$1,000 principal amount of notes, or \$54.64 per share. In connection with the offering of the notes, the Company and PREIT Associates entered into capped call transactions with affiliates of the initial purchasers. These agreements effectively increase the exchange price of the notes to \$63.74. The cost of these agreements of \$12.6 million was recorded in the shareholders equity section of the Company's balance sheet.

The notes will be exchangeable only under certain circumstances. Prior to maturity, PREIT Associates may not redeem the notes except to preserve our status as a real estate investment trust. If we undergo certain change of control transactions at any time prior to maturity, holders of the notes may require PREIT Associates to repurchase their notes in whole or in part for cash equal to 100% of the principal amount of the notes to be repurchased plus unpaid interest, if any, accrued to the repurchase date.

Table of Contents**Financing Activity**

The following table sets forth a summary of significant mortgage, corporate note, exchangeable note, and Credit Facility activity for the six months ended June 30, 2007:

(in thousands of dollars)	Mortgage Notes Payable	Corporate Notes Payable	Credit Facility	Exchangeable Notes	Total
Balance at January 1, 2007	\$ 1,572,908	\$ 1,148	\$ 332,000		\$ 1,906,056
Issued Exchangeable Notes			(281,000)	287,500	6,500
The Mall at Prince Georges financing	150,000		(143,000)		7,000
Schuylkill Mall mortgage repayment	(16,461)				(16,461)
The Mall at Prince Georges mortgage repayment	(40,202)				(40,202)
Principal amortization	(11,517)				(11,517)
Capital expenditures and other uses			127,000		127,000
Balance at June 30, 2007	\$ 1,654,728	\$ 1,148	\$ 35,000	287,500	\$ 1,978,376

In May 2007, we entered into a \$150.0 million interest only first mortgage loan that is secured by the Mall at Prince Georges. The mortgage loan has an interest rate of 5.513% with a maturity date of June 1, 2017. Proceeds were used to repay outstanding borrowings under our Credit Facility. This mortgage replaced the previous mortgage on the Mall at Prince Georges that had a balance of \$40.2 million and was repaid in March 2007 using funds borrowed from the Credit Facility and available working capital.

Derivatives

As of June 30, 2007 and December 31, 2006, we had a total of 13 and 16 forward-starting interest rate swap agreements, respectively, as detailed in Note 10 to our consolidated financial statements. The swap agreements that are currently outstanding have an aggregate notional amount of \$400 million, and settle in 2008.

In March 2007, we settled three swaps. The settled swaps had a value of \$4.3 million as of December 31, 2006 and, at the cash settlement date, we received \$4.1 million in cash and recorded an unrealized loss of \$0.2 million to Other Accumulated Comprehensive Income. The swaps were settled in anticipation of our issuance of long-term debt. Amortization of the settlement amount commenced upon the issuance of such debt and is being recorded as a decrease in interest expense over the term of the new long-term debt.

We entered into our swap agreements in order to hedge the expected interest payments associated with a portion of our anticipated future issuances of long-term debt. We assessed the effectiveness of our swaps as hedges at inception and on June 30, 2007, and consider these swaps to be highly effective cash flow hedges under SFAS No. 133 (See Note 10 to our consolidated financial statements).

Capital Resources

We expect to meet our short-term liquidity requirements, including recurring capital expenditures, tenant improvements and leasing commissions, but excluding development and redevelopment projects, generally through our available working capital and net cash provided by operations. We believe that our net cash provided by operations will be sufficient to allow us to make any distributions necessary to enable us to continue to qualify as a REIT under the Internal Revenue Code of 1986, as amended. The aggregate distributions made to common shareholders and OP Unitholders in the six months ended June 30, 2007 were \$47.0 million. The following are some of the factors that could affect our cash flows and require the funding of future distributions, capital expenditures, tenant improvements or leasing commissions with sources other than operating cash flows:

adverse changes in general, local or retail industry economic, financial or competitive conditions, leading to a reduction in real estate revenues or cash flows or an increase in expenses;

