4. This financial summary report and the accompanying financial highlights contain forward-looking statements regarding estimations, forecasts, targets and plans in relation to the results of operations, financial conditions and other overall management of the company and/or the group as a whole (the forward-looking statements). The forward-looking statements are made based upon, among other things, the company's current estimations, perceptions and evaluations. In addition, in order for the company to adopt such estimations, forecasts, targets and plans regarding future events, certain assumptions have been made. Accordingly, due to various risks and uncertainties, the statements and assumptions are inherently not guarantees of future performance, may be considered differently from alternative perspectives and may result in material differences from the actual result. For the main factors that may effect the current forecasts, please see the Consolidated Summary Report, Annual Securities Report, Disclosure Book, Annual Report, and other current disclosures that the company has announced.
5. The financial information included in this financial summary report is prepared and presented in accordance with accounting principles generally accepted in Japan (Japanese GAAP). Differences exist between Japanese GAAP and the accounting principles generally accepted in the United States (U.S. GAAP) in certain material respects. Such differences have resulted in the past, and are expected to continue to result for this period and future periods, in amounts for certain financial statement line items under U.S. GAAP to differ significantly from the amounts under Japanese GAAP. For example, differences in consolidation basis or accounting for business combinations, including but not limited to amortization and impairment of goodwill, could result in significant differences in our reported financial results between Japanese GAAP and U.S. GAAP. Readers should consult their own professional advisors for an understanding of the differences between Japanese GAAP and U.S. GAAP and how those differences might affect our reported financial results. To date, we have published U.S. GAAP financial results only on a semiannual and annual basis, and currently do not expect to publish U.S. GAAP financial results for the period reported in this financial summary report.

Qualitative Information and Financial Statements**1. Qualitative information related to the consolidated results of operations**

(Please also refer to I. Financial Highlights for the first quarter ended June 30, 2008 of Selected Financial Information <under Japanese GAAP> for the first quarter ended June 30, 2008 .)

With respect to the economic and financial environment for the April-June quarter of 2008, the U.S. economy has continued to be sluggish due to the collapse of the housing bubble and the turmoil in the financial markets triggered by the subprime problem. European economies have also shown clear signs of a slowing trend. In contrast, the emerging economies such as China have sustained high growth, although they have shown partly signs of slowdown. Concerns over accelerated global inflation have rapidly increased due to a continued surge in prices of energy and raw materials. In Japan, the economy was underpinned by its exports to emerging countries, but corporate profits have been worsening reflecting the slowdown in the United States and Europe and rising prices of raw materials and fuels. Private consumption has been lackluster due to higher prices and slow income growth. Consumer prices have significantly increased due to higher crude oil and food prices.

In the financial environment, the U.S. federal funds target rate has been kept unchanged after being lowered to 2.0 percent in response to the subprime crisis. Meanwhile, in the Euro zone, the European Central Bank kept its key interest rate on hold at 4.0 percent amid strong inflation worries. The Bank of Japan left the uncollateralized overnight call rate target intact at 0.5 percent, but Japan's short-term interest rates continued to be under some upward pressure on the back of credit uneasiness in the United States and Europe. Long-term interest rates surged toward the middle of June in reaction to concerns about early raising of interest rates in the United States and Europe, but showed a downward trend thereafter. In the foreign exchange market, the yen slightly depreciated against the dollar, since overly pessimistic views on the subprime crisis in the United States slightly eased.

Under such business environment, consolidated ordinary profits for the first quarter of the fiscal year 2008 decreased by 196.1 billion yen from the first quarter of the fiscal year 2007 to 96.8 billion yen, and consolidated net income for the first quarter of the fiscal year 2008 decreased by 100.0 billion yen from the first quarter of the fiscal year 2007 to 51.1 billion yen.

2. Qualitative information related to the consolidated financial conditions

(Please also refer to I. Financial Highlights for the first quarter ended June 30, 2008 of Selected Financial Information <under Japanese GAAP> for the first quarter ended June 30, 2008 .)

Total assets as of June 30, 2008 increased by 1,079.3 billion yen from March 31, 2008 to 194,072.5 billion yen, and total net assets as of June 30, 2008 decreased by 278.8 billion yen from March 31, 2008 to 9,320.8 billion yen. The decrease in total net assets reflected a decrease of total valuation and translation adjustments by 104.9 billion yen, which are mainly due to a decrease of net deferred gains (losses) on hedging instruments and foreign currency translation adjustments, and a decrease of minority interests by 146.9 billion yen, which are mainly due to redemption of preferred securities.

