SECTION 2 FINANCIAL INFORMATION

ITEM 2.05. COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES

On November 4, 2009, Alberto Culver Company committed to a plan to cease all manufacturing activities at its facility in Chatsworth, California. This plan is in addition to the company's initial plan to downsize the Chatsworth manufacturing facility, which was announced in June 2009. The company expects that together these plans will help to streamline operations, improve efficiencies and leverage the company's new manufacturing facility in Jonesboro, Arkansas. The remaining production that is still performed at the Chatsworth plant following the initial downsizing is expected to be shifted to the Jonesboro plant.

As part of this new plan, the company's workforce will be further reduced by approximately 110 employees. This is in addition to the 160 employees affected by the downsizing plan which was previously announced. The company estimates that additional pre-tax restructuring and other related charges of approximately \$7.0 million will be recognized related to the new plan, with approximately \$4.0 million of the total expected during the first quarter of fiscal year 2010. The total estimated pre-tax restructuring and other related charges for the new plan include approximately \$3.0 million of non-cash fixed asset charges, \$2.0 million of severance and other employee benefits and \$2.0 million of other exit costs. The company estimates that the combined pre-tax restructuring and other charges related to the Chatsworth facility, including the charges related to the downsizing plan which was previously announced, will be approximately \$15.0 million. The new plan is expected to be substantially completed by the end of the third quarter of fiscal year 2010.

The company expects that the estimated cash expenditures for this new plan, primarily for severance benefits and other exit costs, will be approximately \$4.0 million.
