INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

Q: Why did you send me this Proxy Statement?

A: We sent you the Notice of Internet Availability of Proxy Materials because the Board of Directors of the Company (the Board or the Board of Directors) is soliciting your proxy to vote at the 2009 Annual Meeting of Shareholders (the Annual Meeting). The Annual Meeting will be held at the Meydenbauer Center, 11100 NE 6th Street, Bellevue, Washington 98004 on September 15, 2009, at 9:00 a.m.

This Proxy Statement summarizes the information regarding the matters to be voted upon at the Annual Meeting. You do not need to attend the Annual Meeting, however, to vote your shares. You may simply vote your shares by telephone or over the Internet in accordance with the instructions contained on the proxy card or print, complete, sign, and return the proxy card.

On July 20, 2009 there were 76,163,000 shares of common stock of the Company outstanding. If you owned shares of our common stock at the close of business on the record date, you are entitled to one vote for each share of common stock you owned as of that date. We made this Proxy Statement available on or about August 4, 2009 to all shareholders entitled to vote their shares at the Annual Meeting.

Q: How many votes do I have?

A: You have one vote for each share of common stock that you owned on the record date. The proxy card will indicate the number of shares.

Q: How do I vote by proxy?

A: If you properly cast your vote by either by voting your proxy by telephone or via the Internet or executing and returning the proxy card, and your vote is not subsequently revoked by you, your vote will be voted in accordance with your instructions. If you sign the proxy card but do not make specific choices, your proxy will vote your shares as recommended by the Board as follows:

FOR the election of each of the nominees for director

FOR ratification of the selection of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm and

FOR the approval of the amendment to the Company's Certificate of Incorporation.

If any other matter is presented, your proxy will vote in accordance with his best judgment. At the time we printed this Proxy Statement, we knew of no matters that needed to be acted on at the Annual Meeting other than those discussed in this Proxy Statement.

Q: May my broker vote for me?

A: Under the rules of the Financial Industry Regulatory Authority, if your broker holds your shares in its street name, the broker may vote your shares on routine matters even if it does not receive instructions from you. At the Annual Meeting your broker may, without instructions from you, vote on Proposal 1, Proposal 2 and Proposal 3.

Q: What are abstentions and broker non-votes?

A: An abstention represents the action by a shareholder to refrain from voting for or against a proposal. Broker non-votes represent votes that could have been cast on a particular matter by a broker, as a shareholder of record, but that were not cast because the broker (i) lacked discretionary voting authority on the matter and did not receive voting instructions from the beneficial owner of the shares or (ii) had discretionary voting authority but nevertheless refrained from voting on the matter.

Table of Contents

Q: May I revoke my proxy?

A: Yes. You may change your mind after you send in your proxy card or vote your shares by telephone or via the Internet by following these procedures. To revoke your proxy:

Vote again by telephone or Internet;

Send in another signed proxy card with a later date;

Send a letter revoking your proxy to Microvision's Secretary at the Company's offices in Redmond, Washington; or

Attend the Annual Meeting and vote in person.

Q: How do I vote in person?

A: If you plan to attend the Annual Meeting and vote in person, we will give you a ballot when you arrive. If your shares are held in a brokerage account or by another nominee, the Notice of Internet Availability of Proxy Materials is being forwarded to you. Follow the instructions on the Notice of Internet Availability of Proxy Materials in order to vote your shares by proxy or in person. Alternatively, you may contact the person in whose name your shares are registered and obtain a proxy from that person and bring it to the Annual Meeting.

Q: What is the quorum requirement for the meeting?

A: The quorum requirement for holding the meeting and transacting business is a majority of the outstanding shares entitled to be voted. The shares may be present in person or represented by proxy at the meeting. Both abstentions and broker non-votes are counted as present for the purpose of determining the presence of a quorum.

Q: What vote is required to approve the election of directors?

A: The five nominees for director who receive the most votes will be elected. So, if you do not vote for a nominee, or you withhold authority to vote for a nominee, your vote will not count either for or against the nominee. Abstentions and broker non-votes will have no effect on the outcome of voting for directors.

Q: What vote is required to ratify the selection of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm?

A: The selection of PricewaterhouseCoopers LLP will be ratified if the number of votes cast in favor of this proposal exceeds the number of votes cast against this proposal. Abstentions and broker non-votes will not be counted for or against the proposal and will have no effect on the outcome of the vote.

Q: What vote is required to approve the amendment to the Company's Certificate of Incorporation?

