CHOICE HOTELS INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Company Information and Significant Accounting Policies

The accompanying unaudited consolidated financial statements of Choice Hotels International, Inc. and subsidiaries (together the Company) have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, all adjustments (which include any normal recurring adjustments) considered necessary for a fair presentation have been included. Certain information and footnote disclosures normally included in financial statements presented in accordance with accounting principles generally accepted in the United States of America have been omitted. The year end balance sheet information was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. The Company believes the disclosures made are adequate to make the information presented not misleading. The consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended December 31, 2007 and notes thereto included in the Company's Form 10-K, filed with the Securities and Exchange Commission on February 29, 2008 (the 10-K). Interim results are not necessarily indicative of the entire year results because of seasonal variations. All intercompany transactions and balances between Choice Hotels International, Inc. and its subsidiaries have been eliminated in consolidation.

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications in Consolidated Financial Statements

Marketing and reservation revenues and expenses in the prior year's financial statements have been reclassified to conform to the current year presentation with no effect on previously reported net income or shareholders' deficit.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with a maturity of three months or less at the date of purchase to be cash equivalents. As of June 30, 2008 and December 31, 2007, \$7.6 million and \$12.5 million, respectively, of book overdrafts representing outstanding checks in excess of funds on deposit are included in accounts payable in the accompanying consolidated balance sheets.

The Company maintains cash balances in domestic banks, which at times, may exceed the limits of amounts insured by the Federal Deposit Insurance Corporation. In addition, the Company also maintains cash balances in international banks which do not provide deposit insurance.

2. Marketing Fees Receivable and Cumulative Reservation Fees Collected in Excess of Expenses

The marketing fees receivable at June 30, 2008 and December 31, 2007 was \$18.4 million and \$6.8 million, respectively. As of June 30, 2008 and December 31, 2007, cumulative reservation fees collected exceeded expenses by \$5.2 million and \$11.9 million, respectively, and the excess has been reflected as a long-term liability in the accompanying consolidated balance sheets. Depreciation and amortization expense attributable to marketing and reservation activities was \$2.1 million and \$1.9 million for the three months ended June 30, 2008 and 2007, respectively, and \$4.1 million and \$3.9 million for the six months ended June 30, 2008 and 2007, respectively. Interest expense attributable to reservation activities was \$0.1 million for both the three months ended June 30, 2008 and 2007, and \$0.1 million and \$0.3 million for the six months ended June 30, 2008 and 2007, respectively.

3. Income Taxes

The effective income tax rate of 36.4% and 36.9% for the six months ended June 30, 2008 and June 30, 2007, respectively, differs from the statutory rate due to foreign income earned, which is taxed at lower rates than statutory federal income tax rates, state income taxes and certain federal and state income tax credits.

Effective January 1, 2007, the Company adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form 10-Q

enterprise's financial statements in accordance with SFAS No. 109, Accounting for Income Taxes. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This pronouncement

Table of Contents

also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. As a result of the implementation of FIN 48, the Company increased its existing reserves for uncertain tax positions by \$3.1 million as of January 1, 2007, with a corresponding net reduction to opening additional paid-in-capital and retained earnings.

As of June 30, 2008 and December 31, 2007, the Company had \$6.8 million and \$6.7 million, respectively of total unrecognized tax benefits of which approximately \$3.6 million would affect the effective tax rate if recognized. These unrecognized tax benefits relate principally to state tax filing positions and stock-based compensation deductions. The Company believes it is reasonably possible it will recognize tax benefits of up to \$1.6 million within the next twelve months. This is due to the anticipated lapse of applicable statutes of limitations regarding state tax positions and stock-based compensation deductions.

The Company's uncertain tax positions are related to tax years that remain subject to examination by the relevant tax authorities. The Company and its subsidiaries are subject to U.S. federal income tax as well as income tax of multiple state and foreign jurisdictions. The Company has substantially concluded all U.S. federal income tax matters for years through 2003. Substantially all material state and local and foreign income tax matters have been concluded for years through 2003. U.S. federal income tax returns for 2004 through 2006 are currently open for examination.

Estimated interest and penalties related to the uncertain tax benefits are classified as a component of income tax expense in the consolidated statements of income and totaled \$0.1 million and \$0.3 million for the three months and six months ended June 30, 2008, respectively. Accrued interest and penalties were \$1.5 million and \$1.3 million as of June 30, 2008 and December 31, 2007, respectively.

We have estimated and accrued for certain tax assessments and the expected resolution of tax contingencies which arise in the course of our business. The ultimate outcome of these tax-related contingencies impact the determination of income tax expense and may not be resolved until several years after the related tax returns have been filed. Predicting the outcome of such tax assessments involves uncertainty and accordingly, actual results could differ from those estimates.

4. Comprehensive Income

The differences between net income and comprehensive income are described in the following table.

(In thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007

Comprehensive income	\$ 27,448	\$ 28,962	\$ 46,487	\$ 46,110

5. Capital Stock*Stock Options*

The Company granted 0.2 million and approximately 45,000 options to certain officers of the Company at a fair value of \$2.1 million and \$0.5 million during the three months ended June 30, 2008 and 2007, respectively. The Company granted 0.6 million and 0.2 million options to certain officers of the Company during the six months ended June 30, 2008 and 2007 at a fair value of approximately \$4.7 million and \$2.6 million, respectively. The stock options granted by the Company had an exercise price equal to the market price of the Company's common stock on the

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form 10-Q

date of grant. The fair value of the options granted was estimated on the grant date using the Black-Scholes option-pricing model with the following weighted average assumptions:

7

Table of Contents

	2008 Grants	2007 Grants
Risk-free interest rate	2.79%	4.84%
Expected volatility	30.13%	32.31%
Expected life of stock option	4.4 years	4.5 years
Dividend yield	2.00%	1.49%
Requisite service period	4 years	4 years
Contractual life	7 years	7 years
Weighted average fair value of options granted	\$ 8.11	\$ 12.15

The expected life of the options and volatility are based on historical data and are not necessarily indicative of exercise patterns or actual volatility that may occur. The dividend yield and the risk-free rate of return are calculated on the grant date based on the then current dividend rate and the risk-free rate of return for the period corresponding to the expected life of the stock option. Compensation expense related to the fair value of these awards is recognized straight-line over the requisite service period based on those awards that ultimately vest.

The aggregate intrinsic value of the stock options outstanding and exercisable at June 30, 2008 was \$21.8 million and \$21.7 million, respectively. The total intrinsic value of options exercised during the three months ended June 30, 2008 and 2007 was \$5.4 million and \$8.0 million, respectively, and \$12.7 million for each of the six month periods ended June 30, 2008 and 2007.

The Company received \$3.1 million and \$5.9 million in proceeds from the exercise of approximately 0.3 million and 0.6 million employee stock options during the three and six months ended June 2008, respectively. During the three and six months ended June 30, 2007, the Company received \$2.8 million and \$4.5 million in proceeds from the exercise of 0.3 million and 0.4 million employee stock options, respectively.

Restricted Stock

The following table is a summary of activity related to restricted stock grants:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Restricted share grants	88,394	32,544	273,391	146,967
Weighted average grant date fair value per share	\$ 34.86	\$ 38.12	\$ 33.65	\$ 40.39
Aggregate grant date fair value (\$000)	\$ 3,081	\$ 1,241	\$ 9,199	\$ 5,935
Restricted shares forfeited	31,508	7,693	43,866	25,790
Vesting service period of shares granted	3-4 years	3-4 years	3-5 years	3-4 years
Fair value of shares vested (\$000)	\$ 1,901	\$ 463	\$ 6,389	\$ 5,437

Compensation expense related to the fair value of these awards is recognized straight-line over the requisite service period on those restricted stock grants that ultimately vest. The fair value of the 2008 grants is measured by the closing price of the Company's common stock on the date of grant except for one grant in February 2008 which was measured by the average of the high and low market price of the Company's common stock on the date of the grant. The fair value of the 2007 grants was measured by the average of the high and low market price of the Company's common stock on the date of the grant. Restricted stock awards generally vest ratably over the service period beginning with the first anniversary of the grant date.

Performance Vested Restricted Stock Units

The Company has granted performance vested restricted stock units (PVRSU) to certain employees. The vesting of these stock awards is contingent upon the Company achieving performance targets at the end of specified performance periods and the employees' continued employment. The performance conditions affect the number of shares that will ultimately vest. The range of possible stock-based award vesting is between 50% and 200% of the initial target. Under SFAS No. 123 (Revised), Share-Based Payment (SFAS No. 123R), compensation expense related to these awards will be recognized over the requisite service period regardless of whether the performance targets have been met based on the Company's estimate of the achievement of the performance target. The Company has currently estimated that between 100% and 145% of the various award targets will be achieved. The fair value of the 2008 grant was measured by the closing price of the Company's common stock on the date of grant. Compensation expense is recognized ratably over the requisite service period based on those PVRSU's that ultimately vest.

The following table is a summary of activity related to PVRSU grants:

Stock-based compensation expense on stock option and performance vested restricted stock units made to a retirement eligible executive officer during the six months ended June 30, 2008 and 2007 was recognized upon issuance of the grants rather than over the awards' vesting periods since the terms of these grants provide that the awards will vest upon retirement of the employee. Compensation costs for stock options and performance vested restricted stock related to vesting upon retirement eligibility totaled \$1.3 million and \$1.2 million for the six months ended June 30, 2008 and 2007, respectively. In addition, in conjunction with the acceleration of the Company's management succession plan, restricted stock and stock option compensation expense for the three months ended June 30, 2008 includes \$1.1 million and \$0.8 million of additional stock compensation expense due to the acceleration of award vesting conditions and modification of award terms for an executive officer, respectively.