Edgar Filing: PENNSYLVANIA REAL ESTATE INVESTMENT TRUST - Form 10-Q

inability to achieve targets for, or decreases in, property occupancy and rental rates, or higher costs or delays in completion of our development and redevelopment projects, resulting in lower real estate revenues and operating income;

deterioration in our tenants' business operations and financial stability, including tenant bankruptcies and leasing delays or terminations, causing declines in rents and cash flows;

increases in interest rates resulting in higher borrowing costs; and

Table of Contents

increases in operating costs that cannot be passed on to tenants, resulting in reduced operating income and cash flows. For the remainder of 2007, we expect to spend an additional \$161.5 million on previously disclosed development and redevelopment projects and new business initiatives. For the balance of the year, we anticipate funding these capital requirements with additional borrowings under our Credit Facility, which as of June 30, 2007 had \$450.2 million of available borrowing capacity, or from other sources as described below.

We expect to meet certain of our current obligations to fund existing development and redevelopment projects and certain long-term capital requirements, including future development and redevelopment projects, property and portfolio acquisitions, expenses associated with acquisitions, scheduled debt maturities, renovations, expansions and other non-recurring capital improvements, through various capital sources, including secured or unsecured indebtedness.

Consistent with our stated capital strategy, we might seek to place long-term fixed-rate debt on our stabilized properties when conditions are favorable for such financings. We also expect to raise capital through selective sales of assets and the issuance of additional equity securities, when warranted. Furthermore, we might seek to satisfy our long-term capital requirements through the formation of joint ventures with institutional partners, private equity investors or other REITs.

In general, when the credit markets are tight, we might encounter resistance from lenders when we seek financing or refinancing for properties or proposed acquisitions. In addition, the following are some of the potential impediments to accessing additional funds under the Credit Facility:

constraining leverage, interest coverage and tangible net worth covenants;

increased interest rates affecting coverage ratios; and

reduction in our consolidated earnings before interest, taxes, depreciation and amortization (EBITDA) affecting coverage ratios.

In December 2003, we announced that the SEC had declared effective a \$500.0 million universal shelf registration statement. We may use the shelf registration to offer and sell common shares of beneficial interest, preferred shares and various types of debt securities, among other types of securities, to the public. However, we may be unable to issue securities under the shelf registration statement, or otherwise, on terms that are favorable to us, if at all.

This Liquidity and Capital Resources section contains certain forward-looking statements that relate to expectations and projections that are not historical facts. These forward-looking statements reflect our current views about our future liquidity and capital resources, and are subject to risks and uncertainties that might cause our actual liquidity and capital resources to differ materially from the forward-looking statements. Additional factors that might affect our liquidity and capital resources include those discussed in the section of our Annual Report on Form 10-K and in the section of this Quarterly Report on Form 10-Q entitled Item 1A. Risk Factors. We do not intend to update or revise any forward-looking statements about our liquidity and capital resources to reflect new information, future events or otherwise.

Mortgage Notes

Mortgage notes payable, which are secured by 30 of our consolidated properties, are due in installments over various terms extending to the year 2017, with fixed interest at rates ranging from 4.95% to 7.61% and a weighted average interest rate of 6.05% at June 30, 2007. Mortgage notes payable for properties owned by unconsolidated partnerships are accounted for in Investments in partnerships, at equity on the consolidated balance sheets and are not included in the table below. The following table outlines the timing of principal payments related to our mortgage notes associated with our consolidated properties as of June 30, 2007.

(in thousands of dollars)	Total	Payments by Period			More than 5 Years
		Up to 1 Year	2-3 Years	4-5 Years	
Principal payments	\$ 124,284	\$ 11,598	\$ 36,684	\$ 32,056	\$ 43,946

Total	\$ 1,654,728	\$ 11,598	\$ 592,257	\$ 32,056	\$ 1,018,817

In March 2007, we repaid a \$40.2 million mortgage loan on the Mall at Prince Georges using funds borrowed from our Credit Facility and available working capital. Also in March 2007, we repaid the \$16.5 million mortgage loan at Schuylkill Mall using proceeds from the sale of Schuylkill Mall.