With regards to major items of assets, investment securities as of June 30, 2008 increased by 36.3 billion yen from March 31, 2008 to 40,888.0 billion yen, and loans and bills discounted as of June 30, 2008 increased by 1,019.0 billion yen from March 31, 2008 to 89,557.8 billion yen. With regards to major items of liabilities, deposits as of June 30, 2008 decreased by 652.9 billion yen from March 31, 2008 to 120,654.3 billion yen.

3. Qualitative information related to the consolidated earnings forecasts

There are no changes to our earnings forecasts for the fiscal year ending March 31, 2009 released on May 20, 2008.

4. Others

(1) Changes in scope of consolidation involving Specified Subsidiaries (*Tokutei Kogaisya*) during the period: Not applicable

(2) Simplified accounting methods and accounting methods used specifically for quarterly consolidated financial statements

(Simplified accounting methods)

Depreciation

Depreciation for tangible fixed assets, which are depreciated under the declining-balance method, is computed by proportionally allocating the estimated depreciation for the fiscal year.

Allowance for credit losses

Except for claims on bankrupt borrowers and substantially bankrupt borrowers and claims on potentially bankrupt borrowers for which allowances are provided in specific amounts, allowances for credit losses are calculated based on reasonable measures, including the loan loss ratios used for the previous annual period-end settlement.

Taxes

Income taxes are calculated in a manner similar to that in which they were calculated in the previous annual period-end settlement. However, immaterial adjustment items and immaterial tax credits are not considered in calculating the taxable income.

Collectability of deferred tax assets

The collectability of deferred tax assets is determined based on the earnings forecasts and tax planning used in the previous annual period-end settlement.

Deferred and accrued accounts

Amounts of certain deferred and accrued accounts are estimated based on reasonable measures.

(Accounting methods used specifically for quarterly consolidated financial statements)

Taxes

Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form 6-K

At some consolidated subsidiaries, income taxes are calculated by applying a reasonably estimated effective tax rate to the income before income taxes and others for this fiscal quarterly period. The estimated effective tax rate is determined by estimating the effective tax rate after taking into account the tax effects for the full fiscal year, including this fiscal quarterly period.

- (3) Changes in accounting policies, procedures and presentation rules applied in the preparation of the quarterly consolidated financial statements

Starting in this fiscal year, MUFG has adopted the Accounting Standards for Quarterly Financial Statements (ASBJ Statement No. 12) and the Implementation Guidance on the Accounting Standards for Quarterly Financial Statements (ASBJ Guidance No. 14). MUFG prepares its quarterly consolidated financial statements in accordance with the Regulations concerning the Terminology, Forms and Preparation Methods of the Quarterly Consolidated Financial Statements (Cabinet Ordinance No. 64, 2007), except that assets, liabilities, income and expenses are classified based on the Ordinance for the Enforcement of the Banking Law (Ministry of Finance Ordinance No. 10, 1982).

The Practical Solution on Unification of Accounting Policies Applied to Foreign Subsidiaries for Consolidated Financial Statements

The Practical Solution on Unification of Accounting Policies Applied to Foreign Subsidiaries for Consolidated Financial Statements (ASBJ PITF No.18, May 17, 2006) is applicable to fiscal years beginning on or after April 1, 2008, and MUFG has adopted this practical solution starting in this fiscal quarterly period. The adoption of the practical solution resulted in a 6,960 million yen increase in each of ordinary profits and income before income taxes and others for the current quarter.

(Additional information)

Net actuarial loss (gain) not recognized as net periodic cost of retirement benefits, which is recorded on the financial statements of foreign subsidiaries under US GAAP in accordance with Employers Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106, and 132(R) (FASB Statement No.158) and which was previously deducted from net assets and allocated to other assets or reserve for retirement benefits in the consolidation process, is recorded separately, net of related tax effects and minority interests portion, as pension liability adjustments of subsidiaries preparing financial statements under US GAAP, under valuation and translation adjustments in net assets. This change resulted in a 20,091million yen decrease in other assets, a 9,148 million yen increase in reserve for retirement benefits, a 11,194 million yen decrease in deferred tax assets and a 6,098 million yen decrease in minority interests.

