COMSTOCK HOMEBUILDING COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands, except per share data)

1. ORGANIZATION AND BASIS OF PRESENTATION

Comstock Companies, Inc. (the Company) was incorporated on May 24, 2004 as a Delaware corporation. On June 30, 2004, the Company changed its name to Comstock Homebuilding Companies, Inc.

On December 17, 2004, as a result of completing its initial public offering (IPO) of its Class A common stock, the Company acquired 100% of the outstanding capital stock of Comstock Holding Company, Inc. and subsidiaries (Comstock Holdings) by merger, which followed a consolidation that took place immediately prior to the closing of the IPO (the Consolidation). The Consolidation was effected through the mergers of Sunset Investment Corp., Inc. and subsidiaries and Comstock Homes, Inc. and subsidiaries and Comstock Service Corp., Inc. and subsidiaries (Comstock Service) with and into Comstock Holdings. Pursuant to the terms of the merger agreement, shares of Comstock Holdings were canceled and replaced by 4,333 and 2,734 shares Class A and B common stock of the Company, respectively. Both Class A and B common stock shares bear the same economic rights. However, for voting purposes, Class A stock holders are entitled to one vote for each share held while Class B stock holders are entitled to fifteen votes for each share held.

The mergers of Sunset Investment Corp., Inc. and subsidiaries and Comstock Homes, Inc. and subsidiaries with and into Comstock Holdings (collectively the Comstock Companies or Predecessor) and the Company's acquisition of Comstock Holdings was accounted for using the Comstock Companies' historical carrying values of accounting as these mergers were not deemed to be substantive exchanges. The merger of Comstock Service was accounted for using the purchase method of accounting as this was deemed to be a substantive exchange due to the disparity in ownership.

Our Class A common stock is traded on the NASDAQ National market under the symbol CHCI. We have no public trading history prior to December 17, 2004.

The Company develops, builds and markets single-family homes, townhouses and condominiums in the Washington D.C., Raleigh, North Carolina and Atlanta, Georgia metropolitan markets. The Company also provides certain management and administrative support services to certain related parties.

The interim financial statements of the Company included herein have not been audited by an independent registered public accounting firm. The statements include all adjustments, including normal recurring accruals, which management considers necessary for a fair presentation of the financial position and operating results of the Company for the periods presented. The statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in conformity with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. The operating results for interim periods are not necessarily indicative of results to be expected for an entire year.

For further information, refer to the financial statements of the Company and footnotes thereto included in the annual report on Form 10-K and Form 10-K/A of the Company for the year ended December 31, 2006.

2. REAL ESTATE HELD FOR DEVELOPMENT AND SALE

Real estate held for development and sale includes land, land development costs, interest and other construction costs and is stated at cost or, when circumstances or events indicate that the real estate held for development or sale is impaired, at estimated fair value. Land, land development and indirect land development costs are accumulated by specific project and allocated to various lots or housing units within that project using specific identification and allocation based upon the relative sales value, unit or area methods. Direct construction costs are assigned to housing units based on specific identification. Construction costs primarily include direct construction costs and capitalized field overhead. Other costs are comprised of prepaid local government fees and capitalized interest and real estate taxes. Selling costs are expensed as incurred.

Edgar Filing: Comstock Homebuilding Companies, Inc. - Form 10-Q

Estimated fair value is based on comparable sales of real estate in the normal course of business under existing and anticipated market conditions. The evaluation takes into consideration the current status of the property, various restrictions, carrying costs, costs of disposition and any other circumstances, which may affect fair value including management's plans for the property. Due to the large acreage of certain land holdings, disposition in the normal course of business is expected to extend over a number of years. A write-down to estimated fair value is recorded when the net carrying value of the property exceeds its estimated discounted fair value. These evaluations are made on a property-by-property basis as seen fit by management whenever events or changes in circumstances indicate that the net book value may not be recoverable.

Table of Contents**COMSTOCK HOMEBUILDING COMPANIES, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(Amounts in thousands, except per share data)

During the second quarter of 2007, the Company experienced downward pressure on gross margins as a result of lower sales volume, reduced sales prices, increased customer concessions and extended estimates for project completion dates. As a result, the Company evaluated several projects to determine if recorded carrying amounts were recoverable. This evaluation resulted in an aggregate impairment charge of \$7,350 at six projects, with \$4,942 in the D.C. region, \$2,296 in the Atlanta region and \$112 in the North Carolina region. The impairment charge was calculated using a discounted cash flow analysis model, which is dependent on several subjective factors, including the selection of an appropriate discount rate, estimated average sales prices and estimated sales rates. The estimates used by the Company are based on the best information available at the time the estimates are made. Adverse changes to these estimates in future periods could result in additional material impairment amounts to be recorded. The following table summarizes impairment charges and write-offs for the three and six months ended June 30, 2007 and 2006:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2007	2006	2007	2006
Impairments	\$ 7,350	\$ 9,550	\$ 7,350	\$ 9,550
Write-offs	142	3,364	1,033	3,364
Total	\$ 7,492	\$ 12,914	\$ 8,383	\$ 12,914

Real estate held for development and sale consists of the following:

	June 30, 2007	December 31, 2006
Land and land development costs	\$ 160,612	\$ 232,693
Cost of construction (including capitalized interest and real estate taxes)	169,426	172,451
	\$ 330,038	\$ 405,144

3. CONSOLIDATION OF VARIABLE INTEREST ENTITIES

The Company typically acquires land for development at market prices from various entities under fixed price purchase agreements. The purchase agreements require deposits that may be forfeited if the Company fails to perform under the agreements. The deposits required under the purchase agreements are in the form of cash or letters of credit in varying amounts. The Company may, at its option, choose for any reason and at any time not to perform under these purchase agreements by delivering notice of its intent not to acquire the land under contract. The Company's sole legal obligation and economic loss for failure to perform under these purchase agreements is typically limited to the amount of the deposit pursuant to the liquidated damages provision contained within the purchase agreement. As a result, none of the creditors of any of the entities with which the Company enters into forward fixed price purchase agreements have recourse to the general credit of the Company.

The Company also does not share in an allocation of either the profit earned or loss incurred by any of these entities with which the Company has fixed price purchase agreements. The Company has concluded that whenever it options land or lots from an entity and pays a significant non-refundable deposit as described above, a variable interest entity is created under the provisions of Financial Accounting Standards Board (FASB) issued Interpretation No. 46, Consolidation of Variable Interest Entities, or FIN 46. This is because the Company has been deemed to have provided subordinated financial support, which creates a variable interest which limits the equity holder's returns and may absorb some or

Edgar Filing: Comstock Homebuilding Companies, Inc. - Form 10-Q

all of an entity's expected theoretical losses if they occur. The Company, therefore, examines the entities with which it has fixed price purchase agreements for possible consolidation by the Company under FIN 46-R. This requires the Company to compute expected losses and expected residual returns based on the probability of future cash flows as outlined in FIN 46-R. This calculation requires substantial management judgments and estimates. In addition, because the Company does not have any contractual or ownership interests in the entities with which it contracts to buy the land, the Company does not have the ability to compel these development entities to provide financial or other data to assist the Company in the performance of the primary beneficiary evaluation.

Table of Contents**COMSTOCK HOMEBUILDING COMPANIES, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(Amounts in thousands, except per share data)

The Company has evaluated all of its fixed price purchase agreements and has determined that it is the primary beneficiary of some of those entities. As a result, at June 30, 2007, the Company consolidated four entities in the accompanying consolidated balance sheets. The effect of the consolidation at June 30, 2007 was the inclusion of \$35,458 in Inventory not owned-variable interest entities with a corresponding inclusion of \$33,524 (net of land deposits paid of \$1,934) to Obligations related to inventory not owned. At December 31, 2006 the Company had consolidated nine entities in the accompanying consolidated balance sheets. The effect of the consolidation at December 31, 2006 was the inclusion of \$43,234 in Inventory not owned-variable interest entities with a corresponding inclusion of \$40,950 (net of land deposits paid of \$2,284) to Obligations related to inventory not owned. Creditors, if any, of these variable interest entities have no recourse against the Company.