Table of Contents*Dividends*

On April 30, 2008, the Company declared a cash dividend of \$0.17 per share (or approximately \$10.6 million in the aggregate), which was paid on July 18, 2008 to shareholders of record on July 3, 2008. On February 11, 2008, the Company declared a cash dividend of \$0.17 per share (or approximately \$10.6 million in the aggregate), which was paid on April 18, 2008 to shareholders of record on April 4, 2008.

On May 1, 2007, the Company declared a cash dividend of \$0.15 per share (or approximately \$9.8 million in the aggregate), which was paid on July 20, 2007 to shareholders of record on July 6, 2007. On February 12, 2007, the Company declared a cash dividend of \$0.15 per share (or approximately \$9.9 million in the aggregate), which was paid on April 20, 2007 to shareholders of record on April 5, 2007.

Stock Repurchase Program

The Company did not purchase any common stock during the three and six months ended June 30, 2008 under the share repurchase program. During the three and six months ended June 30, 2007, the Company purchased 0.7 million and 1.2 million shares of common stock under the share repurchase program at the total cost of \$28.3 million and \$46.1 million, respectively.

During the three and six months ended June 30, 2008, the Company redeemed 1,838 and 45,759 shares of common stock at a total cost of \$0.1 million and \$1.5 million, respectively, from employee awards to satisfy statutory minimum tax requirements from the vesting of restricted stock grants. During the three and six months ended June 30, 2007, the Company redeemed 2,160 and 31,139 shares of common stock at a total cost of \$0.1 million and \$1.3 million, respectively related to the vesting of restricted stock grants. These purchases were outside the share repurchase program initiated in June 1998.

6. Earnings Per Share

The following table reconciles the number of shares used in the basic and diluted earnings per share calculations.

(In thousands, except per share amounts)	Three Months		Six Months Ended	
	Ended June 30, 2008	2007	June 30, 2008	2007
Computation of Basic Earnings Per Share:				
Net income	\$ 27,008	\$ 28,645	\$ 45,585	\$ 44,960
Weighted average shares outstanding-basic	62,181	65,475	61,966	65,627
Basic earnings per share	\$ 0.43	\$ 0.44	\$ 0.74	\$ 0.69
Computation of Diluted Earnings Per Share:				
Net income for diluted earnings per share	\$ 27,008	\$ 28,645	\$ 45,585	\$ 44,960
Weighted average shares outstanding-basic	62,181	65,475	61,966	65,627
Effect of Dilutive Securities:				
Employee stock option and restricted stock plan	682	1,124	767	1,196
Weighted average shares outstanding-diluted	62,863	66,599	62,733	66,823
Diluted earnings per share	\$ 0.43	\$ 0.43	\$ 0.73	\$ 0.67

Basic earnings per share exclude dilution and are computed by dividing net income by the weighted-average number of common shares outstanding. Diluted earnings per share assumes dilution and is computed based on the weighted-average number of common shares outstanding after consideration of the dilutive effect of stock options and unvested restricted stock. The effect of dilutive securities is computed using the treasury stock method and average market prices during the period. However, at June 30, 2008 and 2007, PVRsUs totaling 145,733 and 70,921 were excluded from the computation since the performance conditions had not been met at the reporting date. In addition the Company excluded 0.9 million and 0.4 million anti-dilutive options from the computation for diluted earnings per share for both the three and six months ended

June 30, 2008 and June 30, 2007, respectively.

7. Pension Plans

The Company sponsors an unfunded non-qualified defined benefit plan (SERP) for certain senior executives. No assets are held with respect to the plan, therefore benefits are funded as paid to participants. Effective December 31, 2006, the Company began accounting for the SERP in accordance with SFAS No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106, and 132(R) (SFAS

No. 158). For the three and six months ended June 30, 2008, the Company recorded \$0.3 million and \$0.6 million, respectively for the expenses related to the SERP which are included in selling, general and administrative expense in the accompanying consolidated statements of income. For the three and six months ended June 30, 2007, the Company recorded \$0.2 million and \$0.8 million, respectively for the expenses related to the SERP. Based on participant elections at June 30, 2008, no benefit payments are currently scheduled through December 31, 2008.

The following table presents the components of net periodic benefit costs for the three and six months ended June 30, 2008 and 2007:

Table of Contents*Curtailement*

During the six months ended June 30, 2007, the Company recognized a curtailment loss due to the termination of certain senior executive officers from the Company. The curtailment loss was equal to the unrecognized prior service costs attributed to these employees' expected aggregate future services which totaled approximately \$248,000.

8. Debt

On June 16, 2006, the Company entered into a new \$350 million senior unsecured revolving credit agreement (the "Revolver"), with a syndicate of lenders. The proceeds from the Revolver were used to refinance and terminate a previous revolving credit facility. The Revolver allows the Company to borrow, repay and reborrow revolving loans up to \$350 million (which includes swingline loans for up to \$20 million and standby letters of credit up to \$30 million) until the scheduled maturity date of June 16, 2011. The Company has the ability to request an increase in available borrowings under the Revolver by an additional amount of up to \$150 million by obtaining the agreement of the existing lenders to increase their lending commitments or by adding additional lenders. The rate of interest generally applicable for revolving loans under the Revolver are, at the Company's option, equal to either (i) the greater of the prime rate or the federal funds effective rate plus 50 basis points, or (ii) an adjusted LIBOR rate plus a margin between 22 and 70 basis points based on the Company's credit rating. The Revolver requires the Company to pay a quarterly facility fee, based upon the credit rating of the Company, at a rate between 8 and 17 ^{1/2} basis points, on the full amount of the commitment (regardless of usage). The Revolver also requires the payment of a quarterly usage fee, based upon the credit rating of the Company, at a rate between 10 and 12 ^{1/2} basis points, on the amount outstanding under the commitment, at all times when the amount borrowed under the Revolver exceeds 50% of the total commitment. The Revolver includes customary financial and other covenants that require the maintenance of certain ratios including maximum leverage and interest coverage. The Revolver also restricts the Company's ability to make certain investments, incur certain debt, and dispose of assets, among other restrictions. As of June 30, 2008, the Company had \$260.0 million of revolving loans outstanding pursuant to the Revolver and the Company was in compliance with all covenants.

In 1998, the Company completed a \$100 million senior unsecured note offering ("Senior Notes") at a discount of \$0.6 million, bearing a coupon rate of 7.13% with an effective rate of 7.22%. Interest on the Senior Notes was paid semi-annually. The Senior Notes matured on May 1, 2008 and the Company repaid the Senior Notes by utilizing the available capacity of the Revolver. In conjunction with the repayment of the Senior Notes, the Company's seven wholly-owned domestic subsidiaries that had guaranteed the Senior Notes were each released from their obligations.

The Company has a line of credit with a bank providing an aggregate of \$10 million of borrowings, which is due upon demand. The line of credit ranks pari-pasu (or equally) with the Revolver. Borrowings under the line of credit bear interest rates established at the time of borrowing based on prime rate minus 175 basis points. There was \$4.3 million outstanding under the line of credit at June 30, 2008. Borrowings under this line of credit have been classified as a long-term liability at June 30, 2008, since the Company has the ability and intent to repay the outstanding borrowings by utilizing the available capacity of the Revolver.

As of June 30, 2008, total debt outstanding for the Company was \$264.3 million. With the exception of the \$4.3 million borrowed under the Company's line of credit, which is due upon demand, no outstanding debt amounts at June 30, 2008 were scheduled to mature in the twelve months ending June 30, 2009.

9. Deferred Revenue

Deferred revenue consists of the following:

The Company has a single reportable segment encompassing its franchising business. Revenues from the franchising business include royalty fees, initial franchise and relicensing fees, marketing and reservation fees, brand solutions revenue

and other revenue. The Company is obligated under its franchise agreements to provide marketing and reservation services appropriate for the successful operation of its systems. These services do not represent separate reportable segments as their operations are directly related to the Company's franchising business. The revenues received from franchisees that are used to pay for part of the Company's central ongoing operations are included in franchising revenues and are offset by the related expenses paid for marketing and reservation activities to calculate franchising operating income. Corporate and other revenue consists of hotel operations. Except as described in Note 2, the Company does not allocate interest income, interest expense or income taxes to its franchising segment.

The following table presents the financial information for the Company's franchising segment:

11. Commitments and Contingencies

The Company is a defendant in a number of lawsuits arising in the ordinary course of business. In the opinion of management and the Company's legal counsel, the ultimate outcome of such litigation will not have a material adverse effect on the Company's business, financial position, results of operations or cash flows.

In April 2007, two putative federal securities law class actions were filed in the United States District Court for the District of Colorado on behalf of persons who purchased the Company's stock between April 25, 2006, and July 26, 2006. These substantially-similar lawsuits assert claims pursuant to Sections 10(b) and 20(a) of the Securities Exchange Act of 1934, and Rule 10b-5 promulgated thereunder, against the Company, its current Vice Chairman and former Chief Executive Officer, and its former Executive Vice President and Chief Financial Officer. These claims are related to the Company's July 25, 2006 announcement of its results of operations for the second quarter of 2006.

Since the initial filings, the Company's motion to transfer the litigation from Colorado to the United States District Court for the District of Maryland was granted. The United States District Court for the District of Maryland has also granted a lead plaintiff motion; the lead plaintiff is the Macomb County Employees Retirement System. On July 14, 2008, the Court granted the parties' Stipulation Regarding Filing of Consolidated Amended Complaint and Responses. The parties agreed that a Consolidated Amended Complaint would be filed by August 1, 2008, that the Company would file its responsive pleading by September 30, 2008, that the lead plaintiff would file any opposition by December 1, 2008, and that the Company would file any reply by January 15, 2009. The Company believes that the allegations contained within these class action lawsuits are without merit and intends to vigorously defend the litigation.

