Note 1. Basis of Presentation and Nature of Operations

Interim Results

The unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Note 2. Acquisitions

Macro International Inc. (Macro). Macro provides research and evaluation, management consulting, marketing communications, and information services to key agencies of the federal government. The company is recognized for its expertise in research, evaluation, consulting and implementation services, particularly in federal health programs, covering a wide range of health issues in the U.S. and internationally. In addition to its health-related expertise, Macro has strong credentials in housing, labor, and veterans affairs issues. The Company undertook the acquisition to expand its health-related and large project implementation capabilities across key federal markets, to add service offerings and clients in one of its largest markets, and to provide significant growth potential and cross-selling opportunities.

The acquisition was accounted for as a purchase in accordance with the provisions of SFAS No. 141(R), *Business Combinations* (SFAS No. 141(R)). The aggregate purchase price was approximately \$155.0 million in cash, which was funded by our revolving credit facility. The stock purchase agreement contains a working capital adjustment provision that will affect the final purchase price. The effect of the working capital adjustment is not expected to be material at this time. The Company has engaged an independent valuation firm to assist management in the allocation of the purchase price to goodwill and to other acquired intangible assets, but this allocation has not yet been finalized. The excess of the purchase price over the estimated fair value of the net tangible assets acquired was approximately \$127.9 million. The Company has preliminarily allocated approximately \$100.9 million to goodwill and \$27.0 million to other intangible assets. The intangible assets consist of approximately \$27.0 million of customer-related intangibles that are being amortized over seven years. Macro was purchased under the election provisions of Internal Revenue Code 338(h)(10), and therefore, goodwill and the amortization of intangibles are deductible for tax purposes. The results of operations for Macro will be included in the Company s statement of earnings after March 31, 2009. The effect of the acquisition is reflected in the Company s March 31, 2009 balance sheet and related notes. Due to the recent closing of the acquisition, the Macro financial information necessary for the pro forma presentation is in the process of being compiled.

The Company incurred approximately \$1.0 million of transaction expenses related to the acquisition. The expenses are recorded on the statement of earnings as indirect and selling expenses. In addition, the Company incurred \$0.6 million in debt issuance costs related to the acquisition. The debt issuance costs were recorded as other assets and will be amortized over the remaining life of the credit agreement.

The fair values as reported below represent management s estimates of the fair values as of the acquisition date and are based on our initial analysis of supporting information. Due to the timing of the acquisition, management is still in the process of analyzing the fair value of the acquired intangibles. The final results of our analysis may differ from our preliminary purchase price allocation.

The preliminary purchase price allocation is as follows:

Cash	\$ 136
Contract receivables	36,585
Other current assets	633

Customer-related intangibles