During December 2006 a Company senior vice president voluntarily resigned. As part of his voluntary resignation, the former senior vice president negotiated his purchase of the remaining 30 condominium units in the Company's Countryside development for a purchase price of \$4,200. Simultaneously with the purchase, the Company entered into a marketing and sale agreement with the special purpose entity created by the former senior vice president that purchased the units (SPE), whereby the Company would bear the cost associated with marketing and selling the units and pay the SPE a monthly option payment that allows the Company to share in the revenue of the units as they settle. The monthly option payments have created a variable interest in the SPE, and as such the Company has performed an analysis under the provisions of FIN46(R) and has determined that the entity is a variable interest entity and the Company is the primary beneficiary of this entity. As a result, the Company has consolidated the SPE. At December 31, 2006 the SPE had \$3,600 of assets, which are included in Inventory not owned-variable interest entities and \$3,600 of third party debt, which is included in Obligations related to inventory not owned in the accompanying consolidated balance sheets. At June 30, 2007 substantially all of the assets of the SPE were sold and substantially all of the debt had been extinguished. Therefore, none of the remaining assets or debt is included in the accompanying June 30, 2007 consolidated balance sheet. The third party lender does not have recourse against the Company as the debt is collateralized by the units purchased by the SPE.

4. WARRANTY RESERVE

Warranty reserves for houses sold are established to cover potential costs for materials and labor with regard to warranty-type claims expected to arise during the one-year warranty period provided by the Company or within the five-year statutorily mandated structural warranty period. Since the Company subcontracts its homebuilding work, subcontractors are required to provide the Company with an indemnity and a certificate of insurance prior to receiving payments for their work. Claims relating to workmanship and materials are generally the primary responsibility of the subcontractors and product manufacturers. The warranty reserve is established at the time of closing, and is calculated based upon historical warranty cost experience and current business factors. Variables used in the calculation of the reserve, as well as the adequacy of the reserve based on the number of homes still under warranty, are reviewed on a periodic basis. Warranty claims are charged directly to the reserve as they arise. The following table is a summary of warranty reserve activity, which is included in accounts payable and accrued liabilities for the three and six months ended June 30, 2007 and 2006:

	Three Months Ended		Six Months Ended	
	June 30, 2007	June 30, 2006	June 30, 2007	June 30, 2006
Balance at beginning of period	\$ 1,692	\$ 1,310	\$ 1,669	\$ 1,206
Additions	346	514	577	814
Releases and/or charges incurred	(329)	(267)	(537)	(463)
Balance at end of period	\$ 1,709	\$ 1,557	\$ 1,709	\$ 1,557

Table of Contents**COMSTOCK HOMEBUILDING COMPANIES, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(Amounts in thousands, except per share data)

5. CAPITALIZED INTEREST AND REAL ESTATE TAXES

Interest and real estate taxes incurred relating to the development of lots and parcels are capitalized to real estate held for development and sale during the active development period, which generally commences when borrowings are used to acquire real estate assets and ends when the properties are substantially complete. Interest is capitalized based on the interest rate applicable to specific borrowings or the weighted average of the rates applicable to other borrowings during the period. Interest and real estate taxes capitalized to real estate held for development and sale are expensed as a component of cost of sales as related units are sold. The following table is a summary of interest incurred and capitalized:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2007	2006	2007	2006
Total interest incurred	\$ 7,412	\$ 6,844	\$ 13,842	\$ 11,612
Interest incurred on related party notes payable		20		40
Interest expensed as a component of cost of sales	\$ (8,557)	\$ (1,567)	\$ (12,571)	\$ (2,363)

6. LOSS PER SHARE

The following weighted average shares and share equivalents, using the treasury stock method, are used to calculate basic and diluted loss per share for the three and six months ended June 30, 2007 and 2006:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2007	2006	2007	2006
Basic loss per share				
Net loss	\$ (4,668)	\$ (7,123)	\$ (6,336)	\$ (5,884)
Basic weighted-average shares outstanding	16,095	15,034	15,992	14,511
Per share amounts	\$ (0.29)	\$ (0.47)	\$ (0.40)	\$ (0.41)
Dilutive loss per share				
Net loss	\$ (4,668)	\$ (7,123)	\$ (6,336)	\$ (5,884)
Basic weighted-average shares outstanding	16,095	15,034	15,992	14,511
Stock options and restricted stock grants				
Dilutive weighted-average shares outstanding	16,095	15,034	15,992	14,511

Edgar Filing: Comstock Homebuilding Companies, Inc. - Form 10-Q

Per share amounts	\$ (0.29)	\$ (0.47)	\$ (0.40)	\$ (0.41)
-------------------	-----------	-----------	-----------	-----------

During the three and six months ended June 30, 2007, 110,089 and 215,733 shares were excluded from the diluted shares outstanding because inclusion would have been anti-dilutive. During the three and six months ended June 30, 2006, 92,279 and 92,209 shares were excluded from the diluted shares outstanding because inclusion would have been anti-dilutive.

Comprehensive income

For the three and six months ended June 30, 2007 and 2006, comprehensive income equaled net income; therefore, a separate statement of comprehensive income is not included in the accompanying consolidated financial statements.

Table of Contents

(Amounts in thousands, except per share data)

7. INVESTMENT IN REAL ESTATE PARTNERSHIPS

In 2001, prior to the Company's acquisition of Comstock Service in December of 2004, Comstock Service had invested \$41 in North Shore Investors, LLC (North Shore) for a 50% ownership interest. North Shore was formed to acquire and develop residential lots and construct single family and townhouse units. In 2002, as a result of recognizing its share of net losses incurred by North Shore, Comstock Service reduced its investment in North Shore to \$0. The Company, as part of the acquisition of Comstock Service, recorded this investment in North Shore at \$0.

On June 28, 2005 the Company received a capital call from North Shore in the amount of \$719 so that North Shore could comply with certain debt repayments. Because the Company may have been obligated to provide future financial support to cover certain debt repayments, the Company continued recording its share of losses incurred by North Shore through December 31, 2006 in the amount of (\$171).

During the third quarter of 2005, the Company, as manager of an affiliated entity, exercised its option rights to purchase the project acquisition, development and construction loan made for the benefit of North Shore. The Company finalized the purchase of the loans on or about September 8, 2005 and issued a notice of default under the acquisition and development loan at maturity on September 30, 2005. The Company then filed suit for collection of the loans against one of the individual guarantors under the loan on or about October 21, 2005 and initiated foreclosure proceedings on or about November 18, 2005. On or about December 22, 2005, the individual guarantor subject to the earlier suit filed a countersuit against two of the officers of the Company who were also individual guarantors under the acquisition and development loan. The Company has agreed to indemnify these officers.

The Company, as manager of an affiliated entity, set and held a foreclosure sale on March 24, 2006 in which it was the highest bidder. However, transfer of title to the property was delayed pending judicial resolution of a suit filed on March 24, 2006 by the non-affiliated 50% owner of North Shore. On June 30, 2006, the Company, on its own behalf and on behalf of affiliates, filed an additional lawsuit expanding the number of party defendants, demanding equitable relief and demanding \$33,000 in damages.

On April 10, 2007, the parties executed a settlement agreement whereby a company associated with the non-affiliated 50% owner of the North Shore project purchased the Company's development rights to North Shore for approximately \$3,750 to settle all claims against the Company and its investors. All litigation has been dismissed with prejudice and the Company received the proceeds from the settlement in April 2007. As a result of the settlement, the three months ended March 31, 2007, the Company recorded a charge of approximately \$357 to write off its investment in North Shore and reduce amounts due from North Shore to the net realizable value. During the three months ended June 30, 2007, additional costs of \$132 related to the North Shore settlement were incurred and written off. These charges are included in the accompanying consolidated statements of operations as a component of impairments and write-offs. No additional costs related to the North Shore settlement are expected to be incurred.

(Amounts in thousands, except per share data)

8. ACQUISITIONS

On January 19, 2006, the Company acquired all of the issued and outstanding capital stock of Parker Chandler Homes, Inc., a homebuilder in the Atlanta, Georgia metropolitan market, for a cash purchase price of \$10,400 (including transaction costs) and the assumption of \$63,800 in liabilities. The results of Parker Chandler Homes are included in the accompanying financial statements from the period January 19, 2006 to June 30, 2007. The Company accounted for this transaction in accordance with Statement of Financial Accounting Standard No. 141, Business Combinations or SFAS 141. Approximately \$700 of the purchase price was allocated to intangibles with a weighted average life of 4.6 years. The intangibles are related to the Parker Chandler trade name, employment and non-compete agreements entered into with certain selling shareholders. The remainder of the purchase price was allocated to real estate held for development and sale and land option agreements. There was no goodwill recorded.