In May 2007, the Company guaranteed \$1 million of a bank loan funding a franchisee's construction of a Cambria Suites in Green Bay, Wisconsin. The guaranty was scheduled to expire in August 2010. In April 2008, the Company was released from its obligations under the May 2007 guaranty, and simultaneously issued a new \$1 million guaranty, in connection with a loan refinancing for the same franchisee's Cambria Suites in Green Bay, Wisconsin. The newly issued guaranty expires in June 2010. The Company has received personal guarantees from several of the franchisee's principal owners related to the repayment of any amounts paid by the Company under this guaranty.

In June 2008, the Company guaranteed \$1 million of a bank loan funding a franchisee's construction of a Cambria Suites in Columbus, Ohio. The guaranty will terminate on the earlier of (i) the repayment of all outstanding obligations under the bank loan that it supports (the current initial loan term runs through June 2013), or (ii) or when the franchisee achieves certain debt service coverage ratios outlined in the underlying bank loan agreement. The Company has received a pledge of an equity interest in the entity constructing the property as well as personal guarantees from several of the franchisee's principal owners related to the repayment of any amounts paid by the Company under this guaranty.

Table of Contents

In July 2008, the Company guaranteed \$1 million of a bank loan funding a franchisee's construction of a Cambria Suites in Noblesville, Indiana. The guaranty will terminate on the earlier of (i) the repayment of all outstanding obligations under the bank loan that it supports (the current initial loan term runs through September 2011), or (ii) or when the franchisee achieves certain debt service coverage ratios outlined in the underlying bank loan agreement. The Company has received a pledge of an equity interest in the entity constructing the property as well as personal guarantees from several of the franchisee's principal owners related to the repayment of any amounts paid by the Company under this guaranty.

In the ordinary course of business, the Company enters into numerous agreements that contain standard indemnities whereby the Company indemnifies another party for breaches of representations and warranties. Such indemnifications are granted under various agreements, including those governing (i) purchases or sales of assets or businesses, (ii) leases of real estate, (iii) licensing of trademarks, (iv) access to credit facilities, (v) issuances of debt or equity securities, and (vi) other operating agreements. The indemnifications issued are for the benefit of the (i) buyers in sale agreements and sellers in purchase agreements, (ii) landlords in lease contracts, (iii) franchisees in licensing agreements, (iv) financial institutions in credit facility arrangements, (v) underwriters in debt or equity security issuances and (vi) parties under certain operating agreements. In addition, these parties are also generally indemnified against any third party claim resulting from the transaction that is contemplated in the underlying agreement. While some of these indemnities extend only for the duration of the underlying agreement, many survive the expiration of the term of the agreement or extend into perpetuity (unless subject to a legal statute of limitations). There are no specific limitations on the maximum potential amount of future payments that the Company could be required to make under these indemnities, nor is the Company able to develop an estimate of the maximum potential amount of future payments to be made under these indemnifications as the triggering events are not subject to predictability. With respect to certain of the aforementioned indemnities, such as indemnifications of landlords against third party claims for the use of real estate property leased by the Company, the Company maintains insurance coverage that mitigates potential liability.

12. Termination Charges

During the three and six months ended June 30, 2008, the Company recorded a charge of \$6.1 million in selling, general and administrative expenses related to the acceleration of the Company's management succession plan. The expenses include salary and benefits continuation of approximately \$4.2 million, \$1.1 million of accelerated share-based compensation and \$0.8 million related to the modification of stock option award terms. Benefits payable to the executive were accounted for under SFAS No. 112 Employer's Accounting for Post-employment Benefits (SFAS No. 112). At June 30, 2008, approximately \$4.2 million of benefits remained unpaid and are included as current and non-current liabilities in the Company's consolidated financial statements. The Company expects \$2.0 million of benefits to be paid within the next twelve months.

During the first quarter of 2007, the Company recorded a \$3.7 million charge in selling, general and administrative expenses for employee termination benefits relating to the termination of certain executive officers. Termination benefits include salary continuation of approximately \$2.5 million, SERP curtailment expenses of \$0.2 million and \$1.0 million of accelerated share-based compensation. Termination benefits payable to the executives were accounted under SFAS No. 112. At June 30, 2008, approximately \$0.2 million of termination benefits remained and are included in current liabilities in the Company's consolidated financial statements.

13. Recently Issued Accounting Standards

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurement (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States, and expands disclosures about fair value measurements. The Company has adopted the provisions of SFAS No. 157 as of January 1, 2008, for financial instruments. Although the adoption of SFAS No. 157 did not impact the Company's financial condition, results of operations, or cash flow, the Company is now required to provide additional disclosures as part of its financial statements.

SFAS No. 157 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Table of Contents

The Company's investments associated with its employee benefit plans consist of investments that are either publicly traded or for which market prices are readily available.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value for Financial Assets and Financial Liabilities* (SFAS No. 159) which provides reporting entities an option to report certain financial instruments and other items at fair value that are not currently required to be measured at fair value. SFAS No. 159 is effective as of the beginning of a reporting entity's first fiscal year beginning after November 15, 2007. The Company has not currently elected the fair value measurement option for any financial assets or liabilities that were not previously recorded at fair value.

In December 2007, the FASB issued SFAS No. 160, *Non-controlling Interests in Consolidated Financial Statements - An Amendment of ARB No. 51* (SFAS No. 160). SFAS No. 160 establishes new accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008. The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), *Business Combinations* (SFAS No. 141R). SFAS No. 141R will change the accounting for business combinations by requiring an acquiring entity to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited exceptions. SFAS No. 141R will also change the accounting treatment and disclosure for certain specific items in a business combination. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008.

In June 2007, the FASB ratified EITF 06-11 *Accounting for the Income Tax Benefits of Dividends on Share-Based Payment Awards* (EITF No. 06-11). EITF 06-11 provides that tax benefits associated with dividends on share-based payment awards be recorded as a component of additional paid-in capital. EITF No. 06-11 is effective, on a prospective basis, for fiscal years beginning after December 15, 2007. The implementation of this standard did not have a material impact on our consolidated financial position and results of operations.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities* - an amendment of FASB Statement No. 133 (SFAS No. 161). SFAS No. 161 requires entities that utilize derivative instruments to provide qualitative disclosures about their objectives and strategies for using such instruments, as well as any details of credit-risk-related contingent features contained within derivatives. SFAS No. 161 also requires entities to disclose additional information about the amounts and location of derivatives located within the financial statements, how the provisions of SFAS 133 have been applied, and the impact that hedges have on an entity's financial position, financial performance, and cash flows. SFAS No. 161 is effective for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

In April 2008, the FASB issued FASB Staff Position (FSP) 142-3, *Determination of the Useful Life of Intangible Assets* (FSP 142-3). FSP 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, *Goodwill and Other Intangible Assets*. FSP 142-3 is effective for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact of FSP 142-3 on its consolidated financial position and results of operations.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS No. 162). SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles used in

Table of Contents

the preparation of financial statements. SFAS No. 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, "The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles." The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

In June 2008, the FASB issued FSP EITF 03-6-1, "Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities" (FSP EITF 03-6-1). FSP EITF 03-6-1 clarified that all outstanding unvested share-based payment awards that contain rights to nonforfeitable dividends participate in undistributed earnings with common shareholders. Awards of this nature are considered participating securities and the two-class method of computing basic and diluted earnings per share must be applied. FSP EITF 03-6-1 is effective for fiscal years beginning after December 15, 2008. The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

14. Subsequent Events

In July 2008, the Company guaranteed \$1 million of a bank loan funding a franchisee's construction of a Cambria Suites in Noblesville, Indiana. The guaranty will terminate on the earlier of (i) the repayment of all outstanding obligations under the bank loan that it supports (the current initial loan term runs through September 2011), or (ii) or when the franchisee achieves certain debt service coverage ratios outlined in the underlying bank loan agreement. In addition, the Company entered into a \$1.2 million promissory note with this franchisee for the purposes of funding a portion of the hotel construction costs. The note bears interest at variable rates and accrued interest and principal are due to the Company in July 2011. The Company has received a pledge of an equity interest in the entity constructing the property as well as personal guarantees from several of the franchisee's principal owners related to the repayment of any amounts paid by the Company under this guaranty or default under the terms of the promissory note.

On July 31, 2008, the Company made a \$2.5 million loan to a principal owner of a franchisee to support the development of a Cambria Suites property in New York, New York. The loan was made pursuant to a promissory note payable to the Company bearing interest at 14% per annum. Accrued interest and principal are due to the Company on September 30, 2008 or earlier upon the occurrence of certain accelerating events defined in the promissory note. The Company has received personal guarantees from the borrowing franchisee owner and certain other affiliated entities, as well as a pledge of membership interests in other entities controlled by the borrowing party.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis (MD&A) is intended to help the reader understand Choice Hotels International, Inc. and subsidiaries (together the Company). MD&A is provided as a supplement to and should be read in conjunction with our consolidated financial statements and the accompanying notes.

Overview

We are a hotel franchisor with franchise agreements representing 5,708 hotels open and 1,096 hotels under development as of June 30, 2008, with 463,665 rooms and 89,116 rooms, respectively, in 49 states, the District of Columbia and 40 countries and territories outside the United States. Our brand names include Comfort Inn®, Comfort Suites®, Quality®, Clarion®, Sleep Inn®, Econo Lodge®, Rodeway Inn®, MainStay Suites®, Suburban Extended Stay Hotel® and Cambria Suites® (collectively, the Choice brands).

The Company conducts its international franchise operations through a combination of direct franchising and master franchising arrangements which allow the use of the Choice brands by third parties in foreign countries. The Company has made equity investments in certain non-domestic lodging franchise companies that conduct franchise operations for the Choice brands under master franchising relationships. As a result of our use of master franchising relationships and international market conditions, total revenues from international operations comprised only 8% of our total revenues for both the three and six month periods ended June 30, 2008 while representing approximately 20% of hotels open at June 30, 2008.