A: Approval of the amendment to the Company's Certificate of Incorporation requires approval by a majority of the outstanding shares of the Company's common stock. As a result, abstentions and broker non-votes will have the same effect as a vote against the proposal.

Q: Is voting confidential?

A: We keep all the proxies and ballots private as a matter of practice.

Q: What are the costs of soliciting these proxies?

A: The Company will pay all the costs of soliciting these proxies. We will reimburse banks, brokers, nominees, and other fiduciaries for the expenses they incur in forwarding the proxy materials to you.

A: If you have any questions about the Annual Meeting, voting or your ownership of Microvision common stock, please call us at (425) 936-6847 or send an e-mail to ir@microvision.com.

In accordance with corporate governance principles, the Board does not involve itself in day-to-day operations of the Company. The directors keep themselves informed through discussions with the Chief Executive Officer, other key executives, and the Company's principal advisers by reading the reports and other materials that the Company sends them regularly and by participating in Board and committee meetings. Table of Contents

Independence Determination

No director will be deemed to be independent unless the Board affirmatively determines that the director has no material relationship with the Company, directly or as an officer, share owner, or partner of an organization that has a relationship with the Company. The Board observes all criteria for independence set forth in the Nasdaq listing standards and other governing laws and regulations.

In its annual review of director independence, the Board considers all commercial, banking, consulting, legal, accounting, charitable, or other business relationships any director may have with the Company. As a result of its annual review, the Board has determined that all of the directors, with the exception of Alexander Tokman, are independent (the Independent Directors). The Independent Directors are identified by an asterisk on the table above.

The Nasdaq listing standards have both objective tests and a subjective test for determining who is an independent director. The objective tests state, for example, that a director is not considered independent if he or she is an employee of the Company or is a partner in or executive officer of an entity to which the Company made, or from which the Company received, payments in the current or any of the past three fiscal years that exceed 5% of the recipient's consolidated gross revenue for that year. The subjective test states that an independent director must be a person who lacks a relationship that, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. None of the non-employee directors were disqualified from independent status under the objective tests. In assessing independence under the subjective test, the Board took into account the standards in the objective tests, and reviewed and discussed additional information provided by the directors and the Company with regard to each director's business and personal activities as they may relate to the Company and the Company's management. Based on all of the foregoing, as required by Nasdaq rules, the Board made a subjective determination as to each independent director that no relationship exists which, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The Board has not established categorical standards or guidelines to make these subjective determinations, but considers all relevant facts and circumstances.

In addition to the Board-level standards for director independence, the directors who serve on the Audit Committee each satisfy standards established by the Securities and Exchange Commission (the SEC) providing that to qualify as independent for the purposes of membership on that Committee, members of audit committees may not accept directly or indirectly any consulting, advisory, or other compensatory fee from the Company other than their director compensation.

Committees

The Board of Directors has an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. The Board of Directors has adopted a written charter for each of these Committees. The full text of each charter is available on the Company's website located at www.microvision.com.

The Audit Committee

The Board of Directors has an Audit Committee which assists the Board of Directors by monitoring and overseeing: (1) the accounting and financial reporting processes of the Company and the audits of the financial statements of the Company, (2) the integrity of the financial statements of the Company, (3) compliance by the Company with legal and regulatory requirements, and (4) the performance of the Company's internal finance and accounting personnel and its independent auditors. The Audit Committee conducts discussions related to the Company's earnings announcements and periodic filings, as well as numerous other informal meetings and communications among the Chair, various Audit Committee members, the independent auditors and/or members of the Company's management. Messrs. Cowell and Turner and Ms. Horan currently serve on the Audit Committee, with Mr. Cowell serving as Chairman. The Audit Committee met six times during 2008.

Table of Contents

Among other matters, the Audit Committee monitors the activities and performance of the Company's external auditors, including the audit scope, external audit fees, auditor independence matters and the extent to which the independent auditor may be retained to perform non-audit services. The Audit Committee and the Board of Directors have ultimate authority and responsibility to select, evaluate and, when appropriate, replace the Company's independent auditor. The Audit Committee also reviews the results of the external audit work with regard to the adequacy and appropriateness of the Company's financial, accounting and internal controls. Management and independent auditor presentations to and discussions with the Audit Committee also cover various topics and events that may have significant financial impact or are the subject of discussions between management and the independent auditor. In addition, the Audit Committee generally oversees the Company's internal financial controls and financial disclosure procedures.

