NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. The results for BJ's Wholesale Club, Inc. (BJ's or the Company or we) for the quarter and nine months ended November 1, 2008 are not necessarily indicative of the results for the full fiscal year or any future period because, among other things, our business, in common with the business of retailers generally, is subject to seasonal influences. Our sales and operating income have typically been highest in the fourth quarter holiday season and lowest in the first quarter of each fiscal year.
2. These interim financial statements are unaudited and in the opinion of management reflect all normal adjustments we considered necessary for a fair presentation of our financial statements in accordance with generally accepted accounting principles.
3. These interim financial statements should be read in conjunction with the consolidated financial statements and related notes in our Annual Report on Form 10-K for the fiscal year ended February 2, 2008.
4. Our unrecognized tax benefits decreased from \$20.7 million at February 3, 2008 to \$18.3 million at November 1, 2008 due primarily to the settlement of state income tax audits. At November 1, 2008, we have determined that it is reasonably possible that the total amount of unrecognized tax benefits could decrease within the next 12 months by as much as \$14.6 million (\$9.5 million, net of federal tax benefit), due to the resolution of state tax audits.
5. During the third quarter ended November 1, 2008, we granted 15,084 restricted shares and no stock options. In last year's third quarter, we granted 40,000 restricted shares and 42,000 stock options. In this year's first nine months, we granted 562,317 restricted shares and 10,000 stock options. In last year's first nine months, we granted 879,400 restricted shares and 426,000 stock options.

Presented below is information regarding pretax share-based compensation for this year's and last year's third quarters and for this year's and last year's first nine months:

Closure of ProFoods

Both ProFoods clubs were closed in the fourth quarter ended February 3, 2007. The operating results of these clubs are included in discontinued operations for all periods presented. We recorded a charge of \$25.7 million to close these clubs in the fourth quarter of 2006. This charge consisted mainly of fixed asset write-downs of \$14.0 million, lease obligation costs of \$8.8 million and \$1.0 million for employee termination benefits.

During the second quarter of 2007, we settled the lease for one of the two closed ProFoods locations, and subleased the other ProFoods location for a portion of its remaining lease term, which reduced the reserve by \$4.0 million. Increases to the reserves in 2008 consisted of interest accretion charges, and reductions to the reserve consisted of lease obligation payments. ProFoods clubs' reserves as of November 1, 2008 were related to lease obligation costs for the remaining store under lease, reduced by the estimated sublease rentals.

2002 Closure of Three BJ's Locations

On November 9, 2002, we closed both of our clubs in the Columbus, Ohio, market and a club in North Dade, Florida. In 2004 and 2005, we made lump sum payments to settle two of the three leases. The reserve for BJ's closed clubs at November 1, 2008 was related to the lease obligations for the remaining closed club. Increases to the reserves in 2008 consisted of interest accretion charges and reductions to the reserve consisted of lease obligation payments on the remaining club.

The charges for both ProFoods and BJ's lease obligations were based on the present value of rent liabilities under the relevant leases, including estimated real estate taxes and common area maintenance charges, reduced by estimated income from the potential subleasing of these properties. An annual discount rate of 6% was used to calculate the present value of the obligations. The liabilities for the closed club leases are included in current and noncurrent closed store obligations on our balance sheet.

2008 Closure of One BJ's Location

On October 7, 2008 we sold our owned club in Greenville, South Carolina, for \$8.5 million and subsequently ceased operations on October 14, 2008. The operating results of the club are presented in discontinued operations in the statement of income for all periods presented. For the thirteen weeks ended November 1, 2008 and November 3, 2007, the club had total revenues of \$4.7 million and \$5.5 million, respectively, and pretax operating losses of \$0.3 million and \$0.1 million, respectively. For the thirty-nine weeks ended November 1, 2008 and November 3, 2007, the club had total revenues of \$17.7 million and \$17.2 million, respectively, and pretax

operating losses of \$0.4 million and \$14,000, respectively. We recorded a pretax loss of \$0.9 million in this year's third quarter to close the club which consisted of a \$0.4 million loss on inventory liquidation, \$0.3 million for employee termination benefits, \$0.6 million in other exit costs, offset by a \$0.4 million gain on the sale of fixed assets. The reserve balance at November 1, 2008 consists mainly of employee termination benefits and other exit costs that are expected to be paid in the fourth quarter of the current fiscal year.