On January 31, 2008, the Company terminated the master franchise agreement with The Real Hotel Company PLC (RHC) related to RHC's franchised hotels under the Choice brands in the United Kingdom. In conjunction with the termination of the master franchise agreement, the Company acquired the RHC's franchise contracts under the master franchise agreement and commenced direct franchising operations in the United Kingdom. This transaction enables the Company to continue its strategy of more closely directing the growth of our franchise operations in the United Kingdom.

The Company generates revenues, income and cash flows primarily from initial and continuing royalty fees attributable to our franchise agreements. Revenues are also generated from brand solutions endorsed vendor arrangements, hotel operations and other sources. The hotel industry is seasonal in nature. For most hotels, demand is lower in December through March than during the remainder of the year. Our principal source of revenues is franchise fees based on the gross room revenues of our franchised properties. The Company's franchise fee revenues and operating income reflect the industry's seasonality and historically have been lower in the first quarter than in the second, third or fourth quarters.

With a focus on hotel franchising instead of ownership, we benefit from the economies of scale inherent in the franchising business. The fee and cost structure of our business provides opportunities to improve operating results by increasing the number of franchised hotel rooms and effective royalty rates of our franchise contracts resulting in increased initial fee revenue; ongoing royalty fees and brand solutions revenues. In addition, our operating results can also be improved through our company-wide efforts related to improving property level performance. The Company estimates that based on its current domestic portfolio of hotels under franchise that a 1% change in RevPAR or rooms under franchise would increase or decrease royalty revenues by approximately \$2.4 million and a 1 basis point change in the Company's effective royalty rate would increase or decrease domestic royalties by approximately \$0.5 million. In addition to these revenues, we also collect marketing and reservation fees to support centralized marketing and reservation activities for the franchise system. As a lodging franchisor, the Company has relatively low capital expenditure requirements.

The principal factors that affect the Company's results are: the number and relative mix of franchised hotel rooms; growth in the number of hotel rooms under franchise; occupancy and room rates achieved by the hotels under franchise; the effective royalty rate achieved; and our ability to manage costs. The number of rooms at franchised properties and occupancy and room rates at those properties significantly affect the Company's results because our fees are based upon room revenues at franchised hotels. The key industry standard for measuring hotel-operating performance is revenue per available room (RevPAR), which is calculated by multiplying the percentage of occupied rooms by the average daily room rate realized. Our variable overhead costs associated with franchise system growth have historically been less than incremental royalty fees generated from new franchises. Accordingly, continued growth of our franchise business should enable us to realize benefits from the operating leverage in place and improve operating results.

We are contractually required by our franchise agreements to use the marketing and reservation fees we collect for system-wide marketing and reservation activities. These expenditures, which include advertising costs and costs to maintain our central reservations system, help to enhance awareness and increase consumer preference for our brands. Greater awareness and preference promotes long-term growth in business delivery to our franchisees, which ultimately increases franchise fees earned by the Company.

Our Company articulates its mission as a commitment to our franchisees' profitability by providing them with hotel franchises that generate the highest return on investment of any hotel franchise. We have developed an operating system dedicated to our franchisees' success that focuses on delivering guests to our franchised hotels and reducing costs for our hotel owners. We strive every day to continuously improve our franchise offerings to enhance our franchisees' profitability.

We believe that executing our strategic priorities creates value. Our Company focuses on two key value drivers:

Profitable Growth. Our success is dependent on improving the performance of our hotels, increasing our system size by selling additional hotel franchises and effective royalty rate improvement. We attempt to improve our franchisees' revenues and overall profitability by providing a variety of products and services designed to increase business delivery to and/or reduce operating and development costs for our franchisees. These products and services include national marketing campaigns, a central reservation system, property and yield management systems, quality assurance standards and endorsed vendor relationships. We believe that healthy brands, which deliver a compelling return on investment for franchisees, will enable us to sell additional hotel franchises and raise royalty rates. We have established multiple brands that meet the needs of many types of guests, and can be developed at various price points and applied to both new and existing hotels. This ensures that we have brands suitable for creating growth in a variety of market conditions. Improving the performance of the hotels under franchise, growing the system through additional franchise sales and improving franchise agreement pricing while maintaining a disciplined cost structure are the keys to profitable growth.

Maximizing Financial Returns and Creating Value for Shareholders. Our capital allocation decisions, including capital structure and uses of capital, are intended to maximize our return on invested capital and create value for our shareholders. We believe our strong and predictable cash flows create a strong financial position that provides us a competitive advantage. Currently, our business does not require significant capital to operate and grow, therefore, we can maintain a capital structure that generates high financial returns and use our excess cash flow to increase returns to our shareholders. We have returned value to our shareholders in two primary ways: share repurchases and dividends. In 1998, we instituted a share repurchase program which has generated substantial value for our shareholders. Through June 30, 2008, we have repurchased 38.6 million shares (including 33.0 million prior to the two-for-one stock split effected in October 2005) of common stock at

Table of Contents

a total cost of \$895.9 million since the program's inception. Considering the effect of the two-for-one stock split, the Company has repurchased 71.5 million shares at an average price of \$12.52 per share through June 30, 2008. At June 30, 2008 the Company had 3.2 million shares remaining under the current stock repurchase authorization of the board of directors. Upon completion of the current authorization, our board of directors will evaluate the propriety of additional share repurchases. During the three and six months ended June 30, 2008, we paid cash dividends totaling approximately \$10.6 million and \$21.0 million, respectively, and we presently expect to continue to pay dividends in the future. On April 30, 2008, our board of directors declared a cash dividend of \$0.17 on outstanding common shares payable on July 18, 2008 to shareholders of record on July 3, 2008. Based on our present dividend rate and outstanding share count, aggregate annual dividends for 2008 would be approximately \$42.3 million.

Our Board has authorized us to enter into programs which permit us to offer investment, financing and guaranty support to qualified franchisees to incent multi-unit franchise development in top markets primarily for the Company's Cambria Suites and extended stay brands. We expect to opportunistically deploy this capital over the next several years. Our current expectation is that our annual investment in these programs would range from \$20 to \$40 million beginning in 2009 (2008 investment in these programs is not expected to be significant), depending on market and other conditions. In addition to these programs, the Company expects to continue to return value to its shareholders through a combination of share repurchases and dividends, also subject to market and other conditions.

We believe these value drivers, when properly implemented, will enhance our profitability, maximize our financial returns and continue to generate value for our shareholders. The ultimate measure of our success will be reflected in the items below.

Results of Operation: Royalty fees, operating income, net income and diluted earnings per share (EPS) represent key measurements of these value drivers. In the three months ended June 30, 2008, royalty fees revenue totaled \$63.8 million, an 8% increase from the same period in 2007. Operating income totaled \$44.6 million for the three months ended June 30, 2008, a \$2.8 million or 6% decline from the same period in 2007. Net income decreased \$1.6 million or 6% from the same period of the prior year to \$27.0 million. Diluted earnings per share for the quarter ended June 30, 2008 were \$0.43 compared to \$0.43 for the three months ended June 30, 2007. Results for the three months ended June 30, 2008 include charges to selling, general and administrative expenses totaling \$6.1 million (approximately \$0.06 diluted EPS) resulting from the previously announced acceleration of the Company's management succession plan. These measurements will continue to be a key management focus in 2008 and beyond.

Refer to MD&A heading *Operations Review* for additional analysis of our results.

Liquidity and Capital Resources: The Company generates significant cash flows from operations. In the six months ended June 30, 2008 and 2007, net cash provided by operating activities was \$37.9 million and \$57.1 million, respectively. Since our business does not currently require significant reinvestment of capital, we utilize cash in ways that management believes provide the greatest returns to our shareholders, which include share repurchases and dividends. We believe the Company's cash flow from operations and available financing capacity is sufficient to meet the expected future operating, investing and financing needs of the business.

Operations Review**Comparison of Operating Results for the Three-Month Periods Ended June 30, 2008 and June 30, 2007**

The Company recorded net income of \$27.0 million for the three months ended June 30, 2008, a \$1.6 million, or 6% decline from the \$28.6 million for the quarter ended June 30, 2007. The decrease in net income for the three months ended June 30, 2008, is primarily attributable to a \$2.8 million or 6% decline in operating income over the same period of the prior year and a lower appreciation in the fair value of investments held in the Company's non-qualified employee benefit plans compared to the prior year period. These declines were partially offset by lower effective borrowing rates and a decline in the Company's effective income tax rate from 37.8% to 36.0%. Operating income declined due to an \$8.7 million or 34% increase in selling, general and administrative expenses partially offset by a \$5.8 million or 7.8% increase in franchising revenues (total revenues excluding marketing and reservations revenues and hotel operations). Selling, general and administrative expenses increased from \$25.6 million in the three months ended June 30, 2007 to \$34.3 million for the same period of 2008 primarily due to a \$6.1 million charge incurred during the second quarter of 2008 resulting from the acceleration of the Company's previously announced management succession plan.

Management analyzes its business based on franchising revenues, which is total revenues excluding marketing and reservation revenues and hotel operations, and franchise operating expenses that are reflected as selling, general and administrative expenses.

Franchising Revenues: Franchising revenues were \$80.5 million for the three months ended June 30, 2008 compared to \$74.7 million for the three months ended June 30, 2007. The growth in franchising revenues is primarily due to an 8% increase in royalty revenues, a 6% increase in initial franchise and relicensing fees, an 8% increase in brand solutions revenues and an 11% increase in other income.

Domestic royalty fees for the three months ended June 30, 2008 increased \$3.0 million to \$56.9 million from \$53.9 million in the three months ended June 30, 2007, an increase of 6%. The increase in royalties is attributable to a combination of factors including a 5.2% increase in the number of domestic franchised hotel rooms, a 0.7% increase in RevPAR and an increase in the effective royalty rate of the domestic hotel system from 4.14% to 4.20%. System-wide RevPAR increases resulted primarily from average daily rate (ADR) increases of 3.6% over the prior year partially offset by a 170 basis point decline in occupancy rates.