The audit committee financial experts designated by the Board are Col. Richard A. Cowell (Ret.) and Brian Turner, each an independent director. Col. Cowell holds a degree in accounting and has served for eight years as Chair of the Company's Audit Committee. During his twenty-five years of service in the United States Army, Col. Cowell oversaw and actively supervised various complex governmental projects that involved government accounting with a breadth and level of complexity comparable to accounting issues raised by the Company's financial statements, including issues relating to estimates, accruals, and reserves. Since retiring from the Army, Col. Cowell has served as a Principal at Booz Allen Hamilton, where he provides consulting services relating to significant government projects and grants which involve significant and complex accounting issues. Mr. Turner has eight years experience as a chief financial officer of three public companies and has thirteen years of experience in various roles at PricewaterhouseCoopers LLP, including Director, Corporate Finance. Mr. Turner has been actively involved in and has supervised the preparation of financial statements that present a breadth and complexity of issues comparable to accounting issues raised by the Company's financial statements.

The Compensation Committee

The Compensation Committee also serves as the Plan Administrator for the Company's stock option plans. The Compensation Committee Report is set forth below on page 17. Messrs. Gorton and Turner and Ms. Horan currently serve as members of the Compensation Committee, with Mr. Turner serving as chairman. The Compensation Committee met three times during 2008.

The Nominating and Corporate Governance Committee

In fulfilling its duties, the Nominating and Corporate Governance Committee, among other things, will:

identify, review, and recommend director candidates for the Board;

recommend directors for election at the annual meeting of shareholders and to fill new or vacant positions;

Each Independent Director is granted a nonstatutory option to purchase 15,000 shares of common stock on the date on which he or she is first elected or appointed to the Board of Directors. These options are fully vested and immediately exercisable upon the date of grant. Each Independent Director also receives, upon his or her initial appointment or election and upon each subsequent reelection to the Board of Directors, an option to purchase 15,000 shares that will vest in full on the earlier of (i) the day prior to the date of the Company's annual meeting of shareholders next following the date of grant, or (ii) one year from the date of grant, provided the Independent Director continues to serve as a director on the vesting date. If an Independent Director ceases to be a director for any reason other than death or disability before his or her term expires, then any outstanding unvested options issued to such Independent Director will be forfeited. Options vested as of the date of termination for any reason other than death or disability are exercisable through the date of expiration. The exercise price for each option is equal to the closing price of the Company's common stock as reported on the Nasdaq Global Market on the date of grant. The options generally expire on the tenth anniversary of the date of grant.

In addition, each Independent Director receives the following cash compensation for his or her service as a director:

A fee of \$20,000 that accrues as of the date of appointment or election to the Board of Directors, and as of the date of each subsequent reelection;

A fee of \$3,000 for the Board chair or \$2,000 per director for each Board meeting attended by the director; and

A fee of \$3,000 for the committee chair or \$2,000 per committee member for each committee meeting attended by the director that is held on a day other than a day on which a Board meeting is held.

All directors are reimbursed for reasonable travel and other out-of-pocket expenses incurred in attending meetings of the Board of Directors.

Compensation Committee Interlocks And Insider Participation

All members of the Compensation Committee during 2008 were independent directors, and none of them were the Company's employees or former employees. During 2008, none of our executive officers served on the compensation committee (or equivalent), or the board of directors, of another entity whose executive officer(s) served on the Company's Compensation Committee or Board of Directors.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires that the Company's directors, executive officers, and greater-than 10% shareholders file reports with the SEC relating to their initial beneficial ownership of the Company's securities and any subsequent changes. They must also provide the Company with copies of the reports.

Based solely on a review of the copies of such forms in the Company's possession, and on written representations from reporting persons, the Company believes that all of these reporting persons complied with their filing requirements during 2008, except Messrs. Brown, Madhavan, Tokman, Walker, Wilson, executive officers of the Company, and Messrs. Cowell, Gorton, Onetto, and Turner and Ms. Horan, independent directors of the Company, each belatedly filed one Statement of Changes of Beneficial Ownership of Securities on Form 4, each reporting one transaction.

Proposal Two Ratification of the Selection of Independent Registered Public Accounting Firm

The Audit Committee of the Board of Directors has selected PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the current fiscal year, subject to ratification by the Company's stockholders at the Annual Meeting. The Company has been advised by PricewaterhouseCoopers LLP that it is a registered public accounting firm with the Public Company Accounting Oversight Board (the PCAOB) and complies with the auditing, quality control, and independence standards and rules of the PCAOB and the SEC. A representative of PricewaterhouseCoopers LLP is expected to be present at the Annual Meeting to respond to appropriate questions and to make a statement if he or she so desires.