On May 5, 2006, the Company acquired all of the issued and outstanding capital stock of Capitol Homes, Inc., a homebuilder in North Carolina, for a cash purchase price of \$7,500 (including transaction costs) and the assumption of \$20,600 in liabilities. The results of Capitol Homes are included in the accompanying consolidated financial statements from the period May 5, 2006 to June 30, 2007. The Company accounted for this transaction in accordance with SFAS 141. Approximately \$251 of the purchase price was allocated to intangibles with a weighted average life of 2.7 years. The intangibles are related to the Capitol Homes trade name, employment and non-compete agreements entered into with certain selling shareholders. The remainder of the purchase price was allocated to real estate held for development for sale and land option agreements. There was no goodwill associated with the transaction.

Subsequent to each acquisition, as a result of the Company releasing the restrictive terms under the employment and non-complete agreements and the decision to no longer to use the respective trade names, all amounts assigned to intangibles were written off during the fourth quarter of 2006.

9. INCOME TAX

The Company's income tax (benefit) expense consists of the following as of:

	Three months ended		Six months ended	
	June 30, 2007	2006	June 30, 2007	2006
Current:				
Federal	\$ (2,678)	\$ 38	\$ (4,168)	\$ 840
State	(500)	8	(777)	158
Deferred:				
Federal	160	(3,856)	800	(4,026)
State	30	(712)	151	(743)
Other:				
Tax shortfall related to the vesting of certain equity awards	62		198	
Total income tax benefit	\$ (2,926)	\$ (4,522)	\$ (3,796)	\$ (3,771)

Table of Contents**COMSTOCK HOMEBUILDING COMPANIES, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(Amounts in thousands, except per share data)

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Components of the Company's deferred tax assets and liabilities at June 30, 2007 and December 31, 2006 were as follows:

	June 30, 2007	December 31, 2006
Deferred Tax Assets:		
Inventory	\$ 8,256	\$ 9,642
Warranty	628	612
Investments in affiliates	25	25
Accrued expenses	370	1,213
Stock-based compensation	1,389	762
	10,668	12,254
Less valuation allowance		(470)
Net deferred tax assets	10,668	11,784
Deferred Tax Liabilities:		
Depreciation and amortization	(1,160)	(1,596)
Net deferred tax liabilities	(1,160)	(1,596)
Net deferred tax assets	\$ 9,508	\$ 10,188

In June 2006, the Financial Accounting Standards Board issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in accordance with SFAS No. 109, *Accounting for Income Taxes*, and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return.

Prior to the adoption of FIN 48, the Company provided for contingencies related to income taxes in accordance with SFAS No. 5. At December 31, 2006, the Company recorded \$1,194 in income tax reserves. This tax reserve relates to a potential dispute by taxing authorities over tax benefits resulting from additional income tax basis in certain residential housing development projects. The Company recorded a valuation allowance of approximately \$470 as of December 31, 2006, related to a deferred tax asset resulting from additional tax basis in residential real estate development projects. In analyzing the need for the provision of tax contingency reserves and the valuation allowance, management reviewed applicable statutes, rules, regulations and interpretations and established these reserves based on past experiences and judgments about potential actions by taxing jurisdictions. In January 2007, upon the adoption of FIN 48, the Company recorded a benefit to the opening retained accumulated deficit in the amount of \$1,663. The Company's federal income tax returns for 2004 through 2006 are open tax years. The Company files in various state and local jurisdictions, with varying statutes of limitation.

10. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities consist of the following:

Edgar Filing: Comstock Homebuilding Companies, Inc. - Form 10-Q

	June 30, 2007	December 31, 2006
Trade payables	\$ 19,709	\$ 32,990
Warranty	1,709	1,669
Customer deposits	11,939	14,932
Other	2,556	6,089
Total	\$ 35,913	\$ 55,680

11. STOCK REPURCHASE PROGRAM

In February 2006 the Company's Board of Directors authorized the Company to purchase up to one million shares of the Company's Class A common stock in the open market or in privately negotiated transactions. The authorization did not include a specified time period in which the share repurchase program would remain in effect. During the three months ended June 30, 2006, the Company repurchased an aggregate of 188,100 shares of Class A common stock for a total of \$1,187 or \$6.31 per share. For the six months ended June 30, 2006, the Company repurchased an aggregate of 258,400 shares of Class A common stock for a total of \$1,865 or \$7.22 per share. There were no shares repurchased for the six months ended June 30, 2007 and the Company is currently subject to certain restrictive debt covenants which prohibit it from purchasing additional shares under the existing authorization.

Table of Contents**COMSTOCK HOMEBUILDING COMPANIES, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(Amounts in thousands, except per share data)

12. COMMITMENTS AND CONTINGENCIES**Litigation**

The Company, as manager of an affiliated entity, exercised its option rights to purchase the project acquisition, development and construction loans made for the benefit of North Shore. The Company subsequently issued a notice of default under the acquisition and development loan at maturity on September 30, 2005, thereafter filed suit for collection of the loans against one of the individual guarantors under the loan on or about October 21, 2005. The Company, as manager of an affiliated entity, set and held a foreclosure sale on March 24, 2006 in which it was the high bidder. However, transfer of title to the property has been delayed pending judicial resolution of a suit filed on March 24, 2006 by the non-affiliated 50% owner of North Shore. On June 30, 2006, the Company, on its own behalf and on behalf of affiliates, filed an additional lawsuit expanding the number of party defendants, demanding equitable relief and demanding \$33,000 in damages.

On April 10, 2007, the parties executed a settlement agreement whereby a company associated with the non-affiliated 50% owner of the North Shore project purchased the Company's rights to North Shore for approximately \$3,750 to settle all claims against the Company and its investors. All litigation has been dismissed with prejudice and the Company received the proceeds from the settlement in April 2007.

On August 11, 2005, the Company was served with a motion to compel arbitration resulting from an allegation of a loan brokerage fee being owed for placement of a \$147,000 project loan for the Eclipse at Potomac Yard project. The claim in the base amount of \$2,000 plus interest and costs is based on breach of contract and equitable remedies of unjust enrichment and quantum meruit. In February 2007 the Company received a ruling by a panel of arbiters to pay \$3,000 under these claims. The Company has posted a cash bond and filed an appeal which is pending.

Other than the foregoing, we are not currently subject to any material legal proceedings. From time to time, however, we are named as a defendant in legal actions arising from our normal business activities. Although we cannot accurately predict the amount of our liability, if any, that could arise with respect to legal actions currently pending against us, we do not expect that any such liability will have a material adverse effect on our financial position, operating results or cash flows. We believe that we have obtained adequate insurance coverage or rights to indemnification, or where appropriate, have established reserves in connection with these legal proceedings.

Letters of credit and performance bonds

The Company has commitments as a result of contracts entered into with certain third parties to meet certain performance criteria as outlined in such contracts. The Company is required to issue letters of credit and performance bonds to these third parties as a way of ensuring that such commitments entered into are met by the Company. At June 30, 2007, the Company has outstanding \$2,030 in letters of credit and \$15,855 in performance and payment bonds to these third parties.

Operating leases

The Company leases office space under non-cancelable operating leases. Minimum annual lease payments under these leases at June 30, 2007 approximate:

Year Ended:	Amount
2007	\$ 1,127
2008	935
2009	975
2010	875
2011	564

Edgar Filing: Comstock Homebuilding Companies, Inc. - Form 10-Q

Thereafter

Operating lease rental expense aggregated \$557 and \$514, respectively, for six months ended June 30, 2007 and 2006.

13. RELATED PARTY TRANSACTIONS

In April 2002 and January 2004, the Predecessor entered into lease agreements for approximately 7.7 and 8.8 square feet, respectively, for its corporate headquarters at 11465 Sunset Hills Road, Reston, Virginia from Comstock Partners, L.C., an affiliate of our Predecessor in which executive officers of the Company, Christopher Clemente, Gregory Benson, and others are principals. Christopher Clemente owns a 45% interest, Gregory Benson owns a 5% interest, an entity which is owned or controlled by Christopher Clemente's father-in-law owns a 45% interest, and an unrelated third party owns a 5% interest in Comstock Partners. On September 30, 2004, the lease agreements were canceled and replaced with new leases for a total of 20.6 square feet with Comstock Asset Management, L.C., an entity wholly owned by Christopher Clemente. Total payments made under this lease agreement were \$142 as of December 31, 2004. On August 1, 2005, the lease agreement was amended for an additional 8.4 square feet. On March 31, 2007 the lease agreement was amended decreasing the total square footage from 29.0 to 24.1 and extending the term for two additional years. For the three months ended June 30, 2007 and 2006, total payments made under this lease agreement were \$192 and \$188, respectively. During the six months ended June 30, 2007 and 2006 total payments were \$386 and \$373, respectively.