9. The following tables summarize the activity for the nine months ended November 1, 2008 and November 3, 2007 associated with our 2006 restructuring activities, which consisted of the relocation of our Franklin, MA, cross-dock facility to a new facility in Uxbridge, MA, in July 2006, and the closing of all of BJS's 46 in-club pharmacies. All pharmacies were closed by February 21, 2007 (dollars in thousands):

Franklin Cross-dock Relocation

In connection with vacating the Franklin cross-dock facility in 2006, we established reserves of \$2.4 million for our remaining lease liabilities for this property. The charges for this reserve were based on our rent liabilities under the lease, reduced by estimated potential sublease rentals, and were recorded in selling, general and administrative (SG&A) expenses. In the second quarter of 2007, we subleased the Franklin facility for a portion of its remaining lease term at a rate favorable to our initial estimate of sublease income. As a result, we recorded income of \$0.7 million and reduced the reserve by the same amount. In the second quarter of 2008, we subleased this facility for an additional portion of its remaining lease term. As a result, we recorded income of \$0.2 million and reduced the reserve by the same amount. In the third quarter of 2008 we reduced the reserve by an additional \$0.1 million. The remaining liability for this facility is included in current and noncurrent closed store lease obligations in the balance sheet. Our lease expires in January 2010. We do not expect any material future expenses related to the Franklin facility.

Closure of BJs Pharmacies

In the fourth quarter of 2006, we recorded a charge of \$7.2 million in connection with closing our in-club pharmacies, which consisted mainly of fixed asset write-downs of \$4.2 million and employee termination benefits of \$2.7 million. In the first quarter of 2007, we recorded \$1.0 million of pharmacy-related income, primarily composed of \$2.4 million of proceeds received from the sale of prescription files and inventory, offset by \$1.4 million of costs related to the removal of fixtures. Income and expense items related to the pharmacy closings were recorded in SG&A expenses. No liability remains in the pharmacy closing reserve as of November 1, 2008. We do not expect to record any further adjustments in connection with the pharmacy closings.

10. Early in 2004 we were notified by credit card issuers that credit and debit card accounts used legitimately at BJs were subsequently used in fraudulent transactions at non-BJ locations. In response, we retained a leading computer security firm to conduct a forensic analysis of our information technology systems with a goal of determining whether a breach had in fact occurred. While no conclusive evidence of a breach was found, the computer security firm concluded that: (1) our centralized computer system that serves as the aggregation point for all BJs credit and debit card transactions chain-wide had not been breached and (2) any breach would have likely occurred in a more decentralized fashion involving club-level systems. On March 12, 2004, after our receipt of the computer security firm's preliminary report of findings, we issued a public statement alerting consumers to the potential security breach. On August 5, 2008, the US Attorney's Office in Boston charged 11 individuals with breaching the credit card security systems of a number of retailers, including BJs in 2004.

To date, we have recorded total pretax charges of \$13.0 million to establish a reserve for claims seeking reimbursement for fraudulent credit and debit card charges and the cost of replacing cards, monitoring expenses and related fees and expenses. No charges have been recorded in connection with this matter since 2006. As of November 1, 2008, the balance in the reserve was \$4.4 million, which represented our best estimate of the remaining costs and expenses related to this matter. This reserve is included in accrued expenses and other current liabilities on our balance sheet.

As of November 21, 2008, the amount of outstanding claims, which are primarily from credit card issuing banks, was approximately \$13 million. We are unable to predict whether further claims will be asserted. We have contested and will continue to vigorously contest the claims made against us and continue to explore our defenses and possible claims against others.

The ultimate outcome of this matter could differ from the amounts recorded. While that difference could be material to the results of operations for any affected reporting period, it is not expected to have a material impact on our consolidated financial position or liquidity.