Table of Contents**Contractual Obligations**

The following table presents our aggregate contractual obligations as of June 30, 2007, for the periods presented:

(in thousands of dollars)	Total	Up to 1 Year	2-3 Years	4-5 Years	More than 5 Years
Mortgages ⁽¹⁾	\$ 1,654,728	\$ 11,598	\$ 592,257	\$ 32,056	\$ 1,018,817

Total	\$ 2,474,826	\$ 294,512	\$ 812,822	\$ 147,147	\$ 1,220,345

- (1) Includes amounts reflected in the Mortgage Notes table above. Excludes the indebtedness of our unconsolidated partnerships.
- (2) The Credit Facility has a term that expires in January 2009, with an option for us to extend the term for an additional 14 months, provided that there is no event of default at that time.
- (3) Includes quarterly dividends on preferred shares to July 31, 2007. We redeemed the preferred shares on July 31, 2007.
- (4) Includes interest.
- (5) The timing of the payment of these amounts is uncertain. We estimate that a significant portion of these amounts will be paid in the upcoming year, but situations could arise at these development and redevelopment projects that could delay the settlement of these obligations.
- (6) Represents long-term incentive compensation.

Intended Investments Related to Development and Redevelopment

We intend to invest approximately \$489.1 million over the next three years in connection with our development and redevelopment projects announced to date, excluding the Springhills (Gainesville, Florida) and Pavilion at Market East (Philadelphia, Pennsylvania) projects. See Development and Redevelopment. We also intend to invest significant additional amounts in additional development and redevelopment projects over that period. See Capital Resources above.

CASH FLOWS

Net cash provided by operating activities totaled \$69.9 million in the first six months of 2007, compared to \$75.3 million for the first six months of 2006. Net income after adjustments for non-cash revenues and expenses were \$2.4 million higher in the first six months of 2007 compared to the first six months of 2006. The increase in cash flows was also impacted by executive separation costs paid in the first six months of 2006. The increase was partially offset by greater cash flows from collections of receivables in the first six months of 2006 as compared to the first six months of 2007.

Cash flows used in investing activities were \$77.9 million in the first six months of 2007, compared to \$117.9 million in the first six months of 2006. Investment activities in the first six months of 2007 reflect investment in construction in progress of \$85.6 million and real estate improvements of \$6.1 million, both of which primarily relate to our development and redevelopment activities. Investing activities in the first six months of 2007 also include \$29.4 million in proceeds from the sale of Schuylkill Mall and land parcels at Magnolia Mall. Investing activities in the first six months of 2006 reflect the acquisition of land parcels in Gainesville, Florida (\$21.5 million) and two former Strawbridge's department stores at Cherry Hill Mall and Willow Grove Park (\$33.5 million).

Cash flows provided by financing activities were \$2.0 million in the first six months of 2007, compared to \$43.9 million in the first six months of 2006. Cash provided by financing activities for the six months ended June 30, 2007 were primarily affected by \$281.0 million raised through the sale of exchangeable senior notes and \$150.0 million of proceeds from the financing of the mortgage loan at The Mall at Prince Georges.

Edgar Filing: PENNSYLVANIA REAL ESTATE INVESTMENT TRUST - Form 10-Q

Portions of these cash flows were applied toward \$297.0 million of net Credit Facility repayment, mortgage note repayments of \$55.7 million, dividends and distributions of \$53.8 million, purchase of capped call agreements of \$12.3 million, and principal installments on mortgage notes payable of \$11.5 million. Financing activities in the first six months of 2006 included the financings of mortgage loans on Woodland Mall and Valley Mall.

Table of Contents

Cash flows generated from discontinued operations have been included within the three reporting categories above.

COMMITMENTS

At June 30, 2007, we had \$119.8 million of contractual obligations to complete current development and redevelopment projects. Total remaining costs for the particular projects with such commitments are \$396.2 million. We expect to finance these amounts through borrowings under our Credit Facility or through various other capital sources. See [Liquidity and Capital Resources](#) [Capital Resources](#).

CONTINGENT LIABILITIES

We are aware of certain environmental matters at some of our properties, including ground water contamination and the presence of asbestos containing materials. We have, in the past, performed remediation of such environmental matters, and we are not aware of any significant remaining potential liability relating to these environmental matters. We may be required in the future to perform testing relating to these matters. We have insurance coverage for certain environmental claims up to \$5.0 million per occurrence and up to \$5.0 million in the aggregate.