In May 2003, the Predecessor hired a construction company, in which Christopher Clemente's brother serves as the President and is a significant shareholder, to provide construction services and act as a general contractor at the Company's Belmont Bay developments. For the three months ended June 30, 2007 and 2006 total payments made to the construction company were \$423 and \$1,252, respectively. During the six months ended June 30, 2007 and 2006 total payments were \$2,320 and \$2,000, respectively.

During 2003, the Predecessor entered into agreements with I-Connect, L.C., a company in which Investors Management, LLC, an entity wholly owned by Gregory Benson, holds a 25% interest, for information technology consulting services and the right to use certain customized enterprise software developed with input from the Company. The intellectual property rights associated with the software solution developed by I-Connect, along with any improvements made thereto by the Company, remain the property of I-Connect. For three months ended June 30, 2007 and 2006, the Company paid \$134 and \$161, respectively. During the six months ended June 30, 2007 and 2006, the Company paid \$340 and \$256, respectively, to I-Connect.

In October 2004, the Predecessor entered into an agreement with Comstock Asset Management, L.C. (CAM), where CAM assigned the Company first refusal rights to purchase a portion of their Loudoun Station Properties. In partial consideration for the performance of which the Company would provide management services for a fee of \$20 per month. This agreement was terminated effective December 31, 2006. For the three months ended June 30, 2007 and 2006 the Company recorded \$0 and \$60 in revenue, respectively. During the six months ended June 30, 2007 and 2006 the Company recorded \$0 and \$120 in revenue, respectively, from this entity.

In addition, the Company, in November 2004, entered into an agreement with Comstock Asset Management (CAM) to sell certain retail condominium units at Potomac Yard for a total purchase price of \$14,500. In connection with this sale, the Company received a non-refundable deposit of \$8,000 upon execution of the agreement. The agreement was modified in 2005, which reduced the deposit amount to \$6,000. During the year ended December 31, 2006, the Company incurred \$579 in costs associated with the retail units and recorded a receivable of \$377 which is reimbursable by CAM and still outstanding as of June 30, 2007.

During the six months ended June 30, 2007 and 2006, the Company entered into sales contracts to sell homes to certain employees of the Company. The Company, in order to attract, retain, and motivate employees maintains a home ownership benefit program. Under the home ownership benefits, an employee receives certain cost benefits provided by us when purchasing a home or having one built by us. Sales of homes to employees for investment purposes are conducted at market prices.

In September 2005, Comstock Foundation, Inc., was created. Comstock Foundation is a not-for-profit organization organized exclusively for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code and is an affiliate of the Company. The affairs of Comstock Foundation are managed by a five-person board of directors with Christopher Clemente, Gregory Benson, Bruce Labovitz and Tracy Schar (employee of the Company and spouse of Christopher Clemente) being four of the five. The Company also provides bookkeeping services to Comstock Foundation at no charge. During the six months ended June 30, 2007 and 2006 the Company donated \$0 and \$25, respectively, to

Comstock Foundation.

14. SEGMENT REPORTING

Statement of Financial Accounting Standards No. 131, *Disclosures about Segments of an Enterprise and Related Information* (SFAS 131) establishes standards for the manner in which companies report information about operating segments. The Company determined it provides one single type of business activity, homebuilding, which operates in multiple geographic or economic environments. In addition, as a result of the Company's acquisitions in Georgia and North Carolina, which became fully integrated in the fourth quarter of 2006, the Company modified how it analyzes its business during the fourth quarter of 2006. As such, the Company has determined that its homebuilding operations now primarily involve three reportable geographic segments: Washington DC Metropolitan Area, North Carolina, and Georgia. The aggregation criteria are based on the similar economic characteristics of the projects located in each of these regions.

The table below summarizes revenue and income taxes for each of the Company's geographic segments (amounts in thousands):

	Three Months Ended		Six Months Ended	
	June 30, 2007	2006	June 30, 2007	2006
Revenues:				
Washington DC Metropolitan Area	\$ 93,529	\$ 39,330	\$ 127,391	\$ 69,199
North Carolina	11,443	8,413	20,032	10,404
Georgia	9,328	2,954	13,600	7,689
Total	\$ 114,300	\$ 50,697	\$ 161,023	\$ 87,292
Operating income (loss)				
Washington DC Metropolitan Area	\$ 581	\$ (26)	\$ 3,776	\$ 6,688
North Carolina	(646)	(1,868)	(835)	(2,110)
Georgia	(3,859)	(5,297)	(5,375)	(5,806)
Segment operating loss	(3,924)	(7,191)	(2,434)	(1,228)
Corporate expenses unallocated	3,975	4,771	8,349	8,956
Total operating loss	(7,899)	(11,962)	(10,783)	(10,184)
Other income	302	355	646	587
Equity loss		(26)		(53)
Minority interest (income) expense	(3)	12	(5)	5
Loss before income taxes	\$ (7,594)	\$ (11,645)	\$ (10,132)	\$ (9,655)

Corporate expenses unallocated and other income is comprised principally of general corporate expenses such as the offices of the Chief Executive Officer and President, and the corporate finance, accounting, audit, tax, human resources, marketing and legal groups, offset in part by interest income.

The table below summarizes total assets for each of the Company's segments at June 30, 2007 and December 31, 2006:

Edgar Filing: Comstock Homebuilding Companies, Inc. - Form 10-Q

	June 30, 2007	December 31, 2006
Total Assets		
Washington DC Metropolitan Area	\$ 242,787	\$ 317,349
North Carolina	52,694	61,617
Georgia	85,019	94,133
Corporate	42,184	44,330

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands, except per share data)

15. NOTES PAYABLE, DEBT AND COVENANTS

On May 26, 2006 we entered into a \$40 million Secured Revolving Borrowing Base Credit Facility with Wachovia Bank for the financing of entitled land, land under development, construction and letters of credit. All letters of credit issued will also be secured by collateral in the facility. Funding availability will be limited to compliance with a borrowing base and facility covenants. As of June 30, 2007, \$29.6 million was outstanding with this facility. In February 2007 we entered into a Forbearance Agreement with the lender which reduced the covenants and eliminated the ability of the lender to claim an event of default as a result of non-compliance with the financial covenants of the original loan. The Forbearance Agreement runs through March 2008.

On May 4, 2006 we closed on a \$30 million Junior Subordinated Note offering. The term of the note was thirty years but it could be retired after five years with no penalty. The rate was fixed at 9.72% for the first five years and LIBOR plus 420 basis points for the remaining twenty-five years. In March 2007 we retired the Junior Subordinated Note with no penalty and entered into a 10-year, \$30 million Senior Unsecured Note offering with the same lender at the same interest rate. In connection with the new notes, the lender loosened the financial covenants through September 30, 2007 and permanently modified the underlying definitions used to calculate the covenants. We believe that we are currently in compliance with all covenants associated with the new notes.

As of June 30, 2007, we had \$7.8 million outstanding to Key Bank in two secured facilities. Under the terms of the original loan agreements we are required to maintain certain financial covenants. In May 2007 we entered into loan modification agreements which extended the maturities and waived certain key financial covenants until March 31, 2008. We believe we are currently in compliance with all remaining covenants associated with these loans.

As of June 30, 2007 we had \$10.2 million outstanding to M&T Bank. Under the terms of the original loan agreements we were required to maintain certain financial covenants. In March 2007 we entered into loan modification agreements lowering the minimum interest coverage ratio and the minimum tangible net worth covenants. We believe we are currently in compliance with all covenants associated with these loans.

In December 2005 the Company entered into a \$147 million secured, limited recourse loan with Corus Bank related to our Eclipse project. Under the terms of the loan there is a single deed of trust covering two loan tranches. The two tranches have varying interest rates with Tranche A at LIBOR plus 375 basis points and Tranche B fixed at 16.0%. In April 2007 the loan maturity was extended to January 2008 and provided a mechanism for reallocation of Tranche B into Tranche A. At June 30, 2007 our outstanding balance under this loan was \$57.1 million. There are no financial covenants associated with this loan.

In February 2007 we entered into a \$28 million secured, three-year limited recourse loan with Guggenheim Capital Partners related to our Penderbrook project. Under the terms of the loan the borrower (Comstock Penderbrook, LLC) distributed \$11.0 million of the proceeds to the Company and established a \$2.0 million cash interest escrow to provide for interest costs in excess of the net operating income being generated by the temporary rental operations at the project. The loan bears an interest rate of LIBOR plus 500 basis points. Under the terms of the loan there are two tranches, Tranche A at three month LIBOR plus 400 basis points and Tranche B at three month LIBOR plus 600 basis points. As of June 30, 2007, our outstanding balance under the loan was \$22.9 million. There are no financial covenants associated with this loan.