11. Net periodic benefit cost recognized for our unfunded defined benefit postretirement medical plan was as follows:

	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	Nov. 1, 2008	Nov. 3, 2007	Nov. 1, 2008	Nov. 3, 2007
	(Dollars in Thousands)		(Dollars in Thousands)	
Service cost	\$ 176	\$ 153	\$ 527	\$ 458
Interest cost	101	82	303	246
Amortization of net loss	6	5	18	14
Net periodic benefit cost	\$ 283	\$ 240	\$ 848	\$ 718

12. We have a \$225 million unsecured credit agreement with a group of banks which expires April 27, 2010. The agreement includes a \$50 million sub-facility for letters of credit, of which no amount was outstanding at November 1, 2008. We are required to pay an annual facility fee which is currently 0.15% of the total commitment. Interest on borrowings is payable at BJs option either at (a) the Eurodollar rate plus a margin which is currently 0.475% or (b) a rate equal to the higher of (i) the sum of the Federal Funds Effective

Rate plus 0.50% or (ii) the agent bank's prime rate. We are also required to pay a usage fee whenever the amount of loans and undrawn or unreimbursed letters of credit outstanding exceeds 50% of the total commitment. The usage fee, if applicable, would currently be at an annual rate of 0.125% of the amount borrowed. The facility fee and Eurodollar margin are subject to change based upon our fixed charge coverage ratio. The agreement contains financial covenants which include a minimum fixed charge coverage requirement and a maximum adjusted debt to capital limitation. We are required to comply with these covenants on a quarterly basis. Under the credit agreement, we may pay dividends or repurchase our own stock in any amount so long as we remain in compliance with all requirements under the agreement. We have no credit rating triggers that would accelerate the maturity date if borrowings were outstanding under our credit agreement. We were in compliance with the covenants and other requirements set forth in our credit agreement at November 1, 2008.

In addition to the credit agreement, we maintain two separate facilities totaling \$95 million for letters of credit, primarily to support the purchase of inventories, of which \$20.3 million was outstanding at November 1, 2008, and also maintain a \$25 million uncommitted credit line for short-term borrowings which expires on April 30, 2009. As of November 1, 2008, we also had a stand-alone letter of credit in the amount of \$5.7 million outstanding, which is used to support our self-insurance program for workers' compensation.

There were no borrowings outstanding under our bank credit agreement or our uncommitted credit line at November 1, 2008, February 2, 2008 and November 3, 2007.

13. Effective February 3, 2008 (the first day of our 2008 fiscal year) we adopted Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FASB 157). FASB 157 provides a definition of fair value, provides guidance for measuring fair value in U.S. GAAP and expands disclosures about fair value measurements. In February 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position No. FAS 157-2, Effective Date of FASB Statement No. 157 which provides a one-year deferral of the effective date of FASB 157 for non-financial assets and non-financial liabilities except those that are recognized or disclosed in the financial statements at fair value at least annually.

The adoption of FASB 157 for our financial assets and financial liabilities did not have a material impact on our financial statements. We do not expect that the implementation of this standard for non-financial assets and nonfinancial liabilities will have a material effect on our financial statements upon full adoption in 2009.

In October 2008, the FASB issued FASB Staff Position No. FAS 157-3, Determining the Fair Value of a Financial Asset in a Market That Is Not Active (FASB 157-3). FASB 157-3 clarifies the application of FASB 157 when the market for a financial asset is inactive. The guidance in FASB 157-3 is effective immediately and had no effect on our financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (FASB 159). FASB 159 permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently measured at fair value. We adopted FASB 159 effective February 3, 2008. Upon adoption, we did not elect the fair value option for any items within the scope of FASB 159 and, therefore, the adoption of FASB 159 did not have an impact on our financial statements.