COMPETITION AND TENANT CREDIT RISK

Competition in the retail real estate industry is intense. We compete with other public and private retail real estate companies, including companies that own or manage malls, power centers, lifestyle centers, strip centers, factory outlet centers, theme/festival centers and community centers, as well as other commercial real estate developers and real estate owners, particularly those with properties near our properties. We compete with these companies to attract customers to our properties, as well as to attract anchor and in-line store tenants. We also compete to acquire land for new site development. Our malls and our power and strip centers face competition from similar retail centers, including more recently developed or renovated centers, that are near our retail properties. We also face competition from a variety of different retail formats, including internet retailers, discount or value retailers, home shopping networks, mail order operators, catalogs, and telemarketers. This competition could have a material adverse effect on our ability to lease space and on the level of rent that we currently receive. Our tenants face competition from companies at the same and other properties and from other retail formats as well.

Also, a significant amount of capital has and might continue to provide funding for the acquisition and development of properties that might compete with our properties. The development of competing retail properties and the related increased competition for tenants might require us to make capital improvements to properties that we would have deferred or would not have otherwise planned to make and affects the occupancy and net operating income of such properties. Any such redevelopments, undertaken individually or collectively, involve costs and expenses that could adversely affect our results of operations.

We compete with many other entities engaged in real estate investment activities for acquisitions of malls, other retail properties and other prime development sites, including institutional pension funds, other REITs and other owner-operators of retail properties. These competitors might drive up the price we must pay for properties, parcels, other assets or other companies we seek to acquire or might themselves succeed in acquiring those properties, parcels, assets or companies. In addition, our potential acquisition targets might find our competitors to be more attractive suitors if they have greater resources, are willing to pay more, or have a more compatible operating philosophy. In particular, larger REITs might enjoy significant competitive advantages that result from, among other things, a lower cost of capital, a better ability to raise capital, and enhanced operating efficiencies. Also, the number of entities, as well as the available capital resources competing for suitable investment properties or desirable development sites, have increased and might continue to increase, resulting in increased demand for these assets and therefore increased prices paid for them. We might not succeed in acquiring retail properties or development sites that we seek, or, if we pay higher prices for properties, or generate lower cash flow from an acquired property than we expect, our investment returns will be reduced, which will adversely affect the value of our securities.

We receive a substantial portion of our operating income as rent under long-term leases with tenants. At any time, any tenant having space in one or more of our properties could experience a downturn in its business that might weaken its financial condition. These tenants might defer or fail to make rental payments when due, delay lease commencement, voluntarily vacate the premises or declare bankruptcy, which could result in the termination of the tenant's lease, and could result in material losses to us and harm to our results of operations. Also, it might take time to terminate leases of underperforming or nonperforming tenants and we might incur costs to remove such tenants. Some of our tenants occupy stores at multiple locations in our portfolio, and so the effect of any bankruptcy of those tenants might be more significant to us than the bankruptcy of other tenants. In addition, under many of our leases, our tenants pay rent based on a percentage of their sales. Accordingly, declines in these tenants' sales directly affect our results of operations. Also, if tenants are unable to comply with the terms of our leases, we might modify lease terms in ways that are less favorable to us.

Table of Contents

SEASONALITY

There is seasonality in the retail real estate industry. Retail property leases often provide for the payment of a portion of rents based on a percentage of a tenant's sales over certain levels. Income from such rents is recorded only after the minimum sales levels have been met. The sales levels are often met in the fourth quarter, during the December holiday season. Also, many new and temporary leases are entered into later in the year in anticipation of the holiday season and many tenants vacate their space early in the year. As a result, our occupancy and cash flows are generally higher in the fourth quarter and lower in the first quarter, excluding the effect of ongoing redevelopment projects. Our concentration in the retail sector increases our exposure to seasonality and is expected to continue to result in a greater percentage of our cash flows being received in the fourth quarter.

