**Item 1.01 Entry into a Material Definitive Agreement.**

On June 3, 2008, Cabot Oil & Gas Corporation (the Company) entered into a definitive purchase and sale agreement to acquire certain producing oil and gas properties, leasehold acreage and a gathering infrastructure, all located in Panola and Rusk counties, Texas, from private sellers not affiliated with the Company. The properties are located near the Company's existing Minden field, and most of the producing properties are operated by the sellers. The agreement provides for the acquisition to be effective as of May 1, 2008. The closing of the transaction is expected to occur in August 2008, subject to customary closing conditions.

The purchase price for these assets of \$602.8 million was determined in arm's-length negotiations and is subject to adjustment based on each party's share of production proceeds received and expenses paid for periods before and after May 1, 2008 and other factors. The purchase price may be further adjusted due to title defects or environmental defects related to the properties if the cost or value reduction attributable to any of these conditions exceeds certain deductible amounts.

The agreement contains customary representations and warranties. Either party may terminate the agreement if the closing has not occurred by November 17, 2008, in the event of a casualty loss in excess of \$60.3 million, or if title defects or environmental defects exceed \$60.3 million.

**Item 7.01 Regulation FD Disclosure.**