14. The FASB issued the following standards which will become effective in 2009:

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141(R), Business Combinations (FASB 141(R)). The provisions, which change the way companies account for business combinations,

are effective at the beginning of fiscal 2009. FASB 141(R) requires the acquiring entity in a business combination to recognize assets acquired and liabilities assumed in the transaction; establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed; and requires the acquirer to disclose all information needed by investors to understand the nature and financial effect of the business combination. We do not expect the adoption of this statement to have a material impact on our financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, Noncontrolling Interests in Consolidated Financial Statements – an amendment of Accounting Research Bulletin No. 51 (FASB 160). FASB 160 requires that noncontrolling interests in subsidiaries be reported in the equity section of the company's balance sheet. It also changes the manner in which the net income of the subsidiary is reported and disclosed in the controlling company's income statement. FASB 160 will be effective at the beginning of fiscal 2009. We do not expect the adoption of this statement to have a material impact on our financial statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities (FASB 161). FASB 161 is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand the effects of the derivative instruments on an entity's financial position, financial performance, and cash flows. It is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early adoption encouraged. We do not expect the adoption of this statement to have a material impact on our financial statements.

In May 2008, the FASB issued Statement of Financial Accounting Standards No. 162, The Hierarchy of Generally Accepted Accounting Principles (FASB 162). FASB 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles in the United States. FASB 162 is effective 60 days following SEC approval of the Public Company Accounting Oversight Board amendments to remove the hierarchy of GAAP from the auditing standards. We do not expect the adoption of this statement to have a material impact on our financial statements.

15. During this year's first nine months, we repurchased 3,094,599 shares of our common stock for \$109.1 million. In last year's first nine months, we repurchased 3,201,337 shares of our common stock for \$110.3 million. On August 19, 2008, the Board of Directors authorized the repurchase of up to an additional \$200 million of the Company's common stock. As of November 1, 2008, our remaining repurchase authorization from the Board of Directors was \$265.6 million.

16. The classification of certain amounts in the prior year's financial statements has been revised to conform to the current year presentation.

Within the Statement of Income we have revised the classification of a number of miscellaneous revenues that had been previously reported on a net basis in Selling, general and administrative expenses to Other revenues and Cost of sales, including buying and occupancy costs. Additionally, the membership fees component of our previously disclosed Membership fees and other is now classified in its own line and the remainder of the former Membership fees and other line now resides in Other revenues. Please refer to the Current Report on Form 8-K that we submitted on November 19, 2008 for further information on these revised classifications.

Critical Accounting Policies and Estimates

The preparation of our unaudited quarterly financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Some accounting policies have a significant impact on amounts reported in these financial statements. A description of our critical accounting policies is contained in our Annual Report on Form 10-K for the fiscal year ended February 2, 2008 in the Critical Accounting Policies and Estimates section of Management's Discussion and Analysis of Financial Condition and Results of Operations.

Results of Operations

Net sales for the quarter ended November 1, 2008 rose 13.4% to \$2.4 billion from \$2.1 billion reported in last year's third quarter. Net sales for the first nine months of the current year totaled \$7.30 billion, 14.7% higher than last year's comparable period. These increases were due to comparable club sales increases and the opening of new clubs and gasoline stations. The increase in comparable club sales represented approximately 88% of the increase in total net sales from the third quarter of 2007 to the third quarter of 2008, and approximately 83% of the increase in year-to-date sales. New clubs and gasoline stations accounted for the remainder of the increase in both periods. Food accounted for 66% of total merchandise sales in this year's third quarter versus 63% in last year's third quarter. For the year-to-date period, food accounted for 65% of total merchandise sales this year versus 63% in last year's comparable period.

Comparable club sales increased by 11.9% over last year in the third quarter, including a 5.3% contribution from gasoline sales, and increased by 12.3% for the first nine months of the year, including a 5.8% contribution from sales of gasoline. Comparable club merchandise sales, excluding gasoline, increased by 6.6% in the third quarter and 6.5% year-to-date. On a comparable club basis, food sales increased by approximately 11% in this year's third quarter and by approximately 10% year-to-date. Comparable club general merchandise sales decreased by approximately 1% in the third quarter and increased by approximately 1% in the year-to-date period. On a comparable club basis, excluding sales of gasoline, customer count increased by approximately 5% in this year's third quarter and increased 4% in the year-to-date period. On a comparable club basis, excluding sales of gasoline, average sales per transaction increased by approximately 2% in this year's third quarter and the year-to-date period. Stronger performing departments as compared to last year's third quarter included breakfast needs, candy, coffee, computer equipment, fresh meat, dairy, oils, paper products, pet food, prepared meals, produce, salty snacks, and small appliances. Weaker performing departments compared to last year included cigarettes, electronics, furniture, jewelry, storage, seasonal, televisions, and water.