On May 31, 2007 we entered into \$4.5 million secured revolving credit facility with First Charter Bank. The loan matures on June 10, 2008 bearing an interest rate of Prime Rate plus 0.25% per annum. As of June 30, 2007, we had \$0.7 million outstanding on the loan. There are no financial covenants associated with this loan.

At June 30, 2007 we had approximately \$8.6 million outstanding with Regions Bank under five separate secured master loan agreements. The loans carried varying maturities starting December 2007. There are no financial covenants associated with this loan.

On June 28, 2007 the Company entered into various loan modification agreements with Bank of America securing the remaining \$5.0 million balance of the unsecured revolver, modifying the curtailment schedule of the unsecured revolver and extending the maturities of the Atlanta debt facilities. There are no financial covenants associated with this loan.

16. RESTRICTED STOCK, STOCK OPTIONS AND OTHER STOCK PLANS

The Company accounts for its stock-based compensation arrangements in accordance with the provisions of SFAS No. 123(R) entitled Share-Based Payment, under which the Company recognizes compensation expense of a stock-based award over the vesting period based on the fair value of the award on the grant date. The fair value of stock options granted is calculated under the Black-Scholes option-pricing model. The following information represents the Company's grants of stock-based compensation to employees prior to recognition of estimated forfeitures.

During the three months ended March 31, 2007, the Company issued 108,566 restricted stock awards with a fair value of \$440 that vest over three years. During the three months ended June 30, 2007, the Company issued 351,000 restricted stock awards with a fair value of \$1,474 that vest over three years.

At December 31, 2006, the Company accrued a liability for employee incentive compensation awards for 2006 performance intended to be settled in cash in 2007. Due to market conditions, the Company elected to issue restricted stock awards in lieu of cash in settlement of the incentive compensation obligations. As a result, the Company granted, and charged to the incentive compensation accrual, 142,497 restricted stock awards with a fair value of \$698 during the three months ended March 31, 2007 and an additional 293,725 restricted stock awards with a fair value of \$1,439 were granted and charged to the incentive compensation accrual during the three months ended June 30, 2007.

No stock options were granted during the six months ended June 30, 2007.

MANAGEMENTS DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS

ITEM 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
FORWARD-LOOKING STATEMENTS AND FACTORS THAT MAY AFFECT RESULTS

The following discussion of our financial condition and results of operations should be read in conjunction with the accompanying unaudited consolidated interim financial statements and the notes thereto appearing elsewhere in the this report and our audited consolidated and combined financial statements and the notes thereto for the year ended December 31, 2006, appearing in our Annual Report on Form 10-K and Form 10-K/A for the year then ended (the 2006 Form 10-K).

This report includes forward-looking statements that are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by the use of words such as anticipate, believe, estimate, may, intend, expect, will, should, seeks or other similar expressions. Forward-looking statements are based largely on our expectations and involve inherent risks and uncertainties, many of which are beyond our control. You should not place undue reliance on any forward-looking statement, which speaks only as of the date made. Some factors which may affect the accuracy of the forward-looking statements apply generally to the real estate industry, while other factors apply directly to us. Any number of important factors which could cause actual results to differ materially from those in the forward-looking statements include, without limitation: general economic and market conditions, including interest rate levels; our ability to service our substantial debt; inherent risks in investment in real estate; our ability to compete in the Washington, D.C., Raleigh, North Carolina and Atlanta, Georgia real estate and home building markets; regulatory actions; fluctuations in operating results; our anticipated growth strategies; shortages and increased costs of labor or building materials; the availability and cost of land in desirable areas; natural disasters; our ability to raise debt and equity capital and grow our operations on a profitable basis; and our continuing relationships with affiliates. Additional information concerning these and other important risk and uncertainties can be found under the heading Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2006. Our actual results could differ materially from these projected or suggested by the forward-looking statements.

Overview

We engage in the business of residential land development, production home building, high-rise condominium development, condominium conversion and land sales in the greater Washington, D.C., Raleigh, North Carolina, and Atlanta, Georgia markets. Our business was founded in 1985 by Christopher Clemente, our Chief Executive Officer, as a residential land developer and home builder focused on the luxury home market in the Northern Virginia suburbs of Washington, D.C. In 1992, we repositioned ourselves as a production home builder focused on moderately priced homes in areas where we could more readily purchase finished building lots through option contracts. In the late 1990s we diversified our product base to include multiple product types and home designs and we rebuilt our in-house land development department to include significant experience in both land development operations and land entitlement expertise. In 1997 we entered the Raleigh, North Carolina market. In 2005 we became involved in the business of converting existing rental apartment properties to for-sale condominium projects. In 2006, we entered the Charlotte, North Carolina, Myrtle Beach, South Carolina and Atlanta, Georgia markets through the acquisition of Parker Chandler Homes, Inc. In late 2006 we exited the Myrtle Beach, South Carolina market and in early 2007 we exited the Charlotte, North Carolina market.

Our general business strategy is to focus on for-sale residential real estate development opportunities in the southeastern United States that afford us the ability to produce products at price points where we believe there is significant and consistent long-term demand for new housing. We believe the housing industry is cyclical in nature. We recognize that current market conditions are extremely challenging. Accordingly, we have adapted our business plan and strategy with the goal of protecting liquidity, enhancing our balance sheet and positioning the Company for future growth when market conditions improve. In order to protect our liquidity we have adopted a conservative approach to land acquisition and investment and have taken a patient approach with respect to market expansion. We believe that by doing so we are enhancing our ability to take advantage of attractive real estate investment opportunities in our core markets as market conditions improve. At June 30, 2007, we either owned or controlled under option agreements approximately 4,300 building lots.

The following tables summarize certain information related to new orders, settlements, and backlog for the three and six month period ended June 30, 2007 and 2006:

COMSTOCK HOMEBUILDING COMPANIES, INC. AND SUBSIDIARIES
MANAGEMENTS DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS

Results of Operations

Three and six months ended June 30, 2007 compared to three and six months ended June 30, 2006

Orders, cancellations and backlog

Gross new order revenue for the three months ended June 30, 2007 increased \$32.8 million, or 49.4%, to \$99.1 million on 494 homes, as compared to \$66.3 million on 233 homes for the three months ended June 30, 2006. For the six months ended June 30, 2007, gross new orders increased \$1.1 million, or 1.0% to \$143.0 million on 639 homes, as compared to \$141.9 million on 462 homes for the six months ended June 30, 2006. The increase in new home orders for the three and six months ended June 30, 2007 is due to the sale and settlement of 316 units at the Bellemeade condominium project in June 2007. Net of the Bellemeade sale, an overall decrease in new orders is attributable to weaker market conditions in which we are experiencing reduced demand throughout our markets and the fact that we had fewer lower priced units for sale at our Eclipse project in 2007 as compared to 2006.

The Company's average gross sales price per new order for the three months ended June 30, 2007 decreased by \$84,000 to \$201,000, as compared to \$285,000 for the same period in 2006. The average sales price per gross new order for the six months ended June 30, 2007 decreased \$83,000 to \$224,000, as compared to \$307,000 for the six months ended June 30, 2006. Excluding the zero margin Bellemeade sale, average gross new order revenue for the three and six months ended June 30, 2007 increased by \$5,000 to \$290,000 and decreased by \$11,000 to \$296,000, respectively.

For the three months ended June 30, 2007 the Company experienced 33 unit cancellations totaling \$13.2 million as compared to 34 units totaling \$10.3 million for the comparable period in 2006. Cancellations were most prevalent in the greater Washington, DC market where we experienced 22 cancellations. At the Eclipse project, in the Washington, DC market, the Company experienced 14 cancellations which were mostly related to contracts entered into in 2004. The Company expects to continue to experience additional cancellations at the Eclipse as settlements continue in the project's East tower.

Our backlog at June 30, 2007 decreased \$125.6 million, or 57.5%, to \$92.8 million on 241 homes, as compared to our backlog at June 30, 2006 of \$218.4 million on 575 homes. The decrease in backlog is primarily due to the commencement of deliveries at the Eclipse in November 2006 and a softening market which has limited our ability to replace settlements with new orders. Our backlog at June 30, 2007 includes 124 units totaling \$57.6 million at our Eclipse project.