International rooms on-line declined slightly to 99,030 as of June 30, 2008 from 99,114 as of June 30, 2007. The total number of international hotels on-line declined from 1,148 as of June 30, 2007 to 1,115 as of June 30, 2008.

As of June 30, 2008, the Company had 992 franchised hotels with 80,292 rooms under construction, awaiting conversion or approved for development in its domestic system as compared to 858 hotels and 67,740 rooms at June 30, 2007. The number of new construction franchised hotels in the Company's domestic pipeline increased 18% to 720 at June 30, 2008 from 611 at June 30, 2007. The Company had an additional 104 franchised hotels with 8,824 rooms under construction, awaiting conversion or approved for development in its international system as of June 30, 2008 compared to 85 hotels and 8,007 rooms at June 30, 2007. While the Company's hotel pipeline provides a strong platform for growth, a hotel in the pipeline does not always result in an open and operating hotel due to various factors.

There were 84 net domestic franchise additions during the three months ended June 30, 2008 compared to 72 net domestic franchise additions during the three months ended June 30, 2007. Gross domestic franchise additions increased from 122 for the three months ended June 30, 2007 to 137 for the same period in 2008. Net domestic franchise terminations increased slightly to 53 for the three months ended June 30, 2008 from 50 for the same period of the prior year. The Company continues to execute its strategy to replace franchised hotels that do not meet our brand standards or are underperforming in their market. As the competition gets stronger and more focused on limited service franchising, the Company will continue to focus on improving its system of hotels and utilizing the domestic hotels under development as a strong platform for continued system growth.

International royalties increased \$1.5 million or 28% from \$5.3 million in the second quarter of 2007 to \$6.8 million for the same period in 2008 primarily due to the commencement of direct franchising operations in the United Kingdom and foreign currency fluctuations.

New domestic franchise agreements executed in the three months ended June 30, 2008 totaled 198 representing 16,093 rooms compared to 176 agreements representing 14,493 rooms executed in the second quarter of 2007. During the second quarter of 2008, 72 of the executed agreements were for new construction hotel franchises, representing 5,514 rooms, compared to 68 contracts, representing 5,570 rooms for the same period a year ago. Conversion hotel franchise executed contracts totaled 126 representing 10,579 rooms for the three months ended June 30, 2008 compared to 108 agreements representing 8,923 rooms for the same period a year ago. Domestic initial fee revenue, included in the initial franchise and relicensing fees caption above, generated from executed franchise agreements increased 21% to \$5.8 million for the three months ended June 30, 2008 from \$4.8 million for the three months ended June 30, 2007. The increased revenues primarily reflect an increase in executed agreements compared to the same period of the prior year.

Relicensing fees are charged to the new property owner of a franchised property whenever an ownership change occurs and the property remains in the franchise system. Relicensing contracts declined 8% from 96 in the second quarter of 2007 to 88 for the three months ended June 30, 2008. As a result of the decline in contracts and the mix of brands relicensing, relicensing revenues declined 21% from \$2.9 million for the three months ended June 30, 2007 to \$2.3 million for the three months ended June 30, 2008.

Brand solutions revenue increased \$0.5 million or 8% for the three months ended June 30, 2008 to \$6.5 million compared to the same period of the prior year resulting from the growth in our system size which positively impacts the volume of business transacted with our endorsed vendors as well as higher interest, participation and fees from our endorsed vendors for booths at our 2008 annual franchisee convention.

Other income increased \$0.2 million or 11% to \$2.1 million for the three months ended June 30, 2008 compared to the same period last year primarily due to higher liquidated damage collections related to the early termination of franchise agreements.

Selling General and Administrative Expenses: The cost to operate the franchising business is reflected in selling, general and administrative expenses. Selling, general and administrative (SG&A) expenses were \$34.3 million for the three months ended June 30, 2008, an \$8.7 million increase from the three months ended June 30, 2007. As a percentage of revenues, excluding marketing and reservation fees and hotel operations, total SG&A expenses were 42.6% for the three months ended June 30, 2008 compared to 34.3% for the three months ended June 30, 2007. SG&A expenses increased primarily due to a \$6.1 million charge that was incurred related to the acceleration of the Company's previously announced management succession plan.

Marketing and Reservations: The Company's franchise agreements require the payment of franchise fees, which include marketing and reservation fees. The fees, which are primarily based on a percentage of the franchisees' gross room revenues, are used exclusively by the Company for expenses associated with providing franchise services such as central reservation systems, national marketing and media advertising. The Company is contractually obligated to expend the marketing and reservation fees it collects from franchisees in accordance with the franchise agreements; as such, no income or loss to the Company is generated.

Total marketing and reservations revenues were \$85.3 million and \$80.6 million for the three months ended June 30, 2008 and 2007, respectively. Depreciation and amortization attributable to marketing and reservation activities were \$2.1 million for the three months ended June 30, 2008 compared to \$1.9 million for the three months ended June 30, 2007. Interest expense attributable to reservation activities was \$0.1 million for both the three month periods ended June 30, 2008 and 2007. As of June 30, 2008 and December 31, 2007, the Company's balance sheet includes a receivable of \$18.4 million and \$6.8 million, respectively, resulting from the cumulative marketing expenses incurred in excess of accumulated marketing fees earned. These receivables are recorded as assets in the financial statements as the Company has the contractual authority to require that the franchisees in the system at any given point repay the Company for any deficits related to marketing and reservation activities. The Company's current franchisees are legally obligated to pay any assessment the Company imposes on its franchisees to obtain reimbursement of such deficit regardless of whether those constituents continue to generate gross room revenue. The Company has no present intention to accelerate repayment of the deficit from current franchisees. A payable has been recorded in the Company's balance sheet within other long-term liabilities related to cumulative reservation fee revenues received in excess of reservation fee expenses incurred totaling \$5.2 million and \$11.9 million at June 30, 2008 and December 31, 2007, respectively. Cumulative reservation and marketing fees not expended are recorded as a payable on the financial statements and are carried over to the next fiscal year and expended in accordance with the franchise agreements.

Other Income and Expenses, Net: Other income and expenses, net, increased \$1.0 million to an expense of \$2.4 million for the three months ended June 30, 2008 compared to the same period of the prior year. Interest expense decreased \$0.5 million from \$3.2 million for the three months ended June 30, 2007 to \$2.7 million for the same period of 2008. Interest expense decreased due to a decline in the Company's weighted average interest rate from 6.42% as of June 30, 2007 to 3.04% as of June 30, 2008. The decline in the weighted average interest rate is due primarily to the Company's repayment of its Senior Notes with proceeds from the Revolver. Interest and other investment income declined \$1.6 million primarily due to the performance of investments held in the Company's non-qualified employee benefit plans compared to the prior year period.

Income Taxes: The Company's effective income tax rate was 36.0% for three months ended June 30, 2008, compared to an effective income tax rate of 37.8% for the three months ended June 30, 2007. The effective income tax rate for 2008 decreased primarily due to the increase in the proportion of foreign income over the prior year period, which generally is taxed at lower rates than statutory US federal income tax rates. Depending on the outcome of certain income tax contingencies up to an additional \$1.6 million of additional tax benefits may be reflected in our 2008 results of operations from the resolution of tax contingency reserves.

Net income for the three months ended June 30, 2008 decreased by 6% to \$27.0 million, and diluted earnings per share remained at \$0.43 for the three months ended June 30, 2008.

Comparison of Operating Results for the Six-Month Periods Ended June 30, 2008 and June 30, 2007

The Company recorded net income of \$45.6 million for the six months ended June 30, 2008, a \$0.6 million, or 1% increase from the \$45.0 million for the six months ended June 30, 2007. The increase in net income for the six months ended June 30, 2008, is primarily attributable to a \$3.9 million or 5% increase in operating income over the same period of the prior year partially offset by a decline in the fair value of investments held in the Company's non-qualified employee benefit plans compared to an appreciation of these investments in the prior year period. Operating income increased as a result of a \$12.1 million or 9.5% increase in franchising revenues (total revenues excluding marketing and reservations revenues and hotel operations) partially offset by an \$8.3 million increase in selling, general and administrative expenses (SG&A). SG&A increased from \$49.5 million in the six months ended June 30, 2007 to \$57.8 million for the same period of 2008. SG&A expenses for the six months ended June 30, 2008 include a \$6.1 million charge related to the Company's acceleration of a previously announced management succession plan. In addition, SG&A expenses for the six months ended June 30, 2007 include termination benefits totaling \$3.7 million resulting from the separation of certain executive officers.

Management analyzes its business based on franchising revenues, which is total revenues excluding marketing and reservation revenues and hotel operations, and franchise operating expenses that are reflected as selling, general and administrative expenses.

Franchising Revenues: Franchising revenues were \$139.9 million for the six months ended June 30, 2008 compared to \$127.8 million for the six months ended June 30, 2007. The growth in franchising revenues is primarily due to a 9% increase in royalty revenues, a 13% increase in initial franchise and relicensing fees, a 9% increase in brand solutions revenue and a 17% increase in other income.

Domestic royalty fees for the six months ended June 30, 2008 increased \$6.5 million to \$99.3 million from \$92.8 million in the six months ended June 30, 2007, an increase of 7%. The increase in royalties is attributable to a combination of factors including a 5.2% increase in the number of domestic franchised hotel rooms, a 1.4% increase in RevPAR and an increase in the effective royalty rate of the domestic hotel system from 4.14% to 4.20%. System-wide RevPAR increases resulted primarily from average daily rate (ADR) increases of 4% over the prior year partially offset by a 130 basis point decline in occupancy rates.