INFLATION

Inflation can have many effects on financial performance. Retail property leases often provide for the payment of rents based on a percentage of sales, which may increase with inflation. Leases may also provide for tenants to bear all or a portion of operating expenses, which may reduce the impact of such increases on us. However, during times when inflation is greater than increases in rent as provided for in a lease, rent increases may not keep up with inflation.

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q for the three months ended June 30, 2007, together with other statements and information publicly disseminated by us, contain certain forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements relate to expectations, beliefs, projections, future plans, strategies, anticipated events, trends and other matters that are not historical facts. These forward-looking statements reflect our current views about future events and are subject to risks, uncertainties and changes in circumstances that might cause future events, achievements or results to differ materially from those expressed or implied by the forward-looking statements. In particular, our business might be affected by uncertainties affecting real estate businesses generally as well as the following, among other factors:

general economic, financial and political conditions, including changes in interest rates or the possibility of war or terrorist attacks;

changes in local market conditions, such as the supply of or demand for retail space, or other competitive factors;

changes in the retail industry, including consolidation and store closings;

concentration of our properties in the Mid-Atlantic region;

risks relating to development and redevelopment activities, including construction and receipt of government and tenant approvals;

our ability to effectively manage several redevelopment and development projects simultaneously, including projects involving mixed uses;

our ability to maintain and increase property occupancy and rental rates;

our dependence on our tenants' business operations and their financial stability;

increases in operating costs that cannot be passed on to tenants;

Additional factors that might cause future events, achievements or results to differ materially from those expressed or implied by our forward-looking statements include those discussed in our Annual Report on Form 10-K for the year ended December 31, 2006 and this Quarterly Report on Form 10-Q in the section entitled Item 1A. Risk Factors. We do not intend to update or revise any forward-looking statements to reflect new information, future events or otherwise.

Item 3: Quantitative and Qualitative Disclosures About Market Risk.

The analysis below presents the sensitivity of the market value of our financial instruments to selected changes in market interest rates. As of June 30, 2007, our consolidated debt portfolio consisted of \$35.0 million borrowed under our Credit Facility, which bears interest at LIBOR plus the applicable margin, \$1,674.8 million in fixed-rate mortgage notes, including \$20.1 million of mortgage debt premium, and \$287.5 million of 4.00% exchangeable senior notes due 2012.

Mortgage notes payable, which are secured by 30 of our consolidated properties, are due in installments over various terms extending to the year 2017, with fixed interest at rates ranging from 4.95% to 7.61% and a weighted average interest rate of 6.05% at June 30, 2007. Mortgage notes payable for properties owned by unconsolidated partnerships are accounted for in Investments in partnerships, at equity on the consolidated balance sheet.

Our interest rate risk is monitored using a variety of techniques. The table below presents the principal amounts of the expected annual maturities and the weighted average interest rates for the principal payments in the specified periods:

(in thousands of dollars)	Fixed-Rate Debt		Variable-Rate Debt	
	Principal Payments	Weighted Average Interest Rate ⁽¹⁾	Principal Payments	Weighted Average Interest Rate
Year Ended December 31,				
2007	\$ 11,598	6.56%		
2008	\$ 527,758	7.27%		
2009	\$ 64,449	6.01%	\$ 35,000 ⁽²⁾	6.37% ⁽³⁾
2010	\$ 15,567	5.64%		
2011	\$ 16,488	5.65%		
2012 and thereafter	\$ 1,306,316	5.47%		

(1) Based on the weighted average stated interest rate of the respective mortgages and the exchangeable senior notes as of June 30, 2007.

(2) Our Credit Facility has a term that expires in January 2009, with an additional 14 month extension option, provided that there is no event of default at that time.

(3) Based on the weighted average interest rate in effect as of June 30, 2007.