Revenues

Homebuilding revenues increased by \$59.9 million, or 119.1%, to \$110.3 million for the three months ended June 30, 2007, as compared to \$50.4 million for the three months ended June 30, 2006. Homebuilding revenues increased by \$66.6 million, or 76.8%, to \$153.3 million for the six months ended June 30, 2007, as compared to \$86.7 million for the six months ended June 30, 2006. The number of homes delivered for the three months ended June 30, 2007 increased by 206.1% to 505 from 165 homes for the three months ended June 30, 2006. The number of homes delivered for the six months ended June 30, 2007, increased by 129.6% to 636 from 277 homes for the six months ended June 30, 2006. The increase in deliveries and revenues for the three and six month ended June 30, 2007 is primarily attributable to 316 units representing \$47.5 million in revenue related to the bulk sale of the Company's Bellemeade condominium conversion project. In connection with the sale, the Company purchased 58 units previously settled, dissolved the condominium and then delivered the project in its entirety to a rental operator during June 2007. Excluding the sale of Bellemeade, the increase in the number of units delivered during the three and six months ended June 30, 2007 is attributable to the company's Eclipse project which delivered 130 units and generated \$53.4 million in revenue during the six months ended June 30, 2007 as compared to no settlements in the six months ended June 30, 2006.

Including the Bellemeade transaction, average revenue per home delivered decreased by approximately \$87,000 to \$218,000 for the three months ended June 30, 2007, as compared to \$305,000 for the three months ended June 30, 2006. Average revenue per home delivered decreased by approximately \$72,000 to \$241,000 for the six months ended June 30, 2007, as compared to \$313,000 for the six months ended June 30, 2006. Excluding the 316 unit bulk sale of the Bellemeade project, average revenue per home delivered increased by \$27,000 and \$19,000 to approximately \$332,000 for both the three and six months ended June 30, 2007 as compared to \$305,000 and \$313,000 for the

Edgar Filing: Comstock Homebuilding Companies, Inc. - Form 10-Q

comparable periods in 2006. This increase in average revenue per home is due primarily to the settlements at the Company's Eclipse project.

Table of Contents

COMSTOCK HOMEBUILDING COMPANIES, INC. AND SUBSIDIARIES
MANAGEMENTS DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS

Other Revenue

Other revenue for the three months ended June 30, 2007 increased by \$3.6 million to \$3.9 million, as compared to \$346,000 for the three months ended June 30, 2006. For the six months ended June 30, 2007 other revenue increased by \$7.1 million to \$7.7 million, as compared to \$576,000 for the six months ended June 30, 2006. Other revenue for the three and six months ended June 30, 2007 consists of lot sales made to third parties and revenue associated with the Company's Settlement Title Services division. The net increase is attributable to \$7.1 million of revenue recognized on the sale of 110 finished lots at our Massey Preserve project in North Carolina in March and June of 2007. The Company considers revenue to be from homebuilding when there is a structure which is either partially or completely built on the lot when it is delivered. Sales of lots occur and are included in other revenues when the Company sells raw land or finished home sites in advance of any substantial home construction.

Cost of sales and cost of sales other

Cost of sales for the three months ended June 30, 2007 increased \$61.6 million to \$102.9 million, or 90.0% of homebuilding revenue, as compared to \$41.3 million, or 81.9% of revenue, for the three months ended June 30, 2006. For the six months ended June 30, 2007 cost of sales increased \$71.2 million to \$139.7 million, or 86.8% of revenue, as compared to \$68.5 million or 79.0% of revenue for the six months ended June 30, 2006. The \$61.6 million and \$71.2 million increase in cost of sales for the three and six months ended June 30, 2007, respectively, is primarily due to both the June 2007 Bellemeade sale and the commencement of Eclipse settlements. The increases in cost of sales as a percentage of revenue for the three and six months ended June 30, 2007, respectively, is principally the result of the zero margin sale of Bellemeade, continuing pricing concessions and increases in material and labor costs. Excluding the Bellemeade sale, gross margin for the three months ended June 30, 2007 was 11.9%. The gross margin at the Eclipse for the three months ended June 30, 2007 was 20.7%. Due to weakening market conditions, we have also extended the sales cycle of many of our projects, which in turn has increased the cost per unit by increasing the amount of real estate tax, interest and capitalized overhead. Due to the factors stated above, the Company expects cost of sales as a percentage of revenue to continue to face additional upward pressure until general market conditions improve, new inventory is acquired or impaired land inventory is delivered.

Cost of sales other for the three and six months ended June 30, 2007 was \$3.7 million and \$7.3 million as compared to \$21,000 and \$30,000 for the three and six months ended June 30, 2006. Cost of sales other for the three and six months ended June 30, 2007 primarily includes land cost associated with lot sales at Massey Preserve where the Company sold 110 finished lots to a third party.

Impairments and write-offs

As discussed in Note 2 in the accompanying notes to the financial statements, the Company recorded impairment and write-off charges of \$7.5 million and \$12.9 million for the three months ended June 30, 2007 and 2006, respectively. For the six months ended June 30, 2007 and June 30, 2006 the Company recorded impairment and write-off charges of \$8.4 million and \$12.9 million, respectively. Impairment charges for the three months ended June 30, 2007 include condominiums, townhouses and single family homes projects located in the Company's Virginia (\$4.9 million), North Carolina (\$112,000) and Georgia (\$2.3 million) markets. Based on management's assessment of current market conditions and estimates for the future, the Company believes there are no additional impairments warranted at this time. However, if market conditions deteriorate or actual costs are higher than budgeted, the Company would be required to re-evaluate the recoverability of its real estate held for development and sale and may incur additional impairment charges. Included in write-offs, as discussed in Note 7 in the accompanying notes to the financial statements, during the three months ended March 31, 2007, the Company recorded a charge of approximately \$357 to write off its investment in North Shore and reduce amounts due from North Shore to the net realizable value. During the three months ended June 30, 2007, additional costs of \$132 related to the North Shore settlement were incurred and written off. No additional costs related to the North Shore settlement are expected to be incurred.

Selling, general and administrative

Selling, general and administrative cost as a percentage of total revenue was 7.1% for the three months ended June 30, 2007, as compared to 16.6% of total revenue for the three months ended June 30, 2006 and 10.1% of total revenue for the six months ended June 30, 2007 as compared to 18.4% of total revenue for the six months ended June 30, 2006. The decrease, as a percentage of total revenue, was the result of

Edgar Filing: Comstock Homebuilding Companies, Inc. - Form 10-Q

cost reductions generated by management's cost reduction initiatives and increased revenue from the sale of Bellemeade and settlements at the Eclipse. Adjusted for the sale of Bellemeade, SG&A, as a percentage of total revenue, was 12.2% and 14.4% for the three and six months ended June 30, 2007. This effort includes staff reductions, reduced rents on our corporate office, reductions in marketing and a general effort to reduce other general and administrative expenses.

Table of Contents

COMSTOCK HOMEBUILDING COMPANIES, INC. AND SUBSIDIARIES
MANAGEMENTS DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS

Operating (loss)

Operating loss for the three months ended June 30, 2007 decreased by \$4.1 million to an operating loss of \$7.9 million, as compared to an operating loss of \$12.0 million for the three months ended June 30, 2006. Operating margin for the three months ended June 30, 2007, was (6.9%), as compared to (23.6%) for the three months ended June 30, 2006. The operating loss for the six months ended June 30, 2007 decreased by \$600,000 to an operating loss of \$10.8 million, as compared to an operating loss of \$10.2 million for the six months ended June 30, 2006. Operating margin for the six months ended June 30, 2007, was (6.7%), as compared to (11.7%) for the six months ended June 30, 2006. The 16.7 and 5.0 percentage point improvement in operating margins for the three and six months ended June 30, 2007 are attributable to increasing gross profit margins on the units settled at the Eclipse as we sell units sold later in the project, lower 2007 impairments and write-offs and control of selling, general and administrative expenses as discussed above.

Other (income) expense, net

Other (income) expense, net decreased by \$53,000 to \$302,000 for the three months ended June 30, 2007, as compared to \$355,000 for the three months ended June 30, 2006 as a result of lower interest income earned during the period. Other (income) expense, net increased by \$59,000 to \$646,000 for the six months ended June 30, 2007, as compared to \$587,000 for the six months ended June 30, 2006. This \$59,000 increase in other (income) expense is primarily attributable to increased interest earned on the Company's cash balances in addition to income generated from buyers canceling sales contracts and forfeiting earnest money deposits in the first half of 2007.

Income taxes

For the three and six months ended June 30, 2007, the Company, due to net losses, recorded an income benefit of (\$2.9) and (\$3.8) million as compared to income tax benefits of (\$4.5) and (\$3.8) million for the three and six months ended June 30, 2006. As discussed in Note 9, in the accompanying notes to financial statements, the Company recorded a charge to income tax expense in the amount of \$62,000 as a result of tax shortfalls related to the non realization of certain tax assets recorded in conjunction with employee stock grants.