Membership fee income was \$44.5 million in this year's third quarter versus \$44.3 million in last year's comparable period. For the year-to-date period, membership fee income was \$132.9 million this year compared with \$131.3 million last year. The modest increase in membership fee income in this year's third quarter and year-to-date period primarily reflects a lack of new club openings and a decision to lower membership fees in our Atlanta market at the beginning of this year. Through the end of this year's third quarter, BJ's Rewards members accounted for approximately 5% of all primary memberships and approximately 13% of merchandise sales, which is consistent with the prior year.

Other revenues were \$11.8 million in this year's third quarter versus \$11.0 million in last year's third quarter. The increase was driven primarily by an increase in propane revenue. Year-to-date other revenues totaled \$36.4 million this year versus \$36.3 million last year.

Cost of sales (including buying and occupancy costs) was 91.67% of net sales in this year's third quarter versus 92.30% in last year's third quarter. The 63 basis point decrease in cost of sales as a percentage of sales reflected a decrease of 21 basis points in cost of sales resulting from strong gasoline margins; a decrease of approximately 20 basis points due to favorable merchandise margins; and a decrease of 23 basis points in buying and occupancy costs due to expense leveraging from the strong increase in net sales.

The falling price of gasoline in the third quarter contributed to significantly higher than usual margin rates from gasoline and a strong increase in gallons sold. In merchandise margins, stronger than planned sales of high margin perishables created a favorable mix impact which more than offset below plan sales of general merchandise.

For the first nine months of this year, cost of sales (including buying and occupancy costs) was 92.27% of net sales versus 92.42% last year. The 15 basis point decrease reflected a decrease of 19 basis points in cost of sales due to favorable merchandise gross margin rates and a decrease in buying and occupancy costs of approximately 33 basis points. These decreases were partially offset by an unfavorable impact of strong sales of low margin gasoline of approximately 37 basis points as gasoline prices for the year-to-date period were still higher than last year's comparable period despite the third quarter price decline.

SG&A expenses were 8.64% of net sales in this year's third quarter versus 8.50% in last year's comparable period. The increase of 14 basis points in the third quarter was attributable mainly to an increase of 12 basis points in bonus expense due to strong year-to-date earnings, an increase of 11 basis points for unplanned severance costs, an increase of 11 basis points for our investment in technology initiatives called the IT Roadmap, and 7 basis points to increase our sales tax reserve. These unfavorable items were partially offset by a decrease of 17 basis points in club payroll expenses due to favorable expense leveraging from our strong sales growth; 4 basis points in stock based compensation; 3 basis points in advertising and 3 basis points in other miscellaneous expenses.

Year-to-date SG&A expenses were 8.18% of net sales this year versus 8.42% last year. The decrease of 24 basis points in the year-to-date period was primarily due to favorable expense leveraging from our strong sales growth.

Total SG&A expenses rose by \$27.4 million, or 15.2%, from the third quarter of 2007 to the third quarter of 2008. Payroll and benefits (including stock compensation) accounted for 74% of all SG&A expenses in this year's third quarter versus 76% last year. For the year-to-date period, total SG&A expenses rose by \$60.7 million, or 11.3%, this year. Payroll and payroll benefits (including stock compensation) accounted for 75% of all SG&A expenses in this year's first nine months versus 76% in last year's first nine months.