Although stockholder ratification of the selection of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm is not required, the Board of Directors is nevertheless submitting the selection of PricewaterhouseCoopers LLP to the stockholders for ratification. Unless contrary instructions are given, shares represented by proxies solicited by the Board of Directors will be voted for the ratification of the selection of PricewaterhouseCoopers LLP as the independent registered public accounting firm of the Company for the year ending December 31, 2009. Should the selection of PricewaterhouseCoopers LLP not be ratified by the stockholders, the Audit Committee will reconsider the matter. Even in the event the selection of PricewaterhouseCoopers LLP is ratified, the Audit Committee, in its discretion, may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change is in the best interests of the Company and its stockholders.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE RATIFICATION OF THE SELECTION OF PRICEWATERHOUSECOOPERS LLP AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM.

Proposal Three Amendment to the Company's Certificate of Incorporation

The Company's Certificate of Incorporation currently permits the Company to issue up to an aggregate of 150,000,000 shares of capital stock, consisting of 125,000,000 shares of common stock and 25,000,000 shares of preferred stock. On July 19, 2009, the Company's Board of Directors unanimously approved an amendment to the Company's Certificate of Incorporation to permit the Company to issue up to an aggregate of 225,000,000 shares of capital stock, consisting of 200,000,000 shares of common stock and 25,000,000 shares of preferred stock. The text of the proposed amendment is set forth below.

As of June 30, 2009, there were approximately 76,163,000 shares of the Company's common stock issued and outstanding and approximately 20,861,000 shares of common stock reserved for future issuance under the Company's outstanding options, warrants and convertible securities. Thus, approximately 27,976,000 authorized shares of common stock currently remain available for issuance.

The Board of Directors would like to increase the number of authorized shares of common stock to provide the Company with flexibility to issue shares of common stock for general corporate purposes, which could include, among other uses, financings, strategic partnering arrangements, equity incentive plans, acquisitions of assets or businesses, stock splits or stock dividends. The availability of additional authorized shares of common

Table of Contents

stock would allow the Company to accomplish these goals, and other business and financial objectives, in the future without stockholder approval, except as may be required in particular cases by the Company's charter documents, applicable law or the rules of any stock exchange or other system on which the Company's securities may then be listed. In addition to the more traditional uses described above, the Company could issue shares of its stock as a defense against efforts to obtain control of the Company. The Board of Directors does not intend or view the increase in authorized shares of stock as an anti-takeover measure, nor is the Company aware of any proposed or contemplated transaction of this type.

If this proposal is approved, the newly authorized shares of common stock would have the same rights as the presently authorized shares, including the right to cast one vote per share of common stock. Although the authorization of additional shares would not, in itself, have any effect on the rights of any holder of the Company's common stock, the future issuance of additional shares of common stock (other than a stock split or dividend) would have the effect of diluting the voting rights and could have the effect of diluting earnings per share and book value per share of existing stockholders. If this proposal is not approved, the Company may be limited in its ability to respond quickly to opportunities to engage in various transactions involving issuances of common stock, such as financings, strategic partnering arrangements, equity incentive plans and acquisitions of assets or businesses.

If approved, the first paragraph of Article IV of the Company's Certificate of Incorporation will be amended to read in its entirety as follows:

The total number of shares of capital stock which this corporation shall have the authority to issue is two hundred twenty five million (225,000,000) shares, consisting of (i) two hundred million (200,000,000) shares of common stock, \$.001 par value (Common Stock) and (ii) twenty five million (25,000,000) shares of preferred stock, \$.001 par value (Preferred Stock).

Approval of this amendment to the Certificate of Incorporation requires approval by a majority of the outstanding shares of common stock. As a result, abstention and broker non-votes will have the same effect as a vote against the proposal. Holders of shares of the Company's common stock do not have appraisal rights under Delaware law or under the governing documents of the Company in connection with this proposal.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE APPROVAL OF THE AMENDMENT TO THE COMPANY'S CERTIFICATE OF INCORPORATION.

OTHER BUSINESS

The Company knows of no other matters to be voted on at the Annual Meeting or any adjournment or postponement of the meeting. If, however, other matters are presented for a vote at the meeting, the proxy holders (the individuals designated on the proxy card) will vote your shares according to their judgment on those matters.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Executive Compensation Objectives

The Company's executive compensation program is designed to attract, retain, motivate and recognize high performance executive officers. The Compensation Committee is responsible for and oversees the Company's compensation program. The Company's philosophy is to provide compensation programs that incentivize and reward both the short and long-term performance of the executive officers relative to the Company's performance against its business objectives. Thus, the Committee utilizes compensation components that measure execution against the Company's annual strategic operating plan, which contains the Company's business objectives. In addition, the Compensation Committee seeks to align the interests of the Company's executive officers with its shareholders.