Liquidity and Capital Resources

We require capital to post deposits on new deals, to purchase and develop land, to construct homes, to fund related carrying costs and overhead and to fund various advertising and marketing programs to facilitate sales. These expenditures include engineering, entitlement, architecture, site preparation, roads, water and sewer lines, impact fees and earthwork, as well as the construction costs of the homes and amenities. Our sources of capital include, and we anticipate will continue to include, funds derived from various secured and unsecured borrowings, operations which include the sale of constructed homes and finished lots, and the sale of equity and debt securities. Our currently owned and controlled inventory of home sites will require significant capital to develop and construct.

In production home building, it is common for builders such as us to employ revolving credit facilities whereby the maximum funding available under the facility exceeds the maximum outstanding balance allowed at any given time. Our overall borrowing

capacity may be constrained by loan covenants which limit the ratio of our total liabilities to our total equity. This revolving debt will typically provide for funding of an amount up to a pre-determined percentage of the cost of each asset funded. The balance of the

funding for that asset is provided for by us as equity. The efficiency of revolving debt in production home building allows us to operate with less overall debt capital than would be required if we built each project with long-term amortizing debt. At June 30, 2007 we had approximately \$230.0 million of outstanding indebtedness and \$16.9 million of unrestricted cash. We believe that

internally generated cash, advances available under our credit facilities and access to public debt and equity markets will provide us with sufficient capital to meet our existing and expected capital needs.

Edgar Filing: Comstock Homebuilding Companies, Inc. - Form 10-Q

Our subsidiaries have a significant amount of secured debt which matures during 2008. In our industry it is customary for lenders to renew and extend project facilities until the project is complete. Since we are the guarantor of our subsidiaries' debt, any significant failure to negotiate renewals and extensions to this debt would severely compromise our liquidity and could jeopardize our ability to satisfy our capital requirements. Our recently reported and cured loan covenant violations, may impact our ability to renew and extend our debt.

Table of Contents

COMSTOCK HOMEBUILDING COMPANIES, INC. AND SUBSIDIARIES
MANAGEMENTS DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS

Credit Facilities

A majority of our debt is variable rate, based on LIBOR or the prime rate plus a specified number of basis points, typically ranging from 190 to 600 basis points over the LIBOR rate and from 25 to 100 basis points over the prime rate. As a result, we are exposed to market risk in the area of interest rate changes. At June 30, 2007, the one-month LIBOR and prime rates of interest were 5.32% and 8.25%, respectively, and the interest rates in effect under our existing secured revolving development and construction credit facilities ranged from 7.40% to 11.35%. For information regarding risks associated with our level of debt and changes in interest rates, see Item 3 Quantitative and Qualitative Disclosures about Market Risk.

We have generally financed our development and construction activities on a project basis so that, for each project we develop and build, we have a separate credit facility. Accordingly, we have numerous credit facilities.

On May 26, 2006 we entered into a \$40 million Secured Revolving Borrowing Base Credit Facility with Wachovia Bank for the financing of entitled land, land under development, construction and letters of credit. All letters of credit issued will also be secured by collateral in the facility. Funding availability will be limited to compliance with a borrowing base and facility covenants. As of June 30, 2007, \$29.6 million was outstanding with this facility. In February 2007 we entered into a Forbearance Agreement with the lender which reduced the covenants and eliminated the ability of the lender to claim an event of default as a result of non-compliance with the financial covenants of the original loan. The Forbearance Agreement runs through March 2008.

On May 4, 2006 we closed on a \$30 million Junior Subordinated Note offering. The term of the note was thirty years but it could be retired after five years with no penalty. The rate was fixed at 9.72% for the first five years and LIBOR plus 420 basis points for the remaining twenty-five years. In March 2007 we retired the Junior Subordinated notes with no penalty and entered into a 10-year, \$30 million Senior Unsecured Note offering with the same lender at the same interest rate. In connection with the new notes, the lender loosened the financial covenants through September 30, 2007 and permanently modified the underlying definitions used to calculate the covenants. We believe that we are currently in compliance with all covenants associated with the new notes.

As of June 30, 2007, we had \$7.8 million outstanding to Key Bank in two secured facilities. Under the terms of the original loan agreements we are required to maintain certain financial covenants. In May 2007 we entered into loan modification agreements which extended the maturities and waived certain key financial covenants until March 31, 2008. We believe we are currently in compliance with all remaining covenants associated with these loans.

As of June 30, 2007 we had \$10.2 million outstanding to M&T Bank. Under the terms of the original loan agreements we were required to maintain certain financial covenants. In March 2007 we entered into loan modification agreements lowering the minimum interest coverage ratio and the minimum tangible net worth covenants. We believe we are currently in compliance with all covenants associated with these loans.

In December 2005 the Company entered into a \$147 million secured, limited recourse loan with Corus Bank related to our Eclipse project. Under the terms of the loan there is a single deed of trust covering two loan tranches. The two tranches have varying interest rates with Tranche A at LIBOR plus 375 basis points and Tranche B fixed at 16.0%. In April 2007 the loan maturity was extended to January 2008 and provided a mechanism for reallocation of Tranche B into Tranche A. At June 30, 2007 our outstanding balance under this loan was \$57.1 million. There are no financial covenants associated with this loan.

In February 2007 we entered into a \$28 million secured, three-year limited recourse loan with Guggenheim Capital Partners related to our Penderbrook project. Under the terms of the loan the borrower (Comstock Penderbrook, LLC) distributed \$11.0 million of the proceeds to the Company and established a \$2.0 million cash interest escrow to provide for interest costs in excess of the net operating income being generated by the temporary rental operations at the project. The loan bears an interest rate of LIBOR plus 500 basis points. Under the terms of the loan there are two tranches, Tranche A at three month LIBOR plus 400 basis points and Tranche B at three month LIBOR plus 600 basis points. As of June 30, 2007, our outstanding balance under the loan was \$22.9 million. There are no financial covenants associated with this loan.

On May 31, 2007 we entered into \$4.5 million secured revolving credit facility with First Charter Bank. The loan matures on June 10, 2008 bearing an interest rate of Prime Rate plus 0.25% per annum. As of June 30, 2007, we had \$0.7 million outstanding on the loan. There are no

Edgar Filing: Comstock Homebuilding Companies, Inc. - Form 10-Q

financial covenants associated with this loan.

At June 30, 2007 we had approximately \$8.6 million outstanding with Regions Bank under five separate secured master loan agreements. The loans carried varying maturities starting December 2007. There are no financial covenants associated with this loan.

On June 28, 2007 the Company entered into various loan modification agreements with Bank of America securing the remaining \$5.0 million balance of the unsecured revolver, modifying the curtailment schedule of the unsecured revolver and extending the maturities of the Atlanta debt facilities. There are no financial covenants associated with this loan.

MANAGEMENTS DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS

From time to time, we employ unsecured working capital revolving credit facilities to supplement our capital resources or a particular project or group of projects. Our lenders under these credit facilities will typically charge interest rates that are substantially higher than those charged by the lenders under our senior and secured credit facilities. These credit facilities will vary with respect to terms and costs. We intend to continue to use these types of facilities on a selected basis to supplement our capital resources.

Many of our loan facilities contain Material Adverse Effect clauses which if invoked could create an event of default under the loan. In the event all our loans were deemed to be in default as a result of a Material Adverse Effect, our ability to meet our capital and debt obligations would be compromised.

Cash Flow

Net cash provided by operating activities was \$64.1 million for the six months ended June 30, 2007, as compared to net cash used of \$118.6 million during the six months ended June 30, 2006. The \$182.7 million increase is primarily the result of two business acquisitions completed in the first half of 2006, as compared to no business acquisitions in 2007, additional settlements at Eclipse, the sale of Bellemeade and the sale of Massey Preserve lots.

Net cash used in investing activities was \$57,000 for the six months ended June 30, 2007, as compared to \$16.7 million for the six months ended June 30, 2006. The decrease is primarily due to no business acquisitions being made in 2007.

Net cash used in financing activities was \$68.3 million for the six months ended June 30, 2007 as compared to \$115.9 million provided in the six months ended June 30, 2006. Net cash provided by financing activities for the six months ended June 30, 2007 was offset by debt principal payments made during the period.