There were 148 net domestic franchise additions during the six months ended June 30, 2008 compared to 115 net domestic franchise additions during the six months ended June 30, 2007. Gross domestic franchise additions increased from 215 for the six months ended June 30, 2007 to 247 for the same period in 2008. Net domestic franchise terminations were 99 for the six months ended June 30, 2008 compared to 100 for the same period of the prior year. The Company continues to execute its strategy to replace franchised hotels that do not meet our brand standards or are underperforming in their market. As the competition gets stronger and more focused on limited service franchising, the Company will continue to focus on improving its system of hotels and utilizing the domestic hotels under development as a strong platform for continued system growth.

International royalties increased \$2.5 million or 26% from \$9.7 million in the first six months of 2007 to \$12.2 million for the same period in 2008 primarily due to the commencement of direct franchising operations in the United Kingdom and foreign currency fluctuations.

New domestic franchise agreements executed in the six months ended June 30, 2008 totaled 331 representing 27,290 rooms compared to 287 agreements representing 23,593 rooms executed in the first six months of 2007. During the first six months of 2008, 116 of the executed agreements were for new construction hotel franchises, representing 8,687 rooms, compared to 109 contracts, representing 8,890 rooms for the same period a year ago. Conversion hotel franchise executed contracts totaled 215 representing 18,603 rooms for the six months ended June 30, 2008 compared to 178 agreements representing 14,703 rooms for the same period a year ago. Domestic initial fee revenue, included in the initial franchise and relicensing fees caption above, generated from executed franchise agreements increased 27% to \$9.5 million for the six months ended June 30, 2008 from \$7.5 million for the six months ended June 30, 2007. The increased revenues primarily reflect an increase in executed agreements over the same period of the prior year.

Relicensing contracts increased 15% from 158 for the six months ending June 30, 2007 to 182 for the six months ended June 30, 2008.

Relicensing fees declined 6% to \$4.7 million for the six months ended June 30, 2008 from \$5.0 million for the six months ended June 30, 2007, primarily due to lower average relicensing fees.

Brand solutions revenue increased \$0.8 million or 9% for the six months ended June 30, 2008 to \$9.8 million compared to the same period of the prior year resulting from the growth in our system size which positively impacts the volume of business transacted with our endorsed vendors as well as higher interest, participation and fees from our endorsed vendors for booths at our 2008 annual franchisee convention.

Other income increased \$0.6 million or 17% to \$4.3 million for the six months ended June 30, 2008 compared to the same period last year primarily due to higher liquidated damage collections related to the early termination of franchise agreements.

Selling General and Administrative Expenses: The cost to operate the franchising business is reflected in selling, general and administrative expenses. Selling, general and administrative (SG&A) expenses were \$57.8 million for the six months ended June 30, 2008, an \$8.3 million increase from the six months ended June 30, 2007. As a percentage of revenues, excluding marketing and reservation fees and hotel operations, total SG&A expenses were 41.3% for the six months ended June 30, 2008 compared to 38.8% for the six months ended June 30, 2007. SG&A as a percentage of franchise revenues increased primarily due to a \$6.1 million charge in the second quarter of 2008 related to the Company's acceleration of a previously announced management succession plan. In addition, SG&A expenses for the six months ended June 30, 2007 include termination benefits totaling \$3.7 million resulting from the separation of certain executives.

Marketing and Reservations: The Company's franchise agreements require the payment of franchise fees, which include marketing and reservation fees. The fees, which are primarily based on a percentage of the franchisees' gross room revenues, are used exclusively by the Company for expenses associated with providing franchise services such as central reservation systems, national marketing and media advertising. The Company is contractually obligated to expend the marketing and reservation fees it collects from franchisees in accordance with the franchise agreements; as such, no income or loss to the Company is generated.

Table of Contents

Total marketing and reservations revenues were \$153.8 million and \$141.4 million for the six months ended June 30, 2008 and 2007, respectively. Depreciation and amortization attributable to marketing and reservation activities were \$4.1 million for the six months ended June 30, 2008 compared to \$3.9 million for the six months ended June 30, 2007. Interest expense attributable to reservation activities was \$0.1 million and \$0.3 million for the six month periods ended June 30, 2008 and 2007, respectively.

Other Income and Expenses, Net: Other income and expenses, net, increased \$3.4 million to an expense of \$7.0 million for the six months ended June 30, 2008 from the same period in 2007. Interest expense increased by \$0.3 million from \$6.2 million for the six months ended June 30, 2007 to \$6.5 million for the same period in 2008. Interest expense increased due to higher average outstanding borrowings during the quarter. The Company's weighted average interest rate as of June 30, 2008 was 3.04% compared to 6.42% as of June 30, 2007. Interest and other investment income declined \$3.2 million primarily due to a decline in the fair value of investments held in the Company's non-qualified employee benefit plans compared to an appreciation of these investments in the prior year period.

Income Taxes: The Company's effective income tax rate was 36.4% for six months ended June 30, 2008, compared to an effective income tax rate of 36.9% for the six months ended June 30, 2007. The effective income tax rate for 2008 decreased primarily due to an increase in the proportion of foreign income over the prior year period, which generally is taxed at lower rates than statutory US federal income tax rates. Depending on the outcome of certain income tax contingencies up to an additional \$1.6 million of additional tax benefits may be reflected in our 2008 results of operations from the resolution of tax contingency reserves.

Net income: Net income for the six months ended June 30, 2008 increased by 1% to \$45.6 million, and diluted earnings per share increased 9.0% to \$0.73 for the six months ended June 30, 2008 from \$0.67 reported for the six months ended June 30, 2007.

Liquidity and Capital Resources

Net cash provided by operating activities was \$37.9 million and \$57.1 million for the six months ended June 30, 2008 and 2007, respectively. The decline in cash flows from operating activities primarily reflects the timing of working capital items compared to the prior year and investments in marketing and reservation activities.

Net cash advanced (provided) related to marketing and reservations activities totaled \$14.2 million and (\$1.7) million during the six months ended June 30, 2008 and 2007, respectively. Cash advances related primarily to the timing of advertising and promotional costs spending versus fees collected and the seasonality of the business. Based on the current economic conditions, the Company expects marketing and reservation activities to be a use of cash ranging between \$8 million and \$10 million in 2008.

Cash used in investing activities for the six months ended June 30, 2008 and 2007 was \$7.3 million and \$13.4 million, respectively. During the six months ended June 30, 2008 and 2007, capital expenditures totaled \$5.5 million and \$5.8 million, respectively. Capital expenditures for 2008 primarily include upgrades of system-wide property and yield management systems, improvements to Company facilities and the purchase of computer software and equipment. In addition, the Company provides financing to franchisees for property improvements, hotel development efforts and other purposes. During the six months ended June 30, 2008 and 2007, the Company advanced \$1.7 million and \$3.3 million, respectively for these purposes. At June 30, 2008, the Company had commitments to extend an additional \$7.9 million for these purposes provided certain conditions are met by its franchisees, of which \$2.7 million is expected to be advanced in 2008.

Financing cash flows relate primarily to the Company's borrowings under its credit lines, treasury stock purchases and dividends. On June 16, 2006, the Company entered into a new \$350 million senior unsecured revolving credit agreement (the Revolver), with a syndicate of lenders. The Revolver allows the Company to borrow, repay and reborrow revolving loans up to \$350 million (which includes swingline loans for up to \$20 million and standby letters of credit of up to \$30 million) until the scheduled maturity date of June 16, 2011. The Company has the ability to request an increase in available borrowings under the Revolver by an additional amount of up to \$150 million by obtaining the agreement of the existing lenders to increase their lending commitments or by adding additional lenders. The rate of interest generally applicable for revolving loans under the Revolver are, at the Company's option, equal to either (i) the greater of the prime rate or the federal funds effective rate plus 50 basis points, or (ii) an adjusted LIBOR rate plus a margin between 22 and 70 basis points based on the Company's credit rating. The Revolver requires the Company to pay a quarterly facility fee, based upon the credit rating of the Company, at a rate between 8 and 17 ^{1/2} basis points, on the full amount of the commitment (regardless of usage). The Revolver also requires the payment of a quarterly usage fee, based upon the credit rating of the Company, at a rate between 10 and 12 ^{1/2} basis points, on the amount outstanding under the commitment, at all times when the amount borrowed under the Revolver exceeds 50% of the total commitment. The Revolver includes customary financial and other covenants that require the maintenance of certain ratios including maximum leverage and interest coverage. The Revolver

Table of Contents

also restricts the Company's ability to make certain investments, incur certain debt, and dispose of assets, among other restrictions. As of June 30, 2008, the Company had \$260 million of revolving loans outstanding pursuant to the Revolver and was in compliance with all covenants.

The proceeds of the Revolver are used for general corporate purposes, including working capital, debt repayment, stock repurchases, dividends and investments.

In 1998, the Company completed a \$100 million senior unsecured note offering (Senior Notes) at a discount of \$0.6 million, bearing a coupon rate of 7.13% with an effective rate of 7.22%. Interest on the Senior Notes was paid semi-annually. The Senior Notes matured on May 1, 2008 and the Company repaid the Senior Notes by utilizing the available capacity of the Revolver. In conjunction with the repayment of the Senior Notes, the Company's seven wholly-owned domestic subsidiaries that had guaranteed the Senior Notes were each released from their obligations.

The Company has a line of credit with a bank providing an aggregate of \$10 million of borrowings, which is due upon demand. The line of credit ranks pari-pasu (or equally) with the Revolver. Borrowings under the line of credit bear interest rates established at the time of borrowing based on prime rate minus 175 basis points. There was \$4.3 million outstanding under the line of credit at June 30, 2008. Borrowings under this line of credit have been classified as a long-term liability at June 30, 2008, since the Company has the ability and intent to repay the outstanding borrowings by utilizing the available capacity of the Revolver.

As of June 30, 2008, total debt outstanding for the Company was \$264.3 million. With the exception of the \$4.3 million borrowed under the Company's line of credit, which is due upon demand, no outstanding debt amounts at June 30, 2008 were scheduled to mature in the twelve months ending June 30, 2009.