Executive Compensation Components

Overview. The principal elements of the Company's compensation are base salary, incentive bonus awards, and equity awards. The Company's executive compensation policy recognizes that stock price is only one measure of performance, and given industry business conditions and the long-term strategic direction and goals of the Company, it may not necessarily be the best current measure of executive performance. Thus, the Compensation Committee considers the median level of compensation of its peer group and the achievement of the Company's business objectives when determining executive compensation.

In November 2007, the Compensation Committee retained Milliman, Inc. (Milliman) to act as an independent compensation consultant. Milliman was tasked with examining the compensation of the named executive officers and providing an analysis of that compensation relative to other companies. Milliman studied data from the proxy statements of a select group of publicly-traded companies and from nationally recognized surveys. Data from these two sources was equally weighted in determining the median market levels of compensation.

The Company's peer group was selected based on input from the Compensation Committee and senior management. In selecting the Company's peer group, the Compensation Committee and senior management considered companies that were at a similar business stage and companies that were of a similar size in the high-technology and general industries in which the Company operates. In providing its report to the Compensation Committee, Milliman also took into account that information for the Company's peer group was reported as of different dates for different companies. The companies comprising the Company's peer group were 3D Systems Corporation, Arrowhead Research Corporation, eMagin Corporation, Excel Technology, Inc., Hoku Scientific, Inc., Immersion Corporation, Keithley Instruments, Inc., Mechanical Technology Inc., MoSys, Inc., Phoenix Technologies Ltd., ThermoGenesis Corp., Universal Display Corporation, and Zygo Corp. Data from these companies was compiled and averaged over a three-year period. Since proxy data is not job specific (i.e., various positions could be represented among the named executive officers), job specific data from nationally recognized surveys was also used. The nationally recognized published surveys utilized were the Aon Executive Compensation Survey, Economic Research Institute Executive Assessor, Culpepper Technology Executive Pay Report, Mercer Executive Compensation Survey, and Watson Wyatt Top Management Compensation Survey.

Base Salary. Base salaries for the named executive officers are primarily based on the position, taking into account competitive market compensation paid by other companies in the Company's peer group for similar positions. Recommendations from the Chief Executive Officer as to increases in base salaries for each executive officer (other than for the Chief Executive Officer) based on the Chief Executive Officer's evaluation of the executive officer's performance are also taken into account.

As with total executive compensation, the Compensation Committee believes that executive base salaries should generally target the median base salary of the Company's peer group. Each named executive officer's base salary is also determined by reviewing the other components of the executive officer's compensation to

Table of Contents

ensure that the total compensation is in line with the Compensation Committee's overall compensation philosophy. The Compensation Committee makes a recommendation on the Chief Executive Officer's compensation to the full Board of Directors, which then has the authority to approve it.

Based on the compensation objectives mentioned above and Alexander Tokman's employment agreement, Mr. Tokman's base salary for 2008 was \$347,288. The 2008 base salaries for Jeff Wilson, Thomas Walker, Sridhar Madhavan, and Ian Brown were \$204,000, \$229,288, \$202,460, and \$180,000, respectively.

Incentive Bonus. The Compensation Committee believes that a portion of an executive officer's total compensation, an incentive bonus, should be based on the Company's success in meeting certain performance goals. The Compensation Committee believes that structuring a significant portion of each executive officer's annual cash compensation as an incentive bonus, and the contingent nature of that compensation, induces an executive officer to execute on both the short and long-term goals of the Company. It has structured the executive compensation program to reflect this philosophy by creating an incentive bonus framework that translates performance goals into levels of incentive bonuses.

Each of the named executive officers is eligible for an annual incentive bonus. The amount of the bonus depends on the level of achievement of the stated Company performance goals, with a target set as a percentage of base salary. The Compensation Committee approves the target bonus percentages and the actual bonus awards for all executive officers, except the Chief Executive Officer. The Compensation Committee makes a recommendation to the full Board regarding the Chief Executive Officer. Target bonus percentages are set to be approximately at the median of the peer group.