The Accounting Standard for Lease Transactions

Finance leases other than those that were deemed to transfer the ownership of leased property to the lessees have previously been accounted for in a similar manner to operating leases. However, the Accounting Standard for Lease Transactions (ASBJ Statement No.13, March 30, 2007) and the Implementation Guidance on the Accounting Standard for Lease Transactions (ASBJ Guidance No.16, March 30, 2007) became applicable to fiscal years beginning on or after April 1, 2008, and MUFG adopted this accounting standard and practical guideline starting in this fiscal quarterly period.

(As lessees)

Finance leases other than those that are deemed to transfer the ownership of leased property to the lessees are accounted for in a similar way to purchases and depreciation for lease assets is computed under the straight-line method with zero residual value over the lease term. Finance leases other than those that deem to transfer the ownership of leased property to the lessees, which commenced in fiscal years beginning prior to April 1, 2008, are accounted for in a similar way to operating leases. The adoption of the new standard resulted in a 129 million yen increase in lease assets and a 136 million yen increase in lease liabilities but did not have a material impact on the statement of income.

(As lessors)

Finance leases other than those that are deemed to transfer the ownership of leased property to the lessees are accounted for in a similar way to sales and income and expenses related to such leases are recognized primarily by allocating interest equivalents to applicable fiscal periods instead of recording sales and costs of goods sold. The adoption of the new standard resulted in a 28 million yen increase in ordinary profits, a 6,251 million yen increase in extraordinary gains and a 6,280 million yen increase in income before income taxes and others for the current quarter.

Net presentation of derivative instruments subject to master netting agreements

Beginning in this fiscal quarterly period, MUFG has started to record in its financial statements, on a gross basis, the fair value amounts recognized for derivative instruments executed with the same counterparty as assets and liabilities, which were previously netted out if there was a legally valid master netting agreement between the two parties.

MUFG examined its relevant accounting presentation practice from a viewpoint of best financial disclosure practice relating to credit risk and determined that its financial statements under Japanese GAAP should be prepared without offsetting derivative assets and liabilities because the amounts of cash collateral received or payable for derivative transactions have recently been increasing and, as a result, it is no longer sufficiently reasonable to offset only the fair value amounts recognized as assets and liabilities for derivative instruments.

This change resulted in a 3,352,100 million yen increase in trading assets, a 3,379,679 million yen increase in trading liabilities, a 875,794 million yen increase in other assets and a 848,214 million yen increase in other liabilities.

I. Financial Highlights for the first quarter ended June 30, 2008**1. Highlights of Consolidated Statements of Income**

Consolidated net business profits for the first quarter ended June 30, 2008 was ¥264.7 billion, a decrease of ¥77.4 billion compared with the first quarter of fiscal 2007.

Consolidated gross profits decreased to ¥801.2 billion by ¥64.7 billion compared with the first quarter of fiscal 2007. This was mainly due to a decrease of fees from securities businesses, investment trust related businesses and derivative transactions compared with the first quarter of fiscal 2007, even though net interest income was steady due to an increase in overseas lending.

General and administrative expenses increased to ¥536.5 billion by ¥12.6 billion compared with the first quarter of fiscal 2007. This was mainly due to an increase of investments for system integration as planned.

Total credit related costs increased to ¥141.7 billion by ¥57.7 billion compared with the first quarter of fiscal 2007, due to credit rating changes which reflected a domestic and overseas economic slowdown and deterioration of corporate performance.

As a result, consolidated net income for the first quarter ended June 30, 2008 was ¥51.1 billion, a decrease of ¥100.0 billion compared with the first quarter of fiscal 2007.

Earnings forecasts for Six Months ending September 30, 2008 and Fiscal Year ending March 31, 2009 remain unchanged.

(in billions of yen)	For the three months ended June 30, 2008	Change from the three months ended June 30, 2007

*1 Credit related costs = Credit related costs(Net non-recurring gains(losses)) + Credit related costs for trust accounts + Provision for general allowance for credit losses

*2 Total credit related costs = Credit related costs + Reversal of allowance for credit losses + Reversal of reserve for contingent losses included in credit related costs

2. Loans

Loans and bills discounted (including trust accounts) increased to ¥89.8 trillion by ¥1.0 trillion compared with at March 31, 2008, mainly due to an increase in overseas lending.