Changes in market interest rates have different impacts on the fixed and variable portions of our debt portfolio. A change in market interest rates on the fixed portion of the debt portfolio impacts the fair value, but it has no impact on interest incurred or cash flows. A change in market interest rates on the variable portion of the debt portfolio impacts the interest incurred and cash flows, but does not impact the fair value. The sensitivity analysis related to the fixed debt portfolio, which includes the effects of the forward-starting interest rate swap agreements described below, assumes an immediate 100 basis point change in interest rates from their actual June 30, 2007 levels, with all other variables held constant. A 100 basis point increase in market interest rates would result in a decrease in the net financial instrument position of \$52.3 million at June 30, 2007. A 100 basis point decrease in market interest rates would result in an increase in the net financial instrument position of \$54.2 million at June 30, 2007. Based on the variable-rate debt included in our debt portfolio as of June 30, 2007, a 100 basis point increase in interest rates would result in an additional \$0.4 million in interest annually. A 100 basis point decrease would reduce interest incurred by \$0.4 million annually. The variable rate debt included in our debt portfolio is incurred under our Credit Facility, which bears interest at LIBOR plus the applicable margin.

Edgar Filing: PENNSYLVANIA REAL ESTATE INVESTMENT TRUST - Form 10-Q

To manage interest rate risk and limit overall interest cost, we may employ interest rate swaps, options, forwards, caps and floors or a combination thereof, depending on the underlying exposure. Interest rate differentials that arise under swap contracts are recognized in interest expense over the life of the contracts. If interest rates rise, the resulting cost of funds is expected to be lower than that which would have been available if debt with matching characteristics was issued directly. Conversely, if interest rates fall, the resulting costs would be expected to be higher. We may also employ forwards or purchased options to hedge qualifying anticipated transactions. Gains and losses are deferred and recognized in net income in the same period that the underlying transaction occurs, expires or is otherwise terminated. See also Note 10 to our unaudited consolidated financial statements.

Table of Contents

As of June 30, 2007 and December 31, 2006, we had a total of 13 and 16 forward-starting interest rate swap agreements, respectively, as detailed in Note 10 to our consolidated financial statements. The swap agreements that are currently outstanding have an aggregate notional amount of \$400 million, and settle in 2008.

A forward-starting interest rate swap is an agreement that effectively hedges future base rates on debt for an established period of time. We entered into these swap agreements in order to hedge the expected interest payments associated with a portion of our anticipated future issuances of long-term debt. We assessed the effectiveness of these swaps as hedges at inception and on June 30, 2007, and consider these swaps to be highly effective cash flow hedges under SFAS No. 133. See Note 10 to our unaudited consolidated financial statements.

Because the information presented above includes only those exposures that exist as of June 30, 2007, it does not consider those changes, exposures or positions which could arise after that date. The information presented herein has limited predictive value. As a result, the ultimate realized gain or loss or expense with respect to interest rate fluctuations will depend on the exposures that arise during the period, our hedging strategies at the time and interest rates.

Item 4. Controls and Procedures.

We are committed to providing accurate and timely disclosure in satisfaction of our SEC reporting obligations. We have a Disclosure Committee to formalize our disclosure controls and procedures. Our Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of our disclosure controls and procedures as of June 30, 2007, and have concluded as follows:

Our disclosure controls and procedures are designed to ensure that the information that we are required to disclose in our reports under the Securities Exchange Act of 1934 (the Exchange Act) is recorded, processed, summarized and reported accurately and on a timely basis.

Information that we are required to disclose in our Exchange Act reports is accumulated and communicated to management as appropriate to allow timely decisions regarding required disclosure.

There was no change in our internal controls over financial reporting that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

In the normal course of business, the Company has become and might in the future become involved in legal actions relating to the ownership and operation of its properties and the properties it manages for third parties. In management's opinion, the resolution of any such pending legal actions are not expected to have a material adverse effect on the Company's consolidated financial position or results of operations.

In June 2007, the Company filed a complaint in the Circuit Court of the State of Florida alleging that the Alachua County Board of Supervisors (the County) violated provisions of Florida law in its denial of the Company's application to develop a mixed-use development project known as Springhills on Company-owned land in Alachua County, Florida. The Company acquired the approximately 540 acre site in February 2006 for \$21.5 million.