In 2008, the Compensation Committee approved 40% as a target bonus award (as a percentage of base salary) for the named executive officers other than the Chief Executive Officer. The Committee recommended to the Board, and the Board approved, 65% as a target bonus award (as a percentage of base salary) for the Chief Executive Officer. The amount of the target bonus actually awarded to executives is determined by the Company's performance. In its discretion, the Compensation Committee may, however, award bonus payments to the named executive officers above or below the amounts determined using the calculations described below. However, for 2008, bonus payments were awarded based solely on the amounts determined using these calculations. Due to poor economic conditions and in order to reduce the cash needs of the Company, all bonus payments for 2008 were made with stock options in lieu of cash payments.

Funding of the Company's Incentive Bonus Plan for 2008 was based on achieving certain performance goals. The performance goals under the Plan arose from business objectives set forth in the Company's operating plan. The Company weighted each objective with more weight placed on the Company's strategic objectives. In 2008, the business objectives included: (1) positioning the PicoP segment for 2009 growth; (2) progressing the PicoP automotive head-up display along the development roadmap; (3) delivering on customer commitments for PicoP eyewear; (4) achieving operating loss, year-end cash and revenue; and (5) improving the effectiveness and culture of the organization.

Overall performance was calculated by multiplying the percentage completion of each business objective by its assigned weight in order to generate a number corresponding to achievement of the business objective. See detailed discussion below of each performance objective. The numbers assigned to achievement of the business objectives were then summed together to achieve a total score. The target bonus payout was then made based upon the Committee's discretionary determination of the appropriate payout, with reference to a sliding scale approved by the Committee that would have paid 200% of the target bonus at achievement of a score of 125% of the business objectives and 40% of target bonus at the score of 50%. The Committee determined that in 2008 the Company, in the aggregate, achieved a total score of approximately 63% of the business objectives which corresponded to a payout of 62% of target bonuses.

To determine the total score of the 2008 business objectives the Compensation Committee assessed the Company's performance against the various objectives. The Committee determined the Company only partially

Table of Contents

met objective 1, primarily as a result of delays in the availability of green lasers for use in both the accessory and embedded PicoP. The Company was, however, able to secure manufacturing agreements for the accessory and embedded PicoP, commence discussions with prospective customers regarding the embedded PicoP and make advances in the definition and maturation the PicoP platform. The Committee determined that the Company only partially met objective 2 because despite delivering on two customer contracts and completing head-up display prototypes, the Company was unable to secure desired long-term customers due to instability in the automotive sector of the economy and unavailability of green lasers. The Committee determined that the Company substantially met objective 3 as a result of its success in meeting planned deliverables under its government contracts, which was offset by entering into a contract that will result in commercial product, but not in the target timeframe, and partial progress in development of a proprietary optics product. The Committee determined the Company only partially met objective 4, primarily as a result of the shortfall in bar code scanner revenues from plan, which resulted from a delay in launching ROV, offset slightly by the success in transferring engineering and support resources for bar code products to India. The Committee determined that the Company substantially met objective 4 primarily by ending the year with a cash balance well in excess of plan and managing the operating loss to better than target despite underperforming in meeting revenue targets. The Committee determined that objective 5 was met largely as a result of the Company's success in retaining and motivating its top talent and overall employee population in a challenging economic climate.

Based upon the level of success in meeting the stated performance objectives described above, the Compensation Committee recommended to the Board, and the Board approved, an incentive bonus to be paid in stock options in lieu of cash for Alexander Tokman of \$140,000. The Compensation Committee awarded Jeff Wilson, Thomas Walker, Sridhar Madhavan and Ian Brown bonuses to be paid in stock options in lieu of cash of \$50,600, \$56,900, \$50,200 and \$44,600, respectively. With respect to the Chief Executive Officer, the Compensation Committee recommended to the Board, and the Board approved, and with respect to each of the other executive officers, the Compensation Committee approved, paying the incentive bonus in additional stock option awards in an amount equal to the incentive bonus divided by the value of the stock option, determined for this purpose to be \$2.00. The exercise price of the options was the closing market price of the Company's common stock on the Nasdaq Global Market on the grant date. The options were fully vested upon grant with a ten year term.

Equity Awards. The Compensation Committee believes that equity participation is a key component of the Company's executive compensation program. Equity awards are designed to attract and retain executive officers and to motivate them to enhance shareholder value by aligning the financial interests of executive officers with those of shareholders. Each year the Committee reviews the size and composition of the equity grants to ensure that they are aligned with the Company's compensation philosophy of compensating executives at the median of the Company's peer group. Similar to base salary, a review of equity award levels is conducted to ensure that a named executive officer's equity compensation comports with the Compensation Committee's overall philosophy and objectives and is competitive with the Company's peer group.