Preopening expenses were \$1.0 million in this year's third quarter versus \$0.9 million in last year's third quarter. Year-to-date preopening expenses totaled \$1.7 million this year versus \$3.4 million last year. In this year's first nine months, we opened one new club, which was opened in the first half of the year. In last year's first nine months, we opened three new clubs, all in the first half of the year.

Net interest income was \$0.2 million in this year's third quarter versus \$1.0 million in last year's third quarter. Net interest income for the first nine months of this year was \$0.8 million versus \$2.3 million in last year's comparable period. The decreases in both periods were principally due to lower interest rates on lower amounts of invested cash as compared to last year.

Our income tax provision was 39.8% of pretax income from continuing operations in the third quarter of 2008 versus 40.5% in last year's third quarter. The income tax provision was 38.9% of pretax income from continuing operations in the first nine months of 2008 versus 37.3% in last year's comparable period. This year's rate included favorable settlements of state income tax audits in the second quarter and third quarter, which reduced our provision for income taxes by \$2.0 million and \$0.4 million, respectively. Last year's rate also included a favorable settlement, which reduced our provision for income taxes by \$3.6 million. For the full 2008 year we expect our income tax rate to be approximately 39.6%.

Income from continuing operations was \$29.0 million, or \$0.49 per diluted share, in this year's third quarter versus \$22.9 million, or \$0.35 per diluted share, in last year's comparable period. For the first nine months, income from continuing operations was \$83.0 million, or \$1.40 per diluted share, this year versus \$70.7 million, or \$1.08 per diluted share, last year.

In this year's third quarter, we recorded a net loss from discontinued operations of \$0.8 million, or \$0.01 per diluted share, versus a net loss of \$0.2 million in last year's third quarter. For the first nine months of this year, we recorded a net loss from discontinued operations of \$1.1 million, or \$0.02 per diluted share, versus net income of \$1.9 million, or \$0.03 per diluted share, in last year's comparable period. This year's amounts included third quarter post-tax expense of \$0.5 million related to a club closing in South Carolina. Prior year amounts included post-tax income of \$2.4 million from the second quarter settlement of a lease for one of the two ProFoods clubs, which were closed in January 2007.

Net income for the third quarter was \$28.2 million, or \$0.48 per diluted share, this year versus \$22.7 million, or \$0.35 per diluted share, last year. This year's results included post-tax expense of \$0.5 million related to the club closing and post-tax income of \$0.4 million for a state income tax audit settlement.

Net income for the first nine months of this year was \$81.9 million, or \$1.38 per diluted share, versus \$72.6 million, or \$1.11 per diluted share, last year. This year's results included post-tax income of \$2.4 million from the second and third quarter tax audit settlements, which were recorded in continuing operations, and post-tax expense of \$0.5 million from a third quarter club closing which was recorded in discontinued operations. Last year's results included post-tax income of \$3.6 million from the second quarter tax audit settlements and post-tax income of \$0.6 million from the first quarter sale of pharmacy related assets, both of which were recorded in continuing operations, and post-tax income of \$2.4 million from the ProFoods lease settlement which was recorded in discontinued operations.

The Company operated 177 BJ's clubs on November 1, 2008 versus 175 BJ's clubs on November 3, 2007.

Seasonality

Our business, in common with the business of retailers generally, is subject to seasonal influences. Our sales and operating income have typically been highest in the fourth quarter holiday season and lowest in the first quarter of each fiscal year.

Recent Accounting Standards

See Note 14 in Notes to Consolidated Financial Statements for a summary of recently issued standards.

Liquidity and Capital Resources

Net cash provided by operating activities was \$124.2 million in the first nine months of 2008 versus \$182.3 million in last year's comparable period. Cash provided by changes in merchandise inventories, net of accounts payable, decreased by \$51.4 million in the first nine months of this year versus an increase of \$4.3 million in last year's comparable period. Average inventory per club increased about 2.9% from last year to support expected strong comp sales. The increase in average inventory was also due to inventory buy-ins and inventory build-up for the expected fourth quarter new club openings. The ratio of accounts payable to merchandise inventories was 68.2% at the end of this year's third quarter versus 68.8% at the end of last year's third quarter.