The complaint alleges that the County violated provisions of Florida's sunshine law in its consideration of the project, and that the County's stated reasons for the denial of the Company's development applications were a pretext and, in fact, resulted from the Company's refusal to accede to the County's demand for payment and construction by the Company of public transportation facilities, the need for which are not reasonably attributable to the proposed Company development, and for which there is no rational nexus or rough proportionality. Further, the complaint alleges that the North Central Regional Florida Planning Council conducted the transportation study relied upon by the County in its determination in a manner inconsistent with an agreed upon pre-application methodology.

Edgar Filing: PENNSYLVANIA REAL ESTATE INVESTMENT TRUST - Form 10-Q

The complaint requests that the County be enjoined from relying on any of the bases used as a pretext, and that the County and the regional planning commission be enjoined from relying on the transportation study. The requested relief would invalidate the denial of the Company's development application.

The ultimate disposition of this proceeding cannot be predicted and the Company is not in a position to indicate when or if the Springhills project will be constructed.

Item 1A. Risk Factors.

In addition to the other information set forth in this report, you should carefully consider the risks that could materially affect our business, financial condition or results of operations, which are discussed under the caption "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2006.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Unregistered Offerings

On June 22, 2007, we issued 15,000 common shares in return for an equal number of Class A Units tendered for redemption by a limited partner of PREIT Associates. The shares were issued under exemptions provided by Section 4(2) of the Securities Act of 1933 as transactions not involving a public offering.

Issuer Purchases of Equity Securities

The following table shows the total number of shares that we acquired in the three months ended June 30, 2007 and the average price paid per share. All of the purchases reflected in the table were pursuant to our employees' use of shares to pay the withholding taxes payable upon the exercise of options or the vesting of restricted shares. The table also shows the aggregate dollar amount of shares that may be repurchased under the Company's existing share repurchase program.

- (1) On October 31, 2005, we announced that our Board of Trustees authorized a program to repurchase up to \$100.0 million of our common shares in the open market or in privately negotiated or other transactions until the end of 2007, subject to the authority of the Board of Trustees to terminate the program earlier. There were no program repurchases during the six months ended June 30, 2007.

Item 4. Submission of Matters to a Vote of Security Holders

The 2007 Annual Meeting of Holders of Certificates of Beneficial Interest of the Company was held on May 31, 2007. At that meeting, (1) Messrs. Edward A. Glickman, Ira Lubert and George Rubin and Ms. Rosemarie Greco were reelected to the Company's Board of Trustees as Class C trustees to serve for a term ending at the Annual Meeting to be held in the spring of 2010 and until their respective successors are elected and qualified; (2) the 2008 Restricted Share Plan for Non-Employee Trustees was approved; and (3) KPMG LLP was ratified as the Company's registered public accountant for 2007. At the 2007 Annual Meeting, 31,573,839 votes were cast for Mr. Glickman, 30,421,659 votes were cast for Mr. Lubert, 30,407,485 votes were cast for Mr. George Rubin, and 31,661,760 votes were cast for Ms. Greco. Under the Company's Trust Agreement, votes cannot be cast against a candidate. The holders of 639,906 shares withheld authority to vote for Mr. Glickman, 1,792,086 shares withheld authority to vote for Mr. Lubert, 1,806,260 shares withheld authority to vote for Mr. George Rubin, and 551,985 shares withheld authority to vote for Ms. Greco. The holders of 31,872,709 shares voted for the selection of KPMG LLP as the Company's registered public accountant for 2007, 289,359 shares voted against the selection of KPMG LLP and 51,676 shares abstained from voting for or against the selection of KPMG LLP. The holders of 23,324,318 shares voted for the 2008 Restricted Share Plan for Non-Employee Trustees, 1,794,116 shares voted against the 2008 Restricted Share Plan for Non-Employee Trustees, 219,555 shares abstained from voting for or against the 2008 Restricted Share Plan for Non-Employee Trustees. There were 6,875,756 broker non-votes in connection with the approval of the 2008 Restricted Share Plan for Non-Employee Trustees.

In addition to Messrs. Glickman, Lubert and George Rubin and Ms. Greco, the continuing members of the Company's Board of Trustees following the 2007 Annual Meeting include Messrs. Cohen, Coradino, D'Alessio, Javitch, Korman, Mazziotti, Pasquerilla, Roberts and Ronald Rubin.