On April 30, 2008, the Company declared a cash dividend of \$0.17 per share (or approximately \$10.6 million in the aggregate), which was paid on July 18, 2008 to shareholders of record on July 3, 2008. Dividends paid in the six months ended June 30, 2008 were approximately \$21.0 million. We expect dividends paid in 2008 to be approximately \$42.3 million.

Through June 30, 2008, the Company had purchased 38.6 million shares (including 33.0 million prior to the 2 for 1 stock split effected in October 2005) of common stock under the Company's share repurchase program at a total cost of \$895.9 million. Considering the effect of the two-for-one stock split, the Company has repurchased 71.5 million shares at an average price of \$12.52 per share. During the six months ended June 30, 2008, the Company purchased no shares under its repurchase program. At June 30, 2008, the Company had approximately 62.8 million shares of common stock outstanding and had remaining under its repurchase program authorization to purchase up to 3.2 million shares.

Our Board has authorized us to enter into programs which permit us to offer investment, financing and guaranty support to qualified franchisees to incent multi-unit franchise development in top markets primarily for the Company's Cambria Suites and extended stay brands. We expect to opportunistically deploy this capital over the next several years. Our current expectation is that our annual investment in these programs would range from \$20 to \$40 million beginning in 2009 (2008 investment in these programs is not expected to be significant), depending on market and other conditions. In addition to these programs, the Company expects to continue to return value to its shareholders through a combination of share repurchases and dividends, also subject to market and other conditions.

As of June 30, 2008, the Company had \$6.8 million of total unrecognized tax benefits of which approximately \$3.6 million would affect the effective tax rate if recognized. These unrecognized tax benefits relate principally to state tax filing positions and stock-based compensation deductions. The Company believes it is reasonably possible it will recognize tax benefits of up to \$1.6 million within the next twelve months. This is due to the anticipated lapse of applicable statutes of limitations regarding state tax positions and stock-based compensation deductions.

The Company believes that cash flows from operations and available financing capacity are adequate to meet the expected future operating, investing and financing needs of the business.

Critical Accounting Policies

Our accounting policies comply with principles generally accepted in the United States. We have described below those policies that we believe are critical and require the use of complex judgment or significant estimates in their application. Additional discussion of these policies is included in Note 1 to our consolidated financial statements as of and for the year ended December 31, 2007 included in our Annual Report on Form 10-K.

Table of Contents

Revenue Recognition.

The Company accounts for initial, relicensing and continuing franchise fees in accordance with Statement of Financial Accounting Standards (SFAS) No. 45, Accounting for Franchise Fee Revenue. We recognize continuing franchise fees, including royalty, marketing and reservations fees, when earned and receivable from our franchisees. Franchise fees are typically based on a percentage of gross room revenues of each franchisee. Our estimate of the allowance for uncollectible royalty fees is charged to selling, general and administrative expense.

The Company may also enter into master development agreements (MDAs) with developers that grant limited exclusive development rights and preferential franchise agreement terms for one-time, non-refundable fees. When these fees are not contingent upon the number of agreements executed under the MDAs, the Company accounts for these up-front fees in accordance with Staff Accounting Bulletin (SAB) No. 104, Revenue Recognition (SAB No. 104) and recognizes the up-front fees over the MDAs contractual life.

Initial franchise and relicensing fees are recognized, in most instances, in the period the related franchise agreement is executed because the initial franchise and relicensing fees are non-refundable and the Company has no obligations related to the franchisee prior to hotel opening. We defer the initial franchise and relicensing fee revenue related to franchise agreements which include incentives until the incentive criteria are met or the agreement is terminated, whichever occurs first.

We account for brand solutions revenues from endorsed vendors in accordance with SAB 104. SAB 104 provides guidance on the recognition, presentation and disclosure of revenue in financial statements. Pursuant to SAB 104, the Company recognizes brand solutions revenues when the services are performed or the product delivered, evidence of an arrangement exists, the fee is fixed and determinable and collectibility is probable. We defer the recognition of brand solutions revenues related to certain upfront fees and recognize them over a period corresponding to the Company s estimate of the life of the arrangement.

Marketing and Reservation Revenues and Expenses.

The Company records marketing and reservation revenues and expenses in accordance with Emerging Issues Task Force (EITF) Issue No. 99-19, Reporting Revenue Gross as a Principal versus Net as an Agent, which requires that these revenues and expenses be recorded gross. In addition, net advances to and repayments from the franchise system for marketing and reservation activities are presented as cash flows from operating activities.

Reservation fees and marketing fees not expended in the current year are carried over to the next fiscal year and expended in accordance with the franchise agreements. Shortfall amounts are similarly recovered in subsequent years. Cumulative excess or shortfall amounts from the operation of these programs are recorded as a marketing or reservation fee payable or receivable. Under the terms of the franchise agreements, the Company may advance capital as necessary for marketing and reservation activities and recover such advances through future fees. Our current assessment is that the credit risk associated with the marketing fee receivable is mitigated due to our contractual right to recover these amounts from a large geographically dispersed group of franchisees.

Choice Privileges is our frequent guest incentive marketing program. Choice Privileges enables members to earn points based on their spending levels at participating brands and, to a lesser degree, through participation in affiliated partners programs, such as those offered by credit card companies. The points may be redeemed for free accommodations or other benefits. Points cannot be redeemed for cash. The Company collects a percentage of program members room revenue from participating franchises. Revenues are deferred in an amount equal to the fair value of the future redemption obligation. A third-party actuary estimates the eventual redemption rates and point values using various actuarial methods. These judgmental factors determine the required liability attributable to outstanding points. Upon redemption of the points, the Company recognizes the previously deferred revenue as well as the corresponding expense relating to the cost of the awards redeemed. Revenues in excess of the estimated future redemption obligation are recognized when earned to reimburse the Company for costs incurred to operate the program, including administrative costs, marketing, promotion and performing member services. Costs to operate the program, excluding estimated redemption values, are expensed when incurred.

Impairment Policy.

We evaluate the fair value of goodwill to assess potential impairments on an annual basis, or during the year if an event or other circumstance indicates that we may not be able to recover the carrying amount of the asset. We evaluate impairment of goodwill by comparing the fair value of our net assets with the carrying amount of goodwill. We evaluate the potential impairment of property and equipment and other long-lived assets, including franchise rights on an annual basis or whenever an event or other circumstance indicates that we may not be able to recover the carrying value of the asset. Our evaluation is based upon future cash flow projections. These projections reflect management s best assumptions and estimates. Significant

Table of Contents

management judgment is involved in developing these projections, and they include inherent uncertainties. If different projections had been used in the current period, the balances for non-current assets could have been materially impacted. Furthermore, if management uses different projections or if different conditions occur in future periods, future-operating results could be materially impacted.

Income Taxes.

Our income tax expense and related balance sheet amounts involve significant management estimates and judgments. Judgments regarding realization of deferred tax assets and the ultimate outcome of tax-related contingencies represent key items involved in the determination of income tax expense and related balance sheet accounts.

The Company does not provide additional United States income taxes on undistributed earnings of consolidated foreign subsidiaries included in retained earnings. Such earnings could become taxable upon the sale or liquidation of these foreign subsidiaries or upon dividend repatriation. The Company's intent is for such earnings to be reinvested by the subsidiaries.

Deferred tax assets represent items to be used as a tax deduction or credit in future tax returns for which we have already properly recorded the tax benefit in our income statement. Realization of our deferred tax assets reflects our tax planning strategies. We establish valuation allowances for deferred tax assets that we do not believe will be realized.

Tax assessments and resolution of tax contingencies may arise several years after tax returns have been filed. Predicting the outcome of such tax assessments involves uncertainty; however, we believe that recorded tax liabilities adequately account for our analysis of probable outcomes.

In June 2006, the FASB issued FASB Interpretation No. 48 Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109, (FIN 48). FIN 48 clarifies FASB Statement No. 109, Accounting for Income Taxes by prescribing a recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 provides guidance on de-recognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted FIN 48 as of January 1, 2007, as required. The cumulative effect of adopting FIN 48 was recorded in retained earnings and other accounts as applicable. Uncertain tax benefits of \$7.1 million were recorded against tax contingencies and additional paid-in capital as of January 1, 2007, which represents a \$3.1 million increase in tax contingencies recorded as of December 31, 2006. Accrued interest and penalties of \$0.1 million were recorded against retained earnings as of January 1, 2007.

Estimated interest and penalties related to the uncertain tax benefits are classified as a component of income tax expense in the consolidated statements of income and totaled \$0.3 million for both the six months ended June 30, 2008 and 2007. Accrued interest and penalties were \$1.5 million and \$1.3 million as of June 30, 2008 and December 31, 2007, respectively.

As of June 30, 2008 and December 31, 2007, the Company had \$6.8 and \$6.7 million, respectively of total unrecognized tax benefits of which approximately \$3.6 million would affect the effective tax rate if recognized. These unrecognized tax benefits relate principally to state tax filing positions and stock-based compensation deductions. The Company believes it is reasonably possible it will recognize tax benefits of up to \$1.6 million within the next twelve months. This is due to the anticipated lapse of applicable statutes of limitations regarding state tax positions and stock-based compensation deductions.

The Company's uncertain tax positions are related to tax years that remain subject to examination by the relevant tax authorities. The Company and its subsidiaries are subject to U.S. federal income tax as well as income tax of multiple state and foreign jurisdictions. The Company has substantially concluded all U.S. federal income tax matters for years through 2003. Substantially all material state and local and foreign income tax matters have been concluded for years through 2003. U.S. federal income tax returns for 2004 through 2006 are currently open for examination.