Cash expended for property additions was \$90.7 million in this year's first nine months versus \$63.2 million in last year's comparable period. In this year's first nine months, we opened one new club, which is owned subject to a ground lease, and started construction on three additional clubs that are expected to open in the fourth quarter. We have also made considerable progress on scheduled club renovations. In last year's first nine months, we opened three new clubs which are all leased. Our full-year capital expenditures are expected to total approximately \$140 to \$160 million in 2008. The timing of club and gas station openings and the amount of related expenditures could vary from these estimates due, among other things, to the complexity of the real estate development process.

On August 19, 2008, the Board of Directors authorized the repurchase of up to an additional \$200 million of the Company's common stock. During the first nine months of 2008, we repurchased 3,094,599 shares of our common stock for \$109.1 million. In last year's first nine months, we repurchased 3,201,337 shares of our common stock for \$110.3 million. As of November 1, 2008, our remaining repurchase authorization from the Board of Directors was \$265.6 million. Our full-year common stock repurchases are expected to total approximately \$130 to \$150 million in 2008.

We have a \$225 million unsecured credit agreement with a group of banks which expires April 27, 2010. The agreement includes a \$50 million sub-facility for letters of credit, of which no amount was outstanding at November 1, 2008. We were in compliance with the covenants and other requirements set forth in our credit agreement at November 1, 2008. See Note 12 for further discussion of our credit agreement.

In addition to the credit agreement, we maintain two separate facilities totaling \$95 million for letters of credit, primarily to support the purchase of inventories, of which \$20.3 million was outstanding at November 1, 2008, and also maintain a \$25 million uncommitted credit line for short-term borrowings which expires on April 30, 2009. As of November 1, 2008, we also had a stand-alone letter of credit in the amount of \$5.7 million outstanding, which is used to support our self-insurance program for workers' compensation.

There were no borrowings outstanding under our bank credit agreement or our uncommitted credit line at November 1, 2008, February 2, 2008 and November 3, 2007.

During the third quarter of 2002, we established reserves for our liabilities related to leases for three BJ's clubs which closed on November 9, 2002. In 2004 and 2005, we made lump sum payments to settle the leases for two of the three closed clubs. Our reserve of \$7.5 million as of November 1, 2008 is based on the present value of our rent liability under the lease for the remaining club, including real estate taxes and common area maintenance charges, reduced by estimated future income from subleasing the property. An annual discount rate of 6% was used to calculate the present value of the obligation.

In 2006, we established reserves for our liabilities related to leases for the two ProFoods clubs, which closed in the fourth quarter, and for our Franklin, MA, cross-dock facility, which was relocated to a new facility in Uxbridge, MA, in the second quarter of 2006. We recorded a charge of \$25.7 million to close the ProFoods clubs, which included a charge of \$8.8 million for lease obligation costs based on the present value of rent liabilities under the two leases, including estimated real estate taxes and common area maintenance charges, reduced by estimated future income from the potential subleasing of these properties. An annual discount rate of 6% was used to calculate the present value of the obligations. As of November 1, 2008, our reserve for ProFoods obligations was \$3.2 million.

In connection with the closing of the Franklin, MA, cross-dock facility, we recorded charges of \$2.4 million in 2006 for our remaining lease obligations for this property. These charges were based on our rent liabilities under the lease, reduced by future sublease income. Our lease expires in January 2010. As of November 1, 2008, our reserve for these obligations was \$0.5 million.

We believe that the liabilities recorded in the financial statements adequately provide for these lease obligations. However, there can be no assurance that our actual liability for closed store lease obligations will not differ materially from amounts recorded in the financial statements due to a number of factors, including future economic factors which may affect the ability to successfully sublease, assign or otherwise settle liabilities related to these properties. We consider our maximum reasonably possible undiscounted pretax exposure for our closed store lease obligations to be approximately \$18.1 million at November 1, 2008.