*1 Loans booked in overseas branches, UnionBanCal Corporation and BTMU(China)

3. Deposits

Although individual deposits increased, Total deposits decreased to ¥120.6 trillion by ¥0.6 trillion compared with at March 31, 2008, due to a decrease in corporate deposits.

*1 BTMU adjusted its method of monitoring deposits from individuals and started monitoring from this quarter. The amount of deposits from individuals as of Mar 31, 2008, adjusted by using the new method of monitoring, was ¥61.8 trillion.

4. Non-performing loans (Sum of two banks*)

Disclosed claims ratio under the Financial Reconstruction Law was 1.16%, almost unchanged compared with at March 31, 2008.

* The two banks are The Bank of Tokyo-Mitsubishi UFJ, Ltd., and Mitsubishi UFJ Trust and Banking Corporation.

5. Net unrealized gains (losses) on securities (Total of other securities available for sale)

Net unrealized gains (losses) on other securities available for sale increased to ¥1.16 trillion by ¥0.16 trillion compared with at March 31, 2008, mainly due to an increase in unrealized gains on domestic equity securities.

6. Exposure to securitized products and related investments

Our exposure to securitized products and related investments as of June 30, 2008 is outlined below. (Figures are on a managerial basis and rounded off.)

(1) Balance, net unrealized gains (losses), realized losses

The balance as of the end of June 2008 increased to ¥3.41 trillion in total, an increase of ¥91 billion compared with the balance as of the end of March 2008. This increase was mainly due to the depreciation of the Japanese yen against foreign currencies, so the balance denominated in local currencies decreased at the end of June 2008.

Net unrealized losses were ¥328 billion, and the rate of decline in market value was 9.6%, the same level compared with the rate at the end of March 2008.

The effect on the P/L for the first quarter of fiscal 2008 was a loss of ¥16 billion, mainly due to losses on disposal of residential mortgage-backed securities (RMBS).

	Balance ¹	Change from end of March	Net unrealized gains (losses)	Change from end of March	Change of market value	(¥bn) Change from end of March
1 RMBS	595	(17)	(82)	(16)	(13.9)%	(3.1)%

8 SIV investments	5	0	1	1	13.7%	13.7%
9 Total	3,411	91	(328)	(10)	(9.6)%	0.0%

1. Balance is the amount after impairment and before deducting net unrealized losses.

The above table does not include mortgage-backed securities arranged and guaranteed by U.S. government sponsored enterprises, etc., Japanese RMBS such as Japanese Housing Finance Agency securities, and products held by funds such as investment trusts. These are also applicable to the figures in this page.

(2) Distribution by rating

AAA-rated products account for 80% of our investments in securitized products, substantially unchanged from the end of March 2008.

23	Non sub-prime RMBS	37	230	126	20	414

(4) Credit exposure related to leveraged loan

We are not engaged in origination and distribution of securitized products of leveraged loans, therefore there is no balance of leveraged loans for securitization.

The following table shows the balances of LBO loans as of the end of June 2008.

	Americas	Europe	Asia	Japan	Total	(¥bn) Change from end of March
1 LBO Loan ² (Balance on a commitment basis)	84	224	61	325	693	62
2 Balance on a booking basis	56	178	54	290	578	36

2. Includes balance after refinancing (Figures are rounded off.)

(5) Special Purpose Entities (SPEs)

We are engaged in sponsoring ABCP issuance for securitizing our clients' assets.

The balance of assets purchased by ABCP conduits (special purpose companies for issuing ABCP) as of the end of June 2008 was ¥4.91 trillion (¥1.62 trillion overseas).

The purchased assets are mainly receivables and they do not include residential mortgages.

(6) Monoline insurer related

There is no credit outstanding and credit derivative transactions with monoline insurers.

7. Exposure to GSE related investments

We hold mortgage-backed securities arranged and guaranteed by Federal National Mortgage Association (Fannie Mae), Federal Home Loan Mortgage Corporation (Freddie Mac) and Government National Mortgage Association (Ginnie Mae), mainly as part of an ALM operation of foreign currencies.

Our holding balance of these mortgage-backed securities as of the end of June 2008 was ¥3,141 billion in total. Net unrealized losses were ¥51 billion, and the rate of decline in market value was 1.6%.

Our holding balance of debt securities issued by the above three institutions and Federal Home Loan Banks (Agency Securities) as of the end of June 2008 was ¥240 billion. Net unrealized gains were very small amount.