Pension, Profit Sharing and Incentive Plans

The Company sponsors two non-qualified retirement savings and investment plans for certain employees and senior executives. Employee and Company contributions are maintained in separate irrevocable trusts. Legally, the assets of the trusts remain those of the Company; however, access to the trusts' assets is severely restricted. The trusts cannot be revoked by the Company or an acquirer, but the assets are subject to the claims of the Company's general creditors. The participants do not have the right to assign or transfer contractual rights in the trusts. The Company accounts for these plans in accordance with EITF No. 97-14, Accounting for Deferred Compensation Arrangements Where Amounts Earned Are Held in a Rabbi Trust and Invested (EITF 97-14). Pursuant to EITF 97-14, as of June 30, 2008 and December 31, 2007, the Company had recorded a deferred compensation liability of \$37.3 million and \$36.5 million, respectively. The change in the deferred compensation obligation related to changes in the fair value of the diversified investments held in trust and to earnings credited to participants is

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form 10-Q

recorded in compensation expense. The diversified investments held in the trusts were \$33.3 million and \$34.5 million as of June 30, 2008 and December 31, 2007, respectively, and are recorded at their fair value,

Table of Contents

based on quoted market prices. The change in the fair value of the diversified assets held in trust is recorded in accordance with SFAS No. 115 Accounting for Certain Investments in Debt and Equity Securities as trading security income (loss) and is included in other income and expenses, net in the accompanying statements of income.

The Company sponsors an unfunded non-qualified defined benefit plan (SERP) for certain senior executives. No assets are held with respect to the plan; therefore benefits are funded as paid to participants. Effective December 31, 2006, the Company accounts for the SERP in accordance with SFAS No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106, and 132(R) . Based on participant elections at June 30, 2008, no benefit payments are currently scheduled through December 31, 2008.

Stock Compensation

The Company accounts for share-based payment transactions in accordance with SFAS No. 123 (Revised 2004), Share-Based Payment (SFAS No. 123R). SFAS No. 123R requires that the compensation cost relating to share-based payment transactions be recognized in financial statements based on the fair value of the equity or liability instruments issued.

Recently Issued Accounting Standards

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS No. 157) which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. In November 2007, the FASB agreed to partially defer the effective date, for one year, of SFAS No. 157 for non-financial assets and liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Company has adopted the provisions of SFAS No. 157 as of January 1, 2008, for financial instruments. Although the adoption of SFAS No. 157 did not impact the Company's financial condition, results of operations, or cash flow, the Company is now required to provide additional disclosures as part of its financial statements. The additional disclosure can be found in Note 13 of the financial statements.

In February 2007, the FASB issued SFAS No. 159, The Fair Value for Financial Assets and Financial Liabilities (SFAS No. 159) which provides reporting entities an option to report certain financial instruments and other items at fair value that are not currently required to be measured at fair value. SFAS No. 159 is effective as of the beginning of a reporting entity's first fiscal year beginning after November 15, 2007. The Company has not currently elected the fair value measurement option for any financial assets or liabilities that were not previously recorded at fair value.

In December 2007, the FASB issued SFAS No. 160, Non-controlling Interests in Consolidated Financial Statements An Amendment of ARB No. 51 (SFAS No. 160). SFAS No. 160 establishes new accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008. The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), Business Combinations (SFAS No. 141R). SFAS No. 141R will change the accounting for business combinations by requiring an acquiring entity to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited exceptions. SFAS No. 141R will also change the accounting treatment and disclosure for certain specific items in a business combination. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008.

In June 2007, the FASB ratified EITF 06-11 Accounting for the Income Tax Benefits of Dividends on Share-Based Payment Awards (EITF No. 06-11). EITF 06-11 provides that tax benefits associated with dividends on share-based payment awards be recorded as a component of additional paid-in capital. EITF No. 06-11 is effective, on a prospective basis, for fiscal years beginning after December 15, 2007. The implementation of this standard did not have a material impact on our consolidated financial position and results of operations.

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133 (SFAS No. 161). SFAS No. 161 requires entities that utilize derivative instruments to provide qualitative disclosures about their objectives and strategies for using such instruments, as well as any details of credit-risk-related contingent features contained within derivatives. SFAS No. 161 also requires entities to disclose additional information about the amounts and location of derivatives located within the financial statements, how the provisions of SFAS 133 have been applied, and the impact that hedges have on an entity's financial position, financial performance, and cash flows. SFAS No. 161 is effective for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Company is currently evaluating the impact, if any, the adoption of this statement will have on our

consolidated financial statements.

In April 2008, the FASB issued FASB Staff Position (FSP) 142-3, Determination of the Useful Life of Intangible Assets (FSP 142-3). FSP 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, Goodwill and Other Intangible Assets . FSP 142-3 is effective for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact of FSP 142-3 on its consolidated financial position and results of operations.

In May 2008, the FASB issued SFAS No. 162, The Hierarchy of Generally Accepted Accounting Principles (SFAS No. 162). SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements. SFAS No. 162 is effective 60 days following the SEC s approval of the Public Company Accounting Oversight Board amendments to AU Section 411, The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles . The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

In June 2008, the FASB issued FSP EITF 03-6-1, Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities (FSP EITF 03-6-1). FSP EITF 03-6-1 clarified that all outstanding unvested share-based payment awards that contain rights to nonforfeitable dividends participate in undistributed earnings with common shareholders. Awards of this nature are considered participating securities and the two-class method of computing basic and diluted earnings per share must be applied. FSP EITF 03-6-1 is effective for fiscal years beginning after December 15, 2008. The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

FORWARD-LOOKING STATEMENTS

Certain matters discussed in this quarterly report constitute forward-looking statements within the meaning of federal securities law. Generally, our use of words such as expect, estimate, believe, anticipate, will, forecast, plan, project, assume or similar words of futurity identify matters that are forward-looking and that we intend to be included within the Safe Harbor protections provided by Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934. Such forward-looking statements are based on management s current beliefs, assumptions and expectations regarding future events, which in turn are based on information currently available to management. Such statements may relate to projections for the Company s revenue, earnings and other financial and operational measures, Company debt levels, payment of stock dividends, and future operations or other matters. We caution you not to place undue reliance on any forward-looking statements, which are made as of the date of this quarterly report. Forward-looking statements do not guarantee future performance and involve known and unknown risks, uncertainties and other factors.

Several factors could cause actual results, performance or achievements of the Company to differ materially from those expressed in or contemplated by the forward-looking statements. Such risks include, but are not limited to, changes to general, domestic and foreign economic conditions; operating risks common in the lodging and franchising industries; changes to the desirability of our brands as viewed by hotel operators and customers; changes to the terms or termination of our contracts with franchisees; our ability to keep pace with improvements in technology utilized for reservations systems and other operating systems; fluctuations in the supply and demand for hotels rooms; and our ability to manage effectively our indebtedness, among other factors. These and other risk factors are discussed in detail in Item 1A Risk Factors of the Company s Form 10-K for the year ended December 31, 2007, filed with the Securities and Exchange Commission on February 29, 2008. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk from changes in interest rates and the impact of fluctuations in foreign currencies on the Company s foreign investments and operations. The Company manages its exposure to these market risks through the monitoring of its available financing alternatives including in certain circumstances the use of derivative financial instruments. We are also subject to risk from changes in debt and equity prices from our non-qualified retirement savings plan investments in debt securities and common stock, which had a carrying value of \$33.3 million and \$34.5 million at June 30, 2008 and December 31, 2007, respectively, which we account for as trading securities under SFAS No. 115. The Company does not foresee any significant changes in exposure in these areas or in how such exposure is managed in the near future.

Table of Contents

At June 30, 2008 and December 31, 2007, the Company had \$264.3 million and \$272.4 million of debt outstanding at a weighted average effective interest rate of 3.04% and 6.0%, respectively. A hypothetical change of 10% in the Company's effective interest rate from June 30, 2008 levels would increase or decrease interest expense by \$0.8 million. Prior to scheduled maturities, the Company expects to refinance its long-term debt obligations.

The Company does not presently have any derivative financial instruments.

ITEM 4. CONTROLS AND PROCEDURES

The Company formed a disclosure review committee whose membership includes the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), among others. The CEO and CFO consider the disclosure review committee's procedures in performing their evaluations of the Company's disclosure controls and procedures and in assessing the accuracy and completeness of the Company's disclosures.

An evaluation was performed under the supervision and with the participation of the Company's CEO and CFO of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's management, including the CEO and CFO, concluded that the Company's disclosure controls and procedures were effective as of June 30, 2008.

There has been no change in the Company's internal control over financial reporting that occurred during the quarter ended June 30, 2008, that materially affected, or is reasonably likely to materially affect the Company's internal controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In April 2007, two putative federal securities law class actions were filed in the United States District Court for the District of Colorado on behalf of persons who purchased the Company's stock between April 25, 2006, and July 26, 2006. These substantially similar lawsuits assert claims pursuant to Sections 10(b) and 20(a) of the Securities Exchange Act of 1934, and Rule 10b-5 promulgated thereunder, against the Company, its current Vice Chairman and former Chief Executive Officer, and its former Executive Vice President and Chief Financial Officer. These claims are related to the Company's July 25, 2006 announcement of its results of operations for the second quarter of 2006.

Since the initial filings, the Company's motion to transfer the litigation from Colorado to the United States District Court for the District of Maryland was granted. The United States District Court for the District of Maryland has also granted a lead plaintiff motion; the lead plaintiff is the Macomb County Employees' Retirement System. On July 14, 2008, the Court granted the parties' Stipulation Regarding Filing of Consolidated Amended Complaint and Responses. The parties agreed that a Consolidated Amended Complaint would be filed by August 1, 2008, that the Company would file its responsive pleading by September 30, 2008, that the lead plaintiff would file any opposition by December 1, 2008, and that the Company would file any reply by January 15, 2009. The Company believes that the allegations contained within these class action lawsuits are without merit and intends to vigorously defend the litigation.

The Company's management does not expect that the outcome of any of its currently ongoing legal proceedings individually or collectively, will have a material adverse effect on the Company's financial condition, results of operations or cash flow.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2007, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.