Early in 2004 we were notified by credit card issuers that credit and debit card accounts used legitimately at BJ's were subsequently used in fraudulent transactions at non-BJ's locations. In response, we retained a leading computer security firm to conduct a forensic analysis of our information technology systems with a goal of determining whether a breach had in fact occurred. (See Note 10 for additional information.) We have recorded total charges of \$13.0 million to date to establish a reserve for claims seeking reimbursement for fraudulent credit and debit card charges and the cost of replacing cards, monitoring expenses and related fees and expenses. As of November 1, 2008, the balance in the reserve was \$4.4 million, which represented our best estimate of the remaining costs and expenses related to this matter at that time. As of November 21, 2008, the amount of outstanding claims, which are primarily from credit card issuing institutions, was approximately \$13 million. We are unable to predict whether further claims will be asserted. We have contested and will continue to vigorously contest the claims made against us and continue to explore our defenses and possible claims against others.

The ultimate outcome of this matter could differ from the amounts recorded. While that difference could be material to the results of operations for any affected reporting period, it is not expected to have a material impact on consolidated financial position or liquidity.

Cash and cash equivalents totaled \$52.8 million as of November 1, 2008. We believe that our current resources, together with anticipated cash flow from operations, will be sufficient to finance our operations through the term of our credit agreement. However, we may from time to time seek to obtain additional financing.

Cautionary Note Regarding Forward-Looking Statements

This report contains a number of forward-looking statements, including statements regarding planned capital expenditures, planned club and gas station openings and remodelings, expected provision for income taxes, BJ's reserve for credit and debit card claims, lease obligations in connection with closed BJ's and ProFoods clubs or crossdocks, and other information with respect to our plans and strategies, including those disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations.

Any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words believes, anticipates, plans, estimates, expects and similar expressions are intended to identify forward-looking statements. There are a number of important factors that could cause actual events or our actual results to differ materially from those indicated by such forward-looking statements, including, without limitation, levels of gasoline profitability; levels of customer demand; economic and weather conditions; state and local regulation in our markets; competitive conditions; our success in settling lease obligations for closed clubs; and our success in settling credit and debit card claims. Each of these and other factors are discussed in more detail in our Annual Report on Form 10-K for the fiscal year ended February 2, 2008.

Any forward-looking statements represent our estimates only as of the day this quarterly report was first filed with the Securities and Exchange Commission (SEC) and should not be relied upon as representing our estimates as of any subsequent date. While we may elect to update forward-looking statements at some point in the future, we specifically disclaim any obligation to do so, even if our estimates change.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We believe that our potential exposure to market risk as of November 1, 2008 is not material because of the short contractual maturities of our cash and cash equivalents on that date. There were no borrowings outstanding under our bank credit agreement or our uncommitted credit line at November 1, 2008. We held no derivatives at November 1, 2008.

Item 4. Controls and Procedures

The Company's management, with the participation of the Company's chief executive officer and chief financial officer, evaluated the effectiveness of the Company's disclosure controls and procedures as of November 1, 2008. The term disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of the Company's disclosure controls and procedures as of November 1, 2008, the Company's chief executive officer and chief financial officer concluded that, as of such date, the Company's disclosure controls and procedures were effective at the reasonable assurance level.

No change in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the fiscal quarter ended November 1, 2008 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

We publicly announced in a press release dated August 26, 1998 that the Board of Directors authorized a program to repurchase up to \$50 million of the Company's common stock. We subsequently announced that the Board authorized increases in the program of \$50 million each in press releases dated September 16, 1999, May 25, 2000, and May 25, 2001; additional increases of \$100 million each in press releases dated September 26, 2001, August 20, 2002, March 1, 2005, April 5, 2006 and May 23, 2007; an increase of \$250 million announced in a press release dated November 20, 2007; and an increase of \$200 million announced in a press release dated August 19, 2008. Under the program, repurchases may be made at management's discretion, in the open market (including through Rule 10b5-1 plans) or in privately negotiated transactions. No expiration dates were set under any of the Board's authorizations. From the inception of the program through November 1, 2008, we repurchased approximately 28.4 million shares for a total of \$884.4 million, leaving a remaining authorization of \$265.6 million.