Stock options and restricted stock awarded to the named executive officers in 2008 were granted under, and subject to, the 2006 Incentive Plan. The stock options typically vest 25% upon the first anniversary of the date of grant and 25% upon each subsequent anniversary. The option awards expire 10 years from the date of grant, and optionees who terminate their service after vesting have a limited time to exercise their options (typically three to twelve months). The options also contain a provision for acceleration of exercisability of all unvested options in the event of a change in control of the Company that does not result in an assumption, substitution or pay off of such awards by the acquiring company. The restricted stock has three-year cliff vesting, which is tied to continued employment. The exercise price of the options is the closing sale price of the Company's common stock on the Nasdaq Global Market on the date of the grant.

The Compensation Committee's practice is to make annual equity awards as part of its overall philosophy of performance-based compensation. Restricted stock and stock options are awarded by the Compensation Committee to executive officers based on a philosophy of providing equity incentives at the median of the Company's peer group. In 2008, the value of the long-term incentive award was split 70% stock options and 30% restricted stock.

Table of Contents

In 2008, the Compensation Committee approved 45% (as a percentage of base salary) for the level of equity awards to the named executive officers other than the Chief Executive Officer. The Committee recommended to the Board, and the Board approved, 110% (as a percentage of base salary) for the level of equity awarded to the Chief Executive Officer. The percentages were used to determine a total dollar value. Stock options were valued at \$2.00 and restricted stock was valued using the grant price. Those values were then utilized to calculate the respective number of shares of options and restricted stock to award to an executive.

Mr. Tokman was awarded 218,071 stock options, 70,000 of which were granted in lieu of Mr. Tokman's 2008 cash bonus. Jeff Wilson, Thomas Walker, Sridhar Madhavan and Ian Brown were awarded 61,378, 68,903, 60,079 and 53,436 stock options, respectively, including, 25,300, 28,450, 25,100 and 22,300 stock options granted in lieu of 2008 cash bonuses for Mr. Wilson, Mr. Walker, Mr. Madhavan and Mr. Brown, respectively. In 2008, Mr. Tokman was awarded 63,459 shares of restricted stock and Mr. Wilson, Mr. Walker, Mr. Madhavan and Mr. Brown were awarded 15,462, 17,337, 14,991 and 13,344 shares of restricted stock, respectively.

Tax Deductibility of Compensation

Limitations on the deductibility of compensation may occur under Section 162(m) of the Internal Revenue Code of 1986, which generally limits a public company's tax deduction for compensation paid to its named executive officers to \$1 million in any year. In addition, Section 162(m) specifically exempts certain performance-based compensation from the deduction limit. It is the intent of the Compensation Committee to have the Company's compensation program be deductible without limitation. However, the Compensation Committee will take into consideration various other factors, together with Section 162(m) considerations, in making executive compensation decisions and could, in certain circumstances, approve and authorize compensation that is not fully tax deductible.

Processes and Procedures

Role of the Compensation Committee and the Chief Executive Officer in the Compensation Process. The Chief Executive Officer, with the assistance and support of the human resources department, provides recommendations regarding the compensation of the executive officers, including himself. The Compensation Committee considers these recommendations and consults with the Chief Executive Officer as to his recommendations for the executive officers. The Compensation Committee considers the Chief Executive Officer's recommendations, together with the Committee's philosophy, objectives and market data in approving these recommendations. The Compensation Committee makes a recommendation on the Chief Executive Officer's compensation to the full Board of Directors, who then has the authority to approve it.

Role of Compensation Consultants in the Compensation Process. The Compensation Committee's charter provides the Committee with the authority to retain a compensation consulting firm in its discretion. In 2007, the Committee retained Milliman, Inc. Milliman's role is more fully described under Executive Compensation Components Overview.

Compensation Committee Report

The Compensation Committee has reviewed and discussed this Compensation Discussion and Analysis with management. Based on the review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement for filing with the Securities and Exchange Commission.

Option Exercises and Stock Vested During 2008

None of the Company's named executive officers exercised stock options or acquired shares upon vesting of stock awards during fiscal 2008.

Table of Contents**Potential Payments upon Termination or Change in Control**

All of the Company's named executive officers, except for Alexander Tokman, are employed at will and do not have employment agreements. Mr. Tokman's employment agreement is summarized below. Under the 2006 Plan, 100% of each of the named executive officers' options which have not been exercised will become fully vested and immediately exercisable upon a change of control of the Company that does not result in an assumption, substitution or pay off of such award by the acquiring company.