Recent Acquisitions

In May 2006, we completed the acquisition of Capitol Homes, Inc., in the Raleigh, North Carolina area. The acquisition price was approximately \$7.5 million plus the assumption of approximately \$20.6 million in liabilities. The results of Capitol Homes, Inc. are included in the accompanying financial statements from the period May 5, 2006 to June 30, 2007. The acquisition added approximately 1,350 lots in 13 communities to our inventory of controlled land.

In January 2006, we completed the acquisition of Parker Chandler Homes, Inc. in the Atlanta, Georgia area. The acquisition price was approximately \$10.4 million plus the assumption of approximately \$63.8 million in debt. The results of Parker Chandler Homes, Inc. are included in the accompanying financial statements from the period January 19, 2006 to June 30, 2007. The acquisition added over 1,500 lots to our inventory of controlled land.

Recent Accounting Pronouncements

In September 2006, the FASB issued Statement of Financial Accounting Standard No. 157, Fair Value Measurements (SFAS 157), which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company is currently reviewing the effect of SFAS 157 on its consolidated financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standard No. 159, The Fair Value Option for Financial Assets and Financial Liabilities - Including an amendment to FASB Statement No. 115 (SFAS 159), which permits entities to measure various financial instruments and certain other items at fair value at specified election dates. The election must be made at the initial recognition of the financial instrument, and any unrealized gains or losses must be reported at each reporting date. SFAS 159 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company is currently reviewing the effect of SFAS 159 on its consolidated financial statements.

In June 2006, the FASB issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109, Accounting for Income Taxes (FIN 48), to create a single model to address accounting for uncertainty in tax positions. FIN 48 clarifies the accounting for income taxes, by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on de-recognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted the provisions of FIN 48 on January 1, 2007, as required. The cumulative effect of adopting FIN 48 will be recorded as an adjustment to the opening balance of retained earnings and is not expected to have a significant impact on the Company's consolidated financial position. The adoption of FIN 48 may cause greater volatility in the effective tax rate going forward. The Company expects to record a benefit of approximately \$1,194 as a benefit to opening retained earnings as a result of the adoption of FIN 48.

Critical Accounting Policies and Estimates

There have been no significant changes to our critical accounting policies and estimates during the six months ended June 30, 2007 compared with those disclosed in Item 2, *Management's Discussion and Analysis of Financial Condition and Results of Operations* included in our Annual Report on Form 10-K for the year ended December 31, 2006.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk represents the risk of loss that may impact our financial position, results of operations or cash flows, due to adverse changes in financial and commodity market prices and interest rates. We are exposed to market risk in the area of interest rate changes. A majority of our debt is variable rate based on LIBOR and prime rate, and, therefore, affected by changes in market interest rates. Based on current operations, as of June 30, 2007, an increase/decrease in interest rates of 100 basis points on our variable rate debt would have resulted in a corresponding increase/decrease in interest actually incurred by us of approximately \$1.6 million in a fiscal year, a significant portion of which would be capitalized and included in cost of sales as homes are delivered. As a result, the effect on net income would be deferred until the underlying units settled and the interest was released to cost of goods sold. Changes in the prices of commodities that are a significant component of home construction costs, particularly lumber and concrete, may result in unexpected short-term increases in construction costs. Because the sales price of our homes is fixed at the time a buyer enters into a contract to acquire a home and we generally contract to sell our homes before construction begins, any increase in costs in excess of those anticipated at the time of each sale may result in lower consolidated operating income for the homes in our backlog. We attempt to mitigate the market risks of the price fluctuation of commodities by entering into fixed price contracts with our subcontractors and material suppliers for a specified period of time, generally commensurate with the building cycle. These contracts afford us the option to purchase materials at fixed prices but do not obligate us to any specified level of purchasing.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, our Chairman and Chief Executive Officer and Chief Financial Officer have reviewed and evaluated the effectiveness of our disclosure controls and procedures, which included inquiries made to certain other employees. Based on their evaluation, our Chairman and Chief Executive Officer and Chief Financial Officer have each concluded that our disclosure controls and procedures are effective and sufficient to ensure that we record, process, summarize, and report information required to be disclosed by us in our periodic reports filed under the Securities Exchange Act within the time periods specified by the Securities and Exchange Commission's rules and forms and are also effective to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is accumulated and communicated to management, including our Chief Executive and Chief Financial Officers, to allow timely decisions regarding required disclosure.

During the quarter ended March 31, 2007, the Company completed its implementation of the JD Edwards EnterpriseOne (JDE) software package. The JDE system is an Enterprise Resource Planning (ERP) suite of integrated operational and financial modules that supports the Company's current and future operational needs and enhances its internal control over financial reporting. The implementation of the JDE system has affected the Company's internal controls over financial reporting by, among other things, improving user access security and automating a number of accounting, back office, and reporting processes and activities. Other than the JDE software package implementation, there have been no changes in the Company's internal controls over financial reporting identified in connection with this evaluation that occurred during the period covered by this report and that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

We do not expect that our disclosure controls and internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, with the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of the controls.

The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, a control may become inadequate because of changes in conditions or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and may not be detected.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company, as manager of an affiliated entity, exercised its option rights to purchase the project acquisition, development and construction loans made for the benefit of North Shore. The Company subsequently issued a notice of default under the acquisition and development loan at maturity on September 30, 2005 and thereafter, filed suit for collection of the loans against one of the individual guarantors under the loan on or about October 21, 2005. The Company, as manager of an affiliated entity, set and held a foreclosure sale on March 24, 2006 in which it was the high bidder. However, transfer of title to the property has been delayed pending judicial resolution of a suit filed on March 24, 2006 by the non-affiliated 50% owner of North Shore. On June 30, 2006, the Company, on its own behalf and on behalf of affiliates, filed an additional lawsuit expanding the number of party defendants, demanding equitable relief and demanding \$33.0 million in damages.

On April 10, 2007, the parties executed a settlement agreement whereby a company associated with the non-affiliated 50% owner of the North Shore project purchased the Company's development rights to North Shore for approximately \$3,750 to settle all claims against the Company and its investors. All litigation has been dismissed with prejudice and the Company received the proceeds from the settlement in April 2007. As a result of the settlement, for the three months ended March 31, 2007, the Company recorded a charge of approximately \$357 to write off its investment in North Shore and reduce amounts due from North Shore to the net realizable value. During the three months ended June 30, 2007, additional costs of \$132 related to the North Shore settlement were incurred and written off. These charges are included in the accompanying consolidated statements of operations as a component of impairments and write-offs. No additional costs related to the North Shore settlement are expected to be incurred.

On August 11, 2005, the Company was served with a motion to compel arbitration resulting from an allegation of a loan brokerage fee being owed for placement of a \$147.0 million project loan for the Potomac Yard project. The claim in the base amount of \$2.0 million plus interest and costs is based on breach of contract and equitable remedies of unjust enrichment and quantum meruit. The claims have been denied by the Company.

Other than the foregoing, we are not currently subject to any material legal proceedings. From time to time, however, we are named as a defendant in legal actions arising from our normal business activities. Although we cannot accurately predict the amount of our liability, if any, that could arise with respect to legal actions currently pending against us, we do not expect that any such liability will have a material adverse effect on our financial position, operating results or cash flows. We believe that we have obtained adequate insurance coverage or rights to indemnification, or where appropriate, have established reserves in connection with these legal proceedings. In the normal course of its business, the Company and/or its subsidiaries are named as defendants in certain legal actions arising from its normal business activities. Management believes that none of these litigation matters in which the Company or any subsidiary is involved would have a material adverse effect on the consolidated financial condition or operations of the Company.

ITEM 1A. RISK FACTORS

There have been no material changes in our risk factors as previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2006 in response to Item 1A, except as follows:

Home prices and sales activities in the Washington, D.C., Raleigh, North Carolina and Atlanta, Georgia geographic markets have a large impact on our profitability because we conduct substantially all of our business in these markets.

Home prices and sales activities in the Washington, D.C., Raleigh, North Carolina and Atlanta, Georgia geographic markets have a large impact on our profitability because we conduct substantially all of our business in these markets. Recently these markets have begun to exhibit signs of decreasing consumer demand, and as a result we are experiencing reduced traffic, weakening demand, higher cancellation rates and an over-supply of inventory, similar to what other homebuilders are experiencing. As a result of these economic conditions, we have offered, and may continue to offer, certain sales incentives. These economic conditions being experienced throughout the industry will likely continue to impact housing demand for the remainder of 2007 and into 2008. As a result of these conditions, we currently believe there may be a reduction in the number of new contracts in most of our markets, and that gross margins on new contracts may be negatively impacted in all of our regions. This could adversely affect our results of operations and cash flows.