The following table sets forth aggregate estimated payment obligations to each of the Company's named executive officers assuming a termination without cause, or a change in control, occurred on December 31, 2008.

Name	Payments Due in Connection with a Termination of Employment without Cause (1)	Payments Due in Connection with a Change of Control and Termination of Employment (1)	Payments Due in Connection with Change of Control (1)
Alexander Y. Tokman	731,470	907,394	
Jeff T. Wilson			
Thomas M. Walker			
Ian D. Brown			
Sridhar Madhavan			

(1) The Company used the following assumptions to calculate these payments:

The Company included the estimated intrinsic value of accelerating any award of stock options that is accelerated upon a change in control. In the case of a change in control, the Company assumed that all such awards would be cashed out at closing using the closing price of the Company's common stock on the Nasdaq Global Market on December 31, 2008, which was \$1.68 per share. See the table titled "Outstanding Equity Awards at Fiscal Year-End 2008" for information regarding unvested equity awards.

Employment Agreement

Payment upon Termination. Under Mr. Tokman's employment agreement with the Company dated April 7, 2009, if he dies, becomes disabled, retires, terminates his employment other than for "good reason" or is terminated by the Company for "cause," he will be provided his earned but unpaid base salary, earned but unused vacation time, any bonus compensation for the prior year which is unpaid on the date of termination to the extent bonuses are paid to other officers, 18 months of certain group and medical benefits for Mr. Tokman's family and any business expenses which have not yet been reimbursed by the Company. If the Company terminates him "other than for cause," or if he terminates his employment for "good reason," he will receive, in addition to the amounts listed in the foregoing sentence, his base salary for 18 months following the date of his termination, plus an amount equal to his target bonus for the year prior to the termination, and the Company will continue to pay certain group medical and dental expenses in that 18-month period. The Company does not accelerate the vesting of equity incentives for its executive officers in the event of a termination of employment. In the event of a change in control of the Company, all unvested stock options vest upon the change in control if the change in control does not result in an assumption, substitution or pay off of such award by the acquiring company, and the Compensation Committee has the discretion to remove the vesting restrictions on all unvested restricted shares.

In determining whether a termination occurred with or without "cause," "cause" is deemed to exist under Mr. Tokman's employment agreement when there is a repeated willful failure to perform or gross negligence in the performance of his duties; fraud, embezzlement or other dishonesty with respect to the Company; a material breach of his obligations of confidentiality, non-competition, or non-solicitation against the Company; or commission of a felony or other crime involving moral turpitude.

In determining whether Mr. Tokman has "good reason" to terminate his employment, "good reason" is deemed to exist when: the Company has failed to continue him in a certain position; there is a substantial diminution in the nature and scope of his responsibilities; there is a material failure of the Company to provide

Table of Contents

him with base salary and benefits, excluding an inadvertent failure which is cured within a certain time period; or his office is relocated more than thirty-five miles from the then-current location of the Company's principal offices without his consent. Mr. Tokman may only terminate his employment for good reason if he (a) gives notice to the Company within ninety (90) days of the initial occurrence of the event or condition constituting good reason, setting forth in reasonable detail the nature of such good reason; (b) the Company fails to cure within thirty (30) days following such notice; and (c) Mr. Tokman terminates his employment within thirty (30) days following the end of the thirty (30)-day cure period (if the Company fails to cure).

Payment upon a Change in Control. In the event of a change of control and the Company terminates Mr. Tokman's employment other than for cause within two years following a change of control or Mr. Tokman terminates his employment for good reason within six months following a change of control, the Company must pay Mr. Tokman an amount equal to two times the sum of one year of base salary plus a payment equal to his target bonus. The foregoing amount will be paid in a single lump sum. The Company must also pay the full cost of Mr. Tokman's continued participation in the Company's group health and dental plans for two years or, if less, for so long as he remains entitled to continue such participation under applicable law. In addition, 100% of his options, restricted stock or other equity awards which have not been exercised and have not expired or been surrendered or cancelled, will become exercisable in accordance with the applicable award agreement.

The obligation of the Company to pay the severance amounts mentioned in this *Payments upon a Termination or Change in Control* section are subject to Mr. Tokman signing an employee release. Also, Mr. Tokman must comply with certain confidential information and assignment of intellectual property obligations. Further, Mr. Tokman is subject to a non-compete and non-solicit obligation for 12 months following his termination.
